Abstract

In this research manuscript the author has presented a Scheme of '*Maximizing Relativistic Electro-Magnetic Fringe Displacement Effect Width*' using '*Pi*', i.e., π i.e., $\pi(2)$ Value And/ Or Its Higher Order Equivalentents i.e., $\pi(N)$ Precision Increase Based Refinement Of Any Primality And/ Or Any Recursion Scheme Of Any Aspect Of Concern' [37], '*Theory Of Evolution Based On Consecutive Asymmetric Imaging Technique*'[39], '*Evolution Through Quantization (Version III)*' [30], '*Living A Happy Life {Version 4}*'[31], '*Relativistic Transformations In Standard Prime Metric And/ Or Reverse Prime Metric Within Some Selected Domains Of Complementable Bounds*' [32].

Theory

In this research manuscript the author has presented a Scheme of '*Maximizing Relativistic Electro-Magnetic Fringe Displacement Effect Width*' using '*Pi*', i.e., π i.e., $\pi(2)$ Value And/ Or Its Higher Order Equivalentents i.e., $\pi(N)$ Precision Increase Based Refinement Of Any Primality And/ Or Any Recursion Scheme Of Any Aspect Of Concern' [37], '*Theory Of Evolution Based On Consecutive Asymmetric Imaging Technique*'[39], '*Evolution Through Quantization (Version III)*' [30], '*Living A Happy Life {Version 4}*' [31], '*Relativistic Transformations In Standard Prime Metric And/ Or Reverse Prime Metric Within Some Selected Domains Of Complementable Bounds*' [32].

One can note that the *Relativistic Electro-Magnetic Fringe Displacement Effect* is basically due to

1. Instantaneous establishment of *Local Relative Electric Potential* between the *Two (Conductivity-Wise of Gross Matter, here the Conductor) Closely Separated Points* in the *Electric Circuit* of concern. This is because of the *Wave Function* {see *Time Evolution Juxtaposition Of The Observables Based Dirac Type Commutator And The Consequential Wave Equation Of Photon*[12] for constructing the *Model* of creation of the *Wave Function* of the *Electromagnetic Wave Guides* of concern, here in this context} *Of The Wave Guide (Potential)* that *Spans* its *Geodesic* through these aforementioned two points *Establishing a Transient-Bridge* between the two closely separated points of concern. One can *Reverse Engineer Design, The Average Wave Function Geodesic Area* {of the *Lissajous Figure* of *The Wave Function Geodesic Of The Wave Guide (Potential)*} and/ or *Average*

Arm Width with respect to the *Distance* of concern to be *Bridged* by utilization of this aforementioned effect. Since, *The Wave Guide (Potential)*[also *Wave Function Geodesic Of The Wave Guide (Potential)*}] also *Relativistically* progresses at the *Speed of Light* or *More* (see author's work on *Engineering Light*), we can resort to *Choosing a Reference Frame*[for our *Wave Function Geodesic Of The Wave Guide (Potential)*] of the type detailed in '*Relativistic Transformations In Standard Prime Metric And/ Or Reverse Prime Metric Within Some Selected Domains Of Complementable Bounds*' [32]. One can even *Induct* some amount of *Self-Organization* (see author's work on *Directed Self-Organizations*)to achieve any required possible *Directedness* as well in the thusly *Engineered Wave Function Geodesic Of The Wave Guide (Potential)*.

2. *Inertia* of the *Flow of Electrons*down the *Macro-Electric Potential Gradient*of the *Electrical Circuit* of concern.

Theory Of Duals – An Example Of Quantum Coupling

When we consider any *Aspect* of concern, we should note that from the '*Universal Law Of The Universe*' which states that Any *Aspect* of/ in the Universe is *Recursive* in nature. That is, it is *Expressable* in terms of *Itself*and its *Complement* (i.e., the *Contrary Nature Aspect* of the given *Aspect* of concern). We should therefore note that *Any Ascription* of *Any Property* of concern to the *Original Aspect* of concern is also applicable to the considered *Aspect's Complement Aspect*by way of the *Universality of Recursive Nature* of any *Aspect* of concern. One should note that such *Ascription* of any property to the *Complement Aspect* is only of *Very Minute Nature*, due to far off (deeply *Shelled* in) *Recursive Dependance*. One can compute the *Order (Logarithmic)* of such *Dependance* using author's concept of *Infinity Geodesic of the Aspect* of concern. Therefore, one can *Fuel* in the *Transport* of such aforementioned *Dependance*onto the *Complement Aspect* in the following two ways:

1. By *Increasing* the *Intensity* and *Magnitude* of the *Ascribed Property* on the *Aspect Side* of the *Arm* of the *Infinity Geodesic of the Aspect* of concern, i.e., in the *Aspect Itself* for *Observing* the *Desired Level (Magnitude)* and/ or *Intensity* of the *Desired Ascribed Property*in the *Complement* of the *Aspect*of concern.

