Besides and together with a study of the social sciences and philosophy, this author's intuitive confidence in this hermeneutic design insights that underlies the arguments and discourse, is inspired from 'an intimate and spontaneous idiosyncratic philosophical exercise (praxis) in the quest for the essence of meaning', a 'craft' that has been nurtured continuously for nearly 25 years now (without conscious planning at the beginning nor at any time thereafter) since his discovery of 'philosophical questioning and discourse' at high school. An exercise that mirrors the intimate idiosyncratic exercise/praxis allowing an artist like a musician to grasp and develop memes that latter down the years enable the artist to be more or less 'consummate with respect to the personal orientation they give to their arts'. Central to all such idiosyncratic processes is a continuous idiosyncratic memetic refinement over time of rough-cuttings, internal coherences, insights, inspirations, intuitive validations, constraining, sense-of-failing, sense-of-succeeding, confidence, mental inflections and mental projections; of course as per ability and ultimate pertinence with respect to intrinsic reality!

An Intimate Insight on Psychopathy and a Novel Hermeneutic Psychological Science

Abstract

This paper is rather a profound hermeneutic enunciation putting into question our present understanding of psychopathy. It further articulates, in complement, a novel theoretical and methodological conceptualisation for a hermeneutic psychological science. Methodology-wise, it puts into question a traditional more or less categorical and mechanical approach to the social and behavioural sciences as it strives to introduce a creative and insightful approach for the articulation of ideas. It rather seeks to construe the scientific method as being more about falsifiability and validation but driven by a sense of creative understanding and insight of notions laid out as open-ended conceptualisations. Theory-wise, it sees continuity between anthropology and psychology as anthropopsychology behind an entropic construct of human psychology based on a recurrent re-institutionalisation mechanism for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation.

An Intimate Insight on Psychopathy and a Novel Hermeneutic Psychological Science

Introduction

Quite possibly everything about this paper whether the authoring, the approach and the substance sparks of novelty bordering on the outlandish. Further, why not take a traditional categorical approach and clearly present scientific ideas the traditional way? It is a personal insight developed more than 20 years ago, and just when the author began his B.Sc. in Sociology and Anthropology; that a study of the social and behavioural should carry the philosophical and insightful at its very core above anything else given the inherent ephemeral nature of its subject matter. When I came across the term hermeneutics (and others like phenomenology), this author felt as a personal persuasion that that was the chart for the future of the social sciences. My vision in this regard is one of a social science that delves directly into the core of things and avoids platitudes. To come back to the point of this abstract, this explains my apparently tattered approach. But tattered really? No, as the central insight of my articulation is that the scientific method is a validation and falsifiability method, and not necessarily the creative method. The creative method as a hermeneutics isn't supposed to roll down and stifle its very expressiveness, and at the same time it should be articulated in such a way that an exercise of falsifiability, validation and open-ended questioning can be undertaken over it. Such a hermeneutic science calls for a mutual sense of such a hermeneutics by both the author and would-be critic. I hopefully believe the way I have articulated ideas should be able to allow for such an examination. My hermeneutic inspiration in this regard can be analogised with musical creation and music theory. The latter is there to

ensure the appropriate articulation of rules but is not really the drive of musical creation, as musical creation is rather the musician's hermeneutical insight of how to go about creating music while adhering to music theory, such that any such music is analysable/critiqued by the way it credibly adheres to music theory, and actually in exceptional cases further develop music theory. A second point that makes this method ideal is that the apparent enunciation of this paper (an outright call for a reinvention of the state of the art regarding our understanding of psychopathy and the underlying psychology science); is that it is doubtful such an articulation can be credibly presented in simple categorical terms, without rather utilising an entropic hermeneutic-referential approach based on an open-endedness for falsifiability and validation in future elaboration and development of ideas. Further, I thought it more critical (wary of platitudinising the occasion) that the purity of ideas expressed herein shouldn't be overly clouded particularly as the treatment of this paper is largely in substance virgin territory, as of the underlying conceptualisation referential drive (beyond just simplistic rhyming/speculative/interpreted categories of philosophical theories and concepts but rather as 'a driven distinct comprehensively coherent/contiguous operant-level of insights articulation, and carrying implicative and applicative operant-level possibilities going forward'; more like a song is a coherent referential whole beyond just naïve categories of disjointing/disparateness/disentailing percussions-and-tunes-more-or-less-similar-to-those-of-the-song construed as constituting the song.) As a matter of fact, I would rather I wrote another paper talking about influences for such an articulation for this paper going by my hermeneutic design insights. Moreover, going by the very nature of how humans develop new ideas; while many, if not most, of my arguments may be more or less 'plainly intelligible', I equally thought it important to articulate ideas I hold in deep conviction and further as many such ideas come with their requisite precise convoluted qualifications even if such ideas might not be quite intelligible from a plain and simple reading, with the notion that

such a requisite insight will be forthcoming in future critique as the very nature of the introduction of new ways of thinking often mean their unintelligibility at first (equally explains my repeating of many terms for 'habituation'), but then it is not the pertinence of reality that compromises it is the impertinence of human certitudes that does!

In the bigger scheme of things, it is herein contended that human social and institutional progress and development is not structurally/paradigmatically contiguous as to the very inherent nature of any given institutionalised framework as all such frameworks arrive at apathetic threshold as these rather develop into denaturing ~~amplituding~~/formative>wooden-language-⟨imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology⟩ stifling prospective possibilities, thus requiring prospective fundamental reconception. While such prospective re-projection/re-anticipation recognises prior human cumulated knowledge as enabling institutional-cumulation/institutional-recomposure right up to the present, it also recognises at a certain point the 'prior knowledge-as-of-mechanical-knowledge predisposition and its developed temporal institutional self-serving predisposition' becomes critically a drawback for the possibility of knowledge-reification of prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint, as the dimensionality-of-sublimating—~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation behind the 'inventing'/'creation' of prior knowledge fades into secondnatured mechanical dispositions requiring the renewal of dimensionality-of-sublimating—~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation prospectively. At which point, the more decisive issue is recognising and assuming the reality

of a fundamental apriorising/axiomatic/referencing intellectual break/schism/estrangement with such 'prior knowledge-as-of-mechanical-knowledge predisposition and its developed temporal institutional self-serving predisposition', as so-implied across sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing between non-universalising sophistry and prospective Socratic philosophers universalising-idealisation as well as in the case of medieval-pedantic dogmatism and prospective budding-positivism, and it is herein contended likewise with regards to our modern day intellectual-muddlement-⟨blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩ as of procrypticism/disjointedness-as-of-reference-of-thought (associated with a predisposition for disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-'immanent-ontological-contiguity'>) and prospective deprocrypticism or preempting—disjointedness-as-of-reference-of-thought (foregrounding—entailment-⟨narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting 'immanent-ontological-contiguity'),–as-operative-notional~deprocrypticism as of ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications-<as-to-existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness–as-to-the-ontological-normalcy/postconvergence-projective-perspective,-to-which-latter-human-subpotency-projectively-conflates-to-in-order-to-overcome-our-prospective-epistemic-abnormalcy/preconvergence>). Underlying all such apriorising/axiomatic/referencing intellectual break/schism/estrangement because of teleological-decadence–as-lacking-in-<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness as 'prior knowledge-as-of-mechanical-knowledge predisposition and its developed temporal

institutional self-serving predisposition' as of the prospective relative-ontological-completeness perspective, as so-reflected in a ⟨~~amplituding~~/formative⟩wooden-language-⟨imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology⟩ critically absconding (in ⟨~~amplituding~~/formative⟩epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as to limited-mentation-capacity implications) on the basis of the supposedly coherent ontological-commitment as of ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications-⟨as-to-existence-potency-prospective-digression-of—⟨~~amplituding~~/formative⟩epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness–as-to-the-ontological-normalcy/postconvergence-projective-perspective,-to-which-latter-human-subpotency-projectively-conflates-to-in-order-to-overcome-our-prospective-epistemic-abnormalcy/preconvergence⟩ (and rather reverting to eliciting untransvaluated–temporal-intemporality values being passed for knowledge-reification while undermining the prospective relative-ontological-completeness implications of dimensionality-of-sublimating—⟨~~amplituding~~/formative⟩epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation as for instance when statistics as the outcome of prior human originariness-parrhesia,–as–spontaneity-of-aestheticisation in resolving prior human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint are turned around to falsely imply progress occurs anyway to then paradoxically imply surreptitiously there shouldn't be any prospective human originariness-parrhesia,–as–spontaneity-of-aestheticisation in resolving prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint), is the

issue of the fundamental lack of dimensionality-of-sublimating—~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation as 'knowledge becomes increasingly mechanical' and is rather a secondary and derivational tool for temporal self-serving posturing and is poorly perceived as worthy in of itself but for the imprimaturing so projected and the perceived temporal social-value arising with such imprimaturing and as it is increasingly associated with generalised incuriosity in genuine intellectual development and the substituting of mere imprimatur totalisingly-disentailing—discretion/whim-of-thought over genuine knowledge-reification as of existence-potency-prospective-digression-of—~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness. This has developed in our present age of intellectual-muddlement-⟨blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩ into the absurdity/ridiculousness of pop-intellectualism substituting for genuine and reifying thought, as to the relentless expansion of our modern merchandising mentality to which nothing resists; and paradoxically, such a disposition hangs onto the 'dereified as-deficient-reflexivity of our ~~amplituding~~/formative>wooden-language-⟨imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology⟩ it then sophistically usurp in its teleological-degradation rather than teleologically-elevating it out of its ~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩; with media-driven imprimaturing increasingly usurping the role of genuine academic standard

production and ultimate validity hanging on the mere imprimatur. As what becomes critical in such a context is no longer prospective knowledge-reification as the primary and essential constraining worth but rather obsession with mere sway and influence even to the point of undermining prospective knowledge-reification as supposed intellection is increasingly infused with obfuscations, falsehoods and subterfuges (as to the fact that misrepresentations and pretences to misunderstand are rather conveniently given as of perceived social-stake-contention-or-confliction and hardly reflecting a discernment about the possibility for advancing human progress) that apparently render human-subpotency/mortality bigger than existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness/immortality. But then human intellection across all ages and times come to an end not because of inherently right or inherently wrong ideas per se (as the very basic genuine striving for intellectual progress is what is critically decisive as that exercise ensures that down-the-line correct and reifying ideas will arise anyway), but critically when deliberate deception-and-induced-deception-as-of-ontological-bad-faith/inauthenticity becomes more important than an aspiration for genuine intellection as an open-ended activity providing the possibility for human knowledge and reflexive empowerment from that knowledge. At which point, it is wrong for 'genuine intellection' not to recognise what is going on as to imply that it is veridically in dialogical-equivalence with such deception-and-induced-deception-as-of-ontological-bad-faith/inauthenticity (whether or not, beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>) as this only leads to a destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>—of-ontological-performance-<including-virtue-as-ontology> habituation and enculturation/endemisation of such deception-and-induced-deception-as-of-ontological-bad-faith/inauthenticity rendering the supposedly empowering activity of

knowledge-reification impotent as in many ways such denatured intellection openly claims as of disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-'immanent-ontological-contiguity'> inclinations that poorly appreciate existence-potency-prospective-digression-of—<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness implications of transcendence. In many ways this intellectual falsehood (so-construed by this author as to the implausibility of genuine lack of understanding as from a serious intellectual engagement but rather a 'strategic/calculated behaviour of mere power even against genuine knowledge' which this author intimately construes as a 'decadent and dangerous conception of knowledge' that is effectively destructive of prospective human knowledge reifying and empowering possibilities) is at the 'root source' for surreptitiously ensuring that the public debate fails and thus leading to public policy defaulting into vested postures and interests especially so when such an intellectual teleological-decadence–as-lacking-in-<amplituding/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness whether by mystifications-outside-existential-contextualising-contiguity-that-are-vague-and-imprimatur-driven, misinterpretation-of-statistics-holistic-implications, denial-of-relativism-thus-foiling/undermining-relative-ontological-completeness-implications/conclusions/projections-of-prospective-knowledge-reification-in-a-dumbing-down-posturing-that-implies-that-the-present-is-unchangeable-as-of–presencing—absolutising-identitive-constitutedness, etymological-flouting-as-of-mere-conceptual-patterning-and-mere-stigmatising-of-competing-theories-and-concepts-on-the-naivity-that-such-stigmatising-representation-will-undermine/override-their-analysable-ontological-veracity and an-approach-as-of-the-ordinary-egotistic-perspective-in-existential-extrication-that-absolutises-the-present-that-is-passed-as-knowledge-reification all undermining informed insight and the requisite human

intellectual and emotional sacrifice for genuine knowledge-reification and prospective progress involving the authentic self and social transformation rather than 'gimmicks instilling a merchandising mentality of ideas'. This then provides paradoxically the underlying meaningfulness-and-teleology infrastructure for upholding the status quo and inducing in many ways the impotence of the social sciences in thoroughly addressing human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of society that ultimately have serious structural/paradigmatic consequences associated with institutional failures (which such intellectualism is hardly inclined to address). Critically, such a 'self-contented intellectualism' increasingly focuses not on knowledge-reification as of existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness or the critical analysis of such knowledge-reification but in the face of criticism rather consciously substitutes strategies of institutional ascendency as of a strategy of influence by default imprimatur status rather than genuine knowledge-reification pertinence. It will be as naïve as implying the validity of a common basis for doing arithmetic where an interlocutor insists on 2 + 2 as 5 but when appropriately explained the veridical assumptions of arithmetic goes on to insist 3 + 3 as 7, speaking not of a fundamental problem of arithmetic operation as of dialogical-equivalence but a fundamental question of ontological-bad-faith/inauthenticity on the naïve mental reflex that anyway dialogical-equivalence is ever always assumed to then adopt an apriorising/axiomatising/referencing attitude of abusing the notion of dialogical-equivalence as to wrongly implied logical-dueness. Faced with such an orientation the genuine intellectual reaction is to engage it upfront as of an inclination 'not just to evaluate logical coherence as of correctness or incorrectness or any other evaluation in-between on the basis of ontological-good-faith/authenticity', but beforehand 'to equally evaluate the

apriorising/axiomatising/referencing in ontological-good-faith/authenticity or ontological-bad-faith/inauthenticity (beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>) as of underlying existential-contextualising-contiguity elucidation/deblurring as well as whether the veracity of such apriorising/axiomatising/referencing can be established as being of relative-ontological-completeness implications as construed necessary herein and overriding naïve apriorising/axiomatising/referencing as of presencing–absolutisng-identitive-constitutedness in relative-ontological-incompleteness (that seem to undermine the absolute a priori of existence and imply that when existence doesn't fit/digresses-from its conceptual-moulds then existence must have an inherent issue strangely enough as to be ignored/overcome by the stubborn/dogged/political upholding of such defective conceptual-moulds over inherent knowledge-reification implications as of existential-reality)'. We can appreciate that while many a subject-matter will often seem to imply that dialogical-equivalence is just assumed 'as to the fact of merely engaging as of logical coherence without questioning the underlying ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality in ontological-good-faith/authenticity or ontological-bad-faith/inauthenticity', the fact is this is rather the consequence of their universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩ of the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework rendering the possibility of ontological-bad-faith/inauthenticity directly ridiculous as in the natural sciences given its direct universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩ subjection to prediction, such that we can hardly contemplate of an interlocutor insisting to imply that gravity on earth is 7 m/s^2 to ensure that calculations

conform to its expectations for one interest or another; but the reality of that universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩ as preempting such ontological-bad-faith/inauthenticity inclinations is not so directly obvious in many a social domain-of-study and that blurred possibility effectively elicits circumstances of disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-'immanent-ontological-contiguity'> not only as of wrong ontological-conception out of good-intent (failing 'technical ontological-good-faith/authenticity' as of its ontological-normalcy/postconvergence epistemic-projection perspective conceptualisation) but equally as of outright ontological-bad-faith/inauthenticity (in spirit). This idea is essential in the thought of many such postmodern thinkers as Derrida and Foucault given the implications of human limited-mentation-capacity as herein construed as reflecting human constructiveness-of-ontological-performance-<including-virtue-as-ontology> and destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>—of-ontological-performance-<including-virtue-as-ontology>. The fact is knowledge-reification is of 'existential <~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating construal for human limited-mentation-capacity-deepening-⟨<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩' and nothing can be construed in totalisingly-disentailing—discretion/whim-of-thought whether as of ignoring or on the other hand exaggerating, and just as we can fathom that we don't have the choice to fiddle with even a single number or operation without a mathematical equation going wrong as of its existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness over our human-subpotency motives, the same actually do apply in all knowledge-reification and

claims of subject-matter specificities 'rather speak of the difficulty with respect to human emotional-involvement and associated lack of rigour relative to knowledge-reification in addressing human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint', but not inherent constraining existence-potency-prospective-digression-of—~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness dissimilarity of subject-matters. Just as there is no magical arithmetic or physics to resolve such a more fundamental apriorising/axiomatising/referencing situation involving 'abusing the assuming of dialogical-equivalence', it is wrong and foolhardy not to bluntly recognise this reality in the social domain as to the possibility of then achieving prospective transcendence as of existence-potency-prospective-digression-of—~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness implications. The fact is the 'a priori or axiomatic conception' is effectively what precedes and validates logic as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity, however there is no logical-basis for the 'a priori or axiomatic conception' but for 'its ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality construal as of existence' as can thereof be validated as of strong prediction arising as of existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation establishing its universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩ (and so given the fact of human ~~amplituding~~/formative>thrownness-in-existence,-imbued-arbitrariness/waywardness-⟨as-to-the-human–re-apriorising/re-axiomatising/re-referencing-process-of-'~~amplituding~~/formative>epistemic-totalising~conceptualisation'⟩, speaking to the fact that logic is rather the inner working coherence/contiguity of any human

apriorising/axiomatising/referencing construct); and thus the 'a priori or axiomatic conception' is rather about 'Derridean underdetermination-imbued force/violence conception' and 'Foucauldian knowledge/power conception construed as knowledge-empowerment/ignorance-disempowerment' as to mere 'sublimation affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-validating-measuring-<postconverging-or-dialectical-thinking–apriorising-psychologism>' over 'desublimation unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitablemeasuringinstrument-invalidating-measuring-<preconverging-or-dementing–apriorising-psychologism>' so-underlining existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation and existence—as-the-absolute-a-priori-of-conceptualisation. However, the universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩ generated in domains like mathematics and many a natural sciences is so efficient (as of the underlying positivism/rational-empiricism reference-of-thought achieved 'universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩ as of positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism so-reflected as our present positivism/rational-empiricism apriorising/axiomatising/referencing–psychologism' first induced by budding-positivists like Copernicus, Galileo, Descartes, Newton, Leibniz, etc.) that in many ways mathematicians 'don't go on to be thinking about the soundness of axioms once these are construed as of existence' for instance with the axioms-of-addition, but this doesn't mean that the idea of unsoundness of 'a priori or axiomatic conception' (as to invalidate dialogical-equivalence) doesn't exist especially so when it comes to blurred domains not only in the social sciences but sometimes in the natural sciences as well where

lack of universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<s>amplituding</s>/formative⟩epistemic-totalising–in-relative-ontological-completeness⟩ arises such that there is nothing that transparently renders someone ridiculous from fiddling around 'wrongly implying apriorising/axiomatising/referencing meaningfulness-and-teleology as of existence' not only out of good-intent or ontological-good-faith/authenticity but ontological-bad-faith/inauthenticity as well. (In this regards, the idea of 'putting in question dialogical-equivalence by not merely engaging for logical coherence but equally putting into question the apriorising/axiomatising/referencing meaningfulness-and-teleology pretense of being as of existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation' is effectively central to all prospective institutionalisations in relative-ontological-completeness as reflected with the Socratic philosophers putting in question the apriorising/axiomatising/referencing of non-universalising sophists specifically with Socrates during his trial as to his highlighting of the inconsistencies of his accusers sophistic non-universalising apriorising arguments priorly for the notion of a mutual logical coherent engagement to arise in the very first place with Socrates rather purporting that such a possibility of mutual logical coherent engagement could only arise on the basis of his universalising apriorising arguments as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation and budding-positivists equally putting into question the apriorising/axiomatising/referencing of non-positivising/non-rational-empiricists medieval-scholasticism pedants specifically as with Galileo's implicit dismissal of any such pretense of logical coherence engagement in the face of what he could see positively through the telescope with respect to the 'imaginary pedantic machinations' of his interlocutors and so as to the prospective positivism/rational-empiricism apriorising/axiomatising/referencing as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation; as in fact the very notion of prospective institutionalisation is one of renewing reference-of-thought–and–

reference-of-thought-devolving–meaningfulness-and-teleology

apriorising/axiomatising/referencing prospectively as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation, putting into question the <~~amplituding~~/formative>wooden-language-⟨imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology⟩ of the prior registry-worldview's/dimension's presencing—absolutising-identitive-constitutedness superseded/transcended). With such teleologically-decadent–as-lacking-in-<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness spirit of intellectualism, it can difficultly be fathomed how such a ground-breaking event as the appearance of Einsteinian physics in early 20th century prompting great excitement and curiosity among physicists recasting the contributions of prior physicists, and then eliciting the work of many other physicists and mathematicians in the subsequent decades leading in-between to the superseding of Einsteinian physics with Bohrian physics and then Feynmanian physics, etc. as of existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness constraining, can be contemplated as of such a rather impoverished conception of genuine intellection which poorly recognises the pre-eminence of existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness over human-subpotency, notwithstanding the fact that we are at the backend of human institutional-cumulation/institutional-recomposure, and so because in many ways it is hardly the case that the priority is obsession with such intellectual emancipation rather than obsession with institutional-being-and-craft muddlement. While the natural sciences are

'naturally' constrained by the stronger necessity for prediction, there is nothing that says because the social domain is relatively blurred the possibility for such rigour cannot be achieved in the social as well even as it is highly subject to social-stake-contention-or-confliction meddling; as the possibility of the undercutting of the latter's <~~amplituding~~/formative>wooden-language-(imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology) with asceticism does exist as has existed throughout sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing. Beyond the seemingly intellectual ebullience ever so portrayed today, the question can be asked to which extent it usually reflect deep curiosity for prospective knowledge-reification rather than a culture of pop-intellectualism today that seem to define our human-subpotency/mortality purposes as superseding existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness/immortality purposes, as so-reflected in the supposed intellection values conferred in many a press operation with such vague catchphrases as 'the-greatest/most-influential thinker of our times' as of mere influence peddling and poorly advancing the inherent importance of prospective knowledge-reification as addressing the human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of our prior reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation,

notwithstanding the sometimes crude and unsavoury social discomfort implications in this respect. Thus in many ways such an orientation is unsettling to upcoming/future young thinkers as to what can be of profound intellection value with respect to opting for a profound intellectual commitment for prospective knowledge-reification rather than just strategies of socially perceived intellectual success within deified temporal/mortal existential frameworks;

especially in the underhanded institutional presence of such avowedly teleologically-decadent–as-lacking-in-<s>amplituding</s>/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness mantras like theories die with the passing of their authors as so-implied with regards to many a postmodern scholar, wherein such highbrowing has been surreptitiously inclined to put-up their temporalities/mortalities (notwithstanding that knowledge is as of existence-potency-prospective-digression-of—<s>amplituding</s>/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness consequences accruing to the entire humankind) to institutionally and socially undermine prospective knowledge-reification with stooges/foils muddying the ontological-veracity of genuine thought as of its true human emancipatory implications, as they 'sneak-in and sneak-out about knowing and not knowing' in a distorted conception of intellectualism as a Machiavellian/political exercise rather than the requisite magnanimity of engagement for a genuine knowledge-reification exercise! Actually the projection of values including intellectual values in such <s>amplituding</s>/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag are often prospectively deficient, given the fact that notions of value are only as pertinent as of their transvaluation implications in relative-ontological-completeness since the very same conception of value when construed on the basis of relative-ontological-incompleteness may actually be associated with vices-and-impediments, and so beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> (given that virtue is rather as of the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework conceptualisation as to transcendental-enabling/sublimating and not the vagueness of impression-driven/good-naturedness/wishfulness <s>amplituding</s>/formative>wooden-language-⟨imbued—temporal–mere-form/virtualities/dereification/akrasiatic-

We can grasp in this respect that the value conception as from the non-universalising sophistry perspective had construed as decadent the prospective Socratic philosophers universalising-idealisation just as did medieval-pedantic dogmatism of budding-positivists like Galileo and Descartes; as in many ways prospective knowledge-reification requires that we supersede our emotional-involvement starting with the very intellection striving for such prospective knowledge-reification. (In any case, ultimately the reality of human knowledge-reification involves 'direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness meaningfulness-and-teleology', and so in transvaluation; as for instance, it can hardly be imagined that the reference-of-thought of the non-positivism/medievalism mindset as of its structural/paradigmatic ontologisation/ontological-veracity/aestheticisation-towards-ontology   is   apt   as   of   its acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument to grasp our modern day conception of say physics given its 'valuation framework as of its <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag' that needs to be transvaluated into a positivism mindset, and it can fairly be contended that prospective issues of knowledge-reification in modern day physics having to do with theory-of-everything conception arise because of our inappropriately apt acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument   as   of   an occlusive-consciousness   reference-of-thought   requiring   prospective   deprocrypticism reference-of-thought   structural/paradigmatic   ontologisation/ontological-

Likewise, it is herein contended that the future possibility for the natural sciences advancement is inseparable from the possibility of social and social-organisational as of prospective human aporeticism transvaluation as to the prospective deprocrypticism or preempting—disjointedness-as-of-reference-of-thought protensive-consciousness induced Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology and so over our present procrypticism or disjointedness-as-of-reference-of-thought occlusive-consciousness, and in effect this conjoint-epistemic-relationship-and-fate in the conceptualisation of the material and social world is even confirmed today as with the social and social-organisational framework that underlied and was necessary for most of the scientific and technological advances after the second-world war). Basically, dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation as such reflects the successively induced originariness-parrhesia,–as–spontaneity-of-aestheticisation specific 'constructiveness-by-destructuring cut-offs/thresholds of ontological-performance-<including-virtue-as-ontology>' so-construed as of notional~protensive-consciousness (trepidatious-consciousness/warped-consciousness/preclusive-consciousness/occlusive-consciousness/protensive-consciousness)

Furthermore, besides the conceptualisation articulated herein, what vindicates this idea of apriorising/axiomatic/referencing intellectual break/schism/estrangement is effectively that the possibility for prospective meaningfulness-and-teleology is associated with a renewed framework of ontologisation/ontological-veracity/aestheticisation-towards-ontology which is in 'affirmation/projection by its underlying acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument' to the superseded framework of ontologisation/ontological-veracity/aestheticisation-towards-ontology as unaffirmed/deprojected; as to the possibility of the recovery of dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation prospectively, disentangled from 'prior knowledge-as-of-mechanical-knowledge predisposition and its developed temporal institutional self-serving predisposition'. And finally, after many years of formative contemplation this author is rather dedicated to writing henceforth even if read/skimmed just by a handful or fortuitously or never-but-potentially, whatever cometh, hopefully over the next half a century, and thinks any human who genuinely feels strongly about the need for profound human thought should be able to do likewise, as ultimate responsibility and choice notionally lies with the individual.

entailing dynamics of existentially reflected ontological-contiguity as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation' as is the case with 'thought-experiments of mere common/comparative patterning' thus inducing blurriness of meaningfulness-and-teleology as to disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-'immanent-ontological-contiguity'> which do not project an entailing dynamics unlike thought-experiments of veridical existential-contextualisation-contiguity such as Einsteinian relativity conceptualisations as to their foregrounding—entailment-(narrowing-down—sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting 'immanent-ontological-contiguity'),—as-operative-notional~deprocrypticism and so since thought-experiments reflecting existential-contextualising-contiguity because of their awareness of relative-ontological-completeness implications don't fall into the ontological-flaws of equating/levelling-down everything across space and time associated with presencing—absolutising-identitive-constitutedness when it comes to reflecting ontological-contiguity projection in relative-ontological-completeness as of existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation given that existence—is-the-absolute-a-priori-of-conceptualisation enabling sublimation-over-desublimation, and this differentiation between veridical knowledge-reification and analogy/mere-analogising also highlights that actually knowledge is more critically a contiguous whole as to the underlying reference-of-thought—and—reference-of-thought-devolving—meaningfulness-and-teleology (and this should be the overall expected epistemic attitude) but for the artificial divisions arising as to human limited-mentation-capacity warranting specialisations and the fact that various epistemic-conceptions of specialisations are of their 'peculiar optimal epistemicity for inducing sublimation', but then the requisite originariness-parrhesia,—as—spontaneity-of-aestheticisation acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for—conceptualisation as to sublimating ontological-good-faith/authenticity—structure remains of the same ontological-congruence across all human knowledge-reification domains as reflected by the overall registry-worldview's/dimension's reference-of-thought—and—reference-of-thought-devolving—meaningfulness-and-teleology implied peculiar ('relative-ontological-completeness—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation-(as-to-underlying-ontological-commitment)') foregrounding—entailment-(narrowing-down—sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting 'immanent-ontological-contiguity'),—as-operative-notional~deprocrypticism and this insight will explain why conceptual/axiomatic epistemic-veracity analyses across subject-matters like physics, chemistry, biology, psychology, the-social are not 'mere conceptualisations of common/comparative patterning' but speak to an underlying overall reference-of-thought epistemic-veracity for sublimation

warranted across all the subject-matters so-reflected as of overall philosophical epistemological conceptualisation (and so specifically as to the positivism/rational-empiricism overall epistemic attitude of reference-of-thought underlying all these subject-matters) but more thoroughly implicited in many a natural science domain (given the natural sciences very strong constraining to predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment) and low emotional-involvement inducing the requisite candidness for prospective knowledge-reification sublimation) but requiring a thoroughly insightful philosophical expliciting and elucidation to induce a more consciously profound epistemic-veracity in the-social as well as the overall registry-worldview's/dimension's reference-of-thought in enhancing overall human contemplation for knowledge-reification;¶ such an existential-contextualising-contiguity conception of knowledge-reification unlike the mere aestheticisation of abstract dialecticism or analogy/mere-analogising makes a most profound claim to being ontological/scientific by the more profound veracity that it is epistemically embedded as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation (thus averting vague elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity) and construes of existence—as-the-absolute-a-priori-of-conceptualisation enabling sublimation-over-desublimation, that is, the existential-contextualising-contiguity of knowledge-reification projects/construes of transcendence and transcendental-enabling/sublimating in recognition of 'an effective reality basis implying more and more profound reconstruals/reconceptualisations (and so as to ~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought arising by human limited-mentation-capacity-deepening-(~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) thus 'is not mere eclecticism' as can be interpreted from a naïve presencing—absolutising-identitive-constitutedness epistemic-projection perspective to knowledge-reification as to a relic/artifactual orientation poorly entertaining ontological-contiguity projection of relative-ontological-completeness implications and that then equates/level-down everything across space and time failing to reflect historiality/ontological-eventfulness/ontological-aesthetic-tracing associated with prospective sublimation, and so just as say Einsteinian relativity in rearticulating prior physics conception like Lorentz transformation, Maxwell's equations, etc. do not speak to 'a soulless eclectic gathering of such conceptions' but rather priorly a re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking-'projective-insights'/'epistemic-projection-in-conflatedness'-of-notional~deprocrypticism-prospective-sublimation) drivenness as to a prospective ontological-contiguity projection of relative-ontological-completeness that is what develops the insight about the true prospective sublimating possibilities lying behind such prior physics conceptions as reflected with the Theory of relativity) inducing transformative implications with respect to meaningfulness-and-teleology as transcendence (and so in contrast to the mere aestheticisation

of abstract dialecticism or analogy/mere-analogising) with existential-contextualising-contiguity speaking thus of overall human sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence, and we can consider in this regards for instance the veridicality that the convolutedness of say modern day genetics knowledge-reification in existential-contextualising-contiguity cannot be construed as of mere conceptual-patterning as say in terms of Mendelian hereditary (as conceptual-patterning can be so-elicited with the mere aestheticisation of abstract dialecticism or analogy/mere-analogising) since such a conceptual-patterning conception will be existentially/ontologically elusive by its poor reflection of relative-ontological-completeness and by the relic/artifactual orientation not structured/paradigmed in perpetually furthering/inducing the veracity of existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation underlying the complex sublimating conception of genetics in existential-contextualising-contiguity and in many case such an approach as to blurriness of meaningfulness-and-teleology will rather distract from the more ontologically-profound issue of deeper and deeper induced sublimation of genetics science as of 'existential-contextualising-contiguity imbued sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence' (and this mistake is often made as of mere academicism in a flawed knowledge-reification gesturing that construe of the insights of latter existential-contextualising-contiguity elucidations as to ontological-contiguity projection of relative-ontological-completeness implications rather in terms of abstract and vague relic/artifactual conceptualisations failing to establish the entailing dynamics of existentially reflected ontological-contiguity as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation invalidating any existential-contextualising-contiguity analysis and end up equating/leveling-down everything across space and time as of naive absolutising conceptual-patterning and isms–conceptualisations by wrongly implying everything is of the same ontological-contiguity thus undermining historiality/ontological-eventfulness/ontological-aesthetic-tracing insights along the same lines like absurdly striving to idly rearticulate Mendelian hereditary as from the insight garnered from say modern day genetics with a poor capacity to discern their respective historiality/ontological-eventfulness/ontological-aesthetic-tracing implications as to the overall human prospective knowledge-reification project of sublimation and human emancipation) and this insight underlies the contention herein to overcome blurriness of meaningfulness-and-teleology of our positivism–procrypticism uninstitutionalised-threshold for the prospective relative-ontological-completeness, and so-reflected as the deprocrypticism—apriorising/axiomatising/referencing–psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation-（as-to-underlying-ontological-commitment）('preempting—disjointedness-as-of-reference-of-thought,-as-to-<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness-in-superseding-mere-formulaic-positivising/rational-empiricism-based-

conceptions like philosophy and science), and in the bigger picture in this*

regards the institutionalised conception of philosophy for instance is a distorted Western metaphysics-of-presence notion of the more universal concept of overall human knowledge (pure and simple), with the flaw that speaking of say non-Western philosophy is a misnomer so-construed as 'a distorted and undue epistemic intercession of supposed Western philosophy as a reference point of conception into any non-Western society aestheticisation–and–aestheticisation-towards-ontology notion of overall human knowledge' (as to any such non-Western social dynamics very own originariness-parrhesia,–as–spontaneity-of-aestheticisation inducing of prior reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation as outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation) and furthermore such a misnomer as to its metaphysics-of-presence seem to supersede the more fundamental notion of human underlying ontological-commitment (as instigatively driving the human out of animality) as to the more pivotal/critical 'fatedness-of-sublimation-over-desublimation, to existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness (as reflecting the ontological-contiguity—of-the-human-institutionalisation-process beyond any identitive conception as Western or non-Western or even differentiation internal to any such Western conception or non-Western conception), thus overlooking the dynamic underlying human constructive and cultural diffusionary process critically leading to various social-setups dynamics of relative-ontological-completeness in renewing of human meaningfulness-and-teleology');¶ human limited-mentation-capacity-deepening-(<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) thus implies that ultimately the actual knowledge attitude is that of the creative generation, elucidation and exactifying/precisioning–of-sublimation-<as-to-entailing-theoretical,-conceptual-and-operant-implications> of human meaningfulness-and-teleology and so as to the requisite originariness-parrhesia,–as–spontaneity-of-aestheticisation acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation within the artistic framing, philosophical framing or scientific/ontological framing as to their respective aporeticism need for aestheticisation (generativity potential) and/or aestheticisation-towards-ontology (ontological-performance-<including-virtue-as-ontology> potential), and so as we can appreciate that even the artistic as to aestheticisation is much more than just mere patterning but 'a projection of aestheticising depth' that speaks of its specific generative, elucidative and exactifying/precisioning–of-sublimation-<as-to-entailing-theoretical,-conceptual-and-operant-implications> aspects as to specific human perception of artistic sublimation;¶ and in this regards human limited-mentation-capacity-deepening-(<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) needs to factor in that much of the institutional confusion associated with the

artistic, philosophical and scientific speaks more of presencing—absolutising-identitive-constitutedness existentialising—enframing conscious and unconscious institutional politics of self-preservation whether from 'institutionalised philosophy' or 'institutionalised science' as to the overall politicisation of knowledge given that human limited-mentation-capacity warrants human institutional specialisations as subdividing the overall human knowledge aestheticisation–and–aestheticisation-towards-ontology (while factoring that existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation and existence—as-the-absolute-a-priori-of-conceptualisation is not beholdening to any such human-subpotency institutionalising) implying that scientific achievements are de facto philosophical achievements as inherent to the practice of science is notionally/epistemically 'implicited philosophy' whether the scientist is explicitly conscious or not of this such that faced with scientific dilemma some of the most novel philosophies are implicitedly articulated in scientific works in need for their philosophical explicitation (as herein explicated as to the fact that nascent-particular/incipient-and-material/technical-sublimations-<blinded-to-their-relative-ontological-completeness–reference-of-thought-devolving> actually point to an overall reference-of-thought/grandest-axiomatic-construct—as-to-referencing/registering/decisioning sublimation as for instance with Newtonian physics pointing to an overall positivism/rational-empiricism reference-of-thought/grandest-axiomatic-construct—as-to-referencing/registering/decisioning), and likewise the scientific methods/methodologies/approaches were developed by philosophers involved in natural philosophy knowledge-reification gesturing firstly as thought experiments and thereafter articulating effective practical methodologies not because they gave up on natural philosophy but because their normal living experience cognition they used was no longer sufficient for a more profound and creative insight into abstruse phenomenality and so they expanded upon their normal living experience cognition associated with thought experiments to 'exactifying/precisioning–of-sublimation-<as-to-entailing-theoretical,-conceptual-and-operant-implications> framework of controlled experiences involving control methods' as extension of their normal living experience cognition into the existentially atypical manifestation of natural phenomena and this is the very true meaning of scientific approaches and methods as not breaking away from philosophising but rather extension of philosophising into methodologically framed and controlled experiences known as experiments (with the naïve perspectiveless/soulless adoption of methods/methodologies/approaches in many a domain-of-study today by the mere token that this is the practice in the natural sciences losing sight of the underlying and relevant philosophising of such methods/methodologies/approaches as to profound and creative acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation required for the relevant domain-of-study as to reflecting its given epistemic-conception phenomenal/manifest~subpotency-<in-transitive-conflatedness–reflexivity,-in-the-full-potency-of-existence> pertinence to which any such

sublimating-withdrawal,-eliciting-of-prospective-supererogation) as reflecting both overall knowledge-reification orientation further implies that there can't be any tradition/practice of knowledge that overrides existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation as it can be often naively implied in many a blurry and pedantic domain-of-study subject to totalisingly-disentailing—discretion/whim-of-thought with any such orientations claiming to ignore ontological-veracity rather speaking of institutional bankruptcy as to the fact that 'human-subpotency cannot subject knowledge but is rather subject to knowledge' such that issues of human ineptness/incapacity arising from disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-'immanent-ontological-contiguity'> cannot be transformed and construed as structural/paradigmatic issues of inherent knowledge as of the inherent nature of science or inherent nature of the philosophical (failing to attend to prospective existential aporeticisms while construing the framework of human agreeability and agreeing as knowledge rather than the construal of ontological-veracity as of the impersonal manifestation of the sublime as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation as the more fundamental purpose of the intellectual enterprise as to the reality of the fact that true knowledge has ever always been about superseding human limited-mentation-capacity and not defining it as a point of reference however disagreeable the exercise), and in many ways this drawback is reflected in the modern practice of philosophical interpretations in the humanities as to a relic/artifactual way and academic practice of going about knowledge-reification that equates/level-down everything across space and time as to wrongly imply everything is of the same ontological-contiguity as to the proliferation of isms—conceptualisations without any 'relative-ontological-completeness <~~amplituding~~/formative>entailment—as-to-totalising-contiguous/coherent—factuality-of-variability reflecting historiality/ontological-eventfulness/ontological-aesthetic-tracing' as well as mere conceptual-patterning with no contiguous knowledge-reification gesturing as to when for instance such notions as humanism and antihumanism, enlightenment and counter-enlightenment, etc. seem to imply that the latter conceptualisations are against humanity or enlightenment rather than being more profound conceptions of humanity and enlightenment over the former as shallow conceptions thus inducing blurriness of thought and in a further twisted relic/artifactual approach the very notion of postmodernism as of 'postmodern-thought elucidation of ontologically-flawed desublimating historicity-tracing—presencing-imbued-hyperrealisation/hyperreal-transposition' is paradoxically construed as postmodern condition as of the modern's take prospective uninstitutionalised-threshold of procrypticism or disjointedness—as-of-reference-of-thought (as to an academically induced confusion equating postmodern-thought with the analytical criticism of modern society's metanaratives so-articulated by postmodern-thought more like qualifying budding-positivists critiques of the non-positivising medieval-world/medievalism as the modern condition) with all this contradictory intellectual-muddling arising because of the precedence of institutional

self-preservation over existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation as we can easily appreciate that the lack of blurriness in many a natural science as to an untenable constraining of social universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising—in-relative-ontological-completeness) will avert any such relic/artifactual approach to knowledge (say for instance construing modern genetics as a deeper conception of hereditary as anti-hereditary or say quantum physics as a deeper conception of physics as anti-physics along the lines of equating/leveling-down everything across space and time as of naive absolutising conceptual-patterning and isms—conceptualisations because of institutional pre-eminence over relative-ontological-completeness conception as of existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation), thus speaking of the requisite underlying ontological-good-faith/authenticity and ontological-bad-faith/inauthenticity insight (manifested beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>) when going about knowledge-reification in domains-of-study subject to blurriness, and critically human knowledge-reification as to organic-knowledge is inherently of existential implications (as to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<~~amplituding~~/formative>epistemic-totalising~purview-of-construal to which the sublimating relative-ontological-completeness has to be epistemically affirmed while the desublimating relative-ontological-incompleteness has to be epistemically unaffirmed and so with regards to the constraining implications as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation with no naïve notion of neutrality/goodnaturedness that wrongly leads to equating/leveling-down everything across space and time as of naive absolutising conceptual-patterning and isms—conceptualisations) such that part and parcel of knowledge is to identify and qualify improbable, obscure and shady misanalyses passing for true knowledge (just as the Socratic philosophers as to their universalising-idealisation and budding-positivists understood respectively with regards to mere-sophistry and mere-scholasticism) with such blurriness failing to grasp relative-ontological-completeness implications and equating/leveling-down everything across space and time as of naive absolutising conceptual-patterning and isms—conceptualisations providing the ubiquitous framework for a poorly accounted for media-driven pop-intellectualism subject to marionetting subterfuges of dominance/vested-interest actors as to a circular interest holding down the profound emancipative potential of the humanities and social sciences as of their inherent sublimating nature (and likewise it is critical to grasp that human sublimation as induced from nascent-particular/incipient-and-material/technical-sublimations-<blinded-to-their-relative-ontological-completeness—reference-of-thought-devolving> equally requires corresponding institutional sublimation that doesn't just assume a relative-ontological-incompleteness—presublimation-construct—of-meaningfulness-and-teleology value-construct and methodologising/mutualising/organising/institutionalising existentialising—enframing as we can appreciate for instance that such

There is a common word that already exists that best describes what a psychopath is philosophically-speaking. It is a French word that doesn't exactly exist in English. The word is 'cinglé' and is better translated in English as 'slanted mind' (in contrast to the straightness/candor/organic-comprehension-thinking of a 'conviction-as-to-profound-supererogationly predisposed human mind' as of prelogism or prelogism-as-of-conviction-as-to-profound-supererogation-⟨existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at⟩ so-construed as candidity/candour-capacity. It should equally be noted that sometimes the word cinglé is used intermittently with deranged (dérangé) which is a more general word that does not capture the socially-functional-and-accordant phenomenal specificity that is of relevance herein. In other words, 'the cinglé' perceives meaning as 'a hollow mimicking form in-of-itself that determines others behaviour' in contrast to the normal–as-of-candidity/candour-capacity human relation to meaning as of essence or supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism or prelogism we abide by (and so, even in the case of 'poor or bad supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism' or bad prelogism where the bad logic of the prelogism-as-of-conviction-as-to-profound-supererogation mind operates by an ad-hoc and circumspect exaggeration or omission).

In other words, the psychopath manifests postlogism or postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation-⟨perverted-outcome-sought-precedes-existentially-veridical-logical-dueness⟩ by its reference-of-thought-devolving-as-of-instantiative-context—meaningfulness-and-

teleology construed as 'how can a perverted sought after outcome be obtained with an interlocutor or interlocutors with respect to a targeted end-goal or targeted individual by falsely projecting hollow-abstract logic notwithstanding that it is existentially unreal or it is faked or it is opportunistically raised or raised out-of-context (existential-decontextualised-transposition)', i.e. meaning-as-form or pathologically/compulsively hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>, contrasted to the normal prelogism-as-of-conviction-as-to-profound-supererogation minds prelogic state ('existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at' construed as 'what does the veridical logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of a given existential situation intrinsically imply as relevant and sound outcome', i.e. meaning-as-ontologically-veridical/in-conviction-as-to-profound-supererogation, whether thereafter the logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation is rightly or wrongly assumed). Hence prelogism or prelogism-as-of-conviction-as-to-profound-supererogation is all about the appropriateness of logic without any implication/questioning about any issue with the reference-of-thought on which logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation is based, and thus the idea of re-engaging is valid on the basis that the logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation can be well performed subsequently despite an initial failure or possible initial failures. Whereas with postlogism or postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation this essentially has to do not with an issue of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation but rather an issue of perversion-of-reference-of-thought-<as-effectively-apriorising-in-

nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>, as logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation is on the basis of a sound reference-of-thought (non–perversion-of-reference-of-thought) such that fundamentally 'the notion of the dueness for logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation' is ontologically jeopardised by the inherent perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as 'first-order perversion, out of existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context', of apriorising–reference-of-thought-elements/apriorising–registry-elements which are denaturing of implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology. Further to this is the derived second-order level deception as of wrongly implied logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation thereof, as of infinite deception possibilities from this faulty-mentation-procedure-deception-or-urge arising where the implied first-order perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> is wrongly acquiesced to as appropriateness-of-reference-of-thought-as-of-conflatedness thus wrongly implying that logical-dueness arises for logical engagement with interlocutors; and so in contrast to the infinite possibilities of sound logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation from non–perversion-of-reference-of-thought. Hence postlogism is actually a usurpation/arrogation of the prelogism-as-of-conviction-as-to-profound-supererogation mentation reflex where social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising–in-relative-ontological-

completeness⟩ of apriorising–reference-of-thought-elements/apriorising–registry-elements is not-available/obscured as of lack of insight on existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context; with the result that with respect to the reference-of-thought, postlogism 'induces as of ontological-normalcy/postconvergence epistemic/notional~projective-perspective, a teleologically-degraded-as-preconverging-or-dementing–apriorising-psychologism differentiation of existential meaningfulness-and-teleology' unlike prelogism which 'induces as of ontological-normalcy perspective, an elevated-as-sound-thinking differentiation of existential meaningfulness-and-teleology'. The postlogic disposition is associated pathologically with the psychopathic character as a faulty-mentation-procedure-deception-or-urge with respect to perceived social-stake-contention-or-confliction but can equally extend ad-hocly or more profoundly as a manifestation of conjugated-postlogism/preconverging-or-dementing-integration (due to psychopathic/postlogism induced social loss-of-awareness of the social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩) where it elicits temporal-dispositions of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation in situations of social-stake-contention-or-confliction.

'Candidity/Candour-capacity' as such involves two-levels of construal with the first-level being with regards to 'overall ontological-contiguity of variance as difference-in-kind/difference-in-aposteriorising-or-logicising   as   to   the   ontological-performance-<including-virtue-as-ontology> of meaningfulness-and-teleology' in the sense that at our institutionalised-and-uninstitutionalised-thresholds of positivism–procrypticism reference-of-thought–and–reference-of-thought-devolving–meaningfulness-and-teleology various   degrees   of   temporal-to-intemporal   individuations   ontological-performance-<including-virtue-as-ontology> varyingly-uphold-or-fail candidity/candour-capacity as of difference-in-kind/difference-in-aposteriorising-or-logicising (so-construed   as   within   the positivism–procrypticism   <~~amplituding~~/formative>epistemic-totalising~intervalist-as-categorising-phenomenal-abstractiveness-of-presencing-in-'occlusive-consciousness'-enabling-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights-of-existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context   categorisation   construal/conceptualisation). The   notion   of   'candidity/candour-capacity'   is   more   fully/completely construed/conceptualised   at   the   second-level   as   from   the   ontological-normalcy/postconvergence   epistemic-projection   perspectivation   underlying notional~deprocrypticism or <~~amplituding~~/formative>notional~preempting—disjointedness-

'Candidity/Candour-capacity' as of the ontological-contiguity—of-the-human-institutionalisation-process as to difference-in-nature/difference-in-apriorising-or-axiomatising thus refers to the comprehensiveness or <~~amplituding~~/formative>epistemic-

totalising~social-context-construed-conflatedness of individuation and consequently social capacity for ontological-normalcy/postconvergence, so reflected in <s>amplituding</s>/formative>epistemic-totalising~social-context-construed-conflatedness of individual and social construal/conceptualisation of meaningfulness-and-teleology in upholding/failing ontological-normalcy/postconvergence as reflected by reference-of-thought–closeness-of-tethering–to–prelogism-as-of-conviction-as-to-profound-supererogation (reference-of-thought–prelogism-as-of-conviction-as-to-profound-supererogation) or reference-of-thought–looseness-of-tethering–to–prelogism-as-of-conviction-as-to-profound-supererogation (threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism) as explaining thus the possibility respectively of appropriateness-of-reference-of-thought-as-of-conflatedness or perversion-and-derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>, behind the grander issue of relative-ontological-incompleteness-and-relative-ontological-completeness-of-reference-of-thought. Basically, this points to 'epistemic/notional reflexivity perspectives of construing/conceptualising' with respect to ontology/ontological-normalcy so-reflected with the thresholds of 'effecting-parsimony' as to temporality/shortness and 'effecting-wholeness' as to intemporality; the elucidation of which brings out the beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<s>amplituding</s>/formative>epistemic-totalising–in-relative-ontological-completeness⟩, enabling intemporal/ontological skewing for institutionalisation. It is the resolving as aetiologisation/ontological-escalation of 'candidity/candour-capacity' as of transcended/superseded psychoanalytic-backdrop for the prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-

incidenting-predicative-insights overcoming human procrypticism or disjointedness-as-of-reference-of-thought that will usher in futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism institutionalisation psyche on the same token that the resolving of non-positivism including 'superstition' as of transcended/superseded psychoanalytic backdrop for the prospective overcoming of human 'non-positivising/non-rational-empirical' caricaturing-hollow-staging-and-performance that ushered in our prospective positivism institutionalisation psyche and the institutionalisation possibilities thereof. Notional candidity/candour-capacity thus allows for meaningfulness to be recast in terms–as-of-axiomatic-construct of 'narratives of candidity/candour-capacity in existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context' reflecting more directly the candidity <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity as of successive temporal-to-intemporal individuations specifically as a capacity variance of the same construct. Furthermore, such a candidity/candour-capacity approach as syncing with a Deprocrypticism reference-of-thought as of beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> conflatedness over our positivism–procrypticism reference-of-thought and uninhibited/decomplexified from the latter, provides 'direct ontological insight of deprocrypticism placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology' as to the nature of the positivism–procrypticism social-functioning-and-accordance—as-of-social-stake-contention-or-confliction threshold as uninstitutionalised-threshold amenable to perversion-and-derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> on the basis of its

more simplistic and direct notion of candidity/candour-capacity variance of the same construct. be inherently ontologically-deficient/incomplete, can be superseded 'beyond-and-sidestepping any such archaeological-layers/historiality/ontological-eventfulness/ontological-aesthetic-tracing limitation' by rather construing-of-and-informing-as-to the inherent possibilities of pure-ontology insight as reflected by 'inherent notional~conflatedness/constitutedness-to-conflatedness ontological-normalcy/postconvergence/postdication/metaphysics-of-absence phenomenal insight about pure-ontology/existence-as-of-its-mimetic-echoness' as highlighted with the 'various as <~~amplituding~~/formative>epistemic-totalising~random-as-impulsive/epistemic-totalising~nominal-as-tendentious/epistemic-totalising~ordinal-as-qualifying/epistemic-totalising~intervalist-as-categorising/epistemic-totalising~ratio-contiguity/ratiocination-as-referentialism-phenomenal-abstractiveness-of-presence-enabling-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights-of-existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context construed as notional~conflatedness', and so conceptually as of an ahistorical-emancipation more like the science/laws of physics is inherently ahistorically-emancipated from physical phenomena occurrences/events archaeology/historiality/ontological-eventfulness/ontological-aesthetic-tracing and is capable of construing-of-and-informing-as-to such physical phenomena occurrences/events archaeology/historiality/ontological-eventfulness/ontological-aesthetic-tracing, thus enabling for instance the veracity/ontological-pertinence of say astronomy as an archaeology/historiality/ontological-eventfulness/ontological-aesthetic-tracing derived-science. Insightfully, such a candidity/candour-capacity deprocrypticism placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology construed as most ontologically-veridical human psychical representation and so over our

present positivism–procrypticism psychical representation, is effectively grounded on the notion that placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology is 'by itself inherently an utterly discreet and arbitrary construct' but for the fact that every registry-worldview's/dimension's reference-of-thought has been habituated to its own as of its existentialism/full-depth-of-existential-implications meaningfulness-and-teleology and considers its own by reflex to be sanctimonious. But then the fact is the true sanctimony lies with intrinsic-reality/ontological-veridicality construed as of prospective relative-ontological-completeness-of-reference-of-thought as it so defines the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology veracity/ontological-pertinence as of existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context, as implied with the notion of 'postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics'. Thus, however weird it may seem to our positivism–procrypticism psychical representation, in reflecting our positivism–procrypticism relative epistemic-abnormalcy/preconvergence to it a candidity/candour-capacity deprocrypticism placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology as of <amplituding/formative>epistemic-totalising~ratio-contiguity/ratiocination-as-referentialism-phenomenal-abstractiveness-of-presencing-in-'protensive-consciousness'-enabling-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights-of-existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context is actually more real and profound ontologically to ours as of our positivism–procrypticism <amplituding/formative>epistemic-totalising~intervalist-as-categorising-phenomenal-abstractiveness-of-presencing-in-

In other words from an ontological-normalcy perspective implied with candidity/candour-capacity deprocrypticism placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology, ascription-constructs are naïve <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag construals of human reference-of-thought/structural/paradigmatic—ontological-performance-<including-virtue-as-ontology>.

The ontological-normalcy/postconvergence nature of intrinsic-reality/ontological-veridicality implies human reference-of-thought/structural/paradigmatic—ontological-performance-<including-virtue-as-ontology> is construed as it upholds/fails ontological-normalcy as from prospective relative-ontological-completeness-of-reference-of-thought and is actually a wholly internal process of conflatedness, highlighting 'the concatenation to intemporal-projection inextricably of derived-denaturing-deprojections-in-distractiveness-of-intemporal-projection, with the former in relative intemporality/longness and the latter in relative temporality/shortness as of distractiveness'; construed as temporal-concatenation-to-intemporality-or-ontological-veridicality-as-of-'reference-of-thought—degraded-devolving-as-of-uninstitutionalised-threshold'. Underlying such graduated conceptualisation of human consciousness as of notional~conflatedness, is the fact that as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, such human consciousness conflatedness ultimately behind the successive institutionalisation-cumulations/institutional-recomposures in reflecting the ontological-contiguity—of-the-human-institutionalisation-process is grounded on its least common human temporality/shortness-to-intemporality/longness denominator which is the 'constraining social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness⟩; and while the 'complementing grander social-universally-non-transparent-thus-non-constraining-element of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality' is aspirational as inducing the dimensionality-of-sublimating—<amplituding/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation mental-disposition behind the 'inventing' of prospective institutionalisation, it is effectively occurs spontaneously to the intemporal disposition and cannot be the basis for collective grounding of such human consciousness conflatedness as this inevitably leads to temporal concatenation to intemporality, rather its import lies solely as of solipsistic intemporal projection drive given that ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality is beyond the possibility of its secondnatured institutionalisation just as implied with the notion of faith in creeds. Further, the dynamics of such a graduated human consciousness as of notional~conflatedness of notional~deprocrypticism can be reinterpreted operantly as of

'notional~referentialism' as it points to the fact that categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,-as-of-their-respective-specific-constitutedness mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments are actually 'various levels of failing to achieve the deprocrypticism referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument that ensure ontological-completeness-of-reference-of-thought', and thus are construed as of the same notion of referentialism, as of 'pseudo-referentialism mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments levels' given their respectively underlying limited-mentation-capacity in achieving referentialism. While in reality these are respectively of 'categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,-as-of-their-respective-specific-constitutedness mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments' they still act as if of 'deprocrypticism referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument', and so 'in their beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> preconverging-or-dementing–apriorising-psychologism' thus generating as of their 'pseudo-referentialism mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments levels' their respective neuterising construed as of 'their prior relative-ontological-incompleteness-of-reference-of-thought of meaningfulness-and-teleology'. Neuterising thus refers to human attribution of meaningfulness-and-teleology as of human limited-mentation-

capacity misconstruing, with respect to existential social-stake-contention-or-confliction possibilities, such that its reference-of-thought/structural/paradigmatic—ontological-performance-<including-virtue-as-ontology> is relatively ontologically-incomplete/of-ontologically-compromised-mediating,-as-of-its-specific-constitutedness, and so-construed from the conflatedness of notional~deprocrypticism; thus neuterising is specifically 'a contextually developed perversion-or-derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>, that is secondnatured as of its prior relative-ontological-incompleteness-of-reference-of-thought with the consequent implications of relatively defective meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology>. For instance, as of their relative-ontological-incompleteness-of-reference-of-thought, an animist society might notice that going to a given forest leads to illness and ascribe evil to that forest but then a prospective relative-ontological-completeness-of-reference-of-thought positivism interpretation may be that at a certain time of the day and during a certain time of the year that forest attracts mosquitoes that cause malaria for instance which can be prevented by rubbing a certain leaf on ones cloths and body, together with the fact that a given root can be used to cure the malaria, and in addition to a whole web of nuanced understanding available to the positivism meaningfulness-and-teleology relative to the 'abject and brute' animistic interpretation as meaningfulness-and-teleology neuterising that it is an evil forest one should not trespass together with a whole cohort of 'imaginary tales' in shoring up that posture, speaking of its threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism. This is a most elaborate articulation of neuterising but it equally applies where meaningfulness-and-teleology is 'just about miscued' say between positivism–procrypticism and deprocrypticism with the latter underlying the disjointedness-as-of-reference-of-thought of the former as it

Basically neuterising as so articulated is the conception of 'the ontological-performance-<including-virtue-as-ontology> of the various institutionalisations references-of-thought-devolving-teleological-structure-of-meaningfulness' so-conceptualised from the notional~conflatedness of notional~deprocrypticism protensive-consciousness, and such an ontologically-veridical evaluation of neuterising is construed as a deneuterising—referentialism reflecting-ontologically-veridical-'affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-validating-measuring-<postconverging-or-dialectical-thinking–apriorising-psychologism>'-and-ontologically-flawed-'preconverging-or-dementing–apriorising-psychologism/deassertion' as of the various institutionalisations references-of-thought-devolving-teleological-structure-of-meaningfulness'. The implication here being that neuterising 'can be disambiguated as of the fundamental human limited-mentation-capacity induced <~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving-as-of-instantiative-context—meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology> misconstrual-as-neuterising, and so-construed as of referentialism as of the

notional~conflatedness of notional~deprocrypticism protensive-consciousness; thus gaining a superseding insight of the ontologically-flawed references-of-thought-devolving-teleological-structure-of-meaningfulness fixations/hardening-construed-as-neuterising of the various relative-ontologically-incomplete institutionalisations as of their existential-contextualisation; as this deneuterising—referentialism reflecting-ontologically-veridical-'affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-validating-measuring-<postconverging-or-dialectical-thinking–apriorising-psychologism>'-and-ontologically-flawed-'preconverging-or-dementing–apriorising-psychologism/deassertion' as from notional~deprocrypticism, disambiguates neuterising as an insight into the ontologically-veridical 'underlying phenomenological dynamics of human limited-mentation-capacity' that explains the how-and-why of such ontologically-flawed references-of-thought-devolving-teleological-structure-of-meaningfulness fixations/hardening-construed-as-neuterising associated with the various institutionalisations in prior relative-ontological-incompleteness-of-reference-of-thought. Insightfully and counterintuitively for elucidative construal, neuterising as of epistemic-abnormalcy/preconvergence/relative-ontological-incompleteness-of-reference-of-thought   is rather 'a derived-construction as deficient of ontological-normalcy/relative-ontological-completeness-of-reference-of-thought', as it is the elucidation of ontological-normalcy/relative-ontological-completeness-of-reference-of-thought as truly reflecting intrinsic-reality/ontological-veridicality, whether we are aware of it as of postconverging-or-dialectical-thinking–apriorising-psychologism or unaware as unconscious beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> as of preconverging-or-dementing–apriorising-psychologism/deassertion, that reveals neuterising as of epistemic-abnormalcy/preconvergence/relative-ontological-incompleteness-of-reference-of-thought as it is construed in its ontological-veridicality as 'a deficient

derived-construction of ontological-normalcy/relative-ontological-completeness-of-reference-of-thought'. This insight equally explains why it is 'through the deficient derived-construction of conflatedness' that is construed the ontologically-veridical nature of 'distractive-alignment-to-reference-of-thought'-destructuring. Understanding and overcoming neuterising as such reveals the beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> dynamism of human temporal-to-intemporal individuations mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as critical across all the registry-worldviews/dimensions construed as of ontological-dementation/dialectical-dementation–stranding/attributive-dialectics. The ontological-veridicality of a 'postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics' as associated with 'intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity' is one grounded as of ontological-dementation/dialectical-dementation–stranding/attributive-dialectics on 'decentering/pivoting around the uninstitutionalised-threshold rule' as a remaking of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument involving the resetting of the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology, pointing out that the prior apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument has been superseded as of its revealed perversion-and-derived-perversion-of-reference-of-thought-<as-

effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> and so as of the uninstitutionalised-threshold rule. This explains why at uninstitutionalised-thresholds which are subject to 'meaningfulness-and-teleology neuterising', prospective institutionalisation can only be achieved as of secondnatured constraining social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩ that overcomes the given uninstitutionalised-threshold 'meaningfulness-and-teleology neuterising' thus enabling the ontological-normalcy/relative-ontological-completeness-of-reference-of-thought of the prospective institutionalisation. It also explains why naively implying at an uninstitutionalised-threshold that 'the social-universally-non-transparent-thus-non-constraining-element of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality' is universally attributable as if humans had only the intemporal/longness-of-register-of-meaningfulness-and-teleology individuation without temporal/shortness-of-register-of-meaningfulness-and-teleology individuations will simply fail to recognise the generation-and-upholding of neuterising and thus unable to reveal perversion-and-derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>; as it is naïve to think that while being at an uninstitutionalised-threshold like universalisation–non-positivism/medievalism by mere-and-vague impression-driven/good-naturedness/wishfulness <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ in social-aggregation-enabling, people will 'simply by magic' find themselves articulating positivistic meaningfulness-and-teleology without grasping that the psychoanalytic-unshackling/memetic-reordering/institutional-recomposure

cross-generational process is effectively the mechanism for 'overcoming non-positivism/medievalism uninstitutionalisation meaningfulness-and-teleology neuterising' to be able to then reveal, construe and uphold positivistic Being and meaningfulness-and-teleology, and this equally applies with regards to overcoming our 'procrypticism/disjointedness-as-of-reference-of-thought meaningfulness-and-teleology neuterising' to attain futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism Being and meaningfulness-and-teleology. As a further elucidation, a comparison can be made between a construct of 'notional~referentialism' disambiguated as referentialism, categorising neuterising, qualifying neuterising, tendentious neuterising and impulsive neuterising, and in parallel a reflection of 'data conceptualisation' disambiguated as ratio-contiguous referencing, intervalist pseudo-referencing, ordinal pseudo-referencing, nominal pseudo-referencing and random pseudo-referencing. We can grasp that effectively data conceptualisation as of intrinsic-reality/ontological-veridicality is inherently ratio-contiguous as of ontological-normalcy/relative-ontological-completeness-of-reference-of-thought but then we don't always have the capacity to reference ratio-contiguous data and so the other types of data conceptualisations are available to us as well 'as of the limitations of our measuring capacity', and we grasp that the latter are actually in 'constructed-deficiency of <amplituding/formative>epistemic-totalising~ratio-contiguity/ratiocination-as-referentialism' as of their respective epistemic-abnormalcy/preconvergence/relative-ontological-incompleteness-of-reference-of-thought.

Here as well it is important to understand that it is the ratio-contiguous referencing data conceptualisation that provides the 'overriding framework as of conflatedness' for making-sense-of/construing the relatively deficient referencing data conceptualisations as of their 'defined tolerable levels' of neuterising. This elucidation is to point out that reference-of-

thought constructs in epistemic-abnormalcy/preconvergence/relative-ontological-incompleteness-of-reference-of-thought in the very first place cannot be the basis for articulating, as of their given constitutedness, by elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity ontologically-veridical meaningfulness-and-teleology 'as if in referentialism as of referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument' but rather require 'their ontologically-veridical meaningfulness-and-teleology restoration' by a conflatedness as of ontological-normalcy/relative-ontological-completeness-of-reference-of-thought that factors in 'their constructed-deficiency with respect to ontological-normalcy/relative-ontological-completeness-of-reference-of-thought, so-construed as their neuterising' as of their categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,-as-of-their-respective-specific-constitutedness mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments; thus enabling ontologically-veridical construal as of both ontological-completeness/incompleteness-of-reference-of-thought of Being and meaningfulness-and-teleology retrospectively to prospectively in reflecting the ontological-contiguity—of-the-human-institutionalisation-process. To put it another way, as distinct articulations of the same physics intrinsic-reality, we cannot simply by constitutedness by elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity of 'traditional classical mechanics axiomatic-construct' given its epistemic-abnormalcy/preconvergence/relative-ontological-incompleteness-of-reference-of-thought arrive-at/achieve the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as of its ontological-normalcy/relative-ontological-completeness-of-reference-of-thought; as what is so generated is nothing as of reality but rather a virtuality-or-

ontologically-flawed-construal. Instead such a construction of prospective relative intrinsic-reality/ontological-veridicality is a conflatedness of 'traditional classical mechanics axiomatic-construct' by an epistemic-totalising~renewing-realisation/re-perception/re-thought as of maximalising-recomposuring-for-relative-ontological-completeness; driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality to reconstruct the same physics domain-of-study as the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs, and rather reflects the ontological-veridicality that 'traditional classical mechanics axiomatic-construct' as of its epistemic-abnormalcy/preconvergence/relative-ontological-incompleteness-of-reference-of-thought is 'construed as a constructed-deficiency of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs ontological-normalcy/relative-ontological-completeness-of-reference-of-thought perspective', and the former can only be subsumed/implied/construed-as-non-contradictory to the latter. Such a basic conception of comparative axiomatic-constructs in their reflection of the very same <~~amplituding~~/formative>epistemic-totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality highlights that ontologically-veridical meaningfulness is a construction or derived-construction as of inherent intrinsic-reality/ontological-veridicality or the closest axiomatic-construct approximation to it; the insight here being that 'relative completeness/profoundness of axiomatic-construct/reference-of-thought with respect to intrinsic-reality/ontological-veridicality' is what is ontologically preeminent/critical for the notional perspective of ontological construal/conceptualisation. This is equally relevant with regards to the 'reference-of-thought—devolving-teleological-structure-of-meaningfulness' which refers to the transcendental-enabling/sublimating conceptual framework that sets up the

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for a registry-worldview's/dimension's reference-of-thought construction possibilities of derived axiomatic-constructs of meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue as of existential-instantiations', on the same unchanging intrinsic-reality/ontological-veridicality construed/conceptualised by all registry-worldviews/dimensions, but generating with human limited-mentation-capacity-deepening-⟨~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ successive more and more relatively profound/complete registry-worldviews/dimensions reference-of-thought constructions of derived axiomatic-constructs of meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue; with the ⟨given consciousness's neuterising-induced-or-referentialism-induced⟩-reference-of-thought—devolving-teleological-structure-of-meaningfulness as of its intradimensional existential-instantiations derived/devolved axiomatic-constructs of meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue as the registry-worldview's/dimension's reference-of-thought 'abstract teleological-structure/teleological-possibilities'. For instance, all subsequent axiomatic-constructs of meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue of the recurrent-utter-uninstitutionalisation registry-worldview/dimension are possible only by its ⟨trepidatious-consciousness neuterising-induced⟩-reference-of-thought—devolving-teleological-structure-of-meaningfulness which is non-rules—apriorising/axiomatising/referencing–psychologism,-as-impulsive-or-accidented-

or-random-mental-disposition as this basically defines the possibility of institutionalisation within recurrent-utter-uninstitutionalisation as inherently non-existent. Likewise it is the habituated rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality for the prospective institutionalisation of base-institutionalisation that is the ⟨warped-consciousness neuterising-induced⟩-reference-of-thought—devolving-teleological-structure-of-meaningfulness for enabling intradimensional existential-instantiations derived/devolved axiomatic-constructs of meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue of base-institutionalisation. This insight extends to all successive registry-worldviews/dimensions institutionalisations in construing their teleological-structure/teleological-possibilities. This equally explains the divergence of individuals and societies ontological-performance-<including-virtue-as-ontology> across registry-worldviews/dimensions even though all humans have the same basic intellectual potential; as within the institutionalisation limits of a registry-worldview's/dimension's 'reference-of-thought—devolving-teleological-structure-of-meaningfulness' as its underlying reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, individuals cannot all of a sudden start thinking in terms–as-of-axiomatic-construct enabled by a prospective registry-worldview's/dimension's institutionalisation 'reference-of-thought—devolving-teleological-structure-of-meaningfulness'; given that there is a need for the requisite institutional-cumulation/institutional-recomposure as of successive psychoanalytic-unshackling/memetic-reordering/institutional-recomposure underlying the transcendences in reflecting the ontological-contiguity—of-the-human-institutionalisation-process. The fact is that all meaningfulness-and-teleology ontological-performance-<including-virtue-as-

ontology>s, whether teleologically-degraded or teleologically-elevated, implied as of within a given reference-of-thought are necessarily in ontological-contiguity, construed as of a difference-in-kind/difference-in-aposteriorising-or-logicising of the same <amplituding/formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving. Such that a registry-worldview/dimension reference-of-thought associated postlogism-slantedness manifestation, which is inevitably being instigated as postlogism denaturing <amplituding/formative>wooden-language-⟨imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology⟩ meaningfulness-and-teleology, as well as the temporal manifestations of the registry-worldview/dimension including conjugated-postlogism, is inevitably in notional-contiguity/epistemic-contiguity-<mentally-aestheticised~postconverging/dialectical-thinking–qualia-schema> with all other meaningfulness-and-teleology of that registry-worldview/dimension reference-of-thought since there are all grounded either in a 'conscious–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation as teleologically-degraded' or 'naïve-conviction-as-to-profound-supererogation as flawed supposedly teleologically-elevated' relationship with the same/common/shared reference-of-thought–categorical-imperatives/axioms/registry-teleology. Such notional-contiguity/epistemic-contiguity-<mentally-aestheticised~postconverging/dialectical-thinking–qualia-schema> is implied by the fact that a reference-of-thought is a '<amplituding/formative>epistemic-totalising/circumscribing/delineating meaningfulness-and-teleology implied as of the same/common/shared reference-of-thought–categorical-imperatives/axioms/registry-teleology and with all its meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology>s, given its prior relative-ontological-incompleteness-of-reference-of-thought as of its

In this regard, a non-positivistic as 'a superstitious centered-~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating meaningfulness-and-teleology implied as of the same/common/shared reference-of-thought–categorical-imperatives/axioms/registry-teleology as associated with say a medieval or animistic social-setup implies that a postlogism-slantedness, conjugated-postlogism or any other temporal mental-disposition with regards to say with notions-and-accusations-of-sorcery will meet with a mental-reflex across the registry-worldview/dimension ~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving-as-of-instantiative-context—meaningfulness-and-teleology that is cognisant-and-integrative as of its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity dereification in notional-contiguity/epistemic-contiguity-<mentally-aestheticised~postconverging/dialectical-thinking–qualia-schema>, as in its questioning and analysing whether the accusation of sorcery is true and so as an assumed/presupposed-as-of-

'~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating meaningfulness-and-teleology implied as of the same/common/shared reference-of-thought–categorical-imperatives/axioms/registry-teleology as of the overall reference-of-thought underlying

