

TO SHED LIGHT ON THE ECLIPSE

Nikitin V. N., Nikitin I. V.

The exclusive hypothesis that the Moon is the comet rest, "delivered water" to Earth, and the reason of global terrestrial cataclysms, eliminates the existing contradictions of scientists on the matter.

TO SHED LIGHT ON THE ECLIPSE

According to a widespread hypothesis of Long has resulted from collision between Earth and protoplanet of the size of Mars, from the material which is thrown out in space as a result of collision. The team of researchers from the United Kingdom of Great Britain and Ireland, France and the USA has found the facts indicating that the most part of water was present at Earth before the collision which has created the Moon. The exclusive hypothesis that the Moon is the comet rest, "delivered water" to Earth, and the reason of global terrestrial cataclysms, eliminates the existing contradictions of scientists on the matter.
