## Abstract

In this research manuscript, the author has shed light into scientifically explaining the aspect that *'One's Good Nature Is One's Real Wealth'*.

## Theory

One can note from the author's [17], [19], [27], [31] the author's

### *Fundamental Law Of The Universe*

*'Every Aspect In/ Of The Universe is Recursive', i.e., 'Any Aspect Of Concern Is A Recursive Function Of Itself And It's Complement Considered With Respect To The Universe'.*

If we take the *Aspect* of concern to be some *Set* representing some *Entitified Soul Consciousness*, the *Set* of it's *Perception* of it's *Environment*, i.e., the *Universe* around/ other than itself can be taken to be as the *Complement* of itself with respect to the *Universe (The Universal Set)*. Furthermore, as every *Entitified Soul Consciousness* is ever exercising *Inter-Action*, a mode of which can be considered as *Perception*, which further imposes *Action* unto the *Universe (The Universal Set)*. Therefore, *Perception* is the *Precursor* for *Average Directed Evolution* under the *Local Influence* of the *Recursional Field Strength Intensity* characteristic of any point (in *Timed Galaxies* and/ or *Supposed Time-Less Inter-Galactic Spaces*) of concern, the very act of exercising *Perception*, continually *Tunnels* i.e., *Expands the Infinity Geodesic Of Perception*. Since *Perception* is the foundation for any *Action/ Re-Action* of any *Entitified Soul Consciousness* under the direction of some pre-formed and/ or axiomatically existing *Supervised Assumptions Set* belonging to the *Entitified Soul Consciousness* of concern, the *Infinity Geodesics {Of Supervised Assumptions Set}, {Of Action Set}* and consequently *{Of Directed Recursional Evolution Component}* due to the *Entitified Soul Consciousness* of concern} also get continually *Tunneled*, i.e., *Expand* and consequently *{Of Gravity}* (this aspect will be unfolded as we proceed the narration). This component of *Recursional Evolution*, i.e., *Directed Recursional Evolution Component* due to the *Entitified Soul Consciousness* of concern that ***Keeps Changing*** the course of *Evolution Of The Heavens Of The Universe* can

be thought of as *Entitified Soul Consciousness ‘Gravity’ Field* of the *Entitified Soul Consciousness* of concern. Now the *Total Contribution* to the *Departure* from the *Natural Course Of Evolution* of a *Certain Eco-System* of concern, down the gradient Of the *Heavenly Local Recursional Field Intensity Strength Function* characteristic of any point (in *Timed Galaxies* and/ or *Supposed Time-Less Inter-Galactic Spaces*) due to *Collective Perception And Action Of Plurality Of Entitified Soul Consciousness(es)* of concern inhabiting the *Eco-System* {inclusive of any *External Collective Perception and Action Of Plurality Of Entitified Soul Consciousness(es)* of concern *Ex-Habiting* the *Eco-System* of concern but *Exercising Sizeable Amount Of Influence* towards the *Directed Evolution Component* of the *Eco-System* of concern} forms the *Collective Sense Of ‘Gravity’ Field* permeating at the *Eco-System*. One can draw a semblance of *Expansion of the Universe* after the *Big-Bang* to the *Natural Course Of Evolution Of the Heavens of the Universe* and the *Entitified Soul Consciousness(es) Gravity* thusly created as the *Dark Energy* that is again trying to collapse the ever *Expanding Universe*. Therefore, one can note that *Gravity* can be decomposed into two components one of *Heavenly Gravity* and the other of *Entitified Soul Consciousness(es) Gravity*. Also, one can note that all Aspects in the Universe can be considered to have Souls (see author’s work on this), even the *Heavenly Gravity* can also be considered as due to *Entitified Soul Consciousness(es)*. One should note that the *Entitified Soul Consciousness(es) Gravity* is *Quite Large* as compared to any *Local Entitified Soul Consciousness(es) Gravity* of any *Heavenly Eco-System* as the *Reference Frame* from which it causally makes sense is the *Reference Frame* that also *Perceives* the *Big-Bang*. Hence, it *Apparently* seems a *Standard Large Value (Stable) <Function>* compared to the *Local Collective Entitified Soul Consciousness(es) Gravity Function*. Therefore, one can note that *The Collective Entitified Soul Consciousness(es) Gravity Function* that characteristically influences the *Perception Geodesic* and the *Standard Large Value (Stable) <Function> Of Heavenly Gravity* are the *Same*, i.e., in the case of *Heavenly Gravity*, the *Collective Entitified Soul Consciousness(es)* of it tends to *Zero* compared to the value of the *Collective Entitified Soul Consciousness(es)* of the *Eco-System* exercising *Perception, Action, Forming Assumptions, Revising Perception, Re-Slating Action, Revising Assumptions*, in a continual manner into

eternity. Therefore, one can note that *The Standard Large Value (Stable) <Function> Of Heavenly Gravity* and *The Local Collective Entitified Soul Consciousness(es) Gravity Function* and/ or ‘*The Dark Energy*’ (slated appropriately in *Universal Gravity Units*) are basically an *Aspect Of Concern* and its *Complementary Aspect* and thus form the *Infinity Geodesic Of Universal Gravity*. The component of *The Collective Entitified Soul Consciousness(es) Gravity Function* (of any given *Eco-System* of concern) *Permeating* at any given *Eco-System* of concern, is what *Collectively Codes* for the *Sense Of Local Time* therein, in addition to the *Time Sense* Ordered by the *Reference Frame* that *Perceives* the *Big-Bang*.

