My 600 page book on Atlantis as Babylon: <http://roodgoudvanparvaim.nl/> (Pesach 2018)

Atlantis was destroyed by an earthquake as Plato wrote in Critias 108 and Timaeus 25. This same earthquake will destroy rebuilt EndTimes Babylon as we read in Revelation 16:18. For that reason: Atlantis is End Times Babylon as it was mirrored in time and geography within the Biblical concept of Tzaphon. Nowhere did Plato suggest that Atlantis was destroyed by a Flood.

There is confusion about three Floods before the Great Flood of Deucalion, mentioned in Critias 112. The confusion is even bigger as Plato connects the goddess Neith of the Nile Delta to the Goddess Athena in Timaeus 21. Was this a hint to the Exodus story? It is legitimate to expand our research outside the boundaries of Greece and to jump over to Cairo. The Sphinx is the southern dimension of Tzafon (Exodus 14:1-2). It is the high noon when the sun burns and the weather is "hot". It was King Salomon who referred to these slavery construction works of the pyramid building under the burning sun (Ecclesiastes 4:1). If the three floods of Critias 112 indeed happened in Cairo, then who was Deucalion who seems not to be a human being at all. Who else could he be than Baal Tzafon, the sfinx? Pyrrha was in that case Neith or the Biblical Queen of Heaven, named Astarte.

Both Deucalion and Pyrrha landed after a great Flood on the Mount Parnassus. This Mountain was as the Mount Olympus an imitation of the Mount Tzafon in the north of Syria. Tzafon means: midnight, the 25th hour and the Sphinx. Tzafon was also the name of this Mount Tzafon that is currently named Jebel Aqra. It was not by accident that the apostle Paul began his gospel in this area, in the city of Antioch, present day Antakya.

Babylon sits in the middle of the desert. But from a Biblical viewpoint it is connected via the Euphrates in the middle of the sea. The whore of Babylon is Athena of Atlantis. The downfall of End Times Babylon in Revelation 17-18 is the downfall of Atlantis. This downfall was foreshadowed by the downfall of Tyrus in Ezekiel 26-28.

Plato situated Atlantis in a remote past in front of Gibraltar. He used the symbols of EndTimes Babylon in his contra-creation story. In this contra creation story, a fallen angel brought evil into creation. Christianity had adopted this gnosticism and named this fallen angel, Lucifer. But the Bible says that there never was a fallen angel named Lucifer. Satan was a murder from the beginning (John 8:44). The real Lucifer is the Morningstar who is Jesus Himself. Lucifer was an imitation of Jesus as Atlantis was an imitation of End Times Babylon. A fallen angel who created all evil robbed the almighty God of the Bible from his almight. In this gnostic concept there were suddenly two opposite powers, a God and a lesser God who introduced evil. As there were two Pillars of Hercules in front of Atlantis. The Bible says that there is only one mighty God who is also the creator of evil (Isaiah 45:7).

Poseidon of Atlantis was the Roman God Neptune. His long hair and his thick beard reminded us of Mohammed. His trident was stolen from satan. In the Bible Poseidon was named Dagon, who was the god of the Philistines. Poseidon was an imitation of the God of the Bible who was the thundergod and the God who ruled the waves in Psalm 18:7-15, Nahum 1:3-5 en Habakuk 3:8.

Few last questions: who was Plato anyway and who was Socrates, who traveled to the underworld? Were Plato and Socrates the same persons and were they human beings at all? And if this same earthquake that destroyed Atlantis, hits End Times Babylon, what then will happen to the Dutch "Afsluitdijk" or better with all dikes that protect us against the sea? My book on Atlantis as End Times Babylon is here: <http://roodgoudvanparvaim.nl/>

Overview of Al-Hillah/Babylon/Atlantis

Appendix/ Table	Atlantis 9000 years before Plato	Athens, 8000 or 9000 year before Plato
<p>(© Table: Leon Elshout, may 2018)</p>		
<p>Source, Benjamin Jowett (Vol. III, Third edition 1892) translation of Plato's Dialogues, <i>Timaeus</i> & <i>Critias</i>. (Plato's Cave: <i>Republic</i> VII.514-520)</p>		
<p><i>Critias</i> 108</p>	<p>9000 years before Plato: Atlantis made war against Athens (See also <i>Timaeus</i> 25). Atlantis sunk into the ocean due to an earthquake (See <i>Revelation</i> 16:18). Atlantis was bigger than Lybia and Turkey together. Mud of Atlantis blocked the Strait of Gibraltar.</p>	<p>Goddess Mnemosyne</p>
<p><i>Critias</i> 109</p>		<p>The land was divided among the gods. Hephaistos and Athena (Neith) were introduced in the story of Athens. Hephaistos and Athena were brother and sister. (Actually they were Baal Tzaphon and Astarte). There was love of art and philosophy. Civilizations came and went. The odd part of the population lived in the mountains and survived all catastrophes. The clever part was everytime destroyed by global catastrophes.</p>
<p><i>Critias</i> 111</p>		<p>Athene was self sufficient. Timber and food in abundance, also enough food for the animals. Rainwater was collected in water reservoirs.</p>
<p><i>Critias</i> 112</p>		<p>Rain, earthquakes and three floods before Deucalion's Flood. Fountains under the Akropolis. (The three floods are described in the #344 Leiden Papyrus and may belong to the Exodus history).</p>
<p><i>Critias</i> 113</p>	<p>Solon had translated the Atlantis story. The origin of the Atlantis story was Egypt. (Had the Egyptians gotten he story from the Edomites?). The gods had divided the earth. Poseidon received Atlantis. Central hill on Atlantis with Evenor and Leukippe. Their daughter was Cleito.</p>	

