The

psychologistic and apriorising implications here is that with regards to say a God of plane proposition in an animistic social-setup, an engagement striving to elucidate the notion of plane involving any existential-instantiation aposteriorising/logicising/deriving/intelligising/measuring in terms of the animistic social-setup non-positivistic apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation, is structurally/paradigmatically already validating the animistic social-setup non-positivistic apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation as paradoxically valid for all instances of aposteriorising/logicising/deriving/intelligising/measuring warranting positivistic apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation (thus inducing the animistic social-setup incrementalism-in-relative-ontological-incompleteness and its non-positivistic complexification); as to the fact that it is a positivistic apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation adopting rather a relation of 'non-aposteriorising/non-logicising/non-deriving/non-intelligising/non-measuring as from the non-positivistic apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation of such an animistic social-setup God of plane non-positivistic proposition' that enables the possibility for maximalising-recomposuring-for-relative-ontological-completeness as bringing to the consciousness-awareness-teleology of the animistic social-setup that the notion of plane implies an altogether superseding positivistic apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation induced psychologism of reference-of-thought (over their non-positivistic apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–

Furthermore, it is such ontologically-deficient incrementalism-in-relative-ontological-incompleteness (as to its cognisant-and-integrative blending/incorporating of prospective 'nascent-particular/incipient-and-material/technical-sublimations-<blinded-to-their-relative-ontological-completeness–reference-of-thought-devolving> as if of relative-ontological-incompleteness presublimating reference-of-thought/grandest-axiomatic-construct—as-to-referencing/registering/decisioning in circularly beholdening meaningfulness-and-teleology to human-subpotency') that is behind the development of all the successive registry-worldviews/dimensions given <~~amplituding~~/formative⟩wooden-language-⟨imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology⟩ so-construed as being of preconverging-or-dementing–apriorising-psychologism epistemic-abnormalcy/preconvergence (as so-reflected from the undermined maximalising-recomposuring-for-relative-ontological-completeness postconverging-or-dialectical-thinking–apriorising-psychologism conception in ontological-normalcy/postconvergence epistemic-projection perspective). As of practical existential implications maximalising-recomposuring-for-relative-ontological-completeness means that the positivistic <~~amplituding~~/formative⟩disposedness-⟨as-to-orientation/value-construct/valuation–and–derived-parameterising⟩ cannot be responsive to the social-stake-contention-or-confliction projected as of such a non-positivistic meaningfulness-and-teleology, as to a fundamental positivistic disavowal of its non-positivistic <~~amplituding~~/formative⟩disposedness-⟨as-to-orientation/value-construct/valuation–and–derived-parameterising⟩ as non-aposteriorising/non-logicising/non-deriving/non-intelligising/non-measuring (as from the

holding-forth of its non-positivistic aipriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for– conceptualisation). By extension, maximalising-recomposuring-for-relative-ontological-completeness psychologistic and apriorising implications (so-construed as from the technical ontological-veracity of originariness/origination-<so-construed-as-to-ontological-normalcy/postconvergence-perspective-scalarising-construal-of-existence> perspective of notional~deprocrypticism), speaks to the fact that the psychoanalytic-unshackling/memetic-reordering/institutional-recomposure of the respective registry-worldviews/dimensions in relative-ontological-completeness (base-institutionalisation, universalisation, positivism and deprocrypticismrespectively) are projected in disavowal of their respective prior registry-worldviews/dimensions in relative-ontological-incompleteness (recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism respectively) destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>—of-ontological-performance-<including-virtue-as-ontology> of ontological-performance-<including-virtue-as-ontology> as reflected by their <~~amplituding~~/formative>disposedness-⟨as-to-orientation/value-construct/valuation–and–derived-parameterising⟩, implying the latter are effectively non-aposteriorising/non-logicising/non-deriving/non-intelligising/non-measuring (as from the holding-forth of their respective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation). Thus, as to their respective presencing—absolutising-identitive-constitutedness <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, all relative-ontological-incompleteness registry-worldviews/dimensions as of their preconverging-or-dementing–apriorising-psychologism pretend to articulate what can prospectively be possible and impossible (in such a way that 'conveniently' imply that theirs is the registry-worldview/dimension that

In a further elucidation, the 'redounding/wavering/waveforming—of-the-referencing-and-the-devolved-referencing-imbued-ontological-performance-<including-virtue-as-ontology> as to presublimation and nascent-sublimations overlapping-contiguity-of-referencing-and-devolved-referencing' associated with human temporal inclination to historicity-tracing—presencing-imbued-hyperrealisation/hyperreal-transposition has to do fundamentally with the very nature of human sublimation (notwithstanding its constraint by human limited-mentation-capacity). This spontaneous human incipient/seeding sublimation-construct (underlined as of human-decisionality-<as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation> and effectively-manifest-sublimation/sublime) is incipiently/seedingly reflected in human aestheticisation and aestheticisation-towards-ontology (as to artistic, the philosophical and the scientific/ontological orientations of human meaningfulness-and-teleology) and as human aestheticisation–and–aestheticisation-towards-ontology translates into defining human living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulneess-and-teleology. This speaks to the fact that 'this spontaneous human incipient/seeding sublimation-construct underlined by human-decisionality-<as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation> and effectively-manifest-sublimation/sublime' is the very basis for human limited-mentation-capacity-deepening-(<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) (as to 'human living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulneess-and-teleology'), involving 'aestheticisation–and–

Human-decisionality-<as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation> as both incipiently/seedingly and comprehensively so-elucidated (as of human formativeness-<as-to-intersolipsism-of-premeaningfulness/preframing-imbued-mediativity-and-deferentialism>-of-meaningfulness-and-teleology) is 'effectively reflected subsumptively in human operative consciousness-by-subconsciousness directedness in existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation as eliciting effectively-manifest-sublimation/sublime in

But then this equally points out that human-decisionality-<as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation> is not inherently sublimation even as 'human-decisionality-<as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation> is as of a seemingly inseparable amalgamation with effectively-manifest-sublimation/sublime' as to the fact that effectively-manifest-sublimation/sublime is as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation as rather unbeholdening to human-subpotency imbued human-decisionality-<as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation> (even as when human-decisionality-<as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation> in its sublimation-construct induces a convergence to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation for effectively-manifest-sublimation/sublime with regards to such appropriately induced human-decisionality-<as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation>). However such 'human-decisionality-<as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation> omni-potential commensurability with inherent immanent-existence's sublimation-structure'/omni-potentiality is effectively more fundamentally undermined by the 'taxingness-of-originariness (what has gone before aesthetically structures/paradigms

It is this fundamental insight 'about the inherent absolutising referencing/registering/decisioning ontological-deficiency necessarily arising from human limited-mentation-capacity' (requiring 'projective-insights'/'epistemic-projection-in-conflatedness' as to human limited-mentation-capacity-deepening-⟨<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩) that underlies the notion of human ontological-dementation/dialectical-dementation–stranding/attributive-dialectics as factoring in the implications of human limited-mentation-capacity (by a 'psychological-disposition for supererogatory–unbeholdening-conflatedness historiality/ontological-eventfulness/ontological-aesthetic-tracing of sublimating intelligibility' as to 'relevantly/appropriately subjecting-and-resubjecting motif-as-to-aestheticisation-<imbued-arbitrariness/waywardness> to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation' and so rather than a 'psychological-disposition for relic/artifactual–beholdening-constitutedness historicity-tracing—presencing-imbued-hyperrealisation/hyperreal-transposition of presublimating intelligibility' failing such a 'relevant/appropriate subjecting-and-resubjecting of motif-as-to-aestheticisation-<imbued-arbitrariness/waywardness> to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation' as underscored by the 'effectively underlying human beholdening—inching,-apprehending,-and-taming–drive or aestheticising—surrealising/supererogating–drive of existentialising—framing/imprinting') for the requisite sublimating/emancipatory omni-potentiality converging towards 'inherent immanent-

Interestingly, this seedingly/incipiently fundamental paradox of 'prospective/nascent sublimating supererogatory–unbeholdening-conflatedness' and 'presublimating relic/artifactual–beholdening-constitutedness' as to its perpetuative encumberment of human intelligibility, correspondingly highlights the inherent disambiguation of human meaningfulness-and-teleology 'as of the seeding/incipient encumberment of its momentous-unbeholdening–aestheticising-reflex with its merely-beholdening–aestheticising-reflex' (so-perpetuative as to human living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulneess-and-teleology), as the more critical drawback to overarching reframing of 'human-decisionality-<as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation> omni-potential commensurability with inherent immanent-existence's sublimation-structure'/omni-potentiality. This insight can be translated by the fact that nascent-sublimations (nascent-particular/incipient-and-material/technical-sublimations-<blinded-to-their-relative-ontological-completeness–

reference-of-thought-devolving>) as to their effectively-manifest-sublimation/sublime rather speak to an underlying veracity about immanent-existence 'beyond and unbeholdening to any human merely-beholdening–aestheticising-reflex of meaningfulness-and-teleology', and so for instance in the sense that human tools, other technical/material capabilities like electricity, etc. are rather of 'structural/paradigmatic momentous-unbeholdening–aestheticising-reflex effectively-manifest-sublimation/sublime as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation' as to the inherent sublimating/emancipatory possibilities accruable to all humans and societies as to their underlying ontological-commitment of meaningfulness-and-teleology; so-reflecting the fact that overall human civilisation (notwithstanding any given societies/cultures of naïve presencing—absolutising-identitive-constitutedness as to presencing-distorted–meritocracy/totalising–sovereign-approportioning—of-human-ontological-performance-<including-virtue-as-ontology> 'merely-beholdening–aestheticising-reflex of meaningfulness-and-teleology') could only be possible by the cumulating/recomposuring of all such 'structural/paradigmatic momentous-unbeholdening–aestheticising-reflex effectively-manifest-sublimation/sublime as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation' manifested at various stages across all human societies/cultures and diffusible likewise across all human societies/cultures with the implications that such 'structural/paradigmatic momentous-unbeholdening–aestheticising-reflex effectively-manifest-sublimation/sublime as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation' more fundamentally speak to 'overall human momentous-unbeholdening–aestheticising-reflex effectively-manifest-sublimation/sublime attainment' (with such a truer ontological-veracity rather much more profound than the 'merely-beholdening–aestheticising-reflex of meaningfulness-and-teleology' of various societies/cultures and as of such ontologically-flawed representation across various human historial epochs). In this respect the ontological-

veracity of human institutional-cumulation/institutional-recomposure (as of the accruing effectively-manifest-sublimation/sublime from stone-age to bronze-age to iron-age involving the formation of agrarian societies and cities and subsequent development of universalising societies and today's positivising modern world) rather more aptly speaks of 'overall human momentous-unbeholdening–aestheticising-reflex effectively-manifest-sublimation/sublime attainment'; with the profound idea that the more momentous grasp of the notion of say the civilisations of Ancient Zimbabwe, Ancient Egypt, Ancient Greece, Ancient China, Ancient India or Ancient Aztec, etc. are rather as of a more profound point-of-departure as from a 'human psychological-disposition for supererogatory–unbeholdening-conflatedness historiality/ontological-eventfulness/ontological-aesthetic-tracing of sublimating intelligibility' divulging the underlying dynamism of human 'structural/paradigmatic momentous-unbeholdening–aestheticising-reflex effectively-manifest-sublimation/sublime as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation' (and so rather than a shallower point-of-departure as from a 'human psychological-disposition for relic/artifactual–beholdening-constitutedness historicity-tracing—presencing-imbued-hyperrealisation/hyperreal-transposition of presublimating intelligibility' of 'merely-beholdening–aestheticising-reflex of meaningfulness-and-teleology' caught up in complexes of 'naïve presencing—absolutising-identitive-constitutedness as to presencing-distorted–meritocracy/totalising–sovereign-approportioning—of-human-ontological-performance-<including-virtue-as-ontology>' that end up inducing poor/distorted human understanding of the human). The underlying point here is that just as human tools, other technical/material capabilities like electricity, etc. are rather of 'structural/paradigmatic momentous-unbeholdening–aestheticising-reflex effectively-manifest-sublimation/sublime as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation' as to the inherent sublimating/emancipatory possibilities accruable to all humans and societies as to

their underlying ontological-commitment of meaningfulness-and-teleology, a 'human psychological-disposition for supererogatory–unbeholdening-conflatedness historiality/ontological-eventfulness/ontological-aesthetic-tracing of sublimating intelligibility' implies that the othernesses of human civilisations/cultures/societies carry a more profound 'structural/paradigmatic momentous-unbeholdening–aestheticising-reflex effectively-manifest-sublimation/sublime as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation' as to the inherent sublimating/emancipatory possibilities accruable to all humans and societies. This overall insight is particularly salient in the sense that the 'human psychological-disposition for relic/artifactual–beholdening-constitutedness historicity-tracing—presencing-imbued-hyperrealisation/hyperreal-transposition of presublimating intelligibility' (so-perpetuative as to human living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulneess-and-teleology), is exactly what critically clouds prospective possibilities for 'human psychological-disposition for supererogatory–unbeholdening-conflatedness historiality/ontological-eventfulness/ontological-aesthetic-tracing of sublimating intelligibility'; so-construed as imponderable/inscrutable/unavoidable/inevitable/inescapable/unpreventable/unchangeable/insurmountable/unovercomable frameworks of structural/paradigmatic limits to abstract 'human-decisionality-<as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation> omni-potential commensurability with inherent immanent-existence's sublimation-structure'/omni-potentiality. This paradox is analysable as from the 'critical pure-ontology' elucidation of overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-<imbued-and-educed–human-subpotency–epistemic-perspective-of-aestheticising-motif-and-apriorising/axiomatising/referencing-

A deepening of this critical pure-ontology discernment as from the above elucidation of 'phenomenal/manifest~subpotencies-<in-transitive-conflatedness–reflexivity,-in-the-full-potency-of-existence>—in—<~~amplituding~~/formative>epistemic-totalising~thrownness-in-existence,-<of-'surrealistic-as-pseudoreal'–epistemic-abnormalcy> (including human-subpotency),

surrealisingly/supererogatorily discloses that existentialising–decisionality is structurally/paradigmatically of 'beholdening as sovereignising–imbued-subontologisation/subpotentiation' while sublimating–nascence is structurally/paradigmatically of 'unbeholdening ontologising-depth as to backdrop-of-inherent-immanent-existence's–sublimation-structure-<of-'unsurrealistic-as-real'–ontological-normalcy>' (such that perspectively 'to beholden-as-sovereignising is to underly/organise/decision existentialising subpotentiation' and so potently constrained as from perspective 'unbeholdening sublimating–nascence ontologising-depth of the full-potency of existence'); as to the fact that surrealisingly/supererogatorily existentialising–decisionality is of 'notional~presencing—absolutising-identitive-constitutedness structuring/paradigming—beholdening-as-to-effectuation' and so potently constrained as from sublimating–nascence 'notional~non-presencing-<as-to-perspective-ontological-normalcy/postconvergence> as to backdrop-of-inherent-immanent-existence's–sublimation-structure-<of-'unsurrealistic-as-real'–ontological-normalcy>' (with this overall conception underlying the conceptivity/epistemic-reflexivity-(in-<~~amplituding~~/formative>epistemic-totalising~'inlining–effusing'—<as-from-'transversalisation/tandemisation/abstractive-conjugation/perspectivation/depthing–for-interlay/organicalism,-as-imbued-dementative-amplituding-or-mental-aestheticising-attuning/amplituding'>) of both 'existentialising–decisionality and sublimating–nascence' as to induced sublimation/desublimation just as so-reflected 'between reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation and originariness-parrhesia,–as–spontaneity-of-aestheticisation', and as so-underscored abstractly by the notion that length is already caught up in the notion of width in the 'effusing–inlining sublimating <~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating manifestation of a rectangle'). In other words, existentialising–decisionality and sublimating–nascence

perspectively-reflect respectively 'notional~presencing—absolutising-identitive-constitutedness and notional~non-presencing-<as-to-perspective-ontological-normalcy/postconvergence> transversal continuum', as to 'thresholding conception of the relationship between perspective decisionality/human-decisionality-<as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation> and perspective sublimation/desublimation in existence'. Insightfully, such a perspective distinction between existentialising–decisionality and sublimating–nascence points out that there is 'epistemical-reflexive psychological reorientation of human relation with meaningfulness-and-teleology' as to the contrast between 'blurriness in existentialising–decisionality' and 'universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩ of sublimating–nascence'; wherein 'universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩ of sublimating–nascence' (as to nascent-particular/incipient-and-material/technical-sublimations-<blinded-to-their-relative-ontological-completeness–reference-of-thought-devolving>) is relatively bound to elicit individual and social positive-opportunism deferential-formalisation-transference of existentialising–decisionality while 'blurriness in existentialising–decisionality' is relatively bound to undermine individual and social deferential-formalisation-transference as to relative-ontological-incompleteness–presublimation-construct–of-meaningfulness-and-teleology desublimating existentialising–decisionality (thus undermining the requisite relative-ontological-completeness 'reference-of-thought–and–reference-of-thought-devolving–meaningfulness-and-teleology comprehensiveness of prospective sublimating–nascence' as of the sublimating–nascence teleological-inflection-⟨as-to-more-profound-nondisjointing–<~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating⟩). That is, the

individual and social existentialising–decisionality is more readily defined by default in 'beholdening as sovereignising–imbued-subontologisation/subpotentiation' and this is effectively the default individual and social existentialising–decisionality psychological-disposition as to upholding/defending sovereignty, but then given human limited-mentation-capacity the individual and social are then secondarily predisposed to deferential-formalisation-transference existentialising–decisionality psychological-disposition as to the positive-opportunism consequences of deferring to 'universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩ of sublimating–nascence' (in delegating sovereignty ultimately as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) with the lack of such 'universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩ of sublimating–nascence' as to when 'blurriness in existentialising–decisionality' arises inducing defaulting 'beholdening as sovereignising–imbued-subontologisation/subpotentiation' existentialising–decisionality psychological-disposition (as to relative-ontological-incompleteness–presublimation-construct–of-meaningfulness-and-teleology desublimating existentialising–decisionality). The implications of this dual existentialising–decisionality psychological-dispositions is critical particularly with regards to the social-and-institutional-frameworks-of—referencing/registering/decisioning of human meaningfulness-and-teleology of 'blurriness in existentialising–decisionality' as rather poorly amenable to profound 'unbeholdening sublimating–nascence ontologising-depth of the full-potency of existence' as it is relatively the case in the natural sciences (and so beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>); as to the fact that existence—as-the-absolute-a-priori-of-conceptualisation and existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation more readily makes

'desublimating nonsense' of human existentialising–decisionality meaningfulness-and-teleology failing 'genuine knowledge-reification framework involving an immediate potent detour to existence-potency-prospective-digression-of—‹amplituding/formative›epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness while the relative 'blurriness in existentialising–decisionality' of social-and-institutional-frameworks-of—referencing/registering/decisioning induce a relative orientation in the social towards presencing—absolutising-identitive-constitutedness social-vestedness/normativity existentialising–decisionality meaningfulness-and-teleology (so-enabled by poor direct/immediate potent constraining to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation). In this regards, many such social-and-institutional-frameworks-of—referencing/registering/decisioning can be construed as 'frameworks of relatively shallow-ontologisation/subontologisation' as to the existentialising–decisionality psychological-disposition of defaulting individual and social 'beholdening as sovereignising–imbued-subontologisation/subpotentiation' due to 'blurriness in existentialising–decisionality'. It is herein contended that the most fundamental issue with regards to human prospective comprehensive emancipation/sublimation (as promptly reflected with nascent-particular/incipient-and-material/technical-sublimations-‹blinded-to-their-relative-ontological-completeness–reference-of-thought-devolving› and requisite expansive relative-ontological-completeness 'reference-of-thought–and–reference-of-thought-devolving–meaningfulness-and-teleology comprehensiveness of prospective sublimating–nascence' with regards to sublimating–nascence teleological-inflection-⟨as-to-more-profound-nondisjointing–‹amplituding/formative›epistemic-totalising/circumscribing/delineating⟩) has to do with this 'human existentialising–decisionality dual psychological-dispositions continuum-gradient of sovereignising—by—ontologising-depth in inducing desublimation/sublimation' as to the fact that nascent-particular/incipient-and-

material/technical-sublimations-<blinded-to-their-relative-ontological-completeness–reference-of-thought-devolving> are often of 'restricted and directly transparent/potent existentialising–decisionality scope of sublimation for human deferential-formalisation-transference' while the social-and-institutional-frameworks-of—referencing/registering/decisioning (as to 'reference-of-thought–and–reference-of-thought-devolving–meaningfulness-and-teleology comprehensiveness of prospective sublimating–nascence') imply a depth of appreciation which initially leads to 'blurriness in existentialising–decisionality' as of relative-ontological-incompleteness–presublimation-construct–of-meaningfulness-and-teleology desublimating existentialising–decisionality. We can for instance appreciate this 'human existentialising–decisionality dual psychological-dispositions continuum-gradient of sovereignising—by—ontologising-depth in inducing desublimation/sublimation' say with regards to cultural-diffusion in a non-positivistic like animistic social-construct wherein positivistic technical and material nascent-sublimations can relatively be easily appreciated/grasped in a short timeframe by their immediate sublimating–nascence but the more profound notion of a positivistic registry-worldview/dimension (as to social-and-institutional-frameworks-of—referencing/registering/decisioning of positivistic meaningfulness-and-teleology) reflecting a positivising referencing/registry/decisioning is more problematically conceptualisable and mostly arises as of cross-generational appreciation/grasp (given the non-positivistic presencing—absolutising-identitive-constitutedness existentialising–decisionality psychological-disposition of defaulting individual and social 'beholdening as sovereignising–imbued-subontologisation/subpotentiation'); and this 'human existentialising–decisionality dual psychological-dispositions continuum-gradient of sovereignising—by—ontologising-depth in inducing desublimation/sublimation' applies in the succession of registry-worldviews/dimensions with regards to the possibility for their prospective

sublimation/emancipation. Along the same lines of disambiguating 'human existentialising–decisionality dual psychological-dispositions continuum-gradient of sovereignising—by—ontologising-depth in inducing desublimation/sublimation' just as 'a God of plane non-positivistic proposition' in an animistic social-setup implies priorly an 'altogether superseding positivistic apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation induced psychologism of reference-of-thought' (over their non-positivistic apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation psychologism of reference-of-thought) from whence aposteriorising/logicising/deriving/intelligising/measuring can then ensue in existential-instantiations of conceptualising, and so as to the positivistic meaningfulness-and-teleology 'more profound reflection of existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation with regards to sublimating–nascence teleological-inflection-⟨as-to-more-profound-nondisjointing–<~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating⟩', likewise prospectively with regards to nascent-particular/incipient-and-material/technical-sublimations-<blinded-to-their-relative-ontological-completeness–reference-of-thought-devolving> as underlying many a technical and natural sciences it is ever always the 'more profound reflection of existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation' in the sense that the technician and natural scientist are unconcerned with 'any social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising–decisionality imbuement' supposedly superseding existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation given that any such social and institutional pretense-of-sublimation cannot generate any inherent technical and scientific sublimating–nascence (wherein if such social-and-institutional-frameworks-of—referencing/registering/decisioning

pretense-of-sublimation warrants gravity on earth to be considered as 7 m/s^2 for instance for one reason or another but for existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation), rather the natural scientist and technician will view such social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising–decisionality pretense-of-sublimation as the very structural/paradigmatic undermining of the possibility of natural science and technical development as to sublimating–nascence beyond just the specific instance but as to a fundamentally underdeveloped social-and-institutional-frameworks-of—referencing/registering/decisioning desublimating existentialising–decisionality that must be overridden (so that similar intellectual decadent pretense-of-sublimation should not arise) for the prospective possibility for science and technical development sublimating–nascence to flourish; and likewise it is herein contended that absolutising social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising–decisionality pre-eminence as to imprimatur and the dynamics of imprimatur (with regards to 'blurriness in existentialising–decisionality' associated with social-and-institutional-frameworks-of—referencing/registering/decisioning) as 'precedingly defining the possibility of prospective knowledge over inherent knowledge' is itself the very structural/paradigmatic desublimating undermining of the possibility of veridical social and institutional prospective sublimation/emancipation as to sublimating–nascence, and in that respect no mortal (including the one mortal making this articulation herein) can pretend to a status bigger than existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation to then imply that genuine knowledge-reification cannot cross-it/has-to-bow-to-it (for one reason or another), and in that regards the more profound knowledge-reification as to the structural/paradigmatic upholding at all instances of the possibility for prospective genuine knowledge-reification inducing sublimation/emancipation as to sublimating–nascence is more than just the specific knowledge-reification gesturing for sublimation but

rather more critically overt articulation of the 'veridical structural/paradigmatic intellectual underdevelopment underlying any such a mortal claim' as to the fact that no human can claim that 2 + 2 is not equal to 4 because they are vexed for one reason or another (as it is that condition of our mortality that then provides the possibility for our self-surpassing in prospective construction-of-the-Self) so-reflected in the fact that the underlying existentialising—frame of knowledge is the very requisite condition for eliciting the true meaningfulness-and-teleology of any given specific knowledge-reification gesturing for sublimation (as for instance there is little point articulating any given positivistic existentialising–decisionality specific knowledge-reification gesturing for sublimating–nascence as to positivistic nascent-particular/incipient-and-material/technical-sublimations-<blinded-to-their-relative-ontological-completeness–reference-of-thought-devolving> where the underlying registry-woprldview/dimension existentialising—frame of knowledge is of non-positivistic desublimating existentialising–decisionality and is not addressed/dealt-with as the Galileos, Descartes, etc. understood with respect to non-positivising medieval-scholasticism desublimating existentialising–decisionality or the universalising-idealisation Socratic-philosophers sublimating existentialising–decisionality understood with respect to non-universalising ancient-sophists desublimating existentialising–decisionality and in both instances as of their prospective registry-worldviews/dimensions implied incipient/seeding <~~amplituding~~/formative>thrownness-in-existence,-imbued-arbitrariness/waywardness-⟨as-to-the-human–re-apriorising/re-axiomatising/re-referencing-process-of-'<~~amplituding~~/formative>epistemic-totalising~conceptualisation'⟩ as to sublimating–nascence epistemic-conflatedness as of projective/reprojective—apriorising/axiomatising/referencing, and it is contended as well that the conceptualisation herein is rather the more profound as to when its meaningfulness-and-teleology elucidates as to its deprocrypticism/preempting—disjointedness-as-of-reference-of-thought sublimating

existentialising–decisionality 'the desublimating existentialising–decisionality of such disjointing intellectual-muddlement-⟨blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩ underlying existentialising—frame of knowledge as to fundamental misanalysis' as so-reflected also with 'postmodern thinkers direct/indirect criticisms of presencing—absolutising-identitive-constitutedness' as the sublimating existentialising–decisionality predefining condition for their specific knowledge articulation to more profoundly be grasped/comprehended/realised), with human knowledge-construal being an altogether level playing field only driven as of the sublimating potential as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation (and in this regards theories and concepts cannot be articulated to imply that their subverting criticisms are rather personal/traditions attacks as is increasingly the case in todays institutional-being-and-craft intellectual-muddlement-⟨blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩ since the very first credo of the intellectual is for inherent knowledge above any given theories and concepts and traditions which are rather subordinate to the more profound purpose of the human knowledge-reification project as was so understood and propounded by such mid-twentieth century thinkers like Bertrand Russell, A.J. Ayer, Richard Rory, etc. even as their conceptions came under criticism because a genuine relation with knowledge is what can bring about appropriate prospective correction for sublimating knowledge when prospective inspiration avails notwithstanding the traditional approach to knowledge so long as it remains self-critical whereas a false social and institutional pre-eminence driven relation to knowledge shoves existential issues under the table not because there is no human intelligence to tackle true knowledge but because the possibility for more profound contemplation is a-priori placed out-of-sight since 'supposed knowledge-reification

as to its gesturing' is as of 'existentialising–decisionality that desublimatingly precedes knowledge-reification' rather than veridically 'knowledge-reification as of its very own deriving/manifest/ensuing/eventuating sublimating existentialising–decisionality' and as so-reflected when mere methodologising/mutualising/organising/institutionalising as of human-subpotency is construed as doing away with priorly requisite-and-relevant acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation with the off-the-shelf and made-to-measure projection of methods and statistics by itself considered as supposedly profound knowledge, and even then such an approach ends up losing out on vision while wrongly reinforcing knowledge as a self-serving punctual/expeditious institutional enterprise rather than of overall prospective human existential sublimation/emancipation). Overall the social-construct itself is reflexive of this 'human existentialising–decisionality dual psychological-dispositions continuum-gradient of sovereignising—by—ontologising-depth in inducing desublimation/sublimation' as of its very underlying social-and-institutional-frameworks-of—referencing/registering/decisioning as to social-stake-contention-or-confliction wherein the 'implicited sublimating existentialising–decisionality' underlying the 'non-immediacy prospective sublimating value and ontological-veracity disposition' associated with nascent-particular/incipient-and-material/technical-sublimations-<blinded-to-their-relative-ontological-completeness–reference-of-thought-devolving> (as reflected by the dedication/selflessness/disinterest/magnanimity underlying such existentialising–decisionality of sublimating–nascence as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation>) tend to be incoherently overlooked/ignored when it comes to 'immediacy supposed absolute sublimating value and ontological-veracity disposition' reconception of existentialising–decisionality as to social-and-institutional-frameworks-of—

referencing/registering/decisioning (with respect to such underlying nascent-particular/incipient-and-material/technical-sublimations-<blinded-to-their-relative-ontological-completeness–reference-of-thought-devolving>) poorly constrained to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation> and ending up defaulting as of relative-ontological-incompleteness–presublimation-construct–of-meaningfulness-and-teleology desublimating existentialising–decisionality (and so as to 'blurriness in existentialising–decisionality'). In many ways social undertones of meaningfulness-and-teleology reflected as of <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ imply that the requisite sublimating–nascence of social-and-institutional-frameworks-of—referencing/registering/decisioning tend to shallow-ontologisation/subontologisation especially where such frameworks are not thoroughly conceptualised, envisioned/imagined and purposed as to aetiologisation/ontological-escalation and so as to mediocre rationales of their very own presencing—absolutising-identitive-constitutedness <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag poorly projecting of prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulneess-and-teleology (and rather constrained to their present prospectively desublimating living-development–as-to-personality-development and institutional-development–as-to-social-function-development); and especially as so-prodded with social and intellectual pedantry dispositions which paradoxically as to their pretense-of-sublimation in defending such 'beholdening as sovereignising–imbued-subontologisation/subpotentiation' do not correspondingly contend that such lax/sloppy existentialising–decisionality should be the case with nascent-particular/incipient-and-

material/technical-sublimations-<blinded-to-their-relative-ontological-completeness–reference-of-thought-devolving> (speaking rather of self-serving social-vestedness/normativity 'institutionalised-wisdom-of-irresponsibility', as so-manifested across the successive registry-worldviews/dimensions, as to when institutional frameworks in their underlying ontologically-deficient underpinning–suprasocial-construct that poorly appreciate dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation are naively construed 'as inherently superseding prospective human Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulneess-and-teleology as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation>' and so 'by the mere presencing—absolutising-identitive-constitutedness existentialising–enframing mystic of institutional pre-eminence whether intellectual or administrative/governmental' as we can appreciate in such a case like Edward Snowden's with a human desublimating existentialising–decisionality of vague 'beholdening as sovereignising–imbued-subontologisation/subpotentiation' of such 'institutionalised-wisdom-of-irresponsibility' while paradoxically there is now an emerging social clamouring for increasing social and online privacy as a requisite for prospective human sublimation/emancipation as to the positive-opportunism sublimating existentialising–decisionality of 'unbeholdening sublimating–nascence ontologising-depth of the full-potency of existence'). Ultimately, such structuring/paradigming intellectual or administrative/governmental institutions desublimating existentialising–decisionality as to social-and-institutional-frameworks-of—referencing/registering/decisioning conception tend to align with their given presencing—absolutising-identitive-constitutedness existentialising–enframing (as poorly subjected to the social intellectual-function elucidation) in an expropriating/estranging/constraining/limiting exercise directly/indirectly enabling

'dominance/vested-interest structure in relative-ontological-incompleteness–presublimation-construct–of-meaningfulness-and-teleology desublimating existentialising–decisionality'. Thus the construal of sublimating existentialising–decisionality as arising as of prospective 'reference-of-thought–and–reference-of-thought-devolving–meaningfulness-and-teleology comprehensiveness of prospective sublimating–nascence' (over relative-ontological-incompleteness–presublimation-construct–of-meaningfulness-and-teleology desublimating existentialising–decisionality) calls for a necessary 'distantiation of contemplative existentialising—frame as to transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing' in superseding any underpinning–suprasocial-construct defaulting relative-ontological-incompleteness–presublimation-construct–of-meaningfulness-and-teleology desublimating existentialising–decisionality which equates/levels-down everything across space and time on the basis of the relative-ontological-incompleteness–presublimation-construct–of-meaningfulness-and-teleology desublimating existentialising–decisionality (as to its underlying presencing-distorted–meritocracy/totalising–sovereign-approportioning—of-human-ontological-performance-<including-virtue-as-ontology> desublimating existentialising–decisionality and so-historically involving 'dominance/vested-interest structure in relative-ontological-incompleteness–presublimation-construct–of-meaningfulness-and-teleology desublimating existentialising–decisionality' as from blantant brutish conquest/subjugation conception of approportioning, dominion protection conception of approportioning, to the very natural-order-of-things conception of approportioning and to our subtle modern day institutionally-distorted/disjointed conception of approportioning); and as any such 'beholdening as sovereignising–imbued-subontologisation/subpotentiation' given presencing—absolutising-identitive-constitutedness existentialising–enframing gesturing is inherently construed as superseding prospective 'unbeholdening sublimating–nascence ontologising-depth of the full-potency of existence' which universal-transparency-

⟨transparency-of-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩ (as herein articulated) is exactly what accounts for human 'fatedness-of-sublimation-over-desublimation, to existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness in reflecting the ontological-contiguity—of-the-human-institutionalisation-process', and so as to the possibility of 'human-decisionality-<as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation> omni-potential commensurability with inherent immanent-existence's sublimation-structure'/omni-potentiality. Whereas we can critically appreciate sublimating–nascence with regards to nascent-particular/incipient-and-material/technical-sublimations-<blinded-to-their-relative-ontological-completeness–reference-of-thought-devolving> as to profound constraining to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation> as associated with technical and scientific contexts of sublimation/desublimation thus inherently inducing/eliciting a human deferential disposition when in ignorance/ineptitude/incompetence reflecting the naturally arising corresponding 'distantiation of contemplative existentialising—frame as to transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing' so-implicited with nascent-particular/incipient-and-material/technical-sublimations-<blinded-to-their-relative-ontological-completeness–reference-of-thought-devolving> but this human deferential disposition when in ignorance/ineptitude/incompetence often does not naturally arise with social-and-institutional-frameworks-of—referencing/registering/decisioning as of 'blurriness in existentialising–decisionality' and thus must be actively implied in social knowledge conceptualisation as to 'distantiation of contemplative existentialising—frame as to transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing' not as utterly doing away with human sovereignty but

rather as explicitly projecting the notion of appropriate-and-coherent human sovereignty deferential-formalisation-transfererence 'in relation to prospective knowledge as of human specialisation-and-focussing, time-investment as well as effectively manifestable sublimation' and so with regards to human limited-mentation-capacity implied requisite expediency for profound human ontological-performance-<including-virtue-as-ontology> associated with human intemporal individuations firstnatured instigation of prospective sublimation and subsequent human positive-opportunism secondnatured institutionalisation). This lack of 'distantiation of contemplative existentialising—frame as to transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing' as arising at destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>—of-ontological-performance-<including-virtue-as-ontology> is the very element particularly acted upon by social and intellectual pedantry as to incrementalism-in-relative-ontological-incompleteness enframed-conceptualisation (as it can be appreciated for instance that the lack of 'distantiation of contemplative existentialising—frame as to transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing' in a non-positivistic social-setup between prospective positivistic knowledge and prior non-positivistic knowledge is exactly what can enable pedantic dispositions to cultivate non-positivistic meaningfulness-and-teleology in such a social-setup), and critically in this regards it principally involves intellectual-muddlement-⟨blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩ as undermining the social-construct's intellectually potent reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-<imbued-and-educed–human-subpotency–epistemic-perspective-of-aestheticising-motif-and-apriorising/axiomatising/referencing-conceptualisation>. Such muddlement is more critically as of the inconsistency associated

with both sceptical argumentations (with sceptical arguments not necessarily muddling when assuming a coherent/consistent threshold of scepticism in want for elucidation) as well as surreptitiously acquiescing/accommodating argumentations, wherein in both instances the inconsistency is bent on blurring/undermining universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩ as to a structural/paradigmatic implication that renders prospective knowledge impotent and so out of ontological-bad-faith/inauthenticity in desublimating existentialising–decisionality gesturing of attenuating/devaluing, blurrying and trivialising wherein there is 'supposedly no totalising-entailing conception of meaningfulness-and-teleology' thus allowing for totalisingly-disentailing—discretion/whim-of-thought pretense-of-sublimation rather unconstrained to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation. Critically the 'unbeholdening sublimating–nascence ontologising-depth of the full-potency of existence' associated with nascent-particular/incipient-and-material/technical-sublimations-<blinded-to-their-relative-ontological-completeness–reference-of-thought-devolving> is necessarily of totalising-entailing as to the immediate-potency of existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation thus relatively undermining such 'beholdening as sovereignising–imbued-subontologisation/subpotentiation' gesturing relatively associated with social-and-institutional-frameworks-of—referencing/registering/decisioning as of 'blurriness in existentialising–decisionality' (that is, where the latter does not extensively intrude into the former as in determining-and-demarcating the framework of natural sciences research). Hence in many ways prospective knowledge cannot elude the aporeticism overcoming/unovercoming of such 'beholdening as sovereignising–imbued-subontologisation/subpotentiation' gesturing and so relatively to the given domain-of-study/domain-of-interest blurriness, wherein blurriness is reflected with desublimating

existentialising–decisionality supposedly taking precedence over prospective knowledge-reification rather than the very knowledge-reification gesturing as determining sublimating existentialising–decisionality; with this conflicting of 'beholdening as sovereignising–imbued-subontologisation/subpotentiation' and 'unbeholdening sublimating–nascence ontologising-depth of the full-potency of existence' so-reflected across the successive registry-worldviews/dimensions given human temporal-to-intemporal-dispositions as to prospective social-stake-contention-or-confliction (beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>). Thus such an aporeticism overcoming/unovercoming necessarily imply the integration of the analysis of intellectual-muddlement-⟨blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness⟩ as part and parcel of prospective knowledge-reification as to knowledge-notionalisation, and especially as so-manifested increasingly with 'extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge frameworks' that on the baiting of imprimatur then switch on to propound 'extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge constructs out-of and implicitly obviating the veracity of the universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness⟩ of knowledge-reification' (and so as to self-serving social-vestedness/normativity) and this must effectively be contested. Such lousiness and as broadly reflected in poor media editorialising in many ways increasingly turns media accessibility into intellectual pre-eminence as 'intellection is no longer about depth of contemplation and knowledge-reification for sublimation but rather about gimmicky-and-flashy threads of mere communication performance' with many such interlocutors openly admitting-and-manifesting their critical lack of relevant intellectual thematic competence as popularity then supposedly becomes the

driving force of thought; the fact though remains (however the seemingly trivialising concern about such media driven pop-intellectualism as rather unimportant in some milieus of more profound intellectual contemplation) that unfortunately in many ways directly or indirectly (as to the social-and-institutional-frameworks-of—referencing/registering/decisioning susceptibility to 'blurriness in existentialising–decisionality' and as encouraged by dominance/vested-interest actors) such pop-intellectualism end up being elevated as the summum of intellection in the social while overlooking the requisite depth of sublimating universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩ of critical importance for effective social-and-institutional-frameworks-of—referencing/registering/decisioning sublimating existentialising–decisionality (and as the 'mediatic framework of access and communication of sublimating thought' is rather turned around into 'a framework that supposedly inherently create sublimating thought by mere access and communication' especially as to naive social feel-good banalities as supposedly sublimation actually of desublimating existentialising–enframing as of vague impression-driven/good-naturedness/wishfulness 'beholdening as sovereignising–imbued-subontologisation/subpotentiation'). But then the idea of knowledge driven as of totalising-entailing as so-demonstrable with say the momentous development of quantum physics with the physics totalising-entailing implications of argumentations of sublimating existentialising–decisionality at critical moments moving from one physicist to the other as of 'totalising-entailing pertinence of thought upheld/elevated above anyone person' (whether Bohr, Einstein, Dirac, Schrodinger, etc.) without any extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge notion like reputation having any incidence, speaks to a more profound lack of constraining aporeticism overcoming/unovercoming as to institutional convenience that fails to articulate such a 'totalising-entailing pertinence of

thought upheld/elevated above anyone person' and thus renders in relative terms the social domain more intellectually impotent in inducing a similar level of sublimating existentialising–decisionality as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation as is relatively the case in the natural sciences (and so notwithstanding the relative blurriness of the social which can effectively be brought to exactifying/precisioning–of-sublimation-<as-to-entailing-theoretical,-conceptual-and-operant-implications> as to the requisite self-criticality overcoming as well as emotional-involvement overcoming rather than assuming a relatively false social and institutional pre-eminence driven relation to knowledge); with the further implication of such 'totalising-entailing pertinence of thought upheld/elevated above anyone person' being that the 'knowledge-reification process becomes highly impersonal and complementary in a natural way' without the artifice of 'politically-driven accommodation of ideas not necessarily as of the pre-eminence of existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation'. In this regards, it is contended that the argumentation articulated herein are strictly striving towards aetiologisation/ontological-escalation in reflection of 'abstract human intemporal individuative ontological-performane (as to the backdrop of the notionalisation/notional-conception/amplituding of human temporal-to-intemporal-dispositions) while striving for totalising-entailing pertinence of thought' and so projecting beyond any implications of personalising/particularising import but rather turning towards 'ontological elucidation import as it then reifyingly-and-empoweringly enables human sublimation as to prospective operationalising construals' and so-reflected in the idea that the fundamental stakes of prospective knowledge-reification is about prospective social-stake-contention-or-confliction and not prior social-stake-contention-or-confliction (as for instance prospective positivistic meaningfulness-and-teleology is not developed to go about articulating/relating-to meaningfulness-and-teleology as to the prior social-stake-contention-

or-confliction of non-positivistic meaningfulness-and-teleology), and so by the mere implications of dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation (even as such prospective meaningfulness-and-teleology tend to be rather desublimatingly related to as of dimensionality-of-desublimating-lack-of—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation by the prior presencing—absolutising-identitive-constitutedness existentialising–enframing). But then as well the fact remains that the reality of human knowledge-reification especially (as speaking to prospective human destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>—of-ontological-performance-<including-virtue-as-ontology>) is inevitably infused with social-and-institutional-frameworks-of—referencing/registering/decisioning manifest politically-driven motives of desublimating existentialising–decisionality beyond just 'a purported baseline conception of neutral knowledge-reification' with such frameworks projecting their presencing—absolutising-identitive-constitutedness existentialising–enframing conception of the 'overall possibility of human existentialising–decisionality as to catchmenting-by-rejection'. In this respect, it is important to grasp that knowledge-reification then desublimatingly becomes an issue of more than just rightness or wrongness but involves a striving for interest/advantage/ascendancy/head-start with respect to existentialising–decisionality of prospective knowledge-reification, and this reality given human temporal-to-intemporal-dispositions is reflected by an inherent human 'referencing/registering/decisioning shallow-supererogation—to—profound-supererogation conception of social-stake-contention-or-confliction' with respect to prospective knowledge-reification. In many ways recent history of human thought has shown that 'social-and-institutional-frameworks-of—

referencing/registering/decisioning manifest politically-driven motives of desublimating existentialising–decisionality going beyond just neutral knowledge-reification' that cannot be ignored as to intellectually decadent practices of scepticism and blurrying underlied by cynical reframing of thought at later moments (which had been related to sceptically and in blurriness at previous moments), and so as to shallow-supererogation desublimating existentialising–decisionality driven by mere institutional-ascendency. In many ways thus the conceptualisation herein 'is not caught-up/constrained to any such fooleries' (as to the history of such ploy against postmodern thought) and is consciously articulated as to the profound-supererogation motive of human sublimation beyond/and-not-subjected-to the existentialising–enframing of any shallow-supererogation social-and-institutional-frameworks-of—referencing/registering/decisioning as to the 8.5 billion humans on planet Earth and as any party of interest of profound-supererogation may find useful or not! In this respect, it is critical to understand what defines humanity as to the 'firstnaturedness and derived secondnaturedness positive-opportunism' required for human self-surpassing—existentialism-form-factor,-in-overcoming-'notionally-collateralising-protohumanity'-to-'attain-sublimating-humanity',-as-to-existence-potency-prospective-digression-of—