One can note that *Collective Entitified Soul Consciousness(es) Character Manifestations*, especially those that are *Good* and *Noble*, i.e., those *Synonymous* with *Pure Benevolent Actions* *Recursively Impinge* and/ or *Impress Causality* that is *Commensurate* with the *Causality Impressed* by the aforementioned *Recursional Evolution Scheme* of *The Standard Large Value (Stable) <Function> Of Heavenly Gravity* and/ or since we have already referred both the types of aforementioned Gravities as one, recursively speaking, we can say that *Collective Entitified Soul Consciousness(es) Character Manifestations*, especially those that are *Good* and *Noble*, i.e., those *Synonymous* with *Pure Benevolent Actions* actually code *Causality* that is *Desirable* by such *Good Character Manifestees*, one can say that at some *Steady State Point Of The Universe*, our *Good Character* is what ordered the *Current Causality of the Heavens Of the Universe* we observe, for example one of its manifestations such as *The Standard Large Value (Stable) <Function> Of Heavenly Gravity*, its *Standard-Ity* and the *Order Of The Science Of The Universe*, just being a *Causal Reflection* down some *Sesquintillions (Or More)* of *Light Years* of our exhibition of our *Good Character, Recursively Speaking*. Hence exhibition of *Good* and *Noble Character* is an along *Entropy Function Aspect* of the *Universe* and deviating from it is what *Germinates* the *Collective Entitified Soul Consciousness(es) Gravity Function*. Therefore, the lesser our *Evil Qualities*, the more *Universal* we become as we pertain perfectly to the *Universal Time* {coded by *The Standard Large Value*

*(Stable) <Function> Of Heavenly Gravity}* as observed by a *Reference Frame* that has *Perceived* the *Big-Bang*.

From author's [17], one can note that when one's *Perception Depth* is large, one can experience *Happiness, Better* and *Longer*, relatively speaking. *Pure Happiness* is a *State Of Pure Benevolence* wherein one exercises *Character* commensurate with the *Character Of The Universe*, and thus annuls the *The Collective Entitified Soul Consciousness(es) Gravity Function* in a *Degree* {proportional to the *Pro-Universe Causality Impressed By Ones Good Nature*} such that *Local Time* Of the *Eco-System* of concern is also *Stilled* in a degree proportional to the aforementioned *Collective Entitified Soul Consciousness(es) Gravity Function* annulling *Degree* {proportional to the *Pro-Universe Causality Impressed By Ones Good Nature*} i.e., *Expanded* within the *Perception Space* of the *Experiencee* of *Happiness*. Therefore, one can note that *Our Good Nature*, i.e., *State Of Pure Benevolence* actually offers us *More Time to Enjoy Our Emotions* and also the *Relatively Large Perception Depth* helps one *See* and/ or *Note* the *Highly Optimal Dense Primalities* exhibited at all possible *Levels of Orders Of Recursion Intelligence* and also in the same fashion, thoroughly in all possible *Universes In Parallel* considered to *Exhaustion* and also the *Orthogonal Universes In Parallel*, considered to *Exhaustion* of the *Aspect* under *Perception*. (*The Quintessence Of Beauty*) in any *Intricate, Dense* and/ or *Rare Primality Sets of Nature* observed by the *Experiencee*. This tells us that the *Component* of the *Local Recursion Field Intensity Strength Function* called '*Local Time*' as described already gets *Expanded* significantly in the *Perceptors Reference Frame* when one feels *Pure State Of Happiness*, relatively speaking, enabling them to *Enjoy More, Do More* and *Feel More*. For *Example*, at the *Lord Vishnu's* abode, his *One Day (and Night)* is equivalent to our *One Year* on *Planet Earth*. This bargain of *Extra Time* offered to the *Good Behaviour (Pure Benevolent Behaviour) Exhibiting Entitified Soul Consciousness* can be thought of as the *Best Form Of Wealth*. No other forms of *Riches Of The Universe* can offer a *Better Barter Value* when compared to one's *Good Behaviour* i.e., *Pure Benevolent Behaviour*.

From the above argument, one can note that ‘*One’s Good Nature Is One’s Real Wealth*’.

### **Moral**

Be like *Light*, that keeps going into the *Darkness* (down the *Darkness Gradient*) and keeps dispelling darkness, if it is not let to go, it just keeps reflecting till it finds some other *Dark* path (down the *Darkness Gradient*) to dispel the *Darkness*, but never *Burns* anything in its path just because it is not *Let To Go*.