	(They were non-humans). There were cyclopic canals with balustrades around the capital. Two water sources under Atlantis with cold and warm water (compare with <i>Ezekiel 47:1-12</i>). Atlantis had in this stage no ships and was inaccessible for foreigners. Atlantis had everything in abundance and was self-sufficient.	
<i>Critias 113-114</i>	Poseidon begot five twin sons with Cleito. All of them became kings.	
<i>Critias 114</i>	Poseidon and Kleito's oldest son: King Atlas. He received the biggest part of Atlantis. His twin brother Eumelos (Gadeiros) received the furthest part facing Gades, near Gibraltar. There were forests on Atlantis and everyting was in abundance. Self-sufficient. There was enough timber for carpenter jobs. There was orichalcum from mining. And there was a king named Mnesus.	
<i>Critias 114-115</i>	Elephants.	
<i>Critias 115</i>	Ship yards, harbours, docks, temples, palaces, round canals, big ships, marshes, many animals.	
<i>Critias 116</i>	Citadel covered with orichalcum. Statue of Poseidon with six winged "Pegasus like" horses in front of it. Gold, silver, orichalcum, Ivory in Poseidon's temple. Pillars with orichalcum. An altar in the temple. Golden statue in the temple, cyclopic walls, ivory roof in the interior of the temple.	
<i>Critias 117</i>	Water sources under the palace and temple, cold and warm water (compare with <i>Ezekiel 47:1-12</i> ; <i>Genesis 2:10-14</i>). Entire island was a horse race course. Temples for other deities. Sacred forest of Poseidon. Ship yards, cargo ships, merchants =	

	harokel = heracles.	
<i>Critias</i> 118	Timber in abundance.	
<i>Critias</i> 119	Ten thousands of chariots, horses and riders. Population in the mountains and capital was countless. There were bulls. Ten kings and 1200 ships. Warzone in the capital. Columns with orichalcum. Bulls were offered. (Bulls = Baal sacrifice).	
<i>Timaeus</i> 21		Athena was Neith in Egypt. The city of Sais in Egypt was visited by Solon. Sais was in the Nile Delta (Reference to Exodus?)
<i>Timaeus</i> 21-22		Solon got the traditions of the history of Athens from the priests of Sais. Sais was located in the Nile Delta.
<i>Timaeus</i> 22		Phoroneus was the first human. Deucalion and Purrha survived the Flood. Mankind had survived many global catastrophes of water and fire. (Actually, Phoroneus, Deucalion and Pyrrha were non humans. They were titans, aka the fallen angels in Genesis 6).
<i>Timaeus</i> 23		More than one flood. Before the Great Flood, Athens was in war. Athena founded Athens 8000 or 9000 years before Plato. Odd people survived every catastrophe.
<i>Timaeus</i> 24	Atlantis made war against Europe, Athens and Asia. The army came from beyond the Pillars of Hercules. So the Strait of Gibraltar was navigable (also see <i>Critias</i> 108).	Shepherds and hunters in Athens. (compare with Nimrod and Ezau). Many laws in every domain in Athens. Army of Atlantis invaded Europe and Asia. This army came from an island that was situated in front of the Pillars of Hercules.
<i>Timaeus</i> 24-25	Atlantis was bigger than Libia and Turkey together.	

<p><i>Timaeus 25</i></p>	<p>Atlantis was a transit port to America. The land on the other side of the great ocean was a continent (America). Atlantis had subjected parts of Europe, Lybia and Egypt. Atlantis subjected Europe as far as Tyrrhenia (But what exactly was Tyrrhenia?). Earthquakes and floods. Atlantis was gulped down in the sea. The mud of Atlantis blocked the Strait of Gibraltar.</p>	<p>Athens won the war against Atlantis. The people from Atlantis became slaves.</p>
<p>Atlantis existed 9000 years before Plato. But exactly when? The Biblical chronology is much more exactly. The Exodus from Babylon took place exactly to the day thousand years after the Exodus from Egypt.</p>