<amplituding/formative>epistemic-totalising/circumscribing/delineating belief in superstition, and so beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>. Such a construal equally applies to our positivism–procrypticism associated manifestation of disjointedness-as-of-reference-of-thought associated with a postlogism-slantedness, conjugated-postlogism or any other temporal mental-disposition instigation wherein our underlying procrypticism/disjointedness-as-of-reference-of-thought mental-disposition is a notional-contiguity/epistemic-contiguity-<mentally-aestheticised~postconverging/dialectical-thinking–qualia-schema> of the positivism–procrypticism <amplituding/formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving-as-of-instantiative-context—meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology>s as of 'conscious–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation as teleologically-degraded' or 'naïve-conviction-as-to-profound-supererogation as flawed supposedly teleologically-elevated' relationship with its centered-<amplituding/formative>epistemic-totalising/circumscribing/delineating meaningfulness-and-teleology implied as of the same/common/shared reference-of-thought–categorical-imperatives/axioms/registry-teleology. This explains why it is structurally/paradigmatically impossible for either such a non-positivistic social-setup or our procrypticism social-setup to resolve the vices-and-impediments associated with the corresponding reference-of-thought centered-<amplituding/formative>epistemic-totalising/circumscribing/delineating meaningfulness-and-teleology implied as of the same/common/shared reference-of-thought–categorical-imperatives/axioms/registry-teleology, as it is in circular <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as of its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument centered–

epistemic-totalisation grounding; thus explaining the endemisation and enculturation of the associated vices-and-impediments. Rather than a difference-in-kind/difference-in-aposteriorising-or-logicising implied as of 'notional-contiguity/epistemic-contiguity-<mentally-aestheticised~postconverging/dialectical-thinking–qualia-schema>', it is rather a difference-in-nature/difference-in-apriorising-or-axiomatising as of an 'epistemic-break or notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised~preconverging/dementing–qualia-schema>' as of the prospective relative-ontological-completeness of the prospective reference-of-thought '<~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating meaningfulness-and-teleology implied different and relatively-more-profound-and-complete reference-of-thought–categorical-imperatives/axioms/registry-teleology which is non-cognisant and non-integrative and 'not in notional contiguity' with the prior registry-worldview's/dimension's reference-of-thought '<~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating meaningfulness-and-teleology implied as of the same/common/shared reference-of-thought–categorical-imperatives/axioms/registry-teleology that can induce the 'ontological break' that is able to de-endemise and de-enculturate as of aetiologisation/ontological-escalation the given registry-worldview/dimension vices-and-impediments cross-generationally. With a difference-in-nature/difference-in-apriorising-or-axiomatising construal there is a double-gesture of reification as of implying more critically the inappropriateness of the centered–epistemic-totalisation/reference-of-thought as of its underlying meaningfulness-and-teleology implied same/common/shared reference-of-thought–categorical-imperatives/axioms/registry-teleology, which then inherently points to the inappropriateness of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation on the basis of the centered–epistemic-totalisation/reference-of-thought and hence implying

that there can't be any dialogical-equivalence. Such that from a positivistic perspective, an argument in a non-positivistic social-setup of the type one may be accused of sorcery is construed as ridiculous since it is in notional-contiguity/epistemic-contiguity-<mentally-aestheticised~postconverging/dialectical-thinking–qualia-schema>, with its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity–in-reification/dereification cognisant-and-integrative with a non-positivistic superstitious meaningfulness-and-teleology centered–epistemic-totalisation/reference-of-thought, and that itself is perceived as of 'aetiological concern' as to the possibility of an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity–in-reification/dereification mental-disposition that can be cognisant-and-integrative in notional-contiguity/epistemic-contiguity-<mentally-aestheticised~postconverging/dialectical-thinking–qualia-schema> with numerous existential circumstances reflecting the endemising/enculturating of non-positivistic superstition and its vices-and-impediments. The same applies from a deprocrypticism perspective with regards to a procrypticism/disjointedness-as-of-reference-of-thought mental disposition as an argument seeming to articulate meaningfulness-and-teleology in the same disjointedness-as-of-reference-of-thought terms-as-axiomatic-construct by which the procrypticism/disjointedness-as-of-reference-of-thought arises in the first place is in circular <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as of the same centered–epistemic-totalisation/reference-of-thought defect. Thus it is ontologically impossible to address any given registry-worldview/dimension vices-and-impediments as of that fundamental <amplituding/formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving-as-of-instantiative-context—meaningfulness-and-teleology centered–

epistemic-totalisation, besides at best palliative constructs of a non-universal nature, as not of an aetiologisation/ontological-escalation nature. Thus further validating the idea that it is a cross-generational psychoanalytic-unshackling/memetic-reordering/institutional-recomposure in secondnaturing such a prospective institutionalisation 'reference-of-thought—devolving-teleological-structure-of-meaningfulness' that enables such a transformation whether from a retrospective or prospective transcendence perspective. This explains ontological-normalcy/postconvergence referentialism as construing/conceptualising the most profound/complete ontologically-veridical 'reference-of-thought construction of meaningfulness-and-teleology', as of the succession of registry-worldviews/dimensions from the notional~deprocrypticism perspective construal/conceptualisation, as being 'the most profound/complete 'reference-of-thought—devolving-teleological-structure-of-meaningfulness' grasp of intrinsic-reality/ontological-veridicality' among all the registry-worldviews/dimensions as of its preempting—disjointedness-as-of-reference-of-thought,-as-to-<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness-in-superseding-mere-formulaic-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism. Furthermore, within a registry-worldview/dimension for the disambiguation of temporal-to-intemporal-dispositions, its reference-of-thought of meaningfulness-and-teleology as its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument is its ⟨given consciousness's neuterising-induced-or-referentialism-induced⟩ as reference-of-thought—devolving-teleological-structure-of-meaningfulness, which by way of a différance/internal-dialectics/difference-deferral articulates the intradimensional relative ontological-veracity of all other intradimensional existential-instantiations derived/devolved axiomatic-constructs of meaningfulness-and-teleology as its intradimensional knowledge-

constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue. Thus this is within the framework of the registry-worldview's/dimension's teleological-structure/teleological-possibilities; construed either in elevation-as-of-upholding-ontological-veridicality/institutionalisation as reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology' of the affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-validating-measuring-<postconverging-or-dialectical-thinking–apriorising-psychologism> of prospective relative-ontological-completeness-of-reference-of-thought, or in degradation-as-of-failing-ontological-veridicality/uninstitutionalised-threshold as of the unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitablemeasuringinstrument-invalidating-measuring-<preconverging-or-dementing–apriorising-psychologism> of prior relative-ontological-incompleteness-of-reference-of-thought; noting that the dialectical nature of the elevation and degradation so implied are inherently affirmed/unaffirmed respectively as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<~~amplituding~~/formative>epistemic-totalising~purview-of-construal', wherein prospective relative-ontological-completeness-of-reference-of-thought elevation/institutionalisation is in soundness-or-authenticity-of-reference-of-thought and prior relative-ontological-incompleteness-of-reference-of-thought degradation/uninstitutionalised-threshold is in unsoundness-or-inauthenticity-of-reference-of-thought. Furthermore, metaphysics-of-absence insight as of historiality/ontological-eventfulness/ontological-aesthetic-tracing reveals and attends to the notional~deprocrypticism 'perspective issue' involved for 'overcoming defect of ontological analysis arising from metaphysics-of-presence <~~amplituding~~/formative>epistemic-totalising~self-referencing-

syncretising/circularity/interiorising/akrasiatic-drag' due to a mental-reflex of representing/skewing-the-representation of presence with respect to its reference-of-thought as of flawed '<~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of reference-of-thought—devolving-teleological-structure-of-meaningfulness' at the uninstitutionalised-threshold, wrongly construed as rather being in elevation/institutionalisation and thus wrongly reflected as of 'soundness-or-authenticity-of-reference-of-thought' rather than being veridically construed in degradation/uninstitutionalised-threshold and thus reflected as of 'unsoundness-or-inauthenticity-of-reference-of-thought'; and so, when it comes to construing the ontological-veridicality of both elevation/institutionalisation and degradation/uninstitutionalised-threshold as of their respectively 'relevant apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of reference-of-thought—devolving-teleological-structure-of-meaningfulness', and so with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<~~amplituding~~/formative>epistemic-totalising~purview-of-construal' which as of underlying relative-ontological-incompleteness/relative-ontological-completeness is at the one hand elevated/institutionalised and on the other hand teleologically-degraded/uninstitutionalised, as of human deepening or shallow limited-mentation-capacity. Such historiality/ontological-eventfulness/ontological-aesthetic-tracing as of its notional~conflatedness as it implies the conflatedness of the most 'sound/profound/complete anticipation/projection/thrownness-disposition as rather of elevation-as-of-prospective-institutionalisation–and–degradation-as-of-uninstitutionalised-threshold-paradigmatic-level-of-contrastive-devolving-analysis as of their respective reference-of-thought—elevated-devolving-as-of-prospective-institutionalisation and reference-of-thought—degraded-devolving-as-of-uninstitutionalised-threshold' brings out in

anticipation/projection/thrownness-disposition the overall fundamental elucidative contrast between the 'degradation/uninstitutionalised-threshold unsoundness-or-inauthenticity-of-reference-of-thought projection' and the 'elevation/institutionalisation soundness-or-authenticity-of-reference-of-thought projection' at their respective reference-of-thought-devolving-level of analysis; as can be elucidated contrastively between 'recurrent-utter-uninstitutionalisation uninstitutionalisation and base-institutionalisation institutionalisation', 'base-institutionalisation–ununiversalisation uninstitutionalisation and universalisation institutionalisation', 'universalisation–non-positivism/medievalism uninstitutionalisation and positivism institutionalisation' and prospectively 'positivism–procrypticism uninstitutionalisation and deprocrypticism institutionalisation'. The implication here is that with say notions-and-accusations-of-sorcery in a universalisation–non-positivism/medievalism uninstitutionalisation social-setup, in order to construe ontological-veridicality; as of conflatedness we can't simply imply the presence universalisationnon–non-positivism/medievalism uninstitutionalisation reference-of-thought—devolving-teleological-structure-of-meaningfulness as the basis of instigating logical-dueness for elucidation and thereof construing ontologically-veridical meaningfulness-and-teleology, as such a mental-reflex representing/skewing-the-representation of the presence as universalisationnon–non-positivism/medievalism uninstitutionalisation will overlook the presence uninstitutionalised-threshold and wrongly represent its meaningfulness-and-teleology at its uninstitutionalised-threshold as of elevation/institutionalisation in soundness-or-authenticity-of-reference-of-thought projection'. It is rather the conflatedness projective/anticipative contrast between the said uninstitutionalised-threshold however the mental-reflex complex of presence and the prospective positivism institutionalisation however the mental-reflex complex of the latter's abstractness as from the presence uninstitutionalised-threshold perspective that enables their respective reference-of-thought—devolving-teleological-structure-of-meaningfulness

contrastive fundamental elucidations in grasping ontological-veridicality as of their respective prior relative-ontological-incompleteness-and-completeness-of-reference-of-thought perspective. Thus it is the 'anticipation/projection/thrownness-disposition of overall fundamental elucidative contrast' between prior degradation/uninstitutionalised-threshold and prospective elevation/institutionalisation respectively implied reference-of-thought—devolving-teleological-structure-of-meaningfulness so-construed on the basis of 'conflatedness as of the most 'sound/profound/complete anticipation/projection' relative to existence's imbricatedness/threadedness/recomposuring existential-instantiations, which is at reference-of-thought-as-of-'reference-of-thought—devolving-teleological-structure-of-meaningfulness'-paradigmatic-level-of-contrastive-devolving-analysis as-of-the-constrast-of-elevation-as-of-prospective-institutionalisation–and–degradation-as-of-uninstitutionalised-threshold that is more profoundly elucidative of existential-instantiations issues of perversion-and-derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> whether with regards to notions-and-accusations-of-sorcery in non-positivism or psychopathy and social psychopathy as of our procrypticism/disjointedness-as-of-reference-of-thought or generally issues arising as of being/existential/ontological/axiomatic-construct problem of perversion-and-derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> speaking of prior relative-ontological-incompleteness-of-reference-of-thought; in other words, with respect to the elucidation of existential-instantiations issues, beyond just issues of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation as of logical coherence, we need to move at the <~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating level of analysis which is the reference-of-thought and then construe meaningfulness-and-teleology as of contrastive elevation/institutionalisation

This reflects historiality/ontological-eventfulness/ontological-aesthetic-tracing as of its notional~conflatedness nature of ontological-performance-<including-virtue-as-ontology> as anti-nihilistically grounded on ontological-faith-notion-or-ontological-fideism––imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality as enabled by maximalising-recomposuring-for-relative-ontological-completeness. It points out that ontologically-veridical meaningfulness cannot be construed beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> as of a soulless nihilistic-teleology-for-the-attainment-of-temporality/human-mortal-whims as it simply brings an end to the transcendental potential for the human existential tale perpetuation; as the organic-knowledge behind the 'invention' of prospective institutionalisation necessarily has to take precedence in further driving the ontological-contiguity––of-the-human-institutionalisation-process over a conceptualisation as of denaturing of reference-of-thought–categorical-imperatives/axioms/registry-teleology. Such an approach to transcendence is exactly what validates transcendental knowledge as of a psychoanalytic-unshackling commitment and not a grounded knowledge-construct commitment; as an approach as of grounded knowledge-construct commitment that merely implies transcendence as being incremental to the prior registry-worldview's/dimension's reference-of-thought doesn't undermine/unshackle that prior reference-of-thought with respect to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<~~amplituding~~/formative>epistemic-totalising~purview-of-construal' as of the requisite undermining/unshackling by the prospective enlightenment of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<~~amplituding~~/formative>epistemic-totalising~purview-of-construal' by the prospective registry-worldview's/dimension's reference-of-thought ontological-performance-

<including-virtue-as-ontology> given its prospective relative-ontological-completeness-of-reference-of-thought. Rather implying a grounded knowledge-construct commitment merely 'circularly-complexifies' the uninstitutionalised-threshold reference-of-thought as it adopts by mental-reflex an incrementalism-in-relative-ontological-incompleteness mental-disposition rather than a maximalising-recomposuring-for-relative-ontological-completeness mental-disposition and thus fails to fulfil the requisite ~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought referencing/registering/decisioning–of-its-reference-of-thought-rather-as-preconverging-or-dementing-and-decentered-prior-institutionalisation's-categorical-imperatives/axioms/registry-teleology and its alienation—as-inauthentic/poorly-objectified/poorly-desubjectified-as-objectified/ontological-bad-faith/nihilistic as of ontological-dementation/dialectical-dementation–stranding/attributive-dialectics, which is what allows for transcendence to the prospective reference-of-thought for renewal; that is, this will rather bring about the ~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of the prior reference-of-thought in 'incremental circular-complexification' and so beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>

on a false notion of 'an intemporal temporality', naively passing for intemporality/longness as of intersubjective eliciting of temporality. Such notional~conflatedness for ontological-performance-<including-virtue-as-ontology> implication is easily understood as of metaphysics-of-absence when we grasp that a mindset as of a non-positivistic social-setup needs to 'wean off organically beyond mere mechanical adjustments' its non-positivism before the notion of 'a credible logical engagement in terms–as-of-axiomatic-construct of positivism/rational-empiricism with a mindset as of a positivistic social-setup' can be genuinely entertained. In this regard, the budding positivists had to implied an utter break with medieval-scholasticism-pedants—ideal-type-or-individuation to avoid the circular

problem of their positivism knowledge and science being interpreted in mystical and alchemic terms-as-axiomatic-construct of reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology. Such a psychoanalytic-unshackling commitment equally highlights that the idea of a common universal human potential available to all individuals while true is not inherently existentially fulfilled/valorised if that human-subpotency is not effectively to-the-best-of-our-temporal/mortal-superseding-endeavouring unleashed as of a maximalising-recomposuring-for-relative-ontological-completeness <~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought. This conceptualisation insight points out that prospective procrypticism/disjointedness-as-of-reference-of-thought uninstitutionalisation associated with our positivism–procrypticism registry-worldview/dimension as of its epistemic-abnormalcy/preconvergence/relative-ontological-incompleteness-of-reference-of-thought is effectively the defective result of our positivism institutionalisation destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>—of-ontological-performance-<including-virtue-as-ontology> as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity of its reference-of-thought–categorical-imperatives/axioms/registry-teleology at the positivism–procrypticism uninstitutionalisation, wherein the prospective 'procrypticism uninstitutionalisation' arises as '<~~amplituding~~/formative>wooden-language-(imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology) of positivism registry-worldview/dimension', which then effectively generates the virtuality-or-ontologically-flawed-construal of procrypticism/disjointedness-as-of-reference-of-thought

uninstitutionalisation construed as perversion-and-derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> of our positivism–procrypticism registry-worldview/dimension. It should be noted that, the ontologically-veridical reflection of procrypticism/disjointedness-as-of-reference-of-thought is rather construed from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism registry-worldview/dimension perspective as 'a constructed-deficiency of the profound/complete deprocrypticism perspective', with deprocrypticism in ontological-normalcy/relative-ontological-completeness-of-reference-of-thought of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<~~amplituding~~/formative>epistemic-totalising~purview-of-construal' unlike procrypticism which is rather in epistemic-abnormalcy/preconvergence/relative-ontological-incompleteness-of-reference-of-thought of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<~~amplituding~~/formative>epistemic-totalising~purview-of-construal'; and the ontological-veridicality of deprocrypticism itself is construed as an epistemic-totalising~renewing-realisation/re-perception/re-thought of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<~~amplituding~~/formative>epistemic-totalising~purview-of-construal' as of maximalising-recomposuring-for-relative-ontological-completeness driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality. This explains why our positivism–procrypticism so-construed from a deprocrypticism perspective will be decentered and preconverging-or-dementing–apriorising-psychologism, just as our positivism in ontological-normalcy/relative-ontological-completeness-of-reference-of-thought

perspective construal of non-positivism/medievalism reference-of-thought in epistemic-abnormalcy/preconvergence/relative-ontological-incompleteness-of-reference-of-thought show the latter to be decentered and preconverging-or-dementing–apriorising-psychologism. As a further elaboration, the circularity and ~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag mental-disposition attached to a registry-worldview's/dimension's reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument is fundamentally grounded on its teleological-structure/teleological-possibilities established as of its reference-of-thought–and–reference-of-thought-devolving–meaningfulness-and-teleology as its intradimensional knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue. It is only a cross-generational psychoanalytic-unshackling/memetic-reordering/institutional-recomposure in the medium to long-term that can transcendentally 'wean off' from such a teleological-structure/teleological-possibilities of a registry-worldview/dimension by habituating a prospective institutionalisation as of its reference-of-thought–and–reference-of-thought-devolving–meaningfulness-and-teleology as its intradimensional knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue. This explains as of metaphysics-of-absence why for instance the mere demonstration to approval/acquiescence of positivistic principles/interpretations of intrinsic-reality/ontological-veridicality in a non-positivistic as animistic social-setup or medieval social-setup however frequent the demonstrations within a given limited period of time doesn't mean that the social-setup has been transformed into a positivistic social-setup; since their existentially habituated state of animism or medievalism teleological-structure/teleological-possibilities as of ⟨warped-or-preclusive-consciousness neuterising-induced⟩-reference-of-thought—devolving-teleological-structure-of-meaningfulness as

intradimensional existential-instantiations derived/devolved axiomatic-constructs of meaningfulness-and-teleology as its intradimensional knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue, will need to be undone/unshackled psychoanalytically in the medium to long-run to veridically achieve positivism; given that that uninstitutionalised-threshold is in a state of circular-pervasiveness-of-'reference-of-thought—degraded-devolving-as-of-uninstitutionalised-threshold'! This equally explains the <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag inherent in our prospective procrypticism/disjointedness-as-of-reference-of-thought uninstitutionalisation, together with its inherent manifestations of psychopathic postlogism-slantedness and social psychopathy conjugated-postlogism, when construed from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism as preempting—disjointedness-as-of-reference-of-thought institutionalisation as in our metaphysics-of-presence beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> we systematically override the ontological-veridicality implications of such procrypticism/disjointedness-as-of-reference-of-thought and proceed by mental-reflex to uphold our procrypticism/disjointedness-as-of-reference-of-thought <~~amplituding~~/formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>) at this positivism–procrypticism uninstitutionalisation as of an existentially nihilistic mental-disposition in degeneration of the human existential tale; as all presencing—absolutising-identitive-constitutedness by mental-reflex keep on representing their uninstitutionalised-

threshold as institutionalised, that is as 'centered and postconverging-or-dialectical-thinking–apriorising-psychologism', as a 'delusion of an always institutionalised presencing—absolutising-identitive-constitutedness as of its reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology' rather than being veridically 'decentered and preconverging-or-dementing–apriorising-psychologism' at the uninstitutionalised-threshold as of 'reference-of-thought—degraded-devolving-as-of-uninstitutionalised-threshold', as logical-dueness doesn't even arise in the very first place given perversion-and-derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as of unsoundness-or-inauthenticity-of-reference-of-thought. We can get a projected sense of this as of metaphysics-of-absence in that despite the articulation of positivistic principles/interpretations in the animistic social-setup or medieval social-setup, in the short to medium run individuals will keep on overriding and ignoring such positivistic meaningfulness-and-teleology nihilistically, notwithstanding that we may recognise this as of prospective relative-ontological-completeness-of-reference-of-thought, and falling back to construe/conceptualise meaningfulness-and-teleology in non-positivistic animistic or medieval terms–as-of-axiomatic-construct, construed from the positivistic perspective as perversion-and-derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as of unsoundness-or-inauthenticity-of-reference-of-thought. As broadly speaking, a registry-worldview's/dimension's reference-of-thought is as of 'the existential individuations possibilities as to reference-of-thought–prelogism-as-of-conviction-as-to-profound-supererogation and threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism' reflecting the

contextualising-contiguity, and so as of postlogism-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of reference-of-thought-devolving ontological-performance-<including-virtue-as-ontology>s, due to lack of constraining social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩ at its uninstitutionalised-threshold. Such a threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism being rather as of a temporal extricatory paradigm and that naively considers the mutual intersubjective eliciting of temporal extricatory paradigms to be intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm, given a failure to structurally/paradigmatically grasp intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating implications, and rather confusing this with social-aggregation-enabling implications. This is clearly made obvious when 'the very same motif of reasoning' is construed as of metaphysics-of-absence implications (as to ontological-normalcy/postconvergence) say with respect to an animistic or medieval non-positivistic registry-worldview's/dimension's threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ rather in social-aggregation-enabling, implying no possibility for prospective transcendence so-construed from a positivistic perspective of analysis in ontological-normalcy/relative-

ontological-completeness-of-reference-of-thought. This further points out that, as herein implied with futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism as preempting—disjointedness-as-of-reference-of-thought '(re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-⟨imbued-postconverging/dialectical-thinking-'projective-insights'/'epistemic-projection-in-conflatedness'-of-notional~deprocrypticism-prospective-sublimation⟩) originary/event-of-prospective-ontology-origination transcendental knowledge conceptualisations' as putting into question a prior registry-worldview's/dimension's reference-of-thought teleological-structure/teleological-possibilities, reconceptualised-rather-as-of-prior-relative-ontological-incompleteness-of-reference-of-thought, established as of its ⟨given consciousness's neuterising-induced⟩-reference-of-thought—devolving-teleological-structure-of-meaningfulness as intradimensional existential-instantiations derived/devolved axiomatic-constructs of meaningfulness-and-teleology as its intradimensional knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue, are rather as of 'a psychoanalytic-unshackling commitment' and not as of 'a grounded knowledge construct commitment'. Inherently, such 'a psychoanalytic-unshackling commitment' inevitably and fundamentally puts into question the axioms and underlying supposedly transcendental-enabling/sublimating notion as of the ⟨given consciousness's neuterising-induced⟩-reference-of-thought—devolving-teleological-structure-of-meaningfulness of the prior registry-worldview's/dimension's reference-of-thought of meaningfulness-and-teleology which establishes its 'grounded knowledge construct', and so because of its denaturing of the prior institutionalisation's reference-of-thought–categorical-imperatives/axioms/registry-teleology by way of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-

contextualising-contiguity at the registry-worldview's/dimension's uninstitutionalised-threshold inducing prior relative-ontological-incompleteness-of-reference-of-thought in need for prospective relative-ontological-completeness-of-reference-of-thought, and so as a transitional construct that is in effect as of a psychoanalytic-unshackling/memetic-reordering/institutional-recomposure articulation by its cross-generational transcendental implications projection. Such that such 'a psychoanalytic-unshackling commitment' cannot be construed in the same terms–as-of-axiomatic-construct as ordinary intradimensional knowledge as of the established prior institutionalisation teleological-structure/teleological-possibilities for its 'grounded knowledge construct' as prior relative-ontological-incompleteness-of-reference-of-thought, but rather construed as of prospective ontological-normalcy/relative-ontological-completeness-of-reference-of-thought it more critically and organically points to the uninstitutionalised-threshold state of the present registry-worldview's/dimension's reference-of-thought at its uninstitutionalised-threshold with respect to the prospective institutionalisation state of the prospective registry-worldview's/dimension's reference-of-thought as of its prospective relative-ontological-completeness-of-reference-of-thought, and thus rather implies an ontological-dementation/dialectical-dementation–stranding/attributive-dialectics. It is psychoanalytic-unshackling commitment and not grounded knowledge construct commitment, because it is for instance about articulating 'prospective positivism axiomatic-construct ⟨occlusive-consciousness neuterising-induced⟩-reference-of-thought—devolving-teleological-structure-of-meaningfulness' with respect to a relatively underdeveloped registry-worldview/dimension in prior 'non-positivism axiomatic-construct ⟨warped-or-preclusive-consciousness neuterising-induced⟩-reference-of-thought—devolving-teleological-structure-of-meaningfulness', or in the case of articulating 'futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-

meaningfulness-and-teleology as of prospective deprocrypticism axiomatic-construct ⟨protensive-consciousness referentialism-induced⟩-reference-of-thought—devolving-teleological-structure-of-meaningfulness' with respect to a relatively underdeveloped registry-worldview/dimension in prior 'positivism–procrypticism axiomatic-construct ⟨occlusive-consciousness neuterising-induced⟩-reference-of-thought—devolving-teleological-structure-of-meaningfulness. It is important to grasp in both instances that such psychoanalytic-unshackling commitment implications are not to be understood respectively as of the uninstitutionalised-threshold mental-dispositions of non-positivism/medievalism or procrypticism reference-of-thought—devolving-teleological-structure-of-meaningfulness which will just induce their <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag mental-dispositions for non-transcendence, but rather as of a habituated mental-projection perspective from the prospective institutionalisations of positivism or deprocrypticism reference-of-thought—devolving-teleological-structure-of-meaningfulness. Thus counterintuitively to metaphysics-of-presence conception, human living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulneess-and-teleology as 'banally' portrayed historically is not as of an expanding 'grounded knowledge construct' from time immemorial as of a wrong incrementalism-in-relative-ontological-incompleteness mental-reflex as if humans have had only one '<~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of reference-of-thought—devolving-teleological-structure-of-meaningfulness'. But actually the underlying process is one of 'a psychoanalytic-unshackling as of a succession of prospective institutionalisations maximalising-recomposuring-for-relative-ontological-completeness

This analysis brings out what is effectively meaningfulness as it shows that meaningfulness is more completely about apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights thus involving the '<~~amplituding~~/formative>epistemic-

Thus a transcendental engagement as articulating prospective relative-ontological-completeness-of-reference-of-thought in an opened-construct-of-meaningfulness-and-teleology strives to go beyond a prior institutionalisation ~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ at its uninstitutionalised-threshold, which simply triggers 'operant-or-incidenting-predicative-insights or logical-coherence' on the basis of the priorly set/established '~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of reference-of-thought—devolving-teleological-structure-of-meaningfulness' taken for granted without questioning as of intradimensional grounded meaningfulness-and-teleology at its uninstitutionalised-threshold. Such a transcendental engagement recurrently put into question in conflatedness the prior institutionalisation '~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of reference-

Remarkably, such a maximalising-recomposuring-for-relative-ontological-completeness behind the ontological-contiguity—of-the-human-institutionalisation-process enabling the human existential tale in successive institutional-cumulations is always rather perceived intradimensionally as an exceptional-askance and unordinary. For instance, the maximalising-recomposuring-for-relative-ontological-completeness mental-disposition in

their own times advocating the end of such perverse human institutions like serfdom and slavery were construed in their own times by their dominant societies as of exceptional-askance and unordinary such that in effect these actually engendered great conflict before such practices came to an end; and such metaphysics-of-absence analysis does apply with respect to superstitions, universal human rights, free society, modern science, etc. but then as of our developed present institutionalisation the idea of not entertaining such practices is viewed as not an exceptional-askance and ordinarily to be expected. This explains human mental states respectively as of uninstitutionalised-threshold and as of prospective institutionalisation with respect to maximalising-recomposuring-for-relative-ontological-completeness as the process enabling prospective relative-ontological-completeness-of-reference-of-thought of same <~~amplituding~~/formative>epistemic-totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality hitherto considered off limits to any challenging maximalising-recomposuring-for-relative-ontological-completeness at the uninstitutionalised-threshold but then acknowledged thereafter after prospective institutionalisation; with the implication that the possibility for all prospective transcendences as of opened-construct-of-meaningfulness-and-teleology arise only by maximalising-recomposuring-for-relative-ontological-completeness but presences in their <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ consider maximalising-recomposuring-for-relative-ontological-completeness as of exceptional-askance and unordinary due to their <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag mental-reflex avoiding being ontologically decentered and preconverging-or-dementing–apriorising-psychologism. Insightfully, this point out the circumspective nature of any transcendental knowledge

construction exercise as of ontological-tolerance to avoid on the one hand outrightly articulating construed ontological-veridicality at the expense of avoiding any Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleologyal engagement, as such a psychoanalytical commitment necessarily recognises human potential to transcend, and the other hand the nature of intrinsic-reality/ontological-veridicality that 'supersedes humankind and doesn't factor in human moods and whims' in its effectiveness. Caught between these two elements human meaningfulness-and-teleology is 'often actually imbued with active and passive mental-strategies of compromise' but which wouldn't cut it with the maximalising-recomposuring-for-relative-ontological-completeness necessary for human development and progress. Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology and progress requires ontologically-veridical as intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm 'responses' as of universal implications and not temporal extricatory paradigms 'reactions' of mere circumstantial implications. Such a maximalising-recomposuring-for-relative-ontological-completeness <~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought prospective reference-of-thought 'construes as circularity and <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag pretences of knowledge and judgements which are rather in threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism in ordinariness <~~amplituding~~/formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-

'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>) social-aggregation-enabling' when expounded by a prior reference-of-thought going by its prior relative-ontological-incompleteness-of-reference-of-thought, since there is no sound/authentic knowledge and judgements outside the prospective reference-of-thought relatively sound/authentic knowledge and judgements as of its ontological-normalcy/relative-ontological-completeness-of-reference-of-thought in an intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm; and so structurally/paradigmatically as of the relationship between non-positivism and positivism as well as our procrypticism/disjointedness-as-of-reference-of-thought and futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism as preempting—disjointedness-as-of-reference-of-thought. This underlying notion of 'notional~conflatedness/constitutedness-to-conflatedness construal/conceptualisation' can further be expanded upon contrastively with regards to knowledge practice in many an epistemic-totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality not subject to immediate-constraining ontological-primemovers-totalitative-framework thus rather eliciting atomising/taking-to-pieces constitutedness that induces relatively poor ontological-performance-<including-virtue-as-ontology>. The central element here has to do with the pervasiveness of 'conceptual patterning' that actually speaks of a nombrilisticas <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag approach to conceptualising knowledge based on an intellectual exercise of producing patterns of thought with little consideration as to their underlying intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating as validated by ontological-primemovers-totalitative-

framework. At its worst, such an orientation construes of categorisation/taxonomisation of knowledge as inherently representative of intrinsic-reality/ontological-veridicality by that mere exercise. Such a constitutedness ends up misconstruing the organical depth involved and renders all knowledge constructs so categorised/taxonomised on the same vague plane of mechanical equivalence undermining their transcendental-enabling/sublimating, originality, organic nature and more often than not turning them into platitudes as rather concerned with perceived academic formulations and formats in of themselves rather than ontological-veracity as of intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating. The underlying mental-reflex for this intellectual disposition associated with conceptual patterning is the assumption that by mere categorising/taxonomising ideas on the basis of their similarities and differences it should be able to attain a grander truth as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. But then such an approach is naïve by its failure to reckon the reality of human limited-mentation-capacity which implies that human conceptualisation tends to develop from prior relative-ontological-incompleteness-of-reference-of-thought, as of the incompleteness of the paradigm/structure of human reference-of-thought. Such that a naïve categorisation/taxonomisation conceptual patterning perspective on that basis equally inherits that relative-ontological-incompleteness of the paradigm/structure of human reference-of-thought; with the consequence that it is not 'notionally structured' to conceptually factor in human poor to perfect/near-perfect construal on the basis of conflatedness but rather suffers from constitutedness. This weakness is underlined and resolved by the notion of maximalising-recomposuring-for-relative-ontological-completeness driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality that enables conflatedness in line with existential-contextualising-

contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context. It is such a conceptual patterning mental-reflex associated with categorising/taxonomising dispositions in constitutedness that is behind the naïve but poor influence of the saying that 'every idea has already been thought of before' with the nefarious consequence of 'emphasising themes and authorial differentiation within such categorised/taxonomised thematics in of themselves' as if an epistemic-totalising~devolved–purview-as-domain-of-study mainly involves intersubjective evaluation or evaluation among humans within the scope of their mortality on the naïve assumption that such categorising/taxonomising effectively covers analytically the entirety/potency of existence—as-the-absolute-a-priori-of-conceptualisation, whereas such is achieved rather by a conceptualising as implied by referentialism-as-of-ontological-normalcy/postconvergence that places existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context above intersubjective evaluation or evaluation among humans in their mortality in determining intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating as of intersolipsistic insight. Consider for instance that in the run up to the development of theory-of-relativity and quantum-mechanics in the early part of last century, the scientists involved weren't in the exercise of evaluating their respective theories in a closed framework emphasising their respective 'ownership-of-theories' as mortals but rather an opened framework emphasising whosever theories contribute in disclosing intrinsic-reality/ontological-veridicality as the superior third party. This can equally be compared to naively articulating categories/taxonomies of sounds on the basis that their constitutedness defines the entire existential possibility/potency of musical compositions that can arise but then the 'depth/axiomatic-construct of existence for musical compositions' doesn't submit to such a naïve categorising/taxonomising constitutedness but rather such

'depth/axiomatic-contruct of existence for musical compositions' is as of an imbricatedness/threadedness/recomposuring of existential-instantiations that is graspable rather by a conflatedness as enabled by referentialism-as-of-ontological-normalcy/postconvergence. Given our limited-mentation-capacity, existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context is then the preceding and transformative element of meaningfulness-and-teleology conceptualisation as of our deepening limited-mentation-capacity enabling our prospective relative-ontological-completeness-of-reference-of-thought for grasping ontologically-veridical organic-knowledge articulated in any given <~~amplituding~~/formative>epistemic-totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality such that the wrong approach for prospective intellectual creation is one that simply lumps authorial articulations under given themes together in 'mechanical association' without factoring beforehand their respective 'transcendental-enabling/sublimating dynamism and implied organic-knowledge' as of conflatedness. This equally underlies the pervasive disposition for misattributed and misfocused analyses as such blurry intellectual exercise become an epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag temporal-dispositions focussing less on the possibilities and insights of prospective elucidation and expansion of knowledge as of intrinsic-reality/ontological-veridicality as being the transcendental-enabling/sublimating immortal/first-party, and turning more and more and placing the stakes rather on authorial second-parties/mortals competing analyses even to the extent on occasion of undermining the intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating immortal/first-party. Further, such conceptual patterning will often fail to identify the appropriate point for grasping intrinsic-reality/ontological-veridicality as instead of emphasising conflatedness in (re-originary–as-unenframed/unbeholdening/outlier-

conceptualisation-⟨imbued-postconverging/dialectical-thinking-'projective-insights'/'epistemic-projection-in-conflatedness'-of-notional~deprocrypticism-prospective-sublimation⟩⟩ originary/event-of-prospective-ontology-origination projection into existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context, it emphasises mere structural patterns inducing constitutedness, and so whether at detailing or synoptic levels of analysis. This extends to the way issues are raised, questions are posed, as well as their supposed resolutions; ultimately lacking in providing theoretical, conceptual and operant constructs of universal applicative pertinence, and explains a certain position of closure that holds that philosophy is just a vague thinking exercise. Furthermore, whereas an intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating construal highlights the ontological-contiguity of all knowledge as of their reference-of-thought/structural/paradigmatic relationship, conceptual patterning seem to naively imply a discreet relationship of knowledge constructs with little insight of their intrinsic-reality/ontological-veridicality transcendental enabling ontological-primemovers-totalitative-framework interconnectedness as this is often not the primary driving focus, as it is naively assumed that the conceptual patterning is a correspondence of intrinsic-reality/ontological-veridicality as of the mere structural conceptualisation in constitutedness rather than striving to expand the transcendental-enabling/sublimating ontological-primemovers-totalitative-framework existential-reality potential, and this easily leads to virtuality or ontologically-flawed construal. The defect of conceptual patterning is easily overlook mainly as philosophy is of first order knowledge, a level at which knowledge differentiation doesn't easily manifest itself. Such errors of conceptual patterning will hardly arise in second-level knowledge where transcendental-enabling/sublimating implications arise in a specular way. For instance, while hereditary is an underlying conceptual patterning idea in biology, it will be unthinkable to try

to lump together and undermine the originality of subsequent hereditary notions of genetics on the basis that these are of the same conceptual patterning as earlier notions like Mendelian heredity as the transcendental-enabling/sublimating differentiations are spectacular. Finally, one practical intellectual flaw arising out of such naïve categorising/taxonomising conceptual patterning has to do with a certain vague intellectual practice based on perceived intellectual pertinence in terms of the authorial 'precedence of mentioned terms' irrespective of association whether simple formalistic identifying of terms and notions with little consideration of the divergence of implied organic-knowledge as of their intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating ontological-primemovers-totalitative-framework nature and differences as well as their divergence in meaningfulness-and-teleology implications. This again leads to lumping, artificial categorising and undermines originality and organic-knowledge, turning this into simplistic mechanical associations with the more serious consequence being that the more decisive notion for human knowledge renewal as of maximalising-recomposuring-for-relative-ontological-completeness driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality, becomes seriously undermined; as it refers to a transcendental-enabling/sublimating ontological-primemovers-totalitative-framework renewal of a same <~~amplituding~~/formative>epistemic-totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality but with such effort for renewal often laden with a tradition that is naively of constitutedness undermining requisite creativity as of conflatedness, as it 'critically presupposes beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> that prospective meaningfulness is deterministically tied down to a certain categorising/taxonomising relationship with the prior conceptualisations' in the given <~~amplituding~~/formative>epistemic-totalising~devolved–

purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality. Ultimately, the idea here is that approaching intrinsic-reality/ontological-veridicality with our given limited-mentation-capacity in other to achieve ontological-veracity requires a rather counterintuitive mental-reflex as of existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context that 'originally reconstructs the ontological-pertinence of axiomatic-constructs and their derived-conceptualisations'. Such an analytic insight as of a deprocrypticism ⟨protensive-consciousness referentialism-induced⟩-reference-of-thought—devolving-teleological-structure-of-meaningfulness analysis as of its prospective relative-ontological-completeness-of-reference-of-thought/ontological-normalcy, points out that actually, and according to this author's view, such a currently discussed philosophical issue as the hard problem of consciousness arises as a result of a fragmented thematic construal as of constitutedness wherein a more profound view of the philosophical enterprise as intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating ontological-primemovers-totalitative-framework here hasn't been entertain sufficiently to point out that effectively it is a problem that actually 'devolves out' of the more fundamental issue of Being as of its but is rather being posed as of a 'disjointed/fragmented analysis' as a consciousness grounded problem. This equally explains this author's construal of human consciousness development as rather of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology;

consciousness defined as of 'notional ~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag human-subpotency/subpotent-mimetic-echoness-derivation-within-the-full-potency of existence/intrinsic-reality/ontology-as-of-its-mimetic-echoness-or-existence-in-reverberation-or-existence-potency-prospective-digression-of—~~amplituding~~/formative>epistemic-

totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness. The fundamental fact is that existence as of existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context is the absolute a priori of intrinsic-reality/superseding–oneness-of-ontology prior to any human derived knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue, and hence existence as of existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context is the foundational absolute a priori any ⟨given consciousness's neuterising-induced-or-referentialism-induced⟩-reference-of-thought—devolving-teleological-structure-of-meaningfulness constructs, by which our limited-mentation-capacity can most pertinently accede to by maximalising-recomposuring-for-relative-ontological-completeness driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality as of ontological-normalcy/postconvergence insight. Thus existence—as-the-absolute-a-priori-of-conceptualisation implies it is as of the entire 'conflatedness for human construction of ontologically veridical meaningfulness-and-teleology' implied as of notional~deprocrypticism; this is notionally known as historiality/ontological-eventfulness/ontological-aesthetic-tracing. The implication here is that conceptualisations/construals not only of consciousness but virtue, aesthetics, episteme and nature together with their derived human notional <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag notions like psychologisms, ethics and moralities, arts, epistemologies and methodologies, and natural sciences are but as of the ⟨given consciousness's neuterising-induced-or-referentialism-induced⟩-reference-of-thought—devolving-teleological-structure-of-meaningfulness

knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue as derived conceptualisations/construals of the very conflatedness that is as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology or existence-as-existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness/existential-possibilities. The underlying insight explaining human limited-mentation-capacity flawed mental-disposition for constitutedness lies with human misconstruing from 'existential-instantiations' the ontological-veridicality of axiomatic-constructs as derived from the 'reference-of-thought—devolving-teleological-structure-of-meaningfulness'. The 'iterating nature of existential-instantiations in imbricatedness/threadedness/recomposuring' as of existence's is what provides humankind-as-of-it-subpotency with direct mental access to existential-reality/existence-or-intrinsic-reality-or-ontological-veridicality, as humans don't have direct mental access to conceptualised/construed existential-reality/existence-or-intrinsic-reality-or-ontological-veridicality-as-of-its-full-potency, but rather projectively-or-anticipatorily construe of axiomatic-constructs about intrinsic-reality/ontological-veridicality as derivable as from existence—as-the-absolute-a-priori-of-conceptualisation

imbricatedness/threadedness/recomposuring in elucidating existential-instantiations, as of ⟨given consciousness's neuterising-induced-or-referentialism-induced⟩-reference-of-thought—devolving-teleological-structure-of-meaningfulness, and so as of the maximalising-recomposuring-for-relative-ontological-completeness behind the ontological-contiguity—of-the-human-institutionalisation-process. Otherwise with a naïve mental-reflex of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity of existential-instantiations, we will rather tend to

wrongly construe 'the conceptual patterning of existential-instantiations' as rather being 'axiomatic-constructs as of the ⟨given consciousness's neuterising-induced-or-referentialism-induced⟩-reference-of-thought—devolving-teleological-structure-of-meaningfulness as from existence—as-the-absolute-a-priori-of-conceptualisation imbricatedness/threadedness/recomposuring ', thus inducing virtualities or ontologically-flawed construals associated with the uninstitutionalised-thresholds. Thus, the ontological-veracity as prospective relative-ontological-completeness-of-reference-of-thought of 'the axiomatic-constructs of a ⟨given consciousness's neuterising-induced-or-referentialism-induced⟩-reference-of-thought—devolving-teleological-structure-of-meaningfulness as from existence—as-the-absolute-a-priori-of-conceptualisation imbricatedness/threadedness/recomposuring ' generating knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue implied as meaningfulness-and-teleology, is rather ensured by the construal of existential-instantiations as of maximalising-recomposuring-for-relative-ontological-completeness which is as of conflatedness, thus enabling the ontological-contiguity—of-the-human-institutionalisation-process. It is interesting to grasp here that we cannot from our 'sense of conceptual patterning' claim to put into question the inherent nature of existence—as-the-absolute-a-priori-of-conceptualisation and as of its implied superseding–oneness-of-ontology, since existence is structurally/paradigmatically precedent and our conceptual patterning is arising secondarily as of our shoddy-and-incomplete construal of the 'iterating nature of existential-instantiations' as of existence's imbricatedness/threadedness/recomposuring ; and any such pretence of conceptual patterning is nothing but a virtuality or ontologically-flawed construal as of naïve constitutedness. Of course, it is rather prospective relative-ontological-completeness-of-reference-of-thought that will imply deeper ontological-veracity of the same underlying purview for the construal of

meaningfulness-and-teleology mental-disposition grounded on existence—as-the-absolute-a-priori-of-conceptualisation. Insightfully and making the case against conceptual patterning as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity of existential-instantiations, this points out that existence inherent superseding–oneness-of-ontology necessarily implies ontologically-veridical meaningfulness-and-teleology is effectively as of a natural transcendental-enabling/sublimating existential-contextualising-contiguity-of-all-ontologically-veridical-meaningfulness 'in wait' to be elucidated however imbricated/threaded/recompusured such an exercise, explaining why our knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue of a given ~~amplituding~~/formative>epistemic-totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality in conflatedness need to be as of a reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology,

and more than just conceptual patterning that doesn't or poorly attends to a natural transcendental-enabling/sublimating existential-contextualising-contiguity-of-all-ontologically-veridical-meaningfulness. For all the above elucidations highlighting the ontological-veracity implications of constitutedness and conflatedness, it should be noted that emphasis is rather on the deficiency of limited-mentation-capacity in construing intrinsic-reality/ontological-veridicality such that the more profound/complete recomposuring of the very same ~~amplituding~~/formative>epistemic-totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality highlights/reflects in its subsuming interpretation the true deficiency of the shoddy/incomplete. This can be expanded upon as follows, the reason why relative-ontological-incompleteness-of-reference-of-

thought/epistemic-abnormalcy/preconvergence/destructuring can only be construed with certainty-as-to-their-real-ontological-deficiency 'rather as a constructed-deficiency of prospective relative-ontological-completeness-of-reference-of-thought/ontological-normalcy/conflatedness' lies in the fact that the construal/conceptualisation of an epistemic-totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality is 'supposedly as of a perfect or near-perfect or relatively-perfect ontological correspondence between such human construed/conceptualised meaningfulness-and-teleology and the inherent ontological-veracity/intrinsicness of the <~~amplituding~~/formative>epistemic-totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> of human construal/conceptualisation of it'. The only human construal/conceptualisation that can guarantee or relatively guarantee such a perfect or near-perfect or relatively-perfect ontological correspondence is as of prospective relative-ontological-completeness-of-reference-of-thought/ontological-normalcy/conflatedness. Since there is no direct correspondence between relative-ontological-incompleteness-of-reference-of-thought/epistemic-abnormalcy/preconvergence/destructuring with the inherent intrinsicness of the <~~amplituding~~/formative>epistemic-totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> of human construal/conceptualisation of it, it is thus only from a constructed-deficiency of prospective relative-ontological-completeness-of-reference-of-thought/ontological-normalcy/conflatedness which has such a direct correspondence that the certainty-as-to-their-real-ontological-deficiency of relative-ontological-incompleteness-of-reference-of-thought/epistemic-abnormalcy/preconvergence/destructuring can be established. A direct approach to determine

the certainty-as-to-their-real-ontological-deficiency of relative-ontological-incompleteness-of-reference-of-thought/epistemic-abnormalcy/preconvergence/destructuring will simply lead to a virtuality-or-ontologically-flawed-construal, as failing to elucidate the correspondence of ontological-deficiency to the inherent intrinsicness of the <~~amplituding~~/formative>epistemic-totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, with such a virtuality-or-ontologically-flawed-construal often wrongly involving 'reference-of-thought—elevated-devolving-as-of-prospective-institutionalisation'-as-of-upholding-ontological-veridicality rather than 'reference-of-thought—degraded-devolving-as-of-uninstitutionalised-threshold' as-of-failing-ontological-veridicality since a logical correspondence with intrinsic-reality/ontological-veridicality will be vaguely implied by mental-reflex; as is often the case with postlogism and conjugated-postlogism. By and large, this overall conceptualisation explains the nature of 'notional constructs' as implying a variance of poor-to-perfect ontological-performance-<including-virtue-as-ontology> of the same underlying idea conceptualised as of its perfect/near-perfect/relatively-perfect ontological-performance-<including-virtue-as-ontology> as in-sync/corresponding with inherent intrinsic-reality/ontological-veridicality beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> of human construal/conceptualisation of it. This fully articulates the dynamic relationship of human limited-mentation-capacity as of its poor to perfect relationship-with/conceptualising-of existence-or-intrinsic-reality-or-ontological-veridicality; respectively as poor as of constitutedness and as relatively-perfect/near-perfect/perfect conflatedness, construed as notional~conflatedness as of constitutedness-to-conflatedness of human limited-mentation-capacity. Insightfully, it highlights that constitutedness arises as of human limited-mentation-capacity 'poor/unsound/shoddy/incomplete unanticipated/unprojected' construal/conceptualisation-of-axiomatic-constructs-as-knowledge-

Notional~conflatedness/constitutedness-to-conflatedness as such highlights an underlying historiality/ontological-eventfulness/ontological-aesthetic-tracing of the constitutedness-to-conflatedness dynamism of human limited-mentation-capacity with respect to human ontological-performance-<including-virtue-as-ontology>-as-of-its-broadest-implications amenable to human-subpotency/'subpotent-mimetic-echoness-derivation-within-the-full-potency of existence/intrinsic-reality/ontology-as-of-its-mimetic-echoness-or-existence-in-reverberation-or-existence-potency-prospective-digression-of—

Thus in effect the natural sciences are actually for-human-studies/for-human-constructs whose

specific ambit of human-subpotency is about 'human consciousness as for material and physical effecting devolving teleologies as meaningfulness' while the social domains of study are actually for-human-studies/for-human-constructs whose specific ambit of human-subpotency is about 'human consciousness inherent effecting devolving teleologies as meaningfulness'. This validates the idea of dualism as ultimately human-subpotency effecting can only arise from the conflatedness of human consciousness in-its-embodiment as the potent 'phenomenological transcendental-point-of-departure handle' for human self-conscious existence and meaningfulness-and-teleology construal/conceptualisation as of knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue, whereas the human body as matter though physically existent cannot as of such its constitutedness conception be construed/conceptualised as of such a 'phenomenological transcendental-point-of-departure handle'. In the bigger framework, human ~~amplituding~~/formative>epistemic-totalising~thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance-<including-virtue-as-ontology>s) as of collective human shallow to deepening limited-mentation-capacity implies that human knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue inherently suffer in reflecting the ontological-contiguity—of-the-human-institutionalisation-process successive institutional-cumulation/institutional-recomposure from 'an extended metaphysics-of-presence deficiency' on human ontological-performance-<including-virtue-as-ontology> that can be traceable as of a notional~deprocrypticism 'extended metaphysics-of-absence insight' construed as historiality/ontological-eventfulness/ontological-aesthetic-tracing; and we can always grasp insightfully of human existential hyperbole-of-temporal-to-intemporal-ontological-performance-<including-virtue-as-ontology>s from the prospective relative-ontological-

notional~conflatedness of notional~deprocrypticism equally supersedingly enlightens the idea of holism which is often somewhat articulated as in the statement 'the whole is greater than the sum of its parts' but failing to specifically clarify that 'limited-mentation-capacity constitutedness conceptualisation construes of an 'ontologically-compromised-mediating,-as-of-its-specific-constitutedness that is relatively shoddy and incomplete' and generates virtuality-or-ontologically-flawed-construal when it construes of parts and whole in a given <~~amplituding~~/formative>epistemic-totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality and so as a derived/unoriginary mental-reflex as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity, whereas limited-mentation-capacity conflatedness conceptualisation as of notional~deprocrypticism-as-preempting—disjointedness-as-of-reference-of-thought construes of a 'non-mediating incisive as referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness profoundness/completeness' by an incisive <~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought that further expands human grasp of the given <~~amplituding~~/formative>epistemic-totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality as a non-derived/original mental-reflex of maximalising-recomposuring-for-relative-ontological-completeness driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality. The latter is effectively what relays the ontological-veracity of the <~~amplituding~~/formative>epistemic-totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality implied axiomatic-construct as of completeness/profoundness subsuming the reality of the perceived whole and parts within the incisive conflatedness; pointing out that the fundamental issue is how human limited-mentation-capacity effectively construes

intrinsic-reality/ontological-veridicality as of its profoundness/completeness. Consider in this particular regards the intrinsic-reality/ontological-veridicality reflected as akin to an engineering product like a jet engine wherein the conceptualisation is an incisive conflatedness that goes beyond the whole and parts of the jet engine to grasp a conceptualisation profoundness/completeness of required critical performances like fuel burn, maintenance cycles, robustness, etc. construed as of the articulated depth of the reference-of-thought of aircraft engine engineering science. This overall notional conception extends as well to the various ways by which human limited-mentation-capacity 'accosts' intrinsic-reality/ontological-veridicality, bringing about the various registry-worldviews/dimensions categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,-as-of-their-specific-constitutedness induced neuterising or prospectively deprocrypticism referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness

meaningfulness-and-teleology. That is, the deprocrypticism protensive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in its referencing of conflatedness, with no intermediating construct as of constitutedness, thus achieves ontologically-uncompromised-mediating,-as-of-conflatedness meaningfulness-and-teleology. While the occlusive/preclusive/warped/trepidatious-consciousnesses mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments

by their successive intermediating categorising/qualifying/tendentious/impulsive constructs as of constitutedness on conflatedness induce their successively categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,-as-of-their-respective-specific-constitutedness meaningfulness-and-teleology. This ultimately points to the centrality of the implications of the 'notion of limited-mentation-capacity' as of its deprocrypticism referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness as a notional conception in construing meaningfulness-and-teleology, while

avoiding its ontologically-flawed constitutedness construals in terms–as-of-axiomatic-construct of the various neuterising. Hence the 'notion of limited-mentation-capacity' as it overcomes ontologically-compromised-mediating,-as-of-its-specific-constitutedness towards ontologically-uncompromised-mediating,-as-of-conflatedness is what is effectively and ontologically defining of issues of reference-of-thought of meaningfulness-and-teleology given that as of its ontologically veridical conflatedness it is the cumulative recomposuring of human limited-mentation-capacity as deepening limited-mentation-capacity that is behind the ontological-contiguity—of-the-human-institutionalisation-process itself, and also underlies temporal-to-intemporal individuations differentiation as shortness-of-register-of-meaningfulness-and-teleology-and-longness-of-register-of-meaningfulness-and-teleology as of limited-mentation-capacity, and as this is so-conceptualised from the ontological-normalcy/relative-ontological-completeness-of-reference-of-thought perspective of deprocrypticism 'referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness protensive-consciousness sound conceptualisation perspective'. This equally underlies and is in sync with the notion of candidity/candour-capacity as a variance of the same as of notional~deprocrypticism 'referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness protensive-consciousness sound conceptualisation perspective'. It is the 'notion of limited-mentation-capacity' that as of its deficiency is falsely-composited by 'ontologically-compromised-mediating,-as-of-their-specific-constitutedness consciousnesses flawed conceptualisation perspectives' into ontologically-flawed constructs of neuterising. historiality/ontological-eventfulness/ontological-aesthetic-tracing as of the notional~conflatedness of notional~deprocrypticism highlights that humankind in its projected-or-anticipated relationship with 'existence as-the-absolute-a-priori' is rather in existential-extrication-as-of-existential-unthought, and not the full potency of existence; existential-extrication-as-of-existential-unthought construed rather as 'shoddy-and-

incomplete actualising in presencing—absolutising-identitive-constitutedness' of the full potency of existence. Existential-extrication-as-of-existential-unthought refers to a registry-worldview's/dimension's overall historiality/ontological-eventfulness/ontological-aesthetic-tracing as of the notional~conflatedness of notional~deprocrypticism construct, wherein its <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag construes beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> of its 'projected-or-anticipated-grandest-existential-axiomatic-construct' as the absolute framework of ontological-performance-<including-virtue-as-ontology>-as-of-its-broadest-implications and thus failing to factor in the implications on its ontological-performance-<including-virtue-as-ontology> of its prior relative-ontological-incompleteness-of-reference-of-thought as this induces <~~amplituding~~/formative>wooden-language-⟨imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology⟩ at its uninstitutionalised-threshold. Existential-extrication-as-of-existential-unthought thus highlights the overall constitutedness of humankind's access to existence given the 'imbricatedness/threadedness/recomposuring as of iterating-of-existential-instantiations ', such that humankind's axiomatic-construct/theory of existence/existential-reality/intrinsic-reality/ontological-veridicality as of its 'projected-or-anticipated-grandest-existential-axiomatic-construct as reference-of-thought—devolving-teleological-structure-of-meaningfulness' is rather as of various successive relative constitutedness implied with the successive institutionalisations, and explains a natural human mental-disposition to nihilism as of each of such institutionalisation's <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-

This thus divulges the essence of existence as 'the full-potency of existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–

in-epistemic-conflatedness. In other words existence is already given rather as of its potency, and the real problem of existence is humankind's access to existential possibilities as of humankind's limited-mentation-capacity. That is, human transcendence is what achieves existence as a 'potent construct', as the notion of existence-as-a-grounded-construct doesn't-make-sense/is-unavailable for any specific human registry-worldview's/dimension's reference-of-thought as an epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag construct, including our positivism–procrypticism registry-worldview/dimension, as this will falsely imply that our reference-of-thought <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag is 'developed enough' as of Being-and-contemplation to have achieved the full potency of existence to then know what's existence whereas in reality such <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag highlights human-subpotency/subpotent-mimetic-echoness-derivation-within-the-full-potency of existence. Thus our construal of existence can only be an 'as of existence' exercise that rather highlights human potential to transcend towards grasping existence/existential-possibilities; with that potency only instigated as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality for transcendence. Interestingly, from our vantage positivism/rational-empiricism perspective, we'll certainly construe the supposed intradimensional resolution of existential issues of prior relative-ontological-incompleteness-of-reference-of-thought as of ontological-performance-

<including-virtue-as-ontology> arising in recurrent-utter-uninstitutionalisation as intradimensional meniality-or-hyperbole and rather resolvable as of base-institutionalisation superseding projection/anticipation, and same with base-institutionalisation–ununiversalisation as intradimensional meniality-or-hyperbole and rather resolvable as of universalisation superseding projection/anticipation, and same with universalisation–non-positivism/medievalism as intradimensional meniality-or-hyperbole and rather resolvable as of positivism/rational-empiricism superseding projection/anticipation, but we won't or hardly construe of the same as of our ~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag about our positivism–procrypticism as it being of intradimensional meniality-or-hyperbole and rather resolvable as of deprocrypticism as preempting—disjointedness-as-of-reference-of-thought superseding projection/anticipation! This points to the flaw of a Heideggerian Dasein conceptualisation as it wrongly implies 'humankind has any developed mental state as of Being-and-contemplation in any past-to-present epoch' to 'fully register as of that epoch's metaphysics-of-presence' what is existence/existential-possibilities not factoring Being conflatedness ~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought as rather driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality in reflecting the ontological-contiguity—of-the-human-institutionalisation-process, and further in contradiction to the notion of human ~~amplituding~~/formative>epistemic-totalising~thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance-<including-virtue-as-ontology>s). Existence is rather a 'potency construct of transcendence as of human existential potential' and not 'a grounded construct for construing existence' as wrongly implied/attempted with the Heideggerian Dasein notion,

as all what 'grounding' does is to wrongly elevate the registry-worldview's/dimension's reference-of-thought in which such a construct is articulatedly grounded thus contradictorily undermining the possibility for transcendence by wrongly implying that the said registry-worldview's/dimension's reference-of-thought is of absolute ontological-performance-<including-virtue-as-ontology>, whereas it is deepening of human limited-mentation-capacity as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality in inducing prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments that allows for prospective relative-ontological-completeness-of-reference-of-thought thus expanding human notion of existence/existential-possibilities. Anecdotally, the prophesying social scientists of their times who insist on the recurrence of the practices of the creed are 'not stupid' as they know very well that reference-of-thought–categorical-imperatives/axioms/registry-teleology for meaningfulness-and-teleology are just that with respect to an animal of limited-mentation-capacity beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> who is bound to circularly elicit shortness-of-register-of-meaningfulness-and-teleology on such renewed reference-of-thought–categorical-imperatives/axioms/registry-teleology for meaningfulness-and-teleology and further denaturing them as of the prospective institutionalisation uninstitutionalised-threshold! In other words and as relevant with all other registry-worldviews/dimensions transcendental implications, base-institutionalisation meaningfulness-and-teleology cannot truly be-grounded-as-explained to recurrent-utter-uninstitutionalisation as this wrongly implies the latter's reference-of-thought as of its reference-of-thought–categorical-imperatives/axioms/registry-teleology is a sound basis for construing the meaningfulness-and-teleology of base-institutionalisation inducing rather a circular-complexification of recurrent-utter-uninstitutionalisation reference-of-thought as it adopts by mental-reflex an

incrementalism-in-relative-ontological-incompleteness mental-disposition rather than a maximalising-recomposuring-for-relative-ontological-completeness mental-disposition and thus fails to fulfil the requisite referencing/registering/decisioning–of-its-reference-of-thought-rather-as-preconverging-or-dementing-and-decentered-prior-institutionalisation's-categorical-imperatives/axioms/registry-teleology and its alienation—as-inauthentic/poorly-objectified/poorly-desubjectified-as-objectified/ontological-bad-faith/nihilistic as of ontological-dementation/dialectical-dementation–stranding/attributive-dialectics, which is what allows for transcendence to prospective base-institutionalisation reference-of-thought for cross-generational renewal as of prospective relative-ontological-completeness-of-reference-of-thought of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human~~amplituding~~/formative>epistemic-totalising~purview-of-construal'; but rather such unground articulation is one rather eliciting prospective metaphoricity as of its implied prospective existential reference. Transcendence implies that as of human ~~amplituding~~/formative>epistemic-totalising~thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance-<including-virtue-as-ontology>s), humankind has no 'absolute past-or-present ontological-completeness-of-reference-of-thought' for grounding the construal of meaningfulness-and-teleology of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human~~amplituding~~/formative>epistemic-totalising~purview-of-construal', as such pretence circularly turns into constitutedness at the given reference-of-thought uninstitutionalised-threshold; highlighting the fact that human potential attainment of the deprocrypticism as preempting—disjointedness-as-of-reference-of-thought is actually a 'perpetual transcendence' as of notional~deprocrypticism as ~~amplituding~~/formative>notional~preempting—disjointedness-as-of-reference-of-thought

which points out that the various uninstitutionalised-thresholds from recurrent-utter-uninstitutionalisation to procrypticism are actually levels of disjointedness-as-of-reference-of-thought and that the various institutionalisations from base-institutionalisation to notional~deprocrypticism are actually levels of preempting—disjointedness-as-of-reference-of-thought all reflected as of notional~deprocrypticism. humankind can only credibly adopt a 'conflatedness exercise' rather as of effecting-wholeness-as-of-profoundness-and-completeness-to-meaningfulness-and-teleology in re-projection-or-re-anticipation to match existence as of existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness given existential 'imbricatedness/threadedness/recomposuring as of iterating-of-existential-instantiations ' to further elevate its prospective relative-ontological-completeness-of-reference-of-thought of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<~~amplituding~~/formative>epistemic-totalising~purview-of-construal'. This thus validates the notion that existence can only be construed as a transcendental conflatedness as of maximalising-recomposuring-for-relative-ontological-completeness driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality and not as a grounded constitutedness as of elaboration-as-mere-

Transcendence emphasises organic-knowledge as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality underlying conflatedness pointing to the 'false certainty and denaturing implications' involved with knowledge construed mechanically as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity in a constitutedness and extricatory relationship with human ~~amplituding~~/formative>epistemic-totalising~thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance-<including-virtue-as-ontology>s), failing to factor in maximalising-recomposuring-for-relative-ontological-completeness driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality. Existence as of its potency implies that what underlies historiality/ontological-eventfulness/ontological-aesthetic-tracing as of the notional~conflatedness of notional~deprocrypticism is always the issue of 'divulging prospective relative-ontological-completeness-of-reference-of-thought' as of conflatedness, and so as the very essence of human limited-mentation-capacity relating to existence—as-the-absolute-a-priori-of-conceptualisation. Operantly, the phenomenological quest for an underlying and superseding knowledge construct, construed here as an enabling construct of <amplituding/formative>epistemic-totalising~conflated-meaningfulness-and-teleology-as-of-notional~deprocrypticism-reflected-historiality/ontological-eventfulness/ontological-aesthetic-tracing ontological-performance-<including-virtue-as-ontology> determination as of human <amplituding/formative>epistemic-totalising~thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance-<including-virtue-as-ontology>s), is fulfilled by the notion of existential-extrication-as-of-existential-unthought/nonextricatory-existential-preempting-of-existential-unthought as the construct that reflects any registry-worldview's/dimension's reference-of-thought historiality/ontological-eventfulness/ontological-aesthetic-tracing as of the notional~conflatedness of notional~deprocrypticism highlighting the affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-validating-measuring-<postconverging-or-dialectical-thinking–apriorising-psychologism> of its prospective relative-ontological-completeness-of-reference-of-thought as of the implications of its conflatedness as its given reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology and its constitutedness as of the unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitablemeasuringinstrument-invalidating-measuring-<preconverging-or-dementing–apriorising-psychologism> of its given prior relative-ontological-incompleteness-of-reference-of-thought as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<amplituding/formative>epistemic-totalising~purview-of-construal'. This author's notion of centered-<amplituding/formative>epistemic-

This thus undermines the implications of a Derridean decentered-infinite-freeplay in its critique of 'centered–epistemic-totalisation as of circularity of meaningfulness-and-teleology in relative deficient/flawed ontological-performance-

<including-virtue-as-ontology>' since such a criticism is based on assuming only a same registry-worldview's/dimension's reference-of-thought, and so-construed mainly because such a Derridean conception construes of centered–epistemic-totalisation as only within one registry-worldview's/dimension's reference-of-thought-as-of-'reference-of-thought— devolving-teleological-structure-of-meaningfulness' as of its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, failing to reflect the ontological-contiguity—of-the-human-institutionalisation-process as of notional~deprocrypticism implied structural/paradigmatic shifts of reference-of-thought-as-of-'reference-of-thought—devolving-teleological-structure-of-meaningfulness' overcome the limitation of 'centered–epistemic-totalisation circularity of meaningfulness-and-teleology in relative deficient/flawed ontological-performance-<including-virtue-as-ontology>' within a same reference-of-thought-as-of-'reference-of-thought—devolving-teleological-structure-of-meaningfulness' by way of the successive prospective relative-ontological-completeness-of-reference-of-thought as enabling successive prospective reference-of-thought-as-of-'reference-of-thought—devolving-teleological-structure-of-meaningfulness' marked by the shift of 'centered–epistemic-totalisation circularity of meaningfulness-and-teleology inducing relatively less and less deficient/flawed ontological-performance-<including-virtue-as-ontology>' right up to the attainment of deprocrypticism 'centered–epistemic-totalisation circularity of meaningfulness-and-teleology of theoretically perfect/sound ontological-performance-<including-virtue-as-ontology>'; given that the 'succession of institutionalisation apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument rules of the successive reference-of-thought-as-of-'reference-of-thought—devolving-teleological-structure-of-meaningfulness's' overcome retrospectively to prospectively the problem of human limited-mentation-capacity by its deepening thus inducing successive human

transcendence of human finitudes as destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>—of-ontological-performance-<including-virtue-as-ontology> . Here as well the Derridean postulation of decentered-infinite-freeplay in lieu of such a conceptualisation of a 'projected ultimate centered–epistemic-totalisation circularity of meaningfulness-and-teleology of theoretically perfect/sound ontological-performance-<including-virtue-as-ontology>', as implied by this author's notion of ontological-normalcy/postconvergence, operantly displays the philosophical tradition problem of constitutedness as failing to project of the transformational implications of human limited-mentation-capacity-deepening-⟨<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ for successive prospective relative-ontological-completeness-of-reference-of-thought in bringing about successive registry-worldviews/dimensions as of conflatedness that prospectively ultimately grasps the centered-<~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology> in reflecting the ontological-contiguity—of-the-human-institutionalisation-process or notional~deprocrypticism. Despite such a Derridean decentered-infinite-freeplay conception being the most radical attempt hitherto to overcome the philosophical tradition constitutedness, it perfectly grasps the implications to meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology> of 'centered–epistemic-totalisation as of circularity of meaningfulness-and-teleology in relative deficient/flawed ontological-performance-<including-virtue-as-ontology>' but rather as within a same horizon of meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology>. However, it fails to grasp that such a centered–epistemic-totalisation itself arises because an axiomatic-construct is a circularity of meaningfulness-and-teleology ontological-

performance-<including-virtue-as-ontology> of the very same

~~amplituding~~/formative>epistemic-totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality it refers to, and so-implied by extension with respect to a given reference-of-thought-as-of-'reference-of-thought—devolving-teleological-structure-of-meaningfulness' a centered–epistemic-totalisation is rather the circular meaningfulness-and-teleology representation of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human~~amplituding~~/formative>epistemic-totalising~purview-of-construal', as the said reference-of-thought-as-of-'reference-of-thought—devolving-teleological-structure-of-meaningfulness' is 'supposedly always the systemic and indefinite resolution' of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human~~amplituding~~/formative>epistemic-totalising~purview-of-construal'. Now, the issue of a centered–epistemic-totalisation defect arises where the given reference-of-thought-as-of-'reference-of-thought—devolving-teleological-structure-of-meaningfulness' is ontologically-flawed/deficient as it will systematically induce a 'centered–epistemic-totalisation circularity of meaningfulness-and-teleology in relative deficient/flawed ontological-performance-<including-virtue-as-ontology>' construed as of the uninstitutionalised-threshold of a registry-worldview's/dimension's reference-of-thought-as-of-'reference-of-thought—devolving-teleological-structure-of-meaningfulness'. But then human limited-mentation-capacity-deepening-⟨~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ achieving prospectively of an ultimately theoretically perfect/sound reference-of-thought-as-of-'reference-of-thought—devolving-teleological-structure-of-meaningfulness' as of the full ontological-contiguity—of-the-human-institutionalisation-process as notional~deprocrypticism implies the circular ontologically-flawed/deficient implications of centered–epistemic-totalisation are done away

with as of ontological-completeness with the <~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought of the reference-of-thought-as-of-'reference-of-thought—devolving-teleological-structure-of-meaningfulness' of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<~~amplituding~~/formative>epistemic-totalising~purview-of-construal', with such a conceptualisation of centered–epistemic-totalisation also construed as transcendental centered–epistemic-totalisation or extrapolated-centered–epistemic-totalisation or extrapolatory–epistemic-totalisation or transcendental–epistemic-totalisation and reflects the reality that a Derridean decentered-infinite-freeplay can also be construed as an interpolatory–epistemic-totalisation or interpolated-decentered–epistemic-totalisation. For instance, we can grasp that 'traditional classical mechanics axiomatic-construct' is a given 'centered–epistemic-totalisation circularity of meaningfulness-and-teleology of 'the very same physics <~~amplituding~~/formative>epistemic-totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality' as of a prior relative-ontological-incompleteness of less ontological-performance-<including-virtue-as-ontology> of 'the very same physics <~~amplituding~~/formative>epistemic-totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality', while with human limited-mentation-capacity-deepening-⟨<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs brings about a new 'centered–epistemic-totalisation/circularity of meaningfulness-and-teleology of 'the very same physics <~~amplituding~~/formative>epistemic-totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality' as of prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought as we can do more

things with the latter axiomatic-construct more-profound/grander meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology>; and interestingly, physicists will surely fancy that they could do better in ultimately grasping theoretically the full-potency of existence divulgeable as of 'the very same physics <~~amplituding~~/formative>epistemic-totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality' with an ambition for a theory of everything. However, a Derridean decentered-infinite-freeplay is nevertheless critical as a first step for breaking away from a prior centered–epistemic-totalisation of a very same <~~amplituding~~/formative>epistemic-totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality in relative deficient/flawed ontological-performance-<including-virtue-as-ontology>, and thus by extension with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<~~amplituding~~/formative>epistemic-totalising~purview-of-construal' which is a given reference-of-thought, construed as 'reference-of-thought—devolving-teleological-structure-of-meaningfulness'; and for all practical matters this has been the way Derridean deconstruction has been commonly applied as in effect all our meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology> has been as of our positivism–procrypticism registry-worldview's/dimension's reference-of-thought-as-of-'reference-of-thought—devolving-teleological-structure-of-meaningfulness' horizon and such a Derridean decentered-infinite-freeplay is an inspired conception providing the groundwork as its initiates the centered–epistemic-totalisation exercise for the insight of a futural différance as of the latter's transcendental–epistemic-totalisation that underlies conflatedness in breaking with the philosophical tradition or human knowledge conceptualisation tradition or towards fulfilling the understanding of Being. In this regard talking about the physics example again, such a Derridean freeplay différance is akin to the 'putting in question exercise' that

surrounds the cooperation/mutual-complementing-ideas-among-various-physicists leading up to the critical breakthroughs; which then establish such physics centered–epistemic-totalisation schemes as Newtonian physics and later on Theory-of-relativity and Quantum-mechanics, and today with respect to various theoretical efforts with the potential of leading to a physics Theory of Everything. Inherent to futural différance is the notion of <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, as of beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>, construed in the immediate-and-short-term as of 'self-referencing' as the uninstitutionalised-threshold temporal individuations circular undermining of the prospective institutionalisation reference-of-thought/structural/paradigmatic implied transformation/shift as transcendence as of prospective relative-ontological-completeness-of-reference-of-thought, as well as the idea of temporal individuations 'syncretising' that underlies a spiralling cross-generational increasing undermining of the uninstitutionalised-threshold reference-of-thought which is in <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag with its ultimate cross-generational collapsing for the prospective institutionalisation's reference-of-thought; and so as of prospective social-stake-contention-or-confliction dynamism with increasing social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩ as of prospective relative-ontological-completeness-of-reference-of-thought of the prospective institutionalisation's reference-of-thought. Insightfully again, this idea of infinite-possibilities/circularity implied as of a Derridean infinite-decentered-freeplay of a given meaningful-frame/axiomatic-construct/model such as mathematical models/axiomatic-constructs circularity is familiar to physicists and other scientists who understand that there is

no infinity in the real-world/existence and infinity showing up in mathematical models/axiomatic-constructs point to the fact that there is a circular or undefined or undecidable problem arising from poor human limited-mentation-capacity conceptualisation implying the given mathematical model/axiomatic-construct is in circular-existential-disjointedness-as-of-prior-relative-ontological-incompleteness as of the axiomatic-construct relative notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised~preconverging/dementing–qualia-schema> in constitutedness, and thus a need for a more ontologically-complete mathematical model/axiomatic-construct that as of human limited-mentation-capacity-deepening-⟨<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ then resolves/overcomes the circularity/circular-existential-disjointedness-as-of-prior-relative-ontological-incompleteness reflected in the prior mathematical model/axiomatic-construct by the infinities-as-circular-or-undefined-or-undecidable with a new mathematical model/axiomatic-construct in relative ontological-contiguity as of conflatedness, and so as of the very same <~~amplituding~~/formative>epistemic-totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality; and so because human limited-mentation-capacity-deepening-⟨<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ induces paradigmatically/structurally grander human meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology> of human implicit-or-explicit constructed axiomatic-constructs of purviews/domains of construal-as-intrinsic-reality/ontological-veridicality, and this equally applies by extension to reference-of-thought-as-of-'reference-of-thought—devolving-teleological-structure-of-meaningfulness' as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<~~amplituding~~/formative>epistemic-totalising~purview-of-construal'. It should be

noted thus that an axiomatic-construct is as of an implied correspondence with the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<~~amplituding~~/formative>epistemic-totalising~purview-of-construal' or <~~amplituding~~/formative>epistemic-totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, and it supersedes and is defining of logic which is rather the 'inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions' as reflected with any given explicited axiomatic-construct in the same way that insight/intuition is reflected rather with regards to any given implicited axiomatic-constructs; with an axiomatic-construct such as an idea or a concept or a notion or a theory being any conception as of meaningfulness-and-teleology of supposed existential-implications correspondence. That is the traditional knowledge conception articulated as 'axioms of logic' is rather vague, with the appropriate articulation being rather 'logic of axiomatic-construct/reference-of-thought', as the axiomatic-construct/reference-of-thought is the effective human limited-mentation-capacity supposed correspondence relation with existence—as-the-absolute-a-priori-of-conceptualisation for human-subpotency possibilities for devolving meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue, with increasing ontological-performance-<including-virtue-as-ontology> as of human transcendence; even though such a conception as 'axioms of logic' could be perceived rather as a meta-conception or more like a technical practicality akin to say the scaffolding of a building! In other words as the 'inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions', logic and by extension mathematics imply elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity, whereas axiomatic-constructs as reflecting ecstatic-existence/the-

nature-of-the-world/conditions are construed in affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-validating-measuring-<postconverging-or-dialectical-thinking–apriorising-psychologism> as of maximalising-recomposuring-for-relative-ontological-completeness. But then as of 'ontology of logic' and 'ontology of mathematics' as their very own respective conceptualised meta-axiomatic-constructs as ontologies in terms of reflecting their philosophical depth of contemplation as of 'coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness', both logic and mathematics are construed practically as formalisations which are mainly as such constructs of faithful/reproducible syntaxisation on the supposed basis of 'smarter and simpler articulations' for the sake of succinctness, clarity and fungibility; however, without the implication of any other inherent transcendental-enabling/sublimating of such formalisations besides their succinctness, clarity and fungibility usefulness 'thus-limitedly construed as their inherent meta-conceptualised ontological-veracity/axiomatic-construct of logic and mathematics transcendental-enabling/sublimating'. But then it is naïve to construe of mathematics, as logicists have tended to do, as essentially an exercise of mathematical formalisation. The fact is that mathematics have always been developed implicitly or explicitly in association with or inspired from the context/existential-contextualising-contiguity of other applied and transcendental-enabling/sublimating activities as of their axiomatic-constructs development and mathematics very own existential-reality of developed axiomatic-constructs applicative orientation, including developing together with heavily dependent mathematics domains like physics, engineering, other applied sciences and statistical studies. This latter situation which is more real than generally said and makes of mathematics 'a <~~amplituding~~/formative>epistemic-totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality created axiomatic-

constructs' and more so than the 'abstract romantic image portrayed as of the mere manipulation of numbers and forms' as if not inspired as of existential-reality contextuality itself. Thus naively taking cue from the formalisation of mathematics as if it will enable the inherent transcendental-enabling/sublimating of any discipline is bound to lead to disappointment, as the inherent axiomatic-constructs as theories, concepts, notions and ideas of the existential domain in question have to be critically developed as of existential-contextualising-contiguity knowledge-reification for logic and mathematics to then be relevant as of a secondary tool or at best a concomitant tool. In this regards, the 'truly mathematical proof' (over and above any formal mathematical proof) is rather about validation/invalidation of any such mathematics as it can be so-demonstrable in the occurrence of existential phenomena/manifestations; even as such a mathematical demonstration is rather so 'existentially nominal' that such phenomenal/manifest veracity of mathematics is often for all practical purposes mostly overlooked by mathematicians when involved in their formalisation exercise including 'formal proofs' as to the fact that the existential validation/invalidation of mathematics is so nominally obvious that hardly any experimenting is warranted for confirmation and this existential nominalism can easily lead to a reductionist confusion that mathematics (as to its epistemic-conception phenomenal/manifest~subpotency-<in-transitive-conflatedness–reflexivity,-in-the-full-potency-of-existence> with regards to the ontological-contiguity of existence') is not priorly subject to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation (and this very insight about the 'existentially nominal' sublimating-validation/desublimating-invalidation of mathematics as of a 'very existentially nominal acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation as to the mere adequacy of formalised mathematics' explains on the other

hand why the mere introduction of mathematics, statistics and data in domains requiring 'human corresponding-sublimation-inducing,-profound-and-creative acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation' is not construed as sublimating-validation in such domains where such mathematics, statistics and data are rather 'distracting-from and not-contributing-to' the inherent domain's epistemic-conceptions phenomenal/manifest~subpotencies-<in-transitive-conflatedness–reflexivity,-in-the-full-potency-of-existence> given 'human corresponding-sublimation-inducing,-profound-and-creative acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation'). In physics the Newtons, Leibnizes, Einsteins, Poincarés, Schrodingers, Bohrs had to elicit the transcendental-enabling/sublimating of the physics <~~amplituding~~/formative>epistemic-totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality created axiomatic-constructs with mathematics being accessory to the transcendental-enabling/sublimating. They didn't just start to develop 'patterns of mathematical equations' without the prior insight about the physics domain-of-study and what to strive for, and actually from that 'physics reality precedence perspective' got the insight to further develop their relevant branches of mathematics. Nor do even pure mathematicians just go about constructing 'mathematical patterns' as of formalisation without striving to get insight and inspiration from existential-reality as transcendental-enabling/sublimating; and we can appreciate in this regards how the human mathematical disposition adjust from a classical reflex with regards to existential phenomena/manifestations that assume a non-classical character like statistical-constructs, quantum phenomena, black holes, etc. as to existence—as-sublimating-withdrawal,-eliciting-

of-prospective-supererogation. The naivety of logicism lies exactly in this respect of construing formalisation as most of what is supposed to be achieved, and failing to grasp that when it comes to social reality its own transcendental-enabling/sublimating has to be 'creatively construed', and this in many ways explains the frustrated conclusion that will often then arise from such a naïve formalisation perspective that the philosophical exercise is not necessarily transcendental-enabling/sublimating, contrary to the precept of all other knowledge! Thus the conceptualisation of logic implied by any given registry-worldview/dimension reference-of-thought-as-of-'reference-of-thought—devolving-teleological-structure-of-meaningfulness' as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human~~amplituding~~/formative>epistemic-totalising~purview-of-construal' points to the fact that the various registry-worldviews/dimensions operate their own conception of logic as of their prospective relative-ontological-completeness-of-reference-of-thought; as we can appreciate inherently as of metaphysics-of-absence that however deficient, that each registry-worldview/dimension does have its own sense of logic as of its self-conscious construed meaningfulness-and-teleology. The notion of an absolutely valid logic can only arise on the backdrop of an absolutely valid reference-of-thought-as-of-'reference-of-thought—devolving-teleological-structure-of-meaningfulness' as implied by futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism or preempting—disjointedness-as-of-reference-of-thought registry-worldview/dimension institutionalisation, wherein such a logic is its 'inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions'. In this regard, the link-up of all the concepts and notions articulated herein by this author speaks of 'suprastructural logic' that is critically articulated as of a prospective notional~deprocrypticism psychoanalytic-unshackling

metaphysics-of-absence and conflatedness, and further subsumed in the word candidity or candour-capacity. Such 'suprastructural logic' is even more damning about the naïve constitutedness construal of meaningfulness-and-teleology that besets the knowledge and philosophical tradition. Such a conception of logic and logical analysis points to the <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag naivety and vagueness involved when construing logic and logical analysis as absolute without any explicitly implied or formulated reference-of-thought, construed as 'reference-of-thought—devolving-teleological-structure-of-meaningfulness'; usually in our case, in a non-transcendental <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that is unconsciously implied as of our positivism–procrypticism registry-worldview/dimension. Insightfully, such a 'suprastructural logic' undermines metaphysical notions like good, essence and truth as being naively construed as of a given registry-worldview's/dimension's <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of meaningfulness-and-teleology, and in lieu emphasises Being construed as ontology's-directedness-as-Being which best reflects and captures meaningfulness-and-teleology as of 'intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity'. Being as of its implied notional~deprocrypticism's conflatedness provides elucidation to such question as: what is the meaning of good/truth/essence in a recurrent-utter-institutionalised, an ununiversalised or a non-

positivistic society? And invariably the answers will be a vague <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as of each registry-worldview/dimension, and it is rather the emanant insight of the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework conceptualisation as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology that carries the prospective transcendences which are the resolution of the successive prior registry-worldview's/dimension's uninstitutionalised-threshold vices-and-impediments; and so by successive Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology in reflecting the ontological-contiguity—of-the-human-institutionalisation-process as base-institutionalisation, universalisation and positivism respectively, and prospectively deprocrypticism. Being construed as of ontology's-directedness-as-Being thus enables the superseding of <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage as metaphysics-of-presence. Further, the fact is that it is rather axiomatic-constructs whether explicit or implicit that are supposedly in a meaningfulness-and-teleology correspondence relation with an epistemic-totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality as of their given meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology> as validated by ontological-primemovers-totalitative-framework; so-construed as of the implications of human limited-mentation-capacity when developing axiomation-constructs, with the latter subject to their transcendence when prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought avails prospectively with regards to their meaningfulness-and-

teleology ontological-performance-<including-virtue-as-ontology>. The implications here as well are that implicit axiomatic-constructs like analogies and supposed intuitions/insights that do not reflect/align as of the coherence/contiguity of superseding–oneness-of-ontology implied as of the full-potency of existence coherence/contiguity, are ontologically naïve and vague. Thus axiomatic-constructs ontological-veracity are dependent on relative ontological-contiguity; as axiomatic-construct/reference-of-thought in relative ontological-contiguity of <~~amplituding~~/formative>epistemic-totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality. An axiomatic-construct is in such relative ontological-contiguity by its conflatedness as of the coherence/contiguity of superseding–oneness-of-ontology implied as of the full-potency of existence coherence/contiguity. An 'axiomatic-construct/reference-of-thought of notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised~preconverging/dementing–qualia-schema> as of an epistemic-totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality' highlights two points of failure/as-discontinuity of meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology>, having to do with its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument unsoundness-or-inauthenticity and by derivation the aposteriorising/logicising/deriving/intelligising/measuring; such that a more ontologically-complete 'axiomatic-construct/reference-of-thought in relative ontological-continuity as of the very same <~~amplituding~~/formative>epistemic-totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality' exists rather beyond the scope of construal of meaningfulness-and-teleology of the prior 'axiomatic-construct/reference-of-thought of notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised~preconverging/dementing–qualia-schema> as of the very same

