## **Abstract**

In this research investigation, the author has presented a Scheme for '*Positive And Negative Time Scaling And Time Portal Engineering*'

## **Theory**

Every Star sustains itself by way of Fusion Reactions. The Fusion Reactions Field creates a Recursional Field Intensity Strength in the Star's Neighbourhood. Also, this Fusion Reactions Field characteristic of a Star creates a Time Field (unique to the Star) in the Neighbourhood of the Star. For Example, the 7-8-6 Recursion Scheme of the Fusion Reactions Field of a certain Star.

Therefore, we can artificially create Time Fields by creating appropriately Scaled (with respect to any Star of concern and also of a magnitude which is supervisable and fulfills our need of concern) Fusion Reactions Field characteristic of a Star. For achieving this, we need to Engineer the Recursion Scheme of the Fusion Reactions Field of the Star of concern. Scaling should be done by Slating the Fusion Reactions Field of the Star of concern in the Prime Metric. For Example, if we create the Recursion Scheme (of a much lower magnitude) Fusion Reactions Field of our Sun, we can create our known Time Field. In this fashion, we can create Hyper-Time, Ultra-Time, Time Potential Wells, and Even Sub-Time Fields.

Also, by engineering Negative, Complementary and/ or Inverse Recursion Scheme of the Fusion Reactions Field of any Star of concern, we can create Reverse Time Fields, we can Scale Time in the Along Time, Ahead Of Time and Back in Time directions. Also, Nuclear Fission Reactions Field can be used to create Negative, Complementary and/ or Inverse Recursion Scheme of any Star of concern.

## *Engineering Specifics*

Firstly, we need to find the Primality Tree of the Point Set Topological Geometry of Time Field Function. We can use this as the basis for building the

Primality Tree of the Recursional Field Intensity Strength of the Star of concern.

We can create a Lightning Geodesic and/ or Circle by amplifying Gravitic Fields appropriately which influence the Lightning photons to form a Circle. The Radius of this Circle must be proportional to the Space and/ or Time Potential Delta through which we wish to launch ourselves. The Lightning Circle should be made of Nuclear Reactions Field which again should be a Recursion Scheme of Time of our Sun and/ or any Star, or a Galaxy and/ or a Universe.

We can use author's

Time Evolution Juxtaposition Of The Observables Based Dirac Type Commutator And The Consequential Wave Equation Of Photon

<http://www.vixra.org/abs/1510.0130>

to note what mass rate (accretion) change function causes the wave function to form a Circle and we can control the Nuclear Fusion Reaction's Rate such that this mass rate (accretion) change is achieved through Nuclear Fusion.

We create another Lightning Circle, concentric and orthogonal to the previous one. We create another Lightning Circle, concentric and orthogonal to the second Lightning Circle.

The Potentials and/or Energies of these Lightning Circle must be Primes when slated in the Prime Metric and should satisfy the following:

$$E_1 + E_2 - E_3 = E_x$$

$$V_1 + V_2 - V_3 = V_x$$

Where the RHS is the Energy and/ or the Potential at the Co-ordinate of the Space and/ or Time where wish to be launched to.

Note: The Sun and/ or a Star's Lights (Nuclear Fusion Reactions Field) Recursion Scheme enhances and/ or creates Gravity field. We should first find this dependence function. One can use author's *Universal Infinite Frequency*

*Amplifier* to amplify Gravitic Field as described above to orient the Lightning (Nuclear Fusion Reactions Field) Geodesic to form a Circle.