<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness; as to the fact that all human sublimation is instigated as of re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-⟨imbued-postconverging/dialectical-thinking-'projective-insights'/'epistemic-projection-in-conflatedness'-of-notional~deprocrypticism-prospective-sublimation⟩ before secondnaturing positive-opportunism institutionalisation. It is this fact that explains why no underpinning–suprasocial-construct is able to coherently explain human 'fatedness-of-sublimation-over-desublimation, to existence-potency-prospective-digression-of—

<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–

in-epistemic-conflatedness in reflecting the ontological-contiguity—of-the-human-institutionalisation-process' since it will always be caught-up in its presencing—absolutising-identitive-constitutedness existentialising–enframing as to its underlying presencing-distorted–meritocracy/totalising–sovereign-approportioning—of-human-ontological-performance-<including-virtue-as-ontology> desublimating existentialising–decisionality. In other words 'the legislation for human prospective sublimation' (as to sublimating existentialising–decisionality) lies with the firstnatured intemporal individuation relation to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation and the positive-opportunism arising thereof (as of a minimum) for human secondnaturing institutionalisation; and so as to the fact that the Socrates, Descartes, Kant, Newtons, Leibniz, Pasteurs, Rousseaux, Diderots, Einsteins, Teslas, etc. didn't ask for any prior consent from the rest of the human species to undertake whatever sublimation they envisioned about humanity making nonsensical the idea that there is any 'generalised human deterministically constraining contemplation of prospective sublimating'. Humanity as such has always been, is and will ever always be about intemporal individuations imagination-and-capacity-for-prospective-sublimation (as to living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulneess-and-teleology implications) and in that regards the triteness of human pedantry and <~~amplituding~~/formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>) patently doesn't count (given the latter associated temporal desublimating existentialising–decisionality in existential-extrication-as-of-existential-unthought that fails aetiologisation/ontological-escalation); and this is the case fundamentally since such

intemporal dispositions projected prospective sublimating–nascence engages human ontological-commitment as to prospective sublimation-over-desublimation (so-implied with the self-assuredness-of-authenticity with respect to social-stake-contention-or-confliction underlying human ontological-commitment). The fact is the intellectual exercise is more acutely/incisively about identifying the relevant aporeticism overcoming/unovercoming in the very first place in order to then effectively relate to what is of prospective profound sublimating intellectualism and so over desublimating pedantry (beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>) as to the simple fact that human prospective destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>—of-ontological-performance-<including-virtue-as-ontology> means that human meaningfulness-and-teleology is ever always caught up prospectively between intellectualism sublimating existentialising–decisionality and pedantry desublimating existentialising–decisionality. This is the case given the requisite condition for the very basic human sublimating existentialising–decisionality as so-underlied by existence—as-the-absolute-a-priori-of-conceptualisation and existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation (reflecting the ever always present challenge for intellectualism over pedantry); so-underscored by the ever always present challenge for human dimensionality-of-sublimating—<amplituding/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation as to requisite epistemic-conflatedness implied projective/reprojective—apriorising/axiomatising/referencing induced 'projective-insights for predicative-insight'. In this respect, intellectual-muddlement-⟨blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness⟩ poor appreciation of 'distantiation of contemplative

This 'extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge paradox' when it claims to co-opt/supersede prospective sublimating knowledge-reification can be further elucidated along the same lines (with regards to living-development–as-to-personality-development and institutional-development–as-to-social-function-development) wherein for instance the notion of say genius is supposed to imply the 'supposed genius' is exceptional/abnormal (by their 'specifically given sublimating elucidation' so-enabled as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation). But then actually the 'supposed genius'

cannot be exceptional/abnormal for the simple reason that 'existence (so sublimatingly elucidated) is nothing but just normal as to its ontological-normalcy/postconvergence' reflecting the fact that the social-construct meaningfulness-and-teleology as from the moment of the sublimating elucidation is/has-been rather of epistemic-abnormalcy/preconvergence, with the notion of 'supposed genius' serving as to human presencing—absolutising-identitive-constitutedness existentialising–enframing (beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>) to render obstruse the veracity of this epistemic-abnormalcy/preconvergence of the social-construct meaningfulness-and-teleology that the 'supposed genius' is pointing out as 'the very issue at stake warranting the social-construct's prospective dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation' as the 'supposed genius' sublimating elucidation implies it has relatively achieved its own 'prospective dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation' and is of no inherent prospective issue in that respect. Such that in fact such a notion of genius thus as to wrongly implicited exceptionalism/abnormalcy is surreptitiously (beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>) about substituting a different and desublimating existentialising–decisionality (whether of pedantic incrementalism-in-relative-ontological-incompleteness enframed-conceptualisation or <~~amplituding~~/formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>)) and particularly so in relatively blurry domains-of-study/domains-of-interest (as we can appreciate that such a 'technically wrong presencing—absolutising-identitive-

constitutedness existentialising–enframing deficient notion of genius' in spheres of inherently sublimating–nascence as to nascent-particular/incipient-and-material/technical-sublimations-<blinded-to-their-relative-ontological-completeness–reference-of-thought-devolving> is rather inconsequential 'as to their very knowledge-reification gesturing as determining sublimating existentialising–decisionality' since the immediate/direct potency as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation will be highly challenging to any incompetent mind pretending to be technically/scientifically apt/of-sublimating-existentialising–decisionality in lieu of the truly apt/of-sublimating-existentialising–decisionality technician/scientist, and so unlike desublimating existentialising–decisionality taking precedence over prospective knowledge-reification arising relatively in blurry domains-of-study/domains-of-interest where such 'pretense-of-sublimation as to desublimating existentialising–decisionality supposedly taking precedence over prospective knowledge-reification' can more easily arise). In both elucidations of 'distantiation of contemplative existentialising—frame as to transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing' (as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulneess-and-teleology and living-development–as-to-personality-development and institutional-development–as-to-social-function-development), and so overriding any beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>, the blunt fact of the matter is that the very structural/paradigmatic possibility of human ontological-performance-<including-virtue-as-ontology> is 'more veridically construed as of non-presencing-<as-to-perspective-ontological-normalcy/postconvergence> as to the ontological-good-faith/authenticity–structure over the ontological-bad-faith/inauthenticity–structure as so-reflected with the succession of registry-worldviews/dimensions re-originary–as-unenframed/unbeholdening/outlier-

In summary, 'human existentialising–decisionality dual psychological-dispositions continuum-gradient of sovereignising—by—ontologising-depth in inducing desublimation/sublimation' underscores how human social-and-institutional-frameworks-of—referencing/registering/decisioning of existentialising–decisionality are prone to presencing—absolutising-identitive-constitutedness (and so as of overall social and institutional existentialising–decisionality implications as to the very notional/epistemic framework of living-development–as-to-personality-development,

sublimation/desublimation as in effect creatively permeating all such 'underpinning–

suprasocial-construct of presencing—absolutising-identitive-constitutedness existentialising–entailing'; and so (especially potent when such 'non-presencing-<as-to-perspective-ontological-normalcy/postconvergence> notion of supererogatory–progressivity' is manifested as of profound supererogating entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness as to dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation over shallow-supererogation of supererogatory–progressivity), as more critically superseding human delusions as to desublimating beholdening-becoming—distortive-originariness/distortive-origination–as-to-historicity-tracing~inhibited-mental-aestheticising (and thus reflecting the sublimating possibility for prospective 'bechancing-backdrop of non-presencing-<as-to-perspective-ontological-normalcy/postconvergence>' as to 'bechancing-becoming—originariness/origination–as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing~disinhibited-mental-aestheticising sublimation reclamation/recovery from beholdening-becoming—distortive-originariness/distortive-origination–as-to-historicity-tracing~inhibited-mental-aestheticising', so-construed as reclamation/recovery of unenframed-conceptualisation). In this respect we can appreciate with regards to the capitalistic 'catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction' that its most critical/grave moments are moments at which it is hardly/poorly present/existent as to its 'given implied totalising-entailing meaningfulness-and-teleology' wherein for instance the social atrophying associated with the Great Depression rather elicited statal supererogatory–progressivity extending into the postwar era of sociopolitical and socioeconomic value renewal that can hardly be qualified as of capitalistic instigation in the pure sense of the word and in many ways the technocracy developed and resourced in the postwar years and the associated scientific and technical advancement especially in the face

of the Cold War in many ways speak to an underlying supererogatory–progressivity on which waves the capitalistic 'catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction' rode as so-reflected by Eisenhower cautioning about the U.S. militaro-industrial complex potential sycophantic exploitation of such overall national supererogatory–progressivity and further reflected as to the accruing of national technical and scientific dividends incommensurably to private capitalistic actors. Furthermore, moments of national socio-economic crises as to such capitalistic 'catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction' have always been critically involved with recouping and reallocating resouces and means for 'a poorly self-sustaining capitalistic model of social ascendency with respect to public externalities, taxation and public debt' as such a capitalistic model increasingly developed in later years into a structural/paradigmatic parasitising renting economic model associated with the explosion of financialisation especially as it substitutes/arrogates the social capacity to instigate formative supererogatory–progressivity initiatives (as it can now be appreciated that in many ways much of the postwar economy arose as of strong public and local governance directed investment in public infrastructure, housing and property which supererogatory–progressivity in many ways is now capitalistically substituted/arrogated rather as of a short-term renting-model that thrives upon creating winners and losers as to asset inflation strategy for skewed value-extraction). In a critical respect all the creative social supererogatory–progressivity after the postwar years is now reduced in terms of public mitigation of the deleterious fallouts from the capitalistic model all other social supererogatory–progressivity possibilities are now effectively assumed to lie with propping up a poorly self-sustaining capitalistic model (with respect to public subventions, bailouts, taxbreaks) and so notwithstanding the massive financial gains and transfers to tax havens as to a global economy of contrasting rising wealth disparity with the supererogatory–progressivity for individual and social

creative initiatives construed as lying in a labour subsistence surrendering to whatever modest possibilities such capitalistic model makes available as supposedly an absolutely determining construct of human supererogatory–progressivity possibilities (while overlooking the reality of its manifest renting parasitising of social value and value possibilities). This in effect speaks to 'a renting and skewed value-extraction capitalistic colonising of the social capacity for supererogatory–progressivity' as to imply that the social capacity for initiative can only be logged/cultured into the expropriating/estranging/constraining/limiting capitalistic model and so-reflected as of a globalised framework of totalising-entailing interlocking corporate interests and corporate welfaring that in effect critically and implicitly dictates to states (as of the subtle threat of runaway financial and economic disaster and/or state political-economy retrogradation for non-compliance) the very possibility for their full-capacity for supererogatory–progressivity while being well aloof of the public accounting that political actors running states have to fulfill thus speaking to a most fundamental globalised capitalistic induced democratic-deficit while relatively disempowered governments are left to pick-up-the-pieces (while structurally/paradigmatically hemmed-in by the clerical counsels championing the capitalistic model) as to the blindness/sightlessness of a general public backlash (directed to media-driven impressionable narratives rather than to the protracted implications of the roguish capitalistic model), and so as to the more critical structural/paradigmatic international capitalistic system usurpation and undermining of the possibility for social supererogatory–progressivity and rendering democratic processes circularly unsatisfactory with the electorate increasingly resorting to protest and anti-incumbent votes. In many ways thus the supererogatory–progressivity potential of the global economy presents more opportunities than the capitalistic model arrogatingly seem to imply as in many ways it can be argued that as of individual and social supererogatory–progressivity much of 'vocational rationale', 'vocational skills', 'vocational economic

models' and 'vocational creativity' underlying the capitalistic model can perfectly thrive without capitalistic 'catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction'; and so as to the fact that the very notion of capitalistic enterprising across the world takes various shapes and forms wherein 'the more doctrinaire skewed value-extraction and market distorting models' ride-the-wave of profound value creation activities (often of poorly compensated supererogatory–progressivity) and in many ways undermining the inclination for profound value creation as to the shortcut for short-term returns. This capitalistic model of skewed value-extraction undermines the possibility of overall human supererogatory–progressivity as to when in the contest between optimal-resource-allocation for value-creation as to the requisite creativity for individuals and social supererogatory–progressivity and skewed value-extraction eventually reflects poorly self-sustaining capitalistic model (but for mechanisms of external and foreign relocations exploiting the externalities investments in education and infrastructure of second and third world countries) but still posing the question as to how skewed value-extraction can structurally/paradigmatically address in the long-run issues of requisite social and public investment as a requisite for a theoretically self-sustaining economic model (not critically driven and supported by the supererogatory–progressivity prioritisation of local or foreign state) as 'arrogating public supererogatory–progressivity at the exclusion of overall social and resourcefulness/ingenious possibilities'. Interestingly, the more explicit manifestation of supererogatory–progressivity as underlying any given underpinning–suprasocial-construct is most obvious today with the Chinese economic revolution as to the creative impetus driving its overall socioeconomic transformation. Here again it is fair to say just like with the Japanese and South Korean economic revolutions (given their more uniform and deferential populations) there is a whole directedness here (beyond just a purist capitalism model especially of a renting and skewed value-extraction capitalistic model) and so as to 'country

supererogatory–progressivity directed whole socioeconomic transformation project', and in many ways the capacity for the Chinese to now begin to invest abroad lies with this relatively healthy supererogatory–progressivity conception/model less betrothed to short-term skewed value-extraction poorly capable of fulfilling the necessary externalities investment to thrive in weaker developing markets (in contrast to the long-term resource-allocation needed make such markets stable and sustainable). But then in reality when push-came-to-shove the fact is that the postwar history of all modern developed governments was hardly about their naïve subjection to a purit capitalistic model to rebuild themselves as in reality their redevelopment involved initial and massive public-driven investments in association with already matured nation-building human resource as to the reality of their supererogatory–progressivity national development programmes (especially as in the middle of the 20th century international trade accounted for just a small part of economic growth) and it is this that purportedly then gave way in later years to a the rising capitalistic model associated with privatisations and private equitisation; and this supererogatory–progressivity model applied in the postwar governments of Western Europe, the United States as well as China, Japan and South Korea as to their initial economic redevelopment. Paradoxically one of the most deleterious postwar economic policy stances advanced with respect to many a third world country as to the prodding of international economic organisations and as 'abstractly and vaguely theorised' by capitalist economists was the advocacy of nation-building in the third world following their postwar independence on the basis of the purist capitalistic model, thus leading in many ways to perpetuating the dependence of these nations on these international economic organisations as having to submit to the capitalistic shallow-supererogation of supererogatory–progressivity as so-associated with debt servitude and structural adjustment programmes. The fact then is that the only nations in the postwar years that 'truly experienced anything closed to the pure capitalistic economic model as devoid of any

national supererogatory–progressivity investment-drive and social programmes mitigation for the consequences of the capitalistic model' are in many ways third world countries of limited human and natural resources to be capable of instigating national supererogatory–progressivity with respect to their incipiently disadvantageous circumstances (especially compounded by their limited nation-building human resources) and this in many ways accounts for their high and relatively inefficient and subsistence informal sectors as to the relative inability of state resources to construct profound and sustainable projects of socioeconomic development (and even then when given the chance with the little means available as of a natural intuition they recoursed essentially to supererogatory–progressivity initiatives like education and basic infrastructural capacities that will hardly pass the test of a true profit-driven and value-extraction capitalistic model), and more critically so as to their more profound interests in social stability in the very first place able to arise only as from a basic level of social wellbeing of their populations before even contemplating of any such abstract capitalistic model rationale (which in many ways actually served to induce a skewed logic on the basis of which natural resources exploiting corporations from developed countries exploit third world natural resources on unfair terms of economic supererogation) and as the short-termism of such a capitalistic model can hardly contribute to inducing the requisite political stability for sustained economic progress (with the capitalistic model as to its self-serving requirement rather warranting the requisite externalities possibilities for its thriving to be established beforehand). The more abstract rationale here (as to 'human-decisionality-<as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation> omni-potential commensurability with inherent immanent-existence's sublimation-structure'/omni-potentiality) is to reflect the reality today of underlying human supererogatory–progressivity as to the incipient reality that human family, communal, clanic and national communities cannot truly operate on the totalising-entailing basis of a purist

capitalistic model of social organisation (as to the very risk of undermining social organisation as reflected in the relative prioritisation of national education and basic public facilities in the post-independence years in many third world countries) with such a purist conception rather reflected as to capitalistic 'catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction' in a rather comprehensively developed framework of value-allocation and value-extraction. Further the capitalistic model as to its fabrication of winners and losers given its all englobing delimiting of human supererogatory–progressivity increasingly brings peoples at loggerheads across races, classes, regions and nations with the implication that since it is centrally/critically defining as to the present day statal conception of social supererogatory–progressivity possibilities, there must necessarily be losers and winners with no creative supererogatory–progressivity beyond this dilemma; thus as to the fact that there can't be a profound humanity-level creative supererogatory–progressivity as well as decolonised–capitalistic-by-statal so-construed as 'anarchical individual and social supererogatory–progressivity'. Such a representation as herein articulated of the truer supererogatory–progressivity (however the shallow-supererogation of supererogatory–progressivity) beneath the capitalistic 'catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction' is hardly reflected today as to 'hardened narratives of an absolutising pure capitalistic model' as mirroring the very ruthlessness associated with the renting and skewed value-extraction capitalistic model (as so-enculturated socially and mediatically as to presencing—absolutising-identitive-constitutedness social-vestedness/normativity). The relative veracity of supererogatory–progressivity is strongly seen with the state-driven Asian and European supererogatory–progressivity economies (with the Germans, Japanese and Chinese out-competing the U.S. with respect to trade balance and so without all the 'grandiose capitalistic economic theorising' but on the more veridical realism of policy-driven supererogatory–progressivity)

and as even in the U.S. there is atleast a critical level of strategic supererogatory–progressivity with local states definitely adopting incentives-driven approaches of supererogatory–progressivity; all this speaking from an entailing-totalising perspective analysis of the purist capitalistic model as poorly self-sustaining of its socioeconomic framework (especially its relative irresponsibility with regards to foundational externalities like education, infrastructure, well thought-out policies, collective social advancement, etc.). The bigger question that then arises has to do with the possibility for optimal human supererogatory–progressivity 'beyond just the statism and geostrategy/states-competition muddled framework' that is structured/paradigmed to induce skewed shallow-supererogation of supererogatory–progressivity as to capitalistic 'catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction'. Taking a step aback, in many ways the reality of the very fundamental notion of the capitalistic model speaking of perfect markets do not exist, and rather 'markets themselves develop as advantageously created situations after the facts' as to the requisite human creative supererogatory–progressivity for a market to even arise; and in this respect the supposed fittest notion of capitalistic competition as to punctual/immediate fitness tends to underperform the more advantageous supererogative contemplative deliberation of markets for critically efficient/optimising resource allocation/utilisation/development (as to the fact that structurally/paradigmatically the relatively deliberative conceptualisation of markets associated with say German, Japanese, Chinese, South Korean public-policy supererogatory–progressivity economic models participate in their competitive edge over 'vague/abstract punctual/immediate fitness notion of capitalistic competition' that speaks to an overall deliberative optimalising potential of human supererogatory–progressivity beyond any such capitalistic limitative-artifice-of-human-imaginary/metaphysical-conceptualisation as to 'unbeholdening sublimating–nascence ontologising-depth of the full-potency of existence' existentialising–decisionality).

The so-construed notional~deprocrypticism epistemicity conception of predicative-effectivity–sublimation-⟨as-to-underlying-ontological-commitment⟩ as to the overall ontological-contiguity——of-the-human-institutionalisation-process provides the requisite basis for prospective human ontological-performance-<including-virtue-as-ontology> convergence towards 'scalarity/immanency of existence's ontological-normalcy/postconvergence', and so as to the fact that prospective deprocrypticism registry-worldview/dimension as of its superseding/transcending conception (beyond 'social-construct <~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating given institutionalised-and-uninstitutionalised-thresholds imbued secondnaturing') technically equates to 'supposed human-subpotency abstract self-determinative ontological-performance-<including-virtue-as-ontology> capacity as to the full-potency of existence' so-implied with the protensive-consciousness 'deepest phenomenological transcendental-point-of-departure handle as of the notional~conflatedness of notional~deprocrypticism deneuterising——referentialism'; and so as to the effective construal of the possibilities of human meaningfulness-and-teleology beyond 'mere methodologising/mutualising/organising/institutionalising as of human-subpotency non-scalarity/beholdening-<as-to-what-has-gone-before-aesthetically-structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation> in presencing——absolutising-identitive-constitutedness <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag'. However, in effect despite the reality of 'human-subpotency non-scalarity/beholdening-<as-to-what-has-gone-before-aesthetically-structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>', the human psychology in any of its registry-worldview/dimension presencing——absolutising-identitive-constitutedness paradoxically projects a notional-contiguity/epistemic-contiguity-<mentally-aestheticised~postconverging/dialectical-thinking–qualia-schema> wrongly implying it is

In this regards, any registry-worldview/dimension as of its presencing—absolutising-identitive-constitutedness is, more-or-less as of its relative-ontological-incompleteness, 'a usurpation of abstract purist ontologisation/ontological-veracity/aestheticisation-towards-ontology projected as of notional~deprocrypticism/~~amplituding~~/formative>notional~preempting—disjointedness-as-of-reference-of-thought'; so-reflected by all registry-worldviews/dimensions forward-facing constructiveness-of-ontological-performance-<including-virtue-as-ontology> as to social-stake-contention-or-confliction. In this respect, scalarisation analysis is a projection beyond just a conceptually implied originariness/origination-<so-construed-as-to-ontological-

This insight about human 'distending/dragged-out scalarisation' points to the ontological-veracity of a necessary hermeneutic <amplituding/formative>epistemic-totalising/circumscribing/delineating understanding associated with human ontological-performance-<including-virtue-as-ontology>, with the dearth of such hermeneuticism often associated with social contemplative fragility as well as the sophistry that further exploits this social contemplative fragility as to presencing—absolutising-identitive-constitutedness; and originariness-parrhesia,–as–spontaneity-of-aestheticisation imbued scalarisation effectively speaks of the ontological-veracity of the requisite difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism for the appropriately optimisable ontological-performance-<including-virtue-as-ontology> of human conceptual and operant meaningfulness-and-teleology. The more critically conceptual and operant issue lies with how priorly induced 'human temporal-to-intemporal-dispositions accordioning-<as-of-varying-individuations-contextually-transverse-desublimation/sublimation,-as-to-the-redounding/wavering/waveforming—of-their-referencing-and-their-devolved-referencing-

This overall construal of the determinative structure of human ontological-performance-<including-virtue-as-ontology> (as it reflects the ontological-veracity of human formativeness-<as-to-intersolipsism-of-premeaningfulness/preframing-imbued-mediativity-and-deferentialism>-of-meaningfulness-and-teleology over any given conception of human of intersubjectivity–of–meaningfulness-and-teleology') rather undermines the ontological-pertinence as to the ontological-performance-<including-virtue-as-ontology> of the notion of human intersubjectivity–of–meaningfulness-and-teleology and so very much along the same lines of the Derridean criticism of intersubjectivity–of–meaningfulness-and-teleology going by his 'heteregeneous genesis' conception (even as the latter is more-or-less caught up in metaphysics-of-presence epistemic constitutedness as to its quasi-transcendental implications since genesis is rather

This fundamental undermining of intersubjectivity–of–meaningfulness-and-teleology as to its ontological-performance-<including-virtue-as-ontology> conception lies in the fact that as of its implied presencing—absolutising-identitive-constitutedness existentialising—enframing, it goes on to induce human-subpotency beholdening-becoming—distortive-originariness/distortive-origination–as-to-historicity-tracing~inhibited-mental-aestheticising and so undermining the bechancing-becoming—originariness/origination–as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing~disinhibited-mental-aestheticising as to the scalarity/immanency of existence's ontological-normalcy/postconvergence as 'bechancing-backdrop of non-presencing-<as-to-perspective-ontological-normalcy/postconvergence>'; wherein the prospectively requisite rescalarisation as to human formativeness-<as-to-intersolipsism-of-premeaningfulness/preframing-imbued-mediativity-and-deferentialism>-of-meaningfulness-and-teleology is obfuscated on the basis of such ontologically-flawed implied intersubjectivity–of–meaningfulness-and-teleology presencing—absolutising-identitive-constitutedness existentialising—enframing associated with such ontologically vague notions like 'institutionalised facts' as of 'mere-methodologising/mutualising/organising/institutionalising human existentialising—enframing' that supposedly and wrongly supersede 'genuine knowledge-reification framework involving a detour to existence-potency-prospective-digression-of—<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness induced prospective determination which then is structurally/paradigmatically preceding-and-constraining to human-subpotency as enabling

The supposed consequence of such ontologically-flawed analysis as to intersubjectivity–of–meaningfulness-and-teleology presencing—absolutising-identitive-constitutedness existentialising—enframing that fails to grasp relative-ontological-completeness implications is that the 'institutionalised facts' of the successive registry-worldviews/dimensions are then construed wrongly as 'beyond ontological analysis' such that the ontological-contiguity—of-the-human-institutionalisation-process herein implied is then construed as 'unintelligible' as even the notion of how successive registry-worldviews/dimensions come about is obfuscated. This overall insight points to the fact that all the potentiality for human ontological-performance-<including-virtue-as-ontology> rather lies with grasping: human 'formativeness-<as-to-intersolipsism-of-premeaningfulness/preframing-imbued-mediativity-and-deferentialism>-of-meaningfulness-and-teleology (so-construed as human <s>amplituding</s>/formative>epistemic-causality potentiality of ontological-performance-<including-virtue-as-ontology>) and so as to human inherently embodied–vitality/survival/subsistence in existential becoming with regards to human living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as so-defining the-social or human-social-potency'. Insightfully, a most fundamental ontology/science as aspired herein in reflecting the ontological-contiguity—of-the-human-institutionalisation-process rather points to human formativeness-<as-to-intersolipsism-of-premeaningfulness/preframing-imbued-mediativity-and-deferentialism>-of-meaningfulness-and-teleology as to recurrently self-surpassing meaningfulness-and-teleology and the resultant consecutive consequent presencing—absolutising-identitive-constitutedness existentialising—enframing reflecting the successive registry-worldviews/dimensions imbued reference-of-thought–and–reference-of-thought-devolving–meaningfulness-and-teleology respective less-and-less relative-ontological-incompleteness of ontological-performance-<including-virtue-as-ontology>; such that inherently the construal of their social-stake-contention-or-confliction are ever always construed in <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as to any such given registry-worldview's/dimension's presencing—absolutising-identitive-constitutedness existentialising—enframing (as to living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology), whereas an ontologically more profound construal as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism (reflecting originariness/origination-<so-construed-as-to-ontological-normalcy/postconvergence-perspective-scalarising-construal-of-existence>) rather highlights 'an utterly superseding construal of ontological-performance-<including-virtue-as-ontology>' of any such registry-worldview/dimension presencing—absolutising-

Such a depth of contemplation as to Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology

effectively reflects a rather more profound conceptualisation of human psychology as to its transcendence-and-sublimity inducing potential as to the psychoanalytic-unshackling/memetic-reordering/institutional-recomposure implications in reflecting the ontological-contiguity—of-the-human-institutionalisation-process (at the crossroads of prior meaningfulness-and-teleology and prospective metaphoricity) over approaches of relative gimmickiness-of-thought as to our positivism/rational-empiricism presencing—absolutising-identitive-constitutedness <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that poorly address human egotistic/self-referential complex in the face of prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint and with the corresponding possibility for sophistic/pedantic moral and intellectual disenfranchisement/swindling/corruption/dispossession (as the fact is when it comes to social-stake-contention-or-confliction 'knowledge-reification tends to be notionally/epistemically caught up between a sublimation and desublimation/gimmickiness paradigm' as reflected in the social reality of 'a veil of knowledge associated with subterfuges' reflected say in an ambiguous continuity between genuine-knowledge and chicanery, social/institutional intellectualism and social/institutional sycophantic-sophistry, treatment and placebo, alchemy and chemistry, quackery and medicine, technological-advancement and technical-mystification, flawed-industrial-analyses-and-certifications and disinterested-scientific-analyses-and-certifications, etc.). In other words, the notion of 'the other' as aetiologisation/ontological-escalation is much more than 'magnanimity towards the other' but more fully a stance that 'calls upon a principled commitment to the notion of the other' by the other as enabling the completeness of universal responsibility. Paradoxically, viewed from this angle as of the possibility of inducing prospective notional-contiguity/epistemic-contiguity-<mentally-aestheticised~postconverging/dialectical-

thinking–qualia-schema> for ontologically-veridical virtue transcendence-and-sublimity, a different interpretation can be made about the posture of a thinker like Heidegger during the troubled years of the 1930s; as effectively, the implication of Heidegger's analysis of the situation which he associated with Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology ~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity points to 'a conception emphasising ontology as defining virtue thus ultimately geared towards prospective notional-contiguity/epistemic-contiguity-<mentally-aestheticised~postconverging/dialectical-thinking–qualia-schema> as of the need for prospective relative-ontological-completeness-of-reference-of-thought', but failing not because of the said orientation but with regards to the wrong conclusion about Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology misunderstood as implying that it lies with a historical tradition like the Ancient Greece tradition or German Folk tradition rather than lying with an underlying transcendental universal notion construed as 'going beyond them-and-us logic' as of the implications of universal human emancipatory potential of re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-⟨imbued-postconverging/dialectical-thinking-'projective-insights'/'epistemic-projection-in-conflatedness'-of-notional~deprocrypticism-prospective-sublimation⟩, and this fundamentally scuppered his possibility of 'attaining a conception of prospective notional-contiguity/epistemic-contiguity-<mentally-aestheticised~postconverging/dialectical-thinking–qualia-schema> as of the need for prospective relative-ontological-completeness-of-reference-of-thought', rather than an 'ontologically-flawed idea implying a certain given historical tradition'. Likewise, but with regards to virtue analysts analyses that are naively articulated on the basis of the ontological-contiguity of our 'modern take attitude/mental-

disposition/care–and–episteme' as of our <s>amplituding</s>/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag prior relative-ontological-incompleteness-of-reference-of-thought leading to palliation as of selecting, triaging, mutually-concurring-and-accommodating and power-relations driven palliating virtue constructs, an altogether different drawback is decisively apparent as we know that since those troubled years, wars, genocides, and other crimes against humanity have still been taking place and will probably continue to take place, as of the structural/paradigmatic consequence arising with such manifestations in ontological-contiguity of our 'modern take attitude/mental-disposition/care–and–episteme'; divulging that conceptualising virtue in ontological-contiguity is at best only of palliative consequence and not truly aetiologisation/ontological-escalation which rather warrants prospective notional-contiguity/epistemic-contiguity-<mentally-aestheticised~postconverging/dialectical-thinking–qualia-schema> as of prospective relative-ontological-completeness-of-reference-of-thought. The fact is well-meaningness, good-intentions and/or good-naturedness however comforting to contemplate about doesn't substitute for ontology/ontological-veridicality as of the need to truly understand the human limited-mentation-capacity dynamics behind human action for appropriate aetiologisation/ontological-escalation that brings an end to the endemisation and enculturation of any given registry-worldview's/dimension's vices-and-impediments. This existential reality about ontological-primemovers-totalitative-framework is no more different between the social world and the natural world, and so as of existence—as-the-absolute-a-priori-of-conceptualisation inherent ontological coherence/contiguity. This insight about virtue as lying with ontology has been to varying degrees implicitly understood by many postmodern thinkers, beginning with Heidegger pointing to a sophistication of thought but for the poor development and poor conclusions of his analysis during the troubled years of 1930s; and rather poorly interpreted by virtue critiques adopting a 'modern take

attitude/mental-disposition/care–and–episteme' in ontological-contiguity as of its <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag prior relative-ontological-incompleteness-of-reference-of-thought perspective construed-as reasoning-from-results/afterthought of modernity. Such sophistication of thought to think in terms of inherent ontology, however ontologically-flawed with respect to Heidegger, has been further implicitly pursued by latter postmodern thinkers as of quasi-transcendental implications for construing virtue from the orientation of prospective notional-contiguity/epistemic-contiguity-<mentally-aestheticised~postconverging/dialectical-thinking–qualia-schema> as of prospective relative-ontological-completeness-of-reference-of-thought, as implicited with the case of Derrida's spirit insight. Ultimately, the 'postmodern deprocrypticism or preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme' should ontologically nurture the requisite psychoanalytic-unshackling/prospective-grounding/prospective-reification for prospective notional-contiguity/epistemic-contiguity-<mentally-aestheticised~postconverging/dialectical-thinking–qualia-schema> as of prospective relative-ontological-completeness-of-reference-of-thought implied as of deprocrypticism or preempting—disjointedness-as-of-reference-of-thought as implied by postmodern human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation thus inducing the aetiologisation/ontological-escalation addressing/resolving our 'modern take attitude/mental-disposition/care–and–episteme' vices-and-impediments. As a further elucidation, prospective notional-contiguity/epistemic-contiguity-<mentally-aestheticised~postconverging/dialectical-thinking–qualia-schema> as of prospective relative-ontological-completeness-of-reference-of-thought actually points out that the uninstitutionalised-threshold is rather a point of

ontological-dementation/dialectical-dementation–stranding/attributive-dialectics which is what justifies the pre-eminence of the prospective institutionalisation attitude/mental-disposition/care–and–episteme over the uninstitutionalised-threshold attitude/mental-disposition/care–and–episteme. We can effectively grasp why Heidegger's implicited insight as of notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised~preconverging/dementing–qualia-schema> but rather being associated with a given tradition actually couldn't break through the barrier of perceiving notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised~preconverging/dementing–qualia-schema> as 'futural way of thinking', as it misperceived that any tradition can reveal as of its inherent nature the 'futural way of thinking', rather than that this lies with 'a universal principle understanding of the transformation of traditions' and thus how such universal principle understanding as of its universal implications informs about the 'futural way of thinking'. In this regard, we can equally understand why Heidegger's supposed criticism of Cartesianism was altogether a misplaced analysis given that 'a universal principle understanding of the transformation of traditions' as herein implied by this author in reflecting the ontological-contiguity—of-the-human-institutionalisation-process, would have provided the insight that Descartes was actually 'establishing a positivism tradition as of futural way of thinking' breaking away from non-positivism/medievalism and so 'as to the fact that dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation is aporetically the more fundamental incipient/seeding originariness-parrhesia,–as–spontaneity-of-aestheticisation to Descartes thinking-proposition for budding-positivism reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation' and thus in many ways the naïve/flawed Cartesianism

today arise as to a reasoning as from reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation perspective whereas Descartes is more fundamentally involved in an aporeticism overcoming/unovercoming exercise with respect to medieval-scholasticism non-positivising (as of dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) which philosophically precedes his secondary thinking-proposition as reasoning-from-results/afterthought; such that budding-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument becomes intelligible, thus revealing that Heidegger notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised~preconverging/dementing–qualia-schema> why intending to be of prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument is actually of an epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag aposteriorising/logicising/deriving/intelligising/measuring with prior positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme, even though in its attempt it effectively elicits many insights for the prospect of ontologically-veridical prospective postmodern apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument with its corresponding postmodern deprocrypticism or preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme. In other words philosophical thought is all incipiently/seedingly about dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic-growth/transvaluative-

rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation, and Heidegger's issue should have actually been about future Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology just as Descartes issue in articulating budding-positivism/rational-empiricism (traditionally construed-as-rationalism) was not with setting up its meaningfulness-and-teleology in contention with prior non-positivism/medievalism as of the then projective future Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology of positivism/rational-empiricism, apart from mere intellectually contrastive elucidation, but rather implied affirming prospective positivism as of its very own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme; and so as of the fundamental implication of positivism prospective relative-ontological-completeness-of-reference-of-thought over non-positivism/medievalism prior relative-ontological-incompleteness-of-reference-of-thought. We thus see why the future redevelopment of Heideggerian misconceived prospective notional-contiguity/epistemic-contiguity-<mentally-aestheticised~postconverging/dialectical-thinking–qualia-schema> as of prospective relative-ontological-completeness-of-reference-of-thought as undertaken by latter thinkers like Foucault, Derrida, Deleuze, Lacan, Lyotard and others are full of prospective quasi-transcendental 'structural/paradigmatic disseminative implications' as reflecting an underlying reality of prospective reference-of-thought ontological-dementation/dialectical-dementation–stranding/attributive-dialectics construed herein as of prospective postmodern deprocrypticism or preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme, and so just as searing with 'structural/paradigmatic

disseminative implications' was the mathesis universalis metaphoricity extended development/influence on the works of the Galileos, Descartes, Newtons, Leibnizes and others that ultimately reflected an underlying reality of prospective reference-of-thought ontological-dementation/dialectical-dementation–stranding/attributive-dialectics implied as of prospective positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme in superseding/transcending non-positivism/medievalism. In effect it is herein contended that what is implicitly missed about the Cartesian proposition 'I think therefore I am' is not the idea that Descartes contemplates that he is the first person to be self-conscious about his thinking; rather his underlying reasoning is 'more than just speculative doubting' but 'motivated doubting' that is highly contextual-as-of-the-non-positivism/medieval-epoch and highly prefigurative-as-to-what-Descartes-wants-to-do-of-transformative-with-thinking-given-that-context aporeticism (underlying that Descartes' dimensionality-of-sublimating—~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation is aporetically the more fundamental incipient/seeding originariness-parrhesia,–as–spontaneity-of-aestheticisation in then secondarily inducing his thinking-proposition for budding-positivism reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation). That is, Descartes seeks to affirm the 'mereness of thought' beyond any existing habit-and-tradition-of-thought as of non-positivism/medievalism scholasticism pedantic dogmatism reasoning-from-results/afterthought, and so liberated rearticulate thought 'out of thin air' as of prospective reasoning-through/messianic-reasoning as reflected by his novel mathesis universalis metaphoricity rationalism schema/dissemination that permeates all of his works such that even with his ontological argument something subtle and more original

is happening, in that unlike many medieval scholasticism dogmatic interpretations that construe of a supernatural permeation into the natural, in affirming the ontological argument Descartes blocks-out/passivises the supernatural from the natural with the metaphoricity implication that the natural can be thought of operationally and in sublimation on its own terms–as-of-axiomatic-construct. Thus Descartes 'I think therefore I am' is rather a statement of intent as of a 'futural way of thinking and sublimation' and its budding positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme, that is unique as 'consciously setting up the pre-eminence of thinking in eliciting-and-resolving systemic doubting and structuring/paradigming the possibility of elucidation of any subject on this thinking and sublimation basis'. In effect Descartes project is actually as of existence-potency-prospective-digression-of— <~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness relative-ontological-completeness of apriorising/axiomatising/referencing as of positivism, and so from the presencing—absolutising-identitive-constitutedness of non-positivism/medievalism. With both the budding positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme and postmodern deprocrypticism or preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme, we may be forgiven to confuse-and-dismiss their schema/structural-or-paradigmatic-disseminative-implications as of prospective reasoning-through/messianic-reasoning as incoherent from a shallow-and-immediate uninsightful analytical perspective on the basis of the respectively prior reasoning-from-results/afterthought of non-positivism/medievalism and positivism–

procrypticism/disjointedness-as-of-reference-of-thought (since as of the latter relative-ontological-incompleteness perspective 'all the reasoning in the world' is only respectively as of non-positivism/medievalism apriorising/axiomatising/referencing–psychologism or positivism–procrypticism apriorising/axiomatising/referencing–psychologism); thus failing to perceive that the projective-insights for dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming-'notionally-collateralising-protohumanity'-to-'attain-sublimating-humanity',-as-to-existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness to supersede human temporality/shortness <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩)), as of deneuterising 'exteriorisation attitude/mental-disposition/care–and–episteme' of meaningfulness-and-teleology superseding/overriding prior reference-of-thought temporally neuterising 'interiorisation attitude/mental-disposition/care–and–episteme' of meaningfulness-and-teleology, reflects Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of human limited-mentation-capacity-deepening-⟨<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ implications wherein ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality is sublimatively rather about a 'seeding promise of human-subpotency ontological-performance-<including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence-as-of-its-

coherence/contiguity' that comes out short and which 'reinvigoration as of furthered ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen for originary/as-of-event reasoning-through/messianic-reasoning' induces the successive prospective relative-ontological-completeness-of-reference-of-thought as to the 'ontological-contiguity—of-the-human-institutionalisation-process as of reference-of-thought différance/internal-dialectics/difference-deferral'. The appropriate contemplative perspective for the appreciation of their schema/structural-or-paradigmatic-disseminative-implications is effectively cross-generational as of the amplitude/breadth of reference-of-thought implied transcendence-and-sublimity; as we can effectively appreciate that the very mathesis universalis schema/disseminative metaphoricity engendering our positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme is still ongoing today even as it is more clearly demarcated as initiated about 500 years ago. The overall logic of this notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised~preconverging/dementing–qualia-schema> analysis, implied as of prospective relative-ontological-completeness-of-reference-of-thought, can be understood simply as of the relation between existence which is already given and human-subpotency which as of prospective relative-ontological-completeness-of-reference-of-thought grasp more and more what is of the full-potency of existence by way of its axiomatic-constructs of existence or of purviews/domains of existence, with its grandest axiomatic-construct as an epistemic-totalising/circumscribing/delineating construct being the reference-of-thought. We can grasp that it is not existence and purviews/domains of existence which will adjust to human-subpotency for ontologically-veridical meaningfulness-and-teleology but rather human-subpotency adjusting as of existence-potency-prospective-digression-of—<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–

in-epistemic-conflatedness; with such adjusting being construed as of prospective relative-ontological-completeness. But then humankind as of its developed-and-invested habits and traditions about existence counterintuitively relates to existence and purviews/domains of existence as if it supersedes them, and thus do not or poorly construes of prospective relative-ontological-completeness-of-reference-of-thought/relative-ontological-completeness-of-axiomatic-construct as an issue of human-subpotency adjustment as of psychoanalytic-unshackling/prospective-grounding/prospective-reification, implied as of ontological-dementation/dialectical-dementation–stranding/attributive-dialectics with regards to the reference-of-thought transcendence. In lieu the poor intuition is to imply that we are already well grounded and that prospective meaningfulness-and-teleology is an incrementalism-in-relative-ontological-incompleteness to our already established psychoanalytic disposition rather than a maximalising-recomposuring-for-relative-ontological-completeness in resetting-our-psychoanalytic-disposition/prospective-grounding as of <~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought in conflatedness, such that this leads to constitutedness when so poorly psychoanalytically grounded on the naïve and ontologically-flawed basis that it is existence and purviews/domains of existence that adjust to our human-subpotency. Thus however counterintuitive, this overall conception structures the fact that it is as of ontological-dementation/dialectical-dementation–stranding/attributive-dialectics that our human <~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating reference-of-thought is transcended for prospective relative-ontological-completeness-of-reference-of-thought implied as of notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised~preconverging/dementing–qualia-schema>. In this regard, 'intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated

ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity' as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology is essentially one of shifting attitude/mental-disposition/care–and–episteme by the successive institutionalisations reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology, even though beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> human induced bias leads to a wholly immersed-and-engrossed focussing only at its given present institutionalisation's reference-of-thought 'present attitude/mental-disposition/care–and–episteme' as if other retrospective-and-prospective institutionalisations' reference-of-thought do not have their own attitude/mental-disposition/care–and–episteme as of their underlying relative-ontological-incompleteness and relative-ontological-completeness reference-of-thought. This phenomenological insight in recognising that there is 'an underlying metaphoricity-induced relative-emancipatory migration' from the mindset of the early hunter-gathers as of recurrent-utter-uninstitutionalisation towards modern man as of positivism–procrypticism to the prospective postmodern man as of deprocrypticism, calls for a full appreciation of this most profound phenomenological transcendental process of corresponding 'human attitude/mental-disposition/care–and–episteme migration' inducing successive apriorisings/aprioriising/axiomatising/referencing/intelligibilitysetup/measuringinstruments of human meaningfulness-and-teleology as of prospective relative-ontological-completeness-of-reference-of-thought; and so, as of retrospective and prospective meaningfulness-and-

teleology interpretation construed as historiality/ontological-eventfulness/ontological-aesthetic-tracing. Such a conception that goes beyond our natural inclination of 'referring to' and 'adhocly-and-scantily' identify other retrospective and prospective registry-worldviews/dimensions reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme from our present attitude/mental-disposition/care–and–episteme, towards an ontologically-veridical transparent 'to be or existing as wholly immersed-and-engrossed' existential projection insight about all registry-worldviews/dimensions attitude/mental-disposition/care–and–episteme is what underlies the protensive-consciousness of deprocrypticism, from which standpoint as of its ontological-completeness-of-reference-of-thought such an ontologically-veridical analysis of 'human attitude/mental-disposition/care–and–episteme migration' can be undertaken, for retrospective and prospective attitude/mental-disposition/care–and–episteme conception, and specifically as relevant for understanding prospective 'postmodern deprocrypticism or preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme'. In this regard, 'human attitude/mental-disposition/care–and–episteme migration' in reflecting the ontological-contiguity—of-the-human-institutionalisation-process induced Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology is instilled as of ontological-dementation/dialectical-dementation–stranding/attributive-dialectics wherein the prospective reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme is intemporally induced as deneuterising 'exteriorisation attitude/mental-disposition/care–and–episteme' of meaningfulness-and-teleology

superseding/overriding the prior reference-of-thought temporally neuterising 'interiorisation attitude/mental-disposition/care–and–episteme' of meaningfulness-and-teleology. The 'exteriorisation attitude/mental-disposition/care–and–episteme' implies meaningfulness-and-teleology as not referenced/registered/decisioned–as-ascribed/neuterised as of a prior reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology,

that is, not as of the prior reference-of-thought 'interiorisation attitude/mental-disposition/care–and–episteme', but rather referenced/registered/decisioned–as-deascribed/deneuterised as of the prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology;

with the latter construed as postconverging-or-dialectical-thinking–apriorising-psychologism and the former construed as preconverging-or-dementing–apriorising-psychologism. Thus a registry-worldview/dimension institutionalisation reference-of-thought always operates as if it is the absolute framework of meaningfulness-and-teleology, that is, by its 'interiorisation attitude/mental-disposition/care–and–episteme', notwithstanding the ontological-veridicality of its prior relative-ontological-incompleteness-of-reference-of-thought at its uninstitutionalised-threshold, as reflected by the prospective registry-worldview/dimension institutionalisation reference-of-thought in an 'exteriorisation attitude/mental-disposition/care–and–episteme' towards it. Consider in this regard the ontologically-veridical reflected immersed-and-engrossed attitude/mental-disposition/care–and–episteme with respect to the 'ill-health <~~amplituding~~/formative>epistemic-totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality' wherein the 'to be or existing as wholly immersed-and-engrossed' recurrent-utter-uninstitutionalisation existential-contextualising-contiguity-lowest-level-reification

perceptivity-as-of-bad-omen attitude/mental-disposition/care–and–episteme could involve a conversational stance of the sort, 'I have been stricken by a spirit', in an effusive-conversational-as-of-existential articulating of what can be done to allay such a spirit; or with respect to our positivism–procrypticism, in an effusive-conversational-as-of-existential articulating of a clinical analysis mainly as a patient ill-health state; or with respect to prospective postmodernism, in an effusive-conversational-as-of-existential articulating of associated socio-economic and socio-political factors behind a patient's ill-health. Basically, 'exteriorisation attitude/mental-disposition/care–and–episteme', as relevant for the conception of a 'postmodern exteriorisation attitude/mental-disposition/care–and–episteme relative to our modern take interiorisation attitude/mental-disposition/care–and–episteme', as of notional~deprocrypticism protensive-consciousness in ontological-completeness-of-reference-of-thought encapsulates: - underlying relative-ontological-incompleteness and relative-ontological-completeness reference-of-thought as of relative-nonextricatory-existential-preempting-of-existential-unthought over relative-existential-extrication-as-of-existential-unthought; - notional~disconguity of the prospective reference-of-thought over the prior reference-of-thought; - and prospective deascription/deneuterising psychologism/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument over prior ascription/neuterising psychologism/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument.