<amplituding/formative>epistemic-totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality'. Thus the relationship between a prospective institutionalisation and the uninstitutionalised-threshold is one of relative ontological-contiguity–by–notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised~preconverging/dementing–qualia-schema> of their differing references-of-thought as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<amplituding/formative>epistemic-totalising~purview-of-construal'; for instance, with regards to the relative ontological-contiguity of reference-of-thought implied as of base-institutionalisation over the relative notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised~preconverging/dementing–qualia-schema> of reference-of-thought implied as of recurrent-utter-uninstitutionalisation, as of their differing references-of-thought and thus implied logic with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<amplituding/formative>epistemic-totalising~purview-of-construal', reflected as of relative mutual unintelligibility. In axiomatic-construct terms, it is 'mentally-unsound/preconverging-or-dementing–apriorising-psychologism and by derivation illogical' to be insisting on articulating notions of relevance to the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs like space-time or quanta in terms of 'traditional classical mechanics axiomatic-construct' as of their respectively corresponding relative ontological-contiguity and relative notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised~preconverging/dementing–qualia-schema>, and so with regards to 'the very same physics <amplituding/formative>epistemic-totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality'. Such mutual unintelligibility, with regards to reference-of-thought, speaks of differing 'apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-

construct' of the differing references-of-thought, with the traditional philosophical and knowledge anti-psychologism stance fundamentally grounded on a mix-up about the nature of 'axioms wrongly construed as elements of logic' as implied with statements like 'axioms of logic' rather than the fact that axiomatic-constructs are 'ontological wholes of correspondence' as of supposed correspondence with <~~amplituding~~/formative>epistemic-totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality and thus carry transcendental-enabling/sublimating implications as of human limited-mentation-capacity-deepening-⟨<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩, whereas logic and logical analysis is rather the 'inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions' and at best yields formalisations grounded on the implied 'apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct' but doesn't reify meaningfulness-and-teleology as knowledge which can only arise as of the 'maximalising-recomposuring-for-relative-ontological-completeness affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-validating-measuring-<postconverging-or-dialectical-thinking–apriorising-psychologism> of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct'. Such a logicism disposition is rather in constitutedness and is behind such naïve contention that philosophy doesn't carry transcendental implications and actually undermines other approaches that strive for transcendental-enabling/sublimating by way of conceptual patterning arguments blinded to transcendental implications of knowledge as derived from existence—as-the-absolute-a-priori-of-conceptualisation. In the bigger scheme of things, this author holds that the deepest 'phenomenological transcendental-point-of-departure handle' in the conception of meaningfulness-and-teleology ontological-performance-<including-virtue-

as-ontology> as of transcendence reflected by metaphysics-of-absence is wholly sufficient as of human limited-mentation-capacity-deepening-⟨<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ in accounting for 'intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity' as of relative ontological-contiguity of reference-of-thought with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-

'human<~~amplituding~~/formative>epistemic-totalising~purview-of-construal'. This author phenomenological transcendental conception is articulated as of non-speculative, non-imaginary, theoretical, conceptual and operant implications construing/conceptualising in reflecting the ontological-contiguity—of-the-human-institutionalisation-process, not as an external speculative dialectics, but as a wholly internal natural dialectics in conflatedness as of human limited-mentation-capacity-deepening-⟨<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩. Such that human phenomenological <~~amplituding~~/formative>epistemic-totalising~thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance-<including-virtue-as-ontology>s) is the 'complete scientific archaeological depth' for grasping ontology and Being as of the conflatedness of human limited-mentation-capacity implications construed from notional~deprocrypticism perspective as historiality/ontological-eventfulness/ontological-aesthetic-tracing, and

consequently doesn't carry any external ideological implication but rather for the inherent ontological and Being implications. Further as of such phenomenological transcendental conflatedness, there is no issue about existence itself as it is pre-given, as existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency-prospective-digression-of—~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness, but rather an issue to humankind arising as of human-subpotency in the full-potency of existence with all the problem of existence being the issue of humankind's limited-mentation-capacity implications as failing Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of ontology's-directedness-as-Being. The phenomenological insight here about the nature of 'existence as so construed as of ontology's-directedness-as-Being' is that Being is the conflatedness as of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation selectivity inherent in existence that rather skews presence states towards the 'ontological statistical-exception' of intemporality/longness over temporality/shortness possibilities, thus rendering existence as of relative teleological orderliness and not teleological chaos in the case were all ontological-possibilities as of temporality-to-intemporality were to be arising in equivalence/equal-measure. Thus, such ontology's-directedness-as-Being conflatedness ~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity as of maximalising-recomposuring-for-relative-ontological-completeness existentially supersede abstract/imagined/misconstrued/virtual constitutedness possibilities as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity implications that are effectively as of non-existence. The further implication is that human 'prior existential-reality insight as arising by conflatedness as of the

308

coherence/contiguity of ontology's-directedness-as-Being' rather 'points to the ontological-veracity of prospective existential-reality as of conflatedness upholding prospective coherence/contiguity of ontology's-directedness-as-Being'; wherein as of human-subpotency the ontological-veracity in reflecting the ontological-contiguity—of-the-human-institutionalisation-process as leading up to our present positivism/rational-empiricism registry-worldview/dimension speaks of a conflatedness as of successive opened-constructs-of-meaningfulness-and-teleology superseding <~~amplituding~~/formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>) and from which Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology exercise we can't as of soundness-or-authenticity exculpate ourselves to then pretend ours is the registry-worldview/dimension reference-of-thought that is non-transcendable as of our <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, when the insight of prospective transcendence implications as of deprocrypticism or preempting—disjointedness-as-of-reference-of-thought avails, and so as the conflatedness upholding prospective coherence/contiguity of ontology's-directedness-as-Being. This further explains why there is need for corresponding Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology with respect to human technical development, and as with prior technologies future technologies will necessarily imply renewed human self-consciousness which is not by itself a given and needs to be 'thought through and effectively conceptualised' with respect to the future implications of human development, nuclear weapons knowledge, electronic communication, artificial intelligence, etc. as 'intemporal ontological-faith-notion-or-ontological-fideism—imbued-

underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity' is subject to epistemic-decadence as of beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>. Such 'ontological statistical-exception' of intemporality/longness as of ontology's-directedness-as-Being permeates all existential processes including life itself. This explains why the dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation mental-disposition behind the 'inventing' of prior institutionalisation as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality construed as prior ontology's-directedness-as-Being is necessarily the requisite mental-disposition for the 'inventing' of prospective institutionalisation as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality construed as prospective ontology's-directedness-as-Being; and so, overcoming temporal/shortness-of-register-of-meaningfulness-and-teleology on <~~amplituding~~/formative>wooden-language-(imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology) as of uninstitutionalised-threshold failing intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Ultimately, phenomenology is all about grasping the conflatedness of ontology's-directedness-as-Being. Furthermore, just as a transcendental-enabling/sublimating biological science in relative ontological-contiguity of reference-of-

thought will dissociate modern day heredity DNA genetics as of its theoretical, conceptual, methodological, operant and applicative implications from say 19th century Mendelian heredity however its inherent merits, and will not naively purport to analyse the former on the grounds of the latter which as axiomatic-construct is in relative notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised~preconverging/dementing–qualia-schema> on the basis of a naïve conceptual patterning implied as of the common term 'heredity'; this author likewise is very much critical and averse to such conceptual patterning mental-reflexes imbued in traditional non-transcendental philosophical and knowledge analysis all too ready to construe and articulate meaningfulness-and-teleology in sophistic/pedantic conceptual patterning terms overlooking transcendental-enabling/sublimating implications, and failing to fathom that conceptual patterning is no substitute for transcendental-enabling/sublimating work required for all knowledge notwithstanding setbacks and failures that may be involved, given the reality that human meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology> arises as an exercise of human limited-mentation-capacity-deepening-⟨<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ as of relatively profound and complete axiomatic-constructs/reference-of-thought in ontological-contiguity of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<~~amplituding~~/formative>epistemic-totalising~purview-of-construal' or <~~amplituding~~/formative>epistemic-totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality! Consider for instance criticisms often levied against post-structuralism and specifically Derridean deconstruction as simply convoluted expressions of familiar and trite ideas. But then the effective transcendental-enabling/sublimating insight as of their applications arising in the social sciences and literal

studies clearly demonstrate otherwise. Further many such critiques have tended to be naïve about what passes for theory whereby naïve conceptual patterning of general knowledge are articulated devoid of 'new theory', with little or no transcendental-enabling/sublimating implications, which in reality is nothing more than a sophistry of argument from authority. This conception of relatively profound and complete axiomatic-constructs/reference-of-thought in ontological-contiguity can equally be demonstrated in graphical terms as a problem 'not along the curve created-by-human-limited-mentation-capacity' in relative notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised~preconverging/dementing–qualia-schema> of axiomatic-construct but rather a problem arising as of the need for 'a change of the curve to-be-created-by-deepening-human-limited-mentation-capacity' in relative ontological-contiguity of axiomatic-construct for grander human meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology>, as of the very same <~~amplituding~~/formative>epistemic-totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality.   The <~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought involves taking cue from existence/existential-contextualising-contiguity/contexts as of existential-instantiations imbricatedness/threadedness/recomposuring in a maximalising-recomposuring-for-relative-ontological-completeness exercise as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality; wherein say with a demand curve, the insight as of human limited-mentation-capacity-deepening-(<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) of a significant rise in consumers' salaries implies that everything else being equal the demand curve-axiomatic-construct will shift to the right as of relative ontological-contiguity. The notion of axiomatic-construct in

ontological-contiguity arises out of its existential completeness and profoundness, for instance the axiomatic-construct in ontological-contiguity as concept of a bicycle arises by the completeness and profoundness of the bicycle in its existential wholeness of functionality and contents as its ontological-contiguity. Ontological-contiguity rather highlights relative perspectives as of ontological-normalcy/postconvergence depths of axiomatic-construct/reference-of-thought of construal; which for instance renders the idea of general relativity in relative ontological-contiguity and newtonian physics in relative notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised~preconverging/dementing–qualia-schema> rather as uncorrelated, whereas a notion of 'continuity of ontology' as is implied by 'ontological-continuity as of relative ontological-continuity and relative notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised~preconverging/dementing–qualia-schema>' will seem to imply correlatedness by the very nature of the term continuity. Ultimately, the overall analysis above points out that this is not an inherent ontological-as-of-the-full-potency-of-existence problem but rather a problem of human-subpotency as of its limited-mentation-capacity that is resolvable by the deepening of human limited-mentation-capacity as of ontological-dementation/dialectical-dementation–stranding/attributive-dialectics with respect to reference-of-thought; as contrary to the 'Derridean différance decentering' freeplay that is entrapped in circularity of meaningfulness-and-teleology on the wrong implied assumption of the same perpetual horizon as registry-worldview/dimension reference-of-thought so-implied as of our positivism mental-disposition, a 'futural différance' recognises that human limited-mentation-capacity transcendence brings about prospective relative-ontological-completeness-of-reference-of-thought, and thus it centers-as-postconverging-or-dialectical-thinking–apriorising-psychologism the prospective institutionalisation's reference-of-thought-as-of-'reference-of-thought—devolving-teleological-structure-of-meaningfulness' as of its prospective relative-ontological-

But then this highlights six issues with respect to meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology> with regards to such implicited-and-explicited reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue. Firstly, this has to do with the successive institutionalisations reference-of-thought—devolving-teleological-structure-of-meaningfulness prospective relative-ontological-completeness-of-reference-of-thought due to human limited-mentation-capacity of projection-or-anticipation in grasping the 'inherent centered–epistemic-totalisation-as-existence'. Secondly, even within each of the successive given institutionalisations as of their given underlying specific rules there is a variance of meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology> among human individuations-as-mental-dispositions-manifested-by-individuals,-with-the-individual-construed-as-the-existential-receptacle-of-temporal-to-intemporal-possibilities-of-individuations as of intemporal/longness-of-register-of-meaningfulness-and-teleology individuation that notionally upholds the given institutionalisation's reference-of-thought–categorical-imperatives/axioms/registry-teleology and as of temporality/shortness individuations that in its relative '<~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag' as of beyond-the-

Thirdly, there is thus beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> temporal individuations denaturing dynamics relations to the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue, arising as of the conjugation of postlogism-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of reference-of-thought-devolving ontological-performance-<including-virtue-as-ontology>s. Fourthly cross-generationally, the intemporal/longness-of-register-of-meaningfulness-and-teleology individuation as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality reconceptualises of a transcending elevated-devolving-as-of-prospective-institutionalisation of implicit-and-

Fifthly, the implications of such transcendental centered–epistemic-totalisation with regards to the 'certainty of meaningfulness-and-teleology as of sound ontological-performance-<including-virtue-as-ontology>' rather lies with such meaningfulness-and-teleology as being so-construed notionally as of a given institutionalisation's reference-of-thought 'reference-of-thought—devolving-teleological-structure-of-meaningfulness' transcendental-enabling/sublimating rules on the basis of social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩, and so as of its implied prospective relative-ontological-completeness-of-reference-of-thought: wherein, – non-rules—

For instance, the successive registry-worldviews/dimensions institutionalisations conceptualisation of meaningfulness-and-teleology have arisen as secondnatured constructs that have substituted for their uninstitutionalised-threshold free-for-all <amplituding/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ framework, such that many a subject matter domain like the heavens, forces of nature, material nature, social laws, etc. are now effectively construed socially as of institutional and formal deferential-formalisation-transference as abstract intemporal/ontological-driven conceptualisation as of respectively formal religion, formal science, legal system, etc. voiding free-for-all construals as of temporal social-aggregation-enabling teleological dispositions as of respectively animistic dispositions, alchemic and essences-driven explanation of nature, crude mob justice, etc. Insightfully, as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-

dispositions–existentialism-form-factor, anthropologists are very much aware that the social diffusion of new transcendental-enabling/sublimating practices into a given society are more likely to be adopted as of the society's institutional and formal percolation-channelling framework than as of an dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation 'direct convincing' at individuals-level underlying deferring to institutional and formal meaningfulness-and-teleology as of the need for profoundness and rigour that doesn't avail in ordinary thought for transcendence. Likewise, on occasion in the face of prior institutionalisation established and perceived vested interest such intemporal-as-ontological meaningfulness-and-teleology could be ontologically undermined as of institutionalised-being-and-craft. Consider in this regard Establishment efforts undermining the Diderot-led Encyclopédistes project. Furthermore, every registry-worldview/dimension relates to its value construct as of its prior relative-ontological-incompleteness-of-reference-of-thought constitutedness as more or less absolute, and doesn't factor in that its prior relative-ontological-incompleteness-of-reference-of-thought is a structural/paradigmatic deficiency inducing the <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of its value construct. But then prospective institutionalisation necessarily implies a notion of prospective value construct as of its prospective relative-ontological-completeness-of-reference-of-thought conflatedness which will be unintelligible to the prior value construct, such that it is only a sense of intemporal consummation that drives transcendental dispositions as it is paradoxical to expect that what is in need for transcendence acts as transcended, as transcendence is inevitably and so across all registry-worldviews/dimensions a state of paradoxical conflictedness as more profoundly involving a cross-generational meaningfulness-and-teleology psychoanalytic-unshackling than a grounding conceptualisation! Furthermore, both the prior

institutionalisation value construct and the prospective institutionalisation value construct are their respectively given centered–epistemic-totalisation-facticity of meaningfulness-and-teleology, with transcendence conflictedly implying overriding the prior institutionalisation's centered–epistemic-totalisation-facticity for the prospective institutionalisation's centered–epistemic-totalisation-facticity. But then ontological-contiguity—of-the-human-institutionalisation-process is an empirical fact, and thus the resolution of this transcendence paradox is rather reflected by the dynamics of human positive-opportunism as of human <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩ avails with respect to social-stake-contention-or-confliction, wherein while in the immediate-and-short-term human 'self-referencing' will seem to imply that it is almost impossible to transcend from a given social conventioning centered–epistemic-totalisation facticity but cross-generationally human 're-conventioning whether driven by a sense of pure-ontology as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality or otherwise with say cultural-diffusion', as 'syncretising-effecting' on meaningfulness-and-teleology with respect to social-stake-contention-or-confliction induces human transcendence. Consider in this regard historical transcendence elicited by cultural diffusion whether with respect to trading or invasion or voyages of exploration. The fact is a social-setup is structurally/paradigmatically a framework where individuals are naturally involved in a dynamic relationship of perceived social-stake-contention-or-confliction striving to draw in various ways the optimum as of perceived existential possibilities, and thus individuals and social groups are not in an absolutely given/set self-referencing centered–epistemic-totalisation-facticity of

meaningfulness-and-teleology within their social-setup and are predisposed on critical occasions as of syncretising-effecting to 'reinvent', circumvent or adapt as to what they perceive as optimum existential possibilities, such that a social-setup is already involved internally however restricted in its very own reinvention/circumventing/adaptation as of its very own internal 'self-referencing and syncretising-effecting construed as ~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising' of meaningfulness-and-teleology with regards to perceived social-stake-contention-or-confliction; and it is this element that enables all human societies to have a minimal opening/overture/receptivity to each other, including at the very extreme between an industrial age society and a hunter-gatherer society. Without such a structural/paradigmatic 'self-referencing and syncretising-effecting construed as ~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag human nature', both internal social transformation however lethargic and cultural diffusion will be basically impossible, and ~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag induced transformation arises because human perceived social-stake-contention-or-confliction drifts within-and-across social-setups whether with regards to basic trading, curiosity, social competition and generally as of a predisposition to achieve optimum existential possibilities. In this regard, the rapid transformation implications of cultural diffusion arise because it makes relatively immediately available to individuals and social groups a comprehensive set of options however limited the nature and speed of their adoption. This syncretising-effecting mechanism ultimately explains why cross-generational transcendence occurs notwithstanding a seemingly self-referencing centered–epistemic-totalisation-facticity of meaningfulness-and-teleology within a given social-setup in the immediate-and-short-term. Transcendence as of prospective relative-ontological-completeness-of-reference-of-thought occurs because

structurally/paradigmatically it is social-dispositions and mental-dispositions of intemporal-as-ontological nature as of longness-of-register-of-meaningfulness-and-teleology given their supposedly coherent ontological-commitment as of more profound ontological-primemovers-totalitative-framework validation as of existence-potency-prospective-digression-of—⟨amplituding/formative⟩epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness, as re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-⟨imbued-postconverging/dialectical-thinking-'projective-insights'/'epistemic-projection-in-conflatedness'-of-notional~deprocrypticism-prospective-sublimation⟩, that are most likely to be syncretised cross-generationally as providing the most overall positive-opportunism by their relative universal projection implications and are formally-and-overtly assumed, and so over temporal-as-ontologically-flawed social-dispositions and mental-dispositions which are more or less formally-and-overtly unassumed as of their temporal denaturing nature or poor universal projection. However, such a conception of supposedly coherent ontological-commitment is not actively contemplated socially but occurs latently and passively with any given registry-worldview's/dimension's institutionalisation meaningfulness-and-teleology as its inherent social-dispositions and mental-dispositions are rather as of beyond-the-consciousness-awareness-teleology-⟨in-existential-extrication-as-of-existential-unthought⟩ with regards to such transcendental implications! Despite the fact that all social-setups tend to be surreptitiously permeated with individuals temporal/shortness-of-register-of-meaningfulness-and-teleology social-dispositions and mental-dispositions of suboptimal ontological implications for social-functioning-and-accordance—as-of-social-stake-contention-or-confliction, every social-setup as a conventional-construct can only be held together in the long-term as of its requisite given registry-worldview's/dimension's institutionalisation-level of minimally-expected basic conscious-adherence-at-best or token-adherence-at-worst to the said institutionalisation-

level's reference-of-thought–categorical-imperatives/axioms/registry-teleology with regards to meeting a basic level of individuals and social existential-possibilities expectations. It may thus seem from within just one human generation perspective that the underlying human metaphoricity for transcendence is rather marginal especially when not associated with any external cultural diffusion. However, human metaphoricity as of cultural transformation had tended historically, in the main, to ebb in peaks and lows, and so as of the relative universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩ about such metaphoricity instigative reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation direct, indirect and/or devolving implications. The fact that individuals in a social-setup are already involved internally however restricted in its very own reinvention/circumventing/adaptation in a dynamic relationship of perceived social-stake-contention-or-confliction striving to draw in various ways the optimum as of perceived existential possibilities and is thus of a minimal opening/overture/receptivity to internal and external metaphoricity, also critically speaks to the fact that any social-setup is only able to hold together because of supposedly coherent ontological-commitment that is subject to existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness validatory ontological-primemovers-totalitative-framework. As of its circularity, the lack or poorer cause-and-effect determinism of any such supposedly coherent ontological-commitment threshold of a social-setup meaningfulness-and-teleology' allows for the possibility for prospective metaphoricity to reconstrue-and-redefine the social-setup meaningfulness-and-teleology. Such prospective metaphoricity possibility cannot be preempted because even the social-setup conventioning in its functional operation of meaningfulness-and-teleology needs this supposedly coherent ontological-commitment in

other to affirm itself over any spontaneously arising disruptive meaningfulness-and-teleology that may be articulated by individuals or groups, with the result that a social-setup ever always exposes itself to prospective metaphoricity in one way or the other when such spontaneously arising disruptive meaningfulness-and-teleology is not of poorer but rather of a superseding ontological-primemovers-totalitative-framework ~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity as of the social-setup given supposedly coherent ontological-commitment. We can consider in this regard that an animistic non-positivistic or medieval non-positivistic social-setup will certainly imply a supposedly coherent ontological-commitment respectively as of superstitious spiritualism meaningfulness-and-teleology or scholasticism pedantic dogmatism meaningfulness-and-teleology, as of the given social-setup 'self-assuredness-of-authenticity with respect to its social-stake-contention-or-confliction' in its capacity to demonstrably and objectively uphold and function going by its specific registry-worldview/dimension as of superstitious spiritualism or scholasticism pedantic dogmatism. It is exactly this 'self-assuredness-of-authenticity with respect to its social-stake-contention-or-confliction' that equally makes available the possibility for prospective metaphoricity to demonstrably undermine the implied supposedly coherent ontological-commitment of such prior social-setups registry-worldview/dimension meaningfulness-and-teleology, and so as of the prospectively induced ontological-primemovers-totalitative-framework superseding meaningfulness-and-teleology as from existence-potency-prospective-digression-of ~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness epistemic/notional~projective-perspective of relative-ontological-completeness-of-reference-of-thought by way of ontological-primemovers-totalitative-framework such as with prospective positivism/rational-empiricism meaningfulness-and-teleology. However, given

the inherence of social-stake-contention-or-confliction, inevitably prospective metaphoricity undermines vested interests as of the direct, indirect and/or devolving implications of prospective metaphoricity and by that token elicit sophistic/pedantic inclinations to such prospective metaphoricity meaningfulness-and-teleology. Further any such prospective metaphoricity ultimately takes hold rather as of within the social deferential-formalisation-transference framework wherein it is driven by a sense of positive-opportunism as of particular and general social interest. That said, a social-setup is ever always 'existentially invested' to a given registry-worldview/dimension and the fact of greater existential-contextualising-contiguity knowledge-reification from prospective metaphoricity which may involve undermining such 'existentially invested' registry-worldview/dimension in its <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ means that it doesn't necessarily construe such prospective metaphoricity as pertinent and so where it is nihilistically disinclined by its <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag to dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming-'notionally-collateralising-protohumanity'-to-'attain-sublimating-humanity',-as-to-existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness to supersede human temporality/shortness <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩), as of its beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-

existential-unthought> manifestation. The abstract notion of antinihilism as implied by such prospective metaphoricity is not construed in human temporal terms–as-of-axiomatic-construct as a 'living notion' going by an epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag elicitation of value as of untransvaluated–temporal-intemporality. In this regard, as of the temporal 'mental and existential investment' of recurrent-utter-uninstitutionalisation prospective base-institutionalisation antinihilism meaningfulness-and-teleology is basically nothing and worthless, likewise as of the temporal 'mental and existential investment' of base-institutionalisation–ununiversalisation prospective universalisation antinihilism meaningfulness-and-teleology is basically nothing and worthless, same with universalisation–non-positivism/medievalism and prospective positivism, and equally so for positivism–procrypticism and futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism. Explaining in many ways why the elicitation of value as of prospective secondnatured institutionalisation rather occurs as of the superseding of <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag untransvaluated–temporal-intemporality. Ultimately, prospective metaphoricity in a reflection of the individual-as-receptable-of-temporal-to-intemporal-individuations realistically implies that it is rather fundamentally a question of grasping the mechanism that tips the balance towards human intemporality/longness and subsequent prospective institutionalisation which is ontologically sufficient for prospective ontological-effectiveness, rather than a naïve engagement as if the human is all-essentially intemporal-as-of-an-absolute-ontological-commitment-disposition. More critically, such a conception of prospective metaphoricity cognisant of the decisiveness of deferential-formalisation-transference for institutionalisation and thus subsequent social percolation-channelling, come to grasp that sophistic/pedantic

predispositions are the more salient entrenched interests beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> with respect to prospective metaphoricity as of the implications of such undermining of social deferential-formalisation-transference. In this regard, the sophistic/pedantic barriers to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism metaphoricity implications are necessarily spurious and associated with our positivism–procrypticism institutional-being-and-craft as of the direct, indirect and/or devolving prospective metaphoricity implications. We can appreciate in this regard that for the medieval-scholasticism-pedants—ideal-type-or-individuation, it doesn't matter that budding positivism can be demonstrated as more ontologically pertinent as of ontological-primemovers-totalitative-framework, so long as it is socially and institutionally credible to uphold non-positivism meaningfulness-and-teleology in effect by undermining its deferential-formalisation-transference. It is with regards to such sophistic/pedantic disinclination to prospective metaphoricity that the latter elicits contortioning gesturing, wherein for instance Socrates with respect to the sophists—ideal-type-or-individuation (as we can appreciate that however say a Protagoras engagement with Socrates may project coherence as of his contextual appreciation of Socrates predisposition for coherence, this doesn't exclude the possibility of a 'floating sophistic' inclination that simply adjusts to its interlocutor thus undermining in the bigger picture the notion of knowledge as of universal coherence idealisation, or still maybe Protagoras is just at the lower end of the sophists—ideal-type-or-individuation) and budding positivists with respect to medieval-scholasticism-pedants—ideal-type-or-individuation (as we can appreciate that the recognition and then censure and then banning of Copernicus's heliocentric world work or engagement with Galileo's support of heliocentrism then his persecution for publishing, rather speaks paradigmatically of the

covert/underhanded nature of the medieval establishment pedantic disposition as of the implications of ideas undermining medieval dogma as of social-stake-contention-or-confliction) construe of such sophistic/pedantic disinclination as implying notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised~preconverging/dementing–qualia-schema> with their prospectively implied metaphoricity; with the consequence that there can't be common/mutual aposteriorising/logicising/deriving/intelligising/measuring as of dialogical-equivalence and intellectual-and-moral-equivalence and inherently so because of the sophists—ideal-type-or-individuation and medieval-scholasticism-pedants—ideal-type-or-individuation inauthentic/unsound apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of respectively non-universalising and non-positivism/medievalism dogma prior relative-ontological-incompleteness-of-reference-of-thought warranting their unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitablemeasuringinstrument-invalidating-measuring-<preconverging-or-dementing–apriorising-psychologism> for the affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-validating-measuring-<postconverging-or-dialectical-thinking–apriorising-psychologism> of prospective Socratic philosophers universalising-idealisation and prospective positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument meaningfulness-and-teleology respectively. This arises because fundamentally as of notional~correspondence with existence, a registry-worldview's/dimension's institutionalisation in prior relative-ontological-incompleteness-of-reference-of-thought meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology> is ultimately rather vouching of such a notional~correspondence with existence on the basis of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality as transcendentally-complementing at its uninstitutionalised-threshold the said human limited-mentation-capacity 'reference-of-thought—devolving-teleological-structure-of-meaningfulness as of implicited-and-explicited reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue' construed as institutionalisation, as the latter's reference-of-thought–categorical-imperatives/axioms/registry-teleology can be denaturing (beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>) as of their <~~amplituding~~/formative>wooden-language-⟨imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology⟩

by the various temporalities in threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism at its uninstitutionalised-threshold. This latter is only undermined driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality as of prospective human limited-mentation-capacity prospective relative-ontological-completeness-of-reference-of-thought 'reference-of-thought—devolving-teleological-structure-of-meaningfulness as of implicited-and-explicited reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue' construed as prospective institutionalisation, by its greater social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩. Again, the latter institutionalisation's meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology> is equally vouched by transcendentally-complementing ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality at its given uninstitutionalised-threshold, as its own reference-of-thought–categorical-imperatives/axioms/registry-teleology can also be denaturing as of beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> as of their <~~amplituding~~/formative>wooden-language-⟨imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology⟩. The overall implication here as implied by historiality/ontological-eventfulness/ontological-

aesthetic-tracing is that only a contextual ontologically contiguous transitioning construal of meaningfulness-and-teleology as reflected as of the conflatedness of notional~deprocrypticism can reveal-the-ontological-veridicality of such inherent systemic beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> perversion-and-derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> associated with every institutionalisation in prior relative-ontological-incompleteness-of-reference-of-thought since it ultimately depends on ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality to transcendentally-complement its reference-of-thought–categorical-imperatives/axioms/registry-teleology at its uninstitutionalised-threshold for upholding intemporality-as-of-ontology that reflects the 'inherent centered–epistemic-totalisation-as-existence'. Hence the deprocrypticism registry-worldview/dimension institutionalisation as notionally construed as in full fulfilment of transcendentally-complementing ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality, as of human ontological-dementation/dialectical-dementation–stranding/attributive-dialectics contextual ontologically contiguous transitioning construal of meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology> that anticipates and accounts for human inherent intemporality/longness and temporality, purports to avoid wrong elevation of temporality/shortness in threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism and wrong degradation of intemporality/longness in supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism implied reference-of-thought—elevated-devolving-as-of-prospective-institutionalisation, given the

inherently confounding ontological-veridicality of human potent beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>.   Broadly speaking thus, the <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity of prospective relative-ontological-completeness-of-reference-of-thought as of human temporal-to-intemporal mental-dispositions in social-stake-contention-or-confliction implies that it is naïve to conceive of a 'neuter framework of reference-of-thought putting the temporal-to-intemporal-dispositions as of the same axiomatic teleological projection' as in effect as of conflatedness this simply wrongly elevates temporal/shortness-of-register-of-meaningfulness-and-teleology mental-dispositions   teleologically-degraded-devolving-as-of-uninstitutionalised-threshold   and wrongly   degrades   the   intemporal/longness-of-register-of-meaningfulness-and-teleology mental-disposition elevated-devolving-as-of-prospective-institutionalisation; as the former is in   reality   denaturing   of   reference-of-thought–categorical-imperatives/axioms/registry-teleology   beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> while the latter is upholding reference-of-thought–categorical-imperatives/axioms/registry-teleology for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Actually such an ordinary mental-reflex of a 'neuter framework of reference-of-thought putting the temporal-to-intemporal-dispositions as of the same axiomatic teleological projection' when it comes to social-stake-confliction-or-contention is only valid as of 'mutual conceptualisation as of a given institutionalisation with a common ontological-reference-of-thought' wherein it is then strictly a matter of logical-processing-or-logical-implicitation––supposedly-apriorising-in-conviction-as-to-profound-supererogation in determining ontological-veracity. But then at such a registry-worldview's/dimension's institutionalisation's uninstitutionalised-threshold, there is a relative variance of ontological-completeness-of-reference-of-thought   as   of   the   prospective   relative-ontological-

completeness-of-reference-of-thought in intemporality/longness entailing the prospective institutionalisation and the prior relative-ontological-incompleteness-of-reference-of-thought in temporality/shortness entailing the uninstitutionalised-threshold; thus implying a relative variance in such intemporal and temporal teleological projection respectively as of elevated-devolving-as-of-prospective-institutionalisation and teleologically-degraded-devolving-as-of-uninstitutionalised-threshold in determining ontological-veracity. In this sense we can garner that it is inappropriate to imply a 'neuter framework of reference-of-thought putting the temporal-to-intemporal-dispositions as of the same axiomatic teleological projection' and so, as of an uninstitutionalised-threshold and the prospective institutionalisation; given the variance of temporality/shortness rather as respectively in recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism-or-medievalism, and prospectively procrypticism/disjointedness-as-of-reference-of-thought with intemporality/longness rather as respectively in base-institutionalisation, universalisation, positivm and prospectively deprocrypticism or preempting—disjointedness-as-of-reference-of-thought. The bigger point here being that the very notion of transcendence as of conflatedness actually construes of more profound reference-of-thought–categorical-imperatives/axioms/registry-teleology that override the prior reference-of-thought–categorical-imperatives/axioms/registry-teleology as failing to uphold intemporal-preservation-entropy-or-contiguity–or–ontological-preservation', and so as of differing references-of-thought in transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing ontological unintelligibility. Neuterisation of analysis as so articulated is effectively a deficient human mental-reflex as of its naïve predisposition to imply 'equivalence of consideration' without factoring prospective relative-ontological-completeness-of-reference-of-thought <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity of differentiated axiomatic/reference-of-thought

teleological projection as of temporal teleologically-degraded-devolving-as-of-uninstitutionalised-threshold and intemporal elevated-devolving-as-of-prospective-institutionalisation. The fact of temporal-to-intemporal variance of prospective relative-ontological-completeness-of-reference-of-thought ultimately reflects the fact that the apparent ordinarily assumed 'axiomatic commonness-in-sharedness of human meaningfulness-and-teleology with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<~~amplituding~~/formative>epistemic-totalising~purview-of-construal'' is in effect 'only valid as of within a registry-worldview's/dimension's institutionalisation framework', and so as of its implied 'reference-of-thought—devolving-teleological-structure-of-meaningfulness as of implicited-and-explicited reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue'. This articulated delimitation of 'axiomatic commonness-in-sharedness of human meaningfulness-and-teleology with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<~~amplituding~~/formative>epistemic-totalising~purview-of-construal'' within only a registry-worldview's/dimension's institutionalisation framework as of reference-of-thought is critical for an ontologically-complete profoundness/depth of 'phenomenological departure in-its-overcoming-of-neuterisation' reflected by metaphysics-of-absence as the 'requisite conflatedness of understanding', necessarily entailing transcendental implications for ontologically-veridical knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue; as we can appreciate the inherent reality that there isn't 'axiomatic commonness-in-sharedness of human meaningfulness-and-teleology with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-

veridicality,-as-to-'human~~amplituding~~/formative>epistemic-totalising~purview-of-construal'' between recurrent-utter-uninstitutionalisation and base-institutionalisation–ununiversalisation, between base-institutionalisation–ununiversalisation and universalisation–non-positivism/medievalism, between universalisation–non-positivism/medievalism and positivism–procrypticism, and prospectively between positivism–procrypticism and deprocrypticism! In this case such overcoming of neuterisation with reference to the variance of successive registry-worldviews/dimensions is rather conceived as deneuterising as of the variance in prospective relative-ontological-completeness-of-meaningfulness-and-teleology disambiguation of uninstitutionalised-threshold and prospective institutionalisation, and so reflected as of historiality/ontological-eventfulness/ontological-aesthetic-tracing as of the conflatedness of notional~deprocrypticism wherein the uninstitutionalised-threshold reference-of-thought is in relative notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised~preconverging/dementing–qualia-schema> to the prospective institutionalisation reference-of-thought in relative ontological-contiguity as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human~~amplituding~~/formative>epistemic-totalising~purview-of-construal'; imply a disambiguation as of mutual unintelligibility of prospective institutionalisation's reference-of-thought soundness-or-authenticity and the uninstitutionalised-threshold's reference-of-thought unsoundness-or-inauthenticity. Deneuterising, from a storied-construct/ontologically-valid-narration perception perspective insight, highlights a temporal mental-disposition uninstitutionalised-threshold issue' as of beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> involving human temporal limited-mentation-capacity at its uninstitutionalised-threshold wherein the reference-of-thought as temporal-mental-disposition-is-actually-of ~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag-in-an-'apparently-elevated'-

Such a deneuterising binarity of storied ontologically-flawed <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag-temporal-mental-dispositions and storied background of ontologically-veridical-inherent-superseding-existential-reality-unattached-to-such-temporal-mental-dispositions portrays how a storied-construct/ontologically-valid-narration can be articulated as of beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> 'emphasising exclusively that it is the construal of human temporality-to-intemporality limited-mentation-capacity transversal-and-cumulative-implications' that accounts for ontologically-veridical human character-and-social-formation-dynamics as of both uninstitutionalised-threshold representation and prospective-institutionalisation representation. Such a storied-construct/ontologically-valid-narration is ultimately articulated rather as of the implications of the failing to uphold Being as of the temporal-to-intemporal transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing of human limited-mentation-capacity in temporal constitutedness mental-reflexes at presence reference-of-thought, and so reflected by the implied intemporal conflatedness of phenomenological transcendence as of notional~deprocrypticism. We can appreciate the metaphysics-of-absence insight about such a deneuterising storied-construct/ontologically-valid-narration from the fact that a non-positivism/medievalism or animistic social-setup is 'not committed in a <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag' to positivistic/rational-empiricism meaningfulness-and-teleology with regards to occurrences and incidents best explained and dealt with by such positivistic meaningfulness as of the latter's prospective relative-

ontological-completeness-of-reference-of-thought. As such non-positivism/medievalism or animistic social-setup 'will not be self-effacing as of its ontologically-flawed <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag-temporal-mental-dispositions as-if-always-in-a-state-of-institutionalisation, failing to psychoanalytically project about its uninstitutionalised-threshold of non-positivism and the prospective institutionalisation of positivism'. This equally explains how our positivism–procrypticism mental-disposition is construed in deneuterising from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism perspective 'as not self-effacing as of its ontologically-flawed <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag-temporal-mental-dispositions as-if-always-in-a-state-of-institutionalisation, failing to psychoanalytically project about the uninstitutionalised-threshold of its procrypticism/disjointedness-as-of-reference-of-thought and the prospective institutionalisation of deprocrypticism'. This is actually the ontologically-veridical phenomenological transcendental framework for construing/conceptualising human temporal character and social formation mental-dispositions as of uninstitutionalised-threshold and prospective-institutionalisation based on the dynamics of limited-mentation-capacity, unlike a naïve neuterising mental-reflex that by its <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag fails to attain such a conflatedness as of notional~deprocrypticism deneuterising insight. Central and critical to achieving such a deneuterising analysis in grasping the full and complete possibilities of ontologically-veridical construal of human meaningfulness-and-teleology given human temporal-to-intemporal mental-dispositions as of prospective institutionalisation and uninstitutionalised-

threshold is the notion of beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>. It is exactly what renders a veridical ontological-escalation or aetiologisation of the human condition possible as the historiality/ontological-eventfulness/ontological-aesthetic-tracing of conflatedness as of notional~deprocrypticism. It is most critical because at any registry-worldview/dimension, human self-consciousness is a <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag mental-reflex as of being-only-in-institutionalisation-and-hence-only-of-a-meaningfulness-and-teleology-that-is-intemporal while defectively ignoring-and-undermining the veridicality of uninstitutionalised-threshold-and-its-assorted-and-conjugated-temporal-meaningfulness-and-teleology such that transcendence is always perceived as unnatural when <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, in the sense that 'it-is-others,-as-of-the-prior-registry-worldviews/dimensions,-that-have-an-uninstitutionalised-threshold-and-the-notion-of-transcendence-is-only-relevant-to-them-as-the-current-presence-is-normal'. The implications of such human <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag mental-reflex as it overlooks human uninstitutionalised-threshold points to the reality that the implied prior institutionalisation 'projected reflex of entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism for meaningfulness-and-teleology' while a social psychological reference is actually not ontologically-veridical as of human practical reality given lack of social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩. Such that with regards to social-stake-contention-or-confliction

In practicality such human temporal mental-dispositions involve 'rationalising threads of part-conviction-as-to-profound-supererogation–or–part–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation perception-and-relation to meaningfulness-and-teleology' as of social-stake-contention-or-confliction social-functioning-and-accordance temporal constraints of postlogism-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of reference-of-thought-devolving ontological-performance-<including-virtue-as-ontology>s, and so as of beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> reflecting uninstitutionalised-threshold Being undervelopment; wherein with specific regards to a postlogism-slantedness/psychologism mental-disposition and less and less so as of temporal exacerbation/opportunism/affordability, such instigated part-conviction-as-to-profound-supererogation is rather as of a relevant generalised social projection as '<~~amplituding~~/formative>wooden-language-(imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology) of veridical supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism' in relevant social engagement not perceived as of critical social-stake-contention-or-confliction as providing a

'supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism credibility backdrop' for subsequent targeted threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism mental-disposition in relation to specific social engagements perceived as of critical social-stake-contention-or-confliction. Effectively, such part-conviction-as-to-profound-supererogation–or–part–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation with respect to pertinently-perceived social-stake-contention-or-confliction contexts arises due to (beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>) constraint of human limited-mentation-capacity as of prospective human aporeticism such that this induces as of various existential-instantiations 'ontologically-flawed meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology>', subpar to ontologically-veridical meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology> as fundamentally underscored by the prospective institutionalisation. Thus this determines a consequential 'dynamic beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> limited-mentation-capacity constraint' as reflected from a 'notional~deprocrypticism-referentialism-as-of-its-nonascriptivity backdrop-for-the-ontologically-veridical-construing' of 'temporal-to-intemporal individuations meaningfulness-and-teleology and actions of individuals and the collective-social as of their varying-existential-instantiations-mental-dispositions-ontological-performance-<including-virtue-as-ontology> or their characterisations-as-of-varying-existential-instantiations', as fundamentally underscored by the implied uninstitutionalised-threshold reference-of-thought, wherein such temporal thresholding neuterisation with regards to ontologically-veridical meaningfulness-and-teleology reflects Being-underdevelopment; and so from the 'deepest phenomenological

transcendental-point-of-departure handle as of the notional~conflatedness of notional~deprocrypticism deneuterising—referentialism' as of metaphysics-of-absence insight that ontology's-directedness-as-Being lies with Base-institutionalisation institutionalisation over Recurrent-utter-uninstitutionalisation uninstitutionalisation ~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, it lies with Universalisation institutionalisation over Base-institutionalisation–ununiversalisation uninstitutionalisation ~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, it lies with Positivism institutionalisation over Universalisation–non-positivism/medievalism uninstitutionalisation ~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, and it lies prospectively with Deprocrypticism institutionalisation over our Positivism–procrypticism ~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. This operantly defines procrypticism/disjointedness-as-of-reference-of-thought as beyond just the construal of new supposedly intemporal reference-of-thought–categorical-imperatives/axioms/registry-teleology of the prospective institutionalisation to preempt the temporally denaturing reference-of-thought–categorical-imperatives/axioms/registry-teleology of the prior institutionalisation, but rather the deneuterising construal of the very 'limited-mentation-capacity as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor as the beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> constraining dynamism' behind the denaturing of reference-of-thought–categorical-imperatives/axioms/registry-

teleology in the very first place; conceptualised henceforth as the very reference-of-thought–categorical-imperatives/axioms/registry-teleology for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of the Deprocrypticism registry-worldview/dimension institutionalisation as of its implied notional~deprocrypticism. Overall, the fact is that given that what is most relevant to the individual is the practicality as of their 'rationalising threads of part-conviction-as-to-profound-supererogation–or–part–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation perception-and-relation to meaningfulness-and-teleology' over just abstract universal propositions, when it comes to social-stake-contention-or-confliction social-functioning-and-accordance constraints such temporal part-conviction-as-to-profound-supererogation–or–part–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation mental-dispositions tend to be ultimately translated decisively onto issues of public repercussions like corruption, mismanagement, nepotism, etc. It is very much naïve to imagine that as of such uninstitutionalised-threshold as of Being/ontological-framework-expansion underdevelopment, individuals in positions of social-stake-contention-or-confliction with respect to upholding/failing probity will simply adhere, at the exclusion of engrained-habits-and-mental-dispositions, to mere propositions of probity rather than in the face of weak-institutional-constraints-and-penalties to perceive such universal propositions as mere linguistic appendages of relative practical insignificance. The notion of beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> is the effective and credible deneuterising enabling articulation that grasps such an ontologically flawed mental-reflex that recurrently permeates consciously and unconsciously human phenomenological mentation, as it 'credibly' grasps-and-accounts-for, without resorting to any neuterising, the full and complete possibilities of human mental-dispositions as of the exclusive dynamics of human limited-mentation-capacity across all registry-

worldviews/dimensions involving the conjugation of the intemporal/longness-of-register-of-meaningfulness-and-teleology individuation and temporal/shortness-of-register-of-meaningfulness-and-teleology individuations of postlogism-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of reference-of-thought-devolving ontological-performance-<including-virtue-as-ontology>s. Ultimately, the notion of beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> given its psychoanalytic-unshackling as of prospective deprocryticism transcendence, points to a self-consciousness that should rather come to terms with the reality of human limited-mentation-capacity dynamics as of temporal-to-intemporal mental-dispositions resolved beyond just the notion of reference-of-thought–categorical-imperatives/axioms/registry-teleology but rather their protraction as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality conflatedness of Being as implied as of deprocrypticism or preempting—disjointedness-as-of-reference-of-thought. The issue of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology or Being underdevelopment is associated with that of the construal of knowledge as organic-knowledge or mechanical-knowledge respectively; with the latter construed as of the 'mere effecting possibilities of knowledge' without a coherence/contiguity with the 'knowledge inventing' mental-disposition as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality behind the given knowledge, as implied with organic-knowledge. It is such a mechanical-knowledge as of 'temporal/shortness-of-register-of-meaningfulness-and-teleology mental-dispositions towards

the mere effecting possibilities of the knowledge' that induces the forgetting of Being construed as ontology's-directedness-as-Being, by undermining the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality upholding of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation that is behind organic-knowledge. Human ~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag temporal mental-dispositions as of beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> are all too ready to construe of the comprehensiveness of knowledge as mere effecting possibilities of knowledge at the given institutionalisation's uninstitutionalised-threshold in temporal/shortness-of-register-of-meaningfulness-and-teleology terms-as-of-axiomatic-construal as of the plainly implied opportunism with little consideration of the projective intemporal value dispositions behind the 'knowledge inventing' and its organic preservation. Thus the ontological-contiguity—of-the-human-institutionalisation-process arises exactly to ensure deferential-formalisation-transference secondnaturing of knowledge as of organic-knowledge comprehensiveness. The following is enlightening in this regard. (For what it takes to get a medieval as non-positivistic mindset/reference-of-thought into a positivistic mindset/reference-of-thought, that is, suppose for instance where in a medieval social-setup an accusation of witchcraft is demonstrated by an outsider from a positivistic social-setup to be incorrect and unsound to the approval of all in that social-setup, that outsider understanding fundamentally that the medieval setup by its relative-ontological-incompleteness-induced,-'threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism' is in a state of ~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of a medieval worldview will grasp that

that unique demonstration of medieval-postlogism/perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> (as accusation of witchcraft) is not to be construed naively as an adequate basis for a new logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation as 'prelogic supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism re-engaging mental-reflex' that re-engages with non-positivism/medievalism mindset/reference-of-thought, given the possibilities of further accusations of witchcrafts or by-and-large the vices-and-impediments potentially arising from such a non-positivism/medievalism worldview as of the 'local community dynamism of individual interests involved' that endemises and enculturates notions-and-accusations-of-sorcery. It is rather the cross-generational psychoanalytic-unshackling/memetic-reordering/institutional-recomposure transforming of the non-positivism/medievalism mindset/reference-of-thought into a positivistic mindset/reference-of-thought that is ontologically-speaking to be construed as the structural/paradigmatic resolution of the vices-and-impediments arising from a non-positivism/medievalism worldview with respect to such notions-and-accusations-of-sorcery. The same applies with respect to our positivism–procrypticism worldview and futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism worldview). We can appreciate such metaphysics-of-absence insight as of say in a situation of cultural diffusion the requirement that a recurrent-utter-uninstitutionalisation social-setup opportunistically grasping mere effecting possibilities of base-institutionalisation knowledge, as of relative convenience to individuals, are much more better off equally coming into terms institutionally with the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-

reality induced intemporality/longness behind the 'inventing of the base-institutionalisation culturally diffused knowledge' for an optimum accrual of the Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology of recurrent-utter-uninstitutionalisation; that is, based on base-institutionalisation's 'rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism' enabling the superseding of recurrent-utter-uninstitutionalisation vices-and-impediments as of its 'non-rules—apriorising/axiomatising/referencing–psychologism,-as-impulsive-or-accidented-or-random-mental-disposition'. Such conceptualisation extends to all registry-worldviews/dimensions prospective institutionalisation including our positivism–procrypticism prospective transcendental emancipation to deprocrypticism. Underlying Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology is the construal of knowledge in both its 'immediate, cause-and-effect and non-blurry practical and scientific knowledge' and the 'detached, contemplative and blurry human social-construct of knowledge'. In many ways as of human temporal/shortness-of-register-of-meaningfulness-and-teleology mental-reflex, the former is structurally/paradigmatically associated with relatively immediate-constraining ontological-primemovers-totalitative-framework that quickly portrays Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology by its mere relative disambiguation effectiveness of 'ontologically-veridical knowledge agents' over 'ontologically-flawed knowledge agents'. For instance as of the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality induced intemporal/longness-of-register-of-meaningfulness-and-teleology positivism/rational-empiricism mental-disposition behind the articulation of Newtonian

mechanics inducing its mere effecting possibilities of knowledge, the inherent possibilities of inventing things on this positivism/rational-empiricism knowledge intemporal value reference inherently undermines the pertinence of any other supposed knowledge value reference, like a mystical knowledge construal, of the very same physics <~~amplituding~~/formative>epistemic-totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, such that their inherent contrast disambiguates what is of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology from what is of Being underdevelopment. But then this 'immediate, cause-and-effect and non-blurry practical and scientific knowledge' is just one aspect of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as its mere effecting possibilities of knowledge however effective do not exist in a vacuum but rather within the 'detached, contemplative and blurry human social-construct of knowledge' which is the complementary background for Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology; as we can appreciate that despite the positivistic inclinations of the Copernicuses, the Galileos and the Newtons, the scientific advances that ultimately took hold arose because those budding scientists had a sense that the very 'detached, contemplative and blurry human social-construct of knowledge' background had to be superseded as of its scholasticism and mysticism underlying knowledge background for a positivism/rational-empiricism knowledge background to take hold as transcendental-enabling/sublimating not only to science but transcendental-enabling/sublimating as well to the open society equally required for the sound functioning of science. It is this dynamic relationship as of 'immediate, cause-and-effect and non-blurry practical and scientific knowledge' and 'detached, contemplative and blurry human social-construct of knowledge' that is behind Being-

development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology with respect to the prospective registry-worldview/dimension as resolving the vices-and-impediments of the prior registry-worldview/dimension. But then no matter the succession of institutionalisations as successive Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, there is an ever present issue of Being underdevelopment as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor wherein institutionalising reference-of-thought–categorical-imperatives/axioms/registry-teleology are always subject at uninstitutionalised-thresholds to their denaturing as of their <~~amplituding~~/formative>wooden-language-⟨imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology⟩, as of temporal failing to uphold intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Hence Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology given human limited-mentation-capacity is rather upheld by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality as of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation wherein the abstract intemporal/longness-of-register-of-meaningfulness-and-teleology behind the prior registry-worldview institutionalisation should equally be reflected as of prospective registry-worldview institutionalisation, and involving the requisite deferential-formalisation-transference secondnaturing of knowledge as organic-knowledge. We can appreciate the latter point in the sense that with the development of

various positivistic scientific and knowledge fields, the knowledge agents weren't naïve to imply that the 'normal social temporal-to-intemporal mental-dispositions as of <s>amplituding</s>/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩' are appropriate framework for engaging their subject-matter, as they rather promoted formal knowledge/scientific societies and adopted their specific jargons to ensure that the intemporal value reference mental-dispositions behind their respective 'knowledge inventing' was the institutional mental-disposition for engaging with the knowledge formally or as of secondnatured education practically available to everyone interested, and so while alienating and considering general social <s>amplituding</s>/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ as improper and unqualified. This was to avoid a circularity of <s>amplituding</s>/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ undermining of the intemporal-projection of their specific knowledge/science, as they contribute in overall Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. The point here is that at uninstitutionalised-thresholds the idea of 'equal opinionatedness' doesn't apply by the mere fact that knowledge of intrinsic-reality itself doesn't arise by <s>amplituding</s>/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ but

rather ontological-pertinence, and the point in reflecting the ontological-contiguity—of-the-human-institutionalisation-process as knowledge-led is to harness ontological-pertinence and not ⟨~~amplituding~~/formative⟩wooden-language-⟨imbued—averaging-of-thought-⟨as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications⟩⟩, thus explaining deferential-formalisation-transference as of institutional percolation-chanelling. This point is central and critical to the very notion of society-as-social-construct, as society is caught between the notion of sovereignty as-allowing-basic-level-of-universal-individual-and-collective-self-affirmation-striving-for-social-equality and the notion of knowledge as-of-selective-construal-of-social-value-and-institutional-hierarchisation-as-of-ontological-primemovers-totalitative-framework-overriding-social-equality-for-the-sake-of-individual-and-social-emancipation-as-of-efficient-ontological-performance-⟨including-virtue-as-ontology⟩-implications. The implication of this dilemma is the reality that society is always subpar to a knowledge social determination as well as subpar to a sovereignty social determination. This dilemma is unavoidable by the very implications of a society: every social-setup as a conventional-construct can only be held together in the long-term as of its requisite given registry-worldview's/dimension's institutionalisation-level of minimally-expected basic conscious-adherence-at-best or token-adherence-at-worst to the said institutionalisation-level's reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology with regards to meeting a basic level of individuals and social existential-possibilities expectations; such that the notions of knowledge and sovereignty can only be 'socially effective' within this articulated framework as enabled by 'social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-⟨~~amplituding~~/formative⟩epistemic-totalising–in-relative-ontological-completeness⟩'. This

articulation can be elucidated more explicitly in cases of cultural diffusion between societies of differing institutionalisation level as such cultural diffusion isn't by a simplistic institutionalisation knowledge-level transference, but involves a mutual sense of sovereign selectivity and recognition among the societies, however the drive for cultural diffusion; thus allowing for 'acculturating-indigenising-pidginising transitioning settings and their social constructions as of ~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising' prior to eventual prospective relative-ontological-completeness-of-reference-of-thought accommodation. This is equally the knowledge and sovereignty dynamics that prevails within any given society. Thus, knowledge can effectively and efficiently be pushed forward but rather through an exercise of increasing 'social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩' thus enabling 'intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism ~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity' associated with Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. However, all along this ontological-contiguity—of-the-human-institutionalisation-process a suboptimal relation between knowledge and sovereignty undermines Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of various pertinent social manifestations: – wherein sovereignty is affirm over knowledge as 'supposedly being knowledge' by a culture of mere social-aggregation-enabling of temporal-

to-intemporal hotchpotch opinionatedness, notwithstanding the underlying transcendental-enabling/sublimating in formal institutional deferential-formalisation-transference and percolation-channelling, with the result that beyond the underlying implied institutionalisation-level such a social-aggregation-enabling hotchpotching opinionatedness culture tends to critically and decisively inform individual and collective thought and action in a manner that is suboptimal to intemporality-as-ontology as of the manifestation of such a temporal-to-intemporal hotchpotching culture in the extended-informality that permeates even formal institutions; – wherein by exploiting of temporal mental-dispositions as of individuals and the collective-social sovereignty, knowledge is undermined by wrongly implying the pertinence of social-aggregation-enabling construed as 'exploitation of sovereignty'/mobbishness as of 'intellectual institutional-being-and-craft self-serving' in lieu of upholding institutionalisation, including the tendency to degrade knowledge conceptualisations into popular frameworks of knowledge appraisal thus subverting institutional deferential-formalisation-transference rigorous knowledge framework as of their transcendental-enabling/sublimating as to existence-potency-prospective-digression-of—~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness; – the ontologically-flawed articulation of knowledge by an intellectual disposition akin to ~~amplituding~~/formative>wooden-language-⟨imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology⟩,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology undermining knowledge as of its organic true nature implied by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality behind prior 'knowledge inventing' and prospective 'knowledge inventing', and so as of intellectual

institutional-being-and-craft; – ultimately the very paradox of human <s>amplituding</s>/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag means that the human sovereign psyche is one that is geared to construe of 'presence as all-encompassing meaningfulness-and-teleology value construct' such that the transcendental implications of knowledge by mental-reflex are construed as of incrementalism-in-relative-ontological-incompleteness to presence, rather than as of <s>amplituding</s>/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought of presence construed as of prospective relative ontological-contiguity over prior/transcended/superseded relative notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised~preconverging/dementing–qualia-schema>. However despite this knowledge and sovereignty dilemma associated with Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, the insight about human <s>amplituding</s>/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as of self-referencing and syncretising-effecting intemporal implications means that the requisite intemporal/longness-of-register-of-meaningfulness-and-teleology psychoanalytic-unshackling positive-opportunism can cross-generationally be induced for Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology despite the inherent circular distractiveness of temporality, and ultimately so as enabled by 'social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<s>amplituding</s>/formative>epistemic-totalising–in-relative-ontological-completeness⟩'. The above analysis point out that transcendental knowledge in particular involves more than just knowledge as a grounded construct but as well an understanding of how such knowledge is instigated in society as part and parcel of the knowledge construed as organic-knowledge; given that the social-construct-as-society is not

necessarily of immediate receptivity and is of a suboptimal disposition to such transcendental-enabling/sublimating implications that are not priorly as of grounded constructs of knowledge. This will explain why the mere articulation of positivism/rational-empiricism meaningfulness-and-teleology constructs of knowledge wasn't enough in undermining medieval mental-dispositions, and the persistent initiatives of the Copernicuses, Galileos, Rousseaux, Diderots, etc., were not vague actions but informed by an intuition about the nature of human society and how it develops given the inherently untransformable human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor as of human limited-mentation-capacity. Thus in reflecting the ontological-contiguity—of-the-human-institutionalisation-process, crucially the issue of ontological-veracity is only half the problem of knowledge, with the other half being the grasp of the underlying sovereignty and knowledge dynamics as of eliciting 'social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩'. As it is the latter that induces that social positive-opportunism for deferential-formalisation-transference and institutional percolation-channelling, as of social deferential attribution of power for the beneficial effect of knowledge as empowering various institutional domains. Further, as implying the superseding of entrenched grounded knowledge as of its psychoanalytic-unshackling implications and in destabilising the underlying existential reference-of-thought, transcendental knowledge is of a circular but consistent exercise of ~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought, and so due to the 'existential and emotive commitments' it is involved in undoing with regards to the implied prior notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised~preconverging/dementing–qualia-schema>   reference-of-thought   and

introducing the prospective ontological-contiguity reference-of-thought as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<~~amplituding~~/formative>epistemic-totalising~purview-of-construal'. Consider in this regard, that the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as of propective ontological-contiguity is more than just a reification gesturing of its very own axiomatic-construct affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-validating-measuring-<postconverging-or-dialectical-thinking–apriorising-psychologism> but extends to encompass a de-assertion/preconverging-or-dementing–apriorising-psychologism/unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitablemeasuringinstrument-invalidating-measuring-<preconverging-or-dementing–apriorising-psychologism> of 'traditional classical mechanics axiomatic-construct', at the threshold where it supersedes 'traditional classical mechanics axiomatic-construct', as being of notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised~preconverging/dementing–qualia-schema> when analysed as of 'traditional classical mechanics axiomatic-construct', and so with regards to 'the very same physics <~~amplituding~~/formative>epistemic-totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality'. The ontological veridicality here is that such 'double-gesture reification as the prospective axiomatic affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-validating-measuring-<postconverging-or-dialectical-thinking–apriorising-psychologism> together with the prior axiomatic de-assertion/preconverging-or-dementing–apriorising-psychologism/unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitablemeasuringinstrument-invalidating-measuring-<preconverging-or-dementing–apriorising-psychologism>' implied as of the non-presencing-<as-to-perspective-

ontological-normalcy/postconvergence> induced transcendence-and-sublimity is not to be construed as an incrementalism-in-relative-ontological-incompleteness as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity of the superseded presencing—absolutising-identitive-constitutedness, but is rather a maximalising-recomposuring-for-relative-ontological-completeness in subsuming 'the very same physics ~~amplituding~~/formative>epistemic-totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality'. While the emotional involvement and sense of 'existential ego undermining' involved in such a transcending reification gesturing of axiomatic-constructs as of the very same ~~amplituding~~/formative>epistemic-totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality is relatively trite as occurring within the same registry-worldview/dimension reference-of-thought as of the positivistic/rational-empiricism meaningfulness-and-teleology mindset as well as its distance rather with respect to physical reality, such a transcending reification gesturing as of the grandest axiomatic-constructs having to do with consciousness with regards to the 'very reference-of-thought itself' wherein the prospective ontological-contiguity reference-of-thought as deprocrypticism/disjointedness-as-reference-of-thought implies a transcending reification gesturing that not only affirms deprocrypticism prospective registry-worldview/dimension but in that affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-validating-measuring-<postconverging-or-dialectical-thinking–apriorising-psychologism> as of its ontological-completeness-of-reference-of-thought de-asserts/dements our positivism–procrypticism registry-worldview/dimension, this will elicit an existential and emotional involvement that will rather convert into a circular neuterisation of deprocrypticism by a mental-complex avoiding such emotional discomfort and sense of existential ego undermining as is the case with all

destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>——of-ontological-performance-<including-virtue-as-ontology> with respect to their prospective institutionalisations. This explains why it is not a fundamental contradiction as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint——imbued-temporal-to-intemporal-dispositions–existentialism-form-factor at uninstitutionalised-thresholds that the positivistic/rational-empiricism initiatives of such enlightenment thinkers like Galileo, Descartes, Diderot, etc. were met with counteracting reactionary views, and as it further elicits ontologically-flawed 'uninstitutionalised-threshold by prospective institutionalisation dialogical-equivalence'. This can't be the case because dialogical-equivalence can only arise where there is 'common reference-of-thought' whereas a state of institutionalisation as of prospective relative-ontological-completeness-of-reference-of-thought is veridically in an institutionalising/enlightening/educating exercise relative to a state of uninstitutionalised-threshold as of prior relative-ontological-incompleteness-of-reference-of-thought, and not such a flawed notion of dialogical-equivalence. We can appreciate even within a same reference-of-thought like our positivism/rational-empiricism registry-worldview/dimension that there is no dialogical-equivalence between the theory-of-relativity-together-with-quantum-mechanics——axiomatic-constructs in ontological-contiguity and 'traditional classical mechanics axiomatic-construct' of notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised~preconverging/dementing–qualia-schema> but for the former's enlightening the latter's undefined-or-undecidable-threshold-of-ontological-veridicality. This insight reflects the reality of transcendence in reflecting the ontological-contiguity——of-the-human-institutionalisation-process associated with Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, wherein uninstitutionalised-threshold mental-reflexes of

<amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag in their incrementalism-in-relative-ontological-incompleteness as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity tend to perpetuate the representation of prospective institutionalisation as nondescript/ignorable void (actually speaking of akrasiatic-drag-denatured-and-preconverging-or-dementing-narratives) in an ontologically-flawed dereification gesturing of neuterisation, rather than maximalising-recomposuring-for-relative-ontological-completeness as of <amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought implied as of prospective institutionalisation's deneuterising. It should thus be noted that such a transcendental exercise is not about passing the test as of the judgment of uninstitutionalised-threshold mental-reflexes of <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag which is 'ontologically flawed and wanting' but rather is as of a maximalising-recomposuring-for-relative-ontological-completeness intemporal-projection transcendental-enabling/sublimating for prospective institutionalisation relative to such <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that circularly reinstitute the uninstitutionalised-threshold temporality/shortness as if intemporal in incrementalism-in-relative-ontological-incompleteness as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. In other words prospective institutionalisation arises as of 'transcendental-reasoning-of-event-as-prospective-ontology-origination' which as of prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought is introducing a 'new-as-of-the-prospective-institutionalisation ordinary-

nontranscendental-reasoning' that blocks-out/supersedes/de-asserts/dements as of notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised~preconverging/dementing–qualia-schema> the 'prior-or-old-as-now-uninstitutionalised ordinary-nontranscendental-reasoning'; with the implication that our 'procrypticism/disjointedness-as-of-reference-of-thought reasoning' is not admissible to prospective 'deprocrypticism or preempting—disjointedness-as-of-reference-of-thought reasoning' and so from the moment of the event-construed-as-the-prospective-ontology-origination of deprocrypticism, just as 'non-positivistic medieval reasoning' is not admissible to prospective 'positivism reasoning' from the moment of the event-construed-as-the-prospective-ontology-origination of positivism, etc., across the successive institutionalisations in reflecting the ontological-contiguity—of-the-human-institutionalisation-process; and so as of notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised~preconverging/dementing–qualia-schema> of the uninstitutionalised-threshold and the prospective institutionalisation. Such a temporal/shortness-of-register-of-meaningfulness-and-teleology ontologically-flawed predisposition in circularly striving to reassert the 'prior-or-old-as-now-uninstitutionalised ordinary-nontranscendental-reasoning' over the 'transcendental-reasoning-of-event-as-prospective-ontology-origination' is fundamentally due to the structural/paradigmatic lifetime 'mental and existential investment' in the former, such that by and large it is mostly a crossgenerational transcendence-and-sublimity that fully brings about the adaptation of the induced 'transcendental-reasoning-of-event-as-prospective-ontology-origination' as the 'new-as-of-the-prospective-institutionalisation ordinary-nontranscendental-reasoning'. Such a temporal/shortness-of-register-of-meaningfulness-and-teleology ontologically-flawed circular predisposition arises due to human temporal-dispositions as of Being underdevelopment that tends to lead to the beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> denaturing of knowledge as mechanical-knowledge

and undermining organic-knowledge; wherein knowledge is related to as of existential-extrication-as-of-existential-unthought, that is, knowledge related to as of 'the mere positive-opportunism it engenders at best' with little or no cognisance that there is an attitude/mental-disposition/care–and–episteme as of intemporality/longness behind 'knowledge invention' that must be preserved and perpetuated as 'the very core of knowledge' and so to undermine knowledge denaturing, so-construed as organic-knowledge. Organic-knowledge requires the articulation of meaningfulness-and-teleology rather in nonextricatory-existential-preempting-of-existential-unthought terms–as-of-axiomatic-construct as the profound-and-complete articulation of knowledge, and as the very attitude/mental-disposition/care–and–episteme behind knowledge that induces the appropriate psychoanalytic-unshackling for its reception. In other words, we can't seriously contemplate a profound positivistic knowledge engagement with a non-positivistic as animistic or medieval mindset without the idea of priorly eliciting the appreciation-and-adoption of a positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme when contending about any salient positivistic articulations as otherwise all such positivism/rational-empiricism articulations and explaining will be reconstrued circularly in animistic or medieval terms–as-of-axiomatic-construct as of the latter teleologically-degraded prior relative-ontological-incompleteness-of-reference-of-thought meaningfulness-and-teleology. Likewise meaningfulness-and-teleology articulated as of deprocrypticism or preempting—disjointedness-as-of-reference-of-thought relative to our positivism–procrypticism necessarily requires priorly the requisite apriorising-teleological-elevation-in-ontological-contiguity from positivism–procrypticism's disjointedness-as-of-reference-of-thought mindset into deprocrypticism's preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-

disposition/care–and–episteme as otherwise such knowledge will be teleologically-degraded in circular positivism–procrypticism disjointedness-as-of-reference-of-thought terms–as-of-axiomatic-construct as of prior relative-ontological-incompleteness-of-reference-of-thought meaningfulness-and-teleology, even though in the latter case our ~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage as metaphysics-of-presence blinds us to appropriately appreciating this given the human mental-reflex of representing any uninstitutionalised-threshold as nondescript/ignorable void (actually speaking of akrasiatic-drag-denatured-and-preconverging-or-dementing-narratives) as of our ~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. The point here is that the meaningfulness-and-teleology so-construed has to supersede the prior registry-worldview/dimension uninstitutionalised-threshold perspective/framing/reference/horizon for its prospective transcendence-and-sublimity-enabling purpose, even if that implies being temporally unpalatable, given that the fundamental purpose for the underlying aetiologisation/ontological-escalation is of intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm and not temporal extricatory paradigm. Put another way, for instance, Newtonian physics doesn't have any inherent meaningfulness-and-teleology as we can appreciate from a positivism/rational-empiricism perspective/framing/referencing/horizon with an animistic social-setup as of the latter's attitude/mental-disposition/care–and–episteme underlying its meaningfulness-and-teleology thus requiring the latter's prior apriorising-teleological-elevation-in-ontological-contiguity to a positivism/rational-empiricism attitude/mental-disposition/care–and–episteme 'for the notion of the mutual contemplation of Newtonian physics to even arise'. This speaks of the centrality of attitude/mental-disposition/care–and–episteme with respect to human

meaningfulness-and-teleology, as it is what underlies apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of a given registry-worldview's/dimension's institutionalisation reference-of-thought. Attitude/mental-disposition/care–and–episteme as such carries a registry-worldview's/dimension's 'underlying sense of end-teleology/end-purposefulness' and thereof its operative-construct and implicative-construct with regards to meaningfulness-and-teleology. It further implies a 'the human toddling potential' for living-as-of-human-personality-developing, social-projection-institutional-orientations and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology; with the 'human toddling potential' implying the human potential to develop from a relative-ontologically-flawed to a relative-ontologically-veridical attitude/mental-disposition/care–and–episteme with respect to living-as-of-human-personality-developing, social-projection-institutional-orientations and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. This 'human toddling potential' is what enables notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised~preconverging/dementing–qualia-schema> induced psychoanalytic-unshackling for grounding meaningfulness-and-teleology prospectively as of the prospective relative-ontological-completeness of non-presencing-<as-to-perspective-ontological-normalcy/postconvergence>. The attitude/mental-disposition/care–and–episteme structure is what fundamentally determines mental-states in their 'projection/anticipation of the coherence/contiguity-of-superseding–oneness-of-ontology-as-of-inherent-existence-coherence/contiguity' whether with respect to any individual within any registry-worldview/dimension as well as the registry-worldview's/dimension's overall reference-of-thought, as of its specific reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-

aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology.

