United States Of America*

## **Abstract**

In this research monograph, the author devises a novel way to ascertain '*Work Consciousness(es)*' of '*Original Nature*'. Furthermore, the author also presents a scheme to distill the '*Foreign Work Consciousness*' components over-layed on some '*Original Work Consciousness*' of concern by the process of '*Reverse Engineering*'. One can implement the aforesaid using the author's concepts on '*Primality Engineering*'.

## **Theory**

By '*Work Consciousness*' we mean any work of art, literature, science mathematics, engineering, medicine, music, videos, images, dance sequences, etc., that are exhibited and/ or manifested and/ or observed and/ or recorded by '*Human-Consciousness*'.

It is possible that any '*Original Work Consciousness*' of concern may be rigged to some desired end thus eclipsing the '*Original Work Consciousness*' of concern. However, one can find the Recursion Scheme of such '*Rigged Work Consciousness*' and can evolve it to the level of the *Recursion Scheme Of the Universe* we know of, (i.e., until it shows signs of the *Recursion Scheme of the Universe*, (sans its magnitude). We will note that such a Recursion Scheme also Sub-Sets the Recursion Scheme of '*Reverse-Engineering*'. This squarely implies that the desired end has been achieved by the process of '*Reverse Engineering*' and hence such a '*Work Consciousness*' is not of original kind. Alternately, one can also consider the '*Work-Consciousness*' of concern itself and can also evolve it to the level of the *Recursion Scheme Of the Universe* we know of, (i.e., until it shows signs of the *Recursion Scheme of the Universe*, (sans its magnitude). We will note that such a Recursion Scheme also Sub-Sets the Recursion Scheme of '*Reverse-Engineering*'. This squarely implies that the desired end has been achieved by the process of '*Reverse Engineering*' and hence such a '*Work Consciousness*' is not of original kind. One should note that such Reverse Engineering aspects can be performed *many-many* number of times on a given '*Original Work Consciousness*' to transform it to the desired end. Therefore, the

process of genuinity validation may be needed to perform many-many times as well.

One can consider another case when some ‘Original Work Consciousness’ is corrupted by some aforementioned ‘*Foreign Work Consciousness*’ to a desired end. One can perform similar above analysis on this ‘*Corrupted Original Work Consciousness*’ and can note that the evolved (upto the level of the Recursion Scheme Of the Universe) versions of it and it’s Recursion Scheme will sub-set the Recursion Schemes of ‘*Corrupted/ Transformed Using Reverse Engineering To Some Desired End*’. By using proper Inner Producting Schemes [12], one can *De-Corrupt* the ‘*Corrupted Original Work Consciousness*’ to pure ‘*Original Work Consciousness*’. One should note that such Reverse Engineering aspects can be performed *many-many* number of times on a given ‘*Original Work Consciousness*’ to transform it to the desired end. Therefore, the process of genuinity validation may be needed to perform many-many times as well. One should note that such ‘*Corrupting Aspects*’ can be performed *many-many* number of times on a given ‘*Original Work Consciousness*’ to transform it to the desired end. Therefore, the process of distilling the ‘*Original Work Consciousness*’ may be needed to perform many-many times as well.

***Acknowledgements***

*The author would like to express his deepest gratitude to all the members of his loving family, respectable teachers, en-dear-able friends, inspiring Social Figures, highly esteemed Professors, reverence deserving Deities that have deeply contributed in the formation of the necessary scientific temperament and the social and personal outlook of the author that has resulted in the conception, preparation and authoring of this research manuscript document.*

***Tribute***

*The author pays his sincere tribute to all those dedicated and sincere folk of academia, industry and elsewhere who have sacrificed a lot of their structured leisure time and have painstakingly authored treatises on Science, Engineering, Mathematics, Art and Philosophy covering all the developments from time immemorial until then, in their supreme works. It is standing on such treasure of foundation of knowledge, aided with an iota of personal god-gifted creativity that the author bases his foray of wild excursions into the understanding of natural phenomenon and forms new premises and scientifically surmises plausible laws. The author strongly reiterates his sense of gratitude and infinite indebtedness to all such 'Philosophical Statesmen' that are evergreen personal librarians of Science, Art, Mathematics and Philosophy.*