When so-construed prospectively, 'postmodern exteriorisation attitude/mental-disposition/care–and–episteme' is all about such a deprocrypticism or preempting—disjointedness-as-of-reference-of-thought as implied by its human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation 'originary postmodern-thought-process and other postmodern creative-processes avant-gardism' that are not in a reasoning-from-results/afterthought ontological entanglement with our 'modern take

attitude/mental-disposition/care–and–episteme'. Consider in this regard the reasoning-through/messianic-reasoning prospective structural/paradigmatic disseminative implications as of Derridean différance/internal-dialectics/difference-deferral, Foucauldian genealogy-knowledge-and-power-discourse and Deleuzian immanence experimentation that can all be construed (and as equally implied by this author's ontological-normalcy/postconvergence referentialism conception of historiality/ontological-eventfulness/ontological-aesthetic-tracing), as of prospective transcendence-and-sublimity singularisation/epistemic-immanence/veridical-epistemic-determinism for perpetuated/disseminative preemption of conceptual disjointedness. Thus ultimately the deprocrypticism registry-worldview/dimension is one that will be marked by sharper and sharper singularisation/epistemic-immanence/veridical-epistemic-determinism, construed as of its perpetuating/disseminating of the preemption of disjointedness. In this regard, singularisation/epistemic-immanence/veridical-epistemic-determinism retrospectively and prospectively reflects the notional~conflatedness/conflatedness implied as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality but with the latter as a 'seeding promise of human-subpotency ontological-performance-<including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence-as-of-its-coherence/contiguity' ever always coming short due to human temporal ontological-performance-<including-virtue-as-ontology> denaturing as of temporal/shortness-of-register-of-meaningfulness-and-teleology pedantic/formulaic alignment to 'apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology' for aposteriorising/logicising/deriving/intelligising/measuring meaningfulness, so-construed

at the uninstitutionalised-threshold as constitutedness, thus requiring prospective intemporal/longness-of-register-of-meaningfulness-and-teleology institutionalisation renewing of reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology that overcome the distortional implications of such pedantic/formulaic denaturing; by way of 'reinvigoration as of furthered ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen' for originary/as-of-event reasoning-through/messianic-reasoning. singularisation/epistemic-immanence/veridical-epistemic-determinism as such is a conception that grasps that 'axiomatic-constructs as of <~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving' is the meaningfulness-and-teleology format implied by the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality 'seeding promise of human-subpotency ontological-performance-<including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence-as-of-its-coherence/contiguity' with respect to any given '<~~amplituding~~/formative>epistemic-totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality', with potentially divergent meaningfulness-and-teleology implications as of underlying relative-ontological-incompleteness/relative-ontological-completeness arising from human limited-mentation-capacity-deepening-(<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation); with relative completeness increasingly attained, by way of 'reinvigorating as of furthered ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-

as-of-existential-reality parrhesiastic askesis-or-acumen' for originary/as-of-event reasoning-through/messianic-reasoning. Thus singularisation/epistemic-immanence/veridical-epistemic-determinism by its implied notional~conflatedness highlights that 'axiomatic-constructs as of <~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving' in reflecting of 'human-subpotency ontological-performance-<including-virtue-as-ontology> correspondence with the full-potency of existence in its coherence/contiguity' as of implied human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation, is effectively as of dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism to singularisation/epistemic-immanence/veridical-epistemic-determinism. That is singularisation/epistemic-immanence/veridical-epistemic-determinism points out that there is no inherent meaning of existence about existence as existence is tautologically what it is as existence, rather the notion of meaning arises as of the notion of human-subpotency strife to 'grasp what is existence', and that latter notion is all about human-subpotency 'axiomatic-constructs as of <~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving' human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation. In other words, meaning is always a human project to construe existence as of human limited-mentation-capacity-deepening-⟨<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ of 'axiomatic-constructs as of <~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving'. singularisation/epistemic-immanence/veridical-epistemic-determinism, and as reflected by this author's notion of ontological-normalcy/postconvergence referentialism conception of historiality/ontological-eventfulness/ontological-aesthetic-tracing, points out that dissingularisation/epistemic-nonimmanence/flawed-epistemic-

determinism as of human-subpotency ontological-performance-<including-virtue-as-ontology> correspondence with the full-potency of existence/intrinsic-reality/ontological-veridicality is ontologically-flawed, and that prospective relative-ontological-completeness reflects that singularisation/epistemic-immanence/veridical-epistemic-determinism as of human-subpotency ontological-performance-<including-virtue-as-ontology> correspondence with the full-potency of existence/intrinsic-reality/ontological-veridicality is what is rather ontologically-veridical. It is this prospective singularisation/epistemic-immanence/veridical-epistemic-determinism that reflects the effective possibility of a 'seeding promise of human-subpotency ontological-performance-<including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence-as-of-its-coherence/contiguity' as implied by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality; attainable as of human limited-mentation-capacity-deepening-(<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) of 'axiomatic-constructs as of <~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving', and so reflected by the notion of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension. This reality of the need to construe of human-subpotency ontological-performance-<including-virtue-as-ontology> correspondence with the full-potency of existence/intrinsic-reality/ontological-veridicality as of singularisation/epistemic-immanence/veridical-epistemic-determinism over dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism has increasingly been revealed as from the 'strangely axiomatic teleologically-thorough singularisation/epistemic-immanence/veridical-epistemic-determinism manifestations' of quantum entanglement, relativity theory implications, the teleologically constrained nature of

biological processes as more than just the parsimonious-or-disparate nature of organic matter but rather singularisation/epistemic-immanence/veridical-epistemic-determinism as of whole living organisms, and likewise human meaningfulness itself is a structuring/paradigming singularisation/epistemic-immanence/veridical-epistemic-determinism as of sharply defined teleological possibilities of social and individuals existence with respect to the different registry-worldviews/dimensions specific institutionalisations, etc. (Interestingly, as of this author's conception of such a teleological perception of existence as of its singularisation/epistemic-immanence/veridical-epistemic-determinism, as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation insights of postmodern-thought has been subject to naïve obfuscation grounded on the supposed privilege of 'science-ideology' over science-in-practice as an opened construct of scientific knowledge as of cause-and-effect constraint, and with the form of science at various times continually moulting as from the budding science of the days of Galileo and Copernicus, to Newtonian science, to Lavoisier laboratory science, to Einsteinian science to modern day institutional practices of science, with all fundamentally driven not by any 'purported science-ideology' but rather the practicality of results as of the constraint of the subject-domains of scientific study as of their existential-contextualising-contiguity knowledge-reification rather than 'any implied notion that naively supersede existence—as-the-absolute-a-priori-of-conceptualisation'. In this regard, it is interesting to note that the notion of science practised by the successive pioneers cited above are markly different from each other and all subjected rather to the implications of existential-contextualising-contiguity knowledge-reification of their purview/domain of existence/intrinsic-reality/ontological-veridicality. It is interesting as well to note for example that when equations didn't work out in reflecting existential-contextualising-contiguity, Einstein rather rethought and subjected human assumptions to existence—as-the-absolute-a-priori-of-

conceptualisation for his science, with such notions as space-time rather than traditional space and time; pointing out that there cannot be any ideology about science and it is rather the constraint for existential-contextualising-contiguity knowledge-reification that determines science practice, and so in existential conflatedness. Further, it had long dawned on this author that scam studies meant to undermine the validity of underlying constructivist and relativist insights about existential reality as implied by postmodern-thought including with respect to such implications in the natural sciences are rather 'supposedly invalidating' wholly with respect to the authors of such scam studies coming out with the arguments of their 'intendedness of invalidation'; with the legitimate contention that such ploys are thus surreptitious manoeuvres for preempting a given orientation of thought 'not because of the inherent invalidity of such orientations as of inherent theoretical knowledge arguments in undermining such orientations' but rather as a ploy of 'inducing popularised scientific ideology' to surreptitiously stifle such orientations without truly engaging in undermining its theorisation. Bogusness or non-bogusness is not a relevant scientific criteria, though granted it can be a relevant criteria for 'surreptitious media-driven invalidation', as science-in-practice is about ultimate cause-and-effect relationships, and in practical terms many scientific studies are rather elaborated as of 'deferred cause-and-effect constraint' as a reifying gesture for ultimate cause-and-effect determination. The fact that similar scam studies for the 'intendedness of invalidation' cannot be construed as scientifically valid with respect to any given orientation of study renders such manoeuvres intellectually void, and whatever their underlying 'covert goals' and however genuine their authors are of intent. It is very much important in this regard that intellectuals, whether in the natural sciences or in the social and humanities, not be cowered/enframed by non-intellectual/extra-intellectual approaches to 'acknowledged intellectual ways and approaches for intellectual argumentation', and not even if such approaches are media-driven, so because much that is

central and critical to intellectualism is about exploring all possibilities.) All these highlight an underlying ontology's-directedness-as-Being that bears notional~conflatedness singularisation/epistemic-immanence/veridical-epistemic-determinism implications, as of ontologically-veridical singularisation/epistemic-immanence/veridical-epistemic-determinism of human-subpotency ontological-performance-<including-virtue-as-ontology> correspondence with the full-potency of existence/intrinsic-reality/ontological-veridicality over ontologically-flawed dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism; and yet our psychological disposition is more often than not geared to ontologically-flawed dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism that tend to be absolutised in constitutedness of prior reasoning-from-results/afterthought mental-reflexes of <~~amplituding~~/formative>wooden-language-⟨imbued— temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology⟩, and so failing to grasp that the very principle of human institutional-cumulation/institutional-recomposure in reflecting the ontological-contiguity—of-the-human-institutionalisation-process itself is one driven by the future as of its own reasoning-through/messianic-reasoning attitude/mental-disposition/care–and–episteme' which reflects an increasing orientation away from identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism as-cloistered-within-the-same-reference-of-thought towards difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism protracted-teleological-wholeness/nested-congruence-in-reflecting-the-ontological-contiguity—of-the-human-institutionalisation-process,-so-construed-as-singularisation/epistemic-immanence/veridical-epistemic-determinism', and so because the future is as of prospective relative-ontological-completeness-of-reference-of-thought and takes precedence for its

aprioriotsing/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of increasing axiomatic teleological wholeness/nested-congruence or prospective relative-ontological-completeness-of-reference-of-thought. For instance, with regards to 'the very same ill-health ~~amplituding~~/formative>epistemic-totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality/ontological-veridical', with the successive reference-of-thought ontological-dementation/dialectical-dementation–stranding/attributive-dialectics at their uninstitutionalised-thresholds inducing successive displacement of human-subpotency reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology, it is rather singularisation/epistemic-immanence/veridical-epistemic-determinism ontologically-veridical reference-of-thought-level difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism protracted-teleological-wholeness/nested-congruence-in-reflecting-the-ontological-contiguity—of-the-human-institutionalisation-process,-so-construed-as-singularisation/epistemic-immanence/veridical-epistemic-determinism' that effectively reflects the historiality/ontological-eventfulness/ontological-aesthetic-tracing (and so over identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism as-cloistered-within-the-same-reference-of-thought that will simply imply the obliviousness of one reference-of-thought from the other since 'identity of meaningfulness-and-teleology' is wrongly fixed-and-set as of each registry-worldview's/dimension's reference-of-thought cloistered-consciousness). As it is prospective relative-ontological-completeness-of-reference-of-thought of human-subpotency that brings about 'better and better axiomatic teleological wholeness/nested-congruence of meaningfulness-and-teleology' increasing human-subpotency ontological-performance-<including-virtue-as-ontology> correspondence with the full-potency of existence/intrinsic-reality/ontological-veridicality, and so from: existential-contextualising-contiguity-lowest-

This insight about ontological-performance-<including-virtue-as-ontology> as of prospective relative-ontological-completeness of human-subpotency can be garnered with respect to any axiomatic-construct as the meaningfulness-and-teleology representation of human-subpotency ontological-performance-<including-virtue-as-ontology> correspondence with the full-potency-of-existence-as-of-its-coherence/contiguity or a purview/domain of existence/intrinsic-reality/ontological-veridicality, and so not only with regards to the reference-of-thought as the grandest axiomatic-construct. This fundamentally points out that at uninstitutionalised-thresholds, human cognition which is rather in 'excogitative-blanking of prospective institutionalisation existential-contextualising-contiguity-in-reification'

suffers-and-fails to relay the 'seeding promise of human-subpotency ontological-performance-<including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence-as-of-its-coherence/contiguity' for prospective institutionalisation as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism protracted-teleological-wholeness/nested-congruence-in-reflecting-the-ontological-contiguity—of-the-human-institutionalisation-process,-so-construed-as-singularisation/epistemic-immanence/veridical-epistemic-determinism'; since this potential for such singularisation/epistemic-immanence/veridical-epistemic-determinism is denaturing as of identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism as-cloistered-within-the-same-reference-of-thought at its uninstitutionalised-threshold. We can appreciate that with regards to 'the very same ill-health <~~amplituding~~/formative>epistemic-totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality' highlighted above, the various successively human-subpotency ontological-performance-<including-virtue-as-ontology> of prior perceptivities as successive uninstitutionalised-thresholds are rather in 'excogitative-blanking of the prospective institutionalisation existential-contextualising-contiguity-in-reification' (by their identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism as-cloistered-within-the-same-reference-of-thought), as overlooking their successively prospective perceptivities which are actually in prospective relative-ontological-completeness-of-reference-of-thought as enabling/cogent-with difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism protracted-teleological-wholeness/nested-congruence-in-reflecting-the-ontological-contiguity—of-the-human-institutionalisation-process,-so-construed-as-singularisation/epistemic-immanence/veridical-epistemic-determinism'. The notion of human 'excogitative-blanking of the prospective institutionalisation existential-contextualising-

contiguity-in-reification' can equally be elucidated with regards to a devolved axiomatic-construct of the reference-of-thought. For instance, we can grasp that with regards to 'the very same physics <~~amplituding~~/formative>epistemic-totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality', the perceptivity of 'traditional classical mechanics axiomatic-construct' had rather been in 'excogitative-blanking of the prospective construal of existential-contextualising-contiguity-in-reification' reflected by the prospective theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as the latter's prospective relative-ontological-completeness reflects the former's prior relative-ontological-incompleteness as dialectically out-of-phase/preconverging-or-dementing–apriorising-psychologism. This insight about human 'excogitative-blanking of the prospective institutionalisation existential-contextualising-contiguity-in-reification' at uninstitutionalised-thresholds actually highlights that from a prospective perspective of prospective relative-ontological-completeness-of-reference-of-thought our positivism–procrypticism registry-worldview/dimension is very much imbued with a flawed ontological-performance-<including-virtue-as-ontology>, as is the case with all other prior registry-worldviews/dimensions, 'when we seem to perceive-and-think that our social world of meaningfulness-and-teleology is coherent, failing to factor in that it is preconverging-or-dementing–apriorising-psychologism at its uninstitutionalised-threshold as reflected as disjointedness-as-of-reference-of-thought preconverging-or-dementing–apriorising-psychologism by futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism or preempting—disjointedness-as-of-reference-of-thought'; as this false sense of coherence is actually the effect of our prior relative-ontological-incompleteness-of-reference-of-thought

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument

<amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag which we necessarily relate to as if of ontological-completeness-of-reference-of-thought, and this further explains as reflected from their prospective relative-ontological-completeness-of-reference-of-thought the notional~procrypticism/notional~disjointedness of all registry-worldviews/dimensions as of their prior relative-ontological-incompleteness-of-reference-of-thought denaturing meaningfulness-and-teleology as of their identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism as-cloistered-within-the-same-reference-of-thought. Concretely, the latter translates at the uninstitutionalised-threshold as of human-subpotency temporality/shortness or shortness-of-register-of-meaningfulness-and-teleology flawed ontological-performance-<including-virtue-as-ontology>s, 'being construed temporally as determinative by <amplituding/formative>wooden-language-⟨imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology⟩, of a given registry-worldview/dimension reference-of-thought supposedly intemporal/longness-of-register-of-meaningfulness-and-teleology reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology, as of temporal dynamic manifestations of postlogism-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of reference-of-thought-devolving ontological-performance-<including-virtue-as-ontology>s beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>. This arises because within

the institutionalisation framework of a registry-worldview/dimension human construal of its existential-contextualising-contiguity knowledge-reification is only as effective as of the institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology' in universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<s>amplituding</s>/formative⟩epistemic-totalising–in-relative-ontological-completeness⟩, thus providing a 'perceptual perspective/framing/reference/horizon of meaningfulness-and-teleology about its existential-contextualising-contiguity knowledge-reification'. But then at uninstitutionalised-thresholds where meaningfulness-and-teleology is denaturing, this prior institutionalisation 'perceptual perspective/framing/reference/horizon of meaningfulness-and-teleology about existential-contextualising-contiguity' gives a false certainty/assurance, such that human-subpotency existentially-constrained temporal ontological-performance-<including-virtue-as-ontology>s as of <s>amplituding</s>/formative⟩wooden-language-⟨imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology⟩ in usurpation of that 'perceptual perspective/framing/reference/horizon of meaningfulness-and-teleology about its existential-contextualising-contiguity knowledge-reification' tend to be overlooked as of mental-reflex since existentially the bulk of meaningfulness-and-teleology within the given registry-worldview/dimension as of its institutionalisation conforms-to/complies-with its 'perceptual perspective/framing/reference/horizon of meaningfulness-and-teleology about existential-contextualising-contiguity knowledge-reification', but with a shadowy uninstitutionalised-threshold always eloping to such institutionalisation conforming/complying as of prior relative-ontological-incompleteness-of-reference-of-thought, and as lack of universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-

<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness） as to 'excogitative-blanking of prospective existential-contextualising-contiguity-in-reification' elicits human temporal/shortness-of-register-of-meaningfulness-and-teleology uninstitutionalised mental-dispositions. Such 'excogitative-blanking of prospective existential-contextualising-contiguity-in-reification' can be construed as to when say the non-positivistic mindset goes about articulating meaningfulness-and-teleology falsely as if superstitious notions ontologically-veridical out of prospective positivism existential-contextualising-contiguity-reification, and likewise with regards to a positivism–procrypticism/disjointedness-as-of-reference-of-thought mindset construal of meaningfulness-and-teleology that utterly overlooks the structural/paradigmatic reference-of-thought denaturing implications of its prospective disjointedness of meaningfulness-and-teleology out of prospective existential-contextualising-contiguity-reification, as such disjointedness-as-of-reference-of-thought can be instigated originally from a postlogism-slantedness mental-disposition and the developing social dynamics with human temporality. We can appreciate in this sense that even within a non-positivistic social-setup as animistic or medieval for instance, despite the fact that it is susceptible to ontologically-flawed superstitious beliefs like notions-and-accusations-of-sorcery, the bulk of human action will be in good intent as of its institutionalisation framework 'perceptual perspective/framing/reference/horizon of meaningfulness-and-teleology about existential-contextualising-contiguity'; but then at its uninstitutionalised-threshold where its reference-of-thought structural/paradigmatic ontological-flawed implications of believing in superstition set in as of its prior relative-ontological-incompleteness-of-reference-of-thought, it always systemically faces notional~procrypticism/notional~disjointedness as of vices-and-impediments arising from non-positivism/superstitious human-subpotency existentially constrained temporal ontological-performance-<including-virtue-as-ontology>s as

<amplituding/formative>wooden-language-⟨imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology⟩ in usurpation of the prior institutionalisation 'perceptual perspective/framing/reference/horizon of meaningfulness-and-teleology about existential-contextualising-contiguity' now in false certainty/assurance. This points out that when consciously aware of uninstitutionalised-threshold manifestation, we can't naively operate as of our prior institutionalisation 'perceptual perspective/framing/reference/horizon of meaningfulness-and-teleology about existential-contextualising-contiguity', as of the fact of the beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> preconverging-or-dementing–apriorising-psychologism human-subpotency existentially constrained temporal ontological-performance-<including-virtue-as-ontology>s as <amplituding/formative>wooden-language-⟨imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology⟩ in usurpation; such that an enlightened insight is able to bring up and examine a preconverging-or-dementing–apriorising-psychologism representation as temporal denaturing ontological-performance-<including-virtue-as-ontology>s of the prior institutionalisation 'perceptual perspective/framing/reference/horizon of meaningfulness-and-teleology about existential-contextualising-contiguity'. But this conception is a reflection of more than just ad-hoc temporal manifestations at uninstitutionalised-thresholds but rather points out, besides the trite or more grave consequences of this state of affairs as a result of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, that the possibility for all prospective institutionalisations necessarily passes through understanding 'human-

subpotency existentially constrained temporal ontological-performance-<including-virtue-as-ontology>s as <s>amplituding</s>/formative>wooden-language-⟨imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology⟩ of the prior registry-worldview/dimension in usurpation', which understanding is actually what empowers the possibility for prospective institutionalisations that surpersede/transcend it. In other words, humans in the various prior institutionalisations before our positivism were not limited to their various registry-worldviews/dimensions as recurrent-utter-uninstitutionalisation, base-institutionalisation, universalisation and our positivism just because they were inherently different from us as a species, but because of the need for the necessary institutional-cumulation/institutional-recomposure of understanding as of its organic-knowledge to enable the very same species to accede prospective institutionalisations as of human-subpotency adjusting to the full-potency of existence, and not the false certainty/assurance that any human registry-worldview/dimension is fully developed and that existence/intrinsic-reality/ontological-veridicality will adjust to it, however our myopic/cloistered 60 – 100 years of living perspective. That is, grounding of meaningfulness-and-teleology is certainly required, but as of transcendence-and-sublimity it is not about grounding as of the present but rather as of psychoanalytic-unshackling/prospective-grounding/prospective-reification for prospective relative-ontological-completeness-of-reference-of-thought; and as highlighted elsewhere it is ontological-completeness-of-reference-of-thought (of human-subpotency as of its limited-mentation-capacity-deepening-⟨<s>amplituding</s>/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩) that can imply human-subpotency ontological-performance-<including-virtue-as-ontology> correspondence with the full-potency of existence. It should be noted here that this ontology's-directedness-as-

Being/ontologically-veridical notion of human-subpotency singularisation/epistemic-immanence/veridical-epistemic-determinism ontological-performance-<including-virtue-as-ontology> correspondence with the full-potency of existence is a notion of teleology in notional~conflatedness as of ontological-normalcy/postconvergence (with teleology fundamentally construed as 'phenomenal/manifest conceptivity/epistemic-reflexivity in existence as ontological (so-reflecting ~~amplituding~~/formative>disposedness-⟨as-to-orientation/value-construct/valuation–and–derived-parameterising⟩ and ~~amplituding~~/formative>entailment-⟨as-to-totalising-contiguous/coherent–factuality-of-variability⟩)' and so as to the specific human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-<imbued-and-educed–human-subpotency–epistemic-perspective-of-aestheticising-motif-and-apriorising/axiomatising/referencing-conceptualisation>), as utterly different from a traditional conception of teleology as of dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism that is rather in constitutedness as it reflects prior relative-ontological-incompleteness-of-reference-of-thought as of identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism cloistered reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. The constraining implications of existential-contextualising-contiguity knowledge-reification as of human ⟨~~amplituding~~/formative⟩epistemic-totalising~thrownness-in-existence (I exist therefore existence is transcendental-enabling/sublimating to my human-subpotency / hyperbole-of-

Rather it is more candid to relate to the ontological-contiguity—of-the-human-institutionalisation-process as of human limited-mentation-capacity-deepening-(<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation), and so as of prospective intemporal secondnatured institutionalisation induced universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness), deferential-formalisation-transference and habituation in positive-opportunism. Central to any such prospective institutionalisation transcendental-enabling/sublimating meaningfulness-and-teleology is the fact that the human mind is not necessarily geared to come to terms with prospective relative-ontological-completeness-of-reference-of-thought without the necessary psychoanalytic-unshackling/prospective-grounding/prospective-reification as of the developed disposition to register such implications as of their intemporal/longness-of-register-of-meaningfulness-and-teleology pertinence; as the notion of cross-generational ontological-dementation/dialectical-dementation–stranding/attributive-dialectics herein highlighted has ever always been an unconscious human mental process, wherein the mental-disposition hardly places itself in a situation of explaining how its own very present mental-disposition comes about from preceding generations mental-dispositions and drawing the implications, in going beyond

excogitative-blanking as of the present in a cloistered-consciousness but which is paradoxically necessarily the framework of such transcendentally implying meaningfulness-and-teleology. Thus the metaphoricity exercise of transcendence is not one of necessarily eliciting instant meaningfulness-and-teleology universal approbation but rather instigating universal untenability as of ontological-primemovers-totalitative-framework for prospective universal positive-opportunism; as we can appreciate that in reality the possibility of the successive institutionalisations was not the outcome of every human soul grasping the implications as of the successive transcendence but rather as of a generative dynamics as of critical drift/gravitating effect in reflection of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism protracted-teleological-wholeness/nested-congruence-in-reflecting-the-ontological-contiguity—of-the-human-institutionalisation-process,-so-construed-as-singularisation/epistemic-immanence/veridical-epistemic-determinism'. Furthermore, the implications of 'notional-discontiguity/epistemic-discontiguity-with/falling-short-of prospective institutionalisation existential-contextualising-contiguity-in-reification' as of singularisation/epistemic-immanence/veridical-epistemic-determinism as the latter reflects ontological-completeness-of-reference-of-thought, with regards to the construal of meaningfulness-and-teleology as teleologically-elevated or teleologically-degraded, is that the conception of ontological-veracity of meaningfulness-and-teleology varies as of underlying relative-ontological-incompleteness and relative-ontological-completeness reference-of-thought; for instance with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-

'human<amplituding/formative>epistemic-totalising~purview-of-construal', the meaningfulness-and-teleology of a positivistic mindset with the idea of going into a supposed evil forest to collect a plant root as a cure in say an animistic social-setup will probably be construed as ridiculous as of its prior relative-ontological-incompleteness-of-reference-of-

The fundamental implication here is that transcendental meaningfulness-and-teleology is hardly construed in any presence registry-worldview/dimension reference-of-thought as of its rather prospective relative-ontological-completeness-of-reference-of-thought, and thus elicits the presence prior relative-ontological-incompleteness-of-reference-of-thought <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag; with the possibility of transcendence arising as of cross-generational induced metaphoricity. reification. Reification as such is teleologically reflected as of singularisation/epistemic-immanence/veridical-epistemic-determinism as it reflects ontologically-veridical meaningfulness-and-teleology; as reification arises as of the structural/paradigmatic ~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity of the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality potentiative-aspiration for prospective relative-ontological-completeness-of-reference-of-thought from within a prior relative-ontological-incompleteness-of-reference-of-thought. Reification here as from this singularisation/epistemic-immanence/veridical-epistemic-determinism insight, with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human~~amplituding~~/formative>epistemic-totalising~purview-of-construal' implies the structural/paradigmatic ~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity of meaningfulness-and-teleology as of the prospective relative-ontological-completeness-of-reference-thought construed as maximalising-recomposuring-for-relative-ontological-completeness over the prior relative-ontological-incompleteness-of-reference-of-thought construed as incrementalism-in-relative-ontological-incompleteness; wherein the prospective relative-ontological-completeness-of-reference-thought is in a reified overlooking/superseding of the prior relative-ontological-incompleteness-of-reference-of-thought. In other words, reification is about apriorising-teleological resetting of ~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating meaningfulness-and-teleology to the prospective relative-ontological-completeness-of-reference-of-thought. Lacking such an insight about reification will induce an ontologically-flawed apriorising-teleological-elevation-in-ontological-contiguity of the prior relative-ontological-incompleteness-of-reference-of-

thought which is in dereification and the corresponding ontologically-flawed apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised~preconverging/dementing–qualia-schema> of the prospective relative-ontological-completeness-of-reference-of-thought which is as of reification; wherein dereification involves teleological embrangling/muddling/underdetermining meaningfulness-and-teleology to the prior relative-ontological-incompleteness-of-reference-of-thought. This is because the lack of reification wrongly implies that the <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ reference-of-thought framework of registry-worldviews/dimensions are the absolute determinants of intemporal value reference, such that the <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ reference-of-thought framework of recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism, positivism–procrypticism and deprocrypticism, are paradoxically-and-falsely equally the absolute determinants of intemporal value reference; whereas reification highlights that all the successive institutionalisations are as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<~~amplituding~~/formative>epistemic-totalising~purview-of-construal', but of varying ontological-performance-<including-virtue-as-ontology> as of their prospective relative-ontological-completeness-of-reference-of-thought, as of human limited-mentation-capacity-deepening-⟨<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩. The implication here is that the social-construct has ever always been a threshold as of its prior institutionalisation as well as a threshold as of its uninstitutionalised-threshold; wherein respectively there is positive-opportunism for prior institutionalisation and no positive-opportunism for prospective institutionalisation, explaining the developing reality of the various successive human registry-worldview's/dimension's institutionalisations, as of retrospective and prospective implications. This fundamentally points to a 'human psychology of positive-opportunism as of prior-institutionalisation-reification and uninstitutionalised-threshold-dereification', that points out that hitherto the ontological-contiguity—of-the-human-institutionalisation-process has not been about 'dimensionality-of-sublimating—<s>amplituding</s>/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation temporal individuations dispositions' transformation into 'dimensionality-of-sublimating—<s>amplituding</s>/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-

The basis for this 'human psychology of positive-opportunism as of prior-institutionalisation-reification and uninstitutionalised-threshold-dereification', is the fact that humankind is caught up in intemporal-reification and temporal-dereification as of existential-constraint of ontological-performance-<including-virtue-as-ontology> given its limited-mentation-capacity; wherein the 'social-construct uninstitutionalised-threshold' as of 'no

recomposure of 'intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism ~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity', while dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism existentially-implied as of 'relative notional reification-dereification' as of human shallow to deepening limited-mentation-capacity effectively reflects the ontological-contiguity—of-the-human-institutionalisation-process as of prior successive institutional-cumulation/institutional-recomposure towards the attainment of deprocrypticism. Thus reification aetiologisation/ontological-escalation is implied as of human ontological-performance-<including-virtue-as-ontology> potentiative-aspiration for singularisation/epistemic-immanence/veridical-epistemic-determinism. Ultimately, it is the reification of meaningfulness-and-teleology as of the prospective relative-ontological-completeness-of-reference-of-thought that reflects intemporal value reference, and not the <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ as of the prior relative-ontological-incompleteness-of-reference-of-thought as of temporal-to-intemporal ontological-performance-<including-virtue-as-ontology> which is rather in <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. Reification as such points out intellectual-and-moral inequivalence thus dismissing as ontologically-flawed a cross-examining/mutual-contending of the prospective relative-ontological-completeness-of-reference-of-thought and the prior relative-ontological-incompleteness-of-reference-of-

thought; as the latter is in 'notional-discontiguity/epistemic-discontiguity-with/falling-short-of prospective institutionalisation existential-contextualising-contiguity-in-reification' and so, successively as of falling-short-as-needing-rules with recurrent-utter-uninstitutionalisation to then contend with base-institutionalisation, falling-short-as-needing-universalising-rules with base-institutionalisation–ununiversalisation to then contend with universalisation, and falling-short-as-needing-positivistic-universal-rules with universalisation–non-positivism/medievalism to then contend with positivism, falling-short-as-needing-preempting—disjointedness-as-of-reference-of-thought with our positivism–procrypticism to then contend with futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism or preempting—disjointedness-as-of-reference-of-thought. Consider in this regard, the peregrinations of say a Descartes or Rousseau wherein in many ways they will fail to fulfil the mundane medieval world conception of 'the supposedly good life' as of its <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, as they reify meaningfulness-and-teleology by their peregrinations to construe of the structural/paradigmatic underdevelopment/unenlightenment of their society as in need of prospective positivistic reflection of the notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised~preconverging/dementing–qualia-schema> of non-positivism/medievalism as of their ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality singularisation/epistemic-immanence/veridical-epistemic-determinism reified insight. The insight here about reification is that all their intemporal value references are rather as subsumed in their 'positivistic reification of meaningfulness-and-teleology' as of their prospective relative-ontological-completeness-of-reference-of-thought with the

corresponding implications of human 'prospective positivistic transcendence-and-sublimity ontological-performance-<including-virtue-as-ontology>' as aetiologisation/ontological-escalation, and so over non-positivism/medievalism vices-and-impediments. By that token they are effectively of the most intellectually-and-morally inclined persons of their society. Contrastively, the temporal value reference as of non-positivism/medievalism <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ mental-dispositions of persons like 'honourable aristocrats' simply reified to the universalisation–non-positivism/medievalism registry-worldview/dimension with its prior relative-ontological-incompleteness-of-reference-of-thought vices-and-impediments, while favourably looked upon as of non-positivism/medievalism society <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag from a prospective singularisation/epistemic-immanence/veridical-epistemic-determinism insight points to such a prior registry-worldview/dimension denaturing meaningfulness-and-teleology, and implying effectively that they are of lesser intellectual-and-moral dialogical-equivalence. This further explains why vague classification schemes of value like good-naturedness, kindness, honesty, etc. have no inherent meaning as of themselves, as all the meaningfulness-and-teleology that there is and can exist is ontological as of prospective relative-ontological-completeness, such that any such implied meaning is only ontologically intelligible with its reification as of prospective relative-ontological-completeness-of-reference-of-thought, as so implied from singularisation/epistemic-immanence/veridical-epistemic-determinism as the reflection of ontologically-veridical meaningfulness-and-teleology. This points out that as of its very own <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, a registry-

worldview/dimension reference-of-thought is not the ontologically-veridical point of conceptualisation of intemporal value reference, which is rather as of prospective relative-ontological-completeness-of-reference-of-thought reification of meaningfulness-and-teleology, as we can appreciate with regards to all prior institutionalisations but will certainly be complexified/inhibited to construe the same as of our positivism–procrypticism as from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism or preempting—disjointedness-as-of-reference-of-thought prospective relative-ontological-completeness perspective. The fact is no registry-worldview/dimension as of its temporal/shortness-of-register-of-meaningfulness-and-teleology ⟨amplituding/formative⟩wooden-language-⟨imbued—averaging-of-thought-⟨as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications⟩⟩ instigated prospective transcendence, is construed as 'putting-into-question its existentially invested conception of meaningfulness-and-teleology', which is rather a contradiction of sorts given human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor. Rather besides cultural-diffusion pressures, all human transcendence as of internal processes are rather as of re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-⟨imbued-postconverging/dialectical-thinking-'projective-insights'/'epistemic-projection-in-conflatedness'-of-notional~deprocrypticism-prospective-sublimation⟩ intemporal/longness-of-register-of-meaningfulness-and-teleology individuations dynamic metaphoricity instigation in prospective relative-ontological-completeness-of-reference-of-thought reifying gestures as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-

aprioriring/axiomatising/referencing–as-so-being-as-of-existential-reality, which by this token is rather concerned with the beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> denaturing of the prior institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology at its uninstitutionalised-threshold in 'notional-discontiguity/epistemic-discontiguity-with/falling-short-of prospective institutionalisation existential-contextualising-contiguity-in-reification'. However, this 'ontologically-veridical reification of value reference as of prospective relative-ontological-completeness' and the 'ontologically-flawed dereification of value reference as of prior relative-ontological-incompleteness' is associated with a fundamental paradox/confusion with regards to sound human intellection at destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>—of-ontological-performance-<including-virtue-as-ontology> . As this reification/dereification of meaningfulness-and-telelogy paradox/confusion has always provided the room for intellectual-and-moral charlatanism throughout human history as of lack of universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩. With such charlatanism certainly knowing better but opting for denaturing conceptions of value reference as of <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-aprioriring-implications>⟩ advancement of temporal interests in stifling the possibility of prospective human intellectual-and-moral emancipation. The idea of ontological-bad-faith/inauthenticity raised herein by this author is a reflection of the reality that knowledge as organic-knowledge is existentially all-committal by the mere fact of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—

imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, with the possibility of denaturing as of social-stake-contention-or-confliction, and particularly so in spurious and blurry domains of study not readily/easily constraint to ontological-primemovers-totalitative-framework reflection of existential-contextualising-contiguity. This brings up the implication of what is truly transcendental knowledge by its nature as of knowledge-notionalisation and organic-knowledge. Transcendental knowledge is actually institutionalising and re-institutionalising, implying it supersedes institutional practices and constructs as to the possibility for prospective institutionalisation, and so as of its dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation

inducing institutional secondnaturing. It is rather not out of the question that knowledge so-construed as of prospective transcendence implications put-into-question as 'charlatanic' institutions and their practices construed as of prior relative-ontological-incompleteness-of-reference-of-thought specifically as extra-intellectual and pedantic orientations that undermine the advancement of their supposed prospective intellectual and emancipatory vocations. Interestingly, we can garner that positivistic knowledge arose and was cultivated as of 'its very own aprioris/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme conception of knowledge' that superseded and didn't recognise-and-submit to scholastic pedantry for its validation, as it construed that the latter wasn't meant/structured/paradigmed to uphold and perpetuate positivism implied transcendental knowledge as of prospective relative-ontological-completeness-of-reference-of-thought; and in due course, by its ontological-primemovers-totalitative-framework constraining it cross-generationally overrode scholastic pedantry. It is herein contended that it isn't out of the question that a creeping and slumbering institutional-being-and-craft

intellectual tedium today increasingly fails to elicit the full re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-⟨imbued-postconverging/dialectical-thinking-'projective-insights'/'epistemic-projection-in-conflatedness'-of-notional~deprocrypticism-prospective-sublimation⟩ potential for prospective intellectual emancipation, and so rather as of structural institutionally-induced and societally-induced anti-intellectualism implications. The question can further be asked whether transcendental implied knowledge can actually be construed as the subject of 'understanding' of prior relative-ontological-incompleteness-of-reference-of-thought with the latter's <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, given the psychoanalytic-unshackling/prospective-grounding/prospective-reification implications of transcendental knowledge. Is transcendental knowledge as of that token rather more a metaphoricity constraint as of ontological-primemovers-totalitative-framework for the possibility of prospective transcendence as more than just about abstract intellection but extending intellectualism to supersede the existential-investment implications that underlie excogitative-blanking to such prospectively implied 'understanding' as of transcendental knowledge. From the prior relative-ontological-incompleteness-of-reference-of-thought naïve non-transcendental <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, it may be thought/reasoned that a transcendentally projecting intemporal mental-disposition is rather uncanny about the 'existential-extrication-as-of-existential-unthought malignity reality of existence' construed as pragmatic living, but this rather confirms the 'dereifying irresponsibility' of such temporal thought/reasoning mental-dispositions 'caught up mainly in their 60-to-100 years of existence reality of meaningfulness-and-teleology'. The intemporal 'reifying choice-and-adherence' to the 'reified assumed-responsibility' of aetiologisation/ontological-escalation is ever always a

reasoning-through/messianic-reasoning that by definition is not in a 'reasoning with' relation with reasoning-from-results/afterthought deficient prior institutionalising; and certainly explaining why uninstitutionalised-thresholds transcending has ever always been conflicted as to the necessary reality of imposing the 'superior party' that is as of the full-potency existence/existential-reality/intrinsic-reality/ontological-veridicality over the denaturing mortals that we are for our prospective emancipation. Without an insight about reification and dereification, the notion of singularisation/epistemic-immanence/veridical-epistemic-determinism as it reflects ontological-completeness-of-reference-of-thought for ontologically-veridical meaningfulness-and-teleology is easily misconstrued since denaturing of meaning in dereification will be teleologically-elevated and meaning produced as of reification will be teleologically-degraded; as so blatantly obvious particularly with the dereification manifestation of childhood psychopathy postlogism-slantedness but then takes on a wholly covert nature as of adulthood psychopathy and social psychopathy dynamics. In this regard, divergent as of temporal-to-intemporal dynamics of human ontological-performance-<including-virtue-as-ontology> of aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology reflecting dereified and reified construals of existential-contextualising-contiguity is to be expected, and assessable on the basis of a commonly expected apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, which then speaks of a dialogical-equivalence of both temporal mental-dispositions and the intemporal mental-disposition with no dereification and reification contrast. However, compounding this situation making relevant the need to contrast reification and dereification and imply moral-and-intellectual inequivalence together with dialogical inequivalence, and so between temporal mental-dispositions and intemporal mental-disposition, is specifically the flawed ontological-performance-<including-virtue-as-ontology> manifestation of psychopathy and social psychopathy which is 'structurally/paradigmatically associated with

the denaturing of the ~~amplituding~~/formative>epistemic-totalising~devolved apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument', and arises so fundamentally with regards to the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument which is the ~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag backdrop for existential-instantiations aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology; with the fundamental implication that there are thus divergent apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments as of psychopathic induced postlogism-slantedness, and its social cognisance and integration as conjugated-postlogism so-conjugating as of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation as of social psychopathy. In this latter case of contrasted reification and dereification and implying moral-and-intellectual inequivalence together with dialogical inequivalence, and so between temporal-as-psychopathic-and-social-psychopathic mental-dispositions and the intemporal mental-disposition, and so-implied as of 'disseminative-notional-discontiguity/epistemic-discontiguity—contrastive-reification-dissemination-and-dereification-dissemination-implications' construed as the 'variance/discrepancy of meaningfulness-and-teleology' as-of-prospective-relative-ontological-completeness-postconverging-or-dialectical-thinking–apriorising-psychologism and as-of-prior-relative-ontological-incompleteness-preconverging-or-dementing–apriorising-psychologism respectively; it is only ontologically-veridical difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism from the projected 'notional—singularisation/epistemic-immanence/veridical-epistemic-determinism' of the intemporal mental-disposition as-of-prospective-relative-

ontological-completeness-postconverging-or-dialectical-thinking–apriorising-psychologism recognising this 'preconverging-or-dementing–apriorising-psychologism and postconverging-or-dialectical-thinking–apriorising-psychologism variance/discrepancy of meaningfulness-and-teleology' that induces an ontologically-veridical disambiguation of dereified and reified construals of existential-contextualising-contiguity as implied by the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments as of reifying intemporal/valid/postconverging-or-dialectical-thinking apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in prospective relative-ontological-completeness apriorising-teleological-elevation-in-ontological-contiguity and as of dereifying temporal-as-psychopathic-and-social-psychopathic/invalid/preconverging-or-dementing–apriorising-psychologism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments in prior relative-ontological-incompleteness-apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised~preconverging/dementing–qualia-schema> (psychopathic and social psychopathic), and so before aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology can even be then articulated as ontologically-veridical exclusively as of the intemporal/valid/postconverging-or-dialectical-thinking apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument perspective or attitude/mental-disposition/care–and–episteme. Such a difference-conflatedness-as-of-epistemic-totality is equally what reflects in the bigger scheme of things, at the reference-of-thought-level, the reality of humankind as of the successive registry-worldviews/dimensions humans psychological dispositions as per their corresponding apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments. In this regard, the ontological-contiguity—of-the-human-institutionalisation-process can be construed as

axiomatic-construct' is dereified as of its prior relative-ontological-incompleteness to theory-

of-relativity-together-with-quantum-mechanics—axiomatic-constructs which is rather reified

as of its prospective relative-ontological-completeness; such that interestingly to construe, as

of ontological-veridicality, the reality of 'traditional classical mechanics axiomatic-construct'

requires rather assuming/departing-from an understanding of existential-contextualising-

contiguity knowledge-reification as implied by the reifying theory-of-relativity-together-

with-quantum-mechanics—axiomatic-constructs in articulating ontologically-veridical difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism from this projected 'notional—singularisation/epistemic-immanence/veridical-epistemic-determinism' as of theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs perspective or attitude/mental-disposition/care–and–episteme over 'traditional classical mechanics axiomatic-construct', and so-implied as of 'disseminative-notional-discontiguity/epistemic-discontiguity—contrastive-reification-dissemination-and-dereification-dissemination-implications' construed as the 'variance/discrepancy of meaningfulness-and-teleology' as of prospective relative-ontological-completeness and as of prior relative-ontological-incompleteness. Note that on the imaginary supposition that no such prospectively projected 'notional—singularisation/epistemic-immanence/veridical-epistemic-determinism' existed as 'providing the ontological-veridicality insight-of-completeness for reifying meaningfulness-and-teleology', mental-dispositions in prior relative-ontological-incompleteness will falsely go on reasoning with 'traditional classical mechanics axiomatic-construct' by identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism as providing ontological-veridicality as of this now dereifying construal of existential-contextualising-contiguity of 'the very same physics <~~amplituding~~/formative>epistemic-totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality'.