Thus an attitude/mental-disposition/care–and–episteme can pertinently be defined as the 'assumed-and-unflinching

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing' inducing a given specific non-presencing-<as-to-perspective-ontological-normalcy/postconvergence> outcome with regards to prospective relative-ontological-completeness-or-incompleteness-of-reference-of-thought as of the construal-as-existence/intrinsic-reality/ontological-veridicality, and establishing-and-upholding the underlying framework of meaningfulness-and-teleology associated with that attitude/mental-disposition/care–and–episteme; and so, whether such a framework is a reference-of-thought as of overall construal-as-existence/existential-possibilities, or within a reference-of-thought like a social projection <amplituding/formative>epistemic-totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality or specifically with living-as-of-human-personality-developing. For instance, with respect to coming across and living say in an early hunter-gather society with its interpretation of ill-health as of bad omen, we will still maintain an 'assumed-and-unflinching transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing' as of the attitude/mental-disposition/care–and–episteme of positivism's/rational-empiricism's perceptivity-as-of-full-disease-and-scientific-theory-construct-as-the-exclusive-cause-and-effect-conceptualisation, at least as of our self-conscious awareness, even as this reflects mutual beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> as when we publicly pretend to act otherwise by subscribing to the interpretation within such a social-setup. As construed within a given reference-of-thought, say in our positivism/rational-empiricism reference-of-thought we can further have the conception of

the physics or biology or law or literature or even just entrepreneur or accountant or technician specific attitude/mental-disposition/care–and–episteme, and further at the individual level as of changing attitude/mental-disposition/care–and–episteme with living-as-of-human-personality-developing. Attitude/mental-disposition/care–and–episteme as so-construed is critical fundamentally because the notionally inherent human capacity for aetiologisation/ontological-escalation is directly associated with 'attitude/mental-disposition/care–and–episteme as dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming-'notionally-collateralising-protohumanity'-to-'attain-sublimating-humanity',-as-to-existence-potency-prospective-digression-of—

<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness to supersede human temporality/shortness <amplituding/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩) to be able to achieve transcendence-and-sublimity', and so as of intemporality. With regards to living-as-of-human-personality-developing, we can appreciate in the case of a child's personality development as of its given attitude/mental-disposition/care–and–episteme that it has a poor dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension as of its more direct focus on instant-sensations-and-carefreeness requiring that the child is directed to end at successive stages infantile habits as it grows up with an increasing sense of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension that ultimately involves major stages like schooling, greater social autonomy and responsibility, and developing into an adult with even greater dispensing-with-immediacy-for-relative-ontological-completeness-by-

reification/contemplative-distension as for instance the notion of pleasure is increasingly substituted with that of work-and-pleasure, etc. Such living-development–as-to-personality-development as dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension is construed as the more profound attitude/mental-disposition/care–and–episteme for human optimum living, and so over say an animal-like immediacy attitude/mental-disposition/care–and–episteme of living. With regards to the second-level of social aetiologisation/ontological-escalation associated with 'attitude/mental-disposition/care–and–episteme dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension', for achieving transcendence-and-sublimity; humankind construes of existence as 'more than just plain living as animals' but as enabling for various domains of social projections dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension so-implied across the various registry-worldviews/dimensions, whether in an animistic social-setup involving animistic practices or in the modern social-setup as of our modern practices involving subject-matter specialisms, trade roles, functionaries, arts, research, sports and other activities, etc.; with each involving their specific attitude/mental-disposition/care–and–episteme dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension. The idea being that this provides more existential possibilities by the overall expanded human capabilities available directly or indirectly to fulfil individuals desires and needs. Finally the third-level reflects 'intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-

explicating-ontological-contiguity' with Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>, implying specifically a nonextricatory-existential-preempting-of-existential-unthought attitude/mental-disposition/care–and–episteme as dispensing-with-immediacy-for-relative-ontological-completeness-of-reference-of-thought-by-reification/contemplative-distension thus transcendentally enabling the successive registry-worldview's/dimension's ontological-possibilities construed as of human intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm; with such dispensing-with-immediacy-for-relative-ontological-completeness-of-reference-of-thought-by-reification/contemplative-distension construed as rejection of existential-extrication-as-of-existential-unthought attitude/mental-disposition/care–and–episteme which will imply a stalling in reflecting the ontological-contiguity—of-the-human-institutionalisation-process as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology at the given registry-worldview/dimension, and so-construed as temporal extricatory paradigm. Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as such implies increasingly more profound-and-complete enabling framework of human emancipation as of technical and existential possibilities arising from prospective relative-ontological-completeness-of-reference-of-thought. We can get an insight of registry-worldviews/dimensions attitude/mental-disposition/care–and–episteme contrast as clarified in the preceding example as of the technical and existential emancipatory possibilities that can be contemplated with a positivism/rational-empiricism attitude/mental-disposition/care–and–episteme in an early hunter-gather social-setup inclined

to construe of ill-health as bad omen; and appreciate that the human-subpotency is much more than stalling at any prior relative-ontological-incompleteness-of-reference-of-thought registry-worldview/dimension, and so not only retrospectively but equally prospectively. Thus, an attitude/mental-disposition/care–and–episteme can pertinently be defined as the 'assumed-and-unflinching transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing' inducing a given specific non-presencing-<as-to-perspective-ontological-normalcy/postconvergence> outcome with regards to prospective relative-ontological-completeness-or-incompleteness-of-reference-of-thought as of the construal-as-existence/intrinsic-reality/ontological-veridicality, and establishing-and-upholding the underlying framework of meaningfulness-and-teleology associated with that attitude/mental-disposition/care–and–episteme. It can be construed with regards to prospective transcendence as a structural/paradigmatic adjunctive-metaphoricity-signification inducing-and-upholding a prospective 'underlying <~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating signifying-construct as <~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving'. In other words, a registry-worldview's/dimension's reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument is utterly apprehended decisively by its given attitude/mental-disposition/care–and–episteme as of the 'assumed-and-unflinching transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing'. This insight is critical as for instance with appreciating what is implied by futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism or preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme by its given specific non-presencing-<as-to-perspective-

ontological-normalcy/postconvergence> outcome; as we simply have to project/anticipate its 'assumed-and-unflinching transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing' implied as of preempting—disjointedness-as-of-reference-of-thought construed as thinking as it remains unintelligible to our positivism–procrypticism's disjointedness-as-of-reference-of-thought reconstrued as of preconverging-or-dementing–apriorising-psychologism. Attitude/mental-disposition/care–and–episteme 'assumed-and-unflinching transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing' is a corresponding disposition for reflecting the 'incisive-and-intransigent nature of existence as absolute a priori' to which we can only get in-relative-synchronisation with a corresponding level of projection-or-anticipation/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument that as of its relative dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming-'notionally-collateralising-protohumanity'-to-'attain-sublimating-humanity',-as-to-existence-potency-prospective-digression-of—

<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness to supersede human temporality/shortness <~~amplituding~~/formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>)) is the appropriate attitude/mental-disposition/care–and–episteme 'assumed-and-unflinching transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing' required for the correspondingly required meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology>. Basically, attitude/mental-disposition/care–and–episteme is simply a reflection of level of

deneuterising—referentialism as of the notional~conflatedness of notional~deprocrypticism. Ultimately for living-as-of-human-personality-developing, social-projection-institutional-orientations and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, 'the human toddling potential' or the human potential to develop from a relative-ontologically-flawed to a relative-ontologically-veridical attitude/mental-disposition/care–and–episteme, can only arise by notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised~preconverging/dementing–qualia-schema> induced psychoanalytic-unshackling as of relative-ontologically-veridical attitude/mental-disposition/care–and–episteme 'assumed-and-unflinching transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing' over relative-ontologically-flawed attitude/mental-disposition/care–and–episteme, with the latter necessarily having to ascend to the relative-ontologically-veridical attitude/mental-disposition/care–and–episteme for the former's implied meaningfulness-and-teleology as of its ontological-performance-<including-virtue-as-ontology> to avail, and so in reflecting the 'incisive-and-intransigent nature of existence—as-the-absolute-a-priori-of-conceptualisation'; as we can appreciate this with regards to existence's relative validation of the positivism/rational-empiricism 'perceptivity-as-of-full-disease-and-scientific-theory-construct-as-the-exclusive-cause-and-effect-conceptualisation' interpretation over recurrent-utter-uninstitutionalisation's 'bad omen' interpretation. Such an 'assumed-and-unflinching transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing' has ultimately nothing to do with the deliberate willing of the relative-ontologically-veridical attitude/mental-disposition/care–and–episteme. As we can appreciate that without implying a dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension as of a child's living-as-of-human-personality-developing, the child's poorly developed attitude/mental-disposition/care–and–

episteme will poorly face optimum living of adult life or where such was the case about all human children then the human species will be no more culturally unique than any other animal. Again, as of human social-projection-institutional-orientations we know that subject-matter, trades and bureaucratic expertise come with a requisite implied attitude/mental-disposition/care–and–episteme in detachment from ⟨~~amplituding~~/formative⟩wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ as we know that, everything being equal legitimately, it is the professional electrician as of its assumed-and-unflinching professionally-institutionalised-as-dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension attitude/mental-disposition/care–and–episteme whose workmanship is guaranteed to produce the best and safe outcome for electrical installations; and so dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension as of ⟨~~amplituding~~/formative⟩wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ dispositions thus expanding human needs and desires possibilities. Likewise, the dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension 'assumed-and-unflinching transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing' of a relative-ontologically-veridical attitude/mental-disposition/care–and–episteme as of its prospective relative-ontological-completeness-of-reference-of-thought over a relative-ontologically-flawed attitude/mental-disposition/care–and–episteme is implied for prospective reference-of-thought transcendence-and-sublimity, as of overall human existential and technical emancipation. Basically, while attitude/mental-

disposition/care–and–episteme implied with regards to both living-as-of-human-personality-developing and social-projection-institutional-orientations arises as of secondnaturing institutionalisation. However, attitude/mental-disposition/care–and–episteme specific instigating of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective relative-ontological-completeness-of-reference-of-thought is (re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-⟨imbued-postconverging/dialectical-thinking-'projective-insights'/'epistemic-projection-in-conflatedness'-of-notional~deprocrypticism-prospective-sublimation⟩) originary/event-of-prospective-ontology-origination as of humanity level intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm; inducing thereof social institutionalisation secondnaturing by way of deferential-formalisation-transference and percolation-channelling. Inherently, the very grounding of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology attitude/mental-disposition/care–and–episteme is beyond presencing—absolutising-identitive-constitutedness, and actually lies prospectively in existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness. The implication here is that as of its very 'nonextricatory-existential-preempting-of-existential-unthought behind the ontological-contiguity—of-the-human-institutionalisation-process' Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology attitude/mental-disposition/care–and–episteme cannot be contemplated as of secondnatured institutionalisation living-as-of-human-personality-developing and social-projection-institutional-orientations attitude/mental-disposition/care–

and–episteme in 'existential-extrication-as-of-existential-unthought' which structurally/paradigmatically 'do not project beyond reference-of-thought as of prospective relative-ontological-completeness-of-reference-of-thought' to grasp prospective existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness relative-ontological-completeness of apriorising/axiomatising/referencing. Thus with regards to Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, overall it is the underlying intemporality-or-longness-of-register-of-meaningfulness-and-teleology attitude/mental-disposition/care–and–episteme of successive institutionalisations as associated with the intemporal-as-conviction-as-to-profound-supererogation reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology, rather than temporal threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism denaturing of the same reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology, that are responsible for the underlying ontological-normalcy/postconvergence epistemic perspective in nonextricatory-existential-preempting-of-existential-unthought behind the ontological-contiguity—of-the-human-institutionalisation-process; and so construed as of an abstract notion of perpetual/eternising preservation of Being, and so beyond temporality/shortness existential-extrication-as-of-existential-unthought lack of the projecting attitude/mental-disposition/care–and–episteme for prospective institutionalisations as mainly concerned with the physical human lifespan extricatory framework as absolute reference of meaningfulness-and-teleology 'with little sense of coherence as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-

infrastructure-of-meaningfulness-and-teleology', and thus the latter cannot unlike the former be the framework for aetiologisation/ontological-escalation as of universal implications, and particularly so as of the 'naivety of eliciting mutual temporality/shortness as intemporality/longness or eliciting of <~~amplituding~~/formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>)'. This notion of fulfilling a given prospective institutionalisation's requisite attitude/mental-disposition/care–and–episteme underlies the very idea of intellectual-and-moral-inequivalence/non-correspondence as well as dialogical inequivalence/non-correspondence; as where one party does fulfils the attitude/mental-disposition/care–and–episteme of a given institutionalisation's reference-of-thought as of prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought and thus its corresponding meaningfulness-and-teleology, and the other doesn't as of prior relative-ontological-incompleteness. This further explains why epistemic-breaks/epistemic-resetting arise with the successive prospective institutionalisations in reflecting the ontological-contiguity—of-the-human-institutionalisation-process, wherein for instance the positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme of say a Galileo or Descartes is circularly beyond the contention framework of scholasticism meaningfulness-and-teleology, speaking of the impossibility of logical-congruence between the positivists and scholastics with only the utter dominance of positivism arising as of its ontological-primemovers-totalitative-framework induced positive-opportunism as of scientific, medical, technical advancements, free society, etc. shat leads to the crossgenerational collapsing of scholasticism. It is interesting to note here that such positivist scholars were 'never beholden to a convincing exercise with scholasticism but rather with intrinsic-reality/ontological-veridicality', and for which purpose

rather opted to create internally-coherent positivist networks and societies for the perpetuation of positivistic meaningfulness-and-teleology while averting its denaturing by wrongly implying notional-contiguity/epistemic-contiguity-<mentally-aestheticised~postconverging/dialectical-thinking–qualia-schema> with scholasticism. But rather implying notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised~preconverging/dementing–qualia-schema> given the latter's flawed paradigm as of prior relative-ontological-incompleteness-of-reference-of-thought. The insight here is that more fundamentally knowledge is not about 'interhuman negotiating or agreeableness' but more critically about a third party validator known as 'intrinsic-reality/ontological-veridicality' which is the transcendental-enabling/sublimating above the mortals that are humans, and that the exercise of knowledge construction is rather an interhuman transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing exercise in search for the validation of the 'superior party that is intrinsic-reality/ontological-veridicality as of ontological-primemovers-totalitative-framework', and so beyond institutional-being-and-craft and social-aggregation-enabling <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩. Where these latter practices become de rigueur as of beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> denaturing of the requisite intellectualism required for further Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, and start undermining knowledge construction as of its intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating, effectively there shouldn't be any compunction as of human

intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm to overlook them and imply intellectual-and-moral-inequivalence/non-correspondence and/or dialogical inequivalence/non-correspondence in other to preserve genuine knowledge over charlatanism; as such ontological-bad-faith/inauthenticity practices do not speak of 'genuine intellectual disagreement' but undermining of intellectualism basically and do not merit to be elevated teleologically to the level of intellectual contention because of their underlying knowledge denaturing predisposition. This is critically the case with registry-worldview/dimension reference-of-thought transcendence implied knowledge given that the old/prior/superseded as of its beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> prior relative-ontological-incompleteness-of-reference-of-thought construes of 'implied grounding of meaningfulness-and-teleology' in terms–as-of-axiomatic-construct of presencing—absolutising-identitive-constitutedness while the new/prospective/superseding as of its prospective relative-ontological-completeness-of-reference-of-thought construes of 'implied grounding of meaningfulness-and-teleology' in terms–as-of-axiomatic-construct of prospective non-presencing-<as-to-perspective-ontological-normalcy/postconvergence>. This brings home the reality that it is inevitable that all uninstitutionalised-thresholds are necessarily 'paradigmatically/structurally conflicted', with prospective transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing ontological-primemovers-totalitative-framework being the critically fundamental determining arbiter of what will prospectively pass for knowledge rather than the naivety of logical-congruence of dialogical-equivalence at any such uninstitutionalised-threshold; as fundamentally the issues faced by the Descartes, Galileos, Diderots, etc. as of 'budding positivism/rational-empiricism attitude/mental-disposition/care–and–episteme' are structurally/paradigmatically fundamentally inevitable as of their

articulation within a non-positivism/medievalism scholasticism context. This is the case since at a registry-worldview's/dimension's uninstitutionalised-threshold, such a framework of logical-congruence of dialogical-equivalence is structurally/paradigmatically superseded, in the sense that every institutionalisation say for instance scholasticism scholarship has its 'genuine intellectual engagement framework' as of its underlying attitude/mental-disposition/care–and–episteme reference-of-thought acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, but then at its uninstitutionalised-threshold (as implied from prospective positivism/rational-empiricism attitude/mental-disposition/care–and–episteme reference-of-thought acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) scholasticism and positivism are rather in transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing; as so reflected in their mutually beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>. This is equally reflected with regards to the prospective transcendence implying knowledge proponents, as the very notion of implying a prospective transcendental conceptualisation as of organic-knowledge is one that undervalues the presencing—absolutising-identitive-constitutedness attitude/mental-disposition/care–and–episteme as of its social-stake-contention-or-confliction while the very notion of perceiving highly the meaningfulness-and-teleology within a prior institutionalisation framework is one that is necessarily apprehensive and shallowminded to the notion of a prospectively undermining prospective non-presencing-<as-to-perspective-ontological-normalcy/postconvergence> transcendence attitude/mental-disposition/care–and–episteme reference-of-thought acuity/perspicacity/astuteness/edginess/incisiveness—of-

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. In addition, the disruptive uninstitutionalised-threshold contextualisation as of such divergent commitments and 'lack of perceived constraining framework of logical-congruence of dialogical-equivalence' further radicalises the human disposition to act temporally beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> institutional-being-and-craft as of perceived vested interest, striving to undermine prospectively implied transcendence meaningfulness-and-teleology attitude/mental-disposition/care–and–episteme. What is then the manifestation of such intellectual undermining which must necessarily be understood as of knowledge-notionalisation required as of the notional~conflatedness of deprocrypticism or preempting—disjointedness-as-of-reference-of-thought protensive-consciousness? ontological-bad-faith/inauthenticity as of its charlatanic effect fundamentally involves the undermining at any human uninstitutionalised-threshold of the possibility of intellectually induced social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩; for the ultimate outcome of undermining any such intemporal knowledge deferential-formalisation-transference behind the secondnaturing for prospective institutionalisation. Such a beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> undermining exercise is geared towards the ontologically-flawed apriorising-teleological-elevation-in-ontological-contiguity of social <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ and untransvaluated–temporal-intemporality social-chainism, on the conation of upholding ontological-bad-faith/inauthenticity contentions; by its deflating of the conception of ontologically-veridical meaningfulness-and-teleology as of human mortals

contentions in transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing, wherein the 'superior party' of existence/intrinsic-reality/ontological-veridicality is the validator of ontological-pertinence as of concurrent ontological-primemovers-totalitative-framework, and thereof 'detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness' as new reasoning-from-results/afterthought, and so over and above 'interhuman negotiating or agreeableness'. Thus ontological-bad-faith/inauthenticity as of its charlatanic effect undermines, as of beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>, the articulation of meaningfulness-and-teleology as of prospective maximalising-recomposuring-for-relative-ontological-completeness that could jeopardise pre-established temporal interest, and cultivating rather incrementalism-in-relative-ontological-incompleteness as of prior reasoning-from-results/afterthought in overlooking concurrent ontological-primemovers-totalitative-framework strife to uphold-and-promote the 'superior party' which is the non-presencing-<as-to-perspective-ontological-normalcy/postconvergence> of existence/intrinsic-reality/ontological-veridicality; with such intellectual-bad-faih rather advancing such an incrementalism-in-relative-ontological-incompleteness accommodating framework for strategically cultivating pre-established temporal interest. Central to such incrementalism-in-relative-ontological-incompleteness is a simplistic, poor and inadequate articulation of the notion of scepticism usurping genuine intellectual scepticism. Such a poor notion of scepticism operates by a spurious relationship with intellectual contentions that is susceptible to legitimise-or-delegitimise arguments however ontologically pertinent or impertinent as of concurrent ontological-primemovers-totalitative-framework, rather as of its commitment to incrementalism-in-relative-ontological-incompleteness that in many ways could just as well validate <amplituding/formative>wooden-language-(imbued—averaging-of-thought-<as-to-

leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>〉 and untransvaluated–temporal-intemporality attitude/mental-disposition/care–and–episteme and their social contentions. As in effect, such ontological-bad-faith/inauthenticity scepticism fails to act as a 'knowledge-growth-mechanism with regards to the perpetuation of knowledge coherence and pertinence' as is the case with genuine intellectual scepticism, but is rather geared towards a dogmatic pedantry/mandarinism that usurps the very notion of scepticism, and so as of the naïve implication that proceduralism is the substitute for existence/intrinsic-reality/ontological-veridicality as transcendental-enabling/sublimating. This poor scepticism attitude/mental-disposition/care–and–episteme usurping the pre-established 'detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness', has existentialising—enframing implications as of the forestalling of prospective 'concurrent ontological-primemovers-totalitative-framework' upholding of the primacy of the 'superior party' that is existence/intrinsic-reality/ontological-veridicality, and so over mere 'interhuman negotiating or agreeableness'; as this subsequently undermines intemporal knowledge deferential-formalisation-transference behind the secondnaturing for prospective institutionalisation. Rather the attitude/mental-disposition/care–and–episteme of genuine intellectual scepticism is encrusted within the very notion of prospective relative-ontological-completeness of human meaningfulness-and-teleolgy, given human limited-mentation-capacity-deepening-〈~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation〉. Such a genuine intellectual scepticism construes of knowledge by its given ~~amplituding~~/formative>epistemic-totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality in terms–as-of-axiomatic-construct of the competing

contending construals elicited relative credibility and relative scepticism as of prospective relative-ontological-completeness, thus enabling the upholding of the 'superior party' that is existence/intrinsic-reality/ontological-veridicality, which as of its transcendence-enabling nature brings about prospective human emancipation. While genuine intellectual scepticism rather strives in a comprehensive intellectual credibility and scepticism framework as of prospective relative-ontological-completeness, ontological-bad-faith/inauthenticity scepticism avoids such constraining as it rather emphasises a predisposition for discreet, 'ontologically unconstrained framework as of prospective relative-ontological-completeness <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity' and non-comprehensiveness, that rather allow for selectivity, incompleteness and perfidy passing for genuine intellectual scepticism. Effectively while genuine intellectual transformation involves dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension, a perfidious ontological-bad-faith/inauthenticity scepticism involves eliciting a sense of immediacy and temporality/shortness as of <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ and untransvaluated–temporal-intemporality social-chainism as 'developed thought', thus deflating the requisite dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension intemporal detachment/backstep for transcendence-and-sublimity. In this latter respect, and for the possibility of prospective social transcendence and emancipation, social practices at any given period as 'becoming constructs' are not inherently ontologically sacrosanct by the fact that these are the outcome of preceding prospective relative-ontological-completeness as of preceding intemporal dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension, and by that

very implication this is what carries the possibility of 'inventing' as-of-prospective-institutionalisation social practices as of prospective relative-ontological-completeness. ontological-bad-faith/inauthenticity ad-hoc pretences extolling social practices as of presencing—absolutising-identitive-constitutedness but of a poor conception outside the prospective relative-ontological-completeness behind such social practices 'inventing' as-of-prior-institutionalisation and so-implied as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, are but denaturing and down the line equally undermines prospective relative-ontological-completeness for the further emancipation of human social practices. As such ontological-bad-faith/inauthenticity ad-hoc pretences extolling social practices as of presencing—absolutising-identitive-constitutedness are of the same notional-contiguity/epistemic-contiguity-<mentally-aestheticised~postconverging/dialectical-thinking–qualia-schema> kind that bathe in the <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ and untransvaluated–temporal-intemporality social-chainism that implied as much about extolling social practices presencing—absolutising-identitive-constitutedness of existential-extrication-as-of-existential-unthought reasoning-from-results/afterthought attitude/mental-disposition/care–and–episteme of recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism and today's positivism–procrypticism, with little prospect/opening for prospective transcendence-and-sublimity. Essentially and constructively, all intellectualism as of their intemporal job description as emancipative is to relay in uninhibited/decomplexified terms–as-of-axiomatic-construct the blunt reality of the social as this is the very attitude/mental-disposition/care–and–episteme that empowers prospective

social emancipation however socially unconvenient it may sound; and so beyond habituated <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. The fact that many that are institutionally anchored may speak otherwise or naively against such a stance doesn't diminish in any way the 'natural appropriateness' of such a job description as of human intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm, but rather speaks of a poverty of institutionalisation that creeps into institutional anchors as of their reasoning-from-results/afterthought constructions subject to temporal/shortness-of-register-of-meaningfulness-and-teleology denaturing of reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology. Reasoning-through/messianic-reasoning attitude/mental-disposition/care–and–episteme implicitation arises as of metaphoricity at uninstitutionalised-thresholds where blurry/vague/undeveloped construct of any given '<~~amplituding~~/formative>epistemic-totalising~devolved—

Such reasoning-through/messianic-reasoning attitude/mental-disposition/care–and–episteme 'implicitation of ontological-primemovers-totalitative-framework' is as of intemporal solipsistic and intersolipsistic internalisation, construed as more fully articulating the notion of authenticity, in reflecting such uninstitutionalised-threshold impracticable reasoning-from-results/afterthought attitude/mental-disposition/care–and–episteme explicitation of ontological-primemovers-totalitative-framework procedure of transversal-contention-for-determination-of-veridical-meaningfulness. The implication here is that ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality is rather about a 'seeding promise of human-subpotency ontological-performance-<including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence-as-of-its-coherence/contiguity', but that reasoning-through/messianic-reasoning adduced transcendence prospectively comes out short with the prospective reasoning-from-results/afterthought outcome, and so because of human limited-mentation-capacity at any moment. This practical conceptualisation of authenticity as of its method is further critical because however well elicited, even reasoning-from-results/afterthought constructs still need their good ontological-performance-<including-virtue-as-ontology> in practice, and given human-subpotency–aporia/undecidability/dilemma/ought-

Thus human ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality driven reasoning-through/messianic-reasoning holds the prospect for an ever renewal of reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology as of prospective relative-ontological-completeness-of-reference-of-thought, undermining institutional-anchoring and logocentric complexes/denials/pedantry of such prospective transcendental possibilities. undermined by what this author qualifies as 'subterfuges of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology' which are rather as of ideology; ideology in the sense that these are 'commitments' ready to 'forego the pre-eminence of knowledge construed as of its ontological-veracity' which is the only assurance of optimum construct of knowledge for human emancipation. Ideology as such takes the form of either 'ideology denaturing of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology' or 'reactive fear of ideology denaturing of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology'. In both instances what is lost is Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology itself, such that besides temporal/shortness-of-register-of-meaningfulness-and-teleology interests undermining natural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, natural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology is perceived as a risk that will foster 'ideology denaturing of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology' or 'reactive fear of ideology denaturing of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology', with Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology itself losing out. These subterfuges are behind the awkward, unnatural and clobbered nature of human development for the past two centuries as civilisation is construed and developed in 'an undertone

reaction/anticipation of threat' rather than natural as of human communion. Thus 'subterfuges of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology' arise as of the suboptimality of human intemporality/longness which suffers from human apprehensiveness of humans, thus undermining the notion of human intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm. This underlying human mental-disposition arises as of the successive human as trepidatious/warped/preclusive/occlusive-consciousness in neuterising; as such neuterising is the outcrop of human limited-mentation-capacity. In other words neuterising can effectively be 'decomposed-as-from-a-conflatedness-perspective into the ontologically-veridical underlying limited-mentation-capacity manifestation' as of social-stake-contention-or-confliction <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, and so-construed from the 'deepest phenomenological transcendental-point-of-departure handle as of the notional~conflatedness of notional~deprocrypticism deneuterising—referentialism'. Such an exercise can be conceptualised as an abstract reference-of-thought/epistemic-totalisation level of deneuterising—referentialism, wherein for instance, with regards to 'the very same medical <~~amplituding~~/formative>epistemic-totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality' as structurally/paradigmatically defining 'social-stake-contention-or-confliction as of existential-instantiations dynamics among individuals and the social-collective':

The latter as deprocrypticism or preempting—disjointedness-as-of-reference-of-thought as of its ontological-completeness-of-reference-of-thought/ontological-normalcy/postconvergence is the effective basis for evaluating the ontological-veracity of all preceding reference-of-thought as of its deneuterising—referentialism that breaks-down the various neuterising to their basic human limited-mentation-capacity dynamics implications.

In this regard, their successive profoundness as of their 'successive (uncircumscribing/undelineating-as-epistemic-totality with recurrent-utter-uninstitutionalisation) circumscribing-as-epistemic-totality-or-delineating-as-epistemic-totality existential–epistemic-totalisation-scheme-of-meaningfulness-and-teleology' speaks of more and more profound convergence-as-of-accumulation of human-subpotency grasp of the full-potency of existence coherence/contiguity. It should be noted as well that the afore is focused on the abstract reference-of-thought/epistemic-totalisation level of différance/internal-dialectics/difference-deferral, as it is actually reflecting 'the backdrop construed as human sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence' for the effectively devolving différance/internal-dialectics/difference-deferral teleological process of meaningfulness; given that the abstract reference-of-thought/epistemic-totalisation level so-established rather enframes teleologically-devolving-as-drifting meaningfulness with regards to 'social-stake-contention-or-confliction as of existential-instantiations dynamics among individuals and the social-collective' construed from notional~deprocrypticism deneuterising, to fully reflect the ontological-veridicality of mental-states as of affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-validating-measuring-<postconverging-or-dialectical-thinking–apriorising-psychologism> and unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitablemeasuringinstrument-invalidating-measuring-<preconverging-or-dementing–apriorising-psychologism> stranding dialectics. For instance, reflecting in an early hunter-gatherer society the 'candid existential expressiveness' of how one is suffering from bad omen on the backdrop of its 'recurrent-utter-uninstitutionalisation <~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving—différance/internal-dialectics/difference-deferral' construed as disambiguation its uninstitutionalised-threshold

Thus this will disambiguate, specifically 'with regards to the ill-health ~~amplituding~~/formative>epistemic-totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality' the recurrent-utter-uninstitutionalisation random-as–uncircumscribing/undelineating-as-epistemic-totality 'existential–epistemic-totalisation-scheme-of-meaningfulness-and-teleology', as it construes any ill-health issue as of the idea of bad omen given its 'non-rules—apriorising/axiomatising/referencing–psychologism,-as-impulsive-or-accidented-or-random-mental-disposition'. The uninstitutionalised-threshold as such, as of the reference-of-thought beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>, is the basis for determining both intemporal as well as temporal ontological-performance-<including-virtue-as-ontology>s specifically as of postlogism-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of reference-of-thought-devolving ontological-performance-<including-virtue-as-ontology>s. This thus involves the disseminative-as-rearticulated ~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving—différance/internal-dialectics/difference-deferral as conjugations as of intemporal-as-conviction-as-to-profound-supererogation ontological-performance-<including-virtue-as-ontology> and also as the various temporal threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism denaturing, all as conjugating variously to the very same implied reference-of-thought–categorical-imperatives/axioms/registry-teleology underlying idea of bad omen interpretation of recurrent-utter-uninstitutionalisation going by its random-as–uncircumscribing/undelineating-as-epistemic-totality 'existential–epistemic-totalisation-scheme-of-meaningfulness-and-teleology'; and with this reflecting the

metaphoricity of 'social-stake-contention-or-confliction as of existential-instantiations dynamics among individuals and the social-collective'. The foregoing conception of disseminative-as-rearticulated ~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving—différance/internal-dialectics/difference-deferral is equally pertinent with respect to all the other registry-worldviews/dimensions reference-of-thought but rather as of their own given 'candid existential expressiveness' with regards to their own respective specific same reference-of-thought–categorical-imperatives/axioms/registry-teleology conjugations as intemporal-as-conviction-as-to-profound-supererogation ontological-performance-<including-virtue-as-ontology> and as various temporal threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism ontological-performance-<including-virtue-as-ontology>s by the respective underlying interpretations as evil-forest-bad-omen/failure-to-heed-the-Deity/full-disease-and-scientific-theory-construct-as-the-exclusive-cause-and-effect-conceptualisation/and-further-factoring-in-socioeconomic,-education,-information,-environmental,-gender-and-power-relations-issues-underlying-healthcare-and-medical-delivery respectively as of their base-institutionalisation–ununiversalisation warped-consciousness, universalisation–non-positivism/medievalism preclusive-consciousness, positivism–procrypticism occlusive-consciousness and deprocrypticism protensive-consciousness, inducing their respective tendentious/qualifying/categorising/referentialism–circumscribing-as-epistemic-totality-or-delineating-as-epistemic-totality 'existential–epistemic-totalisation-scheme-of-meaningfulness-and-teleology'; and so, respectively due to their rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism, universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism, positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-

Insightfully, the foregoing points out that human meaningfulness-and-teleology is 'a metaphoricity of social-stake-contention-or-confliction as of existential-instantiations dynamics among individuals and the social-collective that is fundamentally already an epistemic-totalising/circumscribing/delineating reference-of-thought-devolving—différance/internal-dialectics/difference-deferral as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<~~amplituding~~/formative>epistemic-totalising~purview-of-construal' with the shifts in human meaningfulness-and-teleology induced by human limited-mentation-capacity-deepening-⟨<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ as of prospective relative-ontological-completeness-of-reference-of-thought', such that human meaningfulness-and-teleology is not absolutely identitive but shifting as of <~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving—différance/internal-dialectics/difference-deferral, given that human limited-mentation-capacity-deepening-⟨<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ is in a constant <~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought of meaningfulness-and-teleology; with the implication that the ontological-performance-<including-virtue-as-ontology> of human meaningfulness-and-teleology as to sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-

Overall, the emphasis here is as of a Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology that is as of 'various relative mentally-closed limited-mentation-capacity as of beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>' as <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag towards 'mentally-opened limited-mentation-capacity overcoming beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>' <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, and so as of non-presencing-<as-to-perspective-ontological-normalcy/postconvergence>; wherein as for the trepidatious-consciousness <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, 'human mentally-closed limited-mentation-capacity as of beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>' induced neuterising can be construed as apriorising/axiomatising/referencing—originariness/origination as of random-as–uncircumscribing/undelineating-as-epistemic-totality 'existential–epistemic-totalisation-scheme-of-meaningfulness-and-teleology' as reflected in the idea of bad omen, for the warped-consciousness as apriorising/axiomatising/referencing—re-originariness/re-origination as of tendentious–circumscribing-as-epistemic-totality-or-delineating-as-epistemic-totality 'existential–epistemic-totalisation-scheme-of-meaningfulness-and-teleology' as reflected in the idea of evil forest, for the preclusive-consciousness as apriorising/axiomatising/referencing—re-originariness/re-origination as of qualifying–

circumscribing-as-epistemic-totality-or-delineating-as-epistemic-totality 'existential–epistemic-totalisation-scheme-of-meaningfulness-and-teleology' as reflected in the idea of failure to heed the Deity, while for the occlusive-consciousness as apriorising/axiomatising/referencing—re-originariness/re-origination as of categorising–circumscribing-as-epistemic-totality-or-delineating-as-epistemic-totality 'existential–epistemic-totalisation-scheme-of-meaningfulness-and-teleology' as reflected in the idea of full disease and scientific theory construct as the exclusive cause-and-effect conceptualisation'. Such that in the final analysis, there is an underlying tendency of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology that decomposes-as-of-conflatedness 'human mentally-closed limited-mentation-capacity as of beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>' induced neuterising into the underlying limited-mentation-capacity manifestation disambiguation basis for their ontologically-veridical construal', and so-construed from a notional~deprocrypticism ontological-normalcy/postconvergence epistemic/notional~projective-perspective. Thus for the protensive-consciousness as apriorising/axiomatising/referencing—re-originariness/re-origination as of referentialism–circumscribing-as-epistemic-totality-or-delineating-as-epistemic-totality 'existential–epistemic-totalisation-scheme-of-meaningfulness-and-teleology' implied say as of post-structuralism factoring in socioeconomic, education, information, environmental, gender and power relations issues underlying healthcare and medical delivery'; as of deprocrypticism is as of deneuterising—referentialism. This analysis conveys the reality of human cross-generational institutional-cumulation/institutional-recomposure due to the impossibility of the very first humans as of their limited-mentation-capacity and yet inexperience/unaccumulated-experience to be able to reason more than their initial apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument will

permit as of their state of recurrent-utter-uninstitutionalisation 'non-rules—apriorising/axiomatising/referencing–psychologism,-as-impulsive-or-accidented-or-random-mental-disposition', and hence their construal of meaningfulness-and-teleology as of 'their relative neuterising'. Likewise the ultimate possibility of human cross-generational institutional-cumulation/institutional-recomposure as enabling the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of notional~deprocrypticism/<~~amplituding~~/formative>notional~preempting—disjointedness-as-of-reference-of-thought is the backdrop for deneuterising—referentialism enabling the full transparent ontologically-veridical elucidation of human meaningfulness-and-teleology construed as of historiality/ontological-eventfulness/ontological-aesthetic-tracing; as of the possibility of deneuterising. In the bigger scheme of things, as of the notional~conflatedness of notional~deprocrypticism as deneuterising—referentialism, what had hitherto been conceived notionally as logicism is herein exposed as effectively superseded by the notion of différance/internal-dialectics/difference-deferral so-construed as of 'reference-of-thought-or-axiomatic-construct-devolving-as-of-ontological-reconstituting–as-of-conflatedness-différance/internal-dialectics/difference-deferral' and as implied as-of-the-construal-of-différance/internal-dialectics/difference-deferral-of-meaningfulness-and-teleology; and so with respect to the more ontologically-veridical reality of human conceptualisation of meaningfulness-and-teleology always from a position of limited-mentation-capacity as of prior relative-ontological-incompleteness-of-reference-of-thought, thus in need for its prior deepening so-captured in the 'human sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence as of the notional~conflatedness of notional~deprocrypticism différance/internal-dialectics/difference-deferral' as transcendence-and-sublimity-enabling, whereas such a human limited-mentation-capacity implication is naively ignored with

logicism in its metaphysics-of-presence/illusion-of-the-present/present-consciousness/mirage. Such a 'human sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence as of the notional~conflatedness of notional~deprocrypticism différance/internal-dialectics/difference-deferral', by its insight with respect to the implications of human limited-mentation-capacity for ontologically-veridical meaningfulness-and-teleology construal, is best predisposed to grasp the 'inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions' as of non-presencing-<as-to-perspective-ontological-normalcy/postconvergence> reference-of-thought as this enables transcendence-and-sublimity, thus fulfilling the full implications of knowledge as of its ontologically-veridical knowledge-notionalisation and organic-knowledge nature. Fundamentally this all has to do with human limited-mentation-capacity, as if at a given (re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-⟨imbued-postconverging/dialectical-thinking-'projective-insights'/'epistemic-projection-in-conflatedness'-of-notional~deprocrypticism-prospective-sublimation⟩) originary/event-of-prospective-ontology-origination moment humankind-as-of-its-integrant-individuals had a profound-and-complete mentation-capacity, then human meaningfulness-and-teleology will be absolutely identitive with no implied-différance/internal-dialectics/difference-deferral-of-meaningfulness-and-teleology requiring as of existential-constraint human limited-mentation-capacity-deepening-⟨<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ as the circular driving notion of différance/internal-dialectics/difference-deferral. The further insight here is that, such a most ontologically-complete profoundness/depth of 'phenomenological transcendental-point-of-departure handle in-its-overcoming-of-neuterisation' reflected by metaphysics-of-absence for the construal of knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue points to a fundamental epistemic-break/epistemic-resetting; with the latter arising as a result of lack of 'axiomatic commonness-in-sharedness of human meaningfulness-and-teleology with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-

'human<s>amplituding</s>/formative>epistemic-totalising~purview-of-construal'' as of the

variance of uninstitutionalised-threshold prior relative-ontological-incompleteness-of-reference-of-thought and prospective institutionalisation relative-ontological-completeness-of-reference-of-thought. For instance, such epistemic-break/epistemic-resetting associated with the overall ontological-contiguity—of-the-human-institutionalisation-process necessarily explains the 'mutually transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing unintelligibility' of the Galileos, Newtons, Diderots episteme articulating prospective positivising/rational-empiricism meaningfulness-and-teleology and the Establishment scholasticism medieval dogmatic episteme. The implication here is that the articulation of transcendence as of reference-of-thought is by itself tied up to a prospective epistemic disruption, construed as of soundness-or-authenticity-of-reference-of-thought, beyond just grounded knowledge as of the prior episteme which is rather construed as of unsoundness-or-inauthenticity-of-reference-of-thought. Such transcendental epistemic-breaks/epistemic-resetting arise because humankind is subpotent as of its knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue to the full-potency of existence, and in the human construal/conceptualisation of intrinsic-reality/ontological-veridicality, the 'superseding party' is not any involved humans as knowledge agents but inherent existential-reality itself, with any such humans as knowledge agents only 'pertinent in delegation' as of their 'kowtowing to existential-reality', with such delegation inherently revoked as of their failed 'kowtowing to existential-reality'. To the extent that human knowledge agents 'achieve sufficient-and-recurrent credibility as of their knowledge methods and approaches' with respect to social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩, an apparent episteme as of 'axiomatic commonness-in-sharedness of human meaningfulness-and-teleology with regards to the-very-same-immanent-existence/intrinsic-

reality/ontological-veridicality,-as-to-'human<~~amplituding~~/formative>epistemic-totalising~purview-of-construal'' arises as of institutional-being-and-craft. But then, where transcendental implications as of prospective institutionalisation prospective relative-ontological-completeness-of-reference-of-thought point to more profound reference-of-thought for construing/conceptualising existential-reality putting such a prior episteme in question, this induces a state of mutual ontological-bad-faith/inauthenticity between the prospective episteme and the prior episteme as of the lack of 'axiomatic commonness-in-sharedness of human meaningfulness-and-teleology with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<~~amplituding~~/formative>epistemic-totalising~purview-of-construal'' with respect to social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩; and so more than just as of beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>, but further because as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, there is 'a drift from the ideal of knowledge agents only as 'pertinent in delegation' as of their 'kowtowing to existential-reality' towards a teleologically-degraded exercise of institutional-being-and-craft muddlement. It should be noted that such a notional construct of episteme interpreted herein is implied as of 'dynamic social <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising' across the entire social spectrum as of notional~episteme dynamically covering both informal institutional settings and formal institutional settings. In the bigger scheme of things, such transcendental epistemic-breaks/epistemic-resetting in transition associated with the ontological-contiguity—of-the-human-institutionalisation-process as of human-subpotency–aporia/undecidability/dilemma/ought-

indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor arise wherein 'the prior shaman is being contested by a new shaman in a hunter-gatherer society' with possible accusations of witchcraft as of institutionalised-being-and-craft, wherein 'two or more traditional priesthoods of an early civilisation foment against one another', wherein 'sophistry and philosophy vie for what passes as valuable and true knowledge', wherein 'medieval scholasticism dogmatic knowledge and positivism/rational-empiricism knowledge vie for the interpretation of human and physical nature', and in our case wherein 'knowledge traditions including philosophical traditions are put into question as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, antinihilism and transcendental-enabling/sublimating knowledge perspectives'. Ultimately, this point out that epistemic-breaks/epistemic-resetting become inevitable wherein the prior knowledge episteme paradigmatically/structurally loses its way as of its initial justification as safeguarding the prospective possibility of enlightening human knowledge as of ontology's-directedness-as-Being, but then by its institutional-being-and-craft uninstitutionalised-threshold actually paradigmatically/structurally beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> undermines the prospective possibility of prospective enlightening human knowledge; and so, as increasingly the prior epistemic disposition is one that overlooks prospective inherent transcendental-enabling/sublimating of meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology> turning rather towards social-aggregation-enabling implications as meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology>, undermining the very notion of the intellectual exercise as about developing/institutionalising the social and not kowtowing-to-it construed as charlatanism! Further in all such transcendental contexts despite the fact that the-new is derived from the-old as for instance

416

the Descartes, the Galileos, the Leibnizes and the Newtons as budding positivists are the outcrop of Scholasticism itself, the-new epistemic-break/epistemic-resetting is justified in that even the-old is predicated on upholding Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of ontology's-directedness-as-Being going by the human intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm. Insightfully, that exercise is actually reflected as of temporal-to-intemporal individuations wherein the individual is rather a receptacle of temporal-to-intemporal individuations with variance of mental-dispositions among individuals an issue of variance as of skewness towards temporality/shortness or intemporality; such that even the budding positivists carried elements of scholasticism but were more definitely of a positivistic outlook, and many scholastics articulated notions which could more fruitfully be developed in a positivistic outlook but were stifled by their scholasticism dogmatic intellectual commitments. In effect, human limited-mentation-capacity however the institutionalisation-level as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor implies that it is impossible for the intemporal projection as longness-of-register-of-meaningfulness-and-teleology that prospectively construes of successive frameworks of 'reference-of-thought—devolving-teleological-structure-of-meaningfulness as of implicited-and-explicited reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue' as of the specific institutionalisation, to ensure that human meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology> will

remain intemporal-as-ontological as of their reference-of-thought–categorical-imperatives/axioms/registry-teleology given 'the impossibility of overcoming the abstract human seed of temporality/shortness dynamically involved, as of beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>, in a formulaic–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation deterministic relation with such reference-of-thought–categorical-imperatives/axioms/registry-teleology by <~~amplituding~~/formative>wooden-language-⟨imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology⟩ thus failing to uphold intemporal-preservation-entropy-or-contiguity–or–ontological-preservation'. Thus the ontological effectiveness of such intemporal-projection as longness-of-register-of-meaningfulness-and-teleology lies rather in undermining the existential possibility of the successive uninstitutionalised-thresholds/uninsitutionalisations as of bringing about prospective relative-ontological-completeness-of-reference-of-thought driven by ontological-faith-notion-or-ontoligical-fideism thus inducing social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩ which renders untenable temporality/shortness as of the given uninstitutionalised-threshold instigated from the prior institutionalisation's reference-of-thought–categorical-imperatives/axioms/registry-teleology denaturing; as implied with base-institutionalisation prospective relative-ontological-completeness-of-reference-of-thought over recurrent-utter-uninstitutionalisation, universalisation prospective relative-ontological-completeness-of-reference-of-thought over base-institutionalisation–ununiversalisation, positivism prospective relative-ontological-completeness-of-reference-of-thought over universalisation–non-positivism/medievalism, and prospectively deprocrypticism prospective relative-ontological-

418

completeness-of-reference-of-thought over positivism–procrypticism. Such that we can garner that it is a positivism registry-worldview's/dimension's institutionalisation prospective relative-ontological-completeness-of-reference-of-thought social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩ that makes it untenable for non-positivism/medieval temporal mental-dispositions to elicit non-positivism/medieval implied temporality. Likewise, prospectively it is a deprocrypticism registry-worldview's/dimension's institutionalisation prospective relative-ontological-completeness-of-reference-of-thought social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩ that can render it untenable for procrypticism temporal mental-dispositions to elicit procrypticism/disjointedness-as-of-reference-of-thought implied temporality. Thus aetiologisation/ontological-escalation is not about transforming the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor as overcoming temporality/shortness inherently, but rather it is about bringing about prospective relative-ontological-completeness-of-reference-of-thought. The reality of human registry-worldview's/dimension's institutionalisation and uninstitutionalised-threshold mental-dispositions imply that at the uninstitutionalised-threshold prospective institutionalisation knowledge as transcendental-enabling/sublimating is not socially integrated directly as of an dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation exercise engaging with intemporal-as-ontological meaningfulness-and-teleology. Such prospective intemporal-as-ontological meaningfulness-and-teleology is not necessarily perceived at the

uninstitutionalised-threshold as any more pertinent for attaining social approbation than other temporal meaningfulness-and-teleology as of the said uninstitutionalised-threshold. This point out that maximalising-recomposuring-for-relative-ontological-completeness mental-dispositions in their intemporality/longness or longness-of-register-of-meaningfulness-and-teleology are as of a projected-or-anticipated conflatedness of social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩ for institutional and formal deferential-formalisation-transference as of percolation-channelling. That is at the uninstitutionalised-threshold such intemporal-as-ontological meaningfulness-and-teleology is pragmatically expounded socially not in terms of its inherent dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation ideal which is socially-too-abstract but rather as a structuring/paradigmatic secondnatured construct of positive-opportunism as of institutional and formal deferential-formalisation-transference percolation-channelling to attain social approbation. It is such a 'conflatedness structuring/paradigmatic secondnatured construct of positive-opportunism of institutional and formal deferential-formalisation-transference as of percolation-channelling to attain social approbation' that holds together in social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩ temporal-to-intemporal solipsistic mental-dispositions as of a given secondnatured institutionalisation. Out of such a conflatedness structuring/paradigmatic secondnatured construct, intemporal-as-ontological meaningfulness-and-teleology is not necessarily perceived as any more pertinent for attaining social approbation than other temporal meaningfulness-and-teleology. In other words, the ideal articulation of base-institutionalisation meaningfulness-and-teleology in recurrent-utter-uninstitutionalisation, just

as that of universalisation in base-institutionalisation–ununiversalisation, positivism/rational-empiricism in universalisation–non-positivism/medievalism, and prospectively deprocrypticism in positivism–procrypticism; are only pertinent for attaining social approbation as of their conflatedness structuring/paradigmatic secondnatured construct of positive-opportunism of institutional and formal deferential-formalisation-transference as of percolation-channelling. This highlights that from the perspective of immediate-or-short-run social approbation, it is simpler though ontologically flawed as of constitutedness to engage a registry-worldview/dimension at its uninstitutionalised-threshold rather by an incrementalism-in-relative-ontological-incompleteness mental-disposition on the basis of its prior relative-ontological-incompleteness-of-reference-of-thought or its same metaphysical framework of contention rather than adopting at its uninstitutionalised-threshold a more complex but ontologically-veridical maximalising-recomposuring-for-relative-ontological-completeness mental-disposition on the basis of the prospective relative-ontological-completeness-of-reference-of-thought or superseding metaphysical framework of contention as of conflatedness. That is, engaging a non-positivism registry-worldview/dimension meaningfulness-and-teleology with respect to say notions-and-accusations-of-sorcery on its same terms in case of an accusation of sorcery to imply the other is the sorcerer, etc. will sound more credible as of its ~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ in a non-positivism social-setup than say projecting to prospective positivism registry-worldview/dimension meaningfulness-and-teleology and implying that notions-and-accusations-of-sorcery are not real speaking of both the defect of such accusation and the defective superstitious ~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-

of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ in the non-positivism social-setup. Ultimately, such a profound phenomenological <~~amplituding~~/formative>epistemic-totalising~conflated-meaningfulness-and-teleology-as-of-notional~deprocrypticism-reflected-historiality/ontological-eventfulness/ontological-aesthetic-tracing ontological-performance-<including-virtue-as-ontology> construal faced with the inherent dogmatic and psychological biases of human <~~amplituding~~/formative>epistemic-totalising~thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance-<including-virtue-as-ontology>s) in many ways necessarily has to project out of 'ordinariness of thought' for pretence of arriving at a sound construct capable of a most profound reflection of social ontological-veridicality. Consider with respect to a most profound emotional-involvement the issue of human imperilment as a test for the capacity for such requisite depth of transcendental contemplation. Consider for instance that tens of millions including soldiers killed in both the first and second world wars pass for mere victims of the wars in a bizarre twist of mutual <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that shuts-off-the-mind to the odious reality of mutual genocide, to say the least. Consider that in Russia a dictator responsible for killing about 25 millions of his own citizens is still considered a national hero by the majority. Consider that the first president of the United States in position of power was a slave-owner thus encouraging the Atlantic slave trade that led to genocidal proportions of deaths but he is venerated by a majority as the greatest U.S. President. Consider in a different sense though non-exculpatory that Heidegger a leading intellectual joined the Nazi party leaving 2 years later with hardly any critical influence on the party and is universally condemned today. Consider as well that many an intellectual or public figure today actively

or passively voiced for the recent wars killing millions whether in the Middle-East or elsewhere with a corresponding social indifference and mental shut-off. These profound considerations highlight the contemplative depth to which the social thinker needs to get to in order to truly be engaged in a transcendental-enabling/sublimating ontological-primemovers-totalitative-framework construal as implied with notional~deprocrypticism as preempting—disjointedness-as-of-reference-of-thought and so be able to keep their head up from drowning in human <~~amplituding~~/formative>epistemic-totalising~thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance-<including-virtue-as-ontology>s) in order to be able to produce 'veridical ontology' on a same parity as nature constrains on the natural sciences. Effectively, such transcendental insight points out that existence/existential-possibilities is inherently a radical ontology beyond our <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag in existence/existential-possibilities as 'hyperbolic pretences of ontology'. This author thinks that there can effectively be an engaging and constructive approach for arriving at such a depth of radical ontology warranted by existence/existential-possibilities that is transcendental-enabling/sublimating for the social avoiding the platitudes of our times such that many an intellectual have even given up to 'this all-powerful emotional-involvement element of the social'. Human <~~amplituding~~/formative>epistemic-totalising~thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance-<including-virtue-as-ontology>s) implies the need for a sound perpetuating construct of universal projection as intemporality-or-longness-of-register-of-meaningfulness-and-teleology as the opportunity for prospective transcendental-enabling/sublimating. Such a construct is a 'response construal' that

423

inherently enables transformative universal implications as beyond presence issues and complexes as it sublimates presence out of its failure. This is unlike the all too frequent construct of 'reactionary construal' caught up in presence as it is presence-serving and so whether as of positive or negative reaction; as even as a positive act a reactionary construal is hardly of entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness thus hardly as of aetiologisation/ontological-escalation. A hero as of a positive 'reactionary construal' may perfectly prevent a crime from happening and save the day but then such action is not dependable and the outcomes are unreliable as well together with the possibility on occasion of wrong judgement and/or wrong action or usurpation; thus the social construction of crime prevention needs an intellectualised social 'response construal' mechanism of universal implication that ensures dependability of crime prevention as of the foresight of law and policing management construed as of an intemporal-as-ontological intellectual projection exercise. This same depth-of-thought is warranted across the dynamic scope of the social including the political for true transcendental-enabling/sublimating beyond normative conventioned constructs bound to hold-up the possibility of prospective 'visions of humankind emancipation'. Such a depth of contemplation will fathom for instance that humankind appeared on earth about 100000 years ago but the pervasive structural/paradigmatic determinism of the nation-state which became common just about 500 years ago has been a source of much of humankind's problems as of 'reactionary construal' and humankind's constitutedness to the notion of nation-state seems to create an impasse for human Being-and-contemplative development. Consider again the possibility capable of arising as of a 'response construal' as effectively articulated by Derrida in his analysis of spirit. Derrida grasps that Heidegger strove to produce universal human meaningfulness-and-teleology but was caught up in the <~~amplituding~~/formative>epistemic-totalising~thrownness-in-existence (I exist therefore existence is of transcendental-

enabling/sublimating to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance-<including-virtue-as-ontology>s) as spirit failed to universalise and so Heidegger couldn't carry the effective implications of his work to its true universal conclusion as he was caught up in the 'reactionary construal' of them-and-us, as his commitment to the 'us' overlooked/didn't-come-into-grips with what the 'us' was doing, not to mention the possibility of him actually acting as transcendental over the them-and-us as a position of making a universal 'response construal'. This problem isn't particular to Heidegger but for the fact that the underlying regime of 'us' were the Nazis, as the them-and-us logic is intellectually rampant such that even Derrida was being condemned by many for not adopting it. The question can be asked whether any genuine intellectualism as providing a 'response construal' for humankind overall can construe of emancipation meaningfulness-and-teleology in them-and-us basis and whether this isn't a recipe for potential disaster as all them-and-us rationale are just variances of the same insanity! We can imagine that a true understanding and universal application of Derrida's spirit insight as a 'response construal' could have educated thought-and-intellectualism and prevent say the subsequent Rwanda and Burundi genocides in Africa from occurring with many supposedly normal and educated persons caught up in the overall mobbishness; but such a lesson can hardly come out from the prevalent them-and-us lazy intellectualism 'reactionary construal' which simply provides <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag comfort to protagonists by its lack-of or pseudo universal projection. Basically, a phenomenological extended metaphysics-of-absence as of notional~deprocrypticism perspective points out that humankind does have the possibilities of adopting an uninhibited/decomplexified posture for 'inventing' a whole new renewal/re-percepting/re-thinking beyond our apparently constricted metaphysics-of-presence framework which in reality is just presence 'hyperbolic dazing effect' utterly distinct from

the radical ontology possibilities of existence/existential-possibilities. Transcendence as implied here is with regards to reference-of-thought/epistemic-totalisation level 'reference-of-thought—devolving-teleological-structure-of-meaningfulness' which is the 'ontologically veridical enabling notion of transcendence' as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-

'human⟨~~amplituding~~/formative⟩epistemic-totalising~purview-of-construal' in epistemic-conflatedness as of underlying relative-ontological-incompleteness and relative-ontological-completeness reference-of-thought. Such a conceptualisation of transcendence is actually what a Kantian transcendental imagination and other subsequent philosophies of transcendence it inspired would have strove to arrive at, but according to this author wrongly understood transcendence rather as of 'phenomenal-abstractiveness' as the basis/grounding to then construe/conceptualise meaningfulness-and-teleology failing to factor in that 'existential phenomenal-abstractiveness conflates-in-effecting-wholeness-as-of-profoundness-and-completeness-to-meaningfulness-and-teleology all the way to consciousness as apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for the possibility of meaningfulness-and-teleology to then arise on the basis of such a given apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument'; given that it is consciousness that teleologically-registers/recognises phenomenal-abstractiveness as of meaningfulness-and-teleology in addition to the implications thereof with regards to the varying-as-transcending nature of consciousness with human limited-mentation-capacity-deepening-⟨⟨~~amplituding~~/formative⟩epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ arising in further conflatedness as of human maximalising-recomposuring-for-relative-ontological-completeness in an exercise of ⟨~~amplituding~~/formative⟩epistemic-totalising~renewing-realisation/re-perception/re-thought that re-projects-or-re-anticipates the-very-same-immanent-existence/intrinsic-

reality/ontological-veridicality,-as-to-'human~~amplituding~~/formative>epistemic-totalising~purview-of-construal', and so as of a retrospective to prospective insight. Hence such philosophies failing to grasp that phenomenal-abstractiveness is ultimately as of 'a conflatedness and so construed from the perspective of ~~amplituding~~/formative>epistemic-totalising~conflated-meaningfulness-and-teleology-as-of-notional~deprocrypticism-reflected-historiality/ontological-eventfulness/ontological-aesthetic-tracing' actually ended up inducing constitutedness in striving to construe meaningfulness-and-teleology vaguely from phenomenal-abstractiveness as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. In other words, constitutedness tend to fallaciously imply existence-in-existence or existence-of-things-in-existence whereas conflatedness rightly implies becoming-in-existence-rather-as-subsumed-in-existence or things-becoming-in-existence-rather-as-subsumed-in-existence as of underlying 'coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness' (so-enabled by underlying supposedly coherent ontological-commitment as of ontological-primemovers-totalitative-framework <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human) or 'consciousness's ontological-performance-<including-virtue-as-ontology> construed in amalgamation as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<~~amplituding~~/formative>epistemic-totalising~purview-of-construal''. This notion of conflatedness construal of existence as of becoming-in-existence-rather-as-subsumed-in-existence is critical in that all notions that naively imply an intercession between human becoming and existence construed as existence-in-existence, such as the transcendental ego perspective, end up in constitutedness as the said 'transcendental ego cannot invent existence as if preceding existence' thus inducing constitutedness. Rather existence—as-the-absolute-a-priori-of-conceptualisation is by itself construed as 'the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<~~amplituding~~/formative>epistemic-totalising~purview-of-construal' with nothing else outside or preceding it'; as existence is an implied-axiomatic-construct-construed-as-reference-of-thought as an implied-theory, with the 'implied about existence' arising as of a given/specific apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument

as of a given human limited-mentation-capacity implied registry-worldview/dimension consciousness, such that meaningfulness-and-teleology is as of existence's implied axiomatic-devolving-teleological-structure-of-meaningfulness-as-of-instantiative-context

with no meaningfulness-and-teleology construable outside it but for an epistemic-totalising~renewing-realisation/re-perception/re-thought of prospective 'apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reference-of-thought' as of human limited-mentation-capacity-deepening-(<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) implied prospective registry-worldview/dimension consciousness and its corresponding existence's the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<~~amplituding~~/formative>epistemic-totalising~purview-of-construal' implied axiomatic-devolving-teleological-structure-of-meaningfulness-as-of-instantiative-context,

Such a conflatedness insight as of notional~deprocrypticism rather points out that soundness-or-authenticity of meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology> arises as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology involving the ontological-contiguity—of-the-human-institutionalisation-process induced various consciousnesses up to the protensive-consciousness enabling transcendental centered–epistemic-totalisation, as of human limited-mentation-capacity-deepening-(<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation). Actually, this author holds that the very fundamental handicapping issue to meaningfulness-and-teleology as of the philosophical tradition lies in the naïve human mental-reflex of implying that 'a given human determination of the effecting basis/foundation/axiomatic-construct derived/deciphered from existential-instantiations as underlying the presence institutionalisation <amplituding/formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving-as-of-instantiative-context—meaningfulness-and-teleology carries-and-reflects all the depth/profoundness of existence/existential-possibilities', thus not allowing for the possibility for further imbricatedness/threadedness/recomposuring as of existence/existential-possibilities of existential-instantiations outside any such reference-of-thought determination; such reference-of-thought determination being affixed rather in constitutedness as of any of the various registry-worldviews/dimensions specific underlying apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reference-of-

thought such as 'non-rules—apriorising/axiomatising/referencing–psychologism,-as-impulsive-or-accidented-or-random-mental-disposition of recurrent-utter-uninstitutionalisation' not cognisant of the conflatedness possibility of prospective base-institutionalisation prospective relative-ontological-completeness-of-reference-of-thought, 'rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism of base-institutionalisation–ununiversalisation' not cognisant of the conflatedness possibility of prospective universalisation prospective relative-ontological-completeness-of-reference-of-thought, 'universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism of universalisation–non-positiivism/medievalism' not cognisant of the conflatedness possibility of prospective positivism prospective relative-ontological-completeness-of-reference-of-thought, and in our case 'positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism of positivism–procrypticism' not cognisant of the conflatedness possibility of futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism prospective relative-ontological-completeness-of-reference-of-thought. Such that it thus construes as absolutely reflecting existence/existential-possibilities by operations of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity on the basis of that given determination reference-of-thought–categorical-imperatives/axioms/registry-teleology with the consequence that its constitutedness, since it doesn't allows for superseding existence/existential-possibilities, now 'contradictorily-and-naively supersedes-and-is-determinative-of existence itself' rather than taking its cue from the conflatedness of existence/existential-possibilities given the imbricatedness/threadedness/recomposuring of existential-instantiations and as reflected at

registry-worldview/dimension depth of construal as of reference-of-thought; as it then fails to grasp that 'there is no understanding to be had outside the conflatedness of existence as of prospective relative-ontological-completeness-of-reference-of-thought' with any such conceptualisation being nothing but vague virtuality that is not as of ontological-contiguity and ontological-veracity. Thus the problem of the philosophical tradition is notionally one of erroneous constitutedness, and this issue is recurrent-beyond-historiality/ontological-eventfulness/ontological-aesthetic-tracing-with-the-latter-only-a-bi-manifestation-of-the-reccurence,-as-psychically-recurrent as of human shallow to deepening limited-mentation-capacity due to inherent human temporality/shortness and intemporality/longness across all registry-worldviews/dimensions, and speaks of a human existential-extrication-as-of-existential-unthought disposition reflected as historiality/ontological-eventfulness/ontological-aesthetic-tracing as of the notional~conflatedness of notional~deprocrypticism behind the reality of a conceptualisation of human nature rather more completely as of institutionalisation and uninstitutionalised-threshold mental-dispositions. As highlighted before: consciousness is the point-of-focus <~~amplituding~~/formative>epistemic-totalising~conflated-meaningfulness-and-teleology-as-of-notional~deprocrypticism-reflected-historiality/ontological-eventfulness/ontological-aesthetic-tracing ontological-performance-<including-virtue-as-ontology>, so-derived as it solipsistically constructs-and-reconstructs underlying 'coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness' (so-enabled by underlying supposedly coherent ontological-commitment as of ontological-primemovers-totalitative-framework <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as

human) and developing meaningfulness-and-teleology as of understanding/reconstruing/correcting/adapting/maturing, taking its cue from the conflatedness of existential-instantiations successions as it construes of existence/existential-possibilities as living-being. Such 'focusing construed as consciousness' explains why axiomatic-constructs are explicited and implicited/intuited as of a living-being <~~amplituding~~/formative>epistemic-totalising~conflated-meaningfulness-and-teleology in coherence/contiguity-of-superseding–oneness-of-ontology. The above conception fundamentally underscore the development and how all human knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue arises existentially as of consciousness, and is singularly reflected as of language development which is the 'signifying mirroring' of human meaningfulness-and-teleology. The implication here is that meaningfulness-and-teleology as of 'existential self-referencing' and 'existential syncretising-effecting' construed as <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag corresponds to language as of its 'underlying <~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating signifying-construct' and its 'metaphoricity'; in reflecting how human social-stake-contention-or-confliction induces human transcendence-as-of-full-transcendental-potential underlying knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue. Consciousness, and as reflected by the signifying mirroring of meaningfulness-and-teleology that is language, is thus a point-of-focusing axiomatic/reference-of-thought devolving-construal disposition for meaningfulness-and-teleology as of the 'human species sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence as of existential-stakes migration enabled by human limited-mentation-capacity-

deepening-⟨~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩' that speaks of 'meaningfulness-and-teleology accreting-substitutive-subsumption-as-futural-différance-freeplay construed here as the human species consciousness-différance', reflected by notional~deprocrypticism conceptualised historiality/ontological-eventfulness/ontological-aesthetic-tracing as of the conflatedness of the successive human consciousnesses 'reference-of-thought—devolving-teleological-structure-of-meaningfulness'. Thus consciousness by its full development as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology speaks fundamentally of the entire narrative possibilities of the human species as of human sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence. Such 'consciousness conflatedness of meaningfulness-and-teleology' is reflected by the signifying mirroring of meaningfulness-and-teleology that is language as of its metaphoricity. Metaphoricity can thus be construed as the signification of articulated meaningfulness-and-teleology as of reference to existential-instantiation contexts adjunctively and not as naturally devolving into the 'underlying ~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating signifying-construct of language' as signification of reference-of-thought, such that metaphoricity is rather an 'adjunctive incorporation' to the 'underlying ~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating signifying-construct of language'. The 'underlying ~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating signifying-construct of language' as of its self-referencing meaningfulness-and-teleology is always susceptible to the further deepening of human limited-mentation-capacity as of ~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought such that prospective meaningfulness-and-teleology arises out of the adjunction to this

'underlying <~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating signifying-construct of language' and is adjoined to it as metaphoricity, with metaphoricity construed as the signification implied as of syncretising-effecting meaningfulness-and-teleology. Thus language effectively reflects the <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag reality of human meaningfulness-and-teleology, as language is always a blending of the 'underlying <~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating signifying-construct of language' with the conflatedness adjunction of its metaphoricity. It is interesting to grasp here that a signifying-construct as signification of 'the self-referencing of meaningfulness-and-teleology' is always <~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating and is effectively signifying a reference-of-thought as of 'reference-of-thought—devolving-teleological-structure-of-meaningfulness'. Such centered-<~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating meaningfulness-and-teleology construed as reference-of-thought, and its signification as implied by an 'underlying <~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating signifying-construct of language' necessarily has to do with the fact that meaningfulness-and-teleology is as of a 'coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness' (so-enabled by underlying supposedly coherent ontological-commitment as of ontological-primemovers-totalitative-framework <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human) for intelligibility to arise, thus is construed as reference-of-thought as of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-

'human~~amplituding~~/formative>epistemic-totalising~purview-of-construal'; as we know intuitively that meaning is always about the-one-meaning as well as a perspective/framing/reference/horizon were all the-one-meaning cohere/are-in-ontological-contiguity metaphoricity as of human limited-mentation-capacity-deepening-⟨~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ adhocly produces by conflatedness adjunctive significations where these do not fit in with the 'underlying ~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating signifying-construct of language' due to the implications of human limited-mentation-capacity as of relative-ontological-incompleteness-of-reference-of-thought when conceptualising about such an 'underlying ~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating signifying-construct of language'. But then an adjunctive-metaphoricity-signification so produced as reflected by 'a transcendental syncretising-effecting meaningfulness-and-teleology' like the construal of budding positivism/rational-empiricism in medieval society, may turn out in-due-course/cross-generationally to be of an even greater meaningfulness-and-teleology ~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating effect over the prior notion of the 'underlying ~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating signifying-construct of language' and thus prospectively become the 'underlying ~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating signifying-construct of language'; and so as of accreting-substitutive-subsumption-as-futural-différance-freeplay, by SUBSUMING some significations of the prior 'underlying ~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating signifying-construct of language' together with some adjunctive-metaphoricity-significations of the prior 'underlying ~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating signifying-construct

of language', while ELIMINATING some significations of the prior 'underlying <~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating signifying-construct of language' and so together with some adjunctive-metaphoricity-significations of the prior 'underlying <~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating signifying-construct of language', and finally LEAVING-OUT some significations of the prior 'underlying <~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating signifying-construct of language' and so together with some adjunctive-metaphoricity-significations of the prior 'underlying <~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating signifying-construct of language', as its very own as the prospective 'underlying <~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating signifying-construct of language' adjunctive-metaphoricity-significations to which other adjunctive-metaphoricity-significations could be incorporated adjunctively. Effectively, with the positivism/rational-empiricism self-referencing <~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating construct of meaningfulness-and-teleology, its adjunctive-metaphoricity-signification can be construed as of the historiality/ontological-eventfulness/ontological-aesthetic-tracing of cross-generational positivism/rational-empiricism reappropriation of the ancient mathesis universalis metaphoricity as its very own 'underlying <~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating signifying-construct of language' 'behind the instigative-drive for construing all human knowledge' by such enlightenment thinkers like Galileo and ubiquitously with Descartes that rolled-over into later thinkers like Leibniz, Newton, and ultimately subverted medievalism and scholasticism leading to our present positivism/rational-empiricism dominant <~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating construct of meaningfulness-and-teleology. Existence itself as the absolute a priori underscores such a conception given the human species

sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence as of existential-stakes migration; since the existential dispositions of human subjects relative to social-stake-contention-or-confliction arises as of 'their living existential-instantiations', and where they construe meaningfulness-and-teleology as not self-referentially covered by the 'underlying <~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating signifying-construct of language', they will inevitably articulate adjunctive-metaphoricity-significations to that prior 'underlying <~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating signifying-construct of language'. This explains the lockstep nature of human meaningfulness-and-teleology and language, with the latter as the former's signification mirroring, such that institutional-cumulation/institutional-recomposure is actually as of 'accreting-substitutive-subsumption-as-futural-différance-freeplay construed here as of 'intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity' différance', with regards to 'human species sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence as of existential-stakes migration', and speaks of a non-speculative, non-imaginary, theoretical, conceptual and operant construal of an internal-dialectic in existential-contextualising-contiguity/Derridean-différance/Sartrean-existence-precedes-essence/Heideggerian-essencing-as-of-the-ontological-difference construed as of human limited-mentation-capacity-deepening-(<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-

supererogation). Such adjunctive-metaphoricity-significations conflatedness ~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity mirror the syncretising-effecting as of the acculturation-indigenisation-pidginisation behind dialectal differentiation, national language formation, and the cultural diffusion associated pidginisation and creolisation; as of social-stake-contention-or-confliction context adjunctive-metaphoricity-significations conflatedness induced 'underlying ~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating signifying-construct of languages'. In another respect with regards to language acquisition as mirroring a child's existential integration into the dynamics of social-construct existential situations/instances, stakes, institutions and processes, a new born child existential integration into society, from its perspective, develops as of a dynamics of adjunctive-metaphoricity-significations in 'significations accreting-substitutive-subsumption-as-futural-différance-freeplay construed here as the phenomenology of human language acquisition différance' that fundamentally mirror the child's developing existential social relationships as an ordered process of social existential overtures constraining-and-cohering the child's adoption-of/integration-with the supposedly 'underlying ~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating signifying-construct of language' as of a peculiar, intuitive and dynamic developing metaphoricity where 'both the child and members of the overall social-construct existentially adjust to each other as of spurious meaningful utterances like mutual babbling and baby-talk' while implicitly converging towards the child's adoption/integration at various stages of its existential development of the 'underlying ~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating signifying-construct of language' as it is reflected by the dynamics of social-construct existential situations/instances, stakes, institutions and processes. But then as might be phenomenologically appreciated the notion of language as of its existential import is thus

utterly dynamic as an overall signification construct that is never 'absolutely present' but rather 'immensely existentially present' with an 'absolute language signification construct imagery rather implied as of projection/anticipation but not phenomenologically real' explaining the concrete variation of individuals linguistic performance, as the phenomenality of language is rather held together by 'the given social-setup underlying supposedly coherent ontological-commitment for its evolving-and-devolving construct of meaningfulness-and-teleology'! Thus phenomenologically, 'language arises, ebbs and flows as of a continuously-elusive individual and collective-social consciousness steering that reflects the <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag dynamics of individual and collective-social meaningfulness-and-teleology', and this equally explains why language evolves and transforms over time. In effect, 'language is never phenomenologically the complete possibilities of language as an absolute present conception but is rather a becoming as of an immensely-existentially-present signification reflected by individuals and the collective-social along existential development stages as of the dynamics of social-construct existential situations/instances, stakes, institutions and processes'. The above insight further points out the pertinence of construing-of and analysing language more completely as of human existentialism/thrownness/facticity, giving that language is more phenomenologically-and-pragmatically a signification accompaniment of 'individuals and the collective-social along existential development stages as of the dynamics of social-construct existential situations/instances, stakes, institutions and processes'. This highlights the 'knowledge implications as of accreting-substitutive-subsumption-as-futural-différance-freeplay with regards to such a phenomenological conception of language as a lockstep veridical reflection of human personality development all along the various existential stages as of a notion of the dynamics of social-construct existential situations/instances, stakes, institutions and processes

from childhood to adulthood', notwithstanding the fact that the privileged social conceptualisation of language is as of 'language as the complete possibilities of language as of an absolute present conception usually of a privileged end-institution purpose'. Metaphoricity is thus rather construed as of its overall conflatedness <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity of full consciousness development as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology underlying human sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence, beyond just mere figurativeness but as of figurative projected implications of individuals and the collective-social meaningfulness-and-teleology as of their peculiarity/differentiation to the entire textual/hermeneutical rhetorical-stylistic-semantic delivery, and as such metaphoricity induces <~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating signification in producing, as of accreting-substitutive-subsumption-as-futural-différance-freeplay, 'underlying <~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating signifying-construct of language' and together with its associated adjunctive-metaphoricity-significations. Overall, human explicit and implicit signification as of language as articulated above is equally reflected in human aesthetics/arts like music and even science. Ultimately, human adjunctive-metaphoricity-significations conflatedness reflecting syncretising-effecting superseding of human self-referencing signifying-constructs as of the need to supersede the limited certitude as of human limited-mentation-capacity, inherently implies that the possibility for 'absolute certitude as of its theoretical possibility' lies with such an adjunctive-metaphoricity-significations conflatedness as of syncretising-effecting as ultimately converging towards a deprocrypticism or preempting—disjointedness-as-of-reference-of-thought and so as of the prospect of an

ontologically-veridical Theory of Everything, and insightfully with regards to elucidating the pervasiveness of 'accreting-substitutive-subsumption-as-futural-différance-freeplay construed as différance in conflatedness' associated with human existential grasp of knowledge as of the implications of its limited-mentation-capacity. The notion of accreting-substitutive-subsumption-as-futural-différance-freeplay as underlying human limited-mentation-capacity induced différance highlights the phenomenological reality all along humanity's existence of 'the privileging of ontological-construction' as from the perspective/framing/reference/horizon of the end-purpose of the various relevant dominant social agencies and social institutions, and so as reflected as of humanity's existence historiality/ontological-eventfulness/ontological-aesthetic-tracing. While such a privileging as of immediate/instant existential implications like say parents and society privileging the conception of what is language in terms–as-of-axiomatic-construct of its end-purpose as of the perspective of the child's integration in various social structures and institutions; however, in the bigger picture the fact that social structures and social institutions dysfunction as of human limited-mentation-capacity, point to the 'ontological-veracity of fundamentally re-evaluating the pertinence of only-a-social-and-institutional-end-purpose-perspective/framing/reference/horizon driven basis for ontological-construction', and so as of a putting into question exercise. Ultimately, such privileged perspective/framing/reference/horizon as of its 'non-recording and negation' of a 'diverse-and-complete existential effecting possibilities accountability for ontological-construction', and rather assuming the approach of a 'select privileged historiality/ontological-eventfulness/ontological-aesthetic-tracing ontological-construction', instead incompletely portrays the operant reality of humanity's existence as of the cumulation of successive humanity's <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as implied with the various

institutionalisations finalities. But then while that is pertinent, and so with regards to the successive institutionalisations outcomes of 'intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism ~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity' as successive transcendental outcomes, so reflected by the historiality/ontological-eventfulness/ontological-aesthetic-tracing; this doesn't reflect an inherent différance operant phenomenological process reality. Such a reality is actually reflected as of accreting-substitutive-subsumption-as-futural-différance-freeplay as of transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing of various temporal-to-intemporal perspectival existential amalgamation that structurally/paradigmatically reflect the dynamics of human ontologically-veridical construals and misconstruals towards transcendence. Accreting-substitutive-subsumption-as-futural-différance-freeplay is thus reflective of the fulsome humanity existential ontological-conceptualisation dynamics than just as of the select ontological-veracity of the privileged as dominant social and institutional end-purpose perspective/framing/reference/horizon. Consider in this regard supposedly that 'traditional classical mechanics axiomatic-construct' and the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs reflect an historiality/ontological-eventfulness/ontological-aesthetic-tracing as transcendental outcomes of such différance, accreting-substitutive-subsumption-as-futural-différance-freeplay is not only about the successive ~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as différance transcendental outcomes as of 'developed classical mechanics' and then 'developed theory-of-relativity-together-with-

quantum-mechanics—axiomatic-constructs'' as of their prospective relative-ontological-completeness/relative-ontological-contiguity as axiomatic-constructs of 'the very same physics <~~amplituding~~/formative>epistemic-totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality', but will grasp the deeper-level phenomenological insight with regards to all the background efforts and contributions that ultimately brought about these two successive <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag construed as the historiality/ontological-eventfulness/ontological-aesthetic-tracing of the différance. The implication here resonates with the idea that knowledge is much more than the construal of conceptual knowledge outcome, but rather its construal as notional~knowledge involving the dynamic understanding of both its temporality/misconstrual and intemporality-as-ontological-construal as of accreting-substitutive-subsumption-as-futural-différance-freeplay involving specifically disambiguation as of human limited-mentation-capacity dynamics as of deneuterising—referentialism and thus beyond neuterising' reflecting the difference-in-nature/difference-in-apriorising-or-axiomatising of the uninstitutionalised-threshold and the prospective institutionalisation; as the 'effecting implications of knowledge' are more than just about its conceptualised intemporality-as-ontology but involves grasping this together with the implications of temporality, and so because of the circular existential implications of human limited-mentation-capacity. Hence language can be more pertinently construed ontologically as of the social dynamics of existential meaningfulness-and-teleology signification than just as of just an outcome privileged institutional end-purpose perspective/framing/reference/horizon that is in many ways ad-hoc and phenomenologically uninsightful as of the many existential implications behind comprehending language. Thus human privileged social and institutional end-purpose perspective/framing/reference/horizon

tend to be in constitutedness. Further such accreting-substitutive-subsumption-as-futural-différance-freeplay is the existentially veridical and effective basis for reflecting historiality/ontological-eventfulness/ontological-aesthetic-tracing transcendental outcome as can be implied in a storied-construct/ontologically-valid-narration as of existentially insightful meaningfulness-and-teleology. Such a perspective should possibly usher in a 'suprastructural postmodernism in everything' including such nascent contemplations for breaking out of currently perceived subject-matter doldrums as implied with postmodern social sciences, postmodern humanities, postmodern art, postmodern science, postmodern mathematics and postmodern physics, and so notwithstanding a history of post-structuralism critiques of ontological-bad-faith/inauthenticity 'with moronic incantations that fail the mark of even bad intellectual arguments as social-aggregation-enabling invocations', granted as of their beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>; as such a statement is not gratuitous given the mere fact that where knowledge-as-of-organic-knowledge as of human intemporality/longness doesn't take its due place, it is occupied by ignorance as of human temporality/shortness with consequent nefarious ramifications for Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology.