2. Noting the ‘*Geodesical Drive Direction Signatures*’ using author’s ‘*Living*

From [31]

Notion Of Infinity

For every *Perception*, one should note that the *Finiteness* nature of the aspect perceived imposes a *Critical Cut-Off Value On The Frequency* of the *Reflected Photons* beyond which they change their ***Geodesical Drive Direction Signature***. That is when this aspect is near, the photons reflected off of it have a certain *Sign of Geodesical Drive Direction* and when this aspect is beyond this *Cut-off Distance* characteristic of the aforementioned cut-off frequency, the photons reflected off of it have an *Opposite* sign of *Geodesical Drive Direction*. In such case one can safely call the latter case wherein the aspect has a contrary sign of *Geodesical Drive Direction* as equivalent to that of *The Far Off Aspect Being Also Simultaneously Sub-Set(ted)* in the *Local Reference Frame Of Perception*. Basically, the aspect of importance to note is, that the *Perception* of all aspects *Permeating* and/ or *Existing* at a *Native Existence Potential* characteristic of the *Quantization Number Of The Permittivity Of Free Space For A Photon* has a given *Sign Of Geodesical Drive Direction* (see author’s works on *Native Existential Potential Of Any Aspect Of Concern*).

A Happy Life {Version 4} [31]’, on the Aspect Side of the Arm of the Infinity Geodesic of the Aspect of concern and also the Complement Aspect Side of the Arm of the Infinity Geodesic of the Aspect of concern, one can Simply express the Excess Differential of the to be Ascribed Limit Of the Ascribed Property as called for by the details in {1} mentioned above in the Basis of the Geodesical Drive Direction Signature of the Complement Aspect Side of the Arm of the Infinity Geodesic of the Aspect of concern, ne can Reduce the Complexities of Time, Energy, Complications involved in rote exercising of {1} detailed above.

Therefore, we can note that using the above *Scheme*, we successfully *Couple Any Property* of concern of a given *Aspect* of concern to *Any Other Property* of concern by *Diversifying* the *Set* and/ or *Definition Of Complement* and/ or *Contrary Nature* to *Any Other Aspect* (other than the given) by establishing a *Intersection(s) Based Continuous Bridge Between the Primalities of Any Two Different Aspects of concern*. Also, one can even *Axiomatically Argue* that since any *Aspect* is *Recursive* in nature, one can *Establish* such aforementioned *Recursive Relation* between *Any Two Different Aspects* of concern.

For *Example*, if we wish to *Quantum Couple* an *Apple* and an *Orange*, the *Apple* can be considered as *Made up of an Orange and Itself*, wherein the ‘*Complement of the Aspect*’ of concern’ {i.e., *Complement of Apple*} can be conveniently taken

to be the *Totally Different Aspect* of concern {here, an *Orange*} with which we wish to establish *Coupling of Quantum Nature*.

One can establish *Quantum Coupling* between two *Different Aspects* of concern, here, the *Two (Conductivity-Wise, of Gross Matter, here the Conductor) Closely Separated Points* in the *Electric Circuit* of concern which will help us advantageously use the thusly *Engineered Geodesic Of The Wave Function Of The Wave Guide (Potential)* in *Scale-Transporting (Normalized Averaged* with respect to *Parameters* of concern) the *Desired Property* of concern across *Two Different Aspects*.

Consciousness and/ or Conscience Connect System

One can even construct the *Primality* (of all three types, namely, *Verbal Primality, Act(ion) Recursion Primality, Sense Understanding and/ or Perception Primality*) of ‘*Positive Consciousness*’ and can correspondingly *Slate* a ‘*System of Electrical Currents and/ or Voltage Differences*’ *Normalized Averaged* over *Certain Time Interval(s)* and *Space Volume* whose *Primality* is also *Akin* to the *Primality* of ‘*Positive Consciousness*’ and also *Similarly Normalized Averaged* over the afore-referred *Certain Time Interval(s)* and *Space Volume*. We now *Evolve* the *Recursion Scheme* (see author’s work on *Recursion Schemes* in the below listed *References*) of this thusly *Slated Set* to the *Level* of the *Recursion Scheme* of the *Universe* after removing any *Redundancies of Primalities* (see author’s work on *Redundancy Of Primality*) in its *Primality and Sufficiently Hyper-Refining* it using [37]. This thusly *Evolved Set* is the *Pure Electrical Equivalent* of ‘*Positive Consciousness*’. Similarly, one can find the *Pure Electrical Equivalent* for ‘*Positive Conscience*’.

On similar lines as detailed in the previous section, one can advantageously use aforementioned *Consciousness and/ or Conscience Connect System*, in *Engineering the Geodesic Of The Wave Function Of The Wave Guide (Potential)* for *Scale-Transporting (Normalized Averaged* with respect to *Parameters* of concern) the *Desired Property* of concern across *Two Different Aspects*.