But then again, the reality of theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as of prospective relative-ontological-completeness will point out that such 'traditional classical mechanics axiomatic-construct' identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism is in reality preconverging-or-dementing–apriorising-psychologism as of its relative-ontological-incompleteness. This insight equally applies at the reference-of-thought-level, for instance,

with regards to the fact that our positivism–procrypticism registry-worldview/dimension doesn't recognise-nor-register any such notion as procrypticism/disjointedness-as-of-reference-of-thought that speaks of our prospective preconverging-or-dementing–apriorising-psychologism at our prospective positivism–procrypticism uninstitutionalised-threshold, and so as reflected from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism or preempting—disjointedness-as-of-reference-of-thought registry-worldview/dimension prospective relative-ontological-completeness. Interestingly, it should be noted here that with such phenomenon as psychopathy and social psychopathy that is 'structurally/paradigmatically associated with the denaturing of the <~~amplituding~~/formative>epistemic-totalising~devolved

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument' as of our positivism–procrypticism/disjointedness-as-of-reference-of-thought uninstitutionalised-threshold (just as notions-and-accusations-of-sorcery in a universalisation–non-positivism/medievalism social-setup is 'structurally/paradigmatically associated with the denaturing of the <~~amplituding~~/formative>epistemic-totalising~devolved apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument' as of their universalisation–non-positivism/medievalism uninstitutionalised-threshold), ontological-veridicality is rather assumed/departs from an understanding of existential-contextualising-contiguity knowledge-reification as implied with futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism or preempting—disjointedness-as-of-reference-of-thought registry-worldview/dimension and not our positivism–procrypticism, in articulating ontologically-veridical difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism from this

projected 'notional—singularisation/epistemic-immanence/veridical-epistemic-determinism' as of deprocrypticism or preempting—disjointedness-as-of-reference-of-thought perspective or attitude/mental-disposition/care–and–episteme over our positivism–procrypticism, so-implied as of their disseminative-notional-discontiguity/epistemic-discontiguity—contrastive-reification-dissemination-and-dereification-dissemination-implications. But then just as the reflex mental state and attitude/mental-disposition/care–and–episteme in a universalisation–non-positivism/medievalism social-setup will be resistant to an elucidation of notions-and-accusations-of-sorcery adopting the perspective or attitude/mental-disposition/care–and–episteme of the reifying prospective positivism to arrive at ontological-veridicality, likewise more fundamental in undermining the elucidation of the manifestation of psychopathy and social psychopathy is the fact of an ordinariness <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ reflex mental state and attitude/mental-disposition/care–and–episteme in our positivism–procrypticism that will be resistant to adopting the reifying perspective or attitude/mental-disposition/care–and–episteme of futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism or preempting—disjointedness-as-of-reference-of-thought to arrive at ontological-veridicality that rather implies the dialectical-dementation of our positivism–procrypticism at its uninstitutionalised-threshold; and as we falsely go on to construe existential-contextualising-contiguity–in-reification/dereification by adopting the positivism–procrypticism dereifying perspective or attitude/mental-disposition/care–and–episteme in its prior relative-ontological-incompleteness in an exercise of ontologically-flawed identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-

determinism. Further and insightfully again, with the manifestation of childhood psychopathy where the postlogism-slantedness is universally transparent there is no occurrence of interlocutors cognisant-and-integrative apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity–in-reification/dereification as of the childhood slantedness, but with respect to adult psychopathy with the attendant maturation/indirectness/spatialisation/credulity/craftiness, such interlocutors cognisant-and-integrative apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity–in-reification/dereification arise as of their temporal threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism, which implies an invested social commitment as of thought and association that is then inclined to overlook inherent ontological-veridicality, as of interlocutors postlogism-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of reference-of-thought-devolving ontological-performance-<including-virtue-as-ontology>s leading to the dynamics of social psychopathy, and this logic also explains how and why notions-and-accusations-of-sorcery are endemised/enculturated in a non-positivism social-setup; with the insight as articulated by this author that more critically manifestations of postlogism-slantedness across all the registry-worldviews/dimensions are rather revelatory of the fundamental prior relative-ontological-incompleteness-of-reference-of-thought, with transcendental implications that goes well beyond the ad-hoc conception of manifestations of postlogism-slantedness but more broadly conceive as of the destructuring/aetiologisation/ontological-escalation implications arising from underlying relative-ontological-incompleteness and relative-

ontological-completeness reference-of-thought with regards to human living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology underdevelopment issues. This underlying relative-ontological-incompleteness and relative-ontological-completeness reference-of-thought <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity of analysis, as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism protracted-teleological-wholeness/nested-congruence-in-reflecting-the-ontological-contiguity—of-the-human-institutionalisation-process,-so-construed-as-singularisation/epistemic-immanence/veridical-epistemic-determinism', highlights that human mental-disposition as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor operates in its <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag on the 'ontologically-flawed basis of a rather <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag

The question can then be asked with regards to the capacity of such a positivism–procrypticism self-consciousness psychology to attend to living-development–as-to-personality-development,

This insight is in effect the futural rejoinder to the Foucauldian hermeneutics of the subject with respect to human prospective reference-of-thought transcendence-and-sublimity capacity; in the sense that 'intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity' has always called upon a certain apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument development of the human subject itself as enabling-and-making-available the capacity for that human subject to tackle the prospective issues of its world. In this regard, the question could be asked: what is the capacity of the universalisation–non-positivism/medievalism mindset to tackle prospective issues warranting a positivism self-consciousness psychology, and by extension what is the capacity of our positivism–procrypticism/disjointedness-as-of-reference-of-thought mindset to tackle prospective issues warranting a deprocrypticism or

The 'postmodern deprocrypticism or preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme' involves prospective reference-of-thought dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming-'notionally-collateralising-protohumanity'-to-'attain-sublimating-humanity',-as-to-existence-potency-prospective-digression-of—⟨amplituding/formative⟩epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness to supersede human temporality/shortness ⟨amplituding/formative⟩wooden-language-⟨imbued—averaging-of-thought-⟨as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications⟩⟩) as spurring Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology metaphoricity as of protensive-consciousness that is prospectively-grounded-or-psychoanalytically-unshackling, and implying prospective existence-potency-prospective-digression-of—⟨amplituding/formative⟩epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness relative-ontological-completeness of apriorising/axiomatising/referencing which is here construed as of deprocrypticism or preempting—disjointedness-as-of-reference-of-thought as implied by postmodern human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation. Hence the 'postmodern exteriorisation attitude/mental-disposition/care–and–episteme' superseding of the 'modern take interiorisation attitude/mental-disposition/care–and–episteme' is what renders possible postmodern transcendence-and-sublimity as of its very own 'postmodern deprocrypticism or preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme' spur of prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology metaphoricity. Insightfully, this author further addresses the common criticism of postmodern-thought with regards to virtue, as of postmodern implied human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation. Structurally/paradigmatically a registry-worldview's/dimension's reference-of-thought points fundamentally to its 'underlying reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology' with regards to the latter's 'temporality-as-shortness-of-register-of-meaningfulness-and-teleology to intemporality-as-longness-of-register-of-meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology>s' as of notional-contiguity/epistemic-contiguity-<mentally-aestheticised~postconverging/dialectical-thinking–qualia-schema>. Such that it is fundamentally the prior relative-ontological-incompleteness-of-reference-of-thought that becomes the 'lack-of-virtue or vice issue', beyond just any associated incidental existential problems, as requiring aetiologisation/ontological-escalation as of the need for prospective relative-ontological-completeness-of-reference-of-thought to address the myriad <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag existential possibilities of the registry-worldview's/dimension's vices-and-impediments as fundamentally bound to its prior relative-ontological-incompleteness-of-reference-of-thought 'underlying reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology'; and so beyond just <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and ad-hoc palliative resolutions.

Consider in this regard the temporal ontological-performance-<including-virtue-as-ontology> as of say a postlogism-slantedness or any other temporal or derived-temporal mental-disposition associated with vicious accusations-of-sorcery for instance in a non-positivistic as animistic or medieval social-setup. The fact that even an intemporally-inclined mental-disposition in that social-setup has an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity–in-reification/dereification that is 'mutually cognisant-and-integrative beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>' with notions-and-accusations-of-witchcraft itself as of their 'underlying reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology'

presents an epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag issue that endemises notions-and-accusations-of-witchcraft in the vices-and-impediments of that given social-setup. It is the prospective notional-contiguity/epistemic-contiguity-<mentally-aestheticised~postconverging/dialectical-thinking–qualia-schema> as of prospective positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as setting up the positivism 'underlying reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology',

that fundamentally undermines such endemisation; and hence it is not by accident that our present positivism registry-worldview/dimension is devoid of such issues since it paradigmatically/structurally undermines temporal-to-intemporal cognisance and integrativeness of notions-and-accusations-of-sorcery as of the positivism 'underlying reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-

aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology',
construed as 'transcendental human-subject-emancipatory-relativism-driven-recomposuring-

'postmodern suprastructuralism' reflects deprocrypticism as of its preempting—
disjointedness-as-of-reference-of-thought over our positivism–procrypticism disjointedness-
as-of-reference-of-thought. This insight about the need for prospective notional-
contiguity/epistemic-contiguity-<mentally-aestheticised~postconverging/dialectical-
thinking–qualia-schema> underlies a postmodern understanding, as it is herein contended,
that it is by the exercise of prospective relative-ontological-completeness-of-reference-of-
thought   as   of   human   limited-mentation-capacity-deepening-
⟨<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-

infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism or

procrypticism temporal-to-intemporal mental-dispositions 'mutual cognisance and
integrativeness of procrypticism/disjointedness-as-of-reference-of-thought beyond-the-

that we provide the ontologically-veridical aetiologisation or ontological-esclation resolving
the vices-and-impediments of our 'so-prospectively deprocrypticism-construed'
procrypticism/disjointedness-as-of-reference-of-thought   as   of   its   underlying
<~~amplituding~~/formative>epistemic-totalising~self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag, and so beyond just our ad-hoc palliative
construals of virtue. Basically when post-structuralists speak of 'the other' this translates into
aetiologisation/ontological-escalation as of 'universal projection implications attitude/mental-

disposition/care–and–episteme event-or-operant implications to all and sundry' as implied in the above analysis, as postmodern-thought portends to be non-ideology-driven, non-speculative, non-imaginary, theoretical, conceptual and operant. This insight is also very much conscious of the ontologically-flawed misconstrual of 'the other' that pervades human <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ mental-dispositions as of 'mutual temporal/shortness-of-register-of-meaningfulness-and-teleology eliciting' construed as 'intemporal temporality'. Such tendencies are hardly of aetiologisation/ontological-escalation as their emphasis lies in existential-extrication-as-of-existential-unthought, rather than nonextricatory-existential-preempting-of-existential-unthought in enabling Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of 'universal projection implications attitude/mental-disposition/care–and–episteme event-or-operant implications to all and sundry'; such that fundamentally, such <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ tendencies do not address structurally/paradigmatically defining issues of a registry-worldview/dimension as of its vices-and-impediments like the comprehensive implications of disjointedness-as-of-reference-of-thought/procrypticism with regards to our positivism–procryticism or say the comprehensive implications of non-positivism in a medieval or animistic social-setup. Prospective notional-contiguity/epistemic-contiguity-<mentally-aestheticised~postconverging/dialectical-thinking–qualia-schema> thus effectively implies deneuterising 'exteriorisation attitude/mental-disposition/care–and–episteme' of

meaningfulness-and-teleology superseding/overriding the prior reference-of-thought temporally neuterising 'interiorisation attitude/mental-disposition/care–and–episteme' of meaningfulness-and-teleology. This fundamentally speaks of a structural/paradigmatic conception of virtue-as-ontology transcendence as of prospective relative-ontological-completeness-of-reference-of-thought. This very much differs from <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag ontological-contiguity palliative virtue constructs as of variance of the very same reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology, and thus implies temporally neuterising 'interiorisation attitude/mental-disposition/care–and–episteme' of meaningfulness-and-teleology. This wrongly implies the inherent exceptionalism of the conception of virtue for humans in any such registry-worldview/dimension outside/beyond the ontologically-veridical implications of virtue-as-ontology associated with Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology in reflecting the ontological-contiguity—of-the-human-institutionalisation-process. Such an ontological-contiguity <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag virtue conception is caught up within such a registry-worldview/dimension internal social-stake-contention-or-confliction changing temporal constraints, temporal meaningfulness-and-teleology existentialising—enframing frameworks and temporal mandarinism/pedantry frameworks as of the given reference-of-thought, with these elements in need for prospective transcendence as of prospective relative-ontological-completeness-of-reference-of-thought but paradoxically now defining the conception of virtue. The fact is our pretences and arguments of practice, as not critically

pinned down to their ontological-veracity as of prospective relative-ontological-completeness, can similarly be meted with pretences and arguments of practice as of each and every registry-worldview's/dimension's reference-of-thought practices, and thus conceptualising virtue by <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag while circumventing as of beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>

the vices-and-impediments of each registry-worldview/dimension in want of its 'pure-ontology' virtue resolution as of aetiologisation/ontological-escalation. In this regard such palliative virtue constructs overlooking fundamental underlying structural/paradigmatic ontological implications about our 'modern take attitude/mental-disposition/care–and–episteme' reflected by the 'postmodern deprocrypticism or preempting—disjointedness-as-of-reference-of-thought

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme' with regards to social-stake-contention-or-confliction changing temporal constraints, temporal meaningfulness-and-teleology existentialising—enframing frameworks and temporal mandarinism/pedantry frameworks, are no different to say 'non-positivism/medievalism

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme' overlooking its own social-stake-contention-or-confliction changing temporal constraints, temporal meaningfulness-and-teleology existentialising—enframing frameworks and temporal mandarinism/pedantry frameworks as reflected from 'positivism/rational-empiricism attitude/mental-disposition/care–and–episteme'. However, approbating we may be predisposed to such palliative virtue constructs as of lack of dispensing-with-immediacy-for-relative-ontological-completeness-by-

reification/contemplative-distension, the fact is these are not really the underlying drivers for

virtue transcendence and are peripheral to more ontologically profound theorised-or-untheorised emancipatory events driving virtue transcendence as of prospective relative-ontological-completeness-of-reference-of-thought, notwithstanding our state of beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>. The fact is from an ontological standpoint, we inherently are no more virtuously exceptional even with regards to the earliest of humans, and so as of the very same species potency, and thus we can't ascribed inherent virtuous superiority by the mere token of our own practice. Rather the exceptionality behind human virtuous potential lies ontologically with 'intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity' as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, reflecting the fact that pure-ontology that as of its secondnaturing induces the requisite level of human virtue performance at each given registry-worldview/dimension, retrospectively to prospectively. It is rather by acting upon the inherent ontological-contiguity—of-the-human-institutionalisation-process as of its ontological reflection in Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology that virtue transcendence comes about, whether or not beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>. In this regard, any registry-worldview/dimension reference-of-thought is a <~~amplituding~~/formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-

of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ as of the ~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, such that prospective relative-ontological-completeness-of-reference-of-thought as required for virtue transcendence necessarily implies disrupting and superseding any such <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ vices-and-impediments, as of the prospective/new superseding reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology. Inevitably any such virtue construct is transcendental as meaning 'going beyond oneself'; and so with regards to any prospective institutionalisation relative to the uninstitutionalised-threshold. Thus the 'field of conception'/notional~conception/notion of virtue-as-ontology covers way more than its articulation within a same registry-worldview's/dimension's <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, as its implications as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology need to be drawn beyond a cloistered-consciousness as of retrospective and prospective transcendental illuminating implications. In this regard, a postmodern/suprastructuralism philosophical stance with regards to virtue-as-ontology very much aware of the transcendental ontological sublimating-over-desublimating implications of existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness: will question such reasoning-from-results/afterthought basis of palliative virtue constructs especially as of their <~~amplituding~~/formative>epistemic-

totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and lack of dispensing-with-immediacy-for-relative-ontological-completeness-of-reference-of-thought-by-reification/contemplative-distension implications; ask whether by definition a registry-worldview/dimension reference-of-thought is structured/paradigmed to sponsor/promote/endorse its very own prospective transcendence as of the need for the subversion of its reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology that endemise-and-enculturate its vices-and-impediments by prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology for prospective transcendence-and-sublimity, more like could the Copernicuses, Galileos, Descartes, Diderots, etc. call upon the very same non-positivism/medievalism in need for prospective positivism transcendence to underwrite the subversion of its entrenched non-positivism/medievalism internal social-stake-contention-or-confliction changing temporal constraints, temporal meaningfulness-and-teleology existentialising—enframing frameworks and temporal mandarinism/pedantry frameworks; and, hence the ontologically-veridical paradox of the very structuring/paradigming implications of human limited-mentation-capacity-deepening-⟨<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ renders any registry-worldview/dimension reference-of-thought ever deficient as of its need for psychoanalytic-unshackling/prospective-grounding/prospective-reification of meaningfulness-and-teleology. Ultimately, anti-constructivism and anti-relativism criticisms of postmodern-thought come down to our 'modern positivism/rational-empiricism ontologically-flawed as of prior relative-ontological-incompleteness perspective/framing/reference/horizon' constitutedness construal of categorising/taxonomising schemes that pervades the 'modern categorising mental-

disposition' as of our occlusive-consciousness neuterising, as we fail to grasp the implication of an implied apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument that is naively superseding the true apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument nature of existential reality as the absolute a priori'; such that the meaningfulness-and-teleology that arises is a relatively virtual-or-ontologically-flawed-construal. On the contrary it is conflatedness that ensures that our apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument syncs with the true apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument nature of existential reality as the absolute a priori, and so as of an ontological-normalcy/postconvergence posture which rather 'turns the idea of analysing and conceptualising on its head' into one of 'grasping human limited-mentation-capacity-deepening-⟨<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ implications as of the underlying psychoanalytic-unshackling' for human-subpotency construal of the full-potency that is existence. This insight about the complete relationship between developing human-subpotency and its potential to fully grasp the full-potency of existence, fundamentally underlies the protensive-consciousness referentialism of the notional~conflatedness of notional~deprocrypticism. However, it is equally critical to grasp the double-gesture reification implied in such a postmodern-as-suprastructural conception of human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation. Such a postmodern/suprastructuralism double-gesture reification holds that knowledge involving virtue-as-ontology is truly organic-knowledge as of its appropriate attitude/mental-disposition/care–and–episteme with respect to human social-stake-contention-or-confliction; with the adherence to the reference-of-thought–categorical-imperatives/axioms/registry-

teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of such organic-knowledge construed in intemporality as supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism, whereas mechanical-knowledge is rather predispose to adhere as of temporal threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism to such mere reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology.

The latter points to an inappropriate attitude/mental-disposition/care–and–episteme which is not beholden to the prospective institutionalisation but rather is of existential-extrication-as-of-existential-unthought relation with it. More concretely, consider the practice of serfdom in Europe, or the annihilation of many Native American tribes and slavery and slave trade in the new world, while at the same time in a registry-worldview/dimension transitioning from the non-positivism/medievalism to the positivism/rational-empiricism registry-worldview with this contrastive mechanical-knowledge attitude/mental-disposition/care–and–episteme and organic-knowledge attitude/mental-disposition/care–and–episteme. While the full implications of a positivism/rational-empiricism organic-knowledge attitude/mental-disposition/care–and–episteme will imply an end to such practices as of universal human rights, 'economic-opportunistic-and-then-enculturated tenants' of such blatant moral supremacy and thus racial supremacy distorted the implications of the technical and social organisation advancement brought about from budding positivism/rational-empiricism to reconceptualise by their specific interests meaningfulness-and-teleology in terms–as-of-axiomatic-construct of the prior non-positivism/medievalism attitude/mental-disposition/care–and–episteme as of its prior relative-ontological-incompleteness-of-reference-of-thought, and thus justify their nefarious practices; speaking of mechanical-

knowledge in positivism/rational-empiricism. Whereas progressive organic-knowledge tenants construed positivism/rational-empiricism as an openness to the potential of all societies and peoples to rather arrive at the higher possibility of positivism/rational-empiricism virtue, and so as of a human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation posture that allows for universal human emancipation as expressed by the Quakers movement, Rousseaux, Diderots, etc. Incidentally, the positivism/rational-empiricism mechanical-knowledge contenders as of the economic-opportunism-and-then-enculturation of their nefarious practices, were very much countervailing the practice and trend within their own societies of origin undergoing-positivism/rational-empiricism-transformation and the underlying dual-language/split-mentality unscrupulousness was given away as of the 'out-of-sight demeanour' in their main societies, rather than being fully assumed as marking positivism/rational-empiricism progress. The occasional development of enlightenment and positivism/rational-empiricism by its technical and social organisation transformation implications wasn't the opportunity for such societies to turn around and then dehumanise other societies and humanities that haven't done likewise, but rather as of organic-knowledge called for a double-gesture reification in recognising that such positivism/rational-empiricism implications are about all of humanity, just as implied in preceding human cultural emancipations. Suprastructuralism or postmodernism double-gesturing of virtue doesn't function on the naïve basis of 'merely construing relative implied levels of virtue development and making relative conclusions' but rather orientate meaningfulness-and-teleology to the more profound perspective of all of humanity's potential as of prospective relative-ontological-completeness-of-reference-of-thought/ontological-normalcy/postconvergence and then reconstrue the possibility of all of humanity-as-of-societies to ultimately fulfil it virtuous potential; and this is the optimum and emancipatory virtue disposition for all humankind and human societies. It adopts this

orientation because it always put into question the idea of 'grounding meaningfulness-and-teleology as of any specific human society relative-ontological-incompleteness-of-reference-of-thought as fundamentally denaturing, and likely to induce transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing dehumanising of some cultures and societies by others'; as it recognises, however tepid, that all societies and humans are curious, predisposed to their emancipation and achieving optimum existential possibilities, and can uphold universal values, and so as of universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩. Ultimately, such a double-gesturing hold out the possibility in reflecting the ontological-contiguity—of-the-human-institutionalisation-process as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as pertinent for all humankind, whether as of internal social-progress, cultural diffusion or cultural-reappropriations. This practically translates, say considering an instance of a given traditional practice that is abhorrent to modern positivism/rational-empricism attitude/mental-disposition/care–and–episteme, by implying from a postmodern perspective that emancipation truly arises when the humans come to assume as well by themselves a universal positivism/rational-empiricism attitude/mental-disposition/care–and–episteme in transforming their society. We can appreciate that supposed a space civilisation come to earth, implying for instance in a position of strength that we are too violent, disorganise, etc. and thus morally inferior, and that our best interests was just to take our cue from them. Here as well, the postmodern double-gesture reification of virtue will project that we do have the potential for further development, and that to be ourselves we cannot be utterly alienated from ourselves like robots in our relationship with them, and that our curiosity and openness will correspondingly bring about our functional moral equivalence with universal-

and anti-relativism arguments is to think that these are always about fair and objective

intellectual disagreements; but then the history of many such criticisms has revealed its

underlying perfidy; as to when for instance, supposed critiques of postmodern relativism

make mention of the anti-relativism stances of many a creed like Christianity (which are

necessarily absolutist as to their doctrinal practices) thus decontextualising and equating the

framework of secular intellectual discourse with that of a creed, something which even such

creeds do not do given the mortal framework of human <~~amplituding~~/formative>epistemic-

totalising~thrownness-in-existence (as to when even the Christian Jesus refers to giving to Caesar what belongs to Caesar and to the Christian God what belongs to God as of a necessary relativistic stance with respect to human mortality which requires constructiveness and this stance is further reflected with interfaith dialogue which will be absolutely impossible if creeds were to engage each other on the absolute basis of their doctrinal practices), and furthermore much of the criticisms levied against postmodern relativism is 'forged criticism' in the sense that the critiques make their own flimsy interpretations of postmodern-thought and then go on to criticise the flawed interpretation for instance the idea that pastiche art or the fact that Las Vegas Strip as-copying-other-notable-places-architectures are necessarily inauthentic and flawed is not necessarily a postmodern criticism as authenticity and veracity is more fundamentally about the re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-⟨imbued-postconverging/dialectical-thinking-'projective-insights'/'epistemic-projection-in-conflatedness'-of-notional~deprocrypticism-prospective-sublimation⟩ creative insight and appreciation of any pastiche work or of such a Las Vegas Strip replication of other notable places. With regards to all these 'forged criticisms' the underlying falsehood is rather geared to elicit a non-intellectual emotional response than true knowledge-reification insight. Further, as of organic-knowledge and knowledge-notionalisation, this author holds that it is naïve to conceptualise of human knowledge mainly as of pure erudition warranting mainly sound arguments, proofs and convincing demonstrations, and that the reality all along 'intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-

explicating-ontological-contiguity' shows that there has always been beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> 'institutional investment' that is not always just of eruditic ideal, inclined to undermined prospective knowledge as of its prospective relative-ontological-completeness-of-axiomatic-constructs-and-reference-of-thought, and that true knowledge especially as it portends to transcendence cannot be conceptualised losing sight of this fact. The blunt fact is that postmodern-thought has shown itself to be more useful and applicable across the humanities with a massive potential for furthering human emancipation, however the tentativeness of many of its bold ideas, and so much more than the vagaries peddled by many such critiques surreptitious anti-intellectual media-driven waylaying who on the contrary seem to construe of institutional anchoring as the very essence of validation. Such situations are often highly liable to ontological-bad-faith/inauthenticity undermining of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology due to 'lack of social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩'. In other words, medieval charlatanic eliciting of old ways, conventioning and existence as of non-positivism/medievalism despite its prior relative-ontological-incompleteness-of-reference-of-thought as underscoring medieval vices-and-impediments with respect to prospective positivism was psychically and surreptitiously undermining of a sense of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology;   and this insight is valid across all registry-worldviews/dimensions as of the eliciting of temporal individuations self-referencing cloistered-consciousness in nihilistically undermining prospective ontological-completeness-of-reference-of-thought. It is only an organic-knowledge sense of consummation-as-not-beholden to temporal/shortness-of-register-of-

meaningfulness-and-teleology stakes that human intemporal individuations as of a protracted-consciousness can contemplate of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology   as of its cross-generational transcendental implications and as reflected from the insight in reflecting the ontological-contiguity—of-the-human-institutionalisation-process. Again, it can be noted here that Einstein, Bohr and the other seminal physics contributors to the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs had no prior basis to adopt their subsequently transcendental and sublimation orientation but for their ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality as of their 're-projection/re-anticipation' about 'the very same physics ~~amplituding~~/formative>epistemic-totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality' which was then validated as of ontological-primemovers-totalitative-framework, and so divulged by existence-potency-prospective-digression-of—~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness;   as   prior   human   presencing—absolutising-identitive-constitutedness experience wouldn't have thought about space-time, considered the ether as unreal, considered that the laws of physics are different at atomic scale, etc. In other words, there wasn't any prior 'logocentric transcendental-signifier' as of the prior classical-mechanics—axiomatic-constructs   construed   as   presencing—absolutising-identitive-constitutedness enabling the obtention of any such conclusions from the given classical-mechanics—axiomatic-constructs constitutedness, but rather it is by conflatedness with regards to 'the very same physics ~~amplituding~~/formative>epistemic-totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality' that   the   prospective   theory-of-relativity-together-with-quantum-mechanics—axiomatic-

constructs was construed as of non-presencing-<as-to-perspective-ontological-normalcy/postconvergence>. Interestingly, as of the underlying phenomenology-driven ontology, it is rather more pertinent with respect to transcendence-and-sublimity to grasp that such ultimate decidability is construed as of human intemporal/longness-of-register-of-meaningfulness-and-teleology individuation mental-disposition in 'a tendential-deliberation-of-decidability as enabled by ontological-primemovers-totalitative-framework tendential validation as of existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness. Such a construal of human transcendence-and-sublimity will cover the seminal contributions prior and after the defining-threshold epistemic-break/epistemic-resetting of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs by Einstein and Bohr. Such an ontological-basis for construing sublimation overrides our neuterising laden modern convention ways of judging breakthroughs overemphasising singular initiative, as it is rather grounded more soundly on an abstract notion of 'intemporal-as-ontological individuation' as the basis of human limited-mentation-capacity-deepening-⟨<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ analysis; and insightfully, as reflected in the underlying conflatedness of accreting-substitutive-subsumption-as-futural-différance-freeplay, sublimation is achieved rather out of the notional obviating of human temporal-as-non-ontological neuterising as of deneuterising—referentialism and with correspondent intemporal-as-ontological rearticulation/reconstrual of meaningfulness-and-teleology as of dynamics of insight of shallow-to-deeper human limited-mentation-capacity implications, and so as of protensive-consciousness of notional~deprocrypticism perspective/framing/reference/horizon. Similarly, this author's articulation of futural-différance as of transcendence-and-sublimity is necessarily construed

ontologically as of a rearticulated protractedness as futural différance that coincides-and-is-contiguous with a prior Derridean différance as of quasi-transcendence and evasiveness of sublimation. In both cases, this highlights that 'decidability is not instantaneous as of inherent spontaneous identification and occurrence of decisional act' but that decidability in enabling transcendence-and-sublimity is as of an 'overall différance tendential-deliberation-of-decidability' as of human limited-mentation-capacity-deepening-⟨<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ process. Thus sublimation is equally reflected in the deliberateness involved in cultivating artistic, educational, technical or research capabilities/skill in the final outcomes derived forthwith, as of the quality imbued on human limited-mentation-capacity to deepen itself; and this translates into human contemplation of the existential-possibilities attainable by its human-subpotency. Tendential-deliberation-of-decidability is thus the central ontological insight attached to différance as 'a contiguously theoretical and operant phenomenological construct involving necessarily the deliberateness as of Derridean freeplay différance, as a putting into question exercise, and subject to ontological-primemovers-totalitative-framework validation before attaining defining-transcendence and defining-sublimity'; and différance as of such 'existential-reality concreteness dynamics' is scientific and utterly dissimilar from a speculative idealisation exercise à la Hegelian dialectics and well beyond the latter's conceptual patterning. Ultimately, such tendential-deliberation-of-decidability for attaining defining-transcendence and defining-sublimity, arises from more than just a blatant/flatminded notion of human limited-mentation-capacity-deepening-⟨<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ or say the vague social convention idea of talent, it is more critically beyond and about a question of human mental-disposition with respect to the prescience of existence-potency-prospective-

digression-of——<s>amplituding</s>/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness so-implied as of ontology's-directedness-as-Being. This is the very meaning of organic-knowledge beyond the conception of mechanical-knowledge as-knowledge-as-a-mere-thing-to-be-acted-upon-for-given-outcomes. Organic-knowledge as such implies priorly a supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism deference to the prescience of existence-potency-prospective-digression-of—<s>amplituding</s>/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness over any human-as-mortal framing of meaningfulness-and-teleology including oneself-as-human-as-mortal, as it is human mortality-as-temporality that is rather what is in need for further Being and consciousness development. Thus the paradigm of sublimation for a registry-worldview/dimension reference-of-thought, as reflected in the Derridean social ethics stance, is rather one for the 'subsumptive inventing' of the prospective ontological possibilities of prospective relative-ontological-completeness-of-reference-of-thought over human normativity/conventioning as of the latter's prior relative-ontological-incompleteness-of-reference-of-thought, and so by maximaliing-recomposuring <s>amplituding</s>/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought as of organic-knowledge. A nonextricatory existential paradigm of sublimation implying that the state of recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism, and positivism–procrypticism, are successively-wanting of prospective defining-transcendence and defining-sublimity going by their successively-given mechanical-knowledge in temporality-as-of-neuterisation/relative-ontological-incompleteness/existential-extrication-as-of-existential-unthought. In other words, an intemporal-as-ontological mental-disposition projecting of the organic-knowledge as of prospective registry-worldview/dimension reference-of-thought in prospective relative-

ontological-completeness-of-axiomatic-construct-or-reference-of-thought can't sidestep such implied prospective defining-transcendence and defining-sublimity, and undertake existence as of the prior registry-worldview/dimension reference-of-thought in prior relative-ontological-incompleteness, even if it such a mental-disposition could lead to such an outcome as in H.G. Well's country of the blind or Galileo say with the medieval Establishment; despite the fact that the possibilities of such outcomes arise out of establishment Charlatanism, which knows better, but exploits lack of 'social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-

<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness⟩'.   But then it is actually a sign of 'propounded theoretical health and pertinence' when all such Establishment charlatanism comes to dodge such substantive-and-frontal articulation of prospective knowledge, and in lieu come up with worn out refrains and sidestepping manoeuvres avowing their true 'intellectual blankness' grounded on institutional-being-and-craft; as we know that in all genuinely inclined intellectual pursuits the very central tenet has always been about theoretical disputative engagement and not acts of escapism and downgrading of intellectual arguments as of 'solo media exploits of intellectual popularity'. Thus by its prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought as futural différance, accreting-substitutive-subsumption-as-futural-différance-freeplay comes into terms with both presencing—absolutising-identitive-constitutedness   and   non-presencing-<as-to-perspective-ontological-normalcy/postconvergence> on the basis of the prospective relative-ontological-completeness/ontological-contiguity of the latter over the prior relative-ontological-incompleteness   of   notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised~preconverging/dementing–qualia-schema> of the former as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-

'human<~~amplituding~~/formative>epistemic-totalising~purview-of-construal'. Thus what is being correctly implied is not 'difference-in-kind/difference-in-aposteriorising-or-logicising but rather difference-in-nature/difference-in-apriorising-or-axiomatising between presencing—absolutising-identitive-constitutedness and non-presencing-<as-to-perspective-ontological-normalcy/postconvergence>. Such an insight is enabled as of the fundamental awareness that human knowledge construction fundamentally involves two different exercises; with the first factoring in that at the fundamental level of knowledge construction humankind has a limited-mentation-capacity that needs to be developed as a 'developed consciousness perspective/framing/reference/horizon as of prospective relative-ontological-completeness/notional-contiguity' construed as its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument to then be able at an operative level to articulate sound-or-authentic meaningfulness-and-teleology grounded on such a developed consciousness perspective/framing/reference/horizon. This explains why it is impossible for a 'recurrent-utter-uninstitutionalised mindset perspective/framing/reference/horizon as of trepidatious-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument' to grasp base-institutionalisation meaningfulness-and-teleology without first developing a 'base-institutionalisation mindset perspective/framing/reference/horizon as of warped-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument'; for a 'base-institutionalisation–ununiversalisation mindset perspective/framing/reference/horizon' to grasp universalisation meaningfulness-and-teleology without first developing a 'universalisation mindset perspective/framing/reference/horizon as of preclusive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument'; for a 'universalisation–non-positivism/medievalism mindset

perspective/framing/reference/horizon' to grasp positivistic meaningfulness-and-teleology without first developing a 'positivistic mindset perspective/framing/reference/horizon as of occlusive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument'; and prospectively for a 'positivism–procrypticism mindset perspective/framing/reference/horizon' to grasp deprocrypticism meaningfulness-and-meaningfulness without first developing a 'deprocrypticism mindset perspective/framing/reference/horizon as of protensive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument'. As we can get that the fundamental stake for the Copernicuses, Galileos, Descartes, etc. during the Enlightenment wasn't just about the specific positivistic knowledge they articulated or else they would have been satisfied with just their personal curiosity and enlightenment and leave it at that, but rather they surreptitiously undermined many of the prevailing social norms and rules in trying to expound their knowledge and vision, and more critically so because they knew it is the 'formation of a positivistic social consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument' that would enable the anchoring of all such prospective positivistic knowledge, and this sense of things fully underscored such a more comprehensively directed project-and-purpose undertaken later by the Encyclopédistes; with the underlying insight that while a social state of generalised prior relative-ontological-incompleteness-of-reference-of-thought is enabling to surreptitious Establishment charlatanism, however with increasing 'social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-~~amplituding~~/formative⟩epistemic-totalising–in-relative-ontological-completeness⟩' such charlatanism is exposed for what it really is, explaining the panickiness and falsehood associated with such charlatanism as with the reactionaries to the Encyclopédistes project, as

if the articulation of knowledge by itself was a threat rather than subject to disputation!

Underlying as the non-speculative, non-imaginary, theoretical and conceptual possibility for such futural différance consciousness development is the notion of ontological-dementation/dialectical-dementation–stranding/attributive-dialectics which by pointing out an epistemic-break as of difference-in-nature/difference-in-apriorising-or-axiomatising/ontological-discontinuity, underscore at once 'both as affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-validating-measuring-<postconverging-or-dialectical-thinking–apriorising-psychologism> of the consciousness in ontological-contiguity/relative-ontological-completeness-of-reference-of-thought and as unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitablemeasuringinstrument-invalidating-measuring-<preconverging-or-dementing–apriorising-psychologism> of the consciousness of notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised~preconverging/dementing–qualia-schema>/relative-ontological-incompleteness-of-reference-of-thought as of maximalising-recomposuring-for-relative-ontological-completeness, and not incrementalism-in-relative-ontological-incompleteness, as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<~~amplituding~~/formative>epistemic-totalising~purview-of-construal''. As futural différance is enabled, unlike the case with the 'Derridean quasi-transcendental-freeplay différance', as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality involving human mental-disposition successive apriorising/axiomatising/referencing reprojection-or-reanticipation capacity inducing human limited-mentation-capacity-deepening-⟨<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩; overriding the idea that the perspective/framing/reference/horizon of contemplation is

absolutely given-and-determined as of the implication that all meaningfulness-and-teleology should be as of 'difference-in-kind/difference-in-aposteriorising-or-logicising, but rather reconceptualising the possibility of difference-in-nature/difference-in-apriorising-or-axiomatising as of prospective relative-ontological-completeness-of-reference-of-thought bringing about transcendence-and-sublimity as of non-presencing-<as-to-perspective-ontological-normalcy/postconvergence>. Thus such a phenomenology associated with accreting-substitutive-subsumption-as-futural-différance-freeplay further divulges, unlike the 'Derridean quasi-transcendental-freeplay différance', the full possibility of human sublimation. Consider in this regard the decisive transitions-as-sublimitys that occurred in physics: with 'traditional classical mechanics axiomatic-construct' and the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs; wherein the successive axiomatic-constructs in prior relative-ontological-incompleteness and prospective relative-ontological-completeness, with regards to 'traditional classical mechanics axiomatic-construct' and the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as of 'the very same physics <~~amplituding~~/formative>epistemic-totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality' are not as of a 'difference-in-kind/difference-in-aposteriorising-or-logicising but rather a difference-in-nature/difference-in-apriorising-or-axiomatising; with human-subpotency aligning towards the full potency of existence which thus divulges the possibility of human sublimation as of the physics science implications today. It is interesting to note that the difference-in-nature/difference-in-apriorising-or-axiomatising bringing about the successive physics axiomatic-constructs/theories are successive 'epistemic-breaks' from prior reasoning and are akin to 'leaps of faith' which then 'establish new reasoning' that then becomes the internal 'difference-in-kind/difference-in-aposteriorising-or-logicising of the new physics as the new presencing; brought about from

the transcendence of non-presencing-<as-to-perspective-ontological-normalcy/postconvergence>. In other words, human consciousness tends to be constraint to its <s>amplituding</s>/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, and thus assumes a 'difference-in-kind/difference-in-aposteriorising-or-logicising mental-disposition as of presencing—absolutising-identitive-constitutedness. But existence/ontology's-directedness-as-Being as of non-presencing-<as-to-perspective-ontological-normalcy/postconvergence> is beyond and not constraint by human consciousness as of its <s>amplituding</s>/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, and thus hints-at the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality possibilities of transcendence-and-sublimity as of ontological-primemovers-totalitative-framework validation that is at the very center of the 'promise of correspondence between human-subpotency as of Being-and-consciousness development and existence as of ontological-veridicality', and so despite the complexifying/inhibiting metaphysics-of-presence of any given <s>amplituding</s>/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag from a 'difference-in-kind/difference-in-aposteriorising-or-logicising posture; such that humankind then overlooks presencing—absolutising-identitive-constitutedness and re-projects/re-anticipates non-presencing-<as-to-perspective-ontological-normalcy/postconvergence> enabling human transcendence-and-sublimity. Therefore, metaphoricity as highlighted herein is actually construed as of 'its natural ontology implications', and this natural ontological notion of metaphoricity is construed herein as superseding-and-englobing all other differentiated adjunctive significations including conventional figures-of-speech. Metaphoricity as such simply refers to signification adjunctiveness to 'underlying <s>amplituding</s>/formative>epistemic-

totalising/circumscribing/delineating signifying-construct of language' as of both the meaningfulness-and-teleology implications to the so-renewed 'underlying ~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating signifying-construct of language' and the specific adjunctive-metaphoricity-signification within such renewed 'underlying ~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating signifying-construct of language'. Metaphoricity is very much a mirroring of existential 'syncretising-effecting' going by the latter's existential implications on 'human underlying self-referencing meaningfulness-and-teleology as an epistemic-totalising/circular construal'. This 'epistemic-totalisation/circularity epistemic-breaking' of self-referencing associated existentially with syncretising-effecting as mirrored in metaphoricity arises because of human limited-mentation-capacity, and is a reflection of the circular deepening of human limited-mentation-capacity as of growing certitude from the opening up of non-presencing-<as-to-perspective-ontological-normalcy/postconvergence> by human re-projection/re-anticipation ultimately validated by existence/ontology's-directedness-as-Being ontological-primemovers-totalitative-framework. Further, metaphoricity as such speaks of the evasiveness of all human meaningfulness-and-teleology at uninstitutionalised-thresholds as recurrently pointed out herein as of token threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism possibilities relation to reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology as of human limited-mentation-capacity implications. The implications of this reality as of metaphoricity explains why epistemes are fundamentally and necessarily constricted as of their specific registry-worldview/dimension reference-of-thought; as ultimately epistemes are as relevant as the ontological-possibilities divulgeable by presencing—absolutising-identitive-constitutedness and non-presencing-<as-to-perspective-ontological-

normalcy/postconvergence>, such that in the case of the latter there is no prior insight about the veracity of any episteme before it is divulged with Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as presencing—absolutising-identitive-constitutedness. Consider in this regard Galileo's implying positivistic episteme metaphoricity over a medieval Establishment scholasticism-and-mysticism episteme as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as the necessary backdrop for the knowledge he articulates and all subsequent positivistic knowledge. In many ways, this author as of organic-knowledge is very much aware of the 'drawback implications' of our positivism–procrypticism episteme as of its constitutedness with respect to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism psychoanalytic-unshackling organic-knowledge, as of the full articulation of accreting-substitutive-subsumption-as-futural-différance-freeplay with respect to our procrypticism/disjointedness-as-of-reference-of-thought uninstitutionalisation and futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism institutionalisation implications representation, and so beyond just our natural inclination for <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. Galileo could well had possibly recasted his implied positivism meaningfulness-and-teleology in scholasticism-mysticism terms, just as Copernicus work was held back priorly in limbo, but then the implications as he perceived would have been a degradation and lost of the essence of what he was doing, and so more than just the specific scientific knowledge but more critically it warranted a psychoanalytic-

unshackling into the non-presencing–or–withdrawal–or–metaphysics-of-absence–or–transcendental-reasoning-of-event-as-prospective-ontology-origination perspective/framing/reference/horizon of positivism meaningfulness-and-teleology we entertain today. Likewise, as of such metaphoricity episteme, the meaningfulness-and-teleology herein implied as of its essence cannot do without this hermeneutic circle phenomenological ontology elucidation as of its psychoanalytic-unshackling conflatedness; and the ideal backdrop for this lies in a further developed postmodern-thought phenomenological-depth of construction, as implied herein by this author as of accreting-substitutive-subsumption-as-futural-différance-freeplay. This author conceives that at the very core to such genuine understanding of postmodern-thought is a double-gesture reification that consists of perspective/framing/reference/horizon and then contention/argumentation within such articulated perspective/framing/reference/horizon, as so implied by postmodern-thought together with other kindred though less dramatic textuality-thinkers like Gadamer and Habermas; as of the need to adopt/instigate the appropriate mindset for knowledge appraisal given the fundamental distorting effect, beyond just perception, of human limited-mentation-capacity. This double-gesture reification reality for construing human knowledge amounts to a quasi-psychoanalytic-unshackling, as it reflects the fact that The-Given as of existentialism/thrownness/facticity is always an insufficiently/poorly developed perspective/framing/reference/horizon for direct instigation of contention/argumentation aspiring for profundity and completeness. Such that this double-gesture reification of the textuality-driven intellectuals involves their 'special focus orientations' profundity say like genealogy with Foucault, deconstruction with Derrida, etc., and this together with transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing complementarity and criticisms of all such 'special focus orientations', go on to conjointly-and-fruitfully define what is postmodern-thought.