Basically, just as the adjunctive-metaphoricity-signification instigation of positivistic rationality as a potent construct took the form of a centered–epistemic-totalisation permeating all aspects and subject-matter domains of human existence and so for the better with regards to Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, postmodern-thought and as of its underlying phenomenological depth transcendentally carries prospective Being adjunctive-metaphoricity-signification as of a potent construct for a centered–epistemic-totalisation permeation and sublimation of all aspects and subject-matter domains of human

existence, and so for the better of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology.

Such phenomenology as the 'deepest phenomenological transcendental-point-of-departure handle as of the notional~conflatedness of notional~deprocrypticism deneuterising—referentialism' is operantly enabled by accreting-substitutive-subsumption-as-futural-différance-freeplay and is the maximal ontologically veridical articulation of conflatedness that 'undermines the privileging of <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as of its ubiquitous-protractedness/structural-or-paradigmatic 'ontological-contiguity or difference-of-kind' disposition, and so beyond just reflecting such presencing—absolutising-identitive-constitutedness privilege undermining as of transcendental outcomes implied by historiality/ontological-eventfulness/ontological-aesthetic-tracing. While the 'Derridean quasi-transcendental-freeplay différance' by its rather quasi-transcendental-freeplay orientation doesn't quite get to such a phenomenological depth of conflatedness, it does effectively elicit such an underlying conception of phenomenological profoundness. As such a 'Derridean quasi-transcendental-freeplay différance' is what is meant to be understood as a relatively more pertinent ontologically depth for such a more evolved and 'experimental' articulation of différance in the strive to maximally undermine <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag implied in the Glas experimental project which goal is well beyond the two texts but more fundamentally a demonstration of 'sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence' as multifaceted. Ultimately, 'Derridean quasi-transcendental-freeplay différance' unsuspectingly points out that meaningfulness-and-teleology imply by default a given perspective/framing/reference/horizon, such that as of a

<amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag meaningfulness-and-teleology facet it is then already compromising non-presencing–or–withdrawal–or–metaphysics-of-absence–or–transcendental-reasoning-of-event-as-prospective-ontology-origination meaningfulness-and-teleology facet. Thus, this author holds that such a 'Derridean quasi-transcendental-freeplay différance' is fundamentally incomplete as of comparison with the implied conflatedness of accreting-substitutive-subsumption-as-futural-différance-freeplay which is truly transcendental. The former fails to factor in that human limited-mentation-capacity has to establish the appropriate 'perspective/framing/reference/horizon implications' with regards to meaningfulness-and-teleology, and so as disambiguating presencing—absolutising-identitive-constitutedness from non-presencing-<as-to-perspective-ontological-normalcy/postconvergence> by their respective acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, such that unsuspectingly the 'Derridean quasi-transcendental-freeplay différance' not doing that rather represents the presencing—absolutising-identitive-constitutedness as the common perspective/framing/reference/horizon for both, thus falsely pointing to 'difference-in-kind/difference-in-aposteriorising-or-logicising between presencing—absolutising-identitive-constitutedness and non-presencing-<as-to-perspective-ontological-normalcy/postconvergence> (rather than difference-in-nature/difference-in-apriorising-or-axiomatising), and so contradictorily as if both are of the presencing acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. With the reality that non-presencing-<as-to-perspective-ontological-normalcy/postconvergence> is wrongly-and-unsuspectingly given as of common presencing—absolutising-identitive-

constitutedness, thus inducing a relative ontologically-flawed quasi-transcendental freeplay as non-presencing-<as-to-perspective-ontological-normalcy/postconvergence> is rather in notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised~preconverging/dementing–qualia-schema> when analysed as of presencing—absolutising-identitive-constitutedness. Consider in this regard 'the very same physics <~~amplituding~~/formative>epistemic-totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality' with the articulation as of prior relative-ontological-incompleteness being 'traditional classical mechanics axiomatic-construct' and the articulation as of prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought being the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs; now, articulating meaningfulness-and-teleology of 'the very same physics <~~amplituding~~/formative>epistemic-totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality' as of 'traditional classical mechanics axiomatic-construct' construed as presencing—absolutising-identitive-constitutedness makes the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs construed as non-presencing-<as-to-perspective-ontological-normalcy/postconvergence> to wrongly be of notional-contiguity/epistemic-contiguity-<mentally-aestheticised~postconverging/dialectical-thinking–qualia-schema> with the 'traditional classical mechanics axiomatic-construct' presencing—absolutising-identitive-constitutedness. Consider in this regard that the 'Derridean quasi-transcendental-freeplay différance' is akin to the contributions of many prior seminal scientists like Poincaré, Lorentz, Plank, Rutherford and others to the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs but whose works were still being interpreted in terms-of/adjunctive-to 'traditional classical mechanics axiomatic-construct' thus explaining the reality of a notional-discontiguity/epistemic-discontiguity-<mentally-

aestheticised~preconverging/dementing–qualia-schema> between the two as of their distinct acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument.   Whereas accreting-substitutive-subsumption-as-futural-différance-freeplay is akin to the complete 'epistemic-break', as of Einstein's defining-threshold contribution with the-theory-of-relativity and Bohr's defining-threshold atomic-model contribution to quantum-mechanics together with other seminal scientists subsequent contributions that ultimately led to 'the very same physics <~~amplituding~~/formative>epistemic-totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality'   transcendence-and-sublimity as of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs   interpretation   as   of   non-presencing-<as-to-perspective-ontological-normalcy/postconvergence>. In any case thus such a 'Derridean quasi-transcendental-freeplay différance' doesn't have any serious ontological consequences with respect to presencing—absolutising-identitive-constitutedness since it is reflected with the Glas experimental project, but it fails to recognise the possibility of a futural différance where meaningfulness-and-teleology is construed as of the prospective non-presencing-<as-to-perspective-ontological-normalcy/postconvergence>

acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument which points to a prospective relative-ontological-completeness/ontological-contiguity as of the very same <~~amplituding~~/formative>epistemic-totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality; even though it is the first step towards such a futural différance transcendence-and-sublimity. It equally explains such a Derridean conclusion that human sublimation is an always evasive notion given its failure to recognise the difference-in-nature/difference-in-apriorising-or-axiomatising as of the transcendental implications of

prospective non-presencing-<as-to-perspective-ontological-normalcy/postconvergence> in inducing sublimation, with such a difference-in-nature/difference-in-apriorising-or-axiomatising arrived at by human limited-mentation-capacity-deepening-(<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ as of ontological-dementation/dialectical-dementation–stranding/attributive-dialectics involving ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality driven re-projection/re-anticipation as of prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument about 'coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness' (so-enabled by underlying supposedly coherent ontological-commitment as of ontological-primemovers-totalitative-framework <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human), and validated as of ontological-primemovers-totalitative-framework; as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality 'promise of correspondence between human-subpotency as of Being-and-consciousness development and existence as of ontological-veridicality'. It is interesting again to note that the so-renewed 'underlying <~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating of physics' as the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as of transcendence-and-sublimity, is not arbitrarily arising from any human-subpotency presencing—absolutising-identitive-

constitutedness but is rather divulged-as-of-relative-ontological-contiguity from existence-potency-prospective-digression-of——<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness by the fact of 'human-subpotency ontological-faith-notion-or-ontological-fideism——imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality led projection/anticipation' ultimate validation by ontological-primemovers-totalitative-framework. This meaningfulness-and-teleology centered–epistemic-totalisation-inducing-transcendence-and-sublimity metaphoricity thus perfectly satisfies the 'foreboding concern for ontological-veracity' critically pursued by the Derridean freeplay différance, as it is existence——as-the-absolute-a-priori-of-conceptualisation that phenomenological validates transcendence-and-sublimity, and so implying human limited-mentation-capacity-deepening-⟨<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence——as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩; and thus, this point that enables the Derridean freeplay différance as of tendential-deliberation-of-decidability to achieving transcendence-and-sublimity is the full conflatedness reflecting existence——as-the-absolute-a-priori-of-conceptualisation in its non-presencing-<as-to-perspective-ontological-normalcy/postconvergence>, and so beyond just a Derridean freeplay différance which is then in constitutedness as not factoring in the process of a tendential-deliberation-of-decidability towards attaining transcendence-and-sublimity. Insightfully, we can grasp that the Derridean freeplay différance becomes as of constitutedness because 'reasoning itself has become defective' as presupposing-by-the-Derridean-freeplay to supersede existence——as-the-absolute-a-priori-of-conceptualisation. So because at the point of transcendence-and-sublimity reasoning is still presupposing thought-determination instead of given up to the possibility of existence's divulgation construed as ontological-faith-notion/ontological-fideism, and so erroneously become the transcendental-signifier of existence despite the

reality of human limited-mentation-capacity which priority at that point should be the need for validation from existence—as-the-absolute-a-priori-of-conceptualisation and not make any determination priorly, even as of freeplay. Furthermore, it is wrong to construe/equate as imagination such ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality that as 'hunch' restores existence—as-the-absolute-a-priori-of-conceptualisation, since in reality it is rather pushing reasoning to its very limits in a notional disposition that is not guaranteed, and only occasionally as of tendential-deliberation-of-decidability is it confirmed by existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness as validatable by ontological-primemovers-totalitative-framework. Thus behind ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality as 'hunch' is a transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing depth of reasoning and perspective which is pushed to its brink in projection/anticipation/expectancy. The fact is ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality exhausts-and-supersedes-reasoning as of projection/anticipation/expectancy with no prior certitude, and is more than just imagination which rather comes prior to and is exhausted-and-superseded-by-reasoning. Such a lack of prior certitude explains why transcendence-and-sublimity 'are not really reasoned-out' but rather discovered-as-divulged by existence, with the human-subpotency concern being one of adopting the right attitude/mental-disposition/care–and–episteme that allows existence-as-full-potency to come up with the divulgation. Ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-

as-of-existential-reality as such is equally the basis for implying a correspondence theory of human thought and reality, as not really arising as of any instantative absolute correspondence but rather as of the 'promise of prospective human ontological-completeness-of-reference-of-thought' implied by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality as of non-presencing-<as-to-perspective-ontological-normalcy/postconvergence> in continually opening-up 'the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<amplituding/formative>epistemic-totalising~purview-of-construal'', and so-reflected in the ontological-contiguity—of-the-human-institutionalisation-process as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. It should be noted that reasoning-as-intelligibility rather harkens back to a given 'registry-worldview's/dimension's reference-of-thought <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag established existential–epistemic-totalisation-of-meaningfulness-and-teleology' to which it tends to be engaged with in an incrementalism-in-relative-ontological-incompleteness reflex as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. We can appreciate that the medieval mindset reasons in terms of medievalism–non-positivism just as we reason in terms of our positivism–procrypticism mindset. The question can thus be asked is there more profound meaningfulness-and-teleology beyond any given registry-worldview/dimension mindset divulgeable by existence—as-the-absolute-a-priori-of-conceptualisation? It is herein that we get into the realm of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality as of ontological-

dementation/dialectical-dementation–stranding/attributive-dialectics inducible apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. In other words, under sufficient constraint of existence/existential-reality-itself given its absolute a priori status, as reflected by ontological-primemovers-totalitative-framework/contingency, human intemporal individuation is predisposed to put in question even a 'registry-worldview's/dimension's reference-of-thought ~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag established existential–epistemic-totalisation-of-meaningfulness-and-teleology' as of a reconstrual of reference-of-thought and devolving-axiomatic-constructs implications, and so as of maximalising-recomposuring-for-relative-ontological-completeness. This insight about ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality further reveals that prospective non-presencing-<as-to-perspective-ontological-normalcy/postconvergence> implies prospective renewal of attitude/mental-disposition/care–and–episteme, as of ontological-dementation/dialectical-dementation–stranding/attributive-dialectics which at once draws out the renewed implications of what qualifies as affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-validating-measuring-<postconverging-or-dialectical-thinking–apriorising-psychologism> and unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitablemeasuringinstrument-invalidating-measuring-<preconverging-or-dementing–apriorising-psychologism> respectively as of prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought and prior relative-ontological-incompleteness. In this regard we can imagine as of 'the very same physics ~~amplituding~~/formative>epistemic-totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality', the strange feeling upon

physicists wedded to 'traditional classical mechanics axiomatic-construct' with respect the prospective theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs maximalising-recomposuring-for-relative-ontological-completeness articulation of such ideas as space-time, considering the ether as unreal, considering that the laws of physics are different at atomic scale, etc. as the fundamental basis for understanding the new physics as of its prospective relative-ontological-completeness-of-reference-of-thought. Such a construal as a shift in axiomatic-construct is more-or-less within the same positivism/rational-empiricism registry-worldview, though it might pretty much be argued that the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs marks the beginning of a proto-postmodern science as of the fundamental human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation developments in physics since then, even though its meaningfulness-and-teleology remains intelligible, more or less, to the positive science essentially by the modern conception of observational and experimental validation. However, the idea of requisite shift in attitude/mental-disposition/care–and–episteme from that simplistic 'modern conception' cannot be contested. Such an attitude/mental-disposition/care–and–episteme implied shift as articulated above, construed as of an overall registry-worldview/dimension reference-of-thought transcendence is rather 'massively distressing' when implied 'as of an instant of transitioning' since the reality of such attitude/mental-disposition/care–and–episteme transitioning have tended to take place rather cross-generationally as of human beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>. As we can now imagine the transitioning of positivism/rational-empiricism attitude/mental-disposition/care–and–episteme from earlier crude conceptualisations of positivism/rational-empiricism as presently reflecting a more universal valid notion of positivism/rational-empiricism as of its spread worldwide and profoundness in today's societies. Interestingly, this transitioning nature of human

attitude/mental-disposition/care–and–episteme renewal manifestation as of the social collective evolution, and is equally reflected in the individual as-receptacle-of-temporal-to-intemporal-individuations-ontological-performance-<including-virtue-as-ontology>; as at any given moment individuals and society are rather inclined to adopt an attitude/mental-disposition/care–and–episteme of dual-language/split-mentality as of <~~amplituding~~/formative>epistemic-totalising~thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance-<including-virtue-as-ontology>s). The implied notion of human emancipation is always being articulated in an existentially dual-language/split-mentality that on the one hand fails the implied emancipation and on the other hand implies a strife for such emancipation. Consider in this regard, the attitude/mental-disposition/care–and–episteme of warring nations in the early 20th century all too ready to arm themselves massively in preparation for the world wars and equally very much aware of the need for international peace, or in the 18th and 19th centuries the dual-language/split-mentality of universal human rights and ending slavery in the new world and the slave trade on the one hand and on the other still practicing it up to the point of wars like the American civil war to bring an end to it. In a more prosaic note, the dual-language/split-mentality associated with the evasiveness of emancipatory social and political dispositions as of relevant settings and contexts. In fact, this author will surmise that in many ways we already carry inklings of postmodern deprocrypticism or preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme as of the dual-language/split-mentality at appropriate contexts and settings extolling our liberality with progressive stakes while in other secluded settings and contexts espouse a damning language regarding such progressive stakes. The idea of requisite attitude/mental-disposition/care–and–episteme renewal as

implied for notional ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality induced transcendence-and-sublimity speaks of a 'reality as of underlying human beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>', that reflects a human tacit awareness that the grounding of its meaningfulness-and-teleology is not-certain-as-absolute at any given moment, and that it should be prepared to shift its attitude/mental-disposition/care–and–episteme for more profound-and-complete meaningfulness-and-teleology. While such an inclination is more forthcoming as of less profound-and-perceived personal existential implications with regards to the axiomatic-constructs within a reference-of-thought as articulated priorly with a shift for the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs within the positivism/rational-empiricism reference-of-thought, however, as of more profound-and-perceived personal existential implications as drastically implied at the phenomenological depth of reference-of-thought transcendental conceptualisation this turns out to be much more difficult to countenance given individuals 'mental and existential investment' into meaningfulness-and-teleology as grounded on a given 'registry-worldview's/dimension's reference-of-thought <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag established existential–epistemic-totalisation-of-meaningfulness-and-teleology' as well as the 'psychological comfort' habituated at the given neuterising. But then every registry-worldview/dimension has its own specific hurdle to clamber-over and that of futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism is exactly the capacity to construe meaningfulness-and-teleology as of full/complete human consciousness implications as implied by its protensive-consciousness which ultimately doesn't allow for

meaningfulness-and-teleology beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> arising as of human prior relative-ontological-incompleteness-of-reference-of-thought. The fact is the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality conflatedness implication with respect to existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness is such that in reality we are always tacitly aware of the evasiveness of absolute certainty but often rather inclined as of practicality to hang on to a delusion of the results of prior non-presencing-<as-to-perspective-ontological-normalcy/postconvergence> as if of absolute certainty, so-construed as reasoning-from-results/afterthought. But then veridical absolute certainty is ever a promise always held in prospective existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness relative-ontological-completeness of apriorising/axiomatising/referencing, and so as of the certainty of human limited-mentation-capacity prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity for transcendence-and-sublimity, implied as of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. This explains why ontology's-directedness-as-Being is the direction of meaningfulness-and-teleology grounding as always prospective as of prospective relative-ontological-completeness-of-reference-of-thought; and so, as of the successive base-institutionalisation, universalisation, positivism and deprocrypticism registry-worldviews/dimensions non-presencing-<as-to-perspective-ontological-normalcy/postconvergence> respectively as

successive meaningfulness-and-teleology grounding for recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism, and positivism–procrypticism presencing—absolutising-identitive-constitutedness. Interestingly we can appreciate that the attitude/mental-disposition/care–and–episteme as of relevant existential issues of all the prior registry-worldviews/dimensions reference-of-thought are wanting-as-relatively-ontologically-flawed from our positivism–procrypticism as prospective perspective/framing/reference/horizon of meaningfulness-and-teleology. However, we are hard-pressed to concede that from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism or preempting—disjointedness-as-of-reference-of-thought as of its prospective relative-ontological-completeness-of-reference-of-thought, our positivism–procrypticism is wanting-as-relatively-ontologically-flawed; as by reflex every registry-worldview/dimension is inclined to hang on to a delusion of the results-as-afterthought of prior non-presencing-<as-to-perspective-ontological-normalcy/postconvergence> even at its uninstitutionalised-threshold despite its notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised~preconverging/dementing–qualia-schema> with the prospective registry-worldview/dimension institutionalisation. Thus, induces its specific neuterising as it fails to construe of meaningfulness-and-teleology projectively as of prospective existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness relative-ontological-completeness of apriorising/axiomatising/referencing. The implied maximalising-recomposuring-for-relative-ontological-completeness notion also underscores the postmodern conception of human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation with regards to any <~~amplituding~~/formative>epistemic-

totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, as fundamentally driven as of existence-potency-prospective-digression-of—<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness as so validatable by their ontological-primemovers-totalitative-framework. Hence it is 'more real in its human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation understood as a double-gesture reification for prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought' by its maximalising-recomposuring-for-relative-ontological-completeness as of existence-potency-prospective-digression-of—<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness than any other prior non-constructed meaningfulness-and-teleology simply because of the profoundness of its phenomenological depth of projection/anticipation in the quest for ontological-primemovers-totalitative-framework validation, which ordinary <amplituding/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ doesn't even bother contemplating about by its incrementalism-in-relative-ontological-incompleteness reflex of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity as of existence's presencing—absolutising-identitive-constitutedness. This social knowledge human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation insight translate the reality that 'conventioning and tradition grounded critiques' of postmodernism fundamentally misconstrue that they are departing, as of their reference-of-thought, from a less real position to evaluate a more real position; more like the irony of trying to evaluate the theory-of-

relativity-together-with-quantum-mechanics—axiomatic-constructs from a posture of 'traditional classical mechanics axiomatic-construct'. Here is what fundamentally underlies the naïve misunderstanding of human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation. For instance, the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs actually reflects that priorly conceptualised-notions like 'space', 'time', 'ether' and 'the laws of physics at atomic scale had to be the same as at the macroscale', were all wrong. Thus 'speaking of the reality of human limited-mentation-capacity as of its existential analytic capacity' in a state of prior relative-ontological-incompleteness-of-reference-of-thought. It is human limited-mentation-capacity-deepening-⟨~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ as of prospective relative-ontological-completeness-of-reference-of-thought as subsequently assuming as more real the notion of 'space-time', 'considering the ether as unreal', 'considering that the laws of physics are different at atomic scale from the macroscale', etc. that as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation exercise brought about the more profound insight enabling the conception of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs ultimately validated as of ontological-primemovers-totalitative-framework by existence-potency-prospective-digression-of—~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness; as all along humankind existence as of human-subpotency, the new reality so-espoused 'is never about existence in itself as-existence-is-given-whatever-it-is-that-is-given', but about human limited-mentation-capacity-deepening-⟨~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ for human emancipation. Thus implying existence-potency-prospective-digression-of—~~amplituding~~/formative>epistemic-

totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness is 'not really about any variation as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation directed directly to inherent-existence-as-of-existential-reality/existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness/intrinsic-reality/ontological-veridicality whatever', as it rather comes down to the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation as of human limited-mentation-capacity-deepening-⟨<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ bringing about a more profound and complete grounding for human construing of the full-potency of existence, which remains-whatever-it-is-ultimately. The postmodern insight here is rather that what is relevant to humankind is human-subpotency development towards the abstract full-potency of existence-whatever-it-is-ultimately. So the notion of human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation has nothing to do with the inherent nature of existence/intrinsic-reality/ontological-veridicality. Rather it has to do with 'enlightening human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation' of human limited-mentation-capacity which needs to be deepened before humankind embarks on the task of 'conceptualising meaningfulness-and-teleology that increasingly reflects existence/intrinsic-reality/ontological-veridical'. Thus this actually lead to 'more and more objective meaningfulness-and-teleology' as we cannot argue that the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs is less objective than classical-mechanics—axiomatic-constructs since it involved the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation that led to human limited-mentation-capacity-deepening-

⟨<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩. Quite the contrary, it is that exercise in inducing prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought that brings about greater objectivity, as reflected in the ontological-contiguity—of-the-human-institutionalisation-process behind Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. That naivety in failing to grasp this lies in the ontologically-flawed mental-reflex of temporal <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, wherein mental-dispositions operate by default without a double-gesturing, on the 'wrong assumption that they already have the most ontologically-developed perspective/framing/reference/horizon for grasping prospective meaningfulness-and-teleology'; and failing to project/anticipate prospectively the implications of their very own shallow limited-mentation-capacity implications from a deeper prospectively-construed perspective/framing/reference/horizon. Such a 'modern take' is susceptible to construe of the presence as of metaphysics-of-presence/illusion-of-the-present/present-consciousness/mirage, with hardly any contemplation of the retrospective and prospective projective-insights for construing ontologically-veridical meaningfulness-and-teleology. This paradox for human knowledge, as implied with the postmodern double-gesture reification, highlights that the human paradigm for construing knowledge is similar to H.G. Well's country of the blind narrative, with the more critical issue being about 'human blindness which needs to be resolved first before proceeding to see', as what is to be seen as of the world is already given-whatever-it-is, and our true issue-as-of-knowledge is to develop the necessary human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation limited-mentation-capacity-deepening-⟨<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-

withdrawal,-eliciting-of-prospective-supererogation⟩ to see it. This fundamentally underlies the idea of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument/'reference-of-thought—devolving-teleological-structure-of-meaningfulness' as underlying a given registry-worldview's/dimension's reference-of-thought for meaningfulness-and-teleology conceptualisation and ontological-performance-<including-virtue-as-ontology>. In registry-worldview/dimension terms, the naivety of 'failing to recognise that human limited-mentation-capacity deepens by human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation' paradoxically and ridiculously amounts rather to construing of a prospective registry-worldview/dimension institutionalisation's reference-of-thought as of its prospective relative-ontological-completeness-of-reference-of-thought in terms of the prior registry-worldview/dimension uninstitutionalised-threshold's/uninstitutionalised-threshold's reference-of-thought as of it prior relative-ontological-incompleteness-of-reference-of-thought. The argument traditionally made about postmodern-thought as 'sceptical with regards to ontologically-flawed-metanarratives/ideologies and the lack of objectivity of meaning' is a wrongly articulated/made argument ontologically, since it is being wrongly articulated/made from the 'modern perspective/frame/reference/horizon' which is actually in prior relative-ontological-incompleteness-of-reference-of-thought as of a shallower limited-mentation-capacity (as to 'redounding/wavering/waveforming—of-the-referencing-and-the-devolved-referencing-imbued-ontological-performance-<including-virtue-as-ontology> as to presublimation and nascent-sublimations overlapping-contiguity-of-referencing-and-devolved-referencing' associated with historicity-tracing—presencing-imbued-hyperrealisation/hyperreal-transposition) and thus has to be decentered-as-preconverging-or-dementing–apriorising-psychologism. Rather the ontologically-veridical articulation of the postmodern argument as

of its actual prospective relative-ontological-completeness-of-reference-of-thought which has to be prospectively centered-as-postconverging-or-dialectical-thinking–apriorising-psychologism over the modern take as prospectively decentered-as-preconverging-or-dementing–apriorising-psychologism, should be affirmatory in articulating that postmodern-thought is about: the appraisal and supplanting of ontologically-flawed-metanarratives/ideologies including socio-econo-political ideologies and ontologically-flawed professed ideologies like demarcating ontological-flawed-ideology-of-science-and-its-distortive-implications from ontologically-veridical-science-in-practice, and its pursuit for the most profound-and-complete objectivity of meaning as of prospective relative-ontological-completeness-of-reference-of-thought by renewing appraisal of intrinsic-reality/ontological-veridicality by human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation as of human-subpotency existential-contextualising-contiguity conflatedness', and it is much more than just a naïve notion of a multiplicity of narratives as wrongly implied from the modern take of existentialising—enframing necessarily subject to ontological-bad-faith/inauthenticity as of the modern's take prospective uninstitutionalised-threshold of procrypticism or disjointedness—as-of-reference-of-thought in many ways explaining the difficulties of Derrida and Foucault in effectively qualifying their thought postures (when each was asked whether they were poststructuralist) underlied/organised respectively by messianicity and parrhesia but rather postmodern-thought is of a prospective 'relative-ontological-completeness re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-⟨imbued-postconverging/dialectical-thinking-'projective-insights'/'epistemic-projection-in-conflatedness'-of-notional~deprocrypticism-prospective-sublimation⟩ appraisal of human narratives as to dimensionality-of-sublimating—<s>amplituding</s>/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation' thus

implying rather a deprocrypticism institutionalisation 'unenframed/unbeholdening/bechancing–supererogation parameterisation/reparameterisation-⟨reflecting-a-supererogatory-decisionality-of-socioinstitutional-conceptions-as-to-'their-nascent-sublimations-dynamic-preempting-of-presublimatory-decisionality–numbing-traction-desublimation'⟩-as-so-operationalising-'scalarisation-as-to-rescalarisation-as–re-ontologisation'. The implication here is that hitherto postmodern-thought had been naively and falsely conceptualised within the 'modern take attitude/mental-disposition/care–and–episteme' as of its procrypticism/disjointedness-as-of-reference-of-thought, instead of implying the ontologically-veridical 'subverting of the modern take' by its very own 'postmodern deprocrypticism or preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme' which prospectively represents the modern as preconverging-or-dementing–apriorising-psychologism while the postmodern is postconverging-or-dialectical-thinking–apriorising-psychologism; as the point of assertion of postmodern-thought as deprocrypticism or preempting—disjointedness-as-of-reference-of-thought is actually a point of prospective ontological-dementation/dialectical-dementation–stranding/attributive-dialectics. Of critical insight here is the fact that many postmodern authors like Foucault, Lyotard and Derrida adopted stances as of constructivism, relativism and deconstruction are rather ontologically-veridical observations/remarks/'constatations' about the conception of social reality from their authentic analysis 'without going further out-of-the-scope-of-ontological-veracity to ideologise constructivism, relativism and deconstruction beyond their implied ontologically-veridical observations/remarks/constatations' as many of their critiques poorly misinterpret them; with the implications that their stances are open-ended and receptive to the elucidative justifications for their non-ideologised ontologically-veridical

observations/remarks/'constatations' about the constructivism, relativism and deconstruction manifestation/conception of social reality. Thus the ontologically affirmatory position adopted herein as of the prospective 'postmodern deprocrypticism or preempting—disjointedness-as-of-reference-of-thought

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme' is not contradictory but rather complementing their positions as it rather reinterprets their observations/remarks/'constations' as of human limited-mentation-capacity prospective relative-ontological-completeness-of-reference-of-thought <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity; wherein for instance, for the recurrent-utter-uninstitutionalisation reference-of-thought ill-health is as of an existential-contextualising-contiguity-lowest-level-reification perceptivity-as-of-bad-omen while for the positivism reference-of-thought ill-health is as of a perceptivity-as-of-full-disease-and-scientific-theory-construct-as-the-exclusive-cause-and-effect-conceptualisation. Basically, the 'hitherto ontologically-flawed postmodern deprocrypticism or preempting—disjointedness-as-of-reference-of-thought

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme' in its relation with modernity wrongfully implied that it seeks the validation of modernity, and so as ridiculously as implying that budding positivism/rational-empiricism should have sought for its validation from medieval-scholasticism. In both cases, the fundamental issue once universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩ avails as of overall underlying human ontological-commitment as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation for relative-ontological-completeness, as herein implied

originarily/as-of-event with the 'prospective/new postmodern deprocrypticism or preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme', is mostly about dismissing the prior relative-ontological-incompleteness-of-reference-of-thought as when a critique of notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised~preconverging/dementing–qualia-schema> exposes the reality of a dialogical and intellectual inequivalence given their anti-intellectual stances against postmodern-thought preferring to 'circumvent genuine intellectual engagement' for extra-intellectual activities of institutional-being-and-craft meant to preserve vested narrow interests beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>. Just as it was perceived as a fool's errand by the Descartes, Galileos, Diderots, etc., to contemplate of genuine intellectual engagement between their budding positivism/rational-empiricism ventures with traditional medieval scholasticism, especially with regards to the latter's institutionally-associated dogmatic censure and persecution, and thus with the former resorting to discursive strategies for universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩ as of overall underlying human ontological-commitment as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation for relative-ontological-completeness; it is inevitably the case that what is most critically warranted is for the 'prospective/new postmodern deprocrypticism or preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme' to articulate its full-fledged discourse as of universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩ as of the

liberality of thought allowed for in open society notwithstanding such extra-intellectual and media-driven perverted representation of postmodern-thought. The reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor speaking of human shallow-to-deeper limited-mentation-capacity implies that prospective paradigmatic transcendental knowledge by its so-projected intemporality, at the uninstitutionalised-threshold, is not necessarily grasp as intemporal in the overall human social-stake-contention-or-confliction framework as of the lack of universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩ for its prospective institutionalisation. Critical for the social validation and institutionalisation of any paradigmatic transcendental knowledge is the fact that its 'concurrent ontological-primemovers-totalitative-framework' is not sufficiently decisive given that human temporal-to-intemporal nature as of the social-stake-contention-or-confliction framework at the uninstitutionalised-threshold cannot adjudge-and-commit-to the ontological-pertinence of such prospective transcendental knowledge 'concurrent ontological-primemovers-totalitative-framework'. Consider in this regard, the 'concurrent ontological-primemovers-totalitative-framework' of the prospective positivism/rational-realism transcendental knowledge articulated by the Corpernicuses, Descartes, Galileo, Diderots, etc. as meaningfulness-and-teleology of prospective relative-ontological-completeness-of-reference-of-thought validated by corresponding prospective 'concurrent ontological-primemovers-totalitative-framework'. Such 'concurrent ontological-primemovers-totalitative-framework' was not a sufficient basis for their ideas to be socially adopted by the medieval establishment social-stake-contention-or-confliction framework at its uninstitutionalised-threshold as of non-positivism/medievalism. The point being made here is that within a given registry-

worldview/dimension institutionalisation framework the idea of 'concurrent ontological-primemovers-totalitative-framework' is only more or less determinant as of the institutionalisation's internal basis of validation of knowledge grounded on its reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology as of its ~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving'. However, at its uninstitutionalised-threshold the prospective 'concurrent ontological-primemovers-totalitative-framework' as of the prospective institutionalisation's basis of validation of knowledge grounded on the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of the prospective institutionalisation's ~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving' will not necessarily meet with the approbation of the prior institutionalisation now construed as the uninstitutionalised-threshold, and so as of mutually beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>. This has to do with the fact that the full-potency of existence that divulges relative ontological-vericality supersedes human-subpotency epistemising orientation towards its, and thus epistemic constructs as of human-subpotency construal are inevitably ad-hoc to ontological-veracity as of the full-potency of existence; as existence doesn't adjust to human-subpotency with the reverse being true, equally it is human epistemic constructs that ad-hocly adjust to ontological-veracity as of prospective relative-ontological-completeness. Thus while the idea of 'concurrent ontological-primemovers-totalitative-framework' as the basis for the validation of knowledge is inherently ontologically veridical as of a given institutionalisation's internal reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-

aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of its ~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving', however, this is an overrated notion with regards to human social-stake-contention-or-confliction framework at its uninstitutionalised-threshold as external/prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of its ~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving', which should and cannot be ignored by any proponent of prospective paradigmatic transcendental knowledge. Rather human social-stake-contention-or-confliction framework fundamentally subscribes to knowledge, given this paradox, as of 'detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness' induced as of a paradigmatic transcendental knowledge 'concurrent ontological-primemovers-totalitative-framework' establishing and upholding it. The idea here is that the inherent and direct notions of positivism/rational-empiricism expounded by the Galileos, Descartes, Diderots, Copernicuses, etc. were not the fundamental basis for the ultimate human social-stake-contention-or-confliction framework validation but rather their derived positive-opportunism that brought about the 'detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness' implied-by-and-deriving-from their notions of universal human rights and open society, technical advances, better social organisation, etc., then leading to a reasoning-from-results/afterthought institutionalisation and enculturation of such (re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-⟨imbued-postconverging/dialectical-thinking-'projective-insights'/'epistemic-projection-in-conflatedness'-of-notional~deprocrypticism-prospective-sublimation⟩) originary/event-of-prospective-ontology-origination positivism/rational-empiricism thought. In other words, human

dimensionality-of-sublimating—<amplituding/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation as inclination to adhere to prospective paradigmatic transcendental knowledge as of its 'concurrent ontological-primemovers-totalitative-framework' is very much limited and such prospective 'concurrent ontological-primemovers-totalitative-framework' however its ontological-veridicality cannot be naively construed as all that which is needed to effectuate social transformation and transcendence. We can appreciate this for instance in the case of cultural diffusion with respect to many a non-modern traditional social-setting where modern day medicine however its overall 'concurrent ontological-primemovers-totalitative-framework' over other types of premodern medicine, will often be suspected and avoided as of its poorly established 'detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness', and it is only after it has been 'socially habituated-as-institutionalised' that it has the requisite 'detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness'. This equally manifests as of prospective paradigmatic transcendental knowledge construal, as implied for instance by postmodern-thought and particularly so as postmodern-thought has still been undergoing its full construction. The implication here is that all prospective transcendental meaningfulness-and-teleology superseding uninstitutionalised-thresholds do not come about as of simplistic continuity but rather as of epistemic-breaks/epistemic-resetting, involving successive 'detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness' instigated-and-upheld by the associated successive prospective 'concurrent ontological-primemovers-totalitative-framework' paradigms of 'reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology', as of successive prospective relative-ontological-completeness-of-reference-of-thought. The

implication of such an indirect nature of human social-stake-contention-or-confliction framework validation of transcendental knowledge as of 'detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness' and not just direct 'concurrent ontological-primemovers-totalitative-framework' implies that just as prospective paradigmatic transcendental knowledge prospective 'concurrent ontological-primemovers-totalitative-framework' could be 'objected to as of human social-stake-contention-or-confliction framework' notwithstanding its inherent prospective relative-ontological-completeness-of-reference-of-thought given its prior lack of 'detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness'; any such prospective paradigmatic transcendental knowledge must be construed and thought-out strategically as of its ultimate establishment of 'detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness' that as of its prospective relative-ontological-completeness-of-reference-of-thought supersedes the prior relative-ontological-incompleteness-of-reference-of-thought, just as positivism/rational-empricism superseded non-positivism/medievalism scholasticism. Likewise 'concurrent ontological-primemovers-totalitative-framework' ontologically-flawed knowledge can be legitimately overlooked where such knowledge is implied as of priorly established 'detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness'. This latter cases arise with many a bogus social or natural science study and methodology grounded on the 'mystifying imprimatur' of positivistic science, as 'detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness', but then on closer examination turns out to be poorly designed as well as the prevalence of institutional-being-and-craft suboptimal dispositions with regards to truly upholding the science ethos in many situations with regards to the ideal operation and promotion of scientific research; and so, as of human temporal-to-

intemporal ontological-performance-<including-virtue-as-ontology> of any 'reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology'. Already, postmodern interpretations have increasingly been much more relevant practically to many subject-matter domains and activities, with even greater potential for transformative implications if fully acted upon. Furthermore, the 'prospective/new postmodern deprocrypticism or preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme' warrants that postmodern-thought hitherto articulated beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> in terms–as-of-axiomatic-construct of the 'modern take attitude/mental-disposition/care–and–episteme', need to be translated-as-reconceptualised into its very own 'postmodern deprocrypticism or preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme' as of its own truly postmodern organic-knowledge. The fact is that organic-knowledge is fundamentally driven as of attitude/mental-disposition/care–and–episteme, wherein for instance Newtonian Physics as of positivism/rational-empiricism attitude/mental-disposition/care–and–episteme organic-knowledge makes little sense and is of little potential if construed as of a medieval or animistic social-setup alchemic or mystical attitude/mental-disposition/care–and–episteme. In this regard, attitude/mental-disposition/care–and–episteme is fundamentally the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument notional~conflatedness as implied by its 'assumed-and-unflinching transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing <~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating reference-of-

Where beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>, the new/prospective attitude/mental-disposition/care–and–episteme given its prospective relative-ontological-completeness-of-reference-of-thought is wrongly construed as deriving posteriorly from the prior relative-ontological-incompleteness-of-reference-of-thought, this induces constitutedness 'as has been the case with prior postmodern-thought construed as of a modern take attitude/mental-disposition/care–and–episteme'; thus leading to a sort of postmodern-thought mechanical knowledge that is in many ways just budding and poorly acted upon. Ultimately, a 'new/prospective postmodern deprocrypticism or preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme' cross-generational development, which is its very own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme, as of deprocrypticism or preempting—disjointedness-as-of-reference-of-thought is rather a notional~conflatedness as of deneuterising protensive-consciousness. The practical implications as well should be that meaningfulness and definitions often articulated about postmodern-thought that do not capture the postmodern deprocrypticism or preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme should be rejected; as the tendency for postmodern-thought to be misconstrued or perverted is not accidental, given the very fact that at its very core postmodern-thought is implying a prospective/new prospective relative-ontological-completeness-of-reference-of-thought requiring its own

aprio. In this regard, central to translating-as-reconceptualising prior and new postmodern-thought as of its very own 'postmodern deprocrypticism or preempting—disjointedness-as-of-reference-of-thought aprioising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme' organic-knowledge is the requirement for an affirmative mental-reflex with postmodern-thought construed 'as the appraisal and supplanting of ontologically flawed metanarratives and its pursuit for the most profound-and-complete objectivity of meaning, by renewing appraisal of intrinsic-reality/ontological-veridicality involving its human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation as of human existential-contextualising-contiguity'; and it is much more than just a naïve notion of a multiplicity of narratives as wrongly implied from the modern take of existentialising—enframing necessarily subject to ontological-bad-faith/inauthenticity as of the modern's take prospective uninstitutionalised-threshold of procrypticism or disjointedness—as-of-reference-of-thought in many ways explaining the difficulties of Derrida and Foucault in effectively qualifying their thought postures (when each was asked whether they were poststructuralist) underlied/organised respectively by messianicity and parrhesia but rather postmodern-thought is of a prospective 'relative-ontological-completeness re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-⟨imbued-postconverging/dialectical-thinking-'projective-insights'/'epistemic-projection-in-conflatedness'-of-notional~deprocrypticism-prospective-sublimation⟩ appraisal of human narratives as to dimensionality-of-sublimating—~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation' thus implying rather a deprocrypticism institutionalisation 'unenframed/unbeholdening/bechancing–supererogation parameterisation/reparameterisation-

The 'postmodern deprocrypticism or preempting—disjointedness-as-of-reference-of-thought

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme' should equally enable the avoidance of the erroneously implication of 'a metaphysical/ideological advocacy' as postmodern-thought as to human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation is so with regards to the inherent ontological sublimating human possibility in existence/intrinsic-reality/ontological-veridicality as to human-subpotency implied human potential, and so as emphasised and reflected with regards to the need for human limited-mentation-capacity-deepening-⟨<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩. We can garner insight about how we tend to misconstrue any attitude/mental-disposition/care–and–episteme that is different from our own 'present attitude/mental-disposition/care–and–episteme', whether it is a 'prior/old/superseded attitude/mental-disposition/care–and–episteme' or a 'prospective/new/superseding attitude/mental-disposition/care–and–episteme'. For instance, in the previous articulation of the existential-contextualising-contiguity-lowest-level-reification perceptivity-as-of-bad-omen with 'recurrent-utter-uninstitutionalisation attitude/mental-disposition/care–and–episteme' given its 'non-rules—apriorising/axiomatising/referencing–psychologism,-as-impulsive-or-accidented-or-random-mental-disposition', the reality is that our mental-devising-representation still remains in our 'present positivism–procrypticism attitude/mental-disposition/care–and–episteme' as of its 'perceptivity-as-of-full-disease-and-scientific-theory-construct-as-the-exclusive-cause-and-

effect-conceptualisation', and only 'adhocly-and-scantily identifies' the 'recurrent-utter-uninstitutionalisation attitude/mental-disposition/care–and–episteme' as it is wholly immersed-and-engrossed in its 'positivism/rational-empiricism attitude/mental-disposition/care–and–episteme for the construal of meaningfulness-and-teleology'; which it 'skewedly construes as the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument' while tempering down any prior/old/superseded or prospective/new/superseding apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument implied as of 'the reality of human shallow-to-deeper limited-mentation-capacity apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument implications' on the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<~~amplituding~~/formative>epistemic-totalising~purview-of-construal', in defining which reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme is 'relevant as the attitude/mental-disposition/care–and–episteme of wholly immersed-and-engrossed meaningfulness-and-teleology'. The point being made here is that our natural inclination is never meant to truly-and-comprehensively reflect any prior/old/superseded or prospective/new/superseding attitude/mental-disposition/care–and–episteme by itself but rather in any such exercise always apriorises the 'present attitude/mental-disposition/care–and–episteme' and then reflect the other attitude/mental-disposition/care–and–episteme referred to posteriorly, and hence the latter is adhocly-and-scantily identified. We can grasp this insight about this natural inclination to uphold-as-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument the 'present attitude/mental-disposition/care–and–episteme' from the fact that 'originary contacts' between two cultures of prospective relative-ontological-completeness-and-incompleteness-

of-reference-of-thought doesn't mean a wholly immersed-and-engrossed meaningfulness-and-teleology between the cultures, since their natural inclination is to both apriorise 'their own present attitude/mental-disposition/care–and–episteme' and respectively posteriorise the other culture attitude/mental-disposition/care–and–episteme as of their respectively apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument present attitude/mental-disposition/care–and–episteme; and so, as the framework of any subsequent cultural diffusion metaphoricity. Thus to fully grasp what is implied here ontologically by attitude/mental-disposition/care–and–episteme, beyond the natural inclination, is to understand that attitude/mental-disposition/care–and–episteme as 'assumed-and-unflinching transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing' implies a mental-projection exercise 'reflecting-and-contemplating a wholly immersed-and-engrossed meaningfulness-and-teleology' as of their given neuterising-as-of-prior-relative-ontologicl-incompleteness-of-reference-of-thought if a 'prior/old/superseded attitude/mental-disposition/care–and–episteme' or deneuterising-as-of-prospective-relative-ontological-completeness-of-reference-of-thought if a 'prospective/new/superseding attitude/mental-disposition/care–and–episteme', whilst the 'present attitude/mental-disposition/care–and–episteme' is then rather adhocly-and-scantily identified now as either deneuterising if it in relation to the prior/old/superseded or neuterising if it is in relation to the prospective/new/superseding. In other words, when it comes to registry-worldview/dimension implications, ontologically-veridical representation of attitude/mental-disposition/care–and–episteme means 'to be or exist as of the given registry-worldview/dimension reference-of-thought' rather than 'to refer to it'; as the 'referring to' natural inclination is ontologically-flawed as it registers into the 'present attitude/mental-disposition/care–and–episteme' unlike the 'to be or exist as' approach which is ontologically-veridical but is not the natural inclination of representation as it overrides the

'present attitude/mental-disposition/care–and–episteme'. 'Postmodern deprocrypticism or preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme' construed as of deprocrypticism or preempting—disjointedness-as-of-reference-of-thought is thus in its potentiation the very summum for the 'conception of human-subpotency existential scope' implied as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. In reflecting the ontological-contiguity—of-the-human-institutionalisation-process as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, successive institutionalisations reflect 'successive and changing conceptions of human-subpotency existential scope', and so from recurrent-utter-uninstitutionalisation as 'the most supernatural/mythical/idolised conception of human-subpotency existential scope' to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism as the most 'realistic/authentic/unexceptional-as-of-the-mediocrity-principle conception of human-subpotency existential scope'. Insightfully, what is critical about 'the conception of human-subpotency existential scope' is the paradoxical fact that the more waywardly supernatural/mythical/idolised it is, the least potent has been human-subpotency mastery of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human~~amplituding~~/formative>epistemic-totalising~purview-of-construal', while the more waywardly realistic/authentic/unexceptional-as-of-the-mediocrity-principle it is, the more potent has been human-subpotency in its mastery of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human~~amplituding~~/formative>epistemic-totalising~purview-of-construal'.   Effectively,

'postmodern deprocrypticism or preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme' implied deprocrypticism is about a radicalisation of the 'realistic/authentic/unexceptional-as-of-the-mediocrity-principle conception of human-subpotency existential scope' as of its maximum potency for human subpotent mastery of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human⟨amplituding/formative⟩epistemic-totalising~purview-of-construal'.   This radicalisation is grounded on the rational-realism postulate that humankind as of its limited-mentation-capacity-deepening-⟨⟨amplituding/formative⟩epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ has always encountered its uninstitutionalised-thresholds all along in reflecting the ontological-contiguity—of-the-human-institutionalisation-process retrospectively and prospectively, reflecting the reality that humankind is of both a temporal/shortness-of-register-of-meaningfulness-and-teleology and intemporal/longness-of-register-of-meaningfulness-and-teleology nature at uninstitutionalised-thresholds, as of prospective institutionalisation prospective relative-ontological-completeness-of-reference-of-thought and uninstitutionalised-threshold prior relative-ontological-incompleteness-of-reference-of-thought. This departs from the 'modern take attitude/mental-disposition/care–and–episteme', which poorly appreciates the continuity implied by 'intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism ⟨amplituding/formative⟩epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity' as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-

development-as-infrastructure-of-meaningfulness-and-teleology and is rather caught up, beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>, in the reasoning-from-results/afterthought effect of the positivism/rational-empiricism institutionalisation outcome as of its transcendence from non-positivism/medievalism, and as it construes of that outcome as the absolute possibility of human existential emancipation failing to factor in the positivism/rational-empiricism prior relative-ontological-incompleteness-of-reference-of-thought, such that the latter is construed as not having its own uninstitutionalised-threshold which then implies its failure to apriorise the notion of a human temporal-to-intemporal nature at its ontologically-veridical uninstitutionalised-threshold. Consequently, by assuming such a positivism/rational-empiricism transcendental outcome reasoning-from-results/afterthought predisposition as the complete basis for construing humankind existential emancipation, 'the modern take attitude/mental-disposition/care–and–episteme' adopts an ontologically-flawed 'conception of human-subpotency existential scope' that is construed essentially as-of <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag untransvaluated–temporal-intemporality at its ontologically-veridical uninstitutionalised-threshold, as it doesn't even and fails to recognise any such uninstitutionalised-threshold pointing to its prior relative-ontological-incompleteness-of-reference-of-thought. Thus, the manifestations of temporality/shortness at its unrecognised ontologically-veridical uninstitutionalised-threshold are construed as aberrations/oddities going from this wrongly implied intemporal/longness-of-register-of-meaningfulness-and-teleology posture in <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, rather than a recognition of it prior relative-ontological-incompleteness-of-reference-of-thought, implying recognising its uninstitutionalised-threshold with the temporal-to-intemporal implications as of knowledge-

notionalisation; thus providing the potency/empowering-consciousness for prospective transcendence-and-sublimity, as knowledge-notionalisation not only factors in conceptual knowledge dynamics but equally the dynamics of the conceptual ignorances to better skew meaningfulness-and-teleology towards intemporality/longness as of organic-knowledge. The paradox here is that by its 'most realistic/authentic/unexceptional-as-of-the-mediocrity-principle conception of human-subpotency existential scope' as of its maximum potency/empowering-consciousness for human subpotent mastery of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-

'human<~~amplituding~~/formative>epistemic-totalising~purview-of-construal', the 'postmodern deprocrypticism or preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme' grounded on such rational-realism recognition of humankind temporal-to-intemporal nature at its uninstitutionalised-threshold is actually 'effectively empowered' to incisively tackle issues arising from human temporality/shortness as of its prospective structural/paradigmatic prospective relative-ontological-completeness-of-reference-of-thought; and so beyond just <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and ad-hoc palliative resolution of a 'modern take attitude/mental-disposition/care–and–episteme' very much inclined to aberrational/oddities conceptioning of such temporality/shortness manifestations thus leading to their endemisation/enculturation from 'ontologically-flawed and inevitability analyses' conception. Thus a 'modern take attitude/mental-disposition/care–and–episteme' is structurally/paradigmatically disempowered to address issues of its temporality/shortness as of the vices-and-impediments at its uninstitutionalised-threshold. So because its <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag is 'existentially invested' in modern

social-stake-contention-or-confliction framework of meaningfulness-and-teleology as of procrypticism/disjointedness-as-of-reference-of-thought from where it derives its value-construct and value-reference, as it hardly countenances that prospective transcendental knowledge implied value-construct and value-reference is not meant to be of 'idle' relevance to the modern social-stake-contention-or-confliction framework but rather redeploy an altogether empowering perspective of prospective relative-ontological-completeness-of-reference-of-thought postmodern social-stake-contention-or-confliction framework of meaningfulness-and-teleology of value-construct and value-reference at the procrypticism uninstitutionalisation. Such prospective change as of ontological-dementation/dialectical-dementation–stranding/attributive-dialectics of attitude/mental-disposition/care–and–episteme can be appreciated retrospectively with respect to non-positivism/medievalism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme which from our modern take attitude/mental-disposition/care–and–episteme we rather construe as vague scholastic pedantic dogmatism with regards to budding positivism/rational-empiricism, but then such a conclusion as of their non-positivism/medievalism habits and traditions is not necessarily obvious to the non-positivism/medievalism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme. Ultimately, a deprocrypticism coherent 'postmodern deprocrypticism or preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme' is one that comes into terms–as-of-axiomatic-construct in conceiving of the implied prospective need for deneuterising—referentialism. And so, as of the intemporal ontological-normalcy/postconvergence epistemic perspective in nonextricatory-existential-preempting-of-existential-unthought attitude/mental-disposition/care–and–episteme as dispensing-with-immediacy-for-relative-ontological-completeness-of-reference-of-thought-by-reification/contemplative-distension thus transcendentally enabling the successive registry-worldview's/dimension's ontological-possibilities construed as of human intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm. This underscores Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology implied notion of responsibility as reflected by the Nietzschean metaphor 'God is dead', castigatory of 'beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> attitude/mental-disposition/care–and–episteme' which is inclined to pass on to 'a certain Messiah' the possibility of our Being-development/ontological-framework-expansion–as-to-depth-of-

ontologising-development-as-infrastructure-of-meaningfulness-and-teleology with the paradox of assuming the pretence of understanding Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology on that basis on the naivety that such passing on is teleologically-elevating and exonerating of our mortal-as-temporal manifestations so-construed as a ridiculous untransvaluated–temporal-intemporality notion. This equally points to what is the central ethos of aetiologisation/ontological-escalation implied as of 'deprocrypticism attitude/mental-disposition/care–and–episteme as of ontological-normalcy/postconvergence epistemic perspective in nonextricatory-existential-preempting-of-existential-unthought'; as much more than just with regards to a resolutory conception of acts and miscuings in temporality/shortness as of themselves circumstantially, but rather as of the relevance to myriad human social situations is much more critically an issue of universal import, escalated as of humankind's temporal ontological-contiguity as beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> attitude/mental-disposition/care–and–episteme with its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity–in-reification/dereification cognisant-and-integrative of such acts and miscuings in temporality, thus endemising and enculturating the reference-of-thought vices-and-impediments. Thus such Being underdevelopment, construed as of dynamic social-chainism of human temporality/shortness endemisation and enculturation as of the universal implications of such endemising and enculturating paradigm/structure in ontological-contiguity, warrants corresponding aetiologisation/ontological-escalation superseding ethos as of 'deprocrypticism attitude/mental-disposition/care–and–episteme as of ontological-normalcy/postconvergence epistemic perspective in nonextricatory-existential-preempting-of-existential-unthought' notional-discontiguity/epistemic-discontiguity-

<mentally-aestheticised~preconverging/dementing–qualia-schema>. The fact is any registry-worldview/dimension as of its 'present attitude/mental-disposition/care–and–episteme' is structurally/paradigmatically oblivious-to and does-not-reflect its very own prospective relative-ontological-completeness-of-reference-of-thought as the underlying basis of its own specific-level induced vices-and-impediments, and is rather palliative as of its selecting, triaging, mutually-concurring-and-accommodating and power-relations driven palliating virtue constructs. The question can actually be asked, as of prospective relative-ontological-completeness-of-reference-of-thought of the notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised~preconverging/dementing–qualia-schema> of this 'made-up' normativity supposed ontological-contiguity, whether such a prior relative-ontological-incompleteness-of-reference-of-thought as <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag is actually as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology at its uninstitutionalised-threshold, and in a position, on the basis of such palliation, to address the actual fundamental grounding of its vices-and-impediments; which in reality are actually ontologically addressable/resolvable as of existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness so-implied as of prospective relative-ontological-completeness-of-reference-of-thought. What is particular with notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised~preconverging/dementing–qualia-schema> is this insight that fundamentally the appropriate prospective relative-ontological-completeness-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme precedes-and-is-the-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-to its requisite

meaningfulness-and-teleology as prospective aetiologisation/ontological-escalation. This reflects the salient and underlying idea about Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology that a given reference-of-thought meaningfulness-and-teleology cannot be apriorised as of a prior/old prior relative-ontological-incompleteness-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme to that given reference-of-thought. Insightfully, we can thus grasp that the non-positivism/medievalism scholastic pedantic dogmatism attitude/mental-disposition/care–and–episteme

'apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology' is inherently not structured to be transcendentally-enabling and operative of positivism/rational-empiricism aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology which precedingly needs its very own positivism attitude/mental-disposition/care–and–episteme 'apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology'; as the former is in a circular state of reasoning-from-results/afterthought of non-positivism/medievalism scholastic pedantic dogmatism attitude/mental-disposition/care–and–episteme 'apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology' instead of positivism attitude/mental-disposition/care–and–episteme 'apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reference-of-

thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology' as of its prior relative-ontological-incompleteness-of-reference-of-thought. Thus Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology points out that a reference-of-thought requisite apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme necessarily precedes-or-apriorises its aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology as the latter is about systematic existential-instantiations devolving of the former, that is, as teleologically-devolving-as-drifting meaningfulness it systematically makes reference to its appropriate attitude/mental-disposition/care–and–episteme apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reference-of-thought–categorical-imperatives/axioms/registry-teleology; as we know that no 'normal person' in our positivism/rational-empiricism reference-of-thought makes reference to the non-appropriate non-positivism/medievalism scholastic pedantic dogmatism attitude/mental-disposition/care–and–episteme apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reference-of-thought–categorical-imperatives/axioms/registry-teleology for aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology that is positivistically intelligible. This insight about Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, that a reference-of-thought requisite apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme necessarily precedes-or-apriorises its aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology,

equally applies prospectively whereby at our prospective positivism–procrypticism/disjointedness-as-of-reference-of-thought uninstitutionalisation, the idea of prospective institutionalisation as of deprocrypticism or preempting—disjointedness-as-of-reference-of-thought implies that the latter's apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme as reflected by the prospective 'postmodern deprocrypticism or preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme' is the requisite appropriate attitude/mental-disposition/care–and–episteme apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reference-of-thought–categorical-imperatives/axioms/registry-teleology in preempting—disjointedness-as-of-reference-of-thought as so implied by postmodern human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation, for prospective postmodern-deprocrypticism aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology referencing. A further naïve misconstrual about Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology is one that ignores this bigger picture of attitude/mental-disposition/care–and–episteme apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument preceding aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology, and thus strives to articulate meaningfulness-and-teleology while oblivious to its attitude/mental-disposition/care–and–episteme apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reference-of-thought–categorical-imperatives/axioms/registry-teleology for aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology, and

thus naively implying its said given registry-worldview/dimension reference-of-thought is unaffected by any such notion of its prior relative-ontological-incompleteness-of-reference-of-thought since it doesn't factor in that it is operating by a corresponding uninstitutionalised-threshold deficient apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme. Consider in this regard, the ~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag certitude of the aposteriorising/logicising/deriving/intelligising/measuring mental-states of medieval-scholasticism-pedants—ideal-type-or-individuation articulating aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology as of non-positivism/medievalism pedantic dogmatism attitude/mental-disposition/care–and–episteme 'apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology'. Such an orientation is no more different from an interpretation that every registry-worldview/dimension reference-of-thought is the absolute framework of meaningfulness-and-teleology as of its given practices and habits failing to account retrospectively and prospectively for the succession of institutional-recomposures/institutional-cumulations of 'intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism ~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity' as of Being-development/ontological-framework-

It is this naivety that underlines the Heideggerian techne concern as we fail to appreciate that the technical and organisational possibilities preceding and associated with a registry-worldview/dimension prospective institutionalisation transitioning of meaningfulness-and-teleology need to be rethought as of the prospective institutionalisation attitude/mental-disposition/care–and–episteme apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reference-of-thought–categorical-imperatives/axioms/registry-teleology for aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology, and so superseding that of the uninstitutionalised-threshold. We can appreciate in this regard that budding positivism/rational-empiricism and its associated liberality that was the backdrop for technical and organisation possibilities that actually required their interpretation in terms–as-of-axiomatic-construct of advancing human emancipation and bringing an end to serfdom in

Europe for instance, but as of a perverted twist due to poor appreciation of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology led to the opportunistic undermining of human emancipation elsewhere not as of positivistic/rational-empiricism attitude/mental-disposition/care–and–episteme

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reference-of-thought–categorical-imperatives/axioms/registry-teleology for aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology but retrograde non-positivism attitude/mental-disposition/care–and–episteme apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reference-of-thought–categorical-imperatives/axioms/registry-teleology for aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology. It is to be noted here that the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument precedence of attitude/mental-disposition/care–and–episteme for aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology while seemingly counterintuitive, simply speaks of the implications of the notion of prospective relative-ontological-completeness-of-reference-of-thought/ prior relative-ontological-incompleteness-of-axiomatic-construct as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-

'human<amplituding/formative>epistemic-totalising~purview-of-construal' has nothing to do with inherent existential reality but with us adjusting our

And intuitively from our positivistic angle we can effectively recognise this about all the prior registry-worldviews/dimensions reference-of-thought as we appreciate that by reflex these are just beholden to their very own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology reasoning-from-results/afterthought, but it is hard from our positivistic angle to then appreciate that prospectively we are equally in such a beheld positivism–procrypticism attitude/mental-disposition/care–and–episteme

'apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology'

for our positivism–procrypticism aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology, which when shown to be of prior relative-ontological-incompleteness-of-reference-of-thought as of procrypticism/disjointedness-as-of-reference-of-thought implies necessarily the need for futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism or preempting—disjointedness-as-of-reference-of-thought attitude/mental-disposition/care–and–episteme 'apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-

But then with respect to the possibility of prospective human transcendence, the question arises as to how it is possible for human transcendence to occur given its 're-originary–as-unenframed/unbeholdening/outlier-conceptualisation-⟨imbued-postconverging/dialectical-thinking-'projective-insights'/'epistemic-projection-in-conflatedness'-of-notional~deprocrypticism-prospective-sublimation⟩ metaphoricity instigation' in the face of any registry-worldview/dimension <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ natural inclination rather for construing meaningfulness-and-teleology as 'wholly of its cloistered-consciousness living experience only' whether as of recurrent-utter-uninstitutionalisation only, base-institutionalisation–ununiversalisation only, universalisation–non-positivism/medievalism only or in our case positivism–procrypticism only, with a rather poor inkling for appreciating meaningfulness-and-teleology as of a protracted-consciousness associated with grasping Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. This brings home the fact that however the human intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm implied as of a protracted-consciousness, and specifically the prospective protensive-consciousness of deprocrypticism or preempting—disjointedness-as-of-reference-of-thought Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-

and-teleology is practically inevitably constrained-and-potentially-jeopardised as of the framework of the <s>amplituding</s>/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag cloistered-consciousness of any of the successive registry-worldviews/dimensions in their respective reasoning-from-results/afterthought logocentric constitutedness; as the 'reasoning existentialising—enframing' of the registry-worldview/dimension apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument is underdeveloped for contemplating-and-construing of prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of the prospective institutionalisation. A registry-worldview/dimension as of its <s>amplituding</s>/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ is structurally/paradigmatically bound to existential-extrication-as-of-existential-unthought as of human-subpotency epistemic perspective at its uninstitutionalised-threshold rather than the ontological-normalcy/postconvergence epistemic perspective in nonextricatory-existential-preempting-of-existential-unthought; such that articulation of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective transcendence is beyond its reasoningness as of its 'reasoning-from-reasults'/afterthought logocentric constitutedness conceptualisation of meaningfulness-and-telelogy. Inevitably thus this conundrum points out that the instigating of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology is as of intemporal/longness-of-register-of-meaningfulness-and-teleology dimensionality-of-sublimating—

<amplituding/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation individuation   reasoning-through/messianic-reasoning, more like Derridean messianic reasoning, arising as of intellectual-and-moral inequivalence and thus implying the dialogical inequivalence of intemporal and temporal <amplituding/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩; given that no secondnatured institutionalisation grounding of meaningfulness-and-teleology exists for prospective transcendence. The ontological-veracity   of   such   an   dimensionality-of-sublimating—<amplituding/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation individuation reasoning-through as of Derridian messianic reasoning can be grasp when we contemplate that in a secondnatured institutionalisation framework of deferential-formalisation-transference we give pre-eminence to say a professional or technician for resolving a technical problem, and as non-technicians we don't get involve in <amplituding/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ exercise to resolve the technical problem. This outlook is actually 'seeded' within the dimensionality-of-sublimating—<amplituding/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation individuation   reasoning-through that is instigative of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. Thereof, what is critical for enabling human successive

transcendence is 'appropriate prospective institutionalisation secondnaturing metaphoricity'. Consider in this regard, that the instigative matesis universalis metaphoricity by the Galileos, Descartes, etc. of budding positivism/rational-empiricism is structurally/paradigmatically 'not a reasoning with non-positivism/medievalism' but rather 'reasoning-through or Derridian messianic reasoning' over non-positivism/medievalism scholasticism's pedantry as of its <amplituding/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ reasoning-from-results/afterthought logocentric constitutedness. Such altogether new metaphoricity as of its instigating 'out of thin air' the budding positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme further inspired its subsequent radicalisation by latter thinkers; wherein for instance, the more thoroughly positivism/rational-empiricism development of 'the very same physics <amplituding/formative>epistemic-totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality' was undertaken by Newton and Leibniz, extending the metaphoricity further even when we contemplate that in many ways these metaphoricity relaying scientists were still imbued with non-positivism/medievalism mystical and alchemic ideas. This 'out of thin air' metaphoricity possibility arises because the 'full-potency of existence in relation to human-subpotency-as-human-knowledge grasp of that full-potency of existence' is ever one of non-presencing-<as-to-perspective-ontological-normalcy/postconvergence>; as the very notion of 'human-subpotency-as-human-knowledge grasp of the full-potency of existence' given human limited-mentation-capacity implies that such a grasp only opens up a 'limited framework of the full-potency of existence' for new human existential and knowledge possibilities as of new/prospective habits-and-tradition. But then this 'limited framework of the full-potency of

existence' as of new habits-and-tradition construed as 'reason-from-results/afterthought framework, 'doesn't induce a commitment upon the absolute transcendental possibility in the full-potency of existence'. Insightfully, and as is the case with all prospective transcendence implied meaningfulness-and-teleology, we can appreciate that the foremost goal of budding positivists 'was not to elicit the direct approval' of the non-positivism/medievalism established arrangement, as in many ways they adopted a 'presencing—absolutising-identitive-constitutedness consummated/forfeiting posture' with respect to establishment social stakes, but rather sought to induce the requisite metaphoricity of budding positivism for the destruction-deconstruction of non-positivism/medievalism for prospective positivism, as their conception of achievement motive were tied down to prospective positivism institutionalisation as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. Likewise, the prospective 'postmodern deprocrypticism or preempting—disjointedness-as-of-reference-of-thought

take for prospective postmodern-deprocrypticism institutionalisation as of prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology.   In both cases, the prospective institutionalisation attitude/mental-disposition/care–and–episteme is ontologically validated as of its prospective relative-ontological-completeness-of-reference-of-thought, divulging the <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag vagueness and futility of the pretences and judgments of the destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>—of-ontological-performance-<including-virtue-as-ontology> . We can equally appreciate here that such a conception of transcendence is rather as of organic-knowledge and not mechanical knowledge, in the sense that what is critical is the induced apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument metaphoricity for prospective institutionalisation as of prospective ontological-primemovers-totalitative-framework and not simply a mechanical knowledge conception possibly tolerated as of a stale a posteriori adjunctiveness as with the Copernican heliocentric idea initially, needing a latter apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument metaphoricity reinvigoration as of the overall renewal of 'the very same physics <~~amplituding~~/formative>epistemic-totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality'. It should be noted that such metaphoricity rather points to psychoanalytic-unshackling/prospective-grounding/prospective-reification organic-knowledge nature of such prospective institutionalisation transcendental meaningfulness-and-teleology, which in its prospective relative-ontological-completeness-of-reference-of-thought is 'a dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation

In both cases, such metaphoricity as of its reasoning-through/messianic-reasoning cannot be construed as grounded-as-intelligible on the superseded/transcended registry-worldview's/dimension's attitude/mental-disposition/care–and–episteme of medievalism–non-positivism or positivism–procrypticism/disjointedness-as-of-reference-of-thought, but rather as of its very own transcendental-enabling/sublimating prospective institutionalisation attitude/mental-disposition/care–and–episteme of positivism or deprocryticism respectively. many ways the naïve/flawed conception of Platonism and Cartesianism today arise as to a reasoning as from reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation perspective whereas Descartes and Plato–and–Plato's Socrates are more fundamentally involved in an aporeticism overcoming/unovercoming exercise with respect to medieval-scholasticism non-positivising and ancient-sophists non-universalising respectively. These induced transcendences later on became prior reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation as of their mere 'atrophying mechanical practice' with succeeding generations, and so just as Nietzsche equally appreciated that Christianity was becoming a mere 'atrophying mechanical practice' of succeeding Christian generations as for instance with ascetic practices becoming more of symbolism/aura and losing their inceptive emancipatory inspiration. Thus with all these instances rather warranting renewed originariness-parrhesia,–as–spontaneity-of-aestheticisation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation and so as of prospective projection as implied with the ontological-contiguity—of-the-human-institutionalisation-process, but instead Heidegger will elicit a naïve turn to the pre-Socratics while Nietzsche will express admiration of Buddhism as both being of grander originariness and authenticity. However going beyond a 'relic-or-orthodoxy knowledge' disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-'immanent-ontological-contiguity'> notion of philosophy, it is herein contended that this relatively deficient analysis reflects the fundamental ontological-deficiency of subsequent philosophies influenced by Kantian philosophy which is rather 'as a projection within the very same intelligible Cartesian/budding-positivists induced rational-empiricism/positivism registry-worldview's/dimension's acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument' failing to

In this regards, we can appreciate that all human meaningfulness-and-teleology arises as of aestheticisation before converging towards ontologisation, just as rightfully implied by Nietzsche's genealogy of morals, but this doesn't imply valuelessness (as is often naively implied with Nietzschean thought) since aestheticisation convergence towards ontologisation leads to grander ontological-performance-<including-virtue-as-ontology>. In this regards, we can appreciate that while from our vantage modern perspective the ontological-veracity of the Egyptian cultural system aestheticisation behind the construction of the pyramids will seem inherently impertinent, but that specific human aestheticisation induced technical, scientific and mathematical innovations were of lateral civilisational ontological-pertinence; likewise we can appreciate that while for the atheist the ontological-veracity of religion is unproven, however various specific religions human aestheticisation in many ways relayed laterally the ontological-veracity of universalising-idealisation thinkers as of the relatively conducive social conditions allowing for the arrival of medieval thinkers who then instigated the possibility for modern day science ontologisation; and besides, it can equally perfectly be claimed that even our modern day positivistic civilisation is not beyond a critique of 'deficient ontologisation' as we can appreciate the reality of the human aestheticisation of many modern activities (even those associated with technological development) held as of higher interest/worth which ontologisation value is questionable with respect to other possible activities of grander ontologisation but not necessarily held as of higher interest/worth (with the very worst case being media-driven merchandising associated with a generalised dumbing-down and de-

intellectualisation increasingly and surreptitiously substituting for reifying intellectualism, increasingly undermining the citizenry capacity for democratic sovereign judgement). This analysis points to the convoluted relationship between human aestheticisation and ultimate ontologisation value. Rather than naïve and simplistic analysis, it is such an insight that better informs Heideggerian and Nietzschean thought with regards to ressentiment and leveling (as to ~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>)); pointing to the centrality of originariness-parrhesia,–as–spontaneity-of-aestheticisation as more critically about inducing the necessary human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of prior reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation transformation towards prospective ontologisation rather than the mere critique of any given human aestheticisation as of its inherence, as the fact is all human aestheticisations including religion (which is often a target in modern times, however rightly so on many an occasion) are sub-ontological-<as-to-the-limitation-of-human-subpotency-in-its-reifying-and-empowering-reflexivity-of-the-full-potency-of-existence> and the more salient point is in instigating their more profound ontologisation/ontological-veracity/aestheticisation-towards-ontology as of relative-ontological-incompleteness/relative-ontological-completeness ~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity. In this regards, we can appreciate that when base-institutionalisation 'rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism'

Transvaluation rather reflects human value-construct as derivational as from the very enabling fundamental self-consciousness instigation for the possibility of 'human self-conscious awareness of value-construct' to arise in the first place as of apriorising/axiomatising/referencing–psychologism implied reference basis-of/base meaningfulness-and-teleology infrastructure. Thus the more critical contribution to human value-construct has to do with the requisite value-construct instigating as of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming-'notionally-collateralising-protohumanity'-to-'attain-sublimating-humanity',-as-to-existence-potency-prospective-digression-of—<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness to supersede human temporality/shortness <amplituding/formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>)) associated with the successive registry-worldview's/dimension's self-conscious meaningfulness-and-teleology infrastructure so-implied successively as of trepidatious–self-consciousness, warped–self-consciousness, preclusive–self-consciousness, occlusive–self-consciousness and prospectively protensive–self-consciousness; as the human proclivity to even recognise and pursue any value-construct can only arise in the very first place with its correspondingly induced self-consciousness. But then, the fact remains that such dimensionality-of-sublimating—<amplituding/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation induced self-consciousness meaningfulness-and-teleology infrastructure as instigative of the human reference basis reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-

growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation induced self-consciousness meaningfulness-and-teleology infrastructure'. It is thus not odd that as of human emotional-involvement implications, Socratic philosophers universalising-idealisation and budding positivists projected meaningfulness-and-teleology infrastructure rather met initially with the antipathy of their underpinning–suprasocial-construct and <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ and specifically had to face up respectively with the value-construct conception of their temporal/sycophantic-sophistic presencing—absolutising-identitive-constitutedness ontologically-flawed disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-'immanent-ontological-contiguity'> whether with the Ancient Sophists or medieval-scholasticism pedants. We can further appreciate the critical impact of the universalising-idealisation meaningfulness-and-teleology infrastructure of the Socratic philosophers and their successors as providing the appropriate meaningfulness-and-teleology infrastructure for the Roman Empire and subsequent religio-political developments unlike the case with say Ancient Egypt and Persia whose non-universalising sectarian cults perpetual ideological conflicts ultimately sapped their stability despite their technical advancement, and likewise Western enlightenment effectively arose as of the induced meaningfulness-and-teleology infrastructure of budding positivists, with perverted consequences like annihilation of Native Indians in the New World and the Transatlantic slavery rather arising as of their outlying societies opportunistic activities distortive of budding positivism meaningfulness-and-teleology infrastructure as so-construed in their core societies in Europe with respect to the ending of serfdom, nascent socioeconomic emancipation and human rights. Thus basically the idea of human value-

construction is ever always caught up between on the one hand human limited-mentation-capacity to come to terms with 'transvaluation as ~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity in reflecting the ontological-contiguity—of-the-human-institutionalisation-process anamnesis as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism underlying the human construction-of-the-Self' and on the other hand 'the effective ontological-impertinence/dereification arising in the conceptualising of human value-construction as of a ~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ in ~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as construing of value-construction within any given registry-worldview's/dimension's presencing—absolutising-identitive-constitutedness-of-meaningfulness-and-teleology and so whether as of trepidatious (recurrent-utter-uninstitutionalisation), warped (base-institutionalisation–ununiversalisation), preclusive (universalisation–non-positivism/medievalism) or occlusive (positivism–procrypticism) implications'. This discrepancy (between the human capacity to achieve transvaluation and effective social–value-construction narrative as of any given registry-worldview/dimension) is reflected in the underlying reality that effectively practised human value-construction is the 'outcome of privileged institutional end-purpose perspective/framing/reference/horizon'; wherein social–value-construction across the successive registry-worldviews/dimensions arises as a functional necessity that is meant to reflect supposedly coherent ontological-commitment and so in order to elicit stable social-functioning-and-accordance for social-stake-contention-or-confliction, whether such social–value-construction is ontologically-pertinent or not. In this respect, the reality in reflecting the

ontological-contiguity—of-the-human-institutionalisation-process points to changing 'structural/paradigmatic marginal equity of social–value-construction', so-construed as 'expected equity of all individuals for social–value-construction' and so rather as from the structural/paradigmatic reference basis of 'priorly implied-and-justified inequity' whether the latter is implied-and-justified as of talent, royalty, class, productivity, mere traditional and cultural practice justification, etc.; thus effectively reflecting the overall consequence of social–value-construction as the 'outcome of privileged institutional end-purpose perspective/framing/reference/horizon'. In this regards, social–value-construction arises from two levels; as of the inherent structural/paradigmatic implication of 'outcome of privileged institutional end-purpose perspective/framing/reference/horizon' as of 'priorly implied-and-justified inequity' and this in conjugation then with the individual inherently appraisable social–value-construction as of 'expected equity of all individuals for social–value-construction'. In this respect, we can appreciate that an autocrat is more capable of 'displaying greater social–value-construction' than an ordinary denizen by the former's mere social–value-construction 'priorly implied-and-justified inequity' as of its status in the autocracy (however an autocrat's apparent magnanimity on the basis of the prior perspective of the autocratic society will rather be construed as of deficient value-construction as from a prospective perspective of <amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity comparison to the overall social and virtue progress implications of a better accountable political system, while on the other hand individuals effectively advocating for such a prospective political system may be construed as of deficient value-construction in the prior autocracy), while modern day social–value-construction 'priorly implied-and-justified inequity' arises as of politico-bureaucratic, talent, entrepreneurial, socio-historical, traditional and cultural practice justification, etc. implications (but is just as well subject to transvaluation analysis as of

<amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity, as it can perfectly be argued that the apparent magnanimity of plutocrats as of a capitalistic economic value-distributive system 'excessively skewed towards final product/service/financial delivery as-of-first-come-near-monopoly and institutionally-skewed-possibility-for recurring wealth accumulation' while excessively overlooking/devaluing the return to massive public externalities/external-resources contributions to economic production such as public education, human and social development, infrastructure, basic research, technological research, etc. rather speaks of deficient social–value-construction, especially as such a system 'priorly implied-and-justified inequity' as of its occlusive presencing—absolutising-identitive-constitutedness is geared towards propping special interests, warfare spending, anti-taxation, anti-immigration, trivial interest in global human development, co-opted media narrative, etc. as of a suboptimal social–value-construction). But this doesn't cancel the fact that individuals throughout sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing notwithstanding any disadvantaged 'priorly implied-and-justified inequity' for social–value-construction, intuitively cognisant of the pertinence of human transvaluation have elicited the underlying ontological-veracity/ontological-impertinence of their social-construct value-construction as of its supposedly coherent ontological-commitment to induce the transformation of the social-setup value-construction; such that at various critical times the more salient 'priorly implied-and-justified inequity' for social–value-construction had thus been basically intellectual-pertinence-as-of-ontological-veracity such that all other 'priorly implied-and-justified inequity' for social–value-construction have tended critically to ultimately be grounded on intellectual-pertinence-as-of-ontological-veracity whether of genuine or surreptitious justification. The more salient issue then for the knowledge-reification of social–value-construction thus lies with its 'priorly implied-and-justified

inequity' narrative(s) with respect to underlying knowledge-reifying transvaluation implications projection as being of most profound intellectual-pertinence-as-of-ontological-veracity. In this regards, our present rational-empiricism/positivism occlusiveness warrants prospective meaningfulness-and-teleology infrastructure transvaluation so-implied as of notional~deprocrypticism or <amplituding/formative>notional~preempting—disjointedness-as-of-reference-of-thought appropriate foregrounding—entailment-⟨narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting 'immanent-ontological-contiguity'⟩,–as-operative-notional~deprocrypticism; and so as the disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-'immanent-ontological-contiguity'> of our rational-empiricism/positivism occlusiveness in its <amplituding/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ tend to rather reflect our <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. The occlusiveness of our positivism/rational-empiricism social–value-construction as such from the prospective perspective of deprocrypticism or preempting—disjointedness-as-of-reference-of-thought can be analysed-and-construed as imbued with occlusive collateral aspects of rather nondescript/ignorable void falsely implying 'the appropriate exhaustiveness of our rational-empiricism/positivism stances' thus speaking rather of ideology than ontological-veracity as aptly reflected upon by postmodern-thought. Such occlusive collateral aspects take the form of economic dysfunction and inequities as collateral to economic ideologism, social dysfunction and discriminations as collateral to domineering and secluding social narratives, sophistic/pedantic and vested interest undermining genuine sovereignty paradoxically as of

obscured-and-deluding knowledge and misinformation that undermines individuals sovereign competence and choice with regards to increasingly skewed-contrived-and-limited stakes of the democratic process thus eliciting protest voting, and in the bigger global framework of competing politico-cultural values with individuals and societies rather construed as collateral damages. Transvaluation analysis thus ensues from the human akrasia-susceptibility-or-akrasiatic-drag complex which implies that the very state of unwariness with respect to prior relative-ontological-incompleteness as of a nihilistic disposition is structurally/paradigmatically potently conducive/endemising/enculturating of its vices-and-impediments. But then while such an abstract transvaluation perspective for the construal of social–value-construction is cogently obvious, however the fact remains that the human subject as of its limited-mentation-capacity exists in circumstances of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint as of its given reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation inducing its deficient ontological-performance-<including-virtue-as-ontology> thus explaining its given registry-worldview/dimension vices-and-impediments. Thus the transvaluation of the successive registry-worldviews/dimensions in reflecting the ontological-contiguity—of-the-human-institutionalisation-process is critically of dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation psychoanalytic-unshackling/memetic-reordering/institutional-recomposure implications of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming-'notionally-collateralising-protohumanity'-to-'attain-sublimating-humanity',-as-to-existence-potency-prospective-digression-of—

Thus human limited-mentation-capacity implies that 'more than just a thought-of ontological notion' as of transvaluation, social–value-construction is rather accomplished phronetically/in-practicality as of the specific social-setup universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-⟨~~amplituding~~/formative⟩epistemic-totalising–in-relative-ontological-completeness⟩ of supposedly coherent ontological-commitment with respect to social-stake-contention-or-confliction; and is bound rather to be highly infused with 'priorly implied-and-justified inequity' narrative(s) where such universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-⟨~~amplituding~~/formative⟩epistemic-totalising–in-relative-ontological-completeness⟩ is muted and where such universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-⟨~~amplituding~~/formative⟩epistemic-totalising–in-relative-ontological-completeness⟩ is unmuted rather infused with 'expected equity of all individuals for social–value-construction' narrative(s). Basically, thus the reality of prospective social–value-construction critically arises as of the intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning induced originariness-parrhesia,–as–spontaneity-of-aestheticisation with respect to the prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint, which

when naively construed in presencing—absolutising-identitive-constitutedness as of prior reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation simply reflects the ~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of the prior registry-worldview/dimension as reflected with its social value-construct dilemmas. Consider in this regards the implications for an individual having to respond to an accusation of sorcery in a non-positivism social-setup as the individual and the social-setup both effectively believe in superstition. Transvaluation insight will point out that ontological-veracity as of foregrounding—entailment-⟨narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting 'immanent-ontological-contiguity'⟩,–as-operative-notional~deprocrypticism lies with the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework as of ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications-<as-to-existence-potency-prospective-digression-of—~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness–as-to-the-ontological-normalcy/postconvergence-projective-perspective,-to-which-latter-human-subpotency-projectively-conflates-to-in-order-to-overcome-our-prospective-epistemic-abnormalcy/preconvergence> required prospective rational-empiricism/positivism registry-worldview/dimension construction-of-the-Self in deflating the non-positivistic social-setup value-construction dilemmas as impression-driven/good-naturedness/wishfulness ~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ in social-aggregation-enabling of the prior non-positivistic registry-worldview/dimension so-associated with notions-and-accusations-of-sorcery. Likewise implied social–value-

construction dilemmas in our positivism–procrypticism are ontologically deflated as of foregrounding—entailment-⟨narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting 'immanent-ontological-contiguity'⟩,–as-operative-notional~deprocrypticism with the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework as of ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications-<as-to-existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness–as-to-the-ontological-normalcy/postconvergence-projective-perspective,-to-which-latter-human-subpotency-projectively-conflates-to-in-order-to-overcome-our-prospective-epistemic-abnormalcy/preconvergence> required prospective deprocrypticism or preempting—disjointedness-as-of-reference-of-thought registry-worldview/dimension construction-of-the-Self (as of deprocrypticism protensive–self-consciousness over our procrypticism/disjointedness-as-of-reference-of-thought occlusive–self-consciousness social–value-construction induced dilemmas). Basically, as highlighted above such a transvaluation knowledge-reification of social–value-construction reflects the prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of any relative-ontological-incompleteness registry-worldview's/dimension's–reference-of-thought-for-social-functioning-and-accordance as of its ontologically-flawed implied supposedly coherent ontological-commitment; pointing to the ontological-veracity of a 'direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness meaningfulness-and-teleology'. This ontological reality basis of social–value-construction, it is often claimed, needs to account for the reality of human sovereignty and free-will as to the 'autonomy and independence of

human disposedness'. But then such a conception of human sovereignty and free-will seems to imply an 'existence-in-existence constitutedness ontologically-flawed paradigm' as to imply human sovereignty and free-will supersede-and-override existence—as-the-absolute-a-priori-of-conceptualisation so-reflected as of <~~amplituding~~/formative>formative>epistemic-totalisingly-preceding-and-redefining-existential-contextualising-contiguity. We can effectively appreciate that such human sovereignty and free-will implied 'autonomy and independence of human disposedness' say with regards to a mystical cause of disease in a non-positivistic society doesn't stop existence as reflecting bacteria theory or any other biological reason from being the cause of disease and such a reference-of-thought-devolving-level manifestation of the primacy of existence equally extends to reference-of-thought-level wherein overall existence 'as transcendental-enabling' for a rational-empiricism/positivism registry-worldview/dimension as of its acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument 'is more effective' with respect to human grasp of existential reality manifestations than a non-positivism registry-worldviews/dimension, just as a prior universalisation registry-worldview/dimension 'is more effective' as of its acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in grasping existential reality manifestations than a preceding ununiversalisation registry-worldview/dimension. This however doesn't implies the elimination of human sovereignty and free-will but rather effective speaks of human-subpotency within existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness, so-construed as 'human-subpotency ontological-performance-<including-virtue-as-ontology> within the full-potency-of-existence-as-of-its-coherence/contiguity'; and specifically speaks as to overall reifying-

and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-<imbued-and-educed–human-subpotency–epistemic-perspective-of-aestheticising-motif-and-apriorising/axiomatising/referencing-conceptualisation>, wherein within the absolute a priori framework that is existence, humankind can construe of existence becoming/emanance manifestations allowing for human knowledge-reification and empowerment from the knowledge-reification within existence, with this in itself inducing a human reflexivity as of a human reflexive influence within existence (wherein for instance, a positivistic disease theory of bacteria and biological causation structurally/paradigmatically induces a whole set of human existential disposedness of emancipatory and curative implications in existence as of human sovereignty and free-will, but also in the very first place the fundamental human existential disposedness at reference-of-thought-level to rational-empiricism/positivism is structurally/paradigmatically conducive/preparatory for the possibility of such a positivistic disease theory of bacteria and biological causation to be construed by such humans). This then speaks to the fact that 'human sovereignty and free-will is deflated going by the ontological-veracity of human <~~amplituding~~/formative>epistemic-totalising~thrownness-in-existence' as of 'the specific human-subpotency implications as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-<imbued-and-educed–human-subpotency–epistemic-perspective-of-aestheticising-motif-and-apriorising/axiomatising/referencing-conceptualisation>'; and so, as it applies to human knowledge-reification and empowerment from such knowledge-reification within existence as this defines human ontological-performance-<including-virtue-as-ontology> reflected as of constructiveness-of-ontological-performance-<including-virtue-as-ontology> and destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>—of-ontological-performance-<including-virtue-as-ontology>. In this regards, the broader and more profound conception of human sovereignty and free-will as reflected by

human ~~amplituding~~/formative>epistemic-totalising~thrownness-in-existence is rather grounded in the reality that all humans come into existence as of an overall framework of living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology within which the notion of human sovereignty and free-will then arises in the very first place; such that in many ways human sovereignty and free-will is collectively predicated to the social-setup social-functioning-and-accordance as of its implied supposedly coherent ontological-commitment. Thus, on this basis, the reality of human ontological-performance-<including-virtue-as-ontology> (reflected as of constructiveness-of-ontological-performance-<including-virtue-as-ontology> and destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>—of-ontological-performance-<including-virtue-as-ontology>) towards the effective articulation of human sovereignty and free-will is actually one that involves, with respect to human limited-mentation-capacity: 'the deferential-formalisation-transference overall and underlying social-setup conception of knowledge-reification and empowerment from such knowledge-reification as enabling the framework of living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology' and then 'the individual dimensionality-of-sublimating—~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation mental-disposition and expression' within the former (and it is the latter that often comes to the mind when speaking of human sovereignty and free-will as 'autonomy and independence of human disposedness', while naively ignoring/overlooking the underlying 'superseding existence—

as-the-absolute-a-priori-of-conceptualisation reflected in <~~amplituding~~/formative>formative>epistemic-totalisingly-preceding-and-redefining-existential-contextualising-contiguity implications upon human sovereignty and free-will'). Interestingly, such a broader conception of the manifestation of human sovereignty and free-will will recognise that the overall human deferential-formalisation-transference actually has a historiality/ontological-eventfulness/ontological-aesthetic-tracing character that extends right up to the very first humans and as with the production of language and human institutions, with regards to constraining existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness/existence—as-the-absolute-a-priori-of-conceptualisation, and as these institutions and institutional practices undergo metaphoricity all along towards our present, and carries effective/ontologically-veridical teleological implication in reflecting the ontological-contiguity—of-the-human-institutionalisation-process dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation as to difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity successiveness of registry-worldviews/dimensions. The point here is that, 'the individual dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation mental-disposition and expression' driving the deferential-formalisation-transference knowledge-reification and empowerment from the knowledge-reification as of historiality/ontological-eventfulness/ontological-aesthetic-tracing, even as of poor ontological-performance-<including-virtue-as-ontology> of social–value-construction so-construed as destructuring-

threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>—of-ontological-performance-<including-virtue-as-ontology>, can only achieve social-functioning-and-accordance by a claim to be as of supposedly coherent ontological-commitment, whether relatively real or surreptitious; and it is this preceding broader human sovereignty and free-willing disposedness for claiming social–value-construction for social-functioning-and-accordance as of supposedly coherent ontological-commitment that gives the teleological orientation of human meaningfulness-and-teleology in reflecting the ontological-contiguity—of-the-human-institutionalisation-process, as it then exposes human meaningfulness-and-teleology as of human limited-mentation-capacity-deepening-(<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ to the prospective constraint to be as supposedly coherent ontological-commitment thus inducing the possibility for prospective transcendence-and-sublimity when its any given meaningfulness-and-teleology is discovered/shown not to be ontologically veridical leading to its effective human limited-mentation-capacity-deepening-⟨<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩. Thus the bigger picture here with regards to social–value-construction for social-functioning-and-accordance as of human sovereignty and free-will implications speaks to relative-ontological-completeness as of ontological-normalcy/postconvergence, and so as of existence constraint implied ontological-contiguity—of-the-human-institutionalisation-process dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation as to difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity in reflecting both destructuring-

threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>—of-ontological-performance-<including-virtue-as-ontology> as of prior relative-ontological-incompleteness implied preconverging/dementing–qualia-schema and constructiveness-of-ontological-performance-<including-virtue-as-ontology> as of prospective relative-ontological-completeness implied postconverging/dialectical-thinking–qualia-schema as elucidation of ontological-primemovers-totalitative-framework. Ultimately, the naïve articulation of human sovereignty and free-will as of strict 'autonomy and independence of human disposedness' rather speaks of a poor ontological sense-of-things, and as such ontological-veracity ensues the notion of human sovereignty and free-will is rather subsumed as of human-subpotency knowledge-reification and derived empowerment reflexivity in existence; and as apparent in the sciences, we can't imply that we have a choice of gravity on earth as 6 m/s^2 rather than the existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness manifestation of 9.8 m/s^2 and our human sovereignty and free-will is then enabled reflexively with the latter and not the former where we develop and operate technology on that basis for instance, the same equally applies with respect to the social domain in other to avoid mere disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-'immanent-ontological-contiguity'>. The conception of human sovereignty and free-will so-implied as of 'the specific human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-<imbued-and-educed–human-subpotency–epistemic-perspective-of-aestheticising-motif-and-apriorising/axiomatising/referencing-conceptualisation>' basically underlies all human knowledge-reification whether with regards to philosophy as first-level ontology pertaining to 'overall existence phenomenal appraisal of meaningfulness-and-teleology' as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-

'human~~amplituding~~/formative>epistemic-totalising~purview-of-construal' or with regards to second-level ontologies 'specific epiphenomenon–(in-the-overall-ecstatic-existence-supervening-conflatedness) appraisal of meaningfulness-and-teleology' as of ~~amplituding~~/formative>epistemic-totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality; differentiated by the fact that 'overall existence phenomenal appraisal of meaningfulness-and-teleology' across human generations as of 'cumulative reference-of-thought relative-ontological-completeness implications' is surprisingly of high ontological-contiguity explaining the cross-generational relative intelligibility of philosophical meaningfulness-and-teleology (for instance the questions and answers/contemplations about the why and how of human existence phenomena from the very first humans are just as relevant today even as of the differing contextual discernments, and so with regards to virtue, value attribution, aesthetics, episteme and Being) while 'specific epiphenomenon–(in-the-overall-ecstatic-existence-supervening-conflatedness) appraisal of meaningfulness-and-teleology' as of 'reference-of-thought-devolving relative-ontological-completeness implications' is of high notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised~preconverging/dementing–qualia-schema> explaining the unintelligibility of the explanation of epiphenomena as contrasted cross-generationally with various superstitious beliefs in the past compared with modern day science epiphenomenal explanations (for instance with the appraisal of 'health epiphenomena of existence' as of historiality/ontological-eventfulness/ontological-aesthetic-tracing ranging from perceptivity-as-of-bad-omen, perceptivity-as-of-a-specific-place-or-specific-evil-people-or-specific-evil-period, perceptivity-as-of-failure-to-follow-the-heeding-of-the-Deity-or-failure-to-adhere-to-a-certain-mysticism-or-failure-to-pay-reverence-to-an-ancestor, perceptivity-as-of-full-disease-and-scientific-theory-construct-as-the-exclusive-cause-and-effect-conceptualisation, and perceptivity-as-of-factoring-in-socioeconomic,-education,-

information,-environmental,-gender-and-power-relations-issues-underlying-healthcare-and-medical-delivery). Insightfully, the very essence of 'overall existence phenomenal appraisal of meaningfulness-and-teleology' as associated with philosophical aspects (beyond the our artificial subject-matter divisions referring to aspect where virtue, value, ontological principles and epistemic issues are of central concern) is one of interpretation given that the ordinary human-framework-of-experiential-existence is 'a directly comprehensive and fulsome framework amenable to interpretation' whereas 'specific epiphenomenon–(in-the-overall-ecstatic-existence-supervening-conflatedness) appraisal of meaningfulness-and-teleology' especially as of their unordinary human-framework-of-experiential-existence like natural sciences while informed by ordinary human-framework-of-experiential-existence background/sense-of-things further require and accentuate their epiphenomenal manifestations (which are beyond ordinary human-framework-of-experiential-existence) with the devising of experimentations (as providing the prolongation for human interpretation capacity with respect to such epiphenomenal manifestations, as in reality even the natural sciences are fundamentally interpretative as 'specifically aphoristic/cogent/pointed extensions of the underlying human philosophical interpretative disposition for knowledge-reification'). It is important to grasp here that mere experimentations, as often practised in many domains, that do not arise because of the veridical need to effectively accentuate epiphenomenal manifestations as of unordinary human-framework-of-experiential-existence but rather 'on the vagueness and naivety that experimentations by themselves demonstrate profoundness' are ontologically-impertinent (in the sense that the ordinary human-framework-of-experiential-existence as 'a directly comprehensive and fulsome framework amenable to interpretation' is the more critical basis for a profound knowledge-reification interpretation than any such ad-hoc and simplistic experimentation vagueness and naivety); and in many ways this explains experimental delusions in many domains associated with poor

reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation as to the misunderstanding that experimentation should focus on the very critical epiphenomenal manifestations that are not amenable to the ordinary human-framework-of-experiential-existence as 'a directly comprehensive and fulsome framework amenable to interpretation'. However, as of underlying human-subpotency sovereignty and free-will, what is definitely central to knowledge-reification is that it is grounded on human empowering reflexivity from prospective knowledge as of 'ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications-<as-to-existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness–as-to-the-ontological-normalcy/postconvergence-projective-perspective,-to-which-latter-human-subpotency-projectively-conflates-to-in-order-to-overcome-our-prospective-epistemic-abnormalcy/preconvergence> from such human-subpotency prior reproducibility—mathesis/motif/thrownness-disposition'. This reflects the ontological-veracity that human sovereignty and free-will can only be construed in conflatedness as of human <~~amplituding~~/formative>epistemic-totalising~thrownness-in-existence revealing the epistemic-impertinence of dispositions for 'presencing—absolutising-identitive-constitutedness as wrongly implying human sovereignty and free-will supersedes existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness rather than the epistemic-veracity of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity of human meaningfulness-and-teleology. We can garner for instance that there is and has never been any truly 'presencing—absolutising-identitive-constitutedness' of the sciences as often wrongly

implied by science ideologues, but that scientists across-the-times have allowed existence-potency-prospective-digression-of—<s>amplituding</s>/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness to manifest itself in determining ontological-primemovers-totalitative-framework; and so, as from the budding science of the days of Galileo and Copernicus, to Newtonian science, to Lavoisier laboratory science, to Einsteinian science to modern day institutional practices of science, with all fundamentally driven not by any 'purported science-ideology' but rather the practicality of results as of the constraint of the subject-domains of scientific study together with human limited-mentation-capacity-deepening-(<amplituding>/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) implications in transforming the conceptualisation within any such specific subject-domains of scientific study as of their existential-contextualising-contiguity knowledge-reification rather than 'any implied notion that naively supersede existence—as-the-absolute-a-priori-of-conceptualisation'. A further twist to such a poor conception of human sovereignty and free-will in the social arises as of an improper appraisal of the 'implications of deferential-formalisation-transference as being structurally/paradigmatically both-intensional-and-extensional to the fulfilment of human sovereignty and free-will'. The fact is human sovereignty and free-will is more critically about its 'fulfilment as of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment' rather than 'mere appearance-of-fulfilment usurping-the-sense of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment'. For instance, a plumber who draws up the costing for a plumbing job explaining to the customer what is advantageously entailed in a convincing manner (as of 'mere appearance-of-fulfilment usurping-the-sense of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment') as they fail to ensure that their professional assessment will truly resolve the technical issue (as they are just looking to contract the job)

is not really advancing the sovereign choice of the customer compared to another plumber who undertakes a candid professional assessment that may not sound advantageous with the customer (as they are more critically interested in the 'fulfilment as of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment') but does solve the technical issue; as any such customer in a deferential-formalisation-transference situation will most likely agree. Such operation of human sovereignty and free-will, beyond more or less simplistic social situations as the case highlighted above, is supposedly implied in the operation of all human institutions as of their inherent deferential-formalisation-transference proxy nature; but in many ways such a notion of 'implications of deferential-formalisation-transference as being structurally/paradigmatically both-intensional-and-extensional to the fulfilment of human sovereignty and free-will' gets sunk with the increasing complexity and size of human institutions as to what such implications really are, and so especially as the idea of human sovereignty and free-will increasingly becomes abstracted and diffused in the overall social-construct and its institutions as so-associated with 'the protraction of political and institutional performance, evaluation and accountability' as reflective of human sovereignty and free-will. However, with regards to the latter as of social protraction of political and institutional action, the possibility of protracted human sovereignty and free-will while indirect comes to be increasingly associated with the sense of 'equanimity/balance of institutions' as to their expected 'equanimity/balance of contending frameworks and policy frameworks as reflexive of socially-perceived commendation and disapprobation', whether as garnered 'politically from the equanimity/balance of competing policies and politics as from polling and/or polls trends' and 'professionally with the equanimity/balance of mainstream/conventional complementary professional policy-recommendations and professional practices'. The question about the effectiveness of such implied equanimity/balance as reflecting of human sovereignty and free-will is often raised critically

with regards to political and institutional performance particularly during crises. In many ways, the systemic interrelatedness of large institutions as to their complementary end purposes and practices, renders such an assessment of implied equanimity/balance rather structural/paradigmatic to the overall politico-institutional system itself; and particularly so as in many ways the possibility of readjustment is much more practically instigated politically especially as with public institutions the individual manifestation of sovereign choice is much more rigidly tied to political action unlike the relative ability for direct disengagement from private entities. However, the fundamental fact that human sovereignty and free-will is ever always a question of the 'transverse relation of all humans sovereignty and free-will in society' inherently implies the underlying possibility for the undermining of human sovereign choice as of inherent social differentiation. Beyond transvaluation implications as of the broader overall 'expected equity of all individuals for social–value-construction' in relative-ontological-incompleteness/relative-ontological-completeness <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity in reflecting the ontological-contiguity—of-the-human-institutionalisation-process; going by the phronesis/practicality as of our positivism–procrypticism occlusiveness, the assessment of institutionally implied 'equanimity/balance of contending frameworks and policy frameworks as reflective of socially-perceived commendation and disapprobation', as advancing human sovereignty and free-will as of deferential-formalisation-transference implications, can be rather straightforward with regards to relatively compact/self-contained institutional functions and roles usually involved in direct public service delivery but it is much more difficult with spurious/supporting institutional functions and roles. We can appreciate in this regards that public scandals generally tend to arise out of public services and private services delivery institutional frameworks as of their relatively compact/self-contained institutional functions and roles, and

that issues of transparency rendering such assessment difficult generally arise with regards to underlying spurious/supporting/supervisory/regulatory institutional functions and roles. In another respect concerning the modern day media, the need for relevant and balanced/equanimous communication and information delivery to the general public has increasingly been taking a backseat, and so fundamentally as the media becomes more of a business-making institution and rather plays a weaker and ancillary/perfunctory role in public policies and politics accountability. This is paradoxically reflected in the reality that despite the huge choice of media today, strangely enough this has rather been associated with greater public muddlement with regards to political stakes and public policies; undermining the political process as increasingly public policies are paradigmed/structured to default/revert into the interests of powerful groups and corporations with the support of increasingly astute, surreptitious and media-savvy political and economic think-tanks, as their media underhandedness in many ways foil the possibility for credible and effective public interest debate as of the distractedness of media reflexive anchoring on a stale, traditional, simplistic and increasingly irrelevant age-old left and right political narrative (and its derived politics and policies narratives) poorly reflecting the sophistication of the electorate that 'doesn't live in left and right worlds but a realistic world in want for solutions'! Strangely enough, such a media environment is now laden with public gurus holding outlandish views increasingly given the forum for their opinions (presented as reified-knowledge) not only in marginal media but mainstream media as well out of all proportion with the social and/or relevant expertising academic/professional resonance of such ideas, and so as of the underlying pretence of freedom-of-speech; as the notion of freedom-of-speech is increasingly being portrayed rather as the rationalising foundation for all sorts of discreetly, whimsically/fancifully and strategically prejudiced influences on media orientation. In this regards, the notion of freedom-of-speech as of such consequentially biased and

disproportionate representation undermining 'equanimity/balance of contending frameworks and policy frameworks as reflective of socially-perceived commendation and disapprobation' (as thusly failing to advance human sovereignty and free-will as of deferential-formalisation-transference implications), is increasingly becoming the unbecoming/undoing of the modern day democratic political process. Direct media surreptitious drumming-up of specific policy stances and political movements have often interfered with political governance as with the tea-party movement for instance; when considering how political orientations are 'strategically advanced/framed' in the media at critical moments for upholding favourable political policies or foiling unfavourable political policies while undermining sound analytic public debate. It is no small wonder that a public opinion increasingly exposed to such media-driven 'subterfuges', overlooking the age-old party politics narrative entrapment, has been turning to protest voting as an expression of political disdain. Furthermore, the idea of human sovereignty and free-will across all times is intimately tied down to human limited-mentation-capacity-deepening-⟨~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ as to the relative-ontological-completeness implications for knowledge-reification underlying sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing as of the specific human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-<imbued-and-educed–human-subpotency–epistemic-perspective-of-aestheticising-motif-and-apriorising/axiomatising/referencing-conceptualisation>; as the fact is the conception of human sovereignty and free-will effectively varied in reflecting the ontological-contiguity—of-the-human-institutionalisation-process as from the specific human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-<imbued-and-educed–human-subpotency–epistemic-perspective-of-aestheticising-motif-and-

apriorising/axiomatising/referencing-conceptualisation> of recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism, our positivism–procrypticism and will equally vary with prospective deprocrypticism or preempting—disjointedness-as-of-reference-of-thought as of human limited-mentation-capacity-deepening-(<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation). This effectively brings up the centrality of causality, as implied with ontological-primemovers-totalitative-framework conflating towards the inherent ontological-normalcy/postconvergence of ecstatic-existence/transcendental-signifier, wherein human sovereignty and free-will is construed as of the 'structural/paradigmatic implications of relative-ontological-completeness in superseding/overcoming/transcending human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of relative-ontological-incompleteness', reflecting a human-causative-construction conception in conflatedness/projective-conflating apriorising/axiomatising/referencing about existence as ontologically-veridical (as it is the 'totalitative epistemic/notional~projective-perspective' that points out the veridical conception of causation) and so over a traditional reflex construal of human causation in constitutedness as of any given presencing—absolutising-identitive-constitutedness apriorising/axiomatising/referencing in prospective relative-ontological-incompleteness. This insight about human sovereignty and free-will effectively points to the ontological-flaw of presencing—absolutising-identitive-constitutedness conceptions whether as of the past, present or future, inherently as of failing to account for relative-ontological-completeness implications that effectively and empirically underline sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing; and so especially as it is often implied by a 'naïve type of philosophising that the conception of human sovereignty and free-will can be abstracted outside existential-contextualising-contiguity as to the

underlying supposedly coherent ontological-commitment in wrongly implying that human sovereignty and free-will is rather veridically underlied by 'human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction' outside existential-contextualising-contiguity implications of relative-ontological-incompleteness to relative-ontological-completeness. But then such pretence of presencing—absolutising-identitive-constitutedness veracity of 'human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction' is both theoretically and empirically non-veridical, speaking more of the reality of power-grabbing/appropriating/usurpatory/arrogating implications than truly rational argumentations as of knowledge-reification implications. Such 'human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction' argumentations are often intimately associated with providing the meaningfulness-and-teleology infrastructure for the powerful and vested-interests, and their insinuations of 'human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction' as 'outside existential-contextualising-contiguity implications of relative-ontological-incompleteness to relative-ontological-completeness' is in effect not truly about the irrelevance of existential-reality implications of relative-ontological-incompleteness and relative-ontological-completeness but rather more critically 'is in effect about defaulting to specifically unavowedly/surreptitiously implied convenient/advantageous interpretations about existential-contextualising-contiguity which are not to be subjected to a fulsome analysis for ontological-veracity as of implications of relative-ontological-incompleteness and relative-ontological-completeness and so on the basis of merely projecting the term 'human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction' and thereof implying logical-dueness and

articulating logic on the so-narrowed and uncontested framework'. The reason why such a 'human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction' supposedly pertinent argumentation about human sovereignty and free-will cannot hold is that all meaningfulness-and-teleology (as implied with the logical operation of any such projected 'human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction') operate on priorly established apriorising/axiomatising/referencing and inherently all apriorising/axiomatising/referencing purport to be as of existential-contextualising-contiguity thus subject to analysis as of relative-ontological-incompleteness and relative-ontological-completeness implications as to their existential-reality veracity, such that fundamentally such 'human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction' argumentation about human sovereignty and free-will are rather 'internally inconsistent' and more aptly reflect manifestations of power-grabbing/appropriating/usurpatory/arrogating implications when analysed as of relative-ontological-completeness. Consider in this regards for instance as of the presencing—absolutising-identitive-constitutedness notion of 'human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction' underlying slavery, such an implied 'human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction' is inherently making a claim on existential-reality which rather more aptly reflect a manifestation of power-grabbing/appropriating/usurpatory/arrogating implications as of its apriorising/axiomatising/referencing that one human being has the right to own another human being (as actually not even the logical-dueness of such a 'human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-

discrete-social–value-construction' argumentation can arise from the perspective of relative-ontological-completeness as what is then implied from the relative-ontological-completeness perspective is the acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitablemeasuringinstrument-invalidating-measuring-<preconverging-or-dementing–apriorising-psychologism> of any such implied slavery 'human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction'). The proof that this is priorly 'a power-grabbing/appropriating/usurpatory/arrogating implications of apriorising/axiomatising/referencing and not of veridical logical-dueness' lies in the fact that for instance the Haitian slave revolters wouldn't countenance the logical-dueness of any such implied logic of 'human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction' underlying their enslavement but merely as of their relative-ontological-completeness perspective of apriorising/axiomatising/referencing undertake in revolt the unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitablemeasuringinstrument-invalidating-measuring-<preconverging-or-dementing–apriorising-psychologism> of any such implied slavery 'human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction'. This points to the reality that 'human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction' argumentation do not truly escape the ontological prism as of existence being the absolute a priori, and rather speak of epistemic situations in epistemic-abnormalcy/preconvergence with the possibility for true causality implications to be drawn in relative-ontological-completeness as of ontological-primemovers-

totalitative-framework construable 'structural/paradigmatic implications of relative-ontological-completeness in superseding/overcoming/transcending human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of relative-ontological-incompleteness'. The confusion here arises because of the habituation of any such 'human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction' which is then taken to be natural to the point of 'forgetting/overlooking that it is underlied by apriorising/axiomatising/referencing power-grabbing/appropriating/usurpatory/arrogating implications' to which even the weaker party might end up getting habituated to (over years, decades or centuries) as of little alternate existential choice and possibilities, and from which point a presencing—absolutising-identitive-constitutedness false sense of logical-dueness as of relative-ontological-completeness implications may seem to arise; but as with say the American civil war and the Haitian slave revolt, the reality that such implied 'human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction' is rather of flawed apriorising/axiomatising/referencing power-grabbing/appropriating/usurpatory/arrogating implications is met not with logical-dueness and logical-engagement in wrongly validating any such apriorising/axiomatising/referencing but is rather meted with relative-ontological-completeness perspective acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitablemeasuringinstrument-invalidating-measuring-<preconverging-or-dementing–apriorising-psychologism>. In fact, besides the more starkly demonstrable case with respect to say slavery this equally applies with less starkly obvious situations having to do with human social differentiation as well as any other situations requiring prospective

knowledge-reification as the possibility for all human progress arises effectively as a result of the transcending of all such human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint power-grabbing/appropriating/usurpatory/arrogating implications construed as 'human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction' as well as their socially attendant situations in need for prospective knowledge-reification; and so not as of a falsely implied logical-dueness and logical engagement that wrongly validate the relative-ontological-incompleteness apriorising/axiomatising/referencing of 'human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction' as being of existential-reality in relative-ontological-completeness, but rather as of the relative-ontological-completeness perspective acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitablemeasuringinstrument-invalidating-measuring-<preconverging-or-dementing–apriorising-psychologism> of such implied 'human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction' argumentation. In fact, such an interpretation about the ontological-veracity of 'human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction' argumentation is not only relevantly undermined with respect to say highlighting the supposed weaker party perspective in such a framework of power-grabbing/appropriating/usurpatory/arrogating implications of apriorising/axiomatising/referencing but is equally undermined/subverted when conveniently so by the stronger party for instance in the case of the various allied powers of the second-

world war overlooking Nazi scientists direct or indirect participation in war crimes on the rationale of strengthening themselves to ensure future security, and one can imagine the same with regards with many ad-hoc arrangements having to do with spying activities, etc.; thus pointing fundamentally to the ascendency of the ontological implications of human limited-mentation-capacity as to human limited-mentation-capacity-deepening-⟨~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ possibilities of relative-ontological-completeness analysis over the absolutising of 'human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction' argumentation. Thus any such pretence that 'human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction' argumentation is absolute as of presencing—absolutising-identitive-constitutedness and not subject to prospective relative-ontological-completeness implications with regards to an animal of limited-mentation-capacity requiring its prospective limited-mentation-capacity-deepening-⟨~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ (and thus paradoxically in want of its very own 'prospective~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness magnanimity induced originariness-parrhesia,–as–spontaneity-of-aestheticisation' as to cohere with ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications-<as-to-existence-potency-prospective-digression-of—~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness–as-to-the-ontological-normalcy/postconvergence-projective-perspective,-to-which-latter-human-subpotency-projectively-conflates-to-in-order-to-overcome-our-prospective-epistemic-abnormalcy/preconvergence>) is effectively bound not to be able to address the very

central/critical implications to prospective knowledge-reification of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor (with the latter involving 'direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness meaningfulness-and-teleology' as implied prospectively in 'construing of both the right apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument mindset-as-of-prospective-deprocrypticism-dissemination and thus the knowledge for that right mindset-as-of-prospective-deprocrypticism-dissemination'). Even with the modern day polity and law, the reality of human sovereignty and free-will implied in human rights takes precedence over any 'human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction' practicalities and is the basis for continual social and governmental reforms; and as so-implied by the 'structural/paradigmatic implications of relative-ontological-completeness in superseding/overcoming/transcending human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of relative-ontological-incompleteness' and this is the very legitimation for any intellectualism purporting knowledge-reification. Ultimately, the very possibility for prospective knowledge-reification as providing the illumination for prospective human sovereignty and free-will conceptualisation is itself bound to be undermined, and so as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, in the interplay of human presencing—absolutising-identitive-constitutedness inclinations for vested postures and interests poorly appreciating relative-ontological-completeness implications in contrast to dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic-growth/transvaluative-

Beyond and informing this analysis of human sovereignty and free-will ontological implications (in articulating the very underlying ontological-veracity insights that expand/broaden our specific human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-<imbued-and-educed–human-subpotency–epistemic-perspective-of-aestheticising-motif-and-

Such a human-causative-construction as of the underlying notion of relative-ontological-completeness implications is construed as 'more than just about direct re-apriorising/re-axiomatising/re-referencing/re-intelligibilitysettingup/re-measuringinstrumenting in <~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought' as to wrongly imply that human transcendence-and-sublimity is just of a direct intemporal-as-ontological nature rather than truly involving both dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation implications and secondnatured institutionalisation implications. That is, the all-pervasiveness of the reality of human temporal-to-intemporal-dispositions (as to temporal-to-intemporal individuations) regarding ontological-performance-<including-virtue-as-ontology> (as so-reflected as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor) interjects-and-invalidates the possibility of merely such intemporal-as-ontological dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation construal of human transcendence-and-sublimity; thus implying 'relative-ontological-incompleteness and relative-ontological-completeness implications' (and not 'absolute-ontological-completeness implications') given human limited-mentation-capacity at all

moments, as so-reflected in the prospective destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>—of-ontological-performance-<including-virtue-as-ontology> of any specific registry-worldview's/dimension's existential desublimation manifestation underlined by <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ or <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩. In more explicit terms, this 'conundrum of discrepancy/sundering in ontologisation/ontological-veracity/aestheticisation-towards-ontology along human registry-worldview's/dimension's institutionalisation formation' speaks to the 'social-and-institutional-dissipative-integration of any human originariness/reifying/intellectualising—idealising/transcending/sublimating–meaningfulness-and-its-institutionalisation as to human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor'; as so-reflected with the susceptibility to variedly teleologically-degraded ontological-performance-<including-virtue-as-ontology> in a 'dynamic social and institutional conjugation of temporal-to-intemporal-dispositions ontological-performance-<including-virtue-as-ontology>s-including-virtue-as-ontology at the destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>—of-ontological-performance-<including-virtue-as-ontology>' that ends up 'reconstruing any implied originariness/reifying/intellectualising—idealising/transcending/sublimating–meaningfulness-and-its-institutionalisation in its very own terms as to the effectively manifest dynamics of institutional and social relations, constraints and performances' that as of varying implicited stakes are not 'necessarily absolutely tied-down' to the abstract originariness/reifying/intellectualising—idealising/transcending/sublimating–meaningfulness-and-its-institutionalisation even as such framework-for-idealising/transcending/sublimating is clearly or abstrusely the reference of social and

institutional deferential-formalisation-transference. Thus the underlying reflex in considering human originariness/reifying/intellectualising—idealising/transcending/sublimating–meaningfulness-and-its-institutionalisation as more or less fulfilled with a satisfactory theoretical-and-practicable-projected-outcome in many ways is naïve and incomplete as to when it is 'wrongly predicated on a conception of the social and institutional as merely a passive framework of exquisite integration of abstract originariness/reifying/intellectualising—idealising/transcending/sublimating–meaningfulness-and-its-institutionalisation' failing to factor in the dynamics of social-and-institutional-dissipative-integration of any such abstract originariness/reifying/intellectualising—idealising/transcending/sublimating–meaningfulness-and-its-institutionalisation as to a 'dynamic social and institutional conjugation of temporal-to-intemporal-dispositions ontological-performance-<including-virtue-as-ontology>s-including-virtue-as-ontology at the destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>—of-ontological-performance-<including-virtue-as-ontology>'. Ultimately, with respect to social-stake-contention-or-confliction the effectively practised meaningfulness-and-its-institutionalisation while guided/constraint/structured by such originariness/reifying/intellectualising—idealising/transcending/sublimating–meaningfulness-and-its-institutionalisation theoretical-and-practicable-projected-outcome elicited positive-opportunism, generalised human behaviour to various extends actually becomes operatively and anticipatively aware by itself (as reflected by its covertly uttered <~~amplituding~~/formative>wooden-language-(imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology) that varyingly betray/reconstrues-of the originariness/reifying/intellectualising—idealising/transcending/sublimating–meaningfulness-and-its-institutionalisation) of this

possibility of discrepancy/sundering from originariness/reifying/intellectualising—idealising/transcending/sublimating–meaningfulness-and-its-institutionalisation (not only as to undermining the former conceptual completeness but evolving with the contextual immediacy perceived underlying aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint) with respect to social-stake-contention-or-confliction, and as generalised human behaviour varyingly assume existentially constraint pragmatic inclinations and temporal-to-intemporal-dispositions as of varying thresholds of constructiveness-of-ontological-performance-<including-virtue-as-ontology> and destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>—of-ontological-performance-<including-virtue-as-ontology> in relating with such originariness/reifying/intellectualising—idealising/transcending/sublimating–meaningfulness-and-its-institutionalisation. This points to the need to assume a notional construal cognisant and integrating the structural/paradigmatic implications of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, as the 'dynamic social and institutional conjugation of temporal-to-intemporal-dispositions ontological-performance-<including-virtue-as-ontology>s-including-virtue-as-ontology at the destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>—of-ontological-performance-<including-virtue-as-ontology>' speaks to the susceptibility of the destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>—of-ontological-performance-<including-virtue-as-ontology> (addressed as of originariness-parrhesia,–as–spontaneity-of-aestheticisation) to teleologically-degraded ontological-performance-<including-virtue-as-ontology> and more profoundly so specifically with enculturated/endemised postlogism and conjugated-postlogism social and institutional

manifestations, and with regards to many social-stake-contention-or-confliction circumstances of poor social and institutional accountability. Basically, the bigger point here is that however the socially transformative implications as of prior originariness/reifying/intellectualising—idealising/transcending/sublimating–meaningfulness-and-its-institutionalisation and beyond the elicited positive-opportunism underlying deferential-formalisation-transference, there is much more involved in overall social and institutional meaningfulness-and-teleology as to the 'dynamic social and institutional conjugation of temporal-to-intemporal-dispositions ontological-performance-<including-virtue-as-ontology>s at destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>—of-ontological-performance-<including-virtue-as-ontology>'. This may be overlooked in critical ways as to the critical fact that prior secondnatured-institutionalisation—existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness–epistemically-induced/constrained–reproducibility-motif-of-meaningfulness-and-teleology idealising/transcending/sublimating doesn't necessarily speak of an outright/absolute prospective inclination for human dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming-'notionally-collateralising-protohumanity'-to-'attain-sublimating-humanity',-as-to-existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness to supersede human temporality/shortness <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩) for the possibility of renewed originariness-parrhesia,–as–spontaneity-of-aestheticisation to

induced prospective secondnatured-institutionalisation—existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness–epistemically-induced/constrained–reproducibility-motif-of-meaningfulness-and-teleology idealising/transcending/sublimating; as a naïve and <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag registry-worldview/dimension reference-of-thought including our positivism–procrypticism may falsely project of itself (beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>).

Thus prospective originariness/reifying/intellectualising—idealising/transcending/sublimating–meaningfulness-and-its-institutionalisation must necessarily contend/vie with social and institutional wonkiness-of-secondnaturing as to the social-and-institutional-dissipative-integration of originariness/reifying/intellectualising—idealising/transcending/sublimating–meaningfulness-and-its-institutionalisation. Critically such wonkiness-of-secondnaturing, as to the social-and-institutional-dissipative-integration of originariness/reifying/intellectualising—idealising/transcending/sublimating–meaningfulness-and-its-institutionalisation, involves 'blurry social and institutional expanse of accommodating, contradictory and modulatory <~~amplituding~~/formative>wooden-language-⟨imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology⟩' that while of differing functional/dysfunctional implications however critically lends itself to paradoxical accommodations, contradictions and modulations of the prospective originariness/reifying/intellectualising—idealising/transcending/sublimating–meaningfulness-and-its-institutionalisation. In many ways thus such social and institutional 'cognisance-and-integration of the associated dysfunctional

<amplituding/formative>wooden-language-⟨imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology⟩'
(as to shiftiness-of-the-Self and corresponding meaningfulness-and-teleology implications) by itself provides 'preparatory/foundational causation' for existential-extrication-as-of-existential-unthought temporal-dispositions underlying institutional and social failures and crises as to their destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>—of-ontological-performance-<including-virtue-as-ontology> (however the seeming remoteness from such direct social and institutional issues, crises and failures); as associated with various social and institutionalised frames of <amplituding/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩, and as further surreptitiously enabled with sophistic/pedantic dispositions predisposed to articulate meaningfulness-and-teleology in terms eliciting human temporality/shortness but then of teleologically-decadent–as-lacking-in-<amplituding/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness holistic social and institutional implications that default to vested postures and interests. This analysis is critical by the very 'direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness meaningfulness-and-teleology' as required for prospective deprocrypticism or preempting—disjointedness-as-of-reference-of-thought (as to the reality of the implications of 'wonkiness-of-secondnaturing as of the social-and-institutional-dissipative-integration of originariness/reifying/intellectualising—idealising/transcending/sublimating–meaningfulness-and-its-institutionalisation' associated with our positivism/rational-

empiricism secondnatured-institutionalisation—existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness–epistemically-induced/constrained–reproducibility-motif-of-meaningfulness-and-teleology); as what marks out prospective deprocrypticism or preempting—disjointedness-as-of-reference-of-thought is the necessity for the appropriate protracted self-consciousness as to deprocrypticism's protensive–self-consciousness to overcome our human relatively-shallow-frame-of-elicited-positive-opportunism-of-low-intrinsic-attribution-and-high-extrinsic-attribution-susceptibility,-lacking-in-<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness, and this 'notionally protracted dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension conception' as of notional~deprocrypticism is what underlies the homeliness in reflecting the ontological-contiguity—of-the-human-institutionalisation-process, as to the direct bilateral relation of 'the successive construction-of-the-Self induced human self-consciousness capacity acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument' as enabling 'corresponding possibilities of meaningfulness-and-teleology transcendence-and-sublimity' with regards to the successive registry-worldview's/dimension's reference-of-thought–and–reference-of-thought-devolving–meaningfulness-and-teleology. The fact is 'wonkiness-of-secondnaturing as of the social-and-institutional-dissipative-integration of originariness/reifying/intellectualising—idealising/transcending/sublimating–meaningfulness-and-its-institutionalisation' implies that any given registry-worldview/dimension is in a <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag conception of value-construction and

overall meaningfulness-and-teleology that is subpar to prospective possibilities of human transcendence-and-sublimity; and this particular point is critical for the awareness that social thought can be developed that 'transepistemically overlooks the presencing—absolutising-identitive-constitutedness conception of value-construction and overall meaningfulness-and-teleology' (as to its destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>—of-ontological-performance-<including-virtue-as-ontology> induced <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩)) for the possibility of prospective transvaluation as of dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation, as so-reflected empirically in the instigation of the successive registry-worldviews/dimensions institutionalisations. Thus, there is a direct relation between human-subpotency and existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness (so underlied as of the parrhesiastic seeding-promise-of-human-subpotency-ontological-performance-<including-virtue-as-ontology>-correspondence-with-the-full-potency-of-existence-as-of-its-coherence/contiguity), and this is effectively instigated/originated by the human capacity for dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension in its construction-of-the-Self with respect to prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint. The underlying point here is that there is no inherent meaningfulness-and-teleology but rather as of the specific human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-

<imbued-and-educed–human-subpotency–epistemic-perspective-of-aestheticising-motif-and-apriorising/axiomatising/referencing-conceptualisation>, that is, as to 'human-subpotency potential to epistemically converge to the full-potency of existence'; and this underlying structure of reflexivity is the very structure in reflecting the ontological-contiguity—of-the-human-institutionalisation-process, however, the surreptitious and opportunistic temporal interpretations to exploit its positive consequences at one moment and to reject it the moment it prospectively challenges-us/puts-us-to-question as of prospective implications of living-development–as-to-personality-development,   institutional-development–as-to-social-function-development   and   Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology.   The implication here is that all human knowledge is necessarily for-human-studies/for-human-constructs whether with regards to the social or the natural sciences; as to the fact that all such knowledge is ever only referenced/registered/decisioned in the human consciousness (individual consciousness and collective consciousness respectively as to direct knowledge and indirect knowledge as of deferential-formalisation-transference implications) and functions to broaden-the-latitude-of-human-collective-consciousness with regards to human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint in existence. The very possibility for prospective human knowledge generation thus calls for human dimensionality-of-sublimating—<amplituding/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation   given the   reality   of   human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, with such human dimensionality-of-sublimating—<amplituding/formative>epistemic-growth/transvaluative-

rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation speaking of true humanity projection for prospective secondnaturing institutionalisation (that goes on to broaden-the-latitude-of-human-collective-consciousness), and so over the wrongfully elicited self-satisfaction of sophistic/pedantic presencing—absolutising-identitive-constitutedness in existential-extrication-as-of-existential-unthought failing to address the universal implications of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint. This underlying human knowledge-notionalisation is what speaks of the distinction between the physician and quack-doctor, the technician/engineer and the scammer, the intellectual and the sophist, etc. Critically, the former as involved in prospective originariness/reifying/intellectualising—idealising/transcending/sublimating–meaningfulness-and-its-institutionalisation bluntly profess that 'human temporality/shortness <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩' is in want for secondnatured knowledge and institutionalisation, and so as to the former human limited-mentation-capacity-deepening-⟨<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ (as to the specifically cultivated arts/skills and time investment, and on the intimation that the implied deferential-formalisation-transference is so-validated as of the supposedly coherent ontological-commitment). In the bigger picture, this speaks to a human socially expanded framework of deferential-formalisation-transference as to various cultivated skills/arts and time investment with their knowledge deferential-formalisation-transference validation as of the supposedly coherent ontological-commitment; and implying a greatly expanded human collective consciousness as of differing for-human-studies/for-human-constructs of

place the issue has nothing to do with inherent and genuine

originariness/reifying/intellectualising—idealising/transcending/sublimating–

meaningfulness-and-its-institutionalisation but rather a lulling falsehood that sees our mortal

underlying social-vestedness/normativity undermining of human dispensing-with-

effectively about discouraging the possibility for prospective humanity to manifest. But then

this intellectualism and sophistry conundrum underlying knowledge-notionalisation (as of prospective human living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology), structurally/paradigmatically marks all human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint as to 'the uninstitutionalised-threshold attendant framework of lack of social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩-or-understanding-of-ontological-primemovers-totalitative-framework-of-underlying-phenomena'. This very fact is defining as without the latter there wouldn't be any human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint in the very first place; and this very much explains the defining relevance of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, as to the possibility for genuine human reification and emancipation to broaden-the-latitude-of-human-collective-consciousness or disenfranchising falsehoods. The taxingness-of-originariness (as to the direct relation between human-subpotency and existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness) is effectively what underlies human institutional paralysis and social-vestedness/normativity as well as the possibility for prospective human construction-of-the-Self in the face of increasingly technically aloof/remote and racing technological, organisational and social transformation; such that the requisite human thoughtfulness that can correspondingly broaden-the-latitude-of-human-collective-consciousness is increasingly

out of the loop as humankind in the modern positivism age has increasingly become rather a self-subjugating agent to such transformations as to their lopsided material/equipment/accoutrement sublimation implications with the notion of human consciousness sublimation increasingly passivised and blanked to vested social-and-institutional-frameworks-of—referencing/registering/decisioning actions. But then humankind faces the challenge of contemplatively articulating meaningfulness-and-teleology capable of reinventing/recreating and keeping the human at the driver seat rather than an object of unformulated/unthought-of driven existential emergence/becoming as of lopsided material/equipment/accoutrement sublimation over a 'dreary blankness of consciousness' (rather functioning to be attended-to and accommodated/unaccommodated by that lopsided material/equipment/accoutrement sublimation) as human consciousness is in want of its very own corresponding sublimation as to redefining the possibilities/potential for prospective humanity that can further broaden-the-latitude-of-human-collective-consciousness. Such 'dreary blankness of consciousness' (beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>) is predicated upon and drags along the shiftiness-of-the-Self as from prior human stake-contention-or-confliction conceptualisation in a psychological entrapment of defining naiveties and complexes (so-construed in presencing—absolutising-identitive-constitutedness as historicity-tracing)', and so towards humankind's supposed future (as of living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology); and in many ways this historicity-tracing—presencing-imbued-hyperrealisation/hyperreal-transposition has already been stifling/stalling the human prospective potential as from the ontological-normalcy/postconvergence perspective conception of future historiality/ontological-eventfulness/ontological-aesthetic-

tracing relevant to deprocrypticism or preempting—disjointedness-as-of-reference-of-thought. Such historicity-tracing—presencing-imbued-hyperrealisation/hyperreal-transposition is fundamentally defined by a certain enduring reproducibility passivity and blankness of human social processes, wary of the implications of prospective renewal possibilities as the psychological entrapment constraints of historicity-tracing—presencing-imbued-hyperrealisation/hyperreal-transposition override prospective originariness-parrhesia,–as–spontaneity-of-aestheticisation possibilities, and the prospect for the future is ever so tied down to the psychological entrapment of prior human stake-contention-or-confliction framework that nullifies the possibility for renewal of humanity. Institutionalised historicity-tracing—presencing-imbued-hyperrealisation/hyperreal-transposition thus foregoes the construal of human meaningfulness-and-teleology as a construct of re-originariness/re-origination of meaningfulness-and-teleology as to human limited-mentation-capacity-deepening-⟨<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ so-implied from the ontological-normalcy/postconvergence epistemic/notional~projective-perspective as to maximalising-recomposuring-for-relative-ontological-completeness and rather adopts the temporality/shortness comfort as of incrementalism-in-relative-ontological-incompleteness hanging on to historicity-tracing—presencing-imbued-hyperrealisation/hyperreal-transposition presencing—absolutising-identitive-constitutedness notional framework of human stake-contention-or-confliction. Historicity-tracing—presencing-imbued-hyperrealisation/hyperreal-transposition thus involves a <amplituding/formative>epistemic-totalising/circumscribing/delineating conception of social-vestedness/normativity as to an underlying human psychological entrapment (as of living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-

infrastructure-of-meaningfulness-and-teleology) that is incapable to re-stake/put-back-at-stake meaningfulness-and-teleology out of its historicity-tracing—presencing-imbued-hyperrealisation/hyperreal-transposition social-vestedness/normativity in order to reflect the true prospective overall aestheticisation–and–aestheticisation-towards-ontology as to the unbridled ontological-normalcy/postconvergence epistemic/notional~projective-perspective re-originariness/re-origination of human limited-mentation-capacity-deepening-⟨<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩. Such social and institutional social-vestedness/normativity for instance like in many ways the practice in modern day scholarship (especially when poorly constrained to existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness) is bound to 'make its own weather' rather as from human-subpotency temporality/shortness; wherein 'invested' institutional and theoretical/conceptual postures take on an essence all of their own, and so independently and overlooking the precedence of existential-reality for the possibility for prospective sublimation and knowledge-reification and failing to 'effectively re-stake/put-back-at-stake in re-originariness/re-origination the capacity of human ontological-performance-<including-virtue-as-ontology> in a renewing originariness-parrhesia,–as–spontaneity-of-aestheticisation' over already set/established/determining prior reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation, and so failing to be responsive to the fact that human limited-mentation-capacity-deepening-⟨<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ rather invokes prospective dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation for re-

originariness/re-origination (and as ever always such destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>—of-ontological-performance-<including-virtue-as-ontology> across the successive registry-worldviews/dimensions abuse of the idea of being at the backend of human institutional-cumulation/institutional-recomposure as speaking to its own exceptionalism in a naïve <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag posture instead of the true instigative exceptionalism of the underlying ontological-contiguity—of-the-human-institutionalisation-process). This temporal/shortness disposition to fail re-originariness/re-origination is of overall social recurrence as to human temporality/shortness <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ as of 'varying magnitudes/scales—as-to-successively-profound-restructuring/reparadigming-frames-as-from-living,-institutionalising,-and-Being-ontologising/infrastructure-of-meaningfulness-and-teleology of prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor'; and so in all situations particularly those poorly constrained to existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness. Such that such ontologically-flawed presencing—absolutising-identitive-constitutedness becomes a psychological entrapment of an overwhelming presence hardly capable of profound re-originariness/re-origination but for its thresholding to the accrued historicity-tracing—presencing-imbued-hyperrealisation/hyperreal-transposition perception of temporal/shortness human stakes-

contention-or-confliction framework; with the consequence that this mitigates the possibility to broaden-the-latitude-of-human-collective-consciousness off-the-beaten-path of historicity-tracing—presencing-imbued-hyperrealisation/hyperreal-transposition (as of living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology) as to the relation with human lopsided material/equipment/accoutrement sublimation, as such a consciousness increasingly adopts a desublimation/gimmickiness rather than its very own sublimation in tandem with material/equipment/accoutrement sublimation. This is reflected with the increasing remoteness/aloofness and alienation of the generalised human subject from such material/equipment/accoutrement sublimation captured under abstract institutional frameworks of stewardship expecting a 'dreary blankness of consciousness' (rather functioning to be attended-to and accommodated/unaccommodated by the lopsided material/equipment/accoutrement sublimation) in order to maximise passive enculturation and merchandising as of 'presencing—absolutising-identitive-constitutedness-of-meaningfulness-and-teleology given historicity-tracing—presencing-imbued-hyperrealisation/hyperreal-transposition'. Thus, the possibility for the generalised human subject capacity for consciousness sublimation is seized up and constrained in such socially and institutionally bureaucratising and deterministic frameworks that now structurally/paradigmatically determine the possibilities of human consciousness sublimation as to their abstracted defining conception of human stake-contention-or-confliction (as of living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology) such that the generalised human subject re-originariness/re-origination sublimation imaginary

possibilities are already truncated as from prospective ontological-normalcy/postconvergence epistemic/notional~projective-perspective of re-originariness/re-origination as implied with prospective deprocrypticism or preempting—disjointedness-as-of-reference-of-thought. Today, many agile initiatives allowing more or less for the expression of the human subject imaginary and so specifically with start-up entrepreneurship increasingly highlight that in many ways traditional social-and-institutional-frameworks-of—referencing/registering/decisioning are suboptimal conceptualisations of human consciousness sublimation possibilities as to their thoroughgoing beholdenness to 'presencing—absolutising-identitive-constitutedness-of-meaningfulness-and-teleology given historicity-tracing—presencing-imbued-hyperrealisation/hyperreal-transposition' bounded to prospective thresholds of passivity and blanking of human consciousness sublimation possibilities. In many ways because of poor appreciation of the 'direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness meaningfulness-and-teleology' the modern mindset has tended to construe of its lopsided material/equipment/accoutrement sublimation implications naively as implying the comprehensive fulfilment of human potential with poor appreciation/sense that effectively as reflected with prior registry-worldviews/dimensions, the proximity of technology then never implied as today a generalised human consciousness passivity and blankness to the point of relative desublimation/gimmickiness over sublimation (beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>); and so as potently contended by Baudrillard simulacrum conception wherein gimmicky formulaic representations of overall aestheticisation–and–aestheticisation-towards-ontology increasingly substitute for more profound possibilities of human aestheticisation–and–aestheticisation-towards-ontology as meaningfulness-and-teleology with respect to the potential for prospective human consciousness sublimation as of a holistic projection of

dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension. Whereas historically the technological accessibility and proximity to the generalised human consciousness of such events like the invention of metal implements, the plough, writing, the printing press, etc. provided more profound possibilities for human consciousness sublimation in re-orginariness/re-origination, beyond mere lopsided technological as of lopsided material/equipment/accoutrement sublimation in the framework of 'a presencing—absolutising-identitive-constitutedness-of-meaningfulness-and-teleology given historicity-tracing—presencing-imbued-hyperrealisation/hyperreal-transposition' that passivises and blanks thus undermining/stifling the possibility for prospective historiality/ontological-eventfulness/ontological-aesthetic-tracing. While a traditional conception of human sublimating-over-desublimating social-and-institutional-constructs–of-meaningfulness-and-teleology—in-cumulation/recomposuring is often articulated as resting on 'human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction' presencing—absolutising-identitive-constitutedness/constitutedness apriorising/axiomatising/referencing–conceptualisation perspective thus supposedly rendering irrelevant their analysis as of inherent ontological-veracity (as to supposedly coherent ontological-commitment with regards to the 'full-conflatedness of apriorising/axiomatising/referencing–conceptualisation as of existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness), but rather tending to a construal as of 'inherent prior aestheticisation–and–aestheticisation-towards-ontology as of human social-vestedness/normativity'; such a traditional conception from the relative-ontological-completeness perspective is actually unfounded and rather speaks to prior relative-ontological-incompleteness manifestation of human presencing—absolutising-identitive-constitutedness/constitutedness (as to historicity-tracing—presencing-imbued-

The reality of the dynamic relation between human constitutedness and conflatedness of apriorising/axiomatising/referencing–conceptualisation (as to the successive relative-ontological-completeness registry-worldviews/dimensions adopted human reference-of-thought acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and-teleology with respect to existence-potency-prospective-digression-of—~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness), as reflected in reflecting the ontological-contiguity—of-the-human-institutionalisation-process with: base-constitutedness at recurrent-utter-uninstitutionalisation, first-level presencing—absolutising-identitive-constitutedness at base-institutionalisation–ununiversalisation, second-level presencing—absolutising-identitive-constitutedness at universalisation–non-positivism/medievalism, third-level presencing—absolutising-identitive-constitutedness at our positivism–procrypticism, and prospectively full-conflatedness at prospective deprocrypticism; rather speaks to a more fundamental driver as to underlying ontological-veracity (as to supposedly coherent ontological-commitment with regards to the 'full-conflatedness of apriorising/axiomatising/referencing–conceptualisation as of existence-potency-prospective-digression-of—~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness) but that such a reality is oblivious to the traditional construal in presencing—absolutising-identitive-constitutedness/constitutedness of apriorising/axiomatising/referencing–conceptualisation that speaks of 'human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction' in presencing—absolutising-identitive-constitutedness. The reality at any such uninstitutionalised-threshold is rather one of 'dynamically-convergent-rationalising-frameworks of meaningfulness-and-teleology of differing ontological-performance-<including-virtue-as-ontology> implications' hence defining both the given institutionalisation/constructiveness-of-ontological-performance-<including-virtue-as-ontology> and its destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>—of-ontological-performance-<including-virtue-as-ontology>. This disambiguation of ontological-contiguity—of-the-human-institutionalisation-process 'dynamically-convergent-rationalising-frameworks of meaningfulness-and-teleology of differing ontological-performance-<including-virtue-as-ontology> implications' speaks to the fact that, as from the ontological-normalcy/postconvergence epistemic/notional~projective-perspective, the ontological-performance-<including-virtue-as-ontology> of human temporal-to-intemporal-dispositions (rather operantly construable as temporal-to-intemporal individuations) reflect a 'formative underlying human decoherencing-structure—of-meaningfulness-and-teleology-for-institutionalisation' in reflecting the ontological-

contiguity—of-the-human-institutionalisation-process. The 'imaginary of deprocrypticism or preempting—disjointedness-as-of-reference-of-thought' is a projection towards the prospective sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing bound to overcome desublimating historicity-tracing—presencing-imbued-hyperrealisation/hyperreal-transposition imbued psychological entrapment, as to the potential for a full human psychological uninhibitedness/decomplexification in superseding the 'formative underlying human decoherencing-structure—of-meaningfulness-and-teleology-for-institutionalisation' as to its hitherto recurrent instigation of human relatively-shallow-frame-of-elicited-positive-opportunism-of-low-intrinsic-attribution-and-high-extrinsic-attribution-susceptibility,-lacking-in-<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness. Desublimating historicity-tracing—presencing-imbued-hyperrealisation/hyperreal-transposition imbued psychological entrapment arises inherently because of the taxingness-of-originariness as to the fact that: what has gone before aesthetically structures/paradigms distortedly the possibility for the later aestheticisation, with regards to human limited-mentation-capacity-deepening-⟨<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ as of its decoherencing-structure—of-meaningfulness-and-teleology-for-institutionalisation. But then existence is not beholden to any such human reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation residuality that induces human decoherencing-structure—of-meaningfulness-and-teleology-for-institutionalisation stifling/stalling of the full possibility of prospective historiality/ontological-eventfulness/ontological-aesthetic-tracing. Desublimating historicity-tracing—presencing-imbued-hyperrealisation/hyperreal-transposition aestheticisation–and–aestheticisation-towards-ontology decoherencing-structure—of-meaningfulness-and-

teleology-for-institutionalisation (as construed from the prospective deprocrypticism ontological-normalcy/postconvergence epistemic/notional~projective-perspective) can be reflected with respect to the very supposedly most enlightening-giving notion of philosophy as to its decoherencing-structure—of-meaningfulness-and-teleology-for-institutionalisation (as from the ontological-normalcy/postconvergence epistemic/notional~projective-perspective) from human philosophy, to varying philosophies as of African, Oriental, European, Arab, etc. as to desublimating historicity-tracing—presencing-imbued-hyperrealisation/hyperreal-transposition psychological entrapment that ultimately denatures the historiality/ontological-eventfulness/ontological-aesthetic-tracing purity of the very notion of philosophy. This patent elucidation of the decoherencing-structure—of-meaningfulness-and-teleology-for-institutionalisation as to such a supposedly most abstract and enlightening-giving notion that is philosophy is a basic insight (as construed from the ontological-normalcy/postconvergence epistemic/notional~projective-perspective) of desublimating historicity-tracing—presencing-imbued-hyperrealisation/hyperreal-transposition psychological entrapment with respect to the overall prospective sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing (which structurally/paradigmatically seems to be entrapped/stifled in human taxingness-of-originariness). Effectively, human decoherencing-structure—of-meaningfulness-and-teleology-for-institutionalisation arises as of 'taxingness-of-originariness (what has gone before aesthetically structures/paradigms distortedly the possibility for the later aestheticisation). The idea of superseding the human registry-worldview's/dimension's institutionalisation decoherencing-structure—of-meaningfulness-and-teleology-for-institutionalisation (as to 'abstractly projected finality in reflecting the ontological-contiguity—of-the-human-institutionalisation-process') for prospective sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing, patently makes obvious

what the true implications of prospective deprocrypticism or preempting—disjointedness-as-of-reference-of-thought project with respect to its dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension re-originariness/re-origination conceptualisation in relation to our present positivism–procrypticism aestheticisation–and–aestheticisation-towards-ontology as meaningfulness-and-teleology. This is reflected in the projected underlying ontological-performance-<including-virtue-as-ontology> divergent relation between historicity-tracing—presencing-imbued-hyperrealisation/hyperreal-transposition (as constrained to human taxingness-of-originariness as to: what has gone before aesthetically structures/paradigms distortedly the possibility for the later aestheticisation) and prospective historiality/ontological-eventfulness/ontological-aesthetic-tracing. Historicity-tracing—presencing-imbued-hyperrealisation/hyperreal-transposition as implied at all uninstitutionalised-threshold is what underlies the notionally-collateralising inclination of human meaningfulness-and-teleology as of any given registry-worldview/dimension in relative-ontological-incompleteness; speaking in reflecting the ontological-contiguity—of-the-human-institutionalisation-process as 'an overall human aestheticisation–and–aestheticisation-towards-ontology originariness-by-reproducibility-laddering effect' for corresponding human consciousness sublimation. But then the implication of deprocrypticism or preempting—disjointedness-as-of-reference-of-thought as supposedly superseding human relatively-shallow-frame-of-elicited-positive-opportunism-of-low-intrinsic-attribution-and-high-extrinsic-attribution-susceptibility,-lacking-in-<amplituding/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness, as to its 'aspiring pureness of re-originariness/re-origination', is effectively 'a reconstrual in reflecting the ontological-contiguity—of-the-human-institutionalisation-process as to the obviating of its decoherencing-structure—of-meaningfulness-and-teleology-for-institutionalisation induced

historicity-tracing—presencing-imbued-hyperrealisation/hyperreal-transposition (beyond the implications of taxingness-of-originariness as to: what has gone before aesthetically structures/paradigms distortedly the possibility for the later aestheticisation)'; such that the deprocrypticism potential is 'a wholly other of historicity-tracing—presencing-imbued-hyperrealisation/hyperreal-transposition' as to the implications of its re-originariness/re-origination for prospective historiality/ontological-eventfulness/ontological-aesthetic-tracing beyond foregone aestheticisation–and–aestheticisation-towards-ontology in reflecting the ontological-contiguity—of-the-human-institutionalisation-process (in truly reflecting the 'full human-subpotency potentiation' as to the most profound human capacity for dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension).

Its defining question is whether and how can the human reconstrue meaningfulness-and-teleology in re-originariness/re-origination beyond its trailing/dragging foregone aestheticised meaningfulness-and-teleology construal? This limitativeness of historicity-tracing—presencing-imbued-hyperrealisation/hyperreal-transposition is fundamentally an issue of human psychological entrapment 'defining naiveties and complexes' as to human shiftiness-of-the-Self as of its presencing—absolutising-identitive-constitutedness (construable abstractly as fundamentally subpar to human effectuation potential but for the fact that the psychological entrapment is a paradoxical circular constituent of the human as to its 'notionally-collateralising-protohumanity by sublimating-humanity existentialism-form-factor'). Human presencing—absolutising-identitive-constitutedness as the very seeding disposition for historicity-tracing—presencing-imbued-hyperrealisation/hyperreal-transposition is ever always characterised by its immediacy-reactive-criticality (over panoramic-sublimating-criticality) as to its constraining aestheticisation–and–aestheticisation-towards-ontology framework; such that the propensity for human meaningfulness-and-teleology to be instigated (as to human limited-mentation-capacity-

From the ontological-normalcy/postconvergence epistemic/notional~projective-perspective (as to panoramic-sublimating-criticality), immediacy-reactive-criticality inherently implies human-subpotency induces discreteness (and not ontological-contiguity) by its presencing—absolutising-identitive-constitutedness that undermines the '~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating existential-contextualising-contiguity foregrounding—entailment-⟨narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting 'immanent-ontological-contiguity'⟩,–as-operative-notional~deprocrypticism in elucidating ontological-contiguity-<as-from-prospective-

(inducing notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised~preconverging/dementing–qualia-schema>). Thus as of ultimate human deprocrypticism or preempting—disjointedness-as-of-reference-of-thought ideality/imaginary–as-to-its-sublimation-beyond-prior-aestheticisation paradox: 'human originariness-by-reproducibility-laddering effect' underlying historicity-tracing—presencing-imbued-hyperrealisation/hyperreal-transposition speaks to the 'succession of notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised~preconverging/dementing–qualia-schema> of registry-worldviews/dimensions meaningfulness-and-teleology' (so-construed from the ontological-normalcy/postconvergence epistemic/notional~projective-perspective) rather as of their 'manifest outcomes/outfits/shells—construed-historially-as-of-the-specifically-aestheticised-incrusting/plating/coating,-so-reflected-as-institutional-manifestations of human meaningfulness-and-teleology' towards the ultimately reflecting the ontological-contiguity—of-the-human-institutionalisation-process notional-contiguity/epistemic-contiguity-<mentally-aestheticised~postconverging/dialectical-thinking–qualia-schema> and ontological-contiguity as of ontological-normalcy/postconvergence; however, prospective deprocrypticism or preempting—disjointedness-as-of-reference-of-thought historiality/ontological-eventfulness/ontological-aesthetic-tracing is about human re-orginariness/re-origination as of ontological-normalcy/postconvergence exclusively, as to its obviating of prior desublimating historicity-tracing—presencing-imbued-hyperrealisation/hyperreal-transposition for prospective historiality/ontological-eventfulness/ontological-aesthetic-tracing as unbeholdening to the 'successive notional~discontiguities/epistemic-discontiguities—as-preconverging/dementing–qualia-schema failing to achieve notional-contiguity/epistemic-contiguity-<mentally-aestheticised~postconverging/dialectical-thinking–qualia-schema> as to

Such that, prospective deprocrypticism or preempting—disjointedness-as-of-reference-of-thought (with respect to obviating of prior desublimating historicity-tracing—presencing-imbued-hyperrealisation/hyperreal-transposition imbued ontological-performance-<including-virtue-as-ontology>) implies the superseding of the ontological-veracity of such presencing—absolutising-identitive-constitutedness human sublimating-over-desublimating social-and-institutional-constructs–of-meaningfulness-and-teleology—in-cumulation/recomposuring (and so with regards to human living-development–as-to-personality-development or institutional-development–as-to-social-function-development or Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology), as to the fact that these end up overtly or covertly drawing their inherent justification on the basis of their inherent prior aestheticisation–and–aestheticisation-towards-ontology as of human social-vestedness/normativity rather than any relevant underlying supposedly coherent ontological-commitment as their social-vestedness/normativity increasingly become dépassé (prospectively ontologically-invalid), thus rather stifling the requisite dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension and thus marring prospective historicality/ontological-eventfulness/ontological-aesthetic-tracing. Actually, the notion of hyperreality–as-to-its-simulacrum implications highlighted by postmodern-thought is more profoundly manifested in reflecting the ontological-contiguity—of-the-human-institutionalisation-process as to historicity-tracing—presencing-imbued-

apriorising/axiomatising/referencing–psychologism of (relative-ontological-completeness in prospective notional-contiguity/epistemic-contiguity-<mentally-aestheticised~postconverging/dialectical-thinking–qualia-schema>), can be reflected historially with respect to say 'an engrained traditional non-positivism/medievalism conceptualisation of the world' incapable/could-not-bring-itself to mentally process the implications of planets shown with a telescope to be rather going around the sun in a nascent positivism/rational-empiricism attitude/mental-disposition/care–and–episteme implied by Galileo and further conceptually articulated by Descartes' thinking proposition as to its mathesis universalis implications, such that it is as of a cross-generational transformation that humankind develops the positivism/rational-empiricism apriorising/axiomatising/referencing–psychologism (as of psychoanalytic-unshackling/memetic-reordering/institutional-recomposure) to grasp the full structural/paradigmatic implications of positivism/rational-empiricism as from the initial non-positivism/medievalism historicity-tracing—presencing-imbued-hyperrealisation/hyperreal-transposition with regards to the prospect of positivism/rational-empiricism aestheticisation–and–aestheticisation-towards-ontology as meaningfulness-and-teleology. Likewise, this insight can be extended in reflecting the historicity-tracing—presencing-imbued-hyperrealisation/hyperreal-transposition of 'an engrained traditional non-universalising conceptualisation of the world' incapable/could-not-bring-itself to mentally process the implications of the nascent universalising-idealisation attitude/mental-disposition/care–and–episteme implied by the Socratic philosophers as to its apriorising/axiomatising/referencing–psychologism (as of psychoanalytic-unshackling/memetic-reordering/institutional-recomposure) induced cross-generational transformation. In both instances it speaks to an underlying apriorising/axiomatising/referencing–psychologism 'wanting of human consciousness sublimation' to effectively come to terms with 'manifest existence-potency-

Thus in the bigger picture, Baudrillard's conception of hyperreality (as implied with respect to our present lopsided technological as of lopsided material/equipment/accoutrement sublimation) speaks to the underlying apriorising/axiomatising/referencing–psychologism 'wanting of human consciousness sublimation' as to its capacity to sublimate beyond our positivism–procrypticism historicity-tracing—presencing-imbued-hyperrealisation/hyperreal-transposition of aestheticisation–and–aestheticisation-towards-ontology as meaningfulness-and-teleology; reflected as the epistemic insufficiency of our 'gimmickiness of consciousness' with regards to the potential for re-originariness/re-origination beyond procrypticism/disjointedness-as-of-reference-of-thought historicity-tracing—presencing-imbued-hyperrealisation/hyperreal-transposition inclination now reflected as prior notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised~preconverging/dementing–qualia-schema>, as so-construed projectively from the prospective ontological-normalcy/postconvergence epistemic/notional~projective-perspective of deprocrypticism or preempting—disjointedness-as-of-reference-of-thought in prospective notional-contiguity/epistemic-contiguity-<mentally-aestheticised~postconverging/dialectical-thinking–qualia-schema>. Insightfully, while with prior registry-worldviews/dimensions human consciousness sublimation ontological-performance-<including-virtue-as-ontology> had rather assumed 'an overall human aestheticisation–and–aestheticisation-towards-ontology originariness-by-reproducibility-laddering effect' (involving 'a notionally-collateralising inclination detour of aestheticisation–and–aestheticisation-towards-ontology' as to the underlying 'notionally-collateralising-protohumanity by sublimating-humanity existentialism-form-factor'), the requisite protensive–self-consciousness of prospective deprocrypticism is one that as to its full grasp/understanding/universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<<s>amplituding</s>/formative>epistemic-totalising–in-relative-ontological-completeness⟩ of the restructuring/reparadigming possibilities of prospective human aestheticisation–and–aestheticisation-towards-ontology as meaningfulness-and-teleology should be amenable to a self-consciousness projection that should be able to engage with its corresponding level of taxingness-of-originariness (as to its own 'humanity-sublimation homework' at its given

This is very much in line with the idea that every registry-worldview/dimension certainly has a conceptualisation of the notion of progress but such a conceptualisation is naively grounded on its presencing—absolutising-identitive-constitutedness (as it engages in the complexification of meaningfulness-and-teleology on the basis of its very same apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument it construes/reproduces as absolute) and fails to appreciate that it is rather by putting in question its acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of the apriorising/axiomatising/referencing–psychologism that it then aligns to existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-

realisation/re-perception/re-thought,–in-epistemic-conflatedness; and so because the initiation by human limited-mentation-capacity of the acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument to reflect ecstatic-existence is of limited ontological-performance-<including-virtue-as-ontology> such that inherently the human should be able to anticipate the need for its limited-mentation-capacity-deepening-⟨<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ as of re-apriorising/re-axiomatising/re-referencing/re-intelligibilitysettingup/re-measuringinstrumenting so-explaining the dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation, as if the human had absolute-mentation-capacity as falsely implied by presencing—absolutising-identitive-constitutedness inclinations the very first humans will not apriorise/axiomatise/reference meaningfulness-and-teleology as of recurrent-utter-uninstitutionalisation but will directly attain prospective deprocrypticism or preempting—disjointedness-as-of-reference-of-thought. In this regards, the dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation and the dimensionality-of-desublimating-lack-of—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation are intimately related respectively to ontological-good-faith/authenticity (enabling the possibility of human transcendence-and-sublimity) and ontological-bad-faith/inauthenticity (assuming a desublimation/gimmickiness as to its perceived presencing social-stake-contention-or-confliction), and so beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>.