Postmodern-thought as such can be analogised with the anecdote of the blind men striving to determine what an elephant is, but with each one saying authentically what the find in front of them in developing the relevant specific imageries and overall imagery of what an elephant is. This in itself is a milestone in theorisation, and as an overall conception postmodern-thought, besides the 'special focus orientations' of the specific textuality-driven intellectuals, is primarily about 'consistently taking a best shot' at reality and is not inherently driven at its core by ideology but rather authenticity. As such it effectively achieves a more potent construal of the human condition and knowledge especially as it is 'driven by such transversality-of-affirmative-and-unaffirmative,-disambiguated-

apriorising/axiomatising/referencing cumulative authenticities that augment the possibilities of human limited-mentation-capacity' thus going a long way to open up new and coherent thought possibilities as of its grander and overall conception and spirit. Interestingly, what is central about the ontological-bad-faith/inauthenticity critique of postmodern-thought is the lack-of-insight/feinting-lack-of-insight about all these underlying elements of postmodern-thought construction: as failing to grasp/recognise the implied double-gesture reification as of its transcendental-enabling/sublimating implications, and by not appreciating due to 'flatmindedness'/banality/flimsiness the implications of perspective/framing/reference/horizon before contention/argumentation as of any given perspective/framing/reference/horizon, thus implying 'poor critical judgment'. With such 'flatmindedness'/banality/flimsiness further protracting into a poor grasp of postmodern theorists 'special focus orientations' with the tendency to engage postmodern-thought as of an uninsightful literal and shallowminded/banal/flimsy reading; and with the ultimate outcome that all such naïve uninsightful literal and shallowminded/banal/flimsy readings are cumulated and summated as the entirety of the postmodern theoretical construct, and so on an apparently implied flawed logic that the discretion allowed for criticism doesn't engage the

intellectual credibility of the critique, a notion that is especially abused within a media background. Such 'flatmindedness'/banality/flimsiness with respect to postmodern-thought fails to grasp that all subject-matter as of their inherently deferential-formalisation-transference as of institutional percolation-channelling are necessarily construed as of a double-gesture reification that supersedes the ordinariness/banality of day to day social existence analysis as of ~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩, such that as of the history of such critiques it will be naïve not to factor in the reality of ontological-bad-faith/inauthenticity and so particularly as it tends to shy away from genuine intellectual engagement with postmodern-thought, and highlighting that the idea of arrogance peddled about postmodernism strangely enough speaks of the 'ignoble arrogance' of such ontological-bad-faith/inauthenticity critiques, as structurally/paradigmatically that which attributes value judgments is that which is knowledgeable-as-of-its-prospective-relative-ontological-completeness-of-reference-of-thought-postconverging-or-dialectical-thinking–apriorising-psychologism and not that which is ignorant-as-of-its-prior-relative-ontological-incompleteness-of-reference-of-thought-preconverging-or-dementing–apriorising-psychologism. Such that there is no dialogical-equivalence that then arises by the fact that the former is a nonextricatory/intemporal/ontological relationship with meaningfulness-and-teleology while the latter is an existential-extrication/temporal/non-ontological relationship with meaningfulness-and-teleology, in the sense that it is the former intemporal-as-ontological individuation mental-disposition that is responsible for bringing about human Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology in reflecting the ontological-contiguity—of-the-human-institutionalisation-process retrospectively and prospectively while

the latter as of its false 'untransvaluated–temporal-intemporality' is rather existentially extricatory and oblivious to Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology in reflecting the ontological-contiguity—of-the-human-institutionalisation-process. As ultimately, it is the prospective relative-ontological-completeness-of-reference-of-thought pursued by the former that supersedes and dissolves human vices-and-impediments as of prospective registry-worldview/dimension transcendence reference-of-thought. The overall insight here of such ontological-bad-faith/inauthenticity can be construed analogically as say in a non-positivistic social-setup where the modern disease theory is not yet socially familiar such that patients may assume that they should be cured immediately/instantly after treatment with no perspective/framing/reference/horizon of appreciation for judging medicine as optimally an over-a-time-period-bodily-reparation construed as the basis of a positivist physician practice; a notion being spread and advocated by the positivist physician in the social-setup. Now consider a competing healer very much aware of such a non-positivist social-setup 'lack of social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩' with regards to such over-a-time-period-bodily-reparation notion and throwing a spanner in the works by pretending that the physician should confirm that patients are cured immediately as otherwise the physician must be practising witchcraft on the patients, understanding fully well the authentic disposition of the physician to affirm a practice of over-a-time-period-of-bodily-reparation for a long term dependable notion of medicine. While they are pragmatically inclined to advanced opportunistically whatever explanation to justify that their healing is immediate/instant and so involving any such stratagem like opportunistically accusing patients or some other persons for any implied failure of immediate/instant cure having the effect on the most part of shutting-off any

complain or at least negative allegations about the healer's cure, and so-enabled on the basis of the healer priorly institutionalised deferential-formalisation-transference posture in the social-setup. Such a healer encouraging the social-setup notion of immediate/instant cure as a ploy as of the possibility of the positivistic disease theory conception subverting their own non-positivistic healing practice notwithstanding ontological-veracity. The manifest acts of many such ontological-bad-faith/inauthenticity critiques with respect to postmodern-thought: whether when pretending to misunderstand postmodern double-gesture reification of meaningfulness, blatantly caricaturing in the most inane terms postmodern-thought, avoiding genuine intellectual-level disputation, and so rather opting for subversive ~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ 'uncritical social media preaching towards sold publics-of-conquest' paradoxically while claiming not to grasp postmodern-thought, with subterfuges of unoriginal thought usurping the notion of science and intellectualism towards such uncritical publics; and all this as a manifestation of perverted intellectual institutional-being-and-craft. While postmodern-thought is not and has never been immuned from genuine intellectual criticism not only from other schools-of-thought but among postmodern and poststructuralist thinkers themselves, and this calling out of such ontological-bad-faith/inauthenticity critics is much more than an issue about postmodern-thought but about all intellectualism generally as such malpractices tend to mark the beginning of intellectual teleological-decadence–as-lacking-in-~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness subversion of progressive thinking and go on to permeate social practices and media practice, thus rendering social and critical thought impotent. Further knowledge as understood by this

author is more than just the conception of its intemporal-as-ontological nature but knowledge is much more completely and potently notional knowledge as it understands as well the implications of temporal-as-non-ontological mental-dispositions dynamics in relation to pure-ontology, and thus in the face of ontological-bad-faith/inauthenticity shouldn't take the bait of overlooking and thus falsely elevating teleologically as intellectually pertinent ontological-bad-faith/inauthenticity rather than relating to it at its teleologically-degraded level for what it truly is, and so as part and parcel of a complete conception of knowledge. Ultimately, intellectual statuses are as pertinent as veridically enabling to human emancipation as of intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm, and intellectuals' choice of ontological-bad-faith/inauthenticity is nothing less than self-inflicting irreverence and cannot thus turn around to intimate irreverence when surreptitiously undermining knowledge of universal consequential implications. This author as of metaphysics-of-absence will summate that prior postmodern thinking is akin-and-pointing-to a proto-prospective reference-of-thought as of prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought over a ~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as prior reference-of-thought, and that necessarily it speaks by its double-gesture reification of quasi-psychoanalytic-unshackling thus requiring a psychoanalytic-reorientation to such an implied prospective reference-of-thought 'as of the prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought of a better knowledge perspective/reference-of-thought before/as-preceding contention/argumentative-engagement, and so avoiding 'flatmindedness'/banality/flimsiness. The underlying current of postmodern-thought is that our limited-mentation-capacity induces our prior relative-ontological-incompleteness with regards to reference-of-thought and its derived meaningfulness-and-teleology, with the

implication that we need to a prospective relative-ontological-completeness-of-reference-of-thought to be able to articulate intemporal-as-ontological construal as of the internal-dialectics/différance of meaningfulness-and-teleology. In other words, all concepts, notions as of ontologically-veridical meaningfulness-and-teleology, are made to have their internal-dialectics/différance as of non-presencing-<as-to-perspective-ontological-normalcy/postconvergence> for their sublimation and transcendence into more profound and more complete meaningfulness-and-teleology. For instance the 'postmodern take' about science is rather a more profound and complete notion of science than the 'modern take', such that a 'modern approach' to the conception of science naively fails to factor in unlike the 'postmodern approach' the implications of human limited-mentation-capacity and the need to deepen it, thus translated into the prior need for prospective relative-ontological-completeness; wherein the 'modern take' might naively consider medicine as simply providing medications and remedies, the 'postmodern take' by an internal-dialectics/différance of the notion of medical science will factor in socioeconomic, education, information, environmental, gender and power relations issues underlying healthcare and medical delivery as a more profound and complete notion of medical science; construed effectively as of deprocrypticism or preempting—disjointedness-as-of-reference-of-thought. Thus, for postmodern-thought the capacity to attain relative ontologically-veridical meaningfulness-and-teleology comes down to the capacity of arriving at the very essence of meaningfulness-and-teleology while overcoming the drawback of our human limited-mentation-capacity. This insight about the essence of things is what underlies fundamentally Heideggerian-essencing-as-of-the-ontological-difference, Sartrean-existence-precedes-essence and Derridean-différance-as-there-is-nothing-outside-the-text, all construed by this author as of existential-contextualising-contiguity; is the enabling approach for human ontological-reconstituting–as-of-conflatedness as of aetiologisation/ontological-escalation.

Basically thus, the overall postmodern project implication is that we deepen our limited-mentation-capacity first (and so as of the dimensionality-of-sublimating—~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation of our acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) to ensure that we go about deriving ontologically-veridical meaningfulness-and-teleology in relative-ontological-completeness. This is in reality the ultimate scientific insight as such an internal-dialectics/différance is articulated as of non-speculative, non-imaginary, theoretical, conceptual and operant scientific implications; and this is reflected in the very initiation of the postmodern paradigm with Heidegger's criticism of Hegelian dialectics, with the latter construed by this author as 'not founded-on-and-constrained-by ontological-veridicality/intrinsic-reality as of ontological-primemovers-totalitative-framework', but rather dialectical discretion, imagination and speculation 'as to lack of a congruent,-cogent-and-operant entailing framework of ontological-contiguity' as herein implied by this author with 'the ontological-contiguity—of-the-human-institutionalisation-process congruent,-cogent-and-operant entailing framework of ontological-contiguity'. Anecdotally, the shallowmindedness of a 'modern take' in failing to recognise the postmodern double-gesture reification will simply consider the blind men reporting of an elephant as a tree-trunk, a rope, a wall, a fan or a spear as 'postmodern madness' without factoring in the underlying double-gesture reification for perspective and insight, given the problematic of human limited-mentation-capacity that itself needs to be factored in and thus actually strengthen the human thought process in its aetiologisation/ontological-escalation. In the bigger scheme of things, such an internal-dialectics/différance is what explains the ontological-contiguity—of-the-human-institutionalisation-process as of Being-development/ontological-framework-

expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology and so-construed as suprastructuralism beyond just the specific interpretation of suprastructuralism as of postmodernism with respect to modernism. This internal-dialectics/différance as of successive transcendence-and-sublimity is behind the respective registry-worldviews/dimensions as of their given reference-of-thought specific neuterising as well as the ultimate deneuterising—referentialism of deprocrypticism. But then ontological-bad-faith/inauthenticity is equally elicited by 'lack of social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩' as of a cynicism of institutional-being-and-craft. The transcendental implications of a registry-worldview/dimension reference-of-thought 'reference-of-thought—devolving-teleological-structure-of-meaningfulness' arises for instance in the sense that however 'wishful' the ontological-primemovers-totalitative-framework transcendental-possibilities/potential as of knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue and human emancipation potential/possibilities of a prospective registry-worldview/dimension like positivism as of its 'reference-of-thought—devolving-teleological-structure-of-meaningfulness', cannot avail to a prior registry-worldview/dimension like non-positivism/medievalism. In this regard the Copernicuses, Galileos and Diderots of their eras, and more explicitly Descartes in his direct construal of the positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, would have certainly sensed that their specific knowledge conceptualisations wasn't the more critical issue but rather their insistence was an implicit understanding that the non-positivistic 'reference-of-thought—devolving-teleological-structure-of-meaningfulness' was structurally/paradigmatically a framework that wouldn't be enabling for their positivistic and all other positivistic knowledge conceptualisations as of its prior relative-ontological-

incompleteness-of-reference-of-thought (and were thus more fundamentally projective dimensionality-of-sublimating—~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation). Such conflatedness imbued in postmodern-thought address more than just constitutedness implications of knowledge construction as articulated herein but equally points critically to intellectually decadent institutional dispositions and practices where imprimatur and the dynamics of imprimatur by themselves are increasingly construed as of more critical epistemic pertinence for knowledge constructions undermining the possibilities of breakthroughs given that the primacy of intellectualism as of the pertinence of intellectual arguments increasingly takes a back seat, with intellectual postures increasingly defended with non-intellectualism obsession of ideologies of schools-of-thought as of institutional-being-and-craft. This manifests itself in the form of many an intellectual increasing disposition 'to misunderstand' others works, as there are little common stakes for breakthroughs but rather the stakes are increasingly of institutions academic visibility and tenure with emphasis on likeminded networks and forums driven increasingly by influence than carefree universal intellectual curiosity. Furthermore intellectualism has increasingly been surreptitiously mingling-and-yielding to social and economic interests undermining its obligation for enabling social clairvoyance, with a resultant sense of socioeconomic and socio-political impotence as such a blurriness is increasingly undermining the relevance of intellectualism in its public discourse and enlightenment mission. Ultimately, the epistemic and structural paradigm of academic institutional setups are not dissociated from the effective possibility for transcendental-enabling/sublimating, especially as such breakthroughs require the spontaneity of Dionysian arrangements. This author's construes of deprocrypticism or preempting—disjointedness-as-of-reference-of-thought 'reference-of-thought—devolving-teleological-structure-of-meaningfulness' conceptualisation as of ontological-escalation or

aetiologisation, with respect to our present positivism–procrypticism disjointedness-as-of-reference-of-thought, as the more fundamental transcendental issue for prospective ontological-primemovers-totalitative-framework transcendental-possibilities/potential beyond self-referencing-syncretism and circular palliative knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue with regards to attending to the inherent deficient uninstitutionalised-threshold of knowledge-construct possibilities and vices-and-impediments imbued in our positivism–procrypticism disjointedness-as-of-reference-of-thought 'reference-of-thought—devolving-teleological-structure-of-meaningfulness'. Such a paradox of human ontological-performance-<including-virtue-as-ontology> is effectively construed as arising out of human <~~amplituding~~/formative>epistemic-totalising~thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance-<including-virtue-as-ontology>s) implying a premeaningfulness/preframing-<metaphoricity-disposition—as-to-psyche-induced-psychologism-of-existential-stake> idiosyncrasy that underlies presence institutionalisation reference-of-thought consciousness as it develops presence meaningfulness-and-teleology-as-of-prospective-thought-and-reflexivity idiosyncrasy. Thus human meaningfulness-and-teleology is always at the crossroads of its prospective relative-ontological-completeness-of-reference-of-thought and its ontologically undermining metaphysics-of-presence construal as of prior relative-ontological-incompleteness-of-reference-of-thought and in conjugation with perversion-and-derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> implications as of postlogism-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-

endemisation, so-disambiguated as of reference-of-thought-devolving ontological-performance-<including-virtue-as-ontology>s and both as of beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>; ensuing out of human ~~amplituding~~/formative>epistemic-totalising~thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance-<including-virtue-as-ontology>s) limited-mentation-capacity implications of premeaningfulness/preframing-<metaphoricity-disposition—as-to-psyche-induced-psychologism-of-existential-stake> idiosyncrasy. The reason why social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩ is empowering for prospective institutionalisation in superseding uninstitutionalised-threshold lies in the fact that the 'succession of premeaningfulness/preframing-<metaphoricity-disposition—as-to-psyche-induced-psychologism-of-existential-stake>' idiosyncrasy as of human thrownness in existence that allowed for prior institutionalisations are inherently predicated on their successive social universal-transparency-⟨transparency-of-totalising-

ontological-normalcy/relative-ontological-completeness-of-reference-of-thought   perspective of deprocrypticism 'referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness protensive-consciousness sound conceptualisation perspective'. In so doing, the latter reflects the limited-mentation-capacity dynamism of meaningfulness-and-teleology as of notional~deprocrypticism as well as temporal-to-intemporal individuations mental-dispositions, by way of deneuterising—referentialism, in lieu of neuterising. Thus this notion of human limited-mentation-capacity as the basis of différance/internal-dialectics/difference-deferral divulges 'ontologically-compromised-mediating,-as-of-their-specific-constitutedness consciousnesses flawed conceptualisation perspectives' and as of their ontologically-flawed constructs of neuterising, with regards to articulating teleological elevation-as-of-upholding-ontological-veridicality or teleological degradation-as-of-failing-ontological-veridicality respectively either as of conflatedness or destructuring respectively. Basically, the construal/conceptualisation of human <amplituding/formative>epistemic-totalising~thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance-<including-virtue-as-ontology>s) has always involved a disparateness-of-ontologically-construed-social-reality as of on the one hand a dichotomy of 'intemporal-projection transcendental-enabling/sublimating abstraction of prospective Being and meaningfulness-and-teleology construal as of organic-knowledge implications and so as reductive construction however non-mechanical and intemporal-as-ontological-its-projection and hence as an open-ended-incompleteness/nonachievement-of-ontological-normalcy construal of social reality', and on the other hand 'an ad-hoc open-ended summative hotchpotch conventioning of temporal projections and intemporal projection grounding of social reality construction including organic-knowledge as well as mechanical-knowledge implications'; such that from the ontological-normalcy/relative-ontological-completeness-of-

reference-of-thought perspective, the overall social Being and meaningfulness-and-teleology transcendentally-enabling-level–of-authenticity/objectification/desubjectification-as-objectification/ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality/antinihilism is ontologically-limited as of organic-knowledge implications reductive constructions in an open-ended-incompleteness/nonachievement-of-ontological-normalcy, as of the ontological-deficiency of mechanical-knowledge denaturing implications as well as perversion-and-derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> of temporal projections as of postlogism-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of reference-of-thought-devolving ontological-performance-<including-virtue-as-ontology>s, all occurring as of the conjoined dynamism of conflatedness and distractive-alignment-to-reference-of-thought. This overall disparateness-of-ontologically-construed-social-reality dynamism is reflected in 'ontologically-compromised-mediating,-as-of-their-specific-constitutedness consciousnesses flawed conceptualisation perspectives' as of their neuterising: wherein recurrent-utter-uninstitutionalisation has the deepest reference-of-thought/structural/paradigmatic as 'impulsive—ontologically-compromised-mediating,-as-of-its-specific-constitutedness consciousness flawed conceptualisation perspective' neuterising by its trepidatious-consciousness, while on the other extreme in contrast deprocrypticism rather has a reference-of-thought/structural/paradigmatic deprocrypticism 'referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness protensive-consciousness sound conceptualisation perspective' that by its 'reference-of-thought-devolving—

différance/internal-dialectics/difference-deferral' grasp the ontologically-veridical 'underlying human limited-mentation-capacity dynamics of <~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving, and so without being subject to any neuterising' as is the case with all 'ontologically-compromised-mediating,-as-of-their-specific-constitutedness consciousnesses flawed conceptualisation perspectives'. Thus by its deneuterising—referentialism construed as of historiality/ontological-eventfulness/ontological-aesthetic-tracing, deprocrypticism enables a fundamental ontology-driven 'postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics', and so superseding a naïve metaphysics-of-presence affect-driven mented or stigmatic psychology rather as of a shallow perspective and vaguely articulated as of universal import. The idea here with regards to human transcendental-enabling/sublimating/transcendence-and-sublimity, is that from a creative perspective: the notion of a given neuterising is equinominal/equivalent with a given presencing—absolutising-identitive-constitutedness, and as this speaks of human limited-mentation-capacity prospectively-construed ontologically-flawed implications as of ontological-normalcy/postconvergence. It is over this neuterising that human transcendental-enabling/sublimating/transcendence-and-sublimity is achieved from the prospective notional~conflatedness of notional~deprocrypticism and so by deneuterising—referentialism, which is equinominal/equivalent to non-presencing-<as-to-perspective-ontological-normalcy/postconvergence>. In other words the historial implications of human limited-mentation-capacity-deepening-(<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) is that 'as of a less and less ontologically-flawed meaningfulness-and-teleology towards ontological-normalcy/postconvergence, 'it projectively/anticipatorily brought about the successive registry-worldviews/dimensions

<amplituding/formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving' as of their given neuterisation, construed as equinominal/equivalent with their successively given neuterising. From the above insight, transcendental-enabling/sublimating/transcendence-and-sublimity, is attainable as of deneuterising, construed as equinominal/equivalent with deneuterising—referentialism as the notional~conflatedness of notional~deprocrypticism that produces the ontologically-veridical historiality/ontological-eventfulness/ontological-aesthetic-tracing. Ultimately, this sociohistorial disparateness-of-ontologically-construed-social-reality dynamism comes down to the limited/incomplete association of human 'invention' of organic-knowledge with the reflection of 'this organic-knowledge underlying mental-disposition as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology rather defectively as of mechanical-knowledge construal in existential instantiations', inducing prospective neuterising. This disparateness is increasingly closed-down all along in reflecting the ontological-contiguity—of-the-human-institutionalisation-process from recurrent-utter-uninstitutionalisation to positivism–procrypticism, with the underlying tenet for achieving futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism as preempting—disjointedness-as-of-reference-of-thought being a full and cogent reflection of 'human construal of organic-knowledge' with 'the mental-disposition behind that construal of organic-knowledge for Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology in existential instantiations' thus resolving the open-ended-incompleteness/nonachievement-of-ontological-normalcy. Overall, such a notional~conflatedness reference-of-thought/structural/paradigmatic—ontological-performance-<including-virtue-as-ontology>

'performance-construct of candidity/candour-capacity' can be garnered as of metaphysics-of-absence wherein across the successive registry-worldviews/dimensions a notional~deprocrypticism insight makes obvious that it is increasing ontological-normalcy/postconvergence by increasing prospective relative-ontological-completeness-of-reference-of-thought that underlies reference-of-thought/structural/paradigmatic—ontological-performance-<including-virtue-as-ontology> as a wholly internal process of conflatedness, highlighting 'the concatenation of intemporal-projection inextricably with derived-denaturing-deprojections-in-distractiveness-of-intemporal-projection, with the former in relative longness-of-register-of-meaningfulness-and-teleology and the latter in relative shortness-of-register-of-meaningfulness-and-teleology/distractiveness' that occurs at the individuation-level and is reflected in the registry-worldview/dimension-level by the concatenation of institutionalisation inextricably with uninstitutionalised-threshold as the former is in longness and the latter in shortness/distractiveness to the former. This conceptualisation of candidity/candour-capacity associated with deprocrypticism with regards to 'ontological-dementation/dialectical-dementation–stranding/attributive-dialectics implications for reference-of-thought transcendence' is in effect a 'more profound-and-comprehensive notion of différance construed rather with respect to the defining reference-of-thought of meaningfulness-and-teleology as of prospective relative-ontological-completeness-of-reference-of-thought' and can be qualified as 'futural différance' as of its suprastructural nature, and goes beyond the limits of a Derridean perspective of différance as 'historial différance' rather articulated from 'presencing-as-prospective-relative-ontological-completeness-of-reference-of-thought construing of past-as-prior-relative-ontological-incompleteness-of-reference-of-thought in ad-hoc reassessing of meaningfulness-and-teleology of presencing-as-prospective as from its very own reference-of-thought in grasping alterations of meaningfulness-and-teleology going back from the past but not to the point of

In other words, such a 'futural différance' is predicated on what is implied by conflatedness as of intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm that structurally/paradigmatically makes the future-as-prospective-relative-ontological-completeness-of-reference-of-thought the whole grounding for meaningfulness-and-teleology as of intrinsic-reality/ontological-veridicality as it supersedes as an opened-construct-of-meaningfulness-and-teleology the <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> incrementalism-in-relative-ontological-incompleteness dispositions of prior/transcended/superseded perversion-and-derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>. But rather related to as of transcendence-unenabling-uninstitutionalised-threshold in alienation—as-inauthentic/poorly-objectified/poorly-desubjectified-as-objectified/ontological-bad-faith/nihilistic marked by incoherence of contemplative mindset/reference-of-thought development in the midst of the technical world as rather literally 'hurling along' prospectively prospectively-underdeveloped-Being-as-of-unexpanded-ontological-framework; and so as reflected by conflatedness <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity as of 'the concatenation of intemporal-projection inextricably with derived-denaturing-deprojections-in-distractiveness-of-intemporal-projection'. Consider a metaphysics-of-absence elucidation with regards to say a remote/isolated non-positivistic animist/base-institutionalisation society for instance which by some token has sustainable-and-learned access to basic but greatly enhancing productive techniques from travellers of a positivistic culture but without a substantial corresponding organisational and institutional diffusion associated with such greatly enhancing productive techniques due to the very brief nature of the encounter or disconnected/incoherent/perfunctory/chaotic nature of their relations, this will structurally/paradigmatically have degenerative effect on such an animistic social organisation wherein this isn't enhancing of the society's social organisation and relations and will be possibly disruptive. This example isn't that farfetched as anthropological evidence of such cases abounds with many native societies so disrupted by culturally alienating positivistic material diffusion. Human material/technical development and corresponding mentality as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology are inextricable and critical in reflecting the ontological-contiguity—of-the-human-

institutionalisation-process including our positivism–procypticism registry-worldview/dimension. Inevitably the disparity of being thrown in the midst of technical development associated with 'the underdevelopment of Being construed herein as of individuation-level and registry-worldview/dimension-level disjointedness-as-of-reference-of-thought with respect to our positivism–procrypticism registry-worldview/dimension' is by itself a structural/paradigmatic basis for human vices-and-impediments whether at a micro-level interactional or macro-level social and political paradigm basis, notwithstanding our inclination for <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag where what passes as profound is our temporal mortal-to-mortal acquiescing as social-aggregation-enabling rather than a sense of intersolipsistic intemporal projection of intrinsic-reality/ontological-veridicality; with mental-dispositions rather geared towards temporal extricatory paradigm as of constitutedness, rather than intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm as of conflatedness as enabling and upholding the ontological-contiguity—of-the-human-institutionalisation-process. Without the development of Being à la Heideggerian imagination the ontological-contiguity—of-the-human-institutionalisation-process itself comes to a halt as of failing of Being transcendentally-enabling-level–of-authenticity/objectification/desubjectification-as-objectification/ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality/antinihilism as implied by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality driven organic-knowledge; as recurrent-utter-uninstitutionalisation 'requires the transcendentally-enabling-level–of-authenticity/objectification/desubjectification-as-objectification/ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-

The notion of reference-of-thought/structural/paradigmatic—ontological-performance-<including-virtue-as-ontology> as being a wholly internal process of conflatedness, highlighting 'the concatenation of intemporal-projection inextricably with derived-denaturing-deprojections-in-distractiveness-of-intemporal-projection, with the former in relative longness-of-register-of-meaningfulness-and-teleology and the latter in relative shortness-of-register-of-meaningfulness-and-teleology/distractiveness', implied with regards to Being underdevelopment across the successive registry-worldviews/dimensions also speaks to how intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating behind the ontological-contiguity—of-the-human-institutionalisation-process can and is often usurped by eruditic establishments by a nombrilistic elicitation of temporal mental-dispositions as to the commonsense/social-aggregation-enabling of a given registry-worldview/dimension as a denaturing construal in terms–as-of-axiomatic-construct that are effectively divorced and subpar to the organic-knowledge as enabling the intrinsic-

The idea that intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating is only the panache of the technical as of the sciences and that there is no need for Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology to be instigative-and-be-elevating-of-contemplation-and-Being in complement as of human development is nothing less than a derogation that renders such an establishment erudition no different, as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, from the mediums, shamans, witchdoctors, dogmatic scholastics of prior registry-worldviews/dimensions as vested in their 'circular-pervasiveness <~~amplituding~~/formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>)' rather than moving ahead of human blithe and their platitudes, and construing the real possibility of human emancipation as of a prospective opened-construct-of-meaningfulness-and-teleology; as the masses-defined-as-non-specialists can effectively be 'tolerated' to be ignorant as of the focussing possibility of human limited-mentation-capacity but that which is duty bound to a human Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology domain/specialism beyond-just-an-institutional-construct-but-existentially is morally-and-intellectually bound to spearhead the effective development of that Being domain/specialism and not be involved in dithering, and so as of an intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm.]

END OF DIGRESSION (ON OVERALL CONCEPTION OF THE FULL POTENTIAL OF HUMAN ONTOLOGICAL-PERFORMANCE-<INCLUDING-VIRTUE-AS-ONTOLOGY>)

Prelogism at worst implies an ad-hoc problem of defect–of-logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview's/dimension's–reference-of-thought-for-social-functioning-and-accordance, while postlogism implies a fundamental defining being/existential/ontological/axiomatic-construct problem of perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>, that is inherently in circularity/recurrence/repetition/repeatability thus requires ontological-reconstituting–as-of-conflatedness. Postlogism is thus an expansive construct developing into conjugated-postlogism associated with endemising/enculturationg social psychopathy, as temporal-dispositions arrive at beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> perversion-and-derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as mental-dispositions finalities/determinations inducing disjointedness-as-of-reference-of-thought-as-misappropriated-meaningfulness associated with procrypticism.

Prelogism even when ontologically-flawed can be compared to the defect arising using a 'correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements' (appropriateness-of-reference-of-thought-as-of-conflatedness) for aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-measurements (to derive meaningfulness-and-teleology) but in doing so

aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-measurements wrongly (construed as using the correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements' wrongly) which specifically speaks of the possibility of reusing the 'same correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements' as same appropriateness-of-reference-of-thought-as-of-conflatedness (notwithstanding the specifically flawed aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-measurements) for producing veridical meaningfulness-and-teleology. While postlogism is akin to the 'defect of the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements itself' (perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>) besides the 'specific act of aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-measurements' for producing veridical meaningfulness-and-teleology, and speaks to a fundamental flaw that is bound to circularly/repetitively/recurrently give erroneous aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-measurements given the fundamentally incorrect apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements. Postlogism thus speaks of the registry-worldview's/dimension's-uninstitutionalised-threshold–defect-<as-Being-or-ontological-or-existential–defect> in producing meaningfulness-and-teleology, thus divulging a 'reference-of-thought existentialism construct defect' that is comprehensively devolving all across the given 'reference-of-thought existentialism construct' i.e., construed variously as of the registry-worldview/dimension meaningfulness-and-teleology 'implied specific teleological

differentiation/scission/variance/disambiguation' as to its institutionalised-and-uninstitutionalised-thresholds implied relative-ontological-completeness-of-reference-of-thought), and so as of the contending-reference (meaningfulness 'implied teleological construct'), the ontological-reference (meaningfulness 'implied being/existential construct'), the meaningful-reference (meaningfulness 'implied contextualisation construct'), the anchoring-of-meaning (meaningfulness 'implied operant construal') and the apriorising–registry (meaningfulness 'implied basic defining construct' in terms–as-of-axiomatic-construct of logical-dueness/profile/presumptuousness/assumptions/value-reference/teleology).

This elucidation of postlogism in comparison with the implications of a defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements provides a comprehensive insight about the underlying perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> associated with postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation and its social derivation as conjugated-postlogism/preconverging-or-dementing-integration as of relative-ontological-incompleteness-of-reference-of-thought. That apparently minor twitch in the 'defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements' (perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>) is 'a covert negative vista' that wrongly undermines/dismantles 'inherent/preceding intrinsic-reality/ontological-veridicality 'imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as to existence-potency-

falsely/deceptively induced by the perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> (defect of the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements itself) lead to a first-order faulty-mentation-procedure-deception-or-urge as perversion-and-derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> (inappropriateness of the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements and the derived uses) and which subsequent implications then go on to induce a second-order level wrongly implied deception of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of

infinite deception possibilities with respect to the infinite possibilities of 'perfect logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation' on the false basis of the perversion-and-derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> (infinite possibilities of errors arising for aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-measurements with a defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements and the derived uses) for producing 'meaningfulness-and-teleology' (aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-measurements) based on the perversion-and-derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> (defect of the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements itself and its derived uses). Just as fundamentally not resolving the defect of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements induces systematically a circularity/recurrence/repetition/repeatability in the 'incorrect aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-measurements' in the overall enterprise of the aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-measurements (say architectural for instance) and so 'reflected as preconverging-or-dementing–apriorising-psychologism/unsoundness-or-inauthenticity-of-reference-of-thought' in relation to 'correct aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-measurements' reflected as postconverging-or-dialectical-thinking–apriorising-psychologism/soundness-or-authenticity-of-reference-of-thought, likewise perversion-of-

reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> related to as being of appropriateness-of-reference-of-thought-as-of-conflatedness wrongly undermines/dismantles the 'existential meaningfulness-and-teleology' implied by 'inherent/preceding intrinsic-reality/ontological-veridicality 'imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as to existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality' (from the perspective of the 'postconverging-or-dialectical-thinking-reference-of-thought in relative-ontological-completeness as depth-of-thought'), and such perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> is 'reflected as preconverging-or-dementing–apriorising-psychologism/unsoundness-or-inauthenticity-of-reference-of-thought' in relation to veridical 'existential meaningfulness-and-teleology' reflected as postconverging-or-dialectical-thinking–apriorising-psychologism/soundness-or-authenticity-of-reference-of-thought. The critical importance of highlighting 'inherent/preceding intrinsic-reality/ontological-veridicality' here as 'imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as to existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality' (from the perspective of the 'postconverging-or-dialectical-thinking-reference-of-thought in relative-ontological-completeness as depth-of-thought') has to do with the fact that the language (say technical terminology for architecture) for construing meaningfulness-and-teleology

(purposeful architectural aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-measurements) is equally available to both the appropriateness-of-reference-of-thought-as-of-conflatedness (correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements) and the perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> (defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements) for expression as aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-measurements due to the 'covert negative vista' of the perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as well as derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> (derived relation to the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements as being 'correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements'). Thus technically speaking all elocution associated with the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements for the aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-measurements (perversion-and-derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>), as meaningfulness-and-teleology is structurally/paradigmatically constrained as to threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism, as from candidity/candour-capacity perspective. The implication being that

structurally/paradigmatically reference-of-thought (grandest-axiomatic-construct) in effect in its soundness or unsoundness induces devolving sound or unsound meaningfulness-and-teleology; with appropriateness-of-reference-of-thought-as-of-conflatedness structurally/paradigmatically implying 'appropriate devolving meaningfulness-and-teleology of reference', perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> structurally/paradigmatically implying 'perverted devolving meaningfulness-and-teleology of reference' and derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> structurally/paradigmatically implying 'derived-perverted devolving meaningfulness-and-teleology of reference'. (Hence the circular-pervasiveness reflex by which a registry-worldview always resets its meaningfulness-and-teleology as neuter/conviction-as-to-profound-supererogation-or-postconverging-or-dialectical-thinking–apriorising-psychologism and so even at the point of its underlying demonstrated incompleteness-of-reference-of-thought behind its perversion-and-derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> is nothing but 'a flawed <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag exercise', and revealed so by the prospective/transcending/superseding registry-worldview.) This technically highlights two issues, the inherent perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> and the registry-worldview/dimension relative-ontological-incompleteness-induced,-'threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism', that induces a derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-

Consider for instance (with regards to human growing/developing prospective relative-ontological-completeness-reference-of-thought), the historical transformation of meaningfulness-and-teleology associated with the development of human astronomical instruments, as from objects for religious calculations such as astrolabes to the development of telescopes today rather for advanced astronomical science mirroring a corresponding human <~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling-⟨by-a-renewing-of-aprioriisng/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective-meaningfulness-and-teleology⟩ as of the successive institutionalisations. This explains the peculiar mimetised-preconverging-or-dementing–aprioriisng-psychologism placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology we'll construe for instance of a non-positivism/medievalism mindset/reference-of-thought that doesn't register positivistic meaningfulness reference-of-thought and likewise prospectively such a construal will have our present placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology as of priorly unsoundness-or-inauthenticity-of-reference-of-thought/preconverging-or-dementing–aprioriisng-psychologism by its positivism–procrypticism reference-of-thought. Correspondingly, from the vantage position of our present positivising/rational-empirical ontological-completeness-of-reference-of-thought with respect to a non-positivism/medievalism worldview, we can garner an insight of the threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism of the postlogism-and-conjugated-postlogism in a non-positivism/medievalism setup, wherein faced with arguments of the sort who is the sorcerer, how are they using their sorcery, etc., speaking of the non-positivism/medievalism　　　　　relative-ontological-incompleteness-induced,-'threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism' (given that sorcery doesn't exist, going by the insight of positivistic prospective relative-ontological-completeness-of-reference-of-thought whereas the non-positivism/medievalism registry-worldview/dimension is ridden with a whole complexity of threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism construct of notions-and-accusations-of-sorcery meaningfulness-and-teleology as its paradigm of circularity/recurrence/repetition/repeatability　　　　　(perversion-and-derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>–as-to-uninstitutionalised-threshold-self-referencing-and-subtransversality-of—apriorising/axiomatising/referencing). This insight can equally be drawn prospectively in our positivism–procrypticism registry-worldview/dimension faced with its postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation like psychopathy and social psychopathy. This speaks of

the very nature of all threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism with regards to the limits of a registry-worldview's/dimension's institutionalisation (whether base-institutionalisation, universalisation and positivism eliciting respectively the uninstitutionalised-thresholds of ununiversalisation, non-positivism/medievalism and procrypticism) across all the ontological-contiguity—of-the-human-institutionalisation-process wherein the prior/transcended/superseded registry-worldview's/dimension's reference-of-thought in its <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag (as metaphysics-of-presence: illusion-of-the-present/present-consciousness/mirage) is representing itself as 'postconverging-or-dialectical-thinking–apriorising-psychologism and dialectically/contendingly in-phase' whereas from the prospective institutionalisation registry-worldview's/dimension's reference-of-thought, as of the ontological-normalcy/postconvergence epistemic/notional~projective-perspective, it is 'preconverging-or-dementing–apriorising-psychologism and dialectically/contendingly out-of-phase'. The reason for the ontologically defective <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag is that all registry-worldviews/dimensions reference-of-thought 'tend to convention' and in so doing close the 'existential frame-of-ontology/meaningfulness (which is the transcendental-enabling/sublimating)' in their conventioning, and thus to the exclusion of prospective ontological profoundness of reference-of-thought. Thus all registry-worldviews/dimensions had hitherto been <~~amplituding~~/formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>).