Prospective deprocrypticism thus is 'a projection beyond just about a deterministic acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument', but a fundamental grasp of the underlying dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation and the dimensionality-of-desublimating-lack-of—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation implications in reflecting the ontological-contiguity—of-the-human-institutionalisation-process (for prospective critical/decisive skewing towards dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation); as enabling 'organic attainment' of deprocrypticism or preempting—disjointedness-as-of-reference-of-thought (rather than a 'mechanical conception' which will unbeknownst still be subject to the same dimensionality-of-desublimating-lack-of—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation, rather as to a mere and further complexification of our very same positivism–procrypticism/disjointedness-as-of-reference-of-thought). This is critical to broaden-the-latitude-of-human-collective-consciousness so-implied as of the sublimation possibilities enabled by the dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation over the desublimation/gimmickiness of the dimensionality-of-desublimating-lack-of—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation.

Interestingly, human rememoration/historical-recording is highly skewed towards the rememorising/recording of 'transvaluative sublimating-outcomes-of-institutionalisation' while overlooking the underlying 'recurrent mental-orientations involved contendingly' in producing the 'transvaluative sublimating-outcomes-of-institutionalisation'. 'fatedness-of-sublimation-over-desublimation, to existence-potency-prospective-digression-of—~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness (in reflecting the ontological-contiguity—of-the-human-institutionalisation-process), of human-subpotency ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality as to the disseminative—selectivity-of-ontological-good-faith/authenticity–over–deselectivity-of-ontological-bad-faith/inauthenticity', as the driver of the human-subpotency potentiating existential becoming manifestation of sublimating-over-desublimating social-and-institutional-constructs–of-meaningfulness-and-teleology—in-cumulation/recomposuring all along in reflecting the ontological-contiguity—of-the-human-institutionalisation-process (with regards to existence-potency-prospective-digression-of—~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness); inherently implies that at any given registry-worldview/dimension, its 'transvaluative sublimating-outcomes-of-institutionalisation' tend to be construed as instigated as of the prior underlying 'disseminative—selectivity-of-ontological-good-faith/authenticity mental-orientation' inducing the institutionalisation while ultimately ignoring/blanking-out the prior 'disseminative—deselectivity-of-ontological-bad-faith/inauthenticity mental-orientation'. The consequence of ignoring/blanking-out the prior 'disseminative—deselectivity-of-ontological-bad-faith/inauthenticity mental-orientation' is that with regards to prospective transcendental-enabling/sublimating sublimating-over-desublimating social-and-institutional-constructs–of-meaningfulness-and-teleology—in-

Basically, the dimensionality-of-desublimating-lack-of—<amplituding/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation reflected in the 'disseminative—deselectivity-of-ontological-bad-faith/inauthenticity mental-orientation' is more than just a question of ad-hocness and speaks to the recurrence in reflecting the ontological-contiguity—of-the-human-institutionalisation-process successive registry-worldviews/dimensions uninstitutionalised-thresholds implied notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised~preconverging/dementing–qualia-schema (as rather failing to attain prospective notional-contiguity/epistemic-contiguity-<mentally-aestheticised~postconverging/dialectical-thinking–qualia-schema>), in reflecting prospective ontological-contiguity: as to imply that 'the lack-of-<amplituding/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness of recurrent-utter-uninstitutionalisation' = 'the lack-of-<amplituding/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness of base-institutionalisation–ununiversalisation' = 'the lack-of-<amplituding/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness of universalisation–non-positivism/medievalism' = 'the lack-of-<amplituding/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness of positivism–procrypticism'; so-construed as 'the lack-of-<amplituding/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness of notional~procrypticism/notional~disjointedness-as-of-reference-of-thought dimensionality'. processs's dimensionality-of-sublimating—~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation (as of ontological-normalcy/postconvergence epistemic perspective in nonextricatory-existential-preempting-of-existential-unthought, as reflecting prospective notional-contiguity/epistemic-contiguity-<mentally-aestheticised~postconverging/dialectical-thinking–qualia-schema>) and dimensionality-of-desublimating-lack-of—~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation (in existential-extrication-as-of-existential-unthought as of human-subpotency epistemic perspective, as it rather reflects prospective notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised~preconverging/dementing–qualia-schema>) with regards to upholding/failing ontological-contiguity (as to existence-potency-prospective-digression-of—~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness), is effectively to reflect the idea that there is a more fundamental dimensionality issue involved in all human social-stake-contention-or-confliction in reflecting the ontological-contiguity—of-the-human-institutionalisation-process (and particularly as it bears upon prospective deprocrypticism as the ultimate structural/paradigmatic issue with regards to addressing prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint). This dimensionality issue in reflecting the ontological-contiguity—of-the-human-institutionalisation-process can be reflected in the recurrent variance of 'lack-of-~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness and dimensionality-of-sublimating—~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation'; as

implied contrastively say with the-sophists/medieval-scholastics lack-of- dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation and Socratic philosophers/budding-positivists dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation as reflected say in an ordinary non-universalising/non-positivism–medievalism world inclined to construe of its 'normality' (notional-contiguity/epistemic-contiguity-<mentally-aestheticised~postconverging/dialectical-thinking–qualia-schema>) as given even in the face of its prospectively implied 'abnormality' (notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised~preconverging/dementing–qualia-schema>) from the projected universalising-idealisation/rational-empiricism implications. This reality is equally applicable to our state of positivism–procrypticism as to a disinclination to perceive its prospectively implied 'abnormality' (notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised~preconverging/dementing–qualia-schema>) as projected from prospective deprocrypticism or preempting—disjointedness-as-of-reference-of-thought. In many ways, as of reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation, this paradox is inevitable as the very state of recurrent-utter-uninstitutionalisation do not have the directly operant means as to its apriorising/axiomatising/referencing–psychologism to project of the <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity of prospective base-institutionalisation–ununiversalisation, just as the latter with prospective universalisation–non-positivism/medievalism, likewise the latter with prospective positivism–procrypticism, and likewise our positivism–procrypticism with prospective deprocrypticism. This emphasis is made rather to point to the

~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag underlying the supposed projection of intellection on the basis of the dimensionality-of-desublimating-lack-of—~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation (in existential-extrication-as-of-existential-unthought as of human-subpotency epistemic perspective, as it rather reflects prospective notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised~preconverging/dementing–qualia-schema>); as reflected in the fact that the supposed intellection of the non-universalising sophists, the medieval-scholastics and our present intellectual-muddlement-⟨blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩ ends up in gimmickiness-of-thought (poorly-constrained or unconstrained to existence-potency-prospective-digression-of—~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness) skewing towards an exercise of eliciting human temporality/shortness ~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ with respect to social-stake-contention-or-confliction rather than true knowledge-reification and human emancipating conception that faces prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint with the requisite dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming-'notionally-collateralising-protohumanity'-to-'attain-sublimating-humanity',-as-to-existence-potency-prospective-digression-of—

In this regards, this author construes such gimmicky pretences of intellection in our present day rather 'intimating of existential-extrication-as-of-existential-unthought as of human-subpotency epistemic perspective' with regards to otherwise structural/paradigmatic human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint issues (requiring the ontological-normalcy/postconvergence epistemic perspective in nonextricatory-existential-preempting-of-existential-unthought), which articulation and constructive addressing should actually be the very conceptualisation of intellection. In this regards, we can appreciate that the Socratic philosophers and budding-positivists actually addressed and resolved the human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of their respective times as of sublimating intellectualism (as of ontological-normalcy/postconvergence epistemic perspective in nonextricatory-existential-preempting-of-existential-unthought, involving a sense of intellectual-and-moral sacrifice as to the pre-eminence of ecstatic-existence implications as to existence-potency-prospective-digression-of—<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness) undermining their respective gimmickiness-of-thought (in existential-extrication-as-of-existential-unthought as of human-subpotency epistemic perspective) associated with sophists and medieval-scholastics then respectively defining the 'thought/intellectual Establishment', and that the possibility for such sublimating intellectualism as to its crude and unsavoury social discomfort implications is hardly a

question of eliciting human temporality/shortness ~~amplituding~~/formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>) as of moral and intellectual disenfranchisement/swindling/corruption/dispossession. In the bigger scheme of things the dimensionality-of-sublimating—~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation warrants that the prospective projection of any human meaningfulness-and-teleology as transcendental-enabling/sublimating should be articulated in such a way as to imply that all human meaningfulness-and-teleology should assume the same disposition as to the possibility of enabling the sublimation in reflecting the ontological-contiguity—of-the-human-institutionalisation-process; such that 'supposed reifying' meaningfulness-and-teleology in existential-extrication-as-of-existential-unthought as of human-subpotency epistemic perspective effectively comes out as epistemically-decadent and in ontological-bad-faith/inauthenticity, as to the fact that in the face of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint, if no human minds projected not of nonextricatory-existential-preempting-of-existential-unthought (eliciting the possibility for the ontological-contiguity—of-the-human-institutionalisation-process) but rather existential-extrication-as-of-existential-unthought (undermining the possibility for the ontological-contiguity—of-the-human-institutionalisation-process) in recurrent-utter-uninstitutionalisation, in base-institutionalisation–ununiversalisation, in universalisation–non-positivism/medievalism and prospectively in our positivism–procrypticism, then the structural/paradigmatic possibilities in reflecting the ontological-contiguity—of-the-human-institutionalisation-process wouldn't be possibile. inherently grants epistemic-profundity (not factoring that this is not necessarily the case with

overall existence beholden frameworks which can actually suffer intellectual regression)

unlike the case with epiphenomena as in the science domains (as providing the prolongation

for human interpretation capacity with respect to epiphenomenal manifestations outside

ordinary existential sublimation manifestations). In this regards, we can appreciate that the

strong predictive constraining in many a natural science domain (as strongly constrained to

existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness) induces the manifestation of sublimating thought as from induced requisite cogency of knowledge-reification (as of ontological-normalcy/postconvergence epistemic perspective in nonextricatory-existential-preempting-of-existential-unthought) unlike is the case in many a blurry domain highly subjected to imprimatur totalisingly-disentailing—discretion/whim-of-thought as to poor deferential-formalisation-transference justification as often in the social not the least bothered about the overall cogency of projected knowledge-reification (thus rather tending towards existential-extrication-as-of-existential-unthought as of human-subpotency epistemic perspective). We can consider in this regards how authority actually serves its true deferential-formalisation-transference role quickly gives to prospective possibilities of sublimating knowledge-reification wherein for instance in the physics domain-of-study at the beginning of the 20th century the eminent physicists from say the cohorts of the Poincarés, the Einsteins, the Bohrs, the Feynmans, etc. successively passing on the baton (as to existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness), as of ontological-normalcy/postconvergence epistemic perspective in nonextricatory-existential-preempting-of-existential-unthought; whereas in many a blurry domain-of-study, disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-'immanent-ontological-contiguity'> tend to be the order of the day often assuming a quasi-political strategic orientation as to gimmickiness-of-thought as of existential-extrication-as-of-existential-unthought postures (poorly appreciating the profound knowledge-reification sublimating-over-desublimating implications of existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness) as to the fact that the human

mortal whim/discretion-of-thought projected as aura-and-imprimatur comes to be enshrined as being bigger than ecstatic-existence structural/paradigmatic implications. In many ways (unlike is the case with the natural sciences directly constrained to ecstatic-existence predicative-effectivity–sublimation-⟨as-to-underlying-ontological-commitment⟩ induced constraining reifying-and-empowering reflexivity undermining human-subpotency totalisingly-disentailing—discretion/whim-of-thought), many a blurry domain-of-study tend to be inclined to conceptualise supposed knowledge-reification as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity without the defining '<~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating existential-contextualising-contiguity foregrounding—entailment-⟨narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting 'immanent-ontological-contiguity'⟩,–as-operative-notional~deprocrypticism in elucidating ontological-contiguity-<as-from-prospective-ontological-normalcy/postconvergence-epistemic/notional~projective-perspective>' as to the lack or poor predicative-effectivity–sublimation-⟨as-to-underlying-ontological-commitment⟩ induced constraining reifying-and-empowering reflexivity leading to a social-vestedness/normativity reflex rather than ontological elucidation reflex. Such an approach is often projected contradictorily as methodologically emulating the natural sciences on the one hand but on the other hand implying that the knowledge-reification implications for the social are different as to the supposedly non-metaphysical (as non-ontological) nature of the social and cultural; failing to grasp/intuit that there can't be any such thing as non-ontological as 'all that there is' is ontological, as existence is effectively all that there is and it is rather a question of the specific human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-<imbued-and-educed–human-subpotency–epistemic-perspective-of-aestheticising-motif-and-

apriorising/axiomatising/referencing-conceptualisation> to epistemically come to terms with the absolute a priori that is existence as the ontological as to the overall-ecstatic-existence-supervening-conflatedness. Furthermore, the 'social and cultural is rather priorly constrained to the ontological' with regards to the fact that 'scientific and technical capabilities and their implicited socio-organisational and value-referencing construct' as to their inherent human reifying and empowering reflexivity implications, speaking of the ontological, are not necessarily ontologically-tied-to and/or ontologically-exclusive-of any social and cultural framework or peoples (in the sense that scientific and technical phenomena like electricity, machines, modern medicine, etc., their enabling social utilities/utilisations, and the value/moral outlook of the underlying positivism/rational-empiricism conceptualisations like provision of modern public services, associated freedoms, prospective knowledge-reification and empowering implications, etc. are not strictly meant for given specific social and cultural frameworks, and are rather amenable to all human social and cultural frameworks with regards to relative-ontological-completeness implications as to 'enlightening human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation'); as the ontological inherently permeates all social and cultural frameworks so-reflected as of their underlying supposedly coherent ontological-commitment thus inducing the possibility for prospective transcendence-and-sublimity when any of its given meaningfulness-and-teleology is discovered/shown not to be ontologically veridical leading to its effective human limited-mentation-capacity-deepening-⟨<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩. Such that all human social or cultural frameworks are construable as of relative-ontological-completeness implications as to 'enlightening human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation'; and the idea of such relative-ontological-completeness implications is not about the subjugation of the state of relative-

ontological-incompleteness but quite the contrary as the state of relative-ontological-completeness (as to its true human self-surpassing—existentialism-form-factor,-in-overcoming-'notionally-collateralising-protohumanity'-to-'attain-sublimating-humanity',-as-to-existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness to supersede human temporality/shortness <~~amplituding~~/formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>)) implies an 'emancipating attitude/mental-disposition/care–and–episteme' in relation to 'the other' that is in the state of relative-ontological-incompleteness. Interpreting the historical failures associated with colonising or slaving or otherwise-exploitative-or-exterminating societies (as in the specific case of positivism/rational-empiricism technical and scientific development it inevitably implied the coming-together/encountering/meeting of societies worldwide), to then imply such a notion of relative-ontological-completeness implications is irrelevant is rather a nuancing error that fails to assess/evaluate that the more critical issue had to do with 'the appropriate emancipating attitude/mental-disposition/care–and–episteme' as effectively and paradoxically such a lack of nuancing can then lead to the interpretation that such historical failures should equally be the unavoidable expectation prospectively in analogous circumstances of socio-cultural disparity of societies, rather than interpreted to mean the prospective need for the requisite human knowledge-reifying and empowering reflexivity of appropriate human emancipating attitude/mental-disposition/care–and–episteme in the relationship between the state of relative-ontological-completeness and the state of relative-ontological-incompleteness. Such a wrong interpretation arises as to lack-of—<~~amplituding~~/formative>epistemic-growth/transvaluative-

rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness (reflecting mere reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation) that fails to make a nuance between on the one hand historicity-tracing—presencing-imbued-hyperrealisation/hyperreal-transposition implications as to the 'human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction presencing—absolutising-identitive-constitutedness identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism in <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag' explaining the historical failures and on the other hand historiality/ontological-eventfulness/ontological-aesthetic-tracing implications as to 'existence-potency-prospective-digression-of—<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness given difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism as to enlightening human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation reflected <amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity as to ontological-primemovers-totalitative-framework' that speaks to the ontologically-veridical and appropriate human emancipating attitude/mental-disposition/care–and–episteme. Such a wrong interpretation actually falls back into prospectively disenfranchising and undermining the emancipation of the state of relative-ontological-incompleteness prospectively as to its human inevitability stance poorly cognisant of the implications of the specific human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-<imbued-and-educed–human-subpotency–epistemic-perspective-of-aestheticising-motif-and-apriorising/axiomatising/referencing-conceptualisation> (underlying human construction-of-

prospective-digression-of——~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness. More than just about abstract knowledge-reification the implications of science-ideology are ultimately social and institutional as to the implications of human emancipation; and so in the sense that contrary to what is generally thought, science itself as for-human-studies is the very first-level of social science as of the epistemic implications it projects upon society and social meaningfulness-and-teleology, and critically so because in reality budding-positivists were actually the very first modern social scientists in the sense that their posturing wasn't critically about the 'technicalities of the budding natural science they advanced' like a heliocentric world or rational-empiricism driven natural science basis of analysis (as to satisfy their mere natural science curiosity given that in many ways some of the notions where previously advanced in different forms), but they were rather critically engaged in a social posturing to epistemically reconstrue the society and social meaningfulness-and-teleology in those scientific terms and the future elaboration and development of the natural sciences could only be rendered possible with an open society responsive to such budding scientific meaning, and it was this social posturing which was the true source of their troubles and persecution. In fact, such ridiculous historical interpretations seeming to criticise budding positivists like Galileo for wrongly making the case for a heliocentric world for instance are paradoxically based on condemning the latter and other budding positivists for having a poor experimental framework as of ontologically-deficient presencing—absolutising-identitive-constitutedness analyses that fail to factor in that the very notion of 'positivistic science experimental framework historiality/ontological-eventfulness/ontological-aesthetic-tracing' was developed and enculturated/constructed as scientific practices by these budding positivists with their medieval societies previously knowing nothing of such as to their scholastic pedantry (as to the mere disinclination and incuriosity to even look through a

telescope and draw contemplative consequences); and such a criticism on the basis of the subsequently developed and more precise modern day science experimental framework speaks of the characteristic nature of a supposed knowledge-reification exercise that doesn't factor in human limited-mentation-capacity-deepening-⟨<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ as of relative-ontological-incompleteness to relative-ontological-completeness implications as to <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity. Thus in many ways 'the possibility for science to prospectively arise' involved its very own dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension that projected of an underlying 'scientific—apriorising/axiomatising/referencing–psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation-⟨as-to-underlying-ontological-commitment⟩' at the very least (as of human self-surpassing—existentialism-form-factor,-in-overcoming-'notionally-collateralising-protohumanity'-to-'attain-sublimating-humanity',-as-to-existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness to supersede human temporality/shortness <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩) in originariness-parrhesia,–as–spontaneity-of-aestheticisation; speaking to the requisite 'human corresponding-sublimation-inducing,-profound-and-creative acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation' about science (as to implied 'conceptualising implications about

existential-reality' in reflecting the 'relevant-level human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint' to be surpassed/superseded/overcome for prospective transcendence-and-sublimity) in defining its very own science prospective-apriorising/axiomatising/referencing–dialogical-equivalence-<as-superseding-logical-basis> (as so-reflected along the entire historiality/ontological-eventfulness/ontological-aesthetic-tracing of science and knowledge-reification in rather adapting to existence-potency-prospective-digression-of—~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness), and so much more than just an exercise of mere methods/methodologies/approaches reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation as of prior-apriorising/axiomatising/referencing–dialogical-equivalence-<as-superseded-logical-basis>. Thus it is such an ideological conception of science and knowledge-reification on the latter basis (as of prior-apriorising/axiomatising/referencing–dialogical-equivalence-<as-superseded-logical-basis>) that ultimately translates into the 'methodological, epistemic, institutional and social sagging of human knowledge-reification' reflected abstractly in crises of methodology, epistemicity and scholarship as well as derived human institutional and social crises as to underlying meaningfulness-and-teleology infrastructure; and critically so with regards to our own positivism–procrypticism/disjointedness-as-of-reference-of-thought relevant-level of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor that has to be addressed. In another respect, given the requisite dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension involved in true human consciousness sublimation, the dimensionality-of-sublimating—~~amplituding~~/formative>epistemic-growth/transvaluative-

rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation warrants that the conception of veridical human knowledge and emancipation is not beholden on the mere eliciting of a basic positive-opportunism, as 'the very abstract value-reference commitment for dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension' that brings about sublimation needs to be construed as to imply 'it is the underlying organic framing of the induced sublimation', and so in order to avoid 'sublimation value-reference usurpation' wherein the temporal induced positive-opportunism elicits parallel competing meaningfulness-and-teleology (in existential-extrication-as-of-existential-unthought as of human-subpotency epistemic perspective of the dimensionality-of-desublimating-lack-of—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation) and come to foreclose/undermine the instigative intemporal/longness dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension inducing sublimation as of the secondnaturing institutionalisation exercise. In many ways the underpinning–suprasocial-construct itself as to 'a rather acerbic and direct positive-opportunism inclination', while of abstractive apprehension of sublimation possibilities, tend to poorly appreciate the underlying and implied dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation and is functionally-speaking rather positive-opportunism beholden as to historicity-tracing—presencing-imbued-hyperrealisation/hyperreal-transposition implications; as in reality the fact is any underpinning–suprasocial-construct in its projection of social-stake-contention-or-confliction is hardly enamoured with the dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation as of the

instigative disposition for prospective transcendental-enabling/sublimation possibilities in the sense that even the underpinning–suprasocial-construct framework of say enlightenment despots or philosophising emperors are not truly instigative of budding-positivism or universalising-idealisation thought respectively, nor is our modern day presencing—absolutising-identitive-constitutedness politically clouded historicity-tracing—presencing-imbued-hyperrealisation/hyperreal-transposition underpinning–suprasocial-construct environment the contemplative beholder of the panacea for prospective human transcendence-and-sublimity potential; as so reflected in their ever always hardly-adaptable/inflexible reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation frameworks of historicity-tracing—presencing-imbued-hyperrealisation/hyperreal-transposition. This in many ways explains why ultimate responsibility lies with the abstract individual as to the requisite human dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming-'notionally-collateralising-protohumanity'-to-'attain-sublimating-humanity',-as-to-existence-potency-prospective-digression-of—~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness to supersede human temporality/shortness ~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩).

Ultimately, the deprocrypticism registry-worldview/dimension construed as the nascent prospect for overcoming the dimensionality-of-desublimating-lack-of—~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation effectively projects the possibility of boundless human aestheticisation–and–aestheticisation-

towards-ontology well beyond our present contemplation of what is implied by meaningfulness-and-teleology, as in many ways the reality of our past and present aestheticisation–and–aestheticisation-towards-ontology as meaningfulness-and-teleology has 'paradoxically hugely been burdened with desublimating historicity-tracing—presencing-imbued-hyperrealisation/hyperreal-transposition induced preemptive anticipation/anxiety about the human' rather than the summoning of the full possibilities of the human; as by a soothing mental-reflex just as with all registry-worldviews/dimensions we tend to take comfort in our 'beholdening-becoming—distortive-originariness/distortive-origination–as-to-historicity-tracing~inhibited-mental-aestheticising as of reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation' rather than contemplate about prospective possibilities of 'bechancing-becoming—originariness/origination–as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing~disinhibited-mental-aestheticising as of originariness-parrhesia,–as–spontaneity-of-aestheticisation'. Interestingly, in this regards in many ways the ontological-contiguity—of-the-human-institutionalisation-process possibility is hardly just about human 'mere technical capacity potential' but it is rather more critically a psychological issue as of desublimating historicity-tracing—presencing-imbued-hyperrealisation/hyperreal-transposition psychological entrapment implications that limit/stifle the human imaginary/ideality as to its dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation capacity 'to project in disseminative—selectivity-of-ontological-good-faith/authenticity–over–deselectivity-of-ontological-bad-faith/inauthenticity' (as to the underlying human ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality 'seeding promise of human-subpotency ontological-performance-<including-virtue-as-ontology>

equivalence/correspondence with the full-potency-of-existence-as-of-its-coherence/contiguity). It is important to grasp here that such a construal of deprocrypticism or preempting—disjointedness-as-of-reference-of-thought highlighting the prospective implications in reflecting the ontological-contiguity—of-the-human-institutionalisation-process as of the specific human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-<imbued-and-educed–human-subpotency–epistemic-perspective-of-aestheticising-motif-and-apriorising/axiomatising/referencing-conceptualisation> (as to underlying human construction-of-the-Self) is not 'a metaphysical/ideological advocacy', no more than say the universalising-idealisation philosophers nor the budding-positivists were involved in any 'metaphysical/ideological advocacy', but rather just as modern day science such a conception speaks to 'the inherent ontological implications as to human knowledge-reification and corresponding empowering reflexivity as to human-subpotency implied human potential' (as implied in the differentiation between postmodern ontological-reconstituting/deconstruction/genealogy that exposes itself and is phronetically/practically encrusted/embedded/inlayed with inherent existence as to its underlying ontological claim sublimating-validation/desublimating-invalidation, and say a Hegelian dialectics and its derived-dialectics like Marxism wherein aspiration/ideology takes-a-leap-above/parts-with and is not utterly submitted to inherent existence ontological implications). Such a deprocrypticism conceptualisation of 'boundless human aestheticisation–and–aestheticisation-towards-ontology' speaks in itself of the 'potentiative-paradox of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor' (as the underlying potentiative-paradox of human paradoxes). Critically, at any given moment, potentiatively humankind is ever always

inclined-and-amenable to face up to certain aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint while rather disinclined with respect to other aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint; and this very much explains the 'potentiative-paradox of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor' (as the underlying potentiative-paradox of human paradoxes). It speaks to a metaphoricity potentiation imbued in humankind defined by 'human lack-of-capacity/capacity for dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension' as this relates to existential-extrication-as-of-existential-unthought/nonextricatory-existential-preempting-of-existential-unthought. In this regards, human growth (with regards to human living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology) is ever always about 'human consciousness tenuous self-surpassing shift in its apriorising/axiomatising/referencing appraisal'. Insightfully, the ontological-contiguity—of-the-human-institutionalisation-process is a reflection of the fact that any given defining human contemplative moment (given registry-worldview/dimension) is marked by the 'disseminative ontological selectivity/deselectivity play' of 'perceived aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint it is supposedly inclined-and-amenable to face up to' (reflecting its <s>amplituding</s>/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag for <s>amplituding</s>/formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-

This contrast is very much aligned with the ontological-contiguity—of-the-human-institutionalisation-process dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation and dimensionality-of-desublimating-lack-of—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation. That said all registry-worldviews/dimensions as of their defining human contemplative moment arising from their very human limited-mentation-capacity

induced presencing—absolutising-identitive-constitutedness (while effectively contemplative of prospective progress), hardly/poorly project of prospective emancipation directly on the ontologically-veridical basis of the defining 'prospectively conceptualisable aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint it is disinclined to face up to' (associated with its defining prospective transvaluative-rationalisng / sublimating-thoughtfulness / historiality-or-ontological-eventfulness-or-ontological-aesthetic-tracing / prospective-ontological-projection / ideality as to prospective originariness-parrhesia,–as–spontaneity-of-aestheticisation) but rather directly proceed as of the 'perceived aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint it is supposedly inclined-and-amenable to face up to' (reflecting its threshold of lack-of-<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness / desublimating-or-gimmickiness-unthoughtfulness / historicity-tracing—presencing-imbued-hyperrealisation/hyperreal-transposition / social-vestedness-or-normativity / positive-opportunism-disposition), but then the latter is improvisably/uncontrollably potentiatively-transformed into the former as to the former existentially constraining implications of ontological-veracity. Thus the reality of prospective human emancipation in reflecting the ontological-contiguity—of-the-human-institutionalisation-process rather as of such a 'human consciousness defensive-driven/unhinging/unbalancing improvising/uncontrolled potentiative-transforming-process so-constrained existentially on the basis of human supposedly coherent ontological-commitment' (as to the potentiative transforming/conversion, on the basis of existentially constraining implications of ontological-veracity, of human 'perceived aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint it is supposedly inclined-and-amenable to face up to' into human 'prospectively conceptualisable aporia/undecidability/dilemma/ought-

indeterminacy/deficiency/limitation/constraint it is disinclined to face up to') in many ways limits/stifles/undermines/derails human contemplative capacity for prospective emancipative implications (as can be so-contemplated from prospective notional~deprocrypticism conceptualisation of 'boundless human aestheticisation–and–aestheticisation-towards-ontology'); and so critically as to the presencing—absolutising-identitive-constitutedness human ~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag social-stake-contention-or-confliction state inducing human psychological entrapment in want for prospective psychoanalytic-unshackling/memetic-reordering/institutional-recomposure. But then such apparently defining limitation to 'boundless human aestheticisation–and–aestheticisation-towards-ontology' when analysed as to the reality of human transformation across the time scale in reflecting the ontological-contiguity—of-the-human-institutionalisation-process (wherein the successive registry-worldviews/dimensions as from recurrent-utter-uninstitutionalisation, base-institutionalisation, universalisation right up to our present positivism and so as from the appearance of mankind on earth about 200000 years ago) show 'a time-accelerated metaphoricity potentiation' when we consider that our present positivism registry-worldview is just about 500 years; pointing out that as of our specific human-subpotency as to overall overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-<imbued-and-educed–human-subpotency–epistemic-perspective-of-aestheticising-motif-and-apriorising/axiomatising/referencing-conceptualisation> (underlying human construction-of-the-Self) the human prospective capacity to serenely come to terms with 'prospectively conceptualisable aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint it is disinclined to face up to' as so induced by the latter's existentially constraining implications of ontological-veracity, is not necessarily forever bound to be as of the 'human consciousness defensive-driven/unhinging/unbalancing

improvising/uncontrolled potentiative-transforming-process so-constrained existentially on the basis of human supposedly coherent ontological-commitment' that undermines the possibility for such prospective deprocrypticism conceptualisation of 'boundless human aestheticisation–and–aestheticisation-towards-ontology' (as to the potential for a full human psychological uninhibitedness/decomplexification in superseding the 'underlying human formative decoherencing-structure—of-meaningfulness-and-teleology-for-institutionalisation'). But then such overcoming of 'human consciousness tenuous self-surpassing shift in its apriorising/axiomatising/referencing appraisal' still has to be effectively achieved as to the requisite human prospective development of protensive–self-consciousness in the face of the ever present manifestations of desublimating/gimmicky sophistry and eliciting of human temporality/shortness ~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ as to incrementalism-in-relative-ontological-incompleteness and so over the requisite maximalising-recomposuring-for-relative-ontological-completeness. The very forward-facedness of human consciousness as it defines human social-stake-contention-or-confliction is in many ways architectonically determinative and defining (as it projects postconverging/dialectical-thinking–qualia-schema over preconverging/dementing–qualia-schema), with regards to the structural/paradigmatic circular recurrence of 'potentiative-paradox of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor' (as the underlying potentiative-paradox of human paradoxes); as to the 'human consciousness defensive-driven/unhinging/unbalancing improvising/uncontrolled potentiative-transforming-process so-constrained existentially on the basis of human supposedly coherent ontological-

commitment' (as of the potentiative transforming/conversion, on the basis of existentially constraining implications of ontological-veracity, of human 'perceived aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint it is supposedly inclined-and-amenable to face up to' into human 'prospectively conceptualisable aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint it is disinclined to face up to'), and so with regards to the overall ontological-contiguity—of-the-human-institutionalisation-process induced construction-of-the-Self. Effectively the ontological-contiguity—of-the-human-institutionalisation-process possibility of successive transcendence-and-sublimity is a reflection of the 'human consciousness defensive-driven/unhinging/unbalancing improvising/uncontrolled potentiative-transforming-process so-constrained existentially on the basis of human supposedly coherent ontological-commitment' as to its 'transitorily implied successive notional-contiguity/epistemic-contiguity-<mentally-aestheticised~postconverging/dialectical-thinking–qualia-schema> as from successive human consciousness forward-facedness postures in presencing—absolutising-identitive-constitutedness', but which from the ontological-normalcy/postconvergence epistemic perspective in ontological-contiguity rather speaks of their successive notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised~preconverging/dementing–qualia-schema>. Critically, an 'underlying dumbing-down public intellection and media industry' thrive on cultivating 'a historicity-tracing—presencing-imbued-hyperrealisation/hyperreal-transposition gimmickiness/desublimation relation with meaningfulness-and-teleology' and is in many ways at the root source of the modern day democratic crisis of political and socio-economic disenfranchisement/swindling/corruption/dispossession, as it disenables/paralyses the possibility for sublimating debates thus in many ways rendering the public decisionmaking process 'a defaulting process as to the social-vestedness/normativity of social-stake-contention-or-confliction'. Such undermining of the possibility of 'requisite human dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation' is effectively critical with regards to historicity-tracing—presencing-imbued-hyperrealisation/hyperreal-transposition, as to the fact that by mitigating the possibility to broaden-the-latitude-of-human-collective-consciousness off-the-beaten-path of historicity-tracing—presencing-imbued-hyperrealisation/hyperreal-transposition for prospective possibilities of historiality/ontological-eventfulness/ontological-aesthetic-tracing, the human mind is psychologically entrapped in mental-reflexes of presencing—absolutising-identitive-constitutedness <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as to the elicited

At the root of this undermining of prospective 'requisite human dimensionality-of-sublimating—\<~~amplituding~~/formative\>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation' is the social dilution/enfeeblement of value-construction/value-aspiration as to their 'ad-hoc and incoherent \<~~amplituding~~/formative\>epistemic-totalising/circumscribing/delineating implications supposedly non-ontological as to non-metaphysical' (with regards to conceptualising the social-construct prospective transcendence-and-sublimity value-construction/value-aspiration), as associated particularly with 'the specious usurpation of the overall social-construct's intellectual-function as to prospective transcendence-and-sublimity'; with the paradox of such usurpation especially as of its drivenness in 'intellectually mediating institutions as to popular-sovereignty' including the media effectively projecting arbitrary social-vestedness/normativity constructs and frameworks of value-construction/value-aspiration while failing to intellectually editorialise/articulate/reflect the ontological equanimity/balance of conceptualisations as to the momentous implications of prospective historiality/ontological-eventfulness/ontological-aesthetic-tracing (thus implicitly upholding the notion that the social is non-ontological as non-metaphysical); especially given that the equanimity/balance for upholding democratic sovereignty is in effect achievable only as of 'structural/paradigmatic \<~~amplituding~~/formative\>epistemic-totalising/circumscribing/delineating operant considerations for equanimity/balance with regards to the social, political and media landscapes decision-making/editorialising processes', as the often sparing instantiating existential frames of day-to-day social, political and media landscapes decision-making/editorialising processes are poorly amenable naturally

to such '<amplituding/formative>epistemic-totalising/circumscribing/delineating operant considerations for equanimity/balance' and end up assuming social-vestedness/normativity defaulting postures with occasional clamours for equanimity/balance of the decision-making/editorialising processes quite often the niggling exceptions to entrenched and existentially-unthought reflex. Such that beyond 'gimmickiness/desublimation frameworks of aestheticisation' in many ways the social-construct's intellectual-function itself (as of aestheticisation-towards-ontology with respect to prospective human emancipation) becomes capitalistically-captured-at-the-exclusion/denaturing-of-reifying-and-empowering-intellectual-reflection as to the precedence of media-business-relevant-aestheticisation, underhanded-media-capitalist-direct-ownership-and-indirect-sponsorship-distortive-influence, blatant-intellectual-misanalyses-and-sophistry, public-influence-and-lobbying-overtaking-inherent-intellectual-veracity, politicised-institutional-stakes-overtaking-inherently-objective-social-knowledge-production-in-higher-academia, a-consciously-aware-intellectual-functional-impotence-that-cynically-construes-of-the-possibility-for-prospective-sublimating-social-knowledge-as-the-opportunity-for-its-muddling-and-archiving, etc. These all contribute in making-more-and-more-of-an-empty-shell the supposed intellectual transparency and sovereign independence of the social-construct in present day democracies. But then more than just the more consciously immediate emancipation possibilities for momentous human prospective historiality/ontological-eventfulness/ontological-aesthetic-tracing with regards to 'present-day social and human emancipation concerns' floundering/wallowing as to our present historicity-tracing—presencing-imbued-hyperrealisation/hyperreal-transposition induced psychological entrapment as undermining the prospective 'requisite human dimensionality-of-sublimating—<amplituding/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation'; the

more potently existential-unthinking (as to human aestheticisation-towards-ontology) is in the overall historicity-tracing—presencing-imbued-hyperrealisation/hyperreal-transposition induced paralysis/disenabling of abstract contemplation about the 'requisite human dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation' implications underlying the overall ontological-contiguity—of-the-human-institutionalisation-process (as of a defaulting social-vestedness/normativity posture clouded in its presencing—absolutising-identitive-constitutedness <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag), and specifically so with regards to the 'requisite human dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation' implications for prospective deprocrypticism or preempting—disjointedness-as-of-reference-of-thought. This existential-extrication-as-of-existential-unthought as to the dimensionality-of-desublimating-lack-of—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation very much reflects the fact that all presencing—absolutising-identitive-constitutedness are effectively manifestations of underlying ontological-bad-faith/inauthenticity with regards to their prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology; as all such presencing—absolutising-identitive-constitutedness fail to account for their 'prior and prospective becoming' which ontologically-veridical rationalisation effectively lies with the nonextricatory-existential-preempting-of-existential-unthought human emancipatory disposition associated with the dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic-growth/transvaluative-

Similarly with respect to the 'requisite human dimensionality-of-sublimating—<s>amplituding</s>/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation' dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension, in many ways just as prior human scientific and technological sublimation momentously induced historiality/ontological-eventfulness/ontological-aesthetic-tracing inevitably required its accompanying social sublimation (as the manifestations of failing social sublimation were in many ways the reason for conflictual and exploitative encounters associated with budding-positivism), and so as of the contiguity of both human techno-scientific and social sublimations giving their mutually for-human-studies sublimating nature; it is inevitably the case that a naïve construal of prospective science and technological development that seem to imply the requisite prospective sublimation of the overall human as to its prospective construction-of-the-Self is not critical, will inevitably lead to conundrums of prospective science and technology development as to the very possibility for developing the full human potential of science and technology as well as with respect to the underdevelopment of the human as to its shiftiness-of-the-Self in the capacity to handle and deal with prospective science and technology in such a manner that doesn't imperil mankind's very own survival (departing as from the larger conception of survival, beyond 'reactionary construal' of them-and-us in presencing—absolutising-identitive-constitutedness <s>amplituding</s>/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that end up 'destructively dehumanising' the various 'the other'). In this regards, 'human instigated meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology> capacity' (so-construed as from the ontological-normalcy/postconvergence epistemic projective-perspective) is rather practically 'a ~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating signposting exercise' operating on the overall basis of the 'social-construct ~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating given institutionalised-and-uninstitutionalised-thresholds imbued secondnatured reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation' when it comes to social-stake-contention-or-confliction, and so overriding

This reflects the reality that the transcendental meaningfulness-and-teleology of prospective base-institutionalisation, universalisation, positivism/rational-empiricism and deprocrypticism or preempting—disjointedness-as-of-reference-of-thought respectively are effectively only marginally integratable respectively to prior recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism/disjointedness-as-of-reference-of-thought (as to cross-generational psychoanalytic-unshackling/memetic-reordering/institutional-recomposure), and so only as the former induce their 'prospective predicative-effectivity–sublimation-⟨as-to-underlying-ontological-commitment⟩ constraining that prospectively transforms human ontological-performance-<including-virtue-as-ontology> capacity'; thus reflecting the tight-and-entwined relationship between the overall human ontological-commitment (across all registry-worldviews/dimensions) and (corresponding registry-worldviews/dimensions) predicative-effectivity–sublimation-⟨as-to-underlying-ontological-commitment⟩ as the critical enablers for the possibility of prospective transcendental meaningfulness-and-teleology. when not subjected to 'prospective predicative-effectivity–sublimation-⟨as-to-underlying-ontological-commitment⟩ constraining that prospectively transforms human ontological-performance-<including-virtue-as-ontology> capacity'. Critically, deprocrypticism or preempting—disjointedness-as-of-reference-of-thought as converging to the 'supposed human-subpotency abstract self-determinative ontological-performance-<including-virtue-as-ontology> capacity as to the full-potency of existence' effectively implies the converging of prior 'social-construct <~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating given institutionalised-and-uninstitutionalised-thresholds imbued secondnatured reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation' towards deprocrypticism's 'prospective predicative-effectivity–sublimation-⟨as-to-underlying-ontological-commitment⟩ constraining that prospectively transforms human ontological-performance-<including-virtue-as-ontology> capacity'. Such a 'deprocrypticism predicative-effectivity–sublimation-⟨as-to-underlying-ontological-commitment⟩ protension' is encapsulated herein with the projected human-subpotency protensivity in reflecting the ontological-contiguity—of-the-human-institutionalisation-process; as to the budding prospect of an extensively systemic notional~deprocrypticism 'prospective predicative-effectivity–sublimation-⟨as-to-underlying-ontological-commitment⟩ constraining that prospectively transforms human ontological-performance-<including-virtue-as-ontology> capacity', that protends to a comprehensive unification of human social and techno-scientific sublimation in overcoming human disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-'immanent-ontological-contiguity'>. The insight arising from this extensively systemic notional~deprocrypticism 'prospective predicative-effectivity–sublimation-⟨as-to-underlying-ontological-commitment⟩ constraining that prospectively transforms human ontological-performance-<including-virtue-as-ontology> capacity' is the ontological-veracity that all

social-vestedness/normativity value-constructions are effectively ever as of prior-apriorising/axiomatising/referencing–dialogical-equivalence-<as-superseded-logical-basis> as so-construed from 'notional~deprocrypticism inducing relative-ontological-completeness of prospective-apriorising/axiomatising/referencing–dialogical-equivalence-<as-superseding-logical-basis>'. In other words, the human as 'manifesting presencing—absolutising-identitive-constitutedness ~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag is intellectually-and-morally incompetent with regards to articulating prospective sublimating value-construction'; as we can appreciate that the state of prior recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism/disjointedness-as-of-reference-of-thought (so-construed as of 'supposed human-subpotency abstract self-determinative ontological-performance-<including-virtue-as-ontology> capacity as to the full-potency of existence' in their presencing—absolutising-identitive-constitutedness) are respectively intellectually-and-morally incompetent with regards to articulating prospective sublimating value-construction as of prospective base-institutionalisation, universalisation, positivism/rational-empiricism and deprocrypticism or preempting—disjointedness-as-of-reference-of-thought respectively. This insight points to the fundamental deficiency of all frameworks supposedly involved in articulating human prospective transcendence-and-sublimating meaningfulness-and-teleology whereas there are as of presencing—absolutising-identitive-constitutedness prior-apriorising/axiomatising/referencing–dialogical-equivalence-<as-superseded-logical-basis>; as to the fact that with regards to existence-potency-prospective-digression-of—~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness, the 'supposed human-subpotency abstract self-determinative ontological-performance-<including-virtue-as-ontology> capacity as to the full-potency of existence' (as reflected by its given reproducibility—mathesis/motif/thrownness-disposition,–

as–reproducibility-of-aestheticisation) is prospectively underdetermined for articulating prospective transcendence-and-sublimity meaningfulness-and-teleology. Thus the 'supposed human-subpotency abstract self-determinative ontological-performance-<including-virtue-as-ontology> capacity as to the full-potency of existence' can only be construed in terms of notional~deprocrypticism imbued dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation (so-construed as from the ontological-normalcy/postconvergence epistemic projective-perspective) 'as it resolves human underdetermination for articulating prospective transcendence-and-sublimity meaningfulness-and-teleology' as of existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness. The overall insight we can garner herein is that all registry-worldviews/dimensions will have their value-construction conception as of their social-vestedness/normativity presencing—absolutising-identitive-constitutedness <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that fails to factor in their prospective desublimation as to their given notional~procrypticism/notional~disjointedness-as-of-reference-of-thought and that notional~deprocrypticism prospective sublimation will structurally/paradigmatically 'dismiss fundamentally' the registry-worldviews/dimensions very presencing—absolutising-identitive-constitutedness prior-apriorising/axiomatising/referencing–dialogical-equivalence-<as-superseded-logical-basis> pretence of being involved in prospective transcendence-and-sublimity meaningfulness-and-teleology, and so as to the notional~deprocrypticism projected prospective-apriorising/axiomatising/referencing–dialogical-equivalence-<as-superseding-logical-basis> as to existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness. It is interesting to appreciate that given the prior enculturation of an underlying 'scientific—apriorising/axiomatising/referencing–psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation-⟨as-to-underlying-ontological-commitment⟩' induced by budding-positivists (associated with their persecution), the stage was set for the foregrounding—entailment-⟨narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting 'immanent-ontological-contiguity'⟩,–as-operative-notional~deprocrypticism of such a theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs prospective-apriorising/axiomatising/referencing–dialogical-equivalence-<as-superseding-logical-basis> as to the tight-and-entwined relationship between the overall human ontological-commitment (across all registry-worldviews/dimensions) and (corresponding registry-worldviews/dimensions) predicative-effectivity–sublimation-⟨as-to-underlying-ontological-commitment⟩ as the critical enablers for the possibility of prospective transcendental meaningfulness-and-teleology, without eliciting (as was the case with the Galileos/Descartes, etc. in the face of the medieval-scholastics pedantic dogmatism Establishment) 'the breadth of human temporal-to-intemporal-dispositions not structurally/paradigmatically a competent intellectual-and-moral framework for instigating prospective human sublimation' as to the sophistic/pedantic possibility for inducing human temporality/shortness <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ with regards to prospective social-stake-contention-or-confliction. Interestingly as well, we can appreciate the more or less socially enculturated disposition in our positivism/rational-empiricism registry-worldview/dimension (with regards

to the 'profoundly sublimating natural sciences') of human appreciation of the 'messianic-structure of intemporality' and its derived deferential-formalisation-transference secondnaturing, with regards to such sciences foregrounding—entailment-⟨narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting 'immanent-ontological-contiguity'),–as-operative-notional~deprocrypticism as to the tight-and-entwined relationship between the overall human ontological-commitment (across all registry-worldviews/dimensions) and (corresponding registry-worldviews/dimensions) predicative-effectivity–sublimation-⟨as-to-underlying-ontological-commitment⟩ as critically enabling prospective sublimation. Foregrounding—entailment-⟨narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting 'immanent-ontological-contiguity'),–as-operative-notional~deprocrypticism as such induces the requisite ontological-faith-notion/authenticity and discipline both among natural scientists and any contending interlocutors as to the constraining implications of prospective sublimation thus allowing for 'genuine knowledge-reification framework involving a detour to existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness induced prospective determination which then is structurally/paradigmatically preceding-and-constraining to human-subpotency as enabling prospective sublimation-over-desublimation'. In contrast this author is critical of the notion that disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-'immanent-ontological-contiguity'> subject to totalisingly-disentailing—discretion/whim-of-thought associated with presencing—absolutising-identitive-constitutedness conception of knowledge-reification as of 'supposed knowledge-reification framework of human-subpotency determination as to a temporal mere-methodologising/mutualising/organising/institutionalising human-subpotency

Critically, the possibility of such a physics dialogical-equivalence for instance is fundamentally enabled by such foregrounding—entailment-⟨narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting 'immanent-ontological-contiguity'⟩,–as-operative-notional~deprocrypticism of physics: and where say for instance proponents of classical-mechanics—axiomatic-constructs became involved in 'the muddling/pedantising of methods/methodologies/approaches as to prior-apriorising/axiomatising/referencing–dialogical-equivalence-<as-superseded-logical-basis>' as to their presencing—absolutising-identitive-constitutedness conception of knowledge-reification, then in many ways proponents of theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs 'would rather point out the transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing of the former rather than wrongly imply any mutual

logical-congruence of dialogical-equivalence involvement in knowledge-reification exercise as they will do with respect to other proponents of theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs with whom they may disagree within the prospective-apriorising/axiomatising/referencing–dialogical-equivalence-<as-superseding-logical-basis> framework'. This speaks to the fact that human dialogical-equivalence framing doesn't supersede prospective sublimating existence's necessitating implications and consequences, at which point existence-potency-prospective-digression-of—<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness manifests 'Derridean underdetermination-imbued force/violence conception' and 'Foucauldian knowledge/power conception construed as knowledge-empowerment/ignorance-disempowerment' with regards to the possibility of prospective human phenomenal/manifest sublimation and desublimation in existence; as the proponents of theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs 'cannot produce any magical logical-congruence implication as of the prior-apriorising/axiomatising/referencing–dialogical-equivalence-<as-superseded-logical-basis> of the proponents of classical-mechanics—axiomatic-constructs' but for the prospective-apriorising/axiomatising/referencing–dialogical-equivalence-<as-superseding-logical-basis> of theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs foregrounding—entailment-⟨narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting 'immanent-ontological-contiguity'⟩,–as-operative-notional~deprocrypticism of physics implied tight-and-entwined relationship between the overall human ontological-commitment (across all registry-worldviews/dimensions) and (corresponding registry-worldviews/dimensions) predicative-effectivity–sublimation-⟨as-to-underlying-ontological-commitment⟩ as critically enabling prospective sublimation. In effect, such a controversy of ontological-bad-faith/inauthenticity

never arose (as explained by the prior enculturation of an underlying 'scientific—apriorising/axiomatising/referencing–psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation-⟨as-to-underlying-ontological-commitment⟩' induced by budding-positivists and associated with their persecution), and further because of the very high predicative-effectivity–sublimation-⟨as-to-underlying-ontological-commitment⟩ associated with the physical sciences and generally 'much of the basic/fundamental and disinterested natural sciences'. However, the case with psychological, social and 'interest-driven scientific frameworks' is quite often 'hardly one of high predicative-effectivity–sublimation-⟨as-to-underlying-ontological-commitment⟩' with the result that such a 'purist ontological and scientific framing of supposedly knowledge-reification issues as to prospective sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing' is either indirectly or directly undermined with social-vestedness/normativity ideas which 'structurally/paradigmatically speak to an underlying disengagement with the deeper notion of veracity/truth supposedly projected as pure scientific and pure ontological analysis in the relevant domains', as to the 'social-stake-contention-or-confliction relative privileging of human methodologising/mutualising/organising/institutionalising epistemic gadgetry' (surreptitiously associated with <~~amplituding~~/formative>wooden-language-⟨imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology⟩⟩ over existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness. This difference between a 'purist science/ontology epistemic-conception of veracity/truth' and the conception of veracity/truth as from the latitude of 'human social-vestedness/normativity implied contract/political-arrangement-or-political-

coercion/given-discrete-social–value-construction' is critically reflected in the fact that the former orientation is priorly-and-ultimately concerned with existence's foregrounding—entailment-⟨narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting 'immanent-ontological-contiguity'⟩,–as-operative-notional~deprocrypticism imbued sublimation whereas the latter is critically concerned with 'conceptions of human abstract interpositions as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity' that are not necessarily subject to phenomenal/manifest existence's foregrounding—entailment-⟨narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting 'immanent-ontological-contiguity'⟩,–as-operative-notional~deprocrypticism'; and so-peculiarly implied with the 'importing/exporting of reductionisms' (as to the fact that there is no physics reductionism of physics or say mathematics reductionism of mathematics or biology reductionism of biology as to being the real and natural orientation for the specific physics, mathematics and biology epistemic-conceptions of their respective epistemic-conceptions phenomenal/manifest~subpotencies-<in-transitive-conflatedness–reflexivity,-in-the-full-potency-of-existence>) to explain human psychological and social phenomena that 'end up implicitly denying the very obvious reality of the psychological and social subpotencies-<in-transitive-conflatedness–reflexivity,-in-the-full-potency-of-existence>'. In many ways taking such ontologically-flawed interpretations seriously induces human impotency and desublimation (as to the implicited contention that the human 'supposedly has no profound sublimating social and socio-psychological phenomenal/manifest~subpotencies-<in-transitive-conflatedness–reflexivity,-in-the-full-potency-of-existence>' with the 'supposedly profound phenomenal/manifest~subpotencies-<in-transitive-conflatedness–reflexivity,-in-the-full-potency-of-existence>' construed rather in reductionist terms of

biology/neurology or physicalism) as is often also associated with social-vestedness/normativity disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-'immanent-ontological-contiguity'>; thus 'actually denying the metaphysical nature and thus ontological nature of the sublimating social and socio-psychological' such that existence-potency-prospective-digression-of—<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness sublimation implications with regards to the social and socio-psychological are hardly contemplated and recognised as so-projected herein as to the ontological-contiguity—of-the-human-institutionalisation-process. But then such reductionism actually fails the 'necessitation test of any science/ontology' as in reality it is a gimmicky exploitation of the sublimation of the natural sciences as to their inherent phenomenal/manifest~subpotencies-<in-transitive-conflatedness–reflexivity,-in-the-full-potency-of-existence> to then 'utilise the clout to falsely imply substitutive/reductionist sublimation over the social and socio-psychological phenomenal/manifest~subpotencies-<in-transitive-conflatedness–reflexivity,-in-the-full-potency-of-existence>' (as so-reflected with practices of science-ideology associated with biological/neurological and evolutionary substitutive/reductionist interpretations of the social and socio-psychological). But then the giveaway of such a flawed conception of science/ontology lies in the fact that such approaches do not project any '<amplituding/formative>epistemic-totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity' as all pretences of science/ontology must demonstrate and aspire to (consider in this regards the '<amplituding/formative>epistemic-totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity' of physics, chemistry, biological, genetic theories as to the ontological-contiguity imbued foregrounding—entailment-(narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in

reflecting 'immanent-ontological-contiguity'),–as-operative-notional~deprocrypticism of their respective inherent sublimating phenomenal/manifest~subpotencies-<in-transitive-conflatedness–reflexivity,-in-the-full-potency-of-existence> wherein for instance with the physics frame–of–ontological-contiguity succession of theories are developed aspiring cogently for ontological-contiguity of the whole physics epistemic-conception phenomenal/manifest~subpotency-<in-transitive-conflatedness–reflexivity,-in-the-full-potency-of-existence> as from say Galilean/Cartesian/Newtonian/Leibnizian physics to present day string-theory/loop-quantum-gravity/etc. which all profess ontological-contiguity). In other words, such biological/neurological and evolutionary substitutive/reductionist interpretations of the social and socio-psychological shouldn't epistemically be selective in totalisingly-disentailing—discretion/whim-of-thought (if truly of science/ontology as to '<~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity') but should rather go on to effectively explain away the entire social and socio-psychological phenomenal/manifest~subpotencies-<in-transitive-conflatedness–reflexivity,-in-the-full-potency-of-existence> as to human living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, and so comprehensively articulating human organisational and institutional driven/potent sociocultural, economic, political, legal, etc. manifestations on such biological/neurological and evolutionary substitutive/reductionist basis of supposed sublimation as to their '<~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating existential-contextualising-contiguity foregrounding—entailment-⟨narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting 'immanent-ontological-contiguity'),–as-operative-notional~deprocrypticism in elucidating

ontological-contiguity-<as-from-prospective-ontological-normalcy/postconvergence-epistemic/notional~projective-perspective>'. The reality of such biological/neurological and evolutionary substitutive/reductionist interpretations of the social and socio-psychological is rather one that points out that the 'traditional nature versus nurture debate itself is fundamentally an axiomatically bankrupt conception' since 'not even such proponents implicitly point to an underlying human drivenness and functioning of the social and socio-psychological framework on the basis of any such supposed '<~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity of biological/neurological and evolutionary substitutive/reductionist interpretations', but rather the strategies of such proponents (beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>) work paradoxically only by impliciting the reality of the '<~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity of the social and socio-psychological epistemic-conception phenomenal/manifest~subpotencies-<in-transitive-conflatedness–reflexivity,-in-the-full-potency-of-existence> (as to their implied sublimating existence's necessitating implications and consequences)', and then surreptitiously project/select/pop-up (in totalisingly-disentailing—discretion/whim-of-thought) opportune/ad-hoc biological/neurological and evolutionary substitutive/reductionist interpretations of the social and socio-psychological frame–of–ontological-contiguity, and so as of vague disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-'immanent-ontological-contiguity'>. Such flawed and surreptitious representation that biological/neurological and evolutionary substitutive/reductionist interpretations are the '<~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity' of the social and socio-psychological (rather than the truly inherent social and socio-psychological

epistemic-conception phenomenal/manifest~subpotencies-<in-transitive-conflatedness–reflexivity,-in-the-full-potency-of-existence> as of their '<~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity') in effect wrongly implies a dialogical-equivalence 'nature versus nurture debate' between these two perspectives as to a 'naïve academicism mere procedural argumentation reflex'. The reality at best is that of 'biological/neurological and evolutionary interpretations transverse epistemic-conception phenomenal/manifest~subpotency-<in-transitive-conflatedness–reflexivity,-in-the-full-potency-of-existence>' in relation to the social and socio-psychological frame–of–ontological-contiguity (and not such biological/neurological and evolutionary interpretations substitutive/reductionist epistemic-conception overriding the social and socio-psychological epistemic-conception phenomenal/manifest~subpotencies-<in-transitive-conflatedness–reflexivity,-in-the-full-potency-of-existence>, just as the transverse epistemic-conception phenomenal/manifest~subpotency-<in-transitive-conflatedness–reflexivity,-in-the-full-potency-of-existence> of mathematics in relation to physics doesn't substitute for and override the inherent physics epistemic-conception phenomenal/manifest~subpotency-<in-transitive-conflatedness–reflexivity,-in-the-full-potency-of-existence>). The consequence of such vague disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-'immanent-ontological-contiguity'> as to failing '<~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity' (as implied as of the requisite '<~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating existential-contextualising-contiguity foregrounding—entailment-⟨narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting 'immanent-ontological-contiguity'⟩,–as-operative-notional~deprocrypticism in elucidating ontological-contiguity-<as-from-prospective-ontological-normalcy/postconvergence-

epistemic/notional~projective-perspective>'), is that (besides their basic epistemic innocence/naivety) such biological/neurological and evolutionary interpretations substitutive/reductionist epistemic-conception then provide the room for sophistic/pedantic dispositions that construe of the inherent sublimation in the natural sciences qua natural sciences as the surreptitious opportunity to project gimmicky/desublimating interpretations about the social (on the basis of the 'hollow impressiveness of the natural sciences') as a psychological trick/gimmick as to rendering knowledge-reification sublimation in the social impotent with regards to varied social-stake-contention-or-confliction purposes. Such claims often project/imply that analysing the social qua social is just about irrelevant (or paradoxically 'make their very own subterfuge social interpretations' as from the psychological trick/gimmick of the projected hollow impressiveness of the natural sciences so-derived from the clout of a natural science without demonstrating the epistemic-veracity for such a bypassing/dodgery as to arrive at the social '<~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity' sublimating implications and consequences). Besides, such claims are often so-associated with vague non-metaphysical as non-ontological conceptualisations of the social in vague disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-'immanent-ontological-contiguity'> as to elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity, and thus in many ways further undermine/distract-from the social '<~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity' conception of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint in dealing with direct social and institutional issues, crises and failures. A 'purist science/ontology epistemic-conception of veracity/truth' equally differs from the conception

of veracity/truth as from the latitude of 'human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction' with the former construing of 'knowledge as to existential knowledge-reification privileging manifest sublimating outcome in existence' in contrast to the latter construing of 'knowledge as to collective acquiescence as to the privileging of human commendation-or-agreementing/convincing-among-mortals (rather than a detour to existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness) even over manifest sublimating outcome in existence'. Such a 'purist science/ontology epistemic-conception of veracity/truth' construes of knowledge as a 'perpetual off-balance act associated with human limited-mentation-capacity-deepening-⟨<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩' (as involved in the reconceptualisation of the physics state-of-the-art from Einsteinian physics, Bohrian physics, Feynmanian physics, etc., emphasising rather 'the constancy of the intemporal individuation as from the ontological-normalcy/postconvergence perspective' and 'not about the constancy of any notion of intemporal individual'). Such a 'perpetual off-balance act associated with human limited-mentation-capacity-deepening-⟨<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩' speak to the more profound reality that the ordinariness of human thought across the succession of human registry-worldviews/dimensions points to their 'epistemic-abnormalcy/preconvergence' despite the delusion of all registry-worldviews/dimensions in their presencing—absolutising-identitive-constitutedness as being of 'absolute epistemic-normalcy'; and it is because of this latter fact (as from the ontological-normalcy/postconvergence epistemic-projection perspective) that prospective human progress and emancipation as of human transcendence-and-sublimity can

occur in the very first place (in contradiction to all such registry-worldviews/dimensions presencing—absolutising-identitive-constitutedness failure to directly grasp their very own <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, even as the possibility for prospective transcendence-and-sublimity necessarily involves such a requisite psychoanalytic-unshackling/memetic-reordering/institutional-recomposure). In other words, the 'effective equilibration of human sublimating meaningfulness-and-teleology across the successive registry-worldviews/dimensions' does not lie with any 'ordinariness/commonsensicality as of the successive registry-worldviews/dimensions presencing—absolutising-identitive-constitutedness' as falsely elicited by their sophistic/pedantic dispositions, as in reality it rather lies in 'the dynamically differentiated transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing of the ontological-performance-<including-virtue-as-ontology> of human temporal-to-intemporal-dispositions narratives': and so as to 'fatedness-of-sublimation-over-desublimation, to existence-potency-prospective-digression-of—<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness (in reflecting the ontological-contiguity—of-the-human-institutionalisation-process), of human-subpotency ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality as to the disseminative—selectivity-of-ontological-good-faith/authenticity–over–deselectivity-of-ontological-bad-faith/inauthenticity', as the driver of the human-subpotency potentiating existential becoming manifestation of sublimating-over-desublimating social-and-institutional-constructs–of-meaningfulness-and-teleology—in-cumulation/recomposuring all along in reflecting the ontological-contiguity—of-the-human-institutionalisation-process; as it dynamically induces (as of 'varying magnitudes/scales—as-to-successively-profound-restructuring/reparadigming-frames-as-from-living,-

This latter insight is critical for all prospective human sublimation as 'a false sense of a categorically/absolutely sublimated social-construct ordinariness/commensicality and social-vestedness/normativity' effectively renders any prospective human emancipation and construction-of-the-Self pointless-and-contradictory; as to the fact that even such advocates turn out to be incoherently muted-and-muddled with regards to such an argument about 'a false sense of a categorically/absolutely sublimated social-construct ordinariness/commensicality and social-vestedness/normativity', revealing their true motives rather as status quo preserving with regards to social-stake-contention-or-confliction (beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>). The 'purist science/ontology epistemic-conception of veracity/truth' is ever always about the 'prospective upholding of existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–

in-epistemic-conflatedness and structurally/paradigmatically so-explains the very possibility for human progress. In contrast the conception of veracity/truth as from the latitude of 'human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction' is rather more bent upon emphasising human-subpotency methodologising/mutualising/organising/institutionalising grounds for veracity/truth rather than eliciting prospective sublimating existence's necessitating implications and consequences. Such notions of veracity/truth without articulating existence-potency-prospective-digression-of—<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness are vague disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-'immanent-ontological-contiguity'>, and worse still when accompanied by claims of humility as to inherent institutionalised prescience are more often than not mere manifestations of intellectual entitlement; (as to imply the society is inherently beholden to the mere institutionalised imprimatur of intellection even as to when it projects intellectual desublimation associated with intellectual-muddlement-⟨blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness⟩ as well as intellectually-distortive practices such as blind institutionalised priming/funnelling/staking of specific theoretical postures over genuine and profound ontological elucidation as to existential contextualisation with the associated academic careerism at the very antipode of genuine sublimating intellection) and so as reflecting the modern day intellection relevant prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint.

Interestingly, the 'purist science/ontology epistemic-conception of veracity/truth' projects prospective sublimating existence's necessitating implications and consequences to implicitly underscore 'interlocutory humility' induced as of existence-potency-prospective-digression-

of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness; as to the fact that humility was rather imbued with the Einsteinian/theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs perspective over the prior institutionalised/classical-mechanics—axiomatic-constructs with the latter never assuming any arrogance as to its prior methodologising/mutualising/organising/institutionalising conception of physics. Critically, with regards to the blurriness of meaningfulness-and-teleology in the social that exposes prospective transcendental dispositions (as to dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation ontological-good-faith/authenticity–structure) to sophistic/pedantic <~~amplituding~~/formative>wooden-language-⟨imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology⟩ eliciting of <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩, it is important to articulate such prospective sublimating meaningfulness-and-teleology while equally reflecting upon the sophistic/pedantic to its dimensionality-of-desublimating-lack-of—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation ontological-bad-faith/inauthenticity–structure as part and parcel of the prospective sublimating meaningfulness-and-teleology, and not wrongly imply the desublimation is in apriorising-teleological-elevation-in-ontological-contiguity as to the transcendence-and-sublimity attitude/mental-disposition/care–and–episteme (in this case reflecting

sophistic/pedantic procrypticism/disjointedness-as-of-reference-of-thought); and as so articulated elsewhere with the case of the Socratic philosophers and budding positivists it is always the case that the sophistic/pedantic dispositions will fathom that in relation to prospectively sublimating base-institutionalisation, universalisation, positivism and deprocrypticism the effective 'world that exists to the majority people (as of 'human temporal-to-intemporal-dispositions accordioning-<as-of-varying-individuations-contextually-transverse-desublimation/sublimation,-as-to-the-redounding/wavering/waveforming—of-their-referencing-and-their-devolved-referencing-imbued-ontological-performance-<including-virtue-as-ontology>> at uninstitutionalised-thresholds as reflecting both desublimating historicity-tracing—presencing-imbued-hyperrealisation/hyperreal-transposition and sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing possibilities') respectively is recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism/disjointedness-as-of-reference-of-thought to go on cynically eliciting <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ as of the latter. Ultimately, there is a 'social underlying sublimating intellection proficiency' to which all specific domains of study need to account for their sublimating pertinence; and the possibility of putting into question all 'Establishment intellection as of their given presencing—absolutising-identitive-constitutedness' (from across the most ancient civilisations to modern times and so as instigated by the Socrates, Galileos, Descartes, Diderots, etc.) has always arisen within-or-without such epochal Establishment intellection by the prompting of their 'social underlying sublimating intellection proficiency' which contemplative consciousness is not to be underestimated as to a 'decadence posturing of

intellectual entitlement'. Critically, the possibility of prospective value-construction and pretence of projecting more profound value is indissociable from the capacity of producing the relative-ontological-completeness knowledge that broaden-the-latitude-of-human-collective-consciousness as to the fact that just as prior recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism/disjointedness-as-of-reference-of-thought respectively are intellectually-and-morally wanting with respect to prospective base-institutionalisation, universalisation, positivism/rational-empiricism and deprocrypticism or preempting—disjointedness-as-of-reference-of-thought value-construction respectively; pretences of profound intellection as to the former are nothing but sophistic/pedantic exploitations of human limited-mentation-capacity as to 'a delusion of generating knowledge and value from thin air', and of vital importance in that regards is the fact that that which is in relative-ontological-completeness has to occupy the intellectual-and-moral ground imbued by such relative-ontological-completeness. Vague notions of arrogance and wretchedness are nothing but the ontological-veracity of the state of relative-ontological-incompleteness arrogance and wretchedness of thought (as from the ontological-normalcy/postconvergence epistemic/notional~projective-perspective) as to an epistemically-decadent ~~amplituding~~/formative>wooden-language-⟨imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology⟩; and so as to the fact that the magnanimity of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension out of concern about human prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology 'is the most important human and humanity-producing enterprise' notwithstanding the paradox that the prior recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism

and procrypticism/disjointedness-as-of-reference-of-thought respectively are intellectually-and-morally undeveloped to be the framework for appraising value-construction as of prospective base-institutionalisation, universalisation, positivism/rational-empiricism and deprocrypticism or preempting—disjointedness-as-of-reference-of-thought respectively in many ways explaining the underlying implications of human registry-worldview's/dimension's institutionalisation as involving cross-generational psychoanalytic-unshackling/memetic-reordering/institutional-recomposure. This affirmation is not articulated idly as to the fact that part and parcel of human knowledge-reification is not to allow desublimating thought to occupy the ground of sublimating thought (as the latter has to include a challenge to the knowledge-destroying desublimating thought arrogance and wretchedness), however the subterfuges available to such desublimation whether as of sophistry and mere-institutional-appendaging as reflecting the veridical prospective human-subpotency–aporia/undecidability/dilemma/ought-

indeterminacy/deficiency/limitation/constraint; taking hint that it is fundamentally a question about existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness and no amount of human mortals methodologising/mutualising/organising/institutionalising can supersede prospective sublimating existence's necessitating implications and consequences as otherwise the very idea of ontology/science then collapses and the supposed knowledge-reification exercise becomes pointless but as for institutional parading value. There is simply no knowledge without the effective demonstrated knowledge-reification implications and pretending otherwise as to 'virtual wisdoms' is nothing more tha <~~amplituding~~/formative>epistemic-totalising~self-referencing-

syncretising/circularity/interiorising/akrasiatic-drag. Hence basically the overall differentiation between 'purist science/ontology epistemic-conception of veracity/truth' and

'social-vestedness/normativity epistemic-conception of veracity/truth' lies with their constraining whether towards inherent existence projected implications or towards human-subpotency projected implications respectively. This underlying point has structural/paradigmatic implications with regards to human meaningfulness-and-teleology as to human living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. This differentiation can be rearticulated in aestheticisation terms to imply that existence (as to existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness) is 'the scalar conception that enables prospective human sublimation as of aestheticisation-towards-ontology' while on the other hand human-subpotency (as to human presencing—absolutising-identitive-constitutedness <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag) is 'a non-scalar conception that induces prospective human desublimation aestheticisation'. The 'scalarity/immanency of existence's ontological-normalcy/postconvergence' as such is reflected with regards to prospectively implied ontological-normalcy/postconvergence construed as of maximalising-recomposuring-for-relative-ontological-completeness epistemic-projection perspective while 'human-subpotency non-scalarity/beholdening-<as-to-what-has-gone-before-aesthetically-structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>' is reflected with regards to its prospectively implied epistemic-abnormalcy/preconvergence construed as of incrementalism-in-relative-ontological-incompleteness epistemic-projection perspective. Basically, 'scalarity/immanency of existence's ontological-normalcy/postconvergence' and 'human-subpotency non-scalarity/beholdening-<as-to-what-has-gone-before-aesthetically-structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>' thus speak to

the fact that human prospective transcendence-and-sublimity implied limited-mentation-capacity-deepening-⟨<s>amplituding</s>/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ (as to dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension) is actually induced as from human uncontemplative-distension so-construed as 'dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension imbued prospectively of both sublimating historiality/ontological-eventfulness/ontological-aesthetic-trace and desublimating historicity-tracing—presencing-imbued-hyperrealisation/hyperreal-transposition'; as to prospective sublimating historiality/ontological-eventfulness/ontological-aesthetic-trace 'scalarity/immanency of existence's ontological-normalcy/postconvergence' as prospectively preserving ontology/ontological-veracity and 'human-subpotency non-scalarity/beholdening-<as-to-what-has-gone-before-aesthetically-structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>' prospective desublimating historicity-tracing—presencing-imbued-hyperrealisation/hyperreal-transposition as prospectively obviating ontology/ontological-veracity. This insightful grasp of the implications of human limited-mentation-capacity-deepening-⟨<s>amplituding</s>/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ (construed as from ontological-normalcy/postconvergence epistemic-projection perspective): 'as rather occurring as from an ontologically deficient grounding' of relative human limited-mentation-capacity (however 'the better relative ontological-deficiency' implied as of relative-ontological-completeness), emphasises the necessity for the bifurcation of the construal of prospective human ontological-performance-<including-virtue-as-ontology> (associated with prospective human sublimation) into: 'a scalarity/immanency perspective (as to a scalarity/immanency that will arise if the human had absolute-mentation-capacity so-construed as ontological-

normalcy/postconvergence) of historiality/ontological-eventfulness/ontological-aesthetic-tracing' and 'a non-scalarity/beholdening-<as-to-what-has-gone-before-aesthetically-structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation> perspective (with regards to residual human ontological-deficiency implications as to relative human limited-mentation-capacity notwithstanding 'the better relative ontological-deficiency') of historicity-tracing—presencing-imbued-hyperrealisation/hyperreal-transposition'.