However human existential closure of meaningfulness as conventioning doesn't supersede

but is rather superseded by existential ontological-veridicality, explaining the susceptibility of registry-worldviews/dimensions references-of-thought to be transcended/superseded with human limited-mentation-capacity-deepening-⟨<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ expansion of ontological-depth as increasing ontological-completeness-of-reference-of-thought (or reducing relative-ontological-incompleteness-induced,-'threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism'). Existential closure of meaningfulness as conventioning induces psychically a registry-worldview/dimension 'exclusive representing' of itself as as 'candored and straight' with respect to meaningfulness-and-teleology whereas its transcending/superseding by the prospective registry-worldview/dimension exposes psychically that it is rather 'decandored and oblongated' with respect to more profound prospective/transcending/superseding meaningfulness-and-teleology. A further example will be say 'the God of plane' type of articulation wherein such a base-institutionalisation as of animistic social-setup which is not positivistic (not the case of non-positivistic as medieval) is psychically 'candored and straight' with itself in <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag (its metaphysics-of-presence) and goes on articulating meaningfulness-and-teleology even in the new existential transcendental/superseding contextualisation in terms–as-of-axiomatic-construct of the doubly-prior/transcended/superseded base-institutionalisation/animistic registry-worldview/dimension. Given such a state of <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, the notion of generating meaningfulness-and-teleology from the ontological-normalcy/postconvergence epistemic/notional~projective-perspective priorly implies a requisite psychoanalytic-

unshackling/memetic-reordering/institutional-recomposure, and so by maximalising-recomposuring-for-relative-ontological-completeness. While excluding any exercise of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity since the latter is only appropriate in the instance of prospective relative-ontological-completeness-of-reference-of-thought; as the base-institutionalisation (animistic) prior relative-ontological-incompleteness-induced,-'threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism' puts into question the very first and absolute apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of meaningfulness-and-teleology ('existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as to existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality construed as of increasing human limited-mentation-capacity-deepening-⟨<amplituding̶/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ in the apriorising/axiomatising/referencing of meaningfulness-and-teleology construal') with respect to the base-institutionalisation (animistic) registry-worldview's/dimension's-uninstitutionalised-threshold–defect-<as-Being-or-ontological-or-existential–defect>. Equally we can imagine that making a positivistic argument in the midst of a non-positivism/medievalism setup will seem 'deranged' from their perspective and their mental orientation will be geared to their traditional sense of meaning and living as absolutely defining, but then the 'center' had moved from their world (from non-positivistic as base-institutionalisation/animistic or medieval preconverging-or-dementing–apriorising-psychologism decenter) to the positivistic world (as postconverging-or-dialectical-thinking–

apriorising-psychologism center). Likewise such a suprastructural articulation of our positivism–procrypticism relationship to its postlogism that includes psychopathy and social psychopathy will apparently not make any sense to our present but then ontologically our present is now decentered as threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism, though our mental-reflex will be a traditional sense of meaning and living as sound-and-not-preconverging-or-dementing–apriorising-psychologism as well. However, to the extent that it is 'not such <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag temporal/shortness-of-register-of-meaningfulness-and-teleology inclinations' that drove human registry-worldview's/dimension's institutionalisations and resolved uninstitutionalised-thresholds from recurrent-utter-uninstitutionalisation to base-institutionalisation–ununiversalisation to universalisation–non-positivism/medievalism to positivism–procrypticism (as by reflex the temporal mental-disposition will rather be inclined to temporal (shortness-of-register-of-meaningfulness-and-teleology) extrication in any registry-worldview/dimension with no upholding of transcendental possibilities), to that extent the intemporal-disposition should rather construe/conceptualise its intemporal-disposition as the tip of human transcendental institutionalisation possibility and thus inherently that it transversally takes precedence over human temporal complexes (and such a 'transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing confliction' resolved intemporally by prospective ontological-primemovers-totalitative-framework and secondnaturing. This actually explains the inevitable contrariety involved in the making of transcendental human progress involving a prior/transcended/superseded reference-of-thought and a prospective/transcending/superseding reference-of-thought; given the blunt fact that 'there is no untransvaluated–temporal-intemporality' and pretences of inevitability of human progress

without need for intemporal projection are falsehoods 'arising as temporal/shortness-of-register-of-meaningfulness-and-teleology distraction' with respect to the institutionalising/intemporalising constraining effect of intemporal/longness-of-register-of-meaningfulness-and-teleology projections.). Critically, the notion of transcendence and transcendental-enabling/sublimating associated with intemporality/longness and institutionalisation/intemporalisation as of its very defining core is rather one of ontological-primemovers-totalitative-framework as it propounds the supersedingness/primacy/ascendency of intrinsic-reality as a the-Good/understanding/knowledge-driven construct over human 'good-naturedness'/impression-driven constructs as well as social-aggregation-enablers. The idea being that ontological-primemovers-totalitative-framework is much more than a notion associated with the positivistic registry-worldview/dimension (as has naively been traditionally implied) but is a central heuristic drive in defining and structuring meaningfulness-and-teleology in all prior registry-worldviews as well however relatively inefficient; given that with corresponding shallow to limited-mentation-capacity-deepening-⟨<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩, as institutionalising ontological-primemovers-totalitative-framework successively induce more and more profound 'mimetic-echoness to ontological-normalcy/postconvergence' as of the full-potency of existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency-prospective-digression-of—<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness. (Consider the case with ancient Egyptians and even ancient Greeks where their relations with their deities were closely related to the fortune they expected on an empirical basis whether with respect to such occurrences like droughts, warfare, etc. which technically speaking is a rational allocation as ontological-primemovers-

totalitative-framework of meaningfulness-and-teleology going by their limited-mentation-capacity-deepening-⟨~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩). Transcendence and transcendental-enabling/sublimating as so construed is more than just a vague notion of dialecticism but one that recognises on 'an effective reality basis that human limited-mentation-capacity-deepening-⟨~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩' implies more and more profound reconstruals/reconceptualisations (~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought) inducing transformative implications with respect to meaningfulness-and-teleology as transcendence; in contrast to the mere aestheticisation of abstract dialecticism or analogy/mere-analogising speaking thus of human sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence. As knowledge conception as contrasted to sovereign conception, 'transcendence and transcendental-enabling/sublimating doesn't recognise any human discreet primacy with respect to intrinsic-reality/ontological-veridicality' but rather intrinsic-reality is the inherent purveyor of pertinence and primacy. For instance, we don't have a choice in deciding that gravity is about 9.8 m/s^2 on earth since intrinsic-reality imposes that idea and the corresponding knowledge construction and organisation where intrinsic-reality is ascendant is rather based on an 'intemporality-asymmetric-subsumption-of-temporality', for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating. This is not to be confused with sovereign constructions and organisations driven by human sovereign choices such as political choices or marketing choices or other sovereign choices based on practices and habits. The latter are social-scientific (besides the previous notion of social-scientific referring to intrinsic social reality transcendental-enabling/sublimating), with respect to

transcendental-enabling/sublimating construals/conceptualisations only as of existence-in-its-mimetic-echoness as inclusive of the human condition, i.e., human existential sovereign choices of meaningfulness-and-teleology as ontological construals 'not in terms of the inherent intrinsic-reality/ontological-verdicality of the meaningfulness-and-teleology itself' but 'rather as of the veracity/ontological-pertinence of the reality of the human sovereign choices as of themselves as humans values independent of their inherent intrinsic-reality/ontological-veridicality as ontologically construing the reality of human condition', and so with respect to historiality/ontological-eventfulness/ontological-aesthetic-tracing, politicisation and other social choices like moralisation, cultural value, economic value, etc. This distinction is critical because very often sovereign choices as conventions will tend to be acted upon as if these were transcendental knowledge of intrinsic-reality/ontology construal of the social in a wrong equivalence, and further because the transcendental-enabling/sublimating as of the intrinsic-reality/ontology construal of the social is more fundamental as the tool for 'creating/inventing-and-destroying/deconstructing conventions' for more and more profound grasp of intrinsic-reality/superseding–oneness-of-ontology as of human subpotent knowledge. Sovereign constructs can as such be construed beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> to stifle the possibility of intrinsic-reality/ontology of the social, construed as ontology/ontological-veridicality transcendental-enabling/sublimating knowledge, from arising. This insight explains why all deferential-formalisation-transference are only of pertinence as they justify and are derived from relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating conceptualisations, and collapse when they fail that test. For instance, notions such as arguments from authority are useful in ensuring social efficacy but when authority is demonstrated as relatively fallacious, it then has no pretence to the sanctity of not being undermined. Ultimately, the veridical nature of

knowledge beyond 'institutionalised-being-and-craft' (as established by prior transcendence) to prospective transcendence is not as an exercise of 'logical mere convincing' as of social-aggregation-enabling about what is knowledge and appropriate, but rather as a critical exercise of channelling of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating as secondnaturing institutionalisation percolation-channelling to elicit the necessary positive-opportunism for prospective institutionalisation as skewing ('intemporality-asymmetric-subsumption-of-temporality', for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating) towards the intemporal/longness-of-register-of-meaningfulness. The fact is as construed by the Galileos, Corpernicus, Diderots and others of the world, transcendental knowledge (as relatively 'consecrated' by relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating) necessarily carries a 'cynicism-of-grandeur-as-of-effective-intemporal-solipsistic-commitment' to deal with the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor (and so as of 'circular-complexification'/perpetual-reinstitutionalisation as a result of the same human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor mental-dispositions across all the successive ontological-contiguity—of-the-human-institutionalisation-process registry-worldviews/dimensions). In the bigger scheme of things, as of the 'deepest phenomenological transcendental-point-of-departure handle as of the notional~conflatedness of notional~deprocrypticism deneuterising—referentialism' reflected by metaphysics-of-absence in the conception of meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology> as of the transcendental implications in reflecting the

ontological-contiguity—of-the-human-institutionalisation-process of knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue, we can appreciate that the successive registry-worldviews/dimensions conventioning are increasingly ontologically-driven in their value construct as it is more and more profound ontological-veridicality that enables human transcendence and the ontological-contiguity—of-the-human-institutionalisation-process in the first place; with the deprocrypticism institutionalisation conventioning supposedly attaining absolute ontological grounding. The insight here is that the relative pure-ontology-drive of a Socrates philosophical clairvoyance superseding Athenian society conventioning limits but then with the latter perceiving in <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag its conventioning limits as absolutely ontological, Socrates is paradoxically construed as ontologically-impertinent and thus accused of heresy. Such an argument can also be extended to say a Copernicus or a Galileo whose relative pure-ontology drive advocating a heliocentric universe in medieval society comes against medieval society scholastics dogmatism conventioning limits but then with the latter perceiving in <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag its conventioning limits as absolutely ontological, Copernicus and Galileo are paradoxically construed as ontologically-impertinent. This highlights that a registry-worldview's/dimension's construes in <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag its conventioning limits as being the absolute ontological determinant of meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology>, and that meaningfulness-and-teleology as of relative pure-ontology superseding it is paradoxically construed as ontologically-impertinent. This is relevant with regards to the 'intellectual projection' choices made as of their

transformative implications on society; wherein such highly unconventional thinkers like Diderot of more dramatic social transformation implications are actually less appreciated as of the ~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of their epochal society conventioning limits naively construed by mental-reflex as the absolute ontological determinant of meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology>, over similar thinkers whose thought are more forthcoming towards such societal conventioning limits. As of relevance to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism or preempting—disjointedness-as-of-reference-of-thought with regards to our positivism–procrypticism, such a phenomenological transcendental-point-of-departure handle reflected by metaphysics-of-absence for the conception of meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology> is necessarily 'suspicious' of our presence society 'conventioning-limits' in its beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> naively construed ~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag mental-reflex as the absolute ontological determinant of meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology>, with regards to its capacity of appreciating prospective relatively profound pure-ontology as herein implied that paradigmatically/structurally supposedly supersedes our positivism–procrypticism registry-worldview's/dimension's institutionalisation reference-of-thought. This explains why fundamentally most human transcendental ideas of progress have been re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-⟨imbued-postconverging/dialectical-thinking-'projective-insights'/'epistemic-projection-in-conflatedness'-of-notional~deprocrypticism-prospective-sublimation⟩ ideas which

'proponents ultimate purpose (beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>)' weren't fundamentally a 'direct convincing' of humans exercise as of social-aggregation-enabling but rather in projecting a big picture of the-Good/understanding/knowledge-drive as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating, however unintelligible, as a prospective institutional percolation-channelling exercise as validated by ultimate ontological-primemovers-totalitative-framework with subsequent corresponding formalisation and secondnaturing. The point of this construal/conceptualisation is inevitably equally along the same lines. In fact, it can be further contended going by the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor that 'human knowledge is necessarily a secondnaturing construction' and not an 'intemporal disposition construction' as the latter will wrongly imply that we are only intemporal-as-longness-of-register-of-meaningfulness-and-teleology, which is obviously false since we are temporal-to-intemporal by our mental-disposition and our virtue with the Deprocrypticism registry-worldview/dimension institutionalisation is actually to understand (as knowledge/the-Good) this and paradoxically be superseding in that respect by a pivoting/decentering psyche and institutionalisation, and not an artificial projection that is not real and hence will be ineffective and circular as threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism. Thus human knowledge is a dynamic secondnatured construct in upholding-and-vouching for the intemporal while preempting of the temporal, and so beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>.

[The notion of 'beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>' as used herein goes beyond the notions of 'consciously' or 'unconsciously' as we normally understand them, in the sense that 'beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>' speaks of the mental state as of threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism by its relative-ontological-incompleteness-of-reference-of-thought at the point of uninstitutionalised/unintemporalised/solipsistic/recomposuring/animality-thresholds-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (also referred to as 'uninstitutionalised-threshold') where the mental-disposition/mindset/reference-of-thought is rather emphasised as being in 'a state of relative incapacity' rather than one of full-conscious-capacity but neither full-unconscious-capacity mental-disposition. Thus unlike just 'conscious' or 'unconscious', the notion of beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> implies 'conscious' and/or 'unconscious' as of threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism at the uninstitutionalised-threshold of a registry-worldview/dimension whether with regards to retrospective or prospective transcendental analysis. For instance say in a non-positivistic as medieval or animistic/base-institutionalisation social-setup someone accused another of sorcery. It is hardly the case that we can absolutely say they committed a conscious immoral act with their accusation of sorcery since the ontological-completeness-of-reference-of-thought as knowledge-framework available to them doesn't enable their full conscious appraisal of such a judgment call as they are in an insecure-certitude-by-incertitude-and-virtue-by-vice-mental-flux with notions-and-accusations-of-sorcery. However, supposed they adopted such an attitude not only by such ignorance but rather

affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, then they are effectively relatively conscious with respect to their action as a dishonest/deceitful/immoral act even though beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>. Of course, where supposed someone from a positivistic social-setup found themselves in such a non-positivistic social-setup and equally proffered such an accusation of sorcery, then their conscious immorality is fully engaged as being in full-conscious-capacity with respect to their deception going by their positivistic prospective relative-ontological-completeness-of-reference-of-thought that supersedes superstitions including notions-and-accusations-of-sorcery. By extension, psychopathic/postlogic induced deception can only be construed as beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> as when eliciting ignorance (as of 'lack of constraining social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<a̶m̶p̶l̶i̶t̶u̶d̶i̶n̶g̶/formative>epistemic-totalising–in-relative-ontological-completeness⟩ of the psychopath's mental-disposition of postlogism-⟨perverted-outcome-sought-precedes-existentially-veridical-logical-dueness⟩), and while construed as beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> as when eliciting affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, is not disculpating. Ultimately, going by the very decisiveness of relative-ontological-incompleteness-of-reference-of-thought, as it leads to 'lack of constraining social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<a̶m̶p̶l̶i̶t̶u̶d̶i̶n̶g̶/formative>epistemic-totalising–in-relative-ontological-completeness⟩,
associated with the successive uninstitutionalised-threshold states, the notion of 'human beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-

unthought>' is actually in the bigger picture the larger determinant of manifest human vices-and-impediments as of virtue-as-ontology conceptualisation, speaking fundamentally of the specific registry-worldviews/dimensions 'registry-worldview's/dimension's-uninstitutionalised-threshold–defect-<as-Being-or-ontological-or-existential–defect>' inherent with the state of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism. Whereas the notion of human conscious vices-and-impediments as of defect–of-logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview's/dimension's–reference-of-thought-for-social-functioning-and-accordance is mostly able to arise incidentally 'within the scope' of the registry-worldview's/dimension's-uninstitutionalised-threshold–defect-<as-Being-or-ontological-or-existential–defect>' as beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> of the registry-worldview/dimension uninstitutionalised-threshold; as social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩ is a strong inherent deterrent of human temporality/shortness and enabler of human intemporality/longness (explaining why knowledge is truly virtue), even though at the uninstitutionalised-threshold of such knowledge-as-virtue arises the temporal-dispositions denaturing its reference-of-thought–categorical-imperatives/axioms/registry-teleology for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. This nature of 'registry-worldview's/dimension's-uninstitutionalised-threshold–defect-<as-Being-or-ontological-or-existential–defect>' as induced beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> as of registry-worldview/dimension uninstitutionalised-threshold explains why fundamentally issues of reference-of-thought defect or perversion-of-reference-of-thought-<as-effectively-

apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> point more decisively/fundamentally as to their resolution as aetiologistion/ontological-escalation towards the need for ontological-completeness-of-reference-of-thought as to the successive registry-worldviews/dimensions institutionalisations-in-superseding-their-corresponding-uninstitutionalisation with regards to base-institutionalisation-superseding-recurrent-utter-uninstitutionalisation, universalisation-superseding-ununiversalisation, positivism-superseding-non-positivism/medievalism and prospectively deprocrypticism-superseding-procrypticism. Thus structurally/paradigmatically, this is the supratransversality—apriorising/axiomatising/referencing associated with intemporality/longness and construed as 'intemporality-asymmetric-subsumption-of-temporality' since it is 'not equable' with the relative shallowness as temporal/shortness-of-register-of-meaningfulness-and-teleology in intradimensional construal of meaningfulness-and-teleology but projects directly in grasping fundamentally the issue of relative-ontological-incompleteness-of-reference-of-thought and the corresponding virtue-as-ontology implications; as insightfully, an arising issue of accusation of sorcery in non-positivism as medieval or animistic setting is more fundamentally/structurally/paradigmatically as of aetiologisation/ontological-escalation a question of their relative-ontological-incompleteness-of-reference-of-thought as it endemises/enculturates such notions as its vices-and-impediments and the same approach applies to our state of positivism–procrypticism involving procrypticism/disjointedness-as-of-reference-of-thought-as-misappropriated-meaningfulness-and-teleology as it endemises/enculturates perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> of positivistic meaningfulness as vices-and-impediments requiring its preemption by futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-

infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism institutionalisation.]

This effective realism as of rational-realism is the requisite insight in understanding how supposedly re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-⟨imbued-postconverging/dialectical-thinking-'projective-insights'/'epistemic-projection-in-conflatedness'-of-notional~deprocrypticism-prospective-sublimation⟩ transcendental notions of intemporality/longness in successive epochs become dominant notions of human knowledge and institutionalisation by giving man access to relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating. Further along the rational-realism line of thinking, the fact is paradoxically that as more cuttingly demonstrated with 'cultural diffusion driven transcendence', the mechanism of transcendence is not a simplistic transference from a more ontologically-completeness-of-reference-of-thought registry-worldview to a lesser one. Surprisingly, the lesser one is actually in the position of determination in the contention for transcendence, and it is the competitiveness of ideas that are more ontologically-complete and ontologically inducing untenability/internal-contradiction/internal-incoherence/institutional-constraining and inconsistency that initially leads to the <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag towards the path of its transcendence; as notions and ideas of the prospective reference-of-thought gradually creep over those of the prior reference-of-thought. (This should be distinguish from the case of the transference of ideas where there is a common reference-of-thought, for instance, the-theory-of-relativity and quantum-mechanics are spectacular developments from Newtonian physics but they still share the same common reference-of-thought of positivism/rational-empiricism enabling the new theories to be quickly adopted within the mechanism of the common reference-of-thought in terms–as-of-axiomatic-construct of psychical and institutional orientation).

Consider in this regard the case in an animistic social-setup wherein failure to be cured from the traditional healer tempts individuals in that setup as a matter of life and death to approach the newcomers of a positivistic registry-worldview/dimension, and with a successful cure sowing doubts about animistic tradition relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating, and with various other such positivistic outcomes inducing in the middle to long run further ~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of thought; as explanations for the cure will still be advanced in terms–as-of-axiomatic-construct of the old reference-of-thought (giving human natural predisposition to social-aggregation-enabling) but increasingly ridding such explanations of their credible substance until there is critical transference into the new registry-worldview's/dimension's reference-of-thought. ~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag is actually the process by which transcendental meaningfulness, as of prospective/transcending/superseding registry-worldview reference-of-thought, is institutionalised; underlying the essential contiguity of human mental-disposition across all registry-worldviews/dimensions. This equally highlights a superficiality-of-inherent-sanctimony displayed by succeeding institutional-cumulation/institutional-recomposure, which may wrongly imply being out of the scope of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, and thus fundamentally undermine ontologically-veridical analysis where exceptionalism is adhered to instead of the mediocrity principle. This quite sums up the ~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag mechanism by which re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-⟨imbued-postconverging/dialectical-

It is hardly the case of just a direct intemporal sense of meaningfulness-and-teleology transference of transcendental notions. The bigger point being that the construal/conceptualisation of transcendental ideas is not necessarily validated by their

immediate recognition, a notion the would-be intellectuals/emancipators should be of a 'presencing—absolutising-identitive-constitutedness consummated/forfeiting posture', but rather as providing fodder in the competitive ideas assuring human progress with emphasis rather with respect to cross-generational import (prospective-institutionalisation <~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling-⟨by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective-meaningfulness-and-teleology⟩ as enabled by psychoanalytic-unshackling/memetic-reordering/institutional-recomposure). It is doubtful that Galileo or Diderot and others of their inclination were naïve to think that their initiatives will immediately lead to a positivistic transformation of society but they certainly had a cynical sense of cross-generational purposefulness (whether beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>). This equally explains why in all epochs, however different the nature, there is an inherent temporal mental-disposition abhorrence of transcendental ideas as putting into question the present and present interests (for instance, even the industrial revolution when considered as actually generating material wealth was poorly perceived by many trade guilds). It is only the 'imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as to existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality' (from the perspective of the 'postconverging-or-dialectical-thinking-reference-of-thought in relative-ontological-completeness as depth-of-thought') that allows for 'a relative teleological-differentiation/scission/variance/disambiguation of references-of-thought' as to what the

The difference between postlogism (postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation-⟨perverted-outcome-sought-precedes-existentially-veridical-logical-dueness⟩) and prelogism (prelogism-as-of-conviction-as-to-profound-supererogation-⟨existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at⟩) can further be developed as such. Supposed there is a given context where the solution to additions of the aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-measurements (meaningfulness-and-teleology) taken involves rewards depending on how big is the number with the Donor not in a position to pay particular attention to the exact sums to be resolved if a character is in a position to fiddle with the implied sum to be resolved like

deliberately using the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements as perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> (more like the 'covert negative vista' of the hidden-nature/unavailable social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩ of psychopathy especially at adulthood). Now supposed to resolve a 'purposeful measurement' (meaningfulness-and-teleology), A appropriately uses a correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements (appropriateness-of-reference-of-thought-as-of-conflatedness) and find out that the numbers measured and to be added are 5 + 2 and is trying its best thereafter to resolve the sum but fails in its logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation and gives 9 as the answer, this doesn't void logically re-engaging with A with respect to other sums in terms of aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-measurements to be undertaken (as to logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation) so long as A learns and understands the addition principle well. This instance of A's reference-of-thought where it is not perverted (correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements) but its logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation has failed because of A's genuine incapacity for addition calculations is part and parcel (whether successful or not) of prelogism. Now supposed B is in a position and has the mental-disposition to covertly add 1 to any of the

numbers measured and to be involved in the calculations to be undertaken before then calculating and so as to measurement (so-construed as use of a defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements speaking of B's perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>) such that its calculations as aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-measurements (meaningfulness-and-teleology) is undertaken erroneously rather implying 6 + 3 instead of 5 + 2 (with respect to the same correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as measurement undertaken by A for subsequent calculation as 5 + 2) and then resolved correctly to be 9 as well just as A did out of wrong calculation, fundamentally the idea of re-engaging with B for solutions of additions (as to logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation) is flawed since B is not committed due to its perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> (incorrect apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements) to genuinely strive for correct answers (ontological-veridicality), and this speaks of the possibility of B denaturing an infinite number of additional calculations (to the extent where it is 'socially-functional-and-accordant' to do so, i.e. functionally possible in the social context). Unlike the case with A having to do with A's addition ability but whose reference-of-thought is not perverted, such that A's defect is a defect–of-logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview's/dimension's–reference-of-thought-for-social-functioning-and-accordance, on the other hand B's defect is a Being/ontological/existential–defect, i.e., the teleological disposition of B inherently carries the defect (to the point that B

can be socially-functional-and-accordant while committing the defect, i.e. where the veridical notion/axiomatic-construct of the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument is not universally transparent as a 'negative covert vista'). Now supposed we are in a social context where C, D, E, F are to calculate additions as well but from the solutions arrived at by A and B. In the instance where C is ignorant of B's Being/ontological/existential–defect, there is a possibility of re-engaging with C but only where B's condition is exposed to it, but where the characters are not that ignorant but in any of the mental states (implying undermining the intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating of normal additionality with such a social-aggregation-enabler situation) and so as of expediency or affordability for D, opportunism for E, exacerbation for F, social-chainism/social-discomfiture/negative-social-aggregation for B, C (where B's condition is not exposed to it), D, E and F or temporal-endemisation/temporal-enculturation of B's condition for B, C (where B's condition is not exposed to it), D, E and F. It should be noted that C (where B's condition is not exposed to it), D, E and F technically speaking have a 'derived-Being/ontological/existential–defect' as well, and so to the point that they consciously perceive it can be socially-functional-and-accordant to them wherein lack of 'social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-

<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness⟩ which protects the internal-coherence of meaning for virtue' enables their own 'covert negative vista' however ad-hoc as conjugated-postlogism i.e. as to the conjugated-ignorance of C (where B's condition is not exposed to it), conjugated-affordability of D, conjugated-opportunism of E, conjugated-exacerbation of F, and conjugated-social-chainism of B, C (where B's condition is not exposed it) D, E and F, and conjugated-temporal-enculturation to B's condition of B, C (where B's condition is not exposed to it), D, E and F; and they cannot

therefore be re-engaged logically with (as of 'prelogism-as-of-conviction-as-to-profound-supererogation re-engaging reflex') on the basis that they will relay in circularity/recurrence/repetition/repeatability the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (perversion-and-derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>–as-to-uninstitutionalised-threshold-self-referencing-and-subtransversality-of—apriorising/axiomatising/referencing) elicited by B in terms–as-of-axiomatic-construct of B's postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation and C, D, E and F relative-ontological-incompleteness-induced,-'threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism' that is 'in-wait as of prior relative-ontological-incompleteness-of-reference-of-thought defective reference-of-thought–categorical-imperatives/axioms/registry-teleology to enable their conjugated-postlogism, where it is socially-functional-and-accordant to do so. It should be qualified that postlogism (psychopathy) and conjugated-postlogism (as social psychopathy) are enabled, endemised and enculturated by the possibility of the phenomena being socially-functional-and-accordant without negative consequences to its agents so long as it is not socially universally transparent, and so eliciting the respective temporality/shortness over the intemporality/longness of adhering to proper apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (ontologically-veridical meaningfulness-and-teleology). Further more than postlogism and conjugated-postlogism being just passively socially-functional-and-accordant, a more active socially-functional-and-accordant framework is often induced by extrinsic-attribution on the token of eliciting 'social-aggregation-enablers over intrinsic-reality/ontological-veridicality

transcendental-enabling/sublimating'. This is highly specific and circumscribe for efficacy-sake from accrued involvement with childhood psychopathy (with regards to adult psychopathy or adult postlogism) wherein achieving the registry-worldview's/dimension's–reference-of-thought-for-social-functioning-and-accordance threshold enabling postlogism/psychopathy and/or conjugated-postlogism/social-psychopathy involves an insight about how 'lack of constraining social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩ of perversion-and-derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> determines how prelogism-as-of-conviction-as-to-profound-supererogation minds will act as of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. Besides and critically as well, in addition to this inherently induced faulty-mentation-procedure-deception involved with the state of postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation and its protraction into conjugated-postlogism/social-psychopathy, postlogism and conjugated-postlogism is equally and decisively sustained socially by the accompanying inherent disposition to uphold the registry-worldview's/dimension's–reference-of-thought-for-social-functioning-and-accordance thereafter as of mechanical-knowledge (given that inevitably social confliction is bound to arise in the social-setup with the phenomena of postlogism/psychopathy and conjugated-postlogism/social-psychopathy), and as the mere recurrence of such social conflictions associated with the postlogism/psychopathy and conjugated-postlogism/social-psychopathy characters might ultimately jeopardise the registry-worldview's/dimension's–reference-of-thought-for-social-functioning-and-accordance (even when other prelogism-as-of-conviction-as-to-profound-supererogation

minds do lack a social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩ of the veridical postlogism/psychopathy and conjugated-postlogism/social-psychopathy underlying phenomena of perversion-and-derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as perverted-outcome-sought-precedes-existentially-veridical-logical-dueness). In this regard, prelogism-as-of-conviction-as-to-profound-supererogation minds generally adopt a generalising approach for determining 'the overall registry-worldview's/dimension's–reference-of-thought-for-social-functioning-and-accordance experiences and recounts with any specific individual' including psychopathic or conjugated-postlogism, and in so doing construe dichotomously the said individual's as adhering or not-adhering to the registry-worldview's/dimension's–reference-of-thought-for-social-functioning-and-accordance (and so specifically judged rather in various shades of the registry-worldview's/dimension's–reference-of-thought-for-social-functioning-and-accordance implied mechanical-knowledge), as entails with associating or not associating the said individual in given occasions or in specifically given aspects of life depending on such experiences and recounts. With this in mind (based on its dormant childhood development experience), the adult psychopathy personality arising from its growth experience (and correspondingly the protraction into conjugated-postlogism behaviour in this regard), wherein its childhood psychopathy failing the registry-worldview's/dimension's–reference-of-thought-for-social-functioning-and-accordance induced a shift in behaviour such that in lieu of 'such preposterous acts-and/or-narratives of vicious postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation' at childhood, the childhood psychopathy comes to grasp that 'acts-and/or-narratives of vivious postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-

shallow-supererogation' as of 'compensating directed pseudo-virtue acts-and/or-narratives' will lead to relative social overlooking of the 'postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation vicious acts-and/or-narratives'; and so cultivating its deterministic ontological-primemovers-totalitative-framework faulty-mentation-procedure-deception 'misconception of meaningfulness-and-virtue'. For instance, as highlighted further below where John in a 'dereifying act' spills water on a chair, his 'misconception of meaningfulness-and-virtue' involving such a mental-disposition of 'compensating directed pseudo-virtue acts-and/or-narratives' may be to do some house chore but rather in 'crude behaviour manner' that reveals an ad-hoc quest to re-establish the registry-worldview's/dimension's–reference-of-thought-for-social-functioning-and-accordance with others. The adult psychopathy personality development arising from this fundamental faulty-mentation-procedure-deception 'misconception of meaningfulness-and-virtue' at childhood, further evolves a long way with a constantly readjustment process to ultimately enable the credulity for the registry-worldview's/dimension's–reference-of-thought-for-social-functioning-and-accordance at adult psychopathy, such that at adulthood social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩ as of existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of its underlying postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation often gets lost enabling its faulty-mentation-procedure-deception at adulthood. By derivation the subsequently induced conjugated-postlogism/social-psychopathy, as of human temporal-dispositions will exploit unconsciously (as ignorance), expediently (as affordability) or consciously (as opportunism/exacerbation/social-chainism-or-social-discomfiture-or-

In other words, 'psychopathic/postlogism and social-psychopathic/conjugated-postlogism vicious acts-and/or-narratives' as of perversion-and-derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> take the form of mental 'misconception of meaningfulness-and-virtue' that such 'postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation vicious acts-and/or-narratives' based on their systematic combination with 'compensating directed pseudo-virtue acts-and/or-narratives' directed to relevant significant others will enable the registry-worldview's/dimension's–reference-of-thought-for-social-functioning-and-accordance, by such a compensation mechanism. With this faulty-mentation-procedure-deception, this is thus supposed to override the 'postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation vicious acts-and/or-narratives' as of an association between the 'postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation vicious acts-and/or-narratives', and 'compensating directed pseudo-virtue acts-and/or-narratives' towards relevant significant others, wherein that compensating is not a

trite equivalence but rather involves 'high-proportionality of overcompensating directed pseudo-virtue acts-and/or-narratives' relative to 'specific or given postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation vicious acts-and/or-narratives' in order to enable the postlogism/psychopathic manifestation achieve the registry-worldview's/dimension's–reference-of-thought-for-social-functioning-and-accordance (with such overcompensation involving sought after overall preceding and subsequent sense of social allegiance with relevant significant others and then corresponding 'high-proportionality overcompensating directed pseudo-virtue acts-and/or-narratives' towards relevant significant others, whether relevant individuals and/or relevant social network, as overall 'social investment' that should allow its instigated 'postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation vicious acts-and/or-narratives' with respect to another individual or situation, as the occasion may arise, to be overlooked/absolved/exonerated/exculpated socially). This faulty-mentation-procedure-deception mental-disposition at adulthood psychopathy is more profound than just an ad-hoc trite association between committing a given vicious act and initiating a given limited 'compensating directed pseudo-virtue act-and/or-narrative' in compensation as is the case at childhood psychopathy, since the adult psychopath discovers at that stage that such triteness of association is relatively inefficient for attaining the registry-worldview's/dimension's–reference-of-thought-for-social-functioning-and-accordance (but rather requires a more profound association of the 'postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation vicious acts-and/or-narratives' and 'compensating directed pseudo-virtue acts-and/or-narratives'). As then during its childhood the 'compensating directed pseudo-virtue acts-and/or-narratives' are relatively universally transparent socially for what these truly are, as rather being associated with its faulty-mentation-procedure-deception mental-disposition of perversion-of-

reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>, 'than just merely or confused with innocent virtue acts-and/or-narratives'; and as 'interlocutors in prelogism-as-of-conviction-as-to-profound-supererogation come to grasp the deliberativeness/consciousness of the artificial and fallacious systematic eliciting of 'compensating directed pseudo-virtue acts-and/or-narratives' as a crude-trite-compensating mechanism for its urge to commit 'postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation vicious acts-and/or-narratives' and is thus socially-dysfunctional at childhood. Whereas at adulthood psychopathy the overcompensating involves a surreptitious upending/undermining/blurring of this underlying insight that the 'high-proportionality overcompensating directed pseudo-virtue acts-and/or-narratives' is rather as of a personality development derived-from and connected-with such fallacious crude-trite-compensating at childhood; such that it is then adopted and relayed as contending thus wrongly validating its apriorising–reference-of-thought-elements/apriorising–registry-elements of implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology (which are actually outside existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context) as first-level deception, and thus enabling the infinite possibilities of second-level deception from their logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation. This underlying postlogism/psychopathic faulty-mentation-procedure-deception mental-disposition and its protraction in conjugated-postlogism/social-psychopathy involving deliberative/conscious or unconscious (conjugated-ignorance) artificial, fallacious and surreptitious systematic eliciting of 'high-proportionality overcompensating directed pseudo-virtue acts-and/or-narratives' systematically enabling the possibility for committing

'postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation vicious acts-and/or-narratives' with respect to another individual or situation, as the occasion may arise, while ensuring social overlooking/absolving/exonerating/exculpating is a central enculturating/endemising mechanism at the registry-worldview/dimension-level (beyond the individuation-level) of human temporalities-drives to adhere to the ~~amplituding~~/formative>wooden-language-⟨imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology⟩ (failing/not-upholding-<as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ontological-normalcy/postconvergence). Further, at the confluence of postlogism/psychopathy and conjugated-postlogism/social-psychopathy with respect to ontologically-veridical meaningfulness-and-teleology arises disjointedness-as-of-reference-of-thought; inherent in temporality/shortness and as of postlogism and conjugated-postlogism mental-dispositions (shallowness-of-thought construed as of temporal-extricatory reasoning as well as incoherent and awkwardly implied universal projections, but which actually speaks of ~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag explaining why its 'universal projection lip-servicing nature or inductive limitation fails the test of a true principle', basically highlighting a dynamic reference-of-thought relationship with meaningfulness-and-teleology as of poor performance of supposed intemporal-projection but actually in effect pseudointemporality-as-temporality and speaks, more specifically with regards to psychopathic/postlogic meaningfulness-and-teleology, rather as of relatively 'mere-rhyming mental-disposition' emphasising ~~amplituding~~/formative>wooden-language-⟨imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-

preconverging/dementing–apriorising-psychologism' (with the latter not-definite/changeable by 'transcendental institutionalisation/intemporalisation' by a maximalising-recomposuring-for-relative-ontological-completeness exercise). This is so reflected as of maximalising-recomposuring-for-relative-ontological-completeness. This explains why the 'recurrent-utter-uninstitutionalisation' mindset/reference-of-thought is existentially perpetuating 'failing/not-upholding-<as-of-apriorising/axiomatising/referencing> of rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism' in circularity/recurrence/repetition/repeatability as-inherently-implied-by-the-uninstitutionalised-threshold (threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism-of-recurrent-utter-uninstitutionalisation), the 'base-institutionalisation–ununiversalisation' mindset/reference-of-thought is existentially perpetuating 'failing/not-upholding-<as-of-apriorising/axiomatising/referencing> of universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism' in circularity/recurrence/repetition/repeatability as-inherently-implied-by-the-uninstitutionalised-threshold (threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism-of-ununiversalisation), the 'universalisation–non-positivism/medieval' mindset/reference-of-thought is existentially perpetuating 'failing/not-upholding-<as-of-apriorising/axiomatising/referencing> of positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism' in circularity/recurrence/repetition/repeatability as-inherently-implied-by-the-uninstitutionalised-threshold (threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism-of-non-

It should further be noted that the notion of in circularity/recurrence/repetition/repeatability is not about conceptualising in the simplistic sense of any specific effective factual acts of circularity/recurrence/repetition/repeatability-as-of-conflated-construal but rather about a defining defectiveness of registry-worldview reference-of-thought-⟨reflected-as-unsoundness-or-inauthenticity-of-reference-of-thought-and-not-logically-contending⟩ construed as 'circularity/recurrence/repetition/repeatability-as-of-conflated-construal of perversion-and-derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-

[For instance, resetting relations anew and overlooking non-positivism/medievalism postlogism issue of say notions-and-accusations-of-sorcery does not mean that characters in such a non-positivism/medievalism setup are no longer susceptible to the same mental-

dispositions 'as of non-positivism/medievalism reference-of-thought' on different or subsequent occasions/instances where the medieval postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation issue of notions-and-accusations-of-sorcery will arise again, where it is socially-functional-and-accordant to do so passively or actively by eliciting social-aggregation-enablers over the intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating'. The reason being that the perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> speaks to a fundamental relative-ontological-incompleteness-induced,-'threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism' as a non-positivism/medievalism mindset/reference-of-thought as susceptible to further instances (in circularity/recurrence/repetition/repeatability-as-of-conflated-construal) of endemising/enculturating notions-and-accusations-of-sorcery and hence this issue can only be structurally/paradigmatically resolved by a relative prospective ontological-completeness-of-reference-of-thought ushered in by 'a positivistic mindset/reference-of-thought and social-setting construct prospective/transcending/superseding <~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling-⟨by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective-meaningfulness-and-teleology⟩' involving psychoanalytic-unshackling/memetic-reordering/institutional-recomposure as of a cross-generational import. That is equally the fundamental and structural/paradigmatic problem associated with psychopathy and social psychopathy given the relative-ontological-incompleteness-induced,-'threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism' of our

procrypticism/disjointedness-as-of-reference-of-thought for a deprocrypticism reference-of-thought. Rather than the idea of resetting relations anew and overlooking, a true intellectual-and-moral elevation is instead achieved by a prospective institutionalisation secondnaturing process construing the inherent reality and derived-implications of perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> for its superseding, which effectiveness skews ('intemporality-asymmetric-subsumption-of-temporality', for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating) to the veritable intemporal/longness-of-register-of-meaningfulness-and-teleology in deferential-formalisation-transference as of aetiologisation/ontological-escalation, as the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construct; and so construed suprastructurally as of beyond-the-consciousness-awareness-teleology-<in-existential-

In other words, recurrent-utter-uninstitutionalisation manifestation of postlogism can only be structurally/paradigmatically resolved by base-institutionalisation reference-of-thought, ununiversalisation manifestation of postlogism can only be structurally/paradigmatically resolved by universalisation reference-of-thought, non-positivism/medievalism manifestation of postlogism can only be structurally/paradigmatically resolved by positivism reference-of-thought, and prospectively procrypticism manifestation of postlogism can only be structurally/paradigmatically resolved by deprocrypticism reference-of-thought. As palliative construal is rather ontologically incoherent as the idea for striving to construe intemporality/longness from temporality/shortness is rather naïve and actually as of ontologically-flawed <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag here implies that every registry-worldview/dimension is rather pre-inclined to represent its own threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism at worst as a nondescript/ignorable void (actually speaking of akrasiatic-drag-denatured-and-preconverging-or-dementing-narratives) or a-registry-worldview's-or-dimension's-ignoring-of-its-prior-relative-ontological-incompleteness-of-reference-of-thought-as-an-ontologically-flawed-neuterisation-or-bracketing-or-epoché of <~~amplituding~~/formative>epistemic-totalising~conflated-meaningfulness-and-teleology-as-of-notional~deprocrypticism-reflected-historiality/ontological-eventfulness/ontological-aesthetic-tracing, and so rather than as truly 'decandored/oblongated and preconverging-or-dementing–apriorising-psychologism and dialectically/contendingly-out-of-phase or decentered', and doing so beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>,

For instance, we'll be hard pressed to acquiesce to an argument with regards to medieval manifestation of postlogism for instance as it instigates notions-and-accusations-of-sorcery, associated with a logic in terms–as-of-axiomatic-construct of non-positivism/medieval relative-ontological-incompleteness-induced,-'threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism' of the type 'A's action was what brought about the accusation of witchcraft, and A should stop the practice', from our positivistic transcendentally <~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought as of its positivism prospective relative-ontological-completeness-of-reference-of-thought, and would rather imply 'the decandored/oblongated and preconverging-or-dementing–apriorising-psychologism and dialectically/contendingly-out-of-phase nature' of such non-positivism/medievalism reference-of-thought priorly without its contending status even arising in the very first place; but then with respect to our own postlogism-and-conjugated-postlogism as psychopathy and social psychopathy pointing to our own relative-ontological-incompleteness-induced,-'threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism' as procrypticism, we will tend to

elevated/pedestaling-as-postconverging-or-dialectical-thinking-differentiation-as-of-supratransversality—apriorising/axiomatising/referencing') in longness-of-register-of-meaningfulness-and-teleology in order to grasp ontologically-veridical meaningfulness; and so, no more different as the non-positivism/medieval mindset/reference-of-thought trying to process logic on the basis of its relative-ontological-incompleteness-induced,-'threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism' as notions-and-accusations-of-sorcery. This reason underlies the notion of prospective institutionalisation which arises not as of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation issue but 'more fundamentally an appropriateness-of-reference-of-thought-as-of-conflatedness-or-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> issue as of a paradigmatic and ontological meaningfulness-and-teleology implication with respect to eliciting the prospective relative-ontological-completeness-of-reference-of-thought of the prospective/transcending/superseding registry-worldview/dimension, without <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of the relative-ontological-incompleteness-induced,-'threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism' of the prior/transcended/superseded registry-worldview/dimension. Thus the articulation of prospective institutionalisation 'is not about ontological-primemovers-totalitative-framework implying equivalence between the prior/transcended/superseded and the prospective/transcending/superseding'. It is rather about the precedingness/supersedingness/ascendency of the latter in transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing and inequivalence with

the former. For instance the factual ontological-primemovers-totalitative-framework/effectiveness validations of say a chemistry mindset/reference-of-thought (with demonstrations of chemistry principles by chemical reactions producing elements and compounds) say in a non-positivism/medievalism setup prone to alchemy and essences-driven explanations 'is not and cannot be construed as a logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation

validation as of alchemic mindset/reference-of-thought' but rather 'a chemistry scientific mindset/reference-of-thought validation', critically because the issue is fundamentally not about the specific validations of chemistry principles but rather about the non-positivism/medievalism alchemy and essenses-driven explanations defective mindset/reference-of-thought

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument mental-disposition reflex with respect to metaphorically-as-of-a-million-and-one-instances-and-locales/aetiologisation/ontological-escalation of interpretive defects of that may arise from such non-positivism/medievalism mindset/reference-of-thought based on alchemy and essences-driven explanations given its relative-ontological-incompleteness-induced,-'threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism'. Thus wrongly implying that a contending engagement between the two is of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation, 'wrongly elevates and validates the non-positivism/medievalism mindset/reference-of-thought' as the mindset/reference-of-thought of contention, as such a possibility of contending engagement from the chemistry mindset/reference-of-thought is about harkening rather to a paradigmatic and conflatedness (psychoanalytic-unshackling/memetic-reordering/institutional-recomposure) of the alchemy and essences-driven explanations mindset/reference-of-thought

This insight equally comes to the mind as we can equally imagine that a mere demonstration or demonstrations of positivistic meaningfulness effectiveness/ontological-primemovers-totalitative-framework in say a base-institutionalisation/animistic social-setup or non-positivism/medievalism social-setup to their approbation is not a sufficient basis to imply that they are thereafter of positivistic mindset/reference-of-thought and to be engaged with as of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation, as any such positivistic demonstration pertinence is not about its factual effectiveness approbation in the base-institutionalisation/animistic social-setup per se but rather as of its paradigmatic and conflatedness (psychoanalytic-unshackling/memetic-reordering/institutional-recomposure) of the underlying base-institutionalisation/animistic relative-ontological-incompleteness-induced,-'threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism' which is rather of cross-generational import (prospective-institutionalisation ~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling-⟨by-a-renewing-of-apriorising/axiomatising/referencing–

It should be noted as well that the idea of '<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling-⟨by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective-meaningfulness-and-teleology⟩' enabled by psychoanalytic-unshackling/memetic-reordering/institutional-recomposure is the deterministic phenomenon behind 'postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics' and the specific institutional-cumulation/institutional-recomposure in reflecting the ontological-contiguity—of-the-human-institutionalisation-process as recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism, positivism–procrypticism, and deprocrypticism. It captures the true notion of transcendence as a maximalising-recomposuring-for-relative-ontological-completeness involving utterly putting-into-question/reshuffling/remaking the human psyche/placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology in the very first instance, and on a second-level then imply eliciting the corresponding meaningfulness-and-teleology for such renewed psyche as reference-of-thought. Such '<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling-⟨by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective-meaningfulness-and-teleology⟩' involves specific 'memeticism/meaningfulness

circular-caricature' with respect to the implied registry-worldview/dimension in their respective institutionalisation state (as candored/straight and postconverging-or-dialectical-thinking–apriorising-psychologism/dialectically-or-contendingly in-phase) and their uninstitutionalised-threshold state (in threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism as decandored/oblongated and preconverging-or-dementing–apriorising-psychologism/dialectically-or-contendingly out-of-phase). The notion of '<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling-⟨by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective-meaningfulness-and-teleology⟩' as being of true transcendence can be further elucidated with regards to two remarkable historical developments which while inherently exceptional, to say the least, aren't truly transcendental. Consider for instance that transcendental is generally considered as the central notion of Kantian philosophy. The reality however is that the supposed transcendentalism is actually an elaboration in the terms of the actual and true rational-empiricism/positivism reference-of-thought transcendence established by Descartes' thinking proposition and scepticism exercise as the fundamental basis for continuously re-elaborated 'extended rationalism' right up to the present. Kantian supposed transcendence (Copernican revolution) is not eliciting a 'postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics' of '<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling-⟨by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective-meaningfulness-and-teleology⟩' (which is exactly what Descartes' thinking proposition and scepticism exercise does with respect to the non-

positivism/medievalism   psyche/placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology). The Kantian construct is an elaboration well within the psychical framework established by the rationalism thinking proposition and scepticism exercise, and Kantian meaningfulness-and-teleology is utterly comprehensible and intelligible to that psyche, though in many ways it is a more profound elaboration of meaningfulness-and-teleology issues. So it is actually an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument within the extended-rationalism reference-of-thought that doesn't psychically and meaningfully supersede it but elaborates within it; and it doesn't reference an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument '<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling-⟨by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective-meaningfulness-and-teleology⟩' as implied by a 'postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics' from Recurrent-utter-uninstitutionalisation to Base-institutionalisation–ununiversalisation, to Universalisation–non-positivism/medievalism, to Positivism–procrypticism, and prospectively to Deprocrypticism; as successively non-rules—apriorising/axiomatising/referencing–psychologism,-as-impulsive-or-accidented-or-random-mental-disposition-⟨as 'base constitutedness of reference-of-thought' apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument⟩ gives way to rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism,-⟨as 'first-level presencing—absolutising-identitive-constitutedness of reference-of-thought' apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument⟩ which gives way to universalisation-directed-rulemaking-over-non-rules—

Insightfully, this highlights that human mentation capacity is in a dynamic cumulation as of the maximalising-recomposuring-for-relative-ontological-completeness of its limited-mentation-capacity-deepening-(<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩. It puts into question the Kantian philosophical exercise (Copernican revolution) of striving to establish universal human mental apriorising/axiomatising/referencing principles with respect to a mental state that is perpetually in a transformative becoming state of shallow to deeper limited-mentation-capacity-deepening-(<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-

sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩. (This latter condition inherently means that the certitude of such an enterprise itself can only be grounded on the human existential existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality as the absolute apriorising.) It is this author's contention that the Kantian conceptualisation exercise while interesting is in many ways rather a heuristic construct given its grounding on a categorisation reflex that poorly syncs with and is in constant need for heuristic re-adaptation to match 'an existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality existential reality nature that is preceding-and-superseding to any human mental apriorising/axiomatising/referencing of it', and thus rendering such an apriorising/axiomatising/referencing conceptualisation exercise highly heuristic (to constantly resolve the virtualities it raises by re-categorisation/re-adaptation/re-classification), and so when not employing a referentialism reflex that is naturally inclined to be contiguous with intrinsic-reality as of ontological-normalcy/postconvergence/intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. A further weakness is the naive implication thus that an apriorising/axiomatising/referencing exercise of human mental understanding only starts and ends with the positivistic/rational-empiricism registry-worldview's/dimension's reference-of-thought as if it is the only one that had existed, against the anthropological and historical trend, and without explaining how previous meaningful-frames developed into the positivistic/rational-empiricism and how the latter could develop prospectively. Besides the Kantian argument that the transcendent (in all its connotations beyond direct experiences) cannot be known is equally anthropologically and historically erroneous as even in his days, with respect to adopting of a positivistic/rational-empiricism

worldview over non-positivistic/alchemic/essences/medieval registry-worldview/dimension certainly does has a name (transcendence). But then it is more the case that from an epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag posture holding only one registry-worldview/dimension reference-of-thought–categorical-imperatives/axioms/registry-teleology as absolute, then prospective transcendence is rather a beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> notion. Besides, Kant's notion of transcendence (transcendental idealism) and subsequent philosophical development of the notion is one relating to immediate phenomenal conceptualisation rather construed as 'phenomenal-abstractiveness of presence' (and more precisely phenomenal-abstractiveness of presence as of 'the positivism/rational-empiricism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights' transcendence implied by Descartes) rather than a construal of transcendence as implied herein as of deepening limited-mentation-capacity with respect to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<amplituding/formative>epistemic-totalising~purview-of-construal' as superseding–oneness-of-ontology as an all-encompassing <amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought of human psychical and institutionalisation disposition for meaningfulness-and-teleology, even though fundamentally enabled by developing human phenomenal-abstractiveness of presence as of <amplituding/formative>epistemic-totalising~random-as-impulsive-phenomenal-abstractiveness-of-presencing-in-'trepidatious-consciousness' with recurrent-utter-uninstitutionalisation, <amplituding/formative>epistemic-totalising~nominal-as-tendentious-phenomenal-abstractiveness-of-presencing-in-'warped-consciousness' with base-institutionalisation–ununiversalisation, <amplituding/formative>epistemic-totalising~ordinal-as-qualifying-phenomenal-abstractiveness-of-presencing-in-'preclusive-consciousness' with

universalisation–non-positivism/medieval, <amplituding/formative>epistemic-totalising~intervalist-as-categorising-phenomenal-abstractiveness-of-presencing-in-'occlusive-consciousness' with positivism–procrypticism, and <amplituding/formative>epistemic-totalising~ratio-contiguity/ratiocination-as-referentialism-phenomenal-abstractiveness-of-presencing-in-'protensive-consciousness' with deprocrypticism. Basically, Kant lacked a notion of metaphysics-of-absence (to overcome <amplituding/formative>epistemic-totalising~self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage) with respect to the positivism/rational-empiricism registry-worldview/dimension. In other words, Kant is involved in an epistemological conceptualisation at a given point in time (erroneously construed as the absolute point of human thought apriorising, without a decentering sense of projection with respect to the prior and prospective). But existential-reality as of its human mental apriorising/axiomatising/referencing (heuristically at least) started well before that point and carries on well after that point, and such an exercise is more profound when it construes human mental apriorising/axiomatising/referencing along the full existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality of existence as it redefines meaningfulness-and-teleology on the basis of human limited-mentation-capacity-deepening-〈<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation〉 in its construal/conceptualisation of a superseding–oneness-of-ontology construed as transcendental-enabling/sublimating. Insightfully, this author construes an existential-reference/existential-tautologisation basis of such human mental apriorising/axiomatising/referencing process for the transcendental-enabling/sublimating of successive apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-as-

transcendental registry-worldviews/dimensions rather as of an exercise of maximalising-recomposuring-for-relative-ontological-completeness over conceptualisations of human mental apriorising/axiomatising/referencing process on a simple categorisation reflex basis as elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity which tend to require constant heuristic adaptations to sync in contiguity with existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality of existential-reality and avoid virtualities, as wrongly operating on the basis of an absolute point of human thought apriorising/axiomatising/referencing that doesn't recognise that successive apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-as-transcendental registry-worldviews/dimensions are defining/transcendental-enabling/sublimating for new prospective relative-ontological-completeness-of-reference-of-thought. In the bigger framework, this author holds that conceptually and operantly nothing is certain but for the certitude of existence and its oneness, thereafter defining relative certitudes by the contextualising-contiguity of existence as of human shallow to deeper limited-mentation-capacity-deepening-⟨<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ as of its successively developed transcendental psychical and institutionalisation notions from apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument non-rules—apriorising/axiomatising/referencing–psychologism,-as-impulsive-or-accidented-or-random-mental-disposition to successively profound apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument rules associated with human limited-mentation-capacity-deepening-⟨<amplituding/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-

withdrawal,-eliciting-of-prospective-supererogation⟩, as further elaborated in this paper. This same insight can be extended with respect to an Einstein and Bohr led theory-of-relativity and quantum-mechanics physics respectively in relation to the physics of Newton, Galileo, Leibniz; wherein the latter established the 'postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics' psyche as '<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling-⟨by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective-meaningfulness-and-teleology⟩' of positivistic physics right back then in their epoch such that the overall underlying principle of ontological-primemovers-totalitative-framework as transcendental-enabling/sublimating back then is still what prevails today. It is that physics psyche established back then which enabled seemingly aloof conceptualisations of physics like theory-of-relativity and quantum-mechanics within a decade or so of their articulations as of more profound elaboration of transcendental-enabling/sublimating ontological-primemovers-totalitative-framework to establish themselves as the central physics theories with little or no quarrel. It is interesting to grasp that such a physics and science psyche wasn't available to a Copernicus in what may be construed today as a relatively benign conceptualisation of a heliocentric model of the world, with the revolt of Galileo and others ultimately establishing that physics and science psyche over a non-positivism/medievalism

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument relationship to ontological-primemovers-totalitative-framework that is not ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating as of its non-scientific psyche. In other words however 'good-natured, well-meaning and wishful for enabling human progress' the mental-disposition in that epoch as alchemic and non-positivistic was structurally not ontological-

veridicality/intrinsic-reality transcendental-enabling/sublimating, and instinctively one may argue that it is by coming out from the frustration of not achieving anything decisive but for 'palliative results' in terms of progress with an alchemic and non-positivistic psyche that the Newton's of that epoch increasingly adopted a positivistic sense of things which they increasingly came to realise as being ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating. This same 'ontological misconstrual' naively grounded on 'palliative constructs and naïve conceptual patterning' driven by 'good-naturedness, well-meaningfulness and wishfulness' is pervasive in the social sciences today as of its poor ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating construction having to do with an epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag agent of limited-mentation-capacity that we are as of our animate-existential-referencing/subjectification wherein our <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of meaningfulness-and-teleology is often wrongly construed as ontological as of reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology.

Consider for instance a situation where statistically people likely to rest more in their home in winter are compared with people spending more time outdoors with regards to prevalence of flu, and then arriving at the conclusion that the treatment for flu is resting more at home. Such a construct as basic constitutedness is at best a sound palliative construct and naïve conceptual patterning however good-natured, well-meaning and wishful, but doesn't deal with the required pure-ontology conflatedness as of ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating in establishing a comprehensive disease theory for flu that syncs with other human diseases theories and human biology theories and general

biology theories and informed by the bigger 'transcendental-enabling/sublimating positivism psyche-and-thereof-philosophy' (construed rather as of an organic depth of ontological coherence/contiguity that is structurally/paradigmatically transcendental-enabling/sublimating contiguously as from the deeper apriorising/axiomatising/referencing of 'transcendental-enabling/sublimating positivism psyche-and-thereof-philosophy' and not vague ad-hoc mechanical patchwork of non-transcendental-enabling/sublimating conceptualised/construed relations), and so as of its reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology.

The practice in many a social science specialism is often to articulate concepts whose linkage with other social science concepts and the overall social science background knowledge construct is vague such that ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating is hardly established but for bare 'palliative constructs and naïve conceptual patterning' that are more often than not <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag than truly ontological when examined closely such that the test of transcendentally-enabling-level–of-authenticity/objectification/desubjectification-as-objectification/ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality/antinihilism when the implications of such notions are examined as of metaphysics-of-absence not only in terms of one registry-worldview's/dimension's meaningfulness-and-teleology but two or more, say our present positivism reference-of-thought and retrospective non-positivism reference-of-thought, their 'supposed ontological status' turn out to be ridiculous <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, exposing their true nature as rather palliative constructs and conceptual patterning. In the bigger

framework can notions construed/conceptualised as of 'human subjectivity so-construed as ineffectively transcendentally-enabling-level–of-authenticity/objectification/desubjectification-as-objectification/ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality/antinihilism' be given the label ontology, or rather is ontology exactly not about effective transcendentally-enabling-level–of-authenticity/objectification/desubjectification-as-objectification/ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality/antinihilism? It is this author's contention that the 'transcendental-enabling/sublimating deprocrypticism psyche-and-thereof-philosophy' as so

The underlying contention of both such a present 'transcendental-enabling/sublimating positivism psyche-and-thereof-philosophy' and prospective 'transcendental-enabling/sublimating deprocrypticism psyche-and-thereof-philosophy' as of their respective relative ontologically-veridical psychical background referencing as of conflatedness for knowledge/meaningfulness-and-teleology has to do with the bigger ontological-normalcy/postconvergence reality (of ontologically valid knowledge/meaningfulness-and-teleology) as of its notional~conflatedness/constitutedness-to-conflatedness as the structural/paradigmatic basis by which 'ontological-deficiency (conceptually represented as subsuming of virtue-defect or vices-and-impediments 'with virtue not truly differentiated from ontology' but rather such a conceptual-differentiation being represented as of our notional <s>amplituding</s>/formative>epistemic-totalising~self-referencing-

Since we can perfectly conceptualise with both reference-of-thought the articulation of coherent meaningfulness-and-teleology respectively in non-positivism terms–as-of-axiomatic-constructs and non-deprocrypticism/procrypticism terms–as-of-axiomatic-constructs, or rather in terms–as-of-axiomatic-construct that do not grasp structurally/paradigmatically the respective reference-of-thought organic grounding as of underlying ontological-normalcy/postconvergence implications, and so beyond just a question of vague ad-hoc mechanical patchwork of non-transcendental-enabling/sublimating conceptualised/construed relations. This elucidation points out that transcendence 'must truly' involve an ontological-dementation/dialectical-dementation–stranding/attributive-dialectics with the utter decentering of understanding itself by the prospective/transcending/superseding reference-of-thought over the threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism of the prior/transcended/superseded at its uninstitutionalised-threshold as an epistemic-totalising~renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling-(by-a-renewing-

Basically, ontological-dementation/dialectical-dementation–stranding/attributive-dialectics speaks of the contingent supersedingness of prospective relative-ontological-completeness-of-reference-of-thought of prospective/transcending/superseding reference-of-thought over prior relative-ontological-incompleteness-of-reference-of-thought of prior/transcended/superseded reference-of-thought, and so 'with respect to the relative veracity/ontological-pertinence of their projected logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of meaningfulness-and-teleology as of existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context', wherein the prior/transcended/superseded reference-of-thought is construed as preconverging-or-dementing–apriorising-psychologism and decentered/out-of-phase thus subsumed-as-supplanted while the prospective/transcending/superseding reference-of-thought is construed as postconverging-or-dialectical-thinking–apriorising-psychologism and centered/in-phase thus subsuming-as-supplanting (by supratransversality—apriorising/axiomatising/referencing as of 'intemporality-asymmetric-subsumption-of-temporality', rather as of intellectual-and-moral-inequivalence/non-correspondence). Ontological-dementation/dialectical-dementation–stranding/attributive-dialectics as of transcendental/interdimensional/transdimensional registry-worldview/dimension-level conceptualisation/construal as enabling prospective suprastructuration (suprastructural psychical-and-institutionalisation orientation of meaningfulness-and-teleology synopsising-depth as of the overall registry-worldview's/dimension's reconstrual of superseding–oneness-of-ontology), is technically apprehended rather as of the 'reference-of-thought—degraded-devolving-as-of-uninstitutionalised-threshold' of meaningfulness-and-teleology of the prior/transcended/superseded registry-worldview reference-of-thought implied as of distractive-alignment-to-reference-of-thought in reflecting the prospective/transcending/superseding registry-worldview reference-of-thought suprastructuration as the 'new ontologically-veridical becoming-or-present-of-reference-of-thought' since there 'cannot be two different becoming-or-present-of-reference-of-thought' but rather that the prospective/transcending/superseding suprastructuration is by its prospective relative-ontological-completeness-of-reference-of-thought the becoming-or-present-of-reference-of-thought. However, in all the ontological-dementation/dialectical-dementation–stranding/attributive-dialectics implied successive institutional-cumulation/institutional-recomposure, such a 'confusion of relative ontologically-veridical becoming-or-present-of-reference-of-thought' induces an underlying 'paradox of transcendence' involved in all such transcendences wherein mental-dispositions as of reference-of-thought are caught between the prospective/transcending/superseding registry-worldview prospective relative-ontological-completeness-of-reference-of-thought and the

prior/transcended/superseded registry-worldview prior relative-ontological-incompleteness-of-reference-of-thought, with respect to meaningfulness-and-teleology referencing. Consider in this case the human condition of transience of reference-of-thought as experienced by Okonkwo returning from banishment to Umuofia village in Chinua Achebe's Things Fall Apart. That is, basically and by reflex, mental-dispositions as of the formation of 'recurrent-utter-uninstitutionalisation non-rules—apriorising/axiomatising/referencing–psychologism,-as-impulsive-or-accidented-or-random-mental-disposition reference-of-thought–categorical-imperatives/axioms/registry-teleology will not necessarily construe transitorily at its uninstitutionalised-threshold that 'base-institutionalisation–ununiversalisation rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism reference-of-thought–categorical-imperatives/axioms/registry-teleology is the relative ontologically-veridical reference-of-thought (as explained further below with respect to 'symmetrisation-of-reference-of-thought but which is in effect an ontologically-non-veridical-or-flawed <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and/or desymmetrisation for perceived temporal social-stake-contention-or-confliction' associated with distractive-alignment-to-reference-of-thought, and 'intemporality-asymmetric-subsumption-of-temporality'/ontological-asymmetrisation as of deconstruction/ontological-reconstituting–as-of-conflatedness in aetiologisation/ontological-escalation); such that on a logical-basis the <~~amplituding~~/formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>) in recurrent-utter-uninstitutionalisation will be more inclined to turn towards the 'prior conventional non-rules—apriorising/axiomatising/referencing–psychologism,-as-impulsive-or-accidented-or-random-mental-disposition' as reference-of-thought–categorical-

Even then and ultimately, it is mainly a cross-generational psychoanalytic-unshackling/memetic-reordering/institutional-recomposure that progressively rids the prior conventional constructs of their essence as of <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that enables prospective registry-worldview/dimension suprastructuration/transcendence. This insight extends to all the successive registry-worldviews including ours as positivism–procrypticism as the relative pure-ontology conflatedness as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality implying such a construct as the deprocrypticism institutionalisation suprastructuration (preempting—disjointedness-as-of-reference-of-thought,-as-to-<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness-in-superseding-mere-formulaic-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism,-⟨as conflation of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument⟩) will certainly be a remote contemplation of such a <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ mental-disposition of our registry-worldview/dimension, rather construing its circular-pervasiveness <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ as absolute by reflex beyond-the-consciousness-awareness-teleology-<in-existential-extrication-

as-of-existential-unthought> wherein achievement motives and temporal-stakes of the conventional constructs as of human finite aspirations whether socially, professionally, family-wise, hedonic, etc. as of the registry-worldview's/dimension's denaturing <~~amplituding~~/formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>) so-construed prospectively, will tend to 'take precedence as of relative-ontological-incompleteness-of-reference-of-thought induced distractive-alignment-to-reference-of-thought and override any such sense of relative pure-ontology conflatedness notion as of prospective relative-ontological-completeness-of-reference-of-thought and implying rather a prospective transcendental depth-of-thought/reference-of-thought. This equally explains why the implied supratransversality—apriorising/axiomatising/referencing as of aetiologisation/ontological-escalation is necessarily a 'presencing—absolutising-identitive-constitutedness consummated/forfeiting posture' of intemporality-asymmetric-subsumption-of-temporality/ontological-asymmetrisation that needs to take into account this 'paradox of transcendence'. And critically so, because beyond just 'human conscious willing', transcendence necessarily implies the 'prospect of humans to appreciate/understand meaningfulness-and-teleology beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>'; such that, structurally/paradigmatically/necessarily, that which gets to 'conceptualise/construe beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>' is necessarily ontologically-asymmetrical as rather imbued with intellectual-and-moral responsibility over that which doesn't get there (and so, even with regards to a basic non-transcendental construal of asymmetrisation within a same registry-worldview's/dimension's reference-of-thought like Doctor – Patient, Parent – Child, Server –

Customer, Teacher – Student etc. as ensues from a Derridean binary opposition analysis). However at uninstitutionalised-threshold, the notion of intemporality-asymmetric-subsumption-of-temporality/ontological-asymmetrisation is not readily acquiesced to for the simple reason that two references-of-thought/axiomatic-constructs are at play with those adhering to the prior/transcended/superseded reference-of-thought–categorical-imperatives/axioms/registry-teleology inclined beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> to uphold meaningfulness-and-teleology as such, whereas in contrast adherence to the prospective/transcending/superseding as of its prospective relative-ontological-completeness-of-reference-of-thought will certainly grasp the pertinence of intemporality-asymmetric-subsumption-of-temporality/ontological-asymmetrisation as of deconstruction/ontological-reconstituting–as-of-conflatedness aetiologisation/ontological-escalation; so construed, as prospective relative-ontological-completeness-of-reference-of-thought brings about deepening sense as to apriorising/axiomatising/referencing–psychologism of transcendentally-enabling-level–of-authenticity/objectification/desubjectification-as-objectification/ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality/antinihilism meaningfulness-and-teleology construal for a sounder and sounder relationship with intrinsic-reality/ontological-veridicality. In this respect, it should be noted that in the example on the denaturing of Additionality as further articulated below with regards to the characters A, B, C, D, E, F and Z, it is naïve to think that the characters A, B, C, D, E, F will simply acquiesce to Z's supposedly ontologically-veridical posture, as by their prior relative-ontological-incompleteness-of-reference-of-thought as beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> they may operate on a logic that once such a situation as A induced additionality defect deception develops as of 'lack of

Further, even more decisively though by reflex we naively-and-erroneously tend to construe of human virtuous-dispositions or vices-and-impediments as arising mainly as of their conscious choices, paradigmatically/structurally a registry-worldview/dimension prior relative-ontological-

incompleteness-of-reference-of-thought as a beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> notion is the more decisive/salient notion as to human 'objectively construed/analysed virtuous-dispositions or vices-and-impediments' even though individual 'conscious choices' will tend to 'simply qualify the effective possibility of such virtuous-dispositions or vices-and-impediments arising'; such that a registry-worldview/dimension incompleteness-of-reference-of-thought is paradigmatically/structurally susceptibility as a state of 'in-wait as of prior relative-ontological-incompleteness-of-reference-of-thought defective reference-of-thought–categorical-imperatives/axioms/registry-teleology for the vices-and-impediments so implied to arise-and-be-endemised/enculturated beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>. This explains why the ontological-contiguity—of-the-human-institutionalisation-process is basically about shifting apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments to supersede the state of beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> as of human limited-mentation-capacity-deepening-⟨<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ in handling the more and more profound/depth of intrinsic-reality/ontological-veridicality construing reference-of-thought/axiomatic-construct that avails as of ontological-normalcy/postconvergence or increasing ontological-completeness-of-reference-of-thought; (such that such meaningfulness as expressed herein is more than just of logical construct implying simple logical meaningfulness as within only a single-as-our-present positivistic predicative-insights framework of reasoning and understanding, but requires a more profound retrospective and prospective mental-projection in its contemplation). This equally explicates the empirical reality associated with the occurrence of human transcendence cross-generationally as the

'apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument specific referencing/reference-of-thought/axiomatic-construct for predicative-insights' to take hold. It equally explicates why threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism (as 'vague staging and performing' and not truly postconverging-or-dialectical-thinking–apriorising-psychologism meaningfulness-and-teleology) tend to arise in each registry-worldview/dimension at its uninstitutionalised-threshold. This thus conveys the individuation-level of analysis ontological-primemovers-totalitative-framework as well as differentiated intemporal-conflatedness-as-effecting-wholeness-as-of-profoundness-and-completeness-to-meaningfulness-and-teleology-or-temporal-constitutedness-as-effecting-parsimony-of-meaningfulness-and-teleology (so implied by metaphysics-of-absence as of our procrypticism uninstitutionalised-threshold as disjointedness-as-of-reference-of-thought). By mental-reflex a postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation stand is a 'mental-shortcut' that is fundamentally perverted as it perceives meaning as 'deterministic of others behaviours by its empty-form' while a

prelogism-as-of-conviction-as-to-profound-supererogation stand is one that relates to meaning on the basis of its assumed existential validity, or at worst involves omissions or exaggerations relative to such fundamental existential validity, but doesn't countenance by mental-reflex the projection of empty-form of meaningfulness which is 'existentially invalid' in the very first place. Consequently, where there is 'lack of constraining social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-⟨~~amplituding~~/formative⟩epistemic-totalising–in-relative-ontological-completeness⟩ at the uninstitutionalised-threshold due to relative-ontological-incompleteness-of-reference-of-thought, postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation implied meaningfulness-and-teleology will tend to be incidentally conjugated with prelogism-as-of-conviction-as-to-profound-supererogation dispositions as of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. This is characteristic of the successive uninstitutionalised-thresholds whether as recurrent-utter-uninstitutionalisation (non-rules—apriorising/axiomatising/referencing–psychologism,-as-impulsive-or-accidented-or-random-mental-disposition caricaturing-hollow-staging-and-performance as random/impulsive

Now supposed Z was another character inclined for maximalising-recomposuring-for-relative-ontological-completeness as preserving the inherent intemporality/longness of additionality as allowing civilisational/institutional-being-and-craft setup preservation, brought in by the Donor, there is no question that Z will register the newly divulged ontological-veridicality/intrinsic-reality of the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument and its derived-implications as perversion-and-derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> to renew the construal/conceptualisation of what is considered as a relatively ontological-completeness-of-reference-of-thought for a prospective reference-of-thought that preserves intemporality, by factoring in the fact of this contextual relative-ontological-incompleteness-

Though metaphorically in the mortal's temporal/shortness-of-register-of-meaningfulness-and-teleology terms, that 'low-life' of universal import may be utterly oblivious to the practicalities of B, C, D, E and F so engrossed in a world of 'high-life' of temporality/extrication as the 'fullness of meaningfulness-and-teleology' over the appreciation of the intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm, be it that the latter disposition as philosophically intemporal is what creates-and-enables the being in civilisation/institutionalised-being-and-craft in the first place, as the metaphorically 'high-life' of temporality/extrication cannot count on an overall principle of temporality/extrication for its existential sustainability (as B, C, D, E and F needs that the Donor grants the rewards by not factoring in the deceit, thus their existential principle doesn't sustain the 'civilisation/institutionalised-being-and-craft setup' in which they are living in, hence qualified as extricatory/temporal/parasitising/co-opting as 'least-and-derived-temporal-operating-modalities-of-the-reference-of-thought-as-of-incrementalism-in-relative-ontological-incompleteness-inducing-the-uninstitutionalised-threshold') but unavowedly and paradoxically rather on the parasitising/co-opting of the intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm enabling the ontological-contiguity—of-the-human-institutionalisation-process; and besides, it is because the intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating as prospective ontologising (as undertaken by Z) can supersede denaturing postlogic-backtracking towards 'social-aggregation-enablers

In order words, this situation highlights the universal issue across all registry-worldviews/dimensions underlying the notion of temporality/shortness and intemporality. Wherein reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-

to universalisation–non-positivism/medievalism to positivism–procrypticism and prospectively to deprocrypticism. While for the temporal mental-disposition individuations the form-and-perception or derived-form-and-perception of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation whether upholding ontological-veridicality/intrinsic-reality or not (and so whether unconsciously, expediently or consciously) is a sufficient basis so long as it is socially-functional-and-accordant such that the possibility of blurring or undermining existential-reality by 'wrongly-projected decontextualising-unimbricatedness/unthreadedness/unrecomposuring-as-virtuality-or-ontologically-flawed-construal (which is rather 'a prior threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism reference-of-thought' in shallowness-of-thought-or-unsophistication-of-understanding) in grasping existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as to existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality' is just as valid, hence a failure to abstractly recognise intemporality/longness as of-existential-reality with the implication thereof as perversion-and-derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> with respect to the registry-worldview's/dimension's vices-and-impediments implied by its implied relative-ontological-incompleteness-induced,-'threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism'. Hence the reason why the vices-and-impediments inherent of a given registry-worldview/dimension cannot be structurally/paradigmatically/ontologically resolved within it as there is need for prospective

ontological-completeness-of-reference-of-thought structured to inherently supersede such vices-and-impediments, whether as base-institutionalisation in superseding recurrent-utter-uninstitutionalisation, universalisation superseding base-institutionalisation–ununiversalisation, positivism superseding universalisation–non-positivism/medievalism and deprocrypticsm superseding positivism–procrypticism/disjointedness-as-of-reference-of-thought. The central idea here being that the most critically important notion in the situation of A, B, C, D, E, F and Z, is Z's upholding of prospective transcendental-enabling/sublimating over any temporal extricatory paradigm, however, the enculturation and mass thinking behind temporal extricatory paradigm. (* Noting that individuation as defined elsewhere speaks of temporal-to-intemporal trait characteristic, as anywhere between shortness-to-longness-of-register-of-meaningfulness-and-teleology, that can accrue atleast incidentally/on-occasion in all individuals-as-receptacles-of-individuations but more recurrently as teleologically defining in a-life-phase-or-life-phases-of-given-individuals, thus critically enabling a dynamic-cumulative-aftereffect intradimensional and transcendental/transdimensional/interdimension/maximalising-recomposuring-for-relative-ontological-completeness analysis as metaphysics-of-absence/postdication). Finally, thus it is critical to note that the existential contextualisation above as 'imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as to existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality' (from the perspective of the 'postconverging-or-dialectical-thinking-reference-of-thought in relative-ontological-completeness as depth-of-thought') is a priori and supersedes the mere notion of additionality as elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-

elucidation-outside-existential-contextualising-contiguity since mere additionality is bound to wrongly represent the additions of B, C, D, E and F as correct (as it is a virtuality-or-ontologically-flawed-construal/being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference in <s>amplituding</s>/formative>epistemic-totalising~self-referencing-syncretising/illusion-of-the-present-present-consciousness/mirage as metaphysics-of-presence) thus overlooking their 'wrongly-projected decontextualising-unimbricatedness/unthreadedness/unrecomposuring-as-virtuality-or-ontologically-flawed-construal (which is rather 'a prior threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism reference-of-thought' in shallowness-of-thought-or-unsophistication-of-understanding) in grasping existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as to existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality'. Such 'a relative teleological-differentiation/scission/variance/disambiguation of references-of-thought' of Z's intemporal-disposition reference-of-thought as supratransversality—apriorising/axiomatising/referencing over B, C, D, E and F temporal-dispositions references-of-thought as subtransversality—apriorising/axiomatising/referencing, can be demonstrated in the archetype characters of say a Socrates or Rousseau (even though no human individual as receptacle of individuations can be qualified as purely of intemporal-disposition or purely of temporal-dispositions). Wherein within their respective registry-worldviews/dimensions setups, their maximalising-as-transcendental recomposuring mental-dispositions in projection for prospective institutionalised-being-and-craft, i.e. ontologising of future conventioning, as supratransversality—apriorising/axiomatising/referencing (as the grander intellectual-and-moral effort that can be made within their registry-worldviews/dimensions) is rather poorly

construed to the ordinariness/averageness of thought within their respective registry-worldviews/dimensions setups (which mental-dispositions and conventioning – as 'wrongly-projected decontextualising-unimbricatedness/unthreadedness/unrecomposuring-as-virtuality-or-ontologically-flawed-construal (which is rather 'a prior threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism reference-of-thought' in shallowness-of-thought-or-unsophistication-of-understanding) in grasping existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as to existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality' – will rather think as irrational the projective disposition of a Socrates that doesn't rather advance a temporal interest in the city-state polity but is rather bent on spreading new ideas as a natural philosopher while prioritising as of nonextricatory-existential-preempting-of-existential-unthought in his asceticism the prospective intemporal over the temporal status quo, and likewise with a Rousseau who isn't advancing a temporal interest that his aristocratic stature should warrant like actively pursuing for landed properties and currying favours with kings but is rather bent principally on a prospective commitment on grasping and spreading notions of a renewal of the human condition as universal rights and enlightened despotism. This is certainly because emanantly/becomingly/solipsistically temporal-dispositions do not appreciate that there is a more 'profound level of living in the realm of human thoughtfulness' based on eudaemonic-contemplation of 'Intemporal-prioritisation-of-reference-of-thought'–as-conflatedness-or-ontological-reprojecting that then 'invents/creates' the structural/paradigmatic possibility for prospective institutionalised-being-and-craft as there isn't any inherent intemporality/longness needed for maximalising-recomposuring-for-

relative-ontological-completeness out of the ordinariness/averageness of any institutionalised-being-and-craft setup. Hence such intemporality/longness as maximalising-recomposuring-for-relative-ontological-completeness need its <~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought as of given that the-succession-of-registry-worldviews-or-dimensions-institutionalisations/the-ontological-contiguity—of-the-human-institutionalisation-process is 'not a human dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation transformation exercise as of temporal-dispositions/shortness-of-register-of-meaningfulness-and-teleology but rather is solely a secondnaturing to supersede the uninstitutionalised-threshold divulged by relative-ontological-incompleteness-induced,-'threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism''. The implication is that acting as-of-a-secondnatured nature is not enough for articulating prospective institutionalisation requiring ' intemporal projection <~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought' for the requisite prospective maximalising-recomposuring-for-relative-ontological-completeness, and such conceptualisations from only a secondnaturedness of thought as rather contextually temporal is not intemporal as of-universal-and-abstractive nature but is in '<~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising'/illusion-of-the-present/present-consciousness/mirage as metaphysics-of-presence. Thus a registry-worldview's/dimension's institutionalisation secondnaturedness is challenged by its very own level of relative-ontological-incompleteness-induced,-'threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism' marking its uninstitutionalised-threshold whether as recurrent-utter-uninstitutionalisation with recurrent-

utter-uninstitutionalisation, ununiversalisation with base-institutionalisation, non-positivism-or-medievalism with universalisation and procrypticism with positivism, in need for a renewed institutionalisation respectively as base-institutionalisation, universalisation, positivism and prospectively deprocrypticism. This equally explain why the notion of human transcendental progress is relatively 're-originary–as-unenframed/unbeholdening/outlier-conceptualisation-⟨imbued-postconverging/dialectical-thinking-'projective-insights'/'epistemic-projection-in-conflatedness'-of-notional~deprocrypticism-prospective-sublimation⟩ driven' as it requires an intemporal-solipsism as to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality of thought more than just institutionalised secondnaturing such that it has often been the erudition periphery of institutional-cumulation/institutional-recomposure that had tended to fundamentally put into question their present with new paradigm shifts. It is ontologically-speaking impossible to comprehensively undermine a dimension's/registry worldview's postlogism without undermining the registry-worldview's/dimension's reference-of-thought itself as implied by its state of relative-ontological-incompleteness-induced,-'threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism', for instance psychopathy in positivism–procrypticism or notions of sorcery in universalisation–non-positivism/medievalism (wherein from the prospective point-of-reference respectively as deprocrypticism or positivism, it is in ontological-dementation/dialectical-dementation–stranding/attributive-dialectics as of the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology), given that this fundamental relative-ontological-incompleteness-induced,-'threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism' of the given registry-

worldview/dimension as reflected from ontological-normalcy/postconvergence epistemic/notional~projective-perspective, by its 'contextualising-contiguity of existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality' means it is structurally bound to enculturate/endemise its given postlogism. Obviously we can appreciate that without a positivistic outlook/reference-of-thought there is no chance that a non-positivism/medievalism registry-worldview/dimension will do away with notions-and-accusations-of-sorcery, as the latter is bound to arise as of human threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism in non-positivism/medievalism where the mindset/reference-of-thought is not rationally-empirical/positivising. Likewise the procrypticism/disjointedness-as-of-reference-of-thought wherein the perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> from a psychopathic character is contextually likely to be engaged with (as 'prelogism-as-of-conviction-as-to-profound-supererogation re-engaging reflex') and even exploited (whether unconsciously, expediently or consciously), implies a comprehensive structural/paradigmatic undermining of the phenomena of psychopathy and social psychopathy is impossible without putting in question and undermining our uninstitutionalised-threshold as procrypticism for futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism which is effectively the structural/paradigmatic resolution of psychopathy and social psychopathy (besides palliative conceptualisations that can hardly make a dent on the comprehensively defined structural/paradigmatic phenomenon in terms–as-of-axiomatic-construct of the larger aetiologisation/ontological-escalation) just as positivism is the structural/paradigmatic

ontological resolution of notions-and-accusations-of-sorcery, and ad-hoc tempering with medieval postlogism (perverted-outcome-sought-precedes-existentially-veridical-logical-dueness) as instances of notions-and-accusations-of-sorcery doesn't grasp the underlying and comprehensive medieval social-construct structural/paradigmatic endemisation/enculturation of such a phenomenon. Further, registry-worldviews/dimensions being prospectively <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ with their 'intradimensional socially-betraying-threshold-of-ontologising-depth-of-analysis' or 'socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation' determined by their sanctified-conventioning-social-aggregation-enablers, there is a need to circumvent and break these sanctified-conventioning-social-aggregation-enablers by prospective 'intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating' to allow for new defining transcendental meaningfulness and its corresponding grander teleological-differentiation/teleology that can then perceive the prior registry-worldview/dimension as of its relative-ontological-incompleteness-induced,-'threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism' and accessorily its enculturating/endemising of its postlogism, and superseding both of these in the prospective registry-worldview/dimension institutionalisation. For instance, the intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating of a medicine based on natural causes and drugs as natural cures carried the effectiveness/ontological-primemovers-totalitative-framework that undermined non-positivism/medievalism sanctified-conventioning-social-aggregation-enablers to do away with such notions as curses, sorcerers, etc. being the cause of disease, and undermine the whole teleologically-degraded dispositions

Likewise only by articulating comprehensive and effective aetiologisation/ontological-escalation resolutions to the defect of procrypticism and its postlogism first with respect to formal constructions that the derived effectiveness/ontological-primemovers-totalitative-framework can feed back as percolation-channelling to dimensionally (registry-worldview) to undermine the relative-ontological-incompleteness-induced,-'threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism' of our procrypticism and accessorily its enculturating/endemising of psychopathy and social psychopathy. As explained, the reason for the successive institutional-cumulation/institutional-recomposure underlying the ontological-contiguity—of-the-human-institutionalisation-process has to do with human limited-mentation-capacity-deepening-⟨~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ inducing successive recomposuring from shallow-limited-mentation-capacity to deeper-limited-mentation-capacity construed as diminishing–human-epistemic-abnormalcy/diminishing–preconvergence towards ontological-normalcy/postconvergence or intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. whether 'good or poor/bad supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism' which is at the least 'of sound logical-dueness of reference-of-thought', whereas postlogism (perverted-outcome-sought-precedes-existentially-veridical-logical-dueness) in hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> being 'as of threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism' do not operate on the same logical-dueness of registry/anchoring-of-meaning/meaningful-reference/ontological-reference/contending-reference/registry-worldview mental-devising-representation basis of prelogism-as-of-conviction-as-to-profound-supererogation as 'of sound reference-of-thought' which is reflected as mental straightness and candored. Rather postlogism in hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> being about 'vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging', harkens back to a registry/mental-devising-representation that is reflected/perspectivated as preconverging-or-dementing–apriorising-psychologism (oblongated/decandored-and-dialectically-or-contendingly-out-of-phase). Thus postlogism in hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> (psychopathic-and-the-temporal-dispositions-conjugation-to-it-as-conjugated-postlogism) implies fundamentally non-veridical implied reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation and thus the apriorising–registry-elements as implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology are undue for logical contention but rather ontologically reflected/perspectivated in perversion-of-reference-of-thought-<as-effectively-apriorising-in-

nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>. In existential terms, postlogism in hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> (psychopathic-and-the-temporal-dispositions-conjugation-to-it-as-conjugated-postlogism) speaks of a disposition to engage in postlogic-backtracking-<iterative-looping-'set-of-dereifying-hollow-narratives-and-acts'>, involving absolving/fleeting/escaping-reflex-logic, counting on the fact that others will sooner or later be in prelogism-as-of-conviction-as-to-profound-supererogation-or-thinking relation with the formulaic slanting compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation or postlogism in preconverging-or-dementing–apriorising-psychologism, hence wrongly elevating its perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> into logical-contention rather than dealing with registry-worldview's/dimension's-uninstitutionalised-threshold–defect-<as-Being-or-ontological-or-existential–defect>. Postlogism in hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> (psychopathic-and-the-temporal-dispositions-conjugation-to-it-as-conjugated-postlogism) thus inherently implies and is about articulations of perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> with respect in the very first instance to the validity of implied reference-of-thought rather than valid articulations of logical contention as the latter is with respect to ontological-veridicality of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation only after the former (reference-of-thought) has been established as veridical/true. Postlogism/outcome-sought-precedes-logical-dueness is not about a defect–of-logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview's/dimension's–reference-of-thought-for-

social-functioning-and-accordance but rather speaks of false projection of 'apriorising–reference-of-thought-elements/apriorising–registry-elements (out of existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context)' of implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology implying registry-worldview's/dimension's-uninstitutionalised-threshold–defect-<as-Being-or-ontological-or-existential–defect> as first-order faulty-mentation-procedure-deception-or-urge (inducing circularity/recurrence/repetition/repeatability of a subsequent implication of a second-order level wrongly implied deception of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of infinite deception possibilities with respect to the infinite possibilities of 'perfect logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation' on the false basis of the perversion-and-derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>). Such perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>/mental-devising-representation-perversion has various shades of 'temporal/shortness to intemporal/longness depth/register of meaningfulness stranded finalities/teleologies'. This can be demonstrated as follows with psychopathy at childhood (which at this point is relatively transparent to the critical observer). Let's say John is a psychopath, he wants to get his brother Peter punished for annoying him. John knows that dad will punish anyone who spills water on the chair. John, in a 'dereifying act', then spills water on a chair and goes and tell dad Peter has spilled water on the chair, and waits for Peter to get punished (and, this way of acting and thinking is not limited only to a benign notion like spilling water as it could be setting fire, destroying an

equipment, etc.). This is different even from 'poor or bad supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism' or prelogism in that a child who has a 'poor or bad supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism' or prelogism is ad-hoc and circumspect by taking advantage or reacting to a situation that has developed to accuse another as of temporal-existential constraint. They don't initiate such a situation 'as a rational way of thinking' and even less to the gravity that the psychopath does.