Uncontemplative-distension is thus rather the recognition that human dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension doesn't achieve absolute 'scalarity/immanency of existence's ontological-normalcy/postconvergence' (as dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension rather reflects the epistemic perspective towards ontological-normalcy/postconvergence and not 'scalarity/immanency of existence's ontological-normalcy/postconvergence'); with the effective 'scalarity/immanency of existence's ontological-normalcy/postconvergence' as of the absolute distension (beyond just relative-ontological-completeness) underlying the overall existential dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation as the inherent ontological-good-faith/authenticity–structure effectively reflected as of notional~deprocrypticism. Deprocrypticism as such by its ontologically-uncompromised nature 'technically entails': prospective human ontological-performance-<including-virtue-as-ontology> as to sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing as of 'scalarity/immanency of existence's ontological-normalcy/postconvergence' in overcoming the desublimating historicity-tracing—presencing-imbued-hyperrealisation/hyperreal-transposition of 'human-subpotency non-scalarity/beholdening-<as-to-what-has-gone-before-aesthetically-structures/paradigms-distortedly-the-possibility-

for-the-later-ontologisation>' in presencing—absolutising-identitive-constitutedness. Translated, this 'scalarity/immanency of existence's ontological-normalcy/postconvergence' and 'human-subpotency non-scalarity/beholdening-<as-to-what-has-gone-before-aesthetically-structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>' underlying prospective human ontological-performance-<including-virtue-as-ontology> with regards to human meaningfulness-and-teleology speaks to the fact that prospectively induced human sublimation is bound to paradoxically distort-and-desublimate the ontological-veracity appraisal for inducing further and concomitant human sublimation (and so because of the structural/paradigmatic effect of relative limited-mentation-capacity-deepening-⟨<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ in constrast to what will prevail in case of 'absolute-mentation-capacity of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument'). But then such effect critically varies as to both 'purist science/ontology epistemic-conception of veracity/truth' and 'social-vestedness/normativity epistemic-conception of veracity/truth'; in the sense that the latter poorly constrained to high predicative-effectivity–sublimation-⟨as-to-underlying-ontological-commitment⟩ is strongly prone to desublimating historicity-tracing—presencing-imbued-hyperrealisation/hyperreal-transposition of 'human-subpotency non-scalarity/beholdening-<as-to-what-has-gone-before-aesthetically-structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>' in presencing—absolutising-identitive-constitutedness, while the former strongly constrained to high predicative-effectivity–sublimation-⟨as-to-underlying-ontological-commitment⟩ is rather relatively amenable to sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing as of 'scalarity/immanency of existence's ontological-normalcy/postconvergence'. That said, human sublimation increasingly implies a 'generalised background cultural,-organisation-

and-institutional framework' that itself needs to be sublimating, and it is here as well that even the propensity for sublimation of 'purist science/ontology epistemic-conception of veracity/truth' can be desublimated by an ontologically-impertinent 'generalised background cultural,-organisation-and-institutional framework' adopting 'social-vestedness/normativity epistemic-conception of veracity/truth'. In many ways with regards to the overall social framework, the usurpation of the intellectual-function arising as of 'social-vestedness/normativity epistemic-conception of veracity/truth' is often associated with vague-and-surreptitious conceptualisations of business success and media-and-social influence (in desublimating historicity-tracing) as superseding social intellection itself as an inherent exercise for the social domain's 'purist science/ontology epistemic-conception of veracity/truth' (as to the latter's prospective sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing). Critically such a 'purist science/ontology epistemic-conception of veracity/truth' analysis very much point out that the social-construct is riddled with narratives of 'supposedly veridical ontological justifications/grounds' but which on closer examination as of 'purist science/ontology epistemic-conception of veracity/truth' turn out to be at the least sub-ontological-<as-to-the-limitation-of-human-subpotency-in-its-reifying-and-empowering-reflexivity-of-the-full-potency-of-existence>;

and so as to the relative impertinence of the 'social-vestedness/normativity epistemic-conception of veracity/truth' (so-construed as from the ontological-normalcy/postconvergence epistemic-projection perspective). This insight further informs prospective deprocrypticism appraisal of the 'tight-and-entwined relationship between the overall human ontological-commitment (across all registry-worldviews/dimensions) and (corresponding registry-worldviews/dimensions) predicative-effectivity–sublimation-⟨as-to-underlying-ontological-commitment⟩ (reflecting 'scalarity/immanency of existence's ontological-normalcy/postconvergence')'. In this regards, the structural/paradigmatic

implications of 'human temporal-to-intemporal-dispositions accordioning-<as-of-varying-individuations-contextually-transverse-desublimation/sublimation,-as-to-the-redounding/wavering/waveforming—of-their-referencing-and-their-devolved-referencing-imbued-ontological-performance-<including-virtue-as-ontology>> at uninstitutionalised-thresholds as reflecting both desublimating historicity-tracing—presencing-imbued-hyperrealisation/hyperreal-transposition and sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing possibilities', reflect the fact that the originariness-parrhesia,–as–spontaneity-of-aestheticisation

acuity/perspicacity/astuteness/edginess/incisiveness for prospective knowledge-reification implying a projection out of a prior human registry-worldview's/dimension's institutionalisation framework cannot be construed as of any exercise of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity on the basis of the prior institutionalisation secondnatured apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (thus wrongly implying that there is an underlying absolute sound basis for human knowledge-reification as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity, whereas in reality such grounds are recurrently restructured/reparadigmed for relative-ontological-completeness as to re-apriorising/re-axiomatising/re-referencing/re-intelligibilitysettingup/re-measuringinstrumenting); hence implying that prospective sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing at any uninstitutionalised-threshold is necessarily imbued with prospective originariness-parrhesia,–as–spontaneity-of-aestheticisation 'messianic-structure of intemporality' and its derived deferential-formalisation-transference secondnaturing. We can appreciate in this regards that budding-positivists meaningfulness-and-teleology however relatively intelligible to us today, wouldn't

make sense to the 'ordinariness/commonsensicality of the non-positivism/medievalism prior institutionalisation   secondnatured apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument   as   to elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity' but the fact is that such budding positivism in its restructuring/reparadigming for relative-ontological-completeness rather induced the psychoanalytic-unshackling/memetic-reordering/institutional-recomposure for our present day positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. Such a restructuring/reparadigming for relative-ontological-completeness induced psychoanalytic-unshackling/memetic-reordering/institutional-recomposure equally applies with respect to prospective deprocrypticism or preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. In this regards, just as the requisite dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension that projected of an underlying 'scientific—apriorising/axiomatising/referencing–psychologism   enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation-⟨as-to-underlying-ontological-commitment⟩' by budding-positivists allowed for the enculturation of a human positivism/rational-empiricism social orientation with regards to the natural sciences (then more-or-less   subsequent   'aspirational   sciences')   epistemic-conceptions phenomenal/manifest~subpotencies-<in-transitive-conflatedness–reflexivity,-in-the-full-potency-of-existence> as to their implicited '<~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating existential-contextualising-contiguity foregrounding—entailment-⟨narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting 'immanent-ontological-contiguity'⟩,–as-operative-notional~deprocrypticism   in   elucidating   ontological-contiguity-<as-from-

preempting—disjointedness-as-of-reference-of-thought meaningfulness-and-teleology, (and so overriding disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-'immanent-ontological-contiguity'> as to the latter's implied procrypticism/disjointedness-as-of-reference-of-thought). But then as across the successive registry-worldviews/dimensions, the uninstitutionalised-threshold is a fertile spot for sophistic/pedantic practices whether as with the Ancient sophists or medievalism-scholastics or today institutional-being-and-craft intellectual-muddlement-⟨blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩. What is central to all such sophistry is their emphasis on the notion that prospective knowledge is attained as to the sensibility/decorum as of presencing—absolutising-identitive-constitutedness <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag; explaining their pedantic obsession. On the other hand, what is central with prospective genuine knowledge is ever always the emphasis on the fact that knowledge-reification is fundamentally about sublimation-over-desublimation as to the implications of the 'tight-and-entwined relationship between the overall human ontological-commitment (across all registry-worldviews/dimensions) and (corresponding registry-worldviews/dimensions) predicative-effectivity–sublimation-⟨as-to-underlying-ontological-commitment⟩ as critically enabling prospective sublimation' so-implied as to existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness. The strategic problem faced by the Ancient sophists and medievalism-scholastics in this respect (beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>) is how to exploit the fact that there is no 'universalising-idealisation—apriorising/axiomatising/referencing–psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation-

⟨as-to-underlying-ontological-commitment⟩' and no 'positivism/rational-empiricism—apriorising/axiomatising/referencing–psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation-⟨as-to-underlying-ontological-commitment⟩' to structurally/paradigmatically undermine respectively the possibility for both Socratic philosophers universalising-idealisation and positivism/rational-empiricism implied transcendence-and-sublimity meaningfulness-and-teleology by eliciting presencing—absolutising-identitive-constitutedness sensibility/decorum as of non-universalising Ancient sophistry and non-positivism medieval-scholasticism meaningfulness-and-teleology respectively. Likewise, it is herein contended that a tradition of philosophy introduced and propped up after the second-world-war and a general social science and humanities attitude and practices closely associated with this orientation (as to perceived geostrategic reasons for undermining the possibility of unfettered thought paradoxically uncritical/thoughtless about the social implications associated with poor/usurped social critique) is fundamentally grounded on an actively surreptitious exercise of presencing—absolutising-identitive-constitutedness <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that in many ways (given the inherent impotency it induces as recognised explicitly and implicitly by even its very own leading figures) has had the consequence of 'undermining the natural social critical thinking that should enable the proper intellectual framing and addressing of human and social issues leading to a rather subservient intellectual posturing to socially dominant vested-interests/actors' as so-reflected in the current impotence of the political exercise with mediating institutions failing sovereign-equanimity as political, economic and social stakes cumulatively default to vested-interests as to their presencing—absolutising-identitive-constitutedness existentialising—enframing. Such an underlying intellectually deficient orientation is the surreptitious underhandedness failing social intellectual engagement in

many ways explains the surreptitious campaigning against many a critical theory as to the possibility for a revitalised genuine and healthy social critique (and as it is especially so-directed at muddling promising postmodern-thought which portrays a very profound ontological-veracity as to prospective sublimation possibilities in the face of prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint); and so-enabled as to no 'deprocrypticism—apriorising/axiomatising/referencing–psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation-⟨as-to-underlying-ontological-commitment⟩' (notwithstanding a natural scientific culture that points out that substantive issues are analysed on the basis of their relevant and operant substantive pertinence) as to the overriding possibility of 'projecting such a presencing—absolutising-identitive-constitutedness sensibility/decorum of institutional imprimatur' that is rather obsessively defensive of institutional pre-eminence over inherent knowledge-reification. But then the Ancient sophists and medievalism-scholastics were the institutional imprimatur of their periods but their pedantic presencing—absolutising-identitive-constitutedness sensibility/decorum was never in any way beholdening upon sublimating existence as to existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness allowing for prospective Socratic philosophers universalising-idealisation and budding-positivism as to their respectively induced 'universalising-idealisation—apriorising/axiomatising/referencing–psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation-⟨as-to-underlying-ontological-commitment⟩' and 'positivism/rational-empricism—apriorising/axiomatising/referencing–psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation-⟨as-to-underlying-ontological-commitment⟩' constraining in the face

The implication here is that there is no logical-basis as of our positivism–procrypticism presencing—absolutising-identitive-constitutedness for the so-projected prospective deprocrypticism meaningfulness-and-teleology but rather its prospectively induced sublimation as of existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation (as the logical-basis/logic-<as-to—transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing> of prospective deprocrypticism meaningfulness-and-teleology is rather the inner working coherence/contiguity of its apriorising/axiomatising/referencing construct such that our positivism–procrypticism meaningfulness-and-teleology logical-basis/logic-<as-to—transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing> is structurally/paradigmatically incompetent-and-irrelevant but for our projective-insights capacity for grasping prospective deprocrypticism meaningfulness-and-teleology sublimation as of existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation). This insight equally explains why human <~~amplituding~~/formative>epistemic-causality at its most profound construal is rather as of underlying ontological-good-faith/authenticity–structure over ontological-bad-faith/inauthenticity–structure imbued sublimating-over-desublimating ontological implications and so with regards to underlying human-subpotency ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality; as the ontological-good-faith/authenticity–structure (as of dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation as to its profound dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension) reflects the originariness-parrhesia,–as–spontaneity-of-aestheticisation acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation as intemporal-projection reasoning-through/messianic-reasoning that runs all along the succession of registry-worldviews/dimensions as to human limited-mentation-capacity-deepening-⟨<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ enabling human reference-of-thought–and–reference-of-thought-devolving–meaningfulness-and-teleology induced transcendence-and-sublimity whereas the ontological-bad-faith/inauthenticity–structure (as of dimensionality-of-desublimating-lack-of—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation as to its lack-of/shallow dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension) is besotted in temporality

upon the logical-basis of relative-ontological-incompleteness ~~amplituding~~/formative⟩wooden-language-⟨imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology⟩ as so-enabled with lack of universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-~~amplituding~~/formative⟩epistemic-totalising–in-relative-ontological-completeness⟩ (explaining the latter's iterative-looping-narrations as successive shades of universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-~~amplituding~~/formative⟩epistemic-totalising–in-relative-ontological-completeness⟩ arise speaking to a more fundamental ontological-bad-faith/inauthenticity–structure when reflecting ~~amplituding~~/formative⟩epistemic-causality). This underlying ontological-good-faith/authenticity–structure over ontological-bad-faith/inauthenticity–structure imbued sublimating-over-desublimating ontological implications as most profound construal of human ~~amplituding~~/formative⟩epistemic-causality inevitably highlights the requisite 'ontological-good-faith/authenticity–structure existential-condescension-⟨of-apriorising/axiomatising/referencing–psychologism⟩' of sublimating base-institutionalisation, universalisation, positivism/rational-empiricism and deprocrypticism respectively over desublimating recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism respectively, and the failure to articulate this requisite 'ontological-good-faith/authenticity–structure existential-condescension-⟨of-apriorising/axiomatising/referencing–psychologism⟩' is a failure to meet the 'prospectively warranted organic-knowledge epistemic-veracity' as failing to reflect acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation in implying that 'the sublimating apriorising/axiomatising/referencing–

psychologism is the valid logical-basis' and 'the desublimating apriorising/axiomatising/referencing–psychologism is the invalid logical-basis'. This point out that the successive relative-ontological-completeness as base-institutionalisation, universalisation, positivism/rational-empiricism and deprocrypticism respectively are actually projective-insights speaking to the fact that human prospective emancipation should rather be construed as of 'human reference-of-thought (as grandest axiomatic-construct level) research-programme conception' as so-enabling the transcendence-and-sublimity of the respective prior relative-ontological-incompleteness of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism. Such 'human reference-of-thought (as grandest axiomatic-construct level) research-programme conception' reflects the fact that it is the 'prospective structural/paradigmatic sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation as so-induced by notional~asceticism reasoning-through/messianic-reasoning' that affirmatively validates any of the respective relative-ontological-completeness registry-worldviews/dimensions instigated human emancipation, and so as to the fact that the corresponding reasoning-from-results/afterthought inducing secondnatured institutionalisation (that speaks to collective thought in any given registry-worldview/dimension) while serving its secondnaturing institutionalisation purpose 'is overrated with regards to the challenge of human aporeticism at prospective uninstitutionalised-thresholds' and shouldn't be the threshold/limit for determining the possibility for prospective human emancipation (since it is relatively of poor responsiveness to prospective human Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulneess-and-teleology) which rather requires instigative notional~asceticism reasoning-through/messianic-reasoning (as to the fact that for instance it is naïve to conceive that it was the 'pure articulation of positivism/rational-empiricism logic that convinced/converted the non-

positivism/medieval world into our positivism world' but rather decisive in the secondnaturing of positivism/rational-empiricism was the notional~asceticism reasoning-through/messianic-reasoning instigative detour to positivism/rational-empiricism structural/paradigmatic sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation (manifested as of the ships that set sail around the world for spices and trade eliciting a positive commercial opportunism that is decisively responsible for destroying the collective social myth of a flat world; the bacteria theory that will ensure that one lives or die if we believe in it or not and draw the health implications constrained the destruction of a collective superstitious medical worldview; the scientific tools and knowledge that ensured that nation A or nation B will triumph if they believe in it or not, constrained the collective need to adopt a scientific worldview, etc.). Since the relative-ontological-completeness logical-basis/logic-<as-to—transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing> is in transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing with the relative-ontological-incompleteness logical-basis/logic-<as-to—transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing>, it is only the sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation that affirmatively upholds the relative-ontological-completeness over the relative-ontological-incompleteness (as to their supposedly coherent ontological-commitment). In other words, genuinely projected knowledge as of ontological-good-faith/authenticity–structure is more than just the mechanical construct but speaks of the 'ontological-good-faith/authenticity–structure existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>' as of veridical existential relationship/signature as organic-knowledge. This is more obviously grasped with respect to human living-development–as-to-personality-development and institutional-development–as-

to-social-function-development as to the positive-opportunism implications eliciting a decomplexed placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of such 'ontological-good-faith/authenticity–structure existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>' but less obvious and poorly grasped with regards to prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulneess-and-teleology. In this respect with regards to human living-development–as-to-personality-development and institutional-development–as-to-social-function-development as of our positivism/rational-empiricism registry-worldview/dimension we can appreciate for instance that in a professional–client relationship like between a physician and a patient or a plumber and a customer, the two parties do not normally engage one another in equivocating as of the ordinary meaningfulness-and-teleology desublimation which wouldn't achieve the sublimation of medical care meaningfulness-and-technology or plumbing technician technical meaningfulness-and-teleology (as to the fact that the client doesn't go on pretending to engage the professional at its more profound level of technical knowledge contemplation) with the relation thus involving the requisite 'ontological-good-faith/authenticity–structure existential-condescension-<of-apriorising/axiomatising/referencing–psychologism> of the professional with a corresponding deferential apriorising/axiomatising/referencing–psychologism of the client' and so as reflecting the sublimating knowledge ontological-good-faith/authenticity–structure beyond-and-above the desublimating ontological-good-faith/authenticity–structure of ordinary meaningfulness-and-teleology. However, this sublimating knowledge 'ontological-good-faith/authenticity–structure existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>' across all registry-worldviews/dimensions is ever always poorly appreciated with regards to prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-

infrastructure-of-meaningfulneess-and-teleology (even though from a retrospective perspective we can grasp the preconverging/dementing–qualia-schema of 'the God of plane' type of articulation of say base-institutionalisation as of animistic social-setup as from our positivism/rational-empiricism reflex 'ontological-good-faith/authenticity–structure existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>' but it is important to note that such an animistic social-setup doesn't project of any such preconverging/dementing–qualia-schema placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology going by its presencing—absolutising-identitive-constitutedness just as we will be disinclined to contemplate about the more veridical preconverging/dementing–qualia-schema as to our procrypticism/disjointedness-as-of-reference-of-thought uninstitutionalised-threshold as from a prospective deprocrypticism perspective projected placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology). This poor appreciation arises for the simple reason that the uninstitutionalised-threshold speaks of the registry-worldview/dimension notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised~preconverging/dementing–qualia-schema>, and thus it is disinclined to recognise the prospective 'relative-ontological-completeness—apriorising/axiomatising/referencing–psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation-⟨as-to-underlying-ontological-commitment⟩' imbued foregrounding—entailment-⟨narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting 'immanent-ontological-contiguity'⟩,–as-operative-notional~deprocrypticism that can instill such a prospective sublimating knowledge 'ontological-good-faith/authenticity–structure existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>' as to prospective living-development–as-to-personality-development and institutional-

development–as-to-social-function-development. In this regards, it can be appreciated with respect to budding-positivism and universalising-idealisation respectively that where the epistemic-veracity of looking through a telescope and drawing positivistic ontological implications do not avail as in the scholastic-medievalism underpinning–suprasocial-construct or where construing meaningfulness in coherent universalising terms do not avail as in the non-universalising sophistry underpinning–suprasocial-construct, then there is a fundamental reality of desublimating ontological-bad-faith/inauthenticity over which prospective sublimating ontological-good-faith/authenticity knowledge respectively as of budding-positivism and universalising-idealisation can only be established as of their respectively requisite 'ontological-good-faith/authenticity existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>' and naïve present day presencing—absolutising-identitive-constitutedness interpretations in terms of the supposed arrogance of the Socrates, Galileos, Descartes, Diderots, etc. is nothing more but a manifestation of dimensionality-of-desublimating-lack-of—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation (as to the failure to appreciate that the surpassing of human-subpotency aporeticism is all about originariness-parrhesia,–as–spontaneity-of-aestheticisation acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation that only arises as of 'sublimation affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-validating-measuring-<postconverging-or-dialectical-thinking–apriorising-psychologism>' over 'desublimation unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitablemeasuringinstrument-invalidating-measuring-<preconverging-or-dementing–apriorising-psychologism>'). Indeed, as to when such 'relative-ontological-

Likewise, this insight about the requisite 'ontological-good-faith/authenticity existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>' for organic-knowledge needs to be explicited with regards to the blurriness of meaningfulness-and-teleology associated with today's institutional-being-and-craft intellectual-muddlement-⟨blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩ with cynical, ridiculous and paradoxical pretenses of humility and sensibility/decorum that by that token (not unlike ancient sophistry and medieval-scholasticism) go on to induce 'existentially invalid condescension' as to their veridical desublimating presencing—absolutising-identitive-constitutedness <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag' as of ontological-bad-faith/inauthenticity–structure. In this regards, as to 'sublimation affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-validating-measuring-<postconverging-or-dialectical-thinking–apriorising-psychologism>'

over 'desublimation unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitablemeasuringinstrument-invalidating-measuring-<preconverging-or-dementing–apriorising-psychologism>', the requisite 'ontological-good-faith/authenticity existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>' for organic-knowledge 'speaks to an intellectual-and-moral responsibility associated with knowledge as of the requisite dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension for its elucidation and appropriate second-natured institutionalisation that is not dissociated from the very construction-of-the-Self', and knowledge cannot thus be construed as 'a minor and side thing of mere influencing and stature' that is dissociated with veridical human mental-development and emancipation in order to rather surreptitiously serve human-subpotency as mortal methodologising/mutualising/organising/institutionalising perverted purposes (as so-often implicitly construed by many a social dominance/vested-interest actor and sycophantic-sophistry throughout human history in eliciting <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ hardly showing disinterested interest in genuine knowledge). The blunt fact is that as explained above and clearly obvious with human living-development–as-to-personality-development and institutional-development–as-to-social-function-development the ordinariness of meaningfulness-and-teleology is not to be exploited as if it is a credible state of profound ontological-veracity given the lack of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as to a disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-'immanent-ontological-contiguity'> which pedantry and sophistry thrives on this lack of universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-

Intellectualism as such is much more than just about presencing—absolutising-identitive-constitutedness methodologising/mutualising/organising/institutionalising enterprise as to the fact that 'all given registry-worldviews/dimensions as presencing—absolutising-identitive-constitutedness underpinning–suprasocial-construct relate to their given meaningfulness-and-teleology in absolute terms whereas in reality there are veridically relative subontologisation of ontology as metaphysics-of-presence'; and it is here that the social intellectual-function comes in to veridically reflect the reality that a social-construct is not of absolute scalarisation of human ontological-performance-<including-virtue-as-ontology> for the possibility for its prospective scalarisation-as-to-rescalarisation-as–re-ontologisation/supererogatory—involuting-or-guilding-or-amplifying–scalarisation-<as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation>, and the social intellectual-function as such is not about a naivist 'discrete functionalism of social-vestedness/normativity' as otherwise the possibility for the succession of registry-worldviews/dimensions transcendence-and-sublimity right up to our present wouldn't have availed speaking to our very own intellectual-and-moral responsibility for prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulneess-and-teleology. The social intellectual-function means that human thought can project beyond, overlook and override presencing—absolutising-identitive-constitutedness existentialising—enframing conception of sublimating value and ontological-veracity disposition; and so as to the fact that presencing—absolutising-identitive-constitutedness existentialising—enframing actually tend to be skewed towards

'immediacy supposed absolute sublimating value and ontological-veracity disposition' (as to the beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> positive-opportunism of living-development–as-to-personality-development and institutional-development–as-to-social-function-development) over 'non-immediacy prospective sublimating value and ontological-veracity disposition' (with regards to its supererogation-profundity–structure requisite dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension for Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulneess-and-teleology), and in fact in many ways individuals intersolipsistic actions in society implicitly recognise this reality even as the overall underpinning–suprasocial-construct tends to be abstractly structured/paradigmed to skew towards 'immediacy supposed absolute sublimating value and ontological-veracity disposition' (as for instance professional choices and callings made well beyond just a question of their remunerative or supposed incidental social prestige worth). Part and parcel of the social intellectual-function is to undermine this skewing towards 'immediacy supposed absolute sublimating value and ontological-veracity disposition' (as to the beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> positive-opportunism of living-development–as-to-personality-development and institutional-development–as-to-social-function-development) and reconstrue human-subpotency aporeticism in terms of 'non-immediacy prospective sublimating value and ontological-veracity disposition'. In this regards historically, without individuals making choices not to optimally pursue 'immediacy supposed absolute sublimating value and ontological-veracity disposition' as to their given presencing—absolutising-identitive-constitutedness 'immediacy supposed absolute sublimating value and ontological-veracity disposition' but instead optimising their effort for 'non-immediacy prospective sublimating value and ontological-

veracity disposition' then the possibility will not arise for the very backbone of human value and ontological-veracity sublimation (reflecting the 'non-immediacy prospective sublimating value and ontological-veracity disposition') upon which 'immediacy supposed absolute sublimating value and ontological-veracity disposition' is grounded. History knows that the 'contorted human presencing—absolutising-identitive-constitutedness mentality of registry-worldviews/dimensions' as of 'immediacy supposed absolute sublimating value and ontological-veracity disposition' do not truly pay their dues to the Socrates, Descartes, Kant, Newtons, Leibniz, Pasteurs, Rousseaux, Diderots, Einsteins, Teslas, etc. upon whose meaningfulness-and-teleology infrastructure building 'immediacy supposed absolute sublimating value and ontological-veracity disposition' arise and outlandishly skew human meaningfulness-and-teleology (and so not only with human Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulneess-and-teleology but is equally reflected in a poor-spirited bland conception of human living-development–as-to-personality-development and institutional-development–as-to-social-function-development). This insight is critically important not as an idle exercise of merely stating the appropriateness of sublimating value and ontological-veracity disposition but in reflecting that the skewed underpinning–suprasocial-construct projected and structured/paradigmed 'immediacy supposed absolute sublimating value and ontological-veracity disposition' cannot be construed as absolute as in effect it will ultimately prospectively stultifying the requisite 'non-immediacy prospective sublimating value and ontological-veracity disposition' that acts as the backbone for human value and ontological-veracity sublimation (as has always been the manifest case for surpassing the uninstitutionalised-thresholds of registry-worldviews/dimensions). The fact is 'immediacy supposed absolute sublimating value and ontological-veracity disposition' as underlying presencing—absolutising-identitive-constitutedness   end   up   as   the   registry-

worldviews/dimensions Establishments underpinning–suprasocial-construct as to dominance/vested-interest—drivenness-<as-to-its-eliciting-by-or-exploiting-of-descalarising-sycophantic-sophistic-interests,-as-inducing-prospective-threshold-of-institutional-and-social-desublimation> of presencing—absolutising-identitive-constitutedness existentialising—enframing of social-vestedness/normativity and social-stake-contention-or-confliction. It is the 'non-immediacy prospective sublimating value and ontological-veracity disposition' (so-reflected in human historiality/ontological-eventfulness/ontological-aesthetic-tracing) that goes beyond presencing—absolutising-identitive-constitutedness and generate the requisite structural/paradigmatic sublimation-over-desublimation as reflected with the ontological-contiguity—of-the-human-institutionalisation-process while superseding 'human-subpotency non-scalarity/beholdening-<as-to-what-has-gone-before-aesthetically-structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>' disposition of 'immediacy supposed absolute sublimating value and ontological-veracity disposition' as the latter at best construes of social reformation (and so across all the registry-worldviews/dimensions) in presencing—absolutising-identitive-constitutedness existentialising—enframing subontologising palliative terms that as to their specifically defined 'human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction' are very much integrative of collateral aspects as imponderable/inscrutable/unavoidable/inevitable/inescapable/unpreventable/unchangeable/insurmountable/unovercomable with regards to social-stake-contention-or-confliction and thus by dulling the social-construct's conscience in this way rather distracts from the realisation and contemplation of the full possibilities for profound structural/paradigmatic transformation of 'non-immediacy prospective sublimating value and ontological-veracity disposition'. The subtle manifestation of the social implications of 'immediacy supposed

absolute sublimating value and ontological-veracity disposition' (as to the beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> positive-opportunism of living-development–as-to-personality-development and institutional-development–as-to-social-function-development) with regards to our positivism–procrypticism registry-worldview/dimension can be appreciated in present day sycophantic-sophistry and intellectual-muddlement-⟨blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩, media-driven disenfranchising narrative existentialising—enframing and dominance/vested-interest diffused institutional influence in many ways and occasions rendering formal and official languages of institutions smokescreens for underhanded <~~amplituding~~/formative>wooden-language-⟨imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology⟩. In many ways this presencing—absolutising-identitive-constitutedness existentialising—enframing analysis as to the positivism–procrypticism registry-worldview's/dimension's structural/paradigmatic social institutional beholdening-becoming—distortive-originariness/distortive-origination–as-to-historicity-tracing~inhibited-mental-aestheticising implications is very much relevant however the underlying socio-econo-political subontologisation/ideology-over-ontology whether technocratic, capitalistic or communist (as in fact all such systems mirror each other as to their beholdening-becoming—distortive-originariness/distortive-origination–as-to-historicity-tracing~inhibited-mental-aestheticising, besides the differentiating specificities as to ingrained cultural context, speaking of a more fundamental issue of positivism–procrypticism ontological-performance-<including-virtue-as-ontology> as to the prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint for prospective deprocrypticism or

It is herein contended that the veridical social

intellectual-function (as to the creative dynamics of living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology) and so across the succession of registry-worldviews/dimensions as to its orientation towards reclamation/recovery of unenframed-conceptualisation is effectively what underlies the unenframed/unbeholdening/bechancing–supererogation possibility of all prospective human Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology enabling the succession of registry-worldviews/dimensions transcendence-and-sublimity reflecting the fact that their underpinning–suprasocial-constructs as to presencing—absolutising-identitive-constitutedness existentialising—enframing are otherwise hardly transcendental with regards to prospective construction-of-the-Self implications given their beholdening-becoming—distortive-originariness/distortive-origination–as-to-historicity-tracing~inhibited-mental-aestheticising. It is for the sake of preserving the full possibilities of prospective human value and ontological-veracity sublimation beyond presencing—absolutising-identitive-constitutedness existentialising—enframing that the social intellectual-function must ever always remain independent and not be usurped by dominance/vested-interest actors and sycophantic-sophistry. Ultimately as with all human uninstitutionalised-thresholds the prospective deprocrypticism or preempting—disjointedness-as-of-reference-of-thought   'ontological-good-faith/authenticity–structure existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>'   urges the human along beyond its limit of contemplation at which point such a taxingness-of-originariness upon human-subpotency ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality is more appropriately construed not as meaningfulness-and-teleology but

cognisance-and-integration of the requisite 'ontological-good-faith/authenticity–structure existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>' for the availing of the organic-knowledge meaningfulness-and-teleology of base-institutionalisation, universalisation, positivism/rational-empiricism and deprocrypticism respectively (as to their respective ontological-good-faith/authenticity–structure 'inducing of their reference-of-thought–and–reference-of-thought-devolving–meaningfulness-and-teleology underlying logical-basis of logical operation/processing/contention of narratives' reflected as of their respectively induced 'relative-ontological-completeness—apriorising/axiomatising/referencing–psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation-⟨as-to-underlying-ontological-commitment⟩' imbued foregrounding—entailment-⟨narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting 'immanent-ontological-contiguity'⟩,–as-operative-notional~deprocrypticism). This conception of 'ontological-good-faith/authenticity–structure existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>' rather speaks to the fact that 'human <~~amplituding~~/formative>epistemic-totalising~thrownness-in-existence as to its limited-mentation-capacity is intimately tied-down/laden-with prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor' as to human teleology so-construed as 'human phenomenal/manifest conceptivity/epistemic-reflexivity in existence as ontological (so-reflecting <~~amplituding~~/formative>disposedness-⟨as-to-orientation/value-construct/valuation–and–derived-parameterising⟩ and <~~amplituding~~/formative>entailment-⟨as-to-totalising-contiguous/coherent–factuality-of-variability⟩)', underlied as of overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-<imbued-and-educed–human-subpotency–epistemic-

perspective-of-aestheticising-motif-and-apriorising/axiomatising/referencing-conceptualisation>. The underlying insight here is that unlike the flawed mental-reflex associated with presencing—absolutising-identitive-constitutedness <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that structurally/paradigmatically projects of a 'neutrally/objectively sound human ontological-performance-<including-virtue-as-ontology> state failing to factor in human specific apriorising/axiomatising/referencing—ontological-deficiency arising from its specifically given <~~amplituding~~/formative>epistemic-totalising~thrownness-in-existence', human <~~amplituding~~/formative>epistemic-totalising~thrownness-in-existence as to human limited-mentation-capacity veridically implies that 'existence is not beholdening to that human thrownness and the critical human teleological as to ontological-performance-<including-virtue-as-ontology> issue is how to adjust to existence and is not about how existence adjusts to the human who is rather of a subpotent epistemic relation to the full-potency of existence'. The implication here is that the 'ontological-good-faith/authenticity–structure existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>' is thus merely reflecting the veridicality of the possibility of prospective human transcendence-and-sublimity which is only possibile as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation and existence—as-the-absolute-a-priori-of-conceptualisation with regards to human formativeness-<as-to-intersolipsism-of-premeaningfulness/preframing-imbued-mediativity-and-deferentialism>-of-meaningfulness-and-teleology. Thus it is only the possibility of 'ontological-good-faith/authenticity–structure existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>' that can thus allow human existential-discursivity—implicited-sublimation-over-desublimation beyond naïve presencing—absolutising-identitive-constitutedness <~~amplituding~~/formative>epistemic-totalising~self-

referencing-syncretising/circularity/interiorising/akrasiatic-drag (given that human ontological-performance-<including-virtue-as-ontology> cannot be neutrally be separated from human ~~amplituding~~/formative>epistemic-totalising~thrownness-in-existence and the reflexive temporal-to-intemporal ontological implications on human ontological-performance-<including-virtue-as-ontology>). This insight can be illustrated as follows: supposed say in 5000 BC an asteroid or virus could bring about a human cataclysm, such a 'potential manifestation of existence is not beholdening to human appreciation of the existential implications of the notion and science behind the asteroid or virus' and in this regard suppose extraterrestrials living in a 'supposedly habitable Mars' had achieved our present day civilisational and technological level, it is inevitable that they will effectively adopt 'ontological-good-faith/authenticity–structure existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>' with regards to the human species on Earth and strife to preempt such a cataclysm as to their technical capacity. We can appreciate that the human species on Earth as to its relative-ontological-incompleteness doesn't have a pretence to being of a 'neutrally/objectively sound human ontological-performance-<including-virtue-as-ontology> state failing to factor in human specific apriorising/axiomatising/referencing—ontological-deficiency arising from its specifically given ~~amplituding~~/formative>epistemic-totalising~thrownness-in-existence' but together with the extraterrestrials is rather structurally/paradigmatically in existential-discursivity—implicited-sublimation-over-desublimation relation as to the primacy of the full-potency of existence over any subpotency (speaking fundamentally to prior human ontological-commitment) with regards to the fact that the ontological-veracity of all humans as human-subpotency is priorily of existential-discursivity—implicited-sublimation-over-desublimation superseding pretenses of mere methodologising/mutualising/organising/institutionalising presciences as to entitlements of presencing—absolutising-identitive-constitutedness

articulated   induced   elaboration-as-mere-
extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-
contextualising-contiguity. Speaking of the requisite 'owning-up' as to when relative-
ontological-completeness avails rather than ontological-bad-faith/inauthenticity in upholding
relative-ontological-incompleteness (given that immortality/existence-perspective as to
intemporality cannot be construed as arising from our prior mortals whims superseding of
existential sublimation entailment and such presumption rather speaks to preconverging-or-
dementing–apriorising-psychologism and not postconverging-or-dialectical-thinking–
apriorising-psychologism). It is this pre-eminence of existential-discursivity—implicited-
sublimation-over-desublimation that explains why the availing of relative-ontological-
completeness as to dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic-
growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-
drivenness–equalisation takes precedence in defining human intellectual-and-moral
ontological-performance-<including-virtue-as-ontology> and so as to existence—as-
sublimating-withdrawal,-eliciting-of-prospective-supererogation.   This
<~~amplituding~~/formative>epistemic-totalising~thrownness-in-existence implied existential-
discursivity—implicited-sublimation-over-desublimation as to 'ontological-good-
faith/authenticity–structure   existential-condescension-<of-
apriorising/axiomatising/referencing–psychologism>' effectively underlies the 'Derridean
underdetermination-imbued force/violence conception' and 'Foucauldian knowledge/power
conception construed as knowledge-empowerment/ignorance-disempowerment', as the
premeaningfulness/preframing-<metaphoricity-disposition—as-to-psyche-induced-
psychologism-of-existential-stake> from which human meaningfulness-and-teleology
veridically arises. Thus existential-discursivity—implicited-sublimation-over-desublimation
implies that the human is already 'structurally/paradigmatically intellectually-and-morally

existentially engaged as to its limited-mentation-capacity' without any 'neutrally/objectively sound human ontological-performance-<including-virtue-as-ontology> state failing to factor in human specific apriorising/axiomatising/referencing—ontological-deficiency arising from its specifically given <~~amplituding~~/formative>epistemic-totalising~thrownness-in-existence'. This insight puts into perspective our presencing—absolutising-identitive-constitutedness conception of intellectual-and-moral responsibility wherein supposedly failed/unsuccessful/ineffective initiatives undertaken as to relative-ontological-completeness (for instance with regards to some public engagement aspiratory dispositions of such intellectuals like Sartre, Foucault, etc. and in the scientific domain for instance controversies associated with Louis Pasteur breakthroughs in microbial science) seem to be wrongly analysed from the posture of a supposedly neutral/objective social-setup conception of intellectual-and-moral responsibility (that ducks/ignores such relative-ontological-completeness aetiologisation/ontological-escalation posturing) without factoring in that 'the social-setup's relative-ontological-incompleteness specific apriorising/axiomatising/referencing—ontological-deficiency arising from its specifically given <~~amplituding~~/formative>epistemic-totalising~thrownness-in-existence' is not of neutrally/objectively sound ontological-performance-<including-virtue-as-ontology>; as to the fact that for instance the incidence of modern day wars and their man-made catastrophies do not speak of neutral/objective individuals and social intellectual-and-moral responsibility as to their existence within the meaningful sovereign frameworks that structurally/paradigmatically directly/indirectly validate such calamities. In other words, our intellectual-and-moral responsibility is already engaged as to our <~~amplituding~~/formative>epistemic-totalising~thrownness-in-existence and the idea that any attitude of unconcern/indifference is intellectually-and-morally neutral/objective is bogus; and human intellectual-and-moral responsibility starts at the very least with an orientation to

relative-ontological-completeness as to overall existential dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation. Besides such a more stark elucidation as to Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulneess-and-teleology, existential-discursivity—implicited-sublimation-over-desublimation as to 'ontological-good-faith/authenticity–structure existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>', thus points to the primacy of 'the very <~~amplituding~~/formative>epistemic-totalising~thrownness-in-existence of human discursivity as to the possibility for prospective existential sublimation' so-reflected in originariness-parrhesia,–as–spontaneity-of-aestheticisation acuity/perspicacity/astuteness/edginess/incisiveness projection as to overall existential dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation. The bigger point here is that prospective human sublimation underlying prospective knowledge-reification in relative-ontological-completeness cannot be engaged with any given registry-worldview/dimension in relative-ontological-incompleteness as if the latter is of a 'neutrally/objectively sound human ontological-performance-<including-virtue-as-ontology> state failing to factor in human specific apriorising/axiomatising/referencing—ontological-deficiency arising from its specifically given <~~amplituding~~/formative>epistemic-totalising~thrownness-in-existence' with regards to the fact that human <~~amplituding~~/formative>epistemic-totalising~thrownness-in-existence is already engaged in existential-discursivity—implicited-sublimation-over-desublimation as to 'ontological-good-faith/authenticity–structure existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>' (and so very much countering the

deceptive eliciting in desublimation of <~~amplituding~~/formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>) by dominance/vested-interest actors and sycophantic-sophistry seeming to imply human-subpotency takes precedence over existence). In this regards, and in the bigger scheme of things existential-discursivity—implicited-sublimation-over-desublimation as to 'ontological-good-faith/authenticity–structure existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>' implies that as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation, the respective state of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism cannot be construed as of 'neutrally/objectively sound human ontological-performance-<including-virtue-as-ontology> state failing to factor in human specific apriorising/axiomatising/referencing—ontological-deficiency arising from its specifically given <~~amplituding~~/formative>epistemic-totalising~thrownness-in-existence' with respect to prospective base-institutionalisation, universalisation, positivism/rational-empiricism and deprocrypticism respectively; and as relative-ontological-completeness avails intellectual-and-moral responsibility is rather reflected as of the dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation.   Unlike it is often assumed from a sloppy conception of human sublimation in existence (caught up in any given presencing—absolutising-identitive-constitutedness self-justification of uncertainty of prospective human sublimation), the comprehensive coherence of human sublimation in existence as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation is effectively highly regular and consistent (and this can only be fully appreciated from an ontologically sound conception of 'existence as of its immanently

tautologuous coherence speaking to its ontological-contiguity' as to the possibility for intelligibility to arise as so-reflected with the overall ontological-contiguity—of-the-human-institutionalisation-process so-associated with human limited-mentation-capacity-deepening-(~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩). This confliction in the perception and relation to human sublimation in existence between metaphysics-of-presence as to presencing—absolutising-identitive-constitutedness ~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag' on the one hand and on the other hand difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism as to relative-ontological-completeness ~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity, is aptly reflected in the entangled/enmeshed nature of human sublimation in existence as reflected with the ontological-contiguity—of-the-human-institutionalisation-process. This is so fundamentally because of human teleology speaking of 'human phenomenal/manifest conceptivity/epistemic-reflexivity in existence as ontological (so-reflecting ~~amplituding~~/formative>disposedness-⟨as-to-orientation/value-construct/valuation–and–derived-parameterising⟩ and ~~amplituding~~/formative>entailment-⟨as-to-totalising-contiguous/coherent–factuality-of-variability⟩)' (as reflecting the implications of human limited-mentation-capacity-deepening-(~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ underlying the ontological-contiguity—of-the-human-institutionalisation-process); such that human sublimation is hardly 'purist' and rather occurring as from successive human registry-worldviews/dimensions projections of their specifically flawed presencing—absolutising-identitive-constitutedness given apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–

conceptualisation reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation. The insight here is that human state of prior relative-ontological-incompleteness structurally/paradigmatically impacts reflexively on human appraisal of its prospective relative-ontological-completeness sublimation implications, and so across the successive registry-worldviews/dimensions right up to the originariness/origination-<so-construed-as-to-ontological-normalcy/postconvergence-perspective-scalarising-construal-of-existence> perspective of deprocrypticism or preempting—disjointedness-as-of-reference-of-thought which purportedly escapes any such reflexive presencing—absolutising-identitive-constitutedness <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation. The so-implied notional~deprocrypticism as such points out that the ontological-contiguity—of-the-human-institutionalisation-process is rather associated with a 'directly relevant trace of prospective human effectively-purist-sublimation-<reflecting-prospective-historiality/ontological-eventfulness/ontological-aesthetic-tracing> as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation' but that, as of the successive registry-worldviews/dimensions presencing—absolutising-identitive-constitutedness construals/conceptualisations, that 'directly relevant trace of prospective human effectively-purist-sublimation-<reflecting-prospective-historiality/ontological-eventfulness/ontological-aesthetic-tracing> as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation' is rather 'beholdening wrongly upon the overall relative-ontological-incompleteness–presublimation-construct–of-meaningfulness-and-teleology' such that a contrasting assessment rather highlights the 'entangling/enmeshing of effectively-purist-sublimation-<reflecting-prospective-historiality/ontological-

eventfulness/ontological-aesthetic-tracing> and overall relative-ontological-incompleteness–presublimation-construct–of-meaningfulness-and-teleology induced desublimating of the effectively-purist-sublimation-<reflecting-prospective-historiality/ontological-eventfulness/ontological-aesthetic-tracing>' as to the concreteness/concretism/existentialising—enframing—of-human-ontological-performance-<including-virtue-as-ontology> of overall prospective sublimation. Human sublimation as such in reflecting the ontological-contiguity—of-the-human-institutionalisation-process is existentially susceptibly instigated mostly as of materially/technically induced sublimation associated with tools, equipment, technical knowhow and natural science as to their immediately amenable positive-opportunism social implications ultimately leading to subsequent human methodologising/mutualising/organising/institutionalising sublimating overall meaningfulness-and-teleology. But the overall structure/paradigm of human sublimation in existence as such is not always coherent as to the discrepancy in the occurrence of specific sublimations and desublimations say material and technical sublimation pointing to relative-ontological-completeness and 'immaterial/social overall relative-ontological-incompleteness–presublimation-construct–of-meaningfulness-and-teleology instigating the referencing/registering/decisioning desublimation of the nascent-particular/incipient-and-material/technical-sublimations-<blinded-to-their-relative-ontological-completeness–reference-of-thought-devolving>'. In this regards, we can appreciate how the subsequent immaterial/social sublimation required for prospective positivism/rational-empiricism came to be appreciated by such thinkers like the Rousseaux, Diderots, etc. as to the fact that the material possibilities of their epoch associated with the printing press and increasing technical knowhow rendered the immaterial/social overall relative-ontological-incompleteness–presublimation-construct–of-meaningfulness-and-teleology of their epoch wanting, explaining for instance Rousseau's appreciation of the

'noble savage' and nature as speaking to an aporeticism that recognised that mankind needed a more mature conception of interhuman relationship and human relation with nature as to when mankind/some-of-mankind began manifesting a more developed relationship with nature beyond just as of the immediacy of subsistence/survival relationship with nature (say for instance having technical more efficient guns with gunpowder didn't imply just killing animals at whim); thus speaking of the prospectively requisite immaterial/social sublimation as to prospective positivism/rational-empiricism postconverging-or-dialectical-thinking–apriorising-psychologism. In this regards even budding-positivists like Galileo, Descartes, etc. just as well implicitly recognised this discrepancy of prospective material and technical sublimation positivistic science in relative-ontological-completeness and the immaterial/social overall relative-ontological-incompleteness–presublimation-construct–of-meaningfulness-and-teleology of medieval-scholasticism associated with alchemic/magical thinking, to the point that in many ways their actions were directed towards articulating at the very least an underlying 'scientific—apriorising/axiomatising/referencing–psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation-⟨as-to-underlying-ontological-commitment⟩' as the requisite immaterial/social sublimation for enabling positivistic science as we know it today to arise. This very insight explains the enlightenment struggle against feudalism and slavery as to the fact that the technical and scientific progress as to relative-ontological-completeness weren't the occasion to put such technical and scientific progress like shipbuilding and other ocean voyage technologies at the service of the prior medievally clouded immaterial/social overall relative-ontological-incompleteness–presublimation-construct–of-meaningfulness-and-teleology value-construct and methodologising/mutualising/organising/institutionalising existentialising—enframing, but rather called for a renewed conceptualisation of humanity beyond a mentality of immediate subsistence/survival. Thus it is always the case that the positive-opportunism

driving the second-natured institutionalisation of human sublimation induces discrepancy as to immediate material and technical possiblities of sublimation and the requisite dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension immaterial/social sublimation considerations that rise to the aporetic challenge of the immediate material and technical possibilities of sublimation. In many ways this discrepancy of material and technical sublimation and immediate distortive immaterial/social desublimation is reflected in the 'historicity-tracing—presencing-imbued-hyperrealisation/hyperreal-transposition gimmickiness/desublimation relation with meaningfulness-and-teleology' of our positivism–procrypticism, for instance as associated with an 'underlying dumbing-down public intellection and media industry'; as media-access and its commercialisation function in many ways rather adhocly substitutes-for/undermines a profound social intellectual-function as to social-stake-contention-or-confliction implications. The further implication of this discrepancy is in highlighting that the supposed equanimity/balance of the overall politico-institutional system as to sublimating notions of sovereignty, democracy, free-will, etc. is only veridically effective as to the originariness/origination-<so-construed-as-to-ontological-normalcy/postconvergence-perspective-scalarising-construal-of-existence> perspective of notional~deprocrypticism given the perpetual challenge of material sublimation upon human immaterial/social overall relative-ontological-incompleteness–presublimation-construct–of-meaningfulness-and-teleology; as prospective material/technical sublimation is associated with a discrepant 'immaterial/social overall relative-ontological-incompleteness–presublimation-construct–of-meaningfulness-and-teleology instigating the referencing/registering/decisioning desublimation of the nascent-particular/incipient-and-material/technical-sublimations-<blinded-to-their-relative-ontological-completeness–reference-of-thought-devolving>' that goes on as of presencing—absolutising-identitive-constitutedness to render the supposed

equanimity/balance of the overall politico-institutional system as to sublimating notions of sovereignty, democracy, free-will, etc. increasingly of relic/artifactual human ontological-performance-<including-virtue-as-ontology> reflected in their failing effective outcomes of equanimity/balance; wherein their practice increasingly tends to dominance/vested-interest actors and sycophantic-sophistry induced desublimating narratives as to the <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ displayed in the public domain (caught-up/entrapped in 'a politico-institutional beholdening relic/artefactual disenfranchising notion of both-sides' as psyching-subterfuge that renders the common concrete pragmatic aspirations of sovereign individuals increasingly politically irrelevant as to the paradox for instance that the healthier political framework in the years following the second world-war, as hardly subject to closed-circles of effective direct/indirect politico-institutional influence rampant today, notwithstanding the even greater social prejudice/bigotry/closed-mindedness was able to induce critical progressive social transformations that in many ways the present day political framework as to a period of rather profound and real-world cosmopolitanism/opened-mindedness can only dream about) as the more potent possibilities for social transformation are increasingly subdued under politico-institutional defaulting frameworks-and-practices rather surreptitiously subjected to closed-circles of effective direct/indirect politico-institutional influence 'as to a strategic capacity to elicit old and relatively aporetically irrelevant beholdening narratives of identity as a divide-and-conquer strategy for undermining the real and concrete common sovereign narrative of social transformation possibilities' as so-reflected with commonly held objective sovereign aspirations that cut across party/ideological affiliations when not subjected to the disenfranchising effects of crafty politicised beholdening narratives of identity with their 'ad-

hoc/arbitrary popping-up in the media at critical electoral moments involving high emotional charge quelling cerebral thinking as of the modern day efficient disenfranchising technique of flawed apriorising deception involving arbitrarily-skewing-or-debasing-the-terms-of-supposedly-constructively-opened-public-debate' (as to the wrong mental enculturation of the notion that the 'political game' in-of-itself precedes individuals and social sovereign aspirations as if the latter were just 'paying fans to a sports encounter' rather than a political process meant to serve them as so reflected with an enculturated media political narrative hardly/poorly making room for direct individual and social sovereign aspirations as centrally defining with the consequence that substance is increasingly overwhelmed by a political characters portrayal of the political debate with political actors then effectively turning over rather towards the levers of their potential power which is paradoxically not necessarily/deterministically social sovereign aspirations as to a relic/artifactual conception-and-projection in the public domain but rather surreptitious/private closed-circles of effective direct/indirect politico-institutional influence as so-plainly exposed by the fact that long-term consequences of public policies recurrently 'default for dominance/vested-interest actors'). Even in the purely intellectual sense, modern day scientific advancements and achievements have correspondingly given rise to a distorted manifestation of science-ideology as a usurpatory mouthpiece of veridical science-in-practice that effectively rides the wave of natural sciences accomplishments and in so doing projects of a naïve presencing—absolutising-identitive-constitutedness epistemic conception of science that in many cases poorly reflects upon effective scientific practices and craft as it poorly appreciates the dynamics of the overall human knowledge and scientific enterprise as to the aestheticisation–and–aestheticisation-towards-ontology underlying the overall ontological-contiguity—of-the-human-institutionalisation-process, so-reflected from such science-ideology poor appreciation of the implications of the historiality/ontological-eventfulness/ontological-

aesthetic-tracing rendering the scientific adventure as of a living existential-contextualising-contiguity exercise. Such that by this token science-ideology conception of science the requisite dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension as to human limited-mentation-capacity-deepening-⟨~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ implications in fully appreciating human underlying aestheticisation scheming in conceptualising existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation behind the ultimate development of human knowledge and science is lost to a flatminded interpretation of human progress based on the mere elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity conception of methods/methodologies/approaches as to mere reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation with a poor appreciation for the prospective originariness-parrhesia,–as–spontaneity-of-aestheticisation acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation behind the invention and validation of any such methods/methodologies/approaches. Further science-ideology as to its dimensionality-of-desublimating-lack-of—~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation equally fails to appreciate how prior human aestheticisation scheming including human superstitions, belief systems and religions were a necessary pathway to the present even as modern science demonstrates their limits (given that we are an animal of limited-mentation-capacity reflected as to our human-subpotency ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-

the prospective creation/invention of sublimating methods/methodologies/approaches as secondnatured reproducibility—mathesis/motif/throwness-disposition,–as–reproducibility-of-aestheticisation in the face of prospective aporeticism-overcoming/unovercoming as to human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint, with budding-positivists inventing/creating the positivism/rational-empiricism sublimating methods/methodologies/approaches superseding medieval-scholasticism desublimating methods/methodologies/approaches and likewise Socratic philosophers universalising-idealisation inventing/creating universalising-idealisation sublimating methods/methodologies/approaches superseding non-universalising sophists desublimating methods/methodologies/approaches), as otherwise we'll merely sanctify as absolute our present positivism–procrypticism level of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulneess-and-teleology and its corresponding methods/methodologies/approaches associated with its living-development–as-to-personality-development and institutional-development–as-to-social-function-development as to wrongly imply ours is the human generation that don't face any prospective aporeticism-overcoming/unovercoming. Along the same line of intellectual appreciation of prospective sublimation implications as to the fact that nascent-particular/incipient-and-material/technical-sublimations-<blinded-to-their-relative-ontological-completeness–reference-of-thought-devolving> 'critically points to an overall nascent knowledge-reification gesturing directly or indirectly prescient of a comprehensive sublimating meaningfulness-and-teleology conception of the given prospective relative-ontological-completeness registry-worldview/dimension'; the possibility for ontology/science is effectively 'an ontological-contiguity projection as to an all-englobing/all-encompassing construction' (notwithstanding the epistemic limitation inherent to human limited-mentation-capacity) that captures relative-

ontological-completeness induced sublimation as reflected in any subject-matter (as to its phenomenal/manifest~subpotency-<in-transitive-conflatedness–reflexivity,-in-the-full-potency-of-existence>) and so as to the subject-matter underlying existential-discursivity—implicited-sublimation-over-desublimation as to 'ontological-good-faith/authenticity–structure existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>' (and so as effectively reflected by the overall reference-of-thought and reference-of-thought-devolving/subject-matter 'relative-ontological-completeness—apriorising/axiomatising/referencing–psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation-⟨as-to-underlying-ontological-commitment⟩'). In this regards, we can appreciate that going by the positivism/rational-empiricism relative-ontological-completeness registry-worldview/dimension, the natural sciences do not allow for any other external interpretations of their phenomenal/manifest~subpotency-<in-transitive-conflatedness–reflexivity,-in-the-full-potency-of-existence> (but for issues of epistemic limitation inherent to human limited-mentation-capacity). In this regards, there can't be any instance/circumstance to which the mathematician will construe of 1+1 as being equal to 4 as to totalisingly-disentailing—discretion/whim-of-thought; as to the fact that inherent ontological-veracity precedes-and-supersedes 'mere-methodologising/mutualising/organising/institutionalising human-subpotency existentialising—enframing'. The implication here that in the bigger scheme of things, the 'apriorising decisions advancing mere-methodologising/mutualising/organising/institutionalising human-subpotency existentialising—enframing' over inherent ontological-veracity as manifested in many a social domain (while equally relevant in the natural sciences especially when 'mere-methodologising/mutualising/organising/institutionalising human-subpotency existentialising—enframing' increasingly undermine the organisation behind the natural

conduct of the natural sciences) go on to undermine their pretenses to a status of profound ontological-veracity as reflected of an ontology/science as to aestheticisation-towards-ontology. In this regard, relic/artifactual conception of veridical human historiality/ontological-eventfulness/ontological-aesthetic-tracing rather speaks to deficient knowledge-reification gesturing caught up in presencing—absolutising-identitive-constitutedness as of beholdening-becoming—distortive-originariness/distortive-origination–as-to-historicity-tracing~inhibited-mental-aestheticising. Likewise, deliberate intellectual decisions emphasising institutional self-preservation and rendering veridical knowledge elucidation secondary to such institutional self-preservation decisions, in many ways wrest away from such supposed intellectual institutions their status as veridically knowledge producing as these increasingly become political as to their emphasising of a political motive ready to forego veridical knowledge-reification for its institutional self-preservation; with the consequence of increasing sycophantic-sophistry and social intellectual-function indifference or betrayal to dominance/vested-interest actors. This issue of institutional self-preservation is in many ways at the very root of the non-intellectual, media-driven and dishonest criticisms levied against postmodern-thought as to the latter obvious conclusive emancipatory implications; so-reflected in a practice of 'clouded thought' that has no true intellectual elucidation purpose but rather an extension of the political over veridical knowledge-reification (such that arguments about the accommodation of different intellectual practices tend to be articulated wrongly as to imply that 'the true ontological-veracity as to sublimation-over-desublimation of intellectual practices' are irrelevant and secondary to the mere purpose of institutional accommodation of different intellectual practices). It is herein contended that just as the prior successive registry-worldviews/dimensions required their specific 'relative-ontological-completeness—apriorising/axiomatising/referencing–psychologism enculturated/constructed social-pragmatics-framing-of—predicative-

effectivity–sublimation-⟨as-to-underlying-ontological-commitment⟩' to usher in the possibility of their very own secondnatured institutionalisation unclouded knowledge-reification gesturing, the ultimate possibility for our positivism–procrypticism overcoming its intellectual-muddlement-⟨blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩ lies with the prospective 'deprocrypticism—apriorising/axiomatising/referencing–psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation-⟨as-to-underlying-ontological-commitment⟩' imbued foregrounding—entailment-⟨narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting 'immanent-ontological-contiguity'⟩,–as-operative-notional~deprocrypticism (enabling the true and profound attainment of ontological-contiguity in the social domain beyond the present practices of disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-'immanent-ontological-contiguity'>). The manifest historical veracity of human sublimation as underlined by the 'directly relevant trace of prospective human effectively-purist-sublimation-<reflecting-prospective-historiality/ontological-eventfulness/ontological-aesthetic-tracing> as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation' (and as rather 'beholdening wrongly upon the overall relative-ontological-incompleteness–presublimation-construct–of-meaningfulness-and-teleology') is the more accurate conception in reflecting the overall ontological-contiguity—of-the-human-institutionalisation-process, and so as to: 'fatedness-of-sublimation-over-desublimation, to existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness (in reflecting the ontological-contiguity—of-the-human-institutionalisation-process), of human-subpotency ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-

Critically thus the veracity of human sublimation is rather as to the originariness/origination-<so-construed-as-to-ontological-normalcy/postconvergence-perspective-scalarising-construal-of-existence> perspective of deprocrypticism as effectively reflecting existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation, and so as to the fact that

the deprocrypticism given 'directly relevant trace of prospective human effectively-purist-sublimation-<reflecting-prospective-historiality/ontological-eventfulness/ontological-aesthetic-tracing> as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation' is not 'beholdening wrongly upon the overall relative-ontological-incompleteness–presublimation-construct–of-meaningfulness-and-teleology'. This projected deprocrypticism ontological-normalcy/postconvergence perspective points out that human sublimation in existence actually reflects the overall ontological-contiguity as of the successive registry-worldviews/dimensions 'reference-of-thought–and–reference-of-thought-devolving–meaningfulness-and-teleology comprehensiveness of prospective sublimating–nascence (as to their instigating relative-ontological-completeness—apriorising/axiomatising/referencing–psychologism)' manifested as of the notional~symmetrisation-<as-to-symmetrisation-by-desymmetrisation-in-reflecting-postconverging-or-dialectical-thinking–by–preconverging-or-dementing-perspectives-of-human-meaningfulness-and-teleology> of the overall ontological-contiguity—of-the-human-institutionalisation-process. This further highlights that the prospectively defining possibilities for unleaching further human sublimation (and so over 'beholdening wrongly upon the overall relative-ontological-incompleteness–presublimation-construct–of-meaningfulness-and-teleology') will stall without the appropriate reconciling of the overall relative-ontological-incompleteness–presublimation-construct–of-meaningfulness-and-teleology to the prospective comprehensive sublimating meaningfulness-and-teleology implications of the instigated relative-ontological-completeness effectively-purist-sublimation-<reflecting-prospective-historiality/ontological-eventfulness/ontological-aesthetic-tracing>, and so as to 'reference-of-thought–and–reference-of-thought-devolving–meaningfulness-and-teleology comprehensiveness of prospective sublimating–nascence (as to the instigating relative-ontological-completeness—apriorising/axiomatising/referencing–

This comprehensive elucidation highlights that human sublimation is not inherently haphazard as the wrong perception of haphazardness arises as from the varying presencing—absolutising-identitive-constitutedness epistemic-projection perspectives whereas from a comprehensive notional~deprocrypticism epistemic-projection perspective in ontological-normalcy/postconvergence human sublimation is rather wrongly apparently haphazard because of human limited-mentation-capacity epistemic-projection perspectives of apprehension of prospective sublimation with 'the ontological-veracity of notional~deprocrypticism epistemic-projection perspective associated with comprehensive

Such an ultimate construal of human self-surpassing as to the notional~deprocrypticism epistemic-projection perspective in ontological-normalcy/postconvergence effectively grapples with the requisite '<~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating relative-ontological-completeness implications as of reference-of-thought–and–reference-of-thought-devolving–meaningfulness-and-teleology comprehensiveness of prospective sublimating–nascence' as so-elicited by nascent-particular/incipient-and-material/technical-sublimations-<blinded-to-their-relative-ontological-completeness–reference-of-thought-devolving>. However, as to a constructive knowledge-reification gesturing with respect to the haunting fact of human <amplituding/formative>epistemic-totalising~thrownness-in-existence as to any such presencing—absolutising-identitive-constitutedness existentialising—enframing speaking to such a <amplituding/formative>epistemic-totalising~thrownness-in-existence, such a deprocrypticism institutionalisation 'unenframed/unbeholdening/bechancing–supererogation parameterisation/reparameterisation-⟨reflecting-a-supererogatory-decisionality-of-socioinstitutional-conceptions-as-to-'their-nascent-sublimations-dynamic-preempting-of-presublimatory-decisionality–numbing-traction-desublimation'⟩-as-so-operationalising-'scalarisation-as-to-rescalarisation-as–re-ontologisation' for prospective aestheticisation–and–aestheticisation-towards-ontology/meaningfulness-and-teleology is more immediately-and-constructively bound to 'appraise the conception of sovereign equanimity/balance driving human agency imbued sublimation as to <amplituding/formative>epistemic-totalising/circumscribing/delineating relative-ontological-completeness implications'. This double epistemic orientation to a deprocrypticism institutionalisation 'unenframed/unbeholdening/bechancing–supererogation parameterisation/reparameterisation-⟨reflecting-a-supererogatory-decisionality-of-socioinstitutional-conceptions-as-to-'their-

In this regards as to a decisively globalising world we can't conceive that ours will be the human generation bereft of 'profound diffusionary/non-diffusionary aestheticisation prospective insight as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation' given the increasingly relic/artifactual nature of traditional cultures in our modern age as to the potent lack of prospective creative aestheticisation off-the-beaten-path of an increasing convergence deadening of the possibility prospective reappraisals of human meaningfulness-and-teleology (as so-construed as of the dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation), as to the fact that overall human beholdening inclination (as to any defining overall relative-ontological-incompleteness–presublimation-construct–of-meaningfulness-and-teleology concerned mostly with human living-development–as-to-personality-development and institutional-development–as-to-social-function-development in the priorly achieved Being-

development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulneess-and-teleology) rather tends to reconverge to shallow ~~amplituding~~/formative>epistemic-totalising~thrownness-in-existence concreteness/concretism/existentialising—enframing—of-human-ontological-performance-<including-virtue-as-ontology> as reflected by the successive registry-worldviews/dimensions presencing—absolutising-identitive-constitutedness existentialising—enframing (when it comes to human overall 'aestheticisation as reflecting the extensive manifest outcomes/outfits/shells—construed-historially-as-of-the-specifically-aestheticised-incrusting/plating/coating,-so-reflected-as-institutional-manifestations of human meaningfulness-and-teleology'); thus as not necessarily speaking of the absolute possibility of human consciousness projection in want for its recurrent parameterisation/reparameterisation-⟨reflecting-a-supererogatory-decisionality-of-socioinstitutional-conceptions-as-to-'their-nascent-sublimations-dynamic-preempting-of-presublimatory-decisionality–numbing-traction-desublimation'⟩-as-so-operationalising-'scalarisation-as-to-rescalarisation-as–re-ontologisation' in optimising human ontological-performance-<including-virtue-as-ontology> (and our positivism–procrypticism registry-worldview/dimension cannot be overlooked in this regards notwithstanding the fact that it is at the backend of the institutional-cumulation/institutional-recomposure). But then just like with all prior registry-worldviews/dimensions, our positivism–procrypticism presencing—absolutising-identitive-constitutedness existentialising—enframing effectively projects a hurdle to any such structural/paradigmatic deprocrypticism conception of re-ontologisation as to its inherent ~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag poorly amenable to profound alternative institutional aestheticising contemplation 'given its calamitous conception and relation to the possibility for prospective re-ontologisation from its subontologisation' such that any such

profound alternative institutional aestheticising contemplation are traditionally bound to arise as disruptive institutional transformations whether or not involving power-showdown as associated with sudden/revolutionary transformations with 'their drawback of having to think on their feet inducing deficient ontological-performance-<including-virtue-as-ontology> as well as generalised social apprehension which is then enigmatically held against them' (however the merits of their underlying case) very much unlike 'the latitude for articulating conceptualisations available for presencing—absolutising-identitive-constitutedness existentialising—enframing' (however their structural/paradigmatic flaws). Today manifestations (in the political domain) of protest votes for instance, more than just a question of poor political leadership actually has to do in many ways with 'an alienating politico-institutional entrapment/frame-up of sovereign choice' within the supposed democratic process that 'forestalls-and-narrows as of strategic rules and processes' the effective political fulfilment of individual and social sovereign choices inducing anti-sovereign consequences as to defaulting policy consequences to dominance/vested-interest actors without truly being institutionally subject to competing profound alternative institutional aestheticising contemplation given their institutional ascendence. Such a beholdening presencing—absolutising-identitive-constitutedness existentialising—enframing skews the fundamental ontology question by its inherent <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag gatekeeping stifling of the possibility for inquiring on the ontological-veracity of its practice as to a reflex for advancing the quietude of social-vestedness/normativity. This latter issue is the ultimate challenge to prospective deprocrypticism institutionalisation 'unenframed/unbeholdening/bechancing–supererogation parameterisation/reparameterisation-⟨reflecting-a-supererogatory-decisionality-of-socioinstitutional-conceptions-as-to-'their-nascent-sublimations-dynamic-preempting-of-presublimatory-decisionality–numbing-

traction-desublimation')-as-so-operationalising-'scalarisation-as-to-rescalarisation-as–re-ontologisation' for prospective aestheticisation–and–aestheticisation-towards-ontology/meaningfulness-and-teleology; as of the paradox that a social-setup as to its <amplituding/formative>epistemic-totalising~thrownness-in-existence is so pragmatically self-focussed that its aestheticisation and hence aestheticisation-towards-ontolgy dynamic-potential as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation is narrowed/limited/constricted however its level of development (explaining the decisiveness/criticality of cultural diffusion imbued originariness-parrhesia,–as–spontaneity-of-aestheticisation in re-ontologisation accompanying human institutional-cumulation/institutional-recomposure as can be appreciated throughout human history). This is explained by the fact that the human can relatively easily appreciate the ontological-pertinence of new practices arising as from outside cultural diffusion but it is very much difficult to reconstrue of such practices as from the taxingness-of-originariness involved in surpassing an internalised <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag' posture; and this very much explains the double epistemic orientation to deprocrypticism institutionalisation 'unenframed/unbeholdening/bechancing–supererogation parameterisation/reparameterisation-⟨reflecting-a-supererogatory-decisionality-of-socioinstitutional-conceptions-as-to-'their-nascent-sublimations-dynamic-preempting-of-presublimatory-decisionality–numbing-traction-desublimation')-as-so-operationalising-'scalarisation-as-to-rescalarisation-as–re-ontologisation' for prospective aestheticisation–and–aestheticisation-towards-ontology/meaningfulness-and-teleology as highlighted above (as to the need to feed our <amplituding/formative>epistemic-totalising~thrownness-in-existence decisively globalising world with aestheticising re-originariness/re-origination to uphold the capacity for pure-ontology as to re-ontologisation). In this regards, all such ontologisation/re-ontologisation

postmodern-thought as herein projected with deprocrypticism conceptualisation whereas the skirting/peripheral initiation within such respective presencing—absolutising-identitive-constitutedness existentialising—enframing as of the former effectively speaks to their 'fundamental structural/paradigmatic falsehood' for the possibility for the social intellectual-function prospective aporeticism-overcoming/unovercoming-overcoming sublimation involving 'their seeding-misprising ontological-bad-faith/inauthenticity–structure that covertly and/or overtly project respectively that afterall all the world that exists is-of-non-universalising-sophistry or is-of-non-positivising-scholasticism or is-of-disjointed-intellectual-muddling in contempt of relative-ontological-completeness implications' and this 'seeding-misprising ontological-bad-faith/inauthenticity–structure' has to be factored into the prospective articulation of deprocrypticism,-as-to-the-ultimate-fulfilment-of-notional~deprocrypticism as to the fact that the complete possibility for ontology/science implies 'accounting for everything potent' including at the more fundamental level human ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality as to its implied ontological-good-faith/authenticity–structure and ontological-bad-faith/inauthenticity–structure that are respectively instigative or forestalling of the possibility for prospective human aporeticism-overcoming/unovercoming sublimation). This is further reflected in 'the very postconverging-as-to-ontological-normalcy over preconverging-as-to-epistemic-abnormalcy conception of human transcendence-and-sublimity' with regards to the fact that the state of recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism and positivism–procrypticism respectively aren't of the 'existential and contemplative internal adequation' for prospective base-institutionalisation, universalisation, positivism and deprocrypticism, as to the 'increasing crumbling of the former social intellectual-function' into subterfuge of false-scepticism (as to

the fact that veridical scepticism is of constructive knowledge commitment effectively exposing itself to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation and so rather than idly critical and unaccountable totalisingly-disentailing—discretion/whim-of-thought), pedantry and ~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ narratives increasingly ignoring-and-failing to engage with inherent veridical knowledge-reification. In this respect the possibility of human prospective reasoning-through/messianic-reasoning that goes on to induce prospective reasoning-from-results/afterthought as secondnatured-institutionalisation is ever always accompanied/framed by its 'instigative–askesis-or-acumen structuring/paradigming the possibility for prospective sublimating and reifying socio-institutional conceptions/constructs/models as to prospective aporeticism-overcoming/unovercoming-overcoming for human social emancipative reinvigoration/disruption' as to the resultantly developed deferential-formalisation-transference socio-institutional model/construct (reflected historically as of a sacral, monasterial, pastoral, hippocratic, etc. aestheticisation–and–aestheticisation-towards-ontology and inconsistently echoed in modern day deonto-professional institutional practices)'; and so by the mere token of the structural/paradigmatic relative ontological-deficiency of the generalised social-construct ~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ as to its beholdening to living-development–as-to-personality-development and institutional-development–as-to-social-function-development so-derived rather as from the prior Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-

Thus in many ways 'instigative–askesis-or-acumen structuring/paradigming the possibility for prospective sublimating and reifying socio-institutional conceptions/constructs/models as to prospective aporeticism-overcoming/unovercoming-overcoming for human social emancipative reinvigoration/disruption' is associated with nascent-particular/incipient-and-material/technical-sublimations-<blinded-to-their-relative-ontological-completeness–reference-of-thought-devolving> as to prospective originariness-parrhesia,–as–spontaneity-of-aestheticisation acuity/perspicacity/astuteness/edginess/incisiveness imbued dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation.

However, the ontological-veracity of human temporal-to-intemporal ontological-performance-<including-virtue-as-ontology> as at uninstitutionalised-threshold (so-underlined by human limited-mentation-capacity) speaks to the fact that even the 'instigative–askesis-or-acumen structuring/paradigming the possibility for prospective sublimating and reifying socio-institutional conceptions/constructs/models as to prospective aporeticism-overcoming/unovercoming-overcoming for human social emancipative reinvigoration/disruption' is bound to manifest its socio-institutional conceptions/constructs/models very prospective aporeticism-overcoming/unovercoming, as so-manifested as of incipient/incidental overall relative-ontological-incompleteness–presublimation-construct–of-meaningfulness-and-teleology usurping of nascent-particular/incipient-and-material/technical-sublimations-<blinded-to-their-relative-ontological-completeness–reference-of-thought-devolving>; as the nascent-particular/incipient-and-material/technical-sublimations-<blinded-to-their-relative-ontological-completeness–reference-of-thought-devolving> given 'conceptualisation incompleteness as to ontological-contiguity' elicits the manifestation of such overall relative-

Along the same lines, it is interesting to note how Plato's Socrates and Plato as to their universalising-idealisation instigation were in many ways rather beholdening to a pre-universalising Delphian spirituality conception (as so-

This is necessary for fundamental ontology speaking of notional~deprocrypticism enabled fundamental ontology-driven 'postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics' for inducing prospective human historiality/ontological-eventfulness/ontological-aesthetic-tracing. Basically, notional~asceticism is ever always associated with the successive relative-ontological-completeness registry-worldviews/dimensions possibility for prospective transcendence-and-sublimity to arise (as to the notional~asceticism instigating originariness-parrhesia,–as–spontaneity-of-aestheticisation acuity/perspicacity/astuteness/edginess/incisiveness projection of prospective methods/methodologies/approaches as from prospective sublimation induced methodologising/mutualising/organising/institutionalising), and so because all the 'existential and contemplative internal adequation' available for any given relative-ontological-incompleteness registry-worldview/dimension is as of its inherent

apriorising/axiomatising/referencing–psychologism imbued logical-basis/logic-<as-to—transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing> that is not structured/paradigmed to recognise the prospective sublimating relative-ontological-completeness registry-worldview/dimension apriorising/axiomatising/referencing–psychologism imbued logical-basis/logic-<as-to—transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing> (with only the cross-generational positive-opportunism arising from the relative-ontological-completeness comprehensively induced sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation that then elicits the universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<a̶m̶p̶l̶i̶t̶u̶d̶i̶n̶g̶/formative>epistemic-totalising–in-relative-ontological-completeness⟩, untenability and affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-validating-measuring-<postconverging-or-dialectical-thinking–apriorising-psychologism> of the relative-ontological-completeness apriorising/axiomatising/referencing–psychologism imbued logical-basis/logic-<as-to—transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing>). But then with such notional~asceticism associated with deprocrypticism factoring in that the projective-insights 'out of thin air' (as of reasoning-through/messianic-reasoning) that go on to contemplate of prospective relative-ontological-completeness sublimation is potentially a universal human capacity as of discretionary human disposition (as to when relative-ontological-completeness avails) for opting for sublimating ontological-good-faith/authenticity–structure or opting for desublimating ontological-bad-faith/inauthenticity–structure, and that (as speaking to human-subpotency ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality) 'this most

This very notional~asceticism insight (speaking of dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation) about the notional~deprocrypticism reflected in the overall ontological-contiguity—of-the-human-institutionalisation-process explains why the universalising-idealisation of the Socratic philosophers is not a 'disengaged articulation but subverts' non-universalising sophistry, why budding-positivism is not a 'disengaged articulation but subverts' non-positivising medieval-scholasticism and prospectively why postmodern-thought and herein deprocrypticism is not a 'disengaged articulation but subverts' present-day disjointing/disparateness/disentailing intellectual-muddlement-⟨blurring/undermining-of-prospective-totalising-entailing,-as-to-

of thought; and so further reflected as to the fact that base-institutionalisation, universalisation, positivism and prospectively deprocrypticism (as of their respective prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology) are respectively subversions of the aporeticisms of recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism and positivism–procrypticism. The veracity of human knowledge as ever always a 'non-disengaging epistemic articulation as to the totalising oneness of existence manifest sublimations' lies with the very immanent–ontological-contiguity of existence that epistemically speaks to the 'coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness' as so divulging/disclosing existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation; such that human knowledge-reification is effectively in reality about addressing and superseding human aporeticisms (human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor) as surpassing epistemic-constructs of sublimation-over-desublimation so-implied with the dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation (as to living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology). The implication here is that human 'epistemic-constructs of sublimation-over-desublimation' are

not-and-never optional/discretionary representations about existence (but for when 'deliberately of mere aestheticisation as mere motif implications' with no relative reference to any ontological-contiguity conception of relative-ontological-completeness as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) with regards to human epistemic aestheticisation–and–aestheticisation-towards-ontology of immanent existence; reflected in the fact that all such epistemic-constructs as knowledge-reification (as referencing any ontological-contiguity conception of relative-ontological-completeness as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) speak to an underlying human ontological-commitment as to the possibility for prospective sublimation-over-desublimation (so-implied with the self-assuredness-of-authenticity with respect to social-stake-contention-or-confliction underlying human ontological-commitment). In this regards, we can appreciate that the successive human registry-worldviews/dimensions speak to successive human aporeticisms of prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<amplituding/formative>epistemic-totalising~purview-of-construal', with the implication that human epistemic limits arising due to human limited-mentation-capacity at the uninstitutionalised-thresholds respectively of recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism, and positivism–procrypticism as to their presencing—absolutising-identitive-constitutedness existentialising—enframing, do not speak of limits to prospective human knowledge-reification (as epistemic-constructs referencing prospective ontological-contiguity conception of relative-ontological-completeness as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) respectively as of base-institutionalisation, universalisation, positivism and prospectively deprocrypticism.