One other major flaw in the perception of the psychopath is that they are liars (a pathological liar, it is said). This again is a flawed notion. To lie is to be in prelogism-as-of-conviction-as-to-profound-supererogation ('poor or bad supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism'), whether by omitting or exaggerating in a circumspect and ad-hoc manner but relative to existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context. Lying as such is 'an ad-hoc defect–of-logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview's/dimension's–reference-of-thought-for-social-functioning-and-accordance that doesn't speak of the true postlogism/psychopathic phenomenon which has to do with the perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>,–and-not-of-logical-contention with regards to registry/anchoring-of-meaning/meaningful-reference/ontological-reference/contending-reference/registry-worldview as the psychopath perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> speaks of 'a circularity/recurrence/repetition/repeatability as

enabled by social-functioning-and-accordance—as-of-social-stake-contention-or-confliction'

implying a 'being or ontological or meaningfulness or existential defect' which is poorly

construed as 'pathological lying at the level of logical-processing-or-logical-implicitation—

such poor characterisation of the psychopath extends to other notions like 'bullying',

'manipulating', 'fooling', etc. which are all in prelogism-as-of-conviction-as-to-profound-

supererogation-or-thinking notions though ''poor or bad supplanting–conviction-as-to-

departs with a relation to 'omitting or exaggerating within the framework of a veridical

But while poor-or-bad prelogism may be what is perceived from a 'normal' social and supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism point of view, particularly with adult psychopathy; these are all wrong and actually will make an analysis of the psychopath and psychopathy ontologically-flawed. The psychopath is in a state of compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation or 'compulsive-dementing' (not recognising/giving-up-on the sound operation/processing of logic as the basis for deriving essence of meaning but rather perceiving meaning as just a hollow mimicking form that determines how others will act, more like a projection of form, i.e. compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation being a state of 'conscious, unprincipled and instrumentalised threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism in veridical unsoundness-or-inauthenticity-of-reference-of-thought as the psychopathic mindset/reference-of-thought ontological-primemovers-totalitative-framework value-reference reflected by its perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>' in contrast to supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism as a state of 'conscious, principled and uninstrumentalised supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism in veridical soundness-or-authenticity-of-reference-of-thought as the supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism

This is the fundamental fact that explains the evasiveness in grasping the psychopath in its motive and orientation as the psychopath's actions can be as simple as a basic formulaic (meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated-or-postlogism-formulaic   slanting   compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation as to preconverging-or-dementing–apriorising-psychologism) understanding of the effects on interlocutors of endearing, pleasing, laughter, etc. in inducing distraction, empathy, suspension-of-profound-reasoning or reference-of-thought teleological-degration in relation to its threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism in undermining an prelogism-as-of-conviction-as-to-profound-supererogation perspective which reference-of-thought is veridical. All the 'poor or bad supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism' terms above, i.e. lying, bullying, manipulating, fooling, etc., wrongly point to the fact that the psychopath is having a 'deliberative prelogism-as-of-conviction-as-to-profound-supererogation mental process' with respect to its end purpose, and thus wrongly implying it is in 'prelogism-as-of-conviction-as-to-profound-supererogation'   with   the   wrong   idea   that   its aapriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reference-of-thought-elements/registry-elements/anchoring-of-meaning-elements of implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology are existentially veridical. The psychopath is operating on the basis of 'a last mimicking denaturing postlogism—construed-as-of-perverted-outcome-sought-precedes-existentially-veridical-logical-dueness   postlogic-backtracking-<iterative-looping-'set-of-dereifying-hollow-narratives-and-acts'>-with-succeeding-shifting-of-the-narratives-and-acts-

Now the faulty-mentation-procedure-deception-or-urge implying 'a supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism deliberativeness' is coming from its interlocutor's 'prelogism-as-of-conviction-as-to-profound-supererogation mind' itself which prelogicly/in-conviction-as-to-profound-supererogation (as the prelogism, which is wrongly induced in distractive-alignment-to-reference-of-thought, conjoins all the denaturing postlogism—construed-as-of-perverted-outcome-sought-precedes-existentially-veridical-logical-dueness postlogic-backtracking-<iterative-looping-'set-of-dereifying-hollow-narratives-and-acts'>-with-succeeding-shifting-of-the-narratives-and-acts-foci-as-deception-of-successively-shifting-or-non-cohering-narratives-and-acts as absolving/fleeting/escaping-reflex-logic, to wrongly imply a depth-of-conviction-as-to-profound-supererogation whether as of bad or good supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism or prelogism) in reality is wrongly assuming a depth-of-postlogism-slantedness/insane integration. The psychopath being postlogic—construed-as-of-perverted-outcome-sought-precedes-existentially-veridical-logical-dueness or pathologically/compulsively hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> is not lying (or manipulating or bullying), in fact the psychopath will prefer that normal supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism minds think it is lying (or any notion of a 'poor or bad supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism' as it wrongly elicits just a defect–of-logical-processing-

or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation rather than the idea of compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation), as at least they will then wrongly realign prelogicly/(existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at) again to it with respect to its subsequent narratives to examine the pertinence of its logic/logical-processing i.e. engaging logical operating/processing and wrongly granting it supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism (be it even 'poor or bad supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism' as this will then wrongly imply its wrong or poor performance of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation,   rather than its hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>/vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging/slanting of empty narratives that are flawed or non-existent as postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation)   thus wrongly involved in prelogism hence wrongly validating as real its 'fundamental faulty-mentation-procedure-deception-or-urge' which is its 'apriorising–reference-of-thought-elements/apriorising–registry-elements, that in reality are out of existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context', of implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology (instead of examining in the very first place their relevance/pertinence or its soundness-or-authenticity-of-reference-of-thought); in so doing, analysing its meaning as essence instead of analysing it as non-veridical hollow mimicking form or vague-rhyming-or-

copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging or meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated or non-veridical hollow mimicking narratives. What the psychopath is doing is 'SLANTING' as of compulsive-slanting—preconverging-or-dementing-apriorising. That is to arrive at a sought-outcome by subknowledging-or-mimicking the non-veridical hollow-form of the meaning of other persons supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism narratives which it perceives as 'being blatantly deterministic' of the views and actions of the 'normal prelogism-as-of-conviction-as-to-profound-supererogation mind', i.e. the psychopath is 'narrating veridical emptiness/hollow narratives'. The idea being about arriving at a sought-outcome by taking a posture that does not attach a depth of supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism on narratives but rather simply 'the mere possibility of the hollow narratives being articulated, and then integrated by interlocutors as real'. Thus the psychopathic postlogic mindset and by derivation conjugated-postlogisim/preconverging-or-dementing-integration mindset is one of relating to meaningfulness as valid by 'the mere performative-form representation of meaningfulness' rather than veracity/ontological-pertinence of meaningfulness. The psyche is thus fundamentally one geared towards how to perform in interlocution rather than express a genuine sense of supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism and hence the disposition for extrinsic-attribution by active social-aggregation-enabling. Meaningfulness is seen not as an end-construct that is of passive social determinism by its inherent veracity/ontological-pertinence as of intrinsic-attribution associated with transcendental-enabling/sublimating, but rather as a potent and active construct of social determinism which requires actually eliciting a sought after outcome and not a notion of intrinsic existential/ontological inherence. This

mental-disposition is qualified as epistemic-decadence or postlogism and its derivation/adoption by temporal-dispositions is derived-epistemic-decadence in conjugated-postlogism. More precisely, it is critical to distinguish between the notion of slanting (cinglé in French) as postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation and the notion of a lie which is prelogism-as-of-conviction-as-to-profound-supererogation (be it a 'poor or bad supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism') as with a lie the implied-logical-dueness (with the corresponding implied-reference-of-thought/implied-registry elements) are existentially veridical with the 'lying deception' being of ad-hoc exaggeration or omission or inappropriate accounting of circumstantiality and/or factuality but as of 'effectively due' logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation. The narratives-and-acts-foci of the set-of-narratives of a 'lying deception' do not successively shift (as with slanting) but carry an overall coherence implying deception-but-as-of-successively-cohering-narratives. This is because a lie is more of deception arising out of ad-hoc contextual-ambiguity-constraint(s) ad-hocly articulated as deception-but-as-of-successively-cohering-narratives to resolve the ad-hoc contextual-ambiguity-constraint(s), and lying doesn't fundamentally imply where such ad-hoc contextual-ambiguity-constraint(s) is non-existent the interlocutor will still not be predisposed to a veridical and appropriate logical-engagement/interlocution/implicitation. This equally explains why a lie collapses as a whole (or whole pieces of the lie) since such a collapse arises out of the truth/ontological-veridicality resolution of the contextual-ambiguity-constraint(s) behind the coherent structure(s) of the lying deception. Slanting on the other hand speaks of a fundamental pathological faulty-mentation-procedure-deception-or-urge associated with postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation with

respect to social-stake-contention-or-confliction (and by extension 'derived-slanting' induced as conjugated-postlogism-opportunism and conjugated-postlogism-exacerbation arises out of purposeful enculturation/endemisation of the slanting habit where it is viewed by some interlocutors of the psychopath as socially-functional-and-accordant, since its manifestation is not universally transparent as ontologically decadent); due to the slanted child psychopathy mind's developmental incompleteness (as it is so focussed on attaining its sought after outcome in advance that it construes of 'presupposing/presuming/premising in concurrence' as an independent mental activity that must not necessarily be derived-and-implied from existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context, whereas the latter is exactly what validates logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation as a process reflecting existential-reality as of implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology), with respect to construing meaningfulness as prelogism-as-of-conviction-as-to-profound-supererogation, but instead construes meaningfulness as postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation

explaining the circular nature and its particularly overblown extrinsic-attribution mental-disposition to elicit social-aggregation-enabling over relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating with regards to inherent reality and meaningfulness. The peculiarity of slanting is that it is deception-of-successively-shifting-or-non-cohering-narratives-and-acts wherein the initiation of a hollow falsehood narrative is followed by the projection of another hollow falsehood narrative on the basis of the former as if the former was true, and the projection of another falsehood narrative on the basis of the previous one as if the previous one was true, and so on. Thus slanting doesn't have a

'coherent whole of narratives' with respect to existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as is the case when someone tells a lie, and actually where such a 'coherent whole of narratives' with respect to existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context is wrongly implied about slanting, it has to do with prelogism-as-of-conviction-as-to-profound-supererogation mind/mental-disposition 'wrongly conjoining the succession of slanting narratives from the last iterated slanted narrative' to wrongly imply that the slanting psychopath narratives are a 'coherent whole of narratives as of existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context', and this is the mechanism that induces conjugated-postlogism/preconverging-or-dementing-integration by some interlocutors of the adult psychopath, whether conscious or unconsciously. It is interesting to note that at childhood psychopathy where the mental-disposition is relatively universally-transparent what is perceived and related to by supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism interlocutors is not a 'coherent whole of narratives' but a deliriousness/delirious-effect/cinglé-effect/mental-unsoundness-effect arising out of its contemplation (as if it were true), pointing out that the reality of mental-states in wrong prelogism-as-of-conviction-as-to-profound-supererogation alignment to psychopathic slanting is actually a mental-unsoundness not different as contemplating aligning in supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism to the childhood psychopathy slanting as with the dereifying example of spilling water on a chair and accusing another. A salient comparison that strongly highlights the difference between

slanting and lying, is that a lying child doesn't come across as delirious since its lying deception is a coherent whole as of contextual-ambiguity-constraint(s) while a slanting deception is as of faulty-mentation-procedure-deception-or-urge due to psychopathic developmental failure to relate to meaningfulness as of prelogism-as-of-conviction-as-to-profound-supererogation with the personality development out of that developmental failure bringing about the adult psychopath slanting mental-disposition with respect to social-stake-contention-or-confliction; and as the adult psychopath developed maturation/indirectness/spatialisation/credulity/craftiness to attain social-functioning-and-accordance—as-of-social-stake-contention-or-confliction, induces interlocutors prelogic supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism alignment to its postlogic compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation narratives whereas at childhood psychopathy interlocutors will not align in-prelogic supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologismly (in order not to wrongly conjoin the psychopathic postlogic slanting narratives as deception-of-successively-shifting-or-non-cohering-narratives-and-acts as if of coherent whole as prelogic supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism narratives, and this is what actually occurs by inducing conjugated-postlogism/preconverging-or-dementing-integration in interlocutors at adulthood psychopathy) given the obvious and transparent deliriousness/delirious-effect/cinglé-effect associated with slanting over a slant over a slant, successively. Hence, this slanting deception (deception-of-successively-shifting-or-non-cohering-narratives-and-acts) is also qualified as deception-by-concurrently-false-presupposing/false-presuming/false-premising-of-narratives or deception-by-concurrently-false-assumptive-preconverging-or-dementing–apriorising-

psychologism. Thus, with slanting the implied-logical-dueness (with the corresponding implied-reference-of-thought/implied-registry elements) are existentially unreal/non-veridical/flawed explaining the meaningful emptiness/hollowness of slanting (as not even an exaggeration or omission or inappropriate accounting of circumstantiality and/or factuality as of 'effectively due' logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation), thus explaining why 'slanting and derived-slanting' is construed as unsoundness-or-inauthenticity-of-reference-of-thought/preconverging-or-dementing–apriorising-psychologism as opposed to lying deception construed in a shade of soundness-or-authenticity-of-reference-of-thought. Insightfully, it points out as well that the basis of the postlogism/psychopathic induced deception is not the psychopath itself (as it is commonly asserted about psychopathic manipulation), but rather it lies in the very nature of the reasoning of the prelogism-as-of-conviction-as-to-profound-supererogation interlocutor mental engagement reflex who 'aligns in-conviction-as-to-profound-supererogation' as it will 'normally do' with other prelogic supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism minds to a postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation mind, and then wrongly validates that the postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation mind is in prelogism-as-of-conviction-as-to-profound-supererogation. In order words, the operation of the psychopathic mind as of its incomplete mentation development (as inclined to induce a faulty-mentation-procedure-deception) as it fails to construe meaningfulness as based on prelogism-as-of-conviction-as-to-profound-supererogation but rather as based on postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation with its personality development into adulthood on this basis, paradoxically

leads to the prelogism-as-of-conviction-as-to-profound-supererogation mind's deception since the latter operates on the basis that everyone must be supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism (be it 'poor or bad supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism' at worst) and the notion of postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation doesn't register naturally except where the personality development of the childhood psychopathy into an adult psychopath is experienced closely, and the adulthood psychopath mentation processes structure can be retraced to the delirious mentation processes structure at childhood psychopathy when it is universally transparent as maturation/indirectness/spatialisation/credulity/craftiness continually developed during its personality development into adulthood psychopathy now enables it becoming socially-functional-and-accordant. This induced deception does not however occur at childhood psychopathy since it is very much transparent as a deliriousness/delirious-effect/cinglé-effect as the childhood psychopathy has hardly achieved maturation/indirectness/spatialisation/credulity/craftiness of its slanting-deception mental-disposition. What underlies the slanting of the psychopath is its rather unnuanced understanding and gauging of social situations and social cues as out of existential-contextualising-contiguity by its dereification on a mental-processing disposition that is rather a 'dereifying bivalent-disposition-to-acute-caricatural-prepotence-or-acute-lulling-diffidence', and so in contrast with the expected 'reifying nuanced/multivalent mental-processing' of supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism dispositions in existential-contextualising-contiguity, however bad-or-poor their ontological-performance-<including-virtue-as-ontology> of supplanting–conviction-as-to-profound-supererogation—

postconverging/dialectical-thinking–apriorising-psychologism mental-processing. This underlies the apparent vividness of interlocution with the psychopath especially with regards to social-stake-contention-or-confliction due to a 'supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism manifestation of the interlocutor by compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation manifestation of the psychopath cross-perception effect' wherein the supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism interlocutor by its mental-reflex is wrongly inclined to perceive and so specifically with adult psychopathy a 'reifying nuanced/multivalent mental-processing' in existential-contextualising-contiguity knowledge-reification with regards to the psychopath 'dereifying bivalent-disposition-to-acute-caricatural-prepotence-or-acute-lulling-diffidence' as to inducing the interlocutor reifying perception of the psychopath's dereifying projection of existential-contextualising-contiguity, while the psychopath view of the supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism interlocutor's supposedly 'reifying nuanced/multivalent mental-processing' in existential-contextualising-contiguity knowledge-reification is rather as of its 'dereifying bivalent-disposition-to-acute-caricatural-prepotence-or-acute-lulling-diffidence' inclination as to inducing the interlocutors reifying perception of the psychopath's dereifying projection of existential-contextualising-contiguity. While at childhood psychopathy such a 'dereifying bivalent-disposition-to-acute-caricatural-prepotence-or-acute-lulling-diffidence' as to inducing the interlocutors reifying perception of the psychopath's dereifying projection of existential-contextualising-contiguity is socially inefficacious and trouble-inducing giving the deliriousness effect from universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩ of its acts, at adulthood psychopathy the lack of such

and tends to act compulsively in its faulty-mentation-procedure-deception as of

[This is more profoundly exposed in the conceptualisation in reflecting the ontological-

contiguity—of-the-human-institutionalisation-process as it induces 'socially-functional-and-

accordant reference-of-thought as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor; that can be elucidated by an existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context analysis of 'least-and-derived-temporal-operating-modalities-of-the-reference-of-thought-as-of-incrementalism-in-relative-ontological-incompleteness-inducing-the-uninstitutionalised-threshold'-and-not-'maximal-as-intemporal-operating-modality-of-reference-of-thought-as-of-maximalising-recomposuring-for-relative-ontological-completeness-as-inducing-the-prospective-institutionalisation'. Central to such an insight, is the understanding of what the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor means about human mental-disposition. The implication is that we 'consistently' have two sets of mental-dispositions having to do with the uninstitutionalised-threshold of all registry-worldviews/dimensions; as of metaphysics-of-presence and metaphysics-of-absence representations. First, 'human registry-worldview's/dimension's institutionalisation mental-disposition' within the scope of a registry-worldview's/dimension's institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (as-not-failing/upholding intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-deepening-⟨~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ by a re-equilibrating metaphysics-of-absence/postdication). Then, 'human temporal uninstitutionalised-threshold mental-

disposition' construed either 'as out of the scope of the registry-worldview's/dimension's institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation' or 'the registry-worldview/dimension uninstitutionalised-threshold reference-of-thought' (as-failing/not-upholding-<as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity–or–ontological-preservation 'by projected <~~amplituding~~/formative>wooden-language-⟨imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology⟩ of the registry-worldview/dimension institutionalisation reference-of-thought', as of an ontological-normalcy/postconvergence epistemic/notional~projective-perspective) as so reflected from the prospective registry-worldview's/dimension's institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. With the attainment of registry-worldview/dimension institutionalisation by social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩ we can very much uphold a secondnatured quasi-intemporal-disposition reference-of-thought as 'human registry-worldview's/dimension's institutionalisation mental-disposition' which is why humankind pursues institutionalisations as devising human collective emancipation from base-institutionalisation to universalisation to positivism and prospectively to deprocrypticism in resolving the vices-and-impediments of their respective uninstitutionalised-thresholds as recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism. But exactly for the purpose of ensuring the perpetuation of this human registry-worldview's/dimension's institutionalisation capacity (as in enabling futural Being-

development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism) as the very essence of human virtue itself, it is equally important to understand how institutionalisation comes to be limited at successive registry-worldviews/dimensions institutional-cumulation/institutional-recomposure (as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor) to grasp how we can then supersede/transcend prospectively. 'Human temporal uninstitutionalised-threshold mental-disposition' refers to our fixation to the mere-categorical-imperatives/axioms/registry-teleology of the registry-worldview/dimension institutionalisation reference-of-thought but failing/not-upholding-<as-of-apriorising/axiomatising/referencing> prospective intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-deepening-⟨~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ by a re-equilibrating metaphysics-of-absence/postdication as construed from the prospective registry-worldview/dimension institutionalisation reference-of-thought, and as revealed by this prospective institutionalisation existential-contextualising-contiguity-in-reification's-elucidation-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context. Fully understanding psychopathy which is the postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation of the positivism–procrypticism registry-worldview/dimension institutionalisation–uninstitutionalisation reference-of-thought is inevitably tied to understanding our procrypticism as our 'human temporal uninstitutionalised-threshold mental-disposition' from futural Being-development/ontological-framework-expansion–as-

to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism registry-worldview institutionalisation reference-of-thought, as of ontological-normalcy/postconvergence wherein our procrypticism 'human temporal uninstitutionalised-threshold mental-disposition' is decentered and preconverging-or-dementing–apriorising-psychologism as dialectically-out-of-phase, just as understanding the postlogism of the universalisation–non-positivism/medievalism registry-worldview's/dimension's reference-of-thought like notions of and accusations of sorcery, is inevitably tied to understanding non-positivism/medievalism as the 'human temporal uninstitutionalised-threshold mental-disposition' so-construed from prospective positivism registry-worldview/dimension institutionalisation reference-of-thought as of ontological-normalcy/postconvergence 'wherein the non-positivism/medieval mental-disposition is decentered and preconverging-or-dementing–apriorising-psychologism as dialectically-out-of-phase; and in both instances, construed as of their relative-ontological-incompleteness-of-reference-of-thought-induced-virtuality-or-ontologically-flawed-construal-or-caricaturing-hollow-staging-and-performance (as-of-their-respective-prospective-registry-worldview/dimension existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context; since the prospective institutionalisation existential-contextualising-contiguity-in-reification's-elucidation-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context speaks of a deeper limited-mentation-capacity-⟨as of relative conflation⟩ of a deeper and more correct grasp/apriorising-and-understanding of ontology/ontological-veridicality/intrinsic-reality). Effectively, 'human temporal uninstitutionalised-threshold mental-disposition' is what is reflected at uninstitutionalised-threshold as registry-worldviews/dimensions threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—

preconverging/dementing–apriorising-psychologism as of perversion-and-derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism, and prospectively (as applicable with the construal of psychopathy and social psychopathy postlogism) procrypticism; wherein the habitual intradimensional placeholder-setup/mentation/mental-devising-representation/consciousness-awareness-teleology 'nondescript/ignorable void (actually speaking of akrasiatic-drag-denatured-and-preconverging-or-dementing-narratives) scheduling or a-registry-worldview's-or-dimension's-ignoring-of-its-prior-relative-ontological-incompleteness-of-reference-of-thought-as-an-ontologically-flawed-neuterisation-or-bracketing-or-epoché of <~~amplituding~~/formative>epistemic-totalising~conflated-meaningfulness-and-teleology-as-of-notional~deprocrypticism-reflected-historiality/ontological-eventfulness/ontological-aesthetic-tracing as of the prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument', at uninstitutionalised-threshold (reflecting uninstitutionalised-threshold), is now substituted (from ontological-normalcy/postconvergence epistemic/notional~projective-perspective of the prospective registry-worldview/dimension institutionalisation reference-of-thought) by its 'decentering and dialectical-dementation of its reference-of-thought'; which we can effectively acquiesce to as of the uninstitutionalised-thresholds but will rather have a mental complex when this is implied prospectively to imply our uninstitutionalised-threshold as procrypticism, just as all registry-worldviews/dimensions had hitherto displayed a mental complex when their construal as uninstitutionalised-threshold is implied. Thus this implied human 'postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics' as driven by ontological-normalcy/postconvergence will explain the specific natures of registry-

worldviews/dimensions references-of-thought (as 'underlying scheduling of soundness-or-authenticity-of-reference-of-thought') behind the successive registry-worldviews/dimensions institutional-cumulation/institutional-recomposure peculiar psychologisms/psychologism-constructs of meaningfulness in explaining the empirical-realities of the various anthropological societies mindsets/reference-of-thought/consciousness-awareness-teleology; whether as recurrent-utter-uninstitutionalisation psychologism, base-instutitonalisation–ununiversalisation psychologism, universalisation–non-positivism/medievalism psychologism, positivism–procrypticism psychologism, and prospectively deprocrypticism psychologism equally qualified as suprastructuralism. Hence, our present positivism mental-disposition is just one of human historical psychologisms/psychologism-constructs, and it is not absolute as to imply there aren't or weren't other human psychologisms/psychologism-constructs, wherein in their own realisation, perception and thought they are 'not decentered' and 'not preconverging-or-dementing–apriorising-psychologism' as of their relative-ontological-incompleteness-of-reference-of-thought-induced-virtuality-or-ontologically-flawed-construal-or-caricaturing-hollow-staging-and-performance rather so construed from a higher psychologism's articulation of existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as ontologically-veridical. Thus, deprocrypticism as decentering and preconverging-or-dementing–apriorising-psychologism the positivism–procrypticism registry-worldview reference-of-thought will certainly imply an altogether different psychologism of meaningfulness-and-teleology as suprastructuralism. It should be noted that the implied meaning of psychologism here has to fundamentally do with a psychology arising out of ontological development in the construal of intrinsic-reality/ontological-veridicality establishing a mindset/reference-of-thought of meaningfulness-and-teleology with its psychologism/psychologism-construct, and so it is

ontologically-driven. As further ontological development in the construal of intrinsic-reality/ontological-veridicality arises (as of human limited-mentation-capacity-deepening-⟨~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩) a renewing of mindset/reference-of-thought of meaningfulness-and-teleology with its corresponding psychologism/psychologism-construct occurs, with this ontological-contiguity—of-the-human-institutionalisation-process leading to the successive registry-worldviews/dimensions reference-of-thought psychologisms/psychologism-constructs, and implied prospectively as well with the deprocrypticism worldview/dimension reference-of-thought psychologism/psychologism-construct. Critically, a psychologism/psychologism-construct takes an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument form that construes meaningfulness from the prior (and even lower) registry-worldview's/dimension's reference-of-thought psychologism up to its own registry-worldview's/dimension's reference-of-thought psychologism as of its more profound existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context in reflecting/perspectivating their relative-ontological-incompleteness-of-reference-of-thought-induced-virtuality-or-ontologically-flawed-construal-or-caricaturing-hollow-staging-and-performance. Hence this articulation of successive registry-worldviews/dimensions reference-of-thought psychologisms up to the deprocrypticism, is an initiation into deprocrypticism psychologism as of its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of its more profound existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context in reflecting/perspectivating the relative-ontological-incompleteness-of-reference-of-thought-

induced-virtuality-or-ontologically-flawed-construal-or-caricaturing-hollow-staging-and-performance of positivism–procrypticism and all the lower registry-worldviews/dimensions. Basically, this idea of 'human temporal uninstitutionalised-threshold mental-disposition' as metaphysics-of-absence points out that ontological analysis should rather be from the prospectively implied 'human registry-worldview's/dimension's institutionalisation mental-disposition', and in this instance implying an ontological analysis of psychopathy and social psychopathy from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism registry-worldview reference-of-thought and not the present positivism–procrypticism, just as analysing notions-and-accusations-of-sorcery should rather be from the prospective positivism registry-worldview reference-of-thought and not its present universalisation–non-positivism/medievalism registry-worldview reference-of-thought; as of the fact of fundamental registry-worldview/dimension 'prospective registry-worldview's/dimension's-uninstitutionalised-threshold–defect-<as-Being-or-ontological-or-existential–defect>, so construed in order to supersedes its structural/paradigmatic vices-and-impediments. Paradigmatically, this idea extends to all issues implying metaphysics-of-absence 'human temporal uninstitutionalised-threshold mental-disposition'. This brings home the underlying notion of rational-realism as construed herein, as rational-realism attends to the   idea   of   human   limited-mentation-capacity-deepening-⟨<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ as enabling its more profound grasp of intrinsic-reality/ontological-veridicality by way of a concurrently more and more 'rational realistic' construal of intrinsic-reality/ontological-veridicality as of a natural human psychological growth disposition ('postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics'). Wherein, going by

its first impulse with respect to its 'construal/conceptualisation activity as of its coming into existence in the world', human natural mental-reflex starts out with a simplistic idealism to account at one fell swoop for the comprehensiveness/complexity of intrinsic-reality/ontological-veridicality it faces and has to contend with while construing/conceptualising fundamental meaningfulness-and-teleology. This then gives rise to such a simplistic idealism of the natural idea of Gods or God or Spirits, as taking away the chore of understanding and purpose, and giving a sense of intuitive guidance, hope, peace of mind and as to what humans should expect in their existence. But as of the intrinsic-reality constraints of having to deal with matters of the world on its own by developing notions of understanding and purposefulness as the mere imagination of God or Gods or Spirits by itself doesn't give agency (or at the least 'perceived' sufficient agency) in resolving human issues of the world and making its need for understanding and purposefulness go away. This induces a bifurcation of human intellectual-and-moral allegiance to the supernatural and the real in adjunction, as of their 'perceived' effectiveness. With a commitment to the idealism of the supernatural not only as of its 'perceived' virtuous import, but as of 'perceived' nefarious effects to human nolition to it, man hangs on to both an effective realistic as well as idealistic conceptualisation/construal in existence. Such a growth psychology ultimately goes beyond construing idealism as the supernatural but as a complement to more and more profound realistic understanding and purposefulness in existence, but then having to readjust such idealism wherein the real as of its critical import to critical existence issues increasingly comes to take presence as of its effectiveness. Such that as construed today, human history overall has been an exercise in toning down the grander notion of idealism as of notions of the supernatural, essences and metaphysical ideals, and enabling increasing permeation and/or superseding of such notions with an effectiveness-driven realism leading to a general and increasing elevation of knowledge as the-human-and-social-emancipator, the present

ascendency of philosophies increasingly concerned with the human realities of existence (strongly so, lately with such movements as positivism, phenomenology, existentialism and post-structuralism) and science in all its facets whether physical, biological or social, as well as a human-centeredness of arts and culture. Rational-realism is grounded on this historic empirical state of affairs of increasing human realism in taking hold of its destiny on 'the premise of a deference to intrinsic-reality as of its effective inherence validated by ontological-primemovers-totalitative-framework' that has accompanied human limited-mentation-capacity-deepening-⟨<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ in construing/conceptualising meaningfulness-and-teleology. Rational-realism thus finds in the grander notion of idealism, an avowal of human limited-mentation-capacity-deepening-⟨<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ that actually is behind all threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism of successive registry-worldviews/dimensions; with the idea that there is no place to hide behind idealisms and that human emancipation and virtue has been and is fundamentally about buckling down and undertaking the requisite effort in 'understanding for real' and not differing to 'thin air' in the name of idealism. Rational-realism pushes the grander notion of realism further by asking the question, have all the idealisms as of the grander idealism been identified and superseded? It comes to the conclusion that while that has been decisively the case with supernaturalism, belief in essences and metaphysical idealism, as of structural/paradigmatic social implications, one other sort of idealism remains to be recognise as 'false realism'; the idealism that doesn't grasp what man itself is, rather as overly indulgent in not recognising how a thorough understanding of itself in enabling pivoting/decentering is effectively the

strongest asset for its full emancipation. Central to such a most basic realism is grounding human knowledge of itself and thereof all knowledge on the 'mediocrity principle' as to enable the full construal of both metaphysics-of-presence and metaphysics-of-absence ontologies as enabling a further human emancipation registry-worldview's/dimension's reference-of-thought psychologism, deprocrypticism psychologism. This is the insight behind the articulation of the social construed in threshold terms of social-functioning-and-accordance—as-of-social-stake-contention-or-confliction rather as socially-functional-and-accordant. This insight further divulges the reality across all registry-worldviews/dimensions of 'human registry-worldview's/dimension's institutionalisation mental-disposition' and 'human temporal uninstitutionalised-threshold mental-disposition', as powerful conceptualisations for framing issues in their appropriate psychologism however unpalatable/inconveniencing, as history has always shown that unpalatability, inconvenience and contrariety have always been the test that all humans have had to undergo to effectively achieve their respective prospective registry-worldview/dimension transcendence, and the more complete conceptualisation of knowledge goes beyond its technicalities and plainness to imply its underlying sense of dedication as the very intemporal-solipsism as to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality disposition behind its creation, cultivation and projection. And as with all previous realism drives, the idea of rational-realism is not as an articulation within the finite scope of the present meaningfulness-and-teleology frame of thought and social-stake-contention-or-confliction but rather carries a prospective scope, just as the vocation of the realism of a positivistic mindset/reference-of-thought in a non-positivistic social-setup should not be about elaborating meaning as of positivistic meaningfulness-and-teleology to engage the non-positivistic social-setup in terms–as-of-axiomatic-construct of its non-positivistic sense of social-stake-contention-or-

confliction of human relations as that will certainly just induce an 'idle circularity and contrariety' within the non-positivistic social-setup. But rather the point is all about recognising 'human prospective institutionalisation capacity as the very essence of human virtue' available to all humans past and present, that enabled this animal among all creatures to be engaged in a grander collective exercise of 'existential-tautological eudaemonic-contemplation' (as of human 'subpotent-mimetic-echoness-derivation-within-the-full-potency of existence-as-of-its-mimetic-echoness'), to imply that there is a prospective virtuous possibility of human registry-worldview's/dimension's institutionalisation that can be grasped, and so expressed in terms–as-of-axiomatic-construct of the notion of social-stake-contention-or-confliction of that prospective institutionalisation psychologism, just as the vocation of the positivistic mindset/reference-of-thought is all about eliciting the notion of social-stake-contention-or-confliction in terms–as-of-axiomatic-construct of positivistic psychologism to imply that the non-positivistic community has the capacity and should come to terms with its human emancipatory institutionalisation potential. Insightfully, the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument comparison can be used to reveal the 'perpetually stable temporal-to-intemporal nature of human mental-disposition as of institutionalisation or uninstitutionalised-threshold', across all registry-worldviews/dimensions references-of-thought but for the fact that they have different reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation building up from the prior ones as of their respective elucidation-of-existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context (recurrent-utter-uninstitutionalisation non-rules—apriorising/axiomatising/referencing–psychologism,-as-impulsive-or-accidented-or-random-mental-disposition   as   failing/not-upholding-<as-of-

calculations to be done, it is fair to say 'human registry-worldview's/dimension's institutionalisation mental-disposition' in this reference-of-thought is of quasi-intemporal-disposition (and the whole point of human knowledge aspiration and virtue is to achieve this state or deferential-states-of-this-state as with formalisations and percolation-channelling). Thus calculations (logically-derived meaningfulness) in such an institutionalised framework are effectively in ontological-good-faith/authenticity but for failure in performance as defect–of-logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview's/dimension's–reference-of-thought-for-social-functioning-and-accordance. But then human existential-reality comes with human limited-mentation-capacity-deepening-⟨<s>amplituding</s>/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ with limited grasp of intrinsic-reality at various stages of human emancipation up to the present day, such that social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<s>amplituding</s>/formative>epistemic-totalising–in-relative-ontological-completeness⟩ required for 'human registry-worldview's/dimension's institutionalisation mental-disposition' has been made transcendentally available only in partial construals/conceptualisations that are as-of existential-reality, and where non-available at uninstitutionalised-threshold, it is naïve to construe human mental-disposition as of quasi-intemporal-disposition; as the anthropological and historical evidence consistently points to a different structure with regards to the 'human temporal uninstitutionalised-threshold mental-disposition' as of existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context elucidated ontological-normalcy/postconvergence. It points to a fundamental structural disposition for human temporalities-drives to adhere to the <s>amplituding</s>/formative>wooden-language-⟨imbued—temporal–mere-form/virtualities/dereification/akrasiatic-

Such notions as the following that can be at the very centre of ways of thought in various social-setups or subcultures are not fortuitous but speaks of the reality (as metaphysics-of-absence) of the notion of 'human temporal uninstitutionalised-threshold mental-disposition' that structurally/paradigmatically 'notionally acquiesce to the possibility of a registry-worldview's/dimension's temporality/shortness and is non-transcendental to that possibility':

she deserves to be rape because she was scantily clad as well dressed women will not be raped; his goods deserve to be stolen as he didn't look after them properly; those people/group/ethnicity deserved what happened to them because they are so and so; etc.

[We can note here that such statements as of a variance of more banal to weightier nature can be made as being socially-functional-and-accordant (without or hardly any negative consequences at the acceptable socially-functional-and-accordant-threshold like being repudiated or incriminated, etc.), construed as 'least-and-derived-temporal-operating-modalities-of-the-reference-of-thought-as-of-incrementalism-in-relative-ontological-incompleteness-inducing-the-uninstitutionalised-threshold' in the same social space that statements of 'maximal-as-intemporal-operating-modality-of-reference-of-thought-as-of-

maximalising-recomposuring-for-relative-ontological-completeness-as-inducing-the-prospective-institutionalisation' are made but with both construed in the conventioning of social-functioning-and-accordance—as-of-social-stake-contention-or-confliction as effectively 'non-dissociable', thus validating the notion that institutionalisation is not about solipsistic transformation into the intemporality-drive (longness-of-register-of-meaningfulness-and-teleology disposition) but rather about acceptable thresholds for the registry-worldview/dimension institutionalisation defined social-functioning-and-accordance—as-of-social-stake-contention-or-confliction, explaining why uninstitutionalised-thresholds are bound to arise successively in the ontological-contiguity—of-the-human-institutionalisation-process (out-of-human temporality) together with corresponding prospective institutionalisations (out of-human intemporality) with the latter enabling <~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought of defined social-functioning-and-accordance—as-of-social-stake-contention-or-confliction as of the notional-contiguity/epistemic-contiguity-<mentally-aestheticised~postconverging/dialectical-thinking–qualia-schema> in reflecting the ontological-contiguity—of-the-human-institutionalisation-process. This equally explain why and in particular in certain domains like the philosophical construed as 'notional philosophical' (by its very 'first-ontology responsibilities'), the social-construct conventioning cannot and should not be considered and related to as an absolute determinant of meaningfulness, value and worth as it is more of a conventioning however ontologically-informed the conventioning, and 'the need for the social-construct further development requires that it can utterly be put into question by pure-ontology conflatedness with no conventioning complexes'! (As a reminder, the notion of intemporality/temporality is an ontological-as-of-being construct and the apparent references to virtue imply the subsumed construal of virtue by the ontological-as-of-being construct, such that it is important to grasp

that all notions articulated herein are ontological, just as the notions of the being domains-of-study of the natural world are ontological, and the high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising~self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction nature of the being domains-of-study of the social world should not naively imply a construct that isn't ontological or otherwise, as in both instances the aspiration is for 'intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating as an otherness from any emotional-involvement/subjectification/notional <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag predilection of the inquirer'. This elucidation is equally to highlight that the idea of socially-functional-and-accordant 'modular-thresholds'-of-temporal-to-intemporal-dispositions-dissociability is beyond just a construal as of virtue analysis but rather an ontological analysis, as it applies in all social conceptualisations of performance and functionality whether virtuous or virtuously-neutral but necessarily as of the social being/existence domains-of-study.) The conventioning of social-functioning-and-accordance—as-of-social-stake-contention-or-confliction effectively 'non-dissociable' modular construal of temporal-dispositions and intemporal-disposition rather as of socially-functional-and-accordant thresholds, has deterministic implications with regards to 'interdimensional/transdimensional/transcendental registry-worldview/dimension-level of analysis' as well as 'temporal-to-intemporal-dispositions individuation-level of analysis'; for construing the implications of such 'modular-thresholds'-of-temporal-to-intemporal-dispositions-dissociability social-functioning-and-accordance—as-of-social-stake-contention-or-confliction effectiveness-or-ineffectiveness and ontological-resolution as of 'contingent ontologising-capacity driven apriorising/axiomatising/referencing–psychologism by way of the grander ontological-normalcy/postconvergence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument' in resolving

This construal effectively enabling delineation of underlying ontological-primemovers-totalitative-framework of mental-dispositions.   threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism across all registry-worldviews/dimensions refers to the constituent temporal individuations mental-dispositions at a registry-worldview/dimension uninstitutionalised-threshold and points to their threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism as of its uninstitutionalised-threshold pointing to an inclination for untranscendability and undementability as of mechanical-knowledge (beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>) but for the constraint of prospective social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩, and so in contrast to the same registry-worldview/dimension   reference-of-thought–prelogism-as-of-conviction-as-to-profound-supererogation mental-disposition that reflects its ontologically-veridical meaningfulness-and-teleology as its institutionalisation which rather points to an inclination for transcendability and dementability as of organic-knowledge once it does conceptualise the veridicality of the uninstitutionalised-threshold as ontologically-flawed. Such construal of temporal individuations threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism at uninstitutionalised-threshold is critical because then and in effect, the mental-reflex to ontologically validate these as of reference-of-thought–prelogism-as-of-conviction-as-to-profound-supererogation mental-disposition so-construed as of sound/existential-contextualising-contiguity logical-dueness is ontologically put into question given the perversion-and-derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-

as-to-shallow-supererogation>. Such that ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating is projectable about the uninstitutionalised-threshold, and not as it is circularly construed within the uninstitutionalised-threshold frame as a construal of logical pertinence (logical-processing-or-logical-implicitation—supposedly-aprioris ing-in-conviction-as-to-profound-supererogation), but rather involving priorly the determination of temporal individuations threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism as these fail to reflect soundness-or-authenticity-of-reference-of-thought, that is, establishing whether or not there is perversion-and-derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> in the first place before any implication of logical-dueness/logical-pertinence arises. Consider as of metaphysics-of-absence or ontological-normalcy/postconvergence analysis the case of notions-and-accusations-of-sorcery in a non-positivistic social-setup uninstitutionalised-threshold which is rather in want of positivistic meaningfulness-and-teleology. Effectively establishing deconstructive ontological-veridicality implies recognising the overall registry-worldview's/dimension's relative-ontological-incompleteness-of-reference-of-thought as superstitious/non-positivistic inclined, its postlogism and conjugated-postlogism as acknowledging and contending about notions-and-accusations-of-sorcery (beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>) thus leading to perversion-and-derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>, with this succinctly reflecting the reality of temporal-dispositions as to threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism as of such non-positivism reference-of-

thought uninstitutionalised-threshold. Such that it is not a logical exercise (logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation) that is in order which will rather be circular as fundamentally operating on false non-positivism registry-worldview's/dimension's institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology of superstition but rather one of determination of temporal individuations threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism as this reflects postlogism denaturing and conjugated-postlogism derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as deconstruction of ontological-veridicality in implying and projecting about the prospective institutionalisation as of positivism meaningfulness-and-teleology reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (rather than a naïve operation of logic as is further highlighted below). The fact is with or without postlogism and derived conjugated-postlogism, human reference-of-thought–prelogism-as-of-conviction-as-to-profound-supererogation tends to be relative. That is, even within a registry-worldview's/dimension's institutionalisation basis we don't necessarily function socially absolutely on the basis of veridical sound logic as we are limited by capacity (beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>) given our relative-ontological-incompleteness-of-reference-of-thought and secondly by arbitrariness in the choices we make, and this get even worst at the uninstitutionalised-threshold. Consider in this regard even the case of Heidegger as one of the greatest thinker of the last century in his 'perplexed cooperation' with the Nazi regime. The closest we come to absolute reference-of-thought–prelogism-as-of-conviction-as-to-profound-supererogation has to do with the

abstract and uncompromising determination of mathematical meaningfulness, and receding more and more as we get towards domains of increasing 'emotional involvement' (the social) as ontological-veridicality increasingly takes a backseat to extricatory/temporal paradigms and further so with respect to increasing informality as in the extended-informality-⟨susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology⟩ of all human institutions, and particularly where social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩ is blurred and not forthcoming as logic tends out to be an issue of making-a-mistake-at-one-moment-expressing-the-most-profound-conviction-as-to-profound-supererogation-at-the-other-moment in a circular reference-of-thought. This tendency is further exacerbated with the dynamic conjugation of temporal-dispositions (ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) to postlogism-slantedness. This reality of our reference-of-thought–prelogism-as-of-conviction-as-to-profound-supererogation as being in effect subpar rather than absolute and specifically more compromised at uninstitutionalised-threshold and as associated with postlogism as conjugated-postlogism is what qualifies contextually as temporal individuations threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism as a temporal mental-disposition defect contrasted to a wrongfully implied supposedly reference-of-thought–prelogism-as-of-conviction-as-to-profound-supererogation as of ontologically-sound mental-disposition. This manifestation as a social dynamic (dynamic-cumulative-aftereffect) of such contrastive threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism and reference-of-thought–prelogism-as-

of-conviction-as-to-profound-supererogation takes the form of temporal-to-intemporal social interlocutors beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> de-convergence as of transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing. Such a distinction particular at the uninstitutionalised-threshold is required because it then implies ontologically the relegation of logical engagement as rather irrelevant and in lieu determines ontological-veridicality by the soundness-of-the-reference-of-thought as of reference-of-thought–categorical-imperatives/axioms/registry-teleology in the first place to establish or not perversion-and-derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>. This delineation is in line with the idea of human temporal (shortness-of-register-of-meaningfulness-and-teleology) to intemporal (longness-of-register-of-meaningfulness-and-teleology) individuations nature as implicitly recognised in the structuring of formal constructs like the law, formal institutions, etc. It equally falls in line with the idea of knowledge-notionalisation on the basis that it is equally critical to understand the possibility of the ignorances just as conceptual knowledge itself to further uphold, advance and skew for the latter. The point being that meaningfulness-and-teleology construal should supersede just a naïve unilateral construing of interlocution mainly on the basis of reference-of-thought–prelogism-as-of-conviction-as-to-profound-supererogation as of reflex but equally examine 'as of circumstances pointing to uninstitutionalised-threshold' the possibility of the ontological-veridicality of interlocutors threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism mental-dispositions, and as is often associated with mental-dispositions geared towards 'flawed impression-driven, expletive-driven and non-intellectual critique' contention. supererogation—preconverging/dementing–apriorising-psychologism and reference-of-thought–prelogism-as-of-conviction-as-to-profound-supererogation critically explains how the successive registry-worldviews/dimensions psychoanalytically-unshackled/memetically-reordered/institutionally-recomposured going by the fact that projective-insights about prior registry-worldview/dimension threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism as of prior relative-ontological-incompleteness-of-reference-of-thought is what needs to be superseded for prospective registry-worldview/dimension institutionalisation prospective relative-ontological-completeness-of-reference-of-thought effective reference-of-thought–prelogism-as-of-conviction-as-to-profound-supererogation (as operant construal) by social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-

<~~amplituding~~/formative⟩epistemic-totalising–in-relative-ontological-completeness⟩

rendering the prior registry-worldview/dimension threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—

preconverging/dementing–apriorising-psychologism (as operant construal) untenable. This brings to the fore the idea that the salient point about human mental-disposition whether construed as of institutionalisation basis or at its uninstitutionalised-threshold has to do with the possibility of attaining or not attaining social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative⟩epistemic-totalising–in-relative-ontological-completeness⟩. Where this is effectively attained, it becomes psychically and institutionally untenable for interlocutors to act as of subpar (threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—

preconverging/dementing–apriorising-psychologism) with regards to reference-of-thought–prelogism-as-of-conviction-as-to-profound-supererogation. This will explain why the threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—

preconverging/dementing–apriorising-psychologism within a prior registry-worldview/dimension utterly disappears within the prospective registry-worldview/dimension meaningfulness-and-teleology, in the sense that notions-and-accusations-of-sorcery for instance are not entertained in a positivism social-setup as the positivism/rational-empiricism social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩ knows this to be non-veridical ontologically-speaking giving its prospective relative-ontological-completeness-of-reference-of-thought. This imbued potency in social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩ across all registry-worldviews/dimensions is what explains the possibility of social transcendence. The reason for this is that the entire construct of human social-functioning-and-accordance—as-of-social-stake-contention-or-confliction as the 'social existential contract' is implicitly built on supposed reference-of-thought–prelogism-as-of-conviction-as-to-profound-supererogation to meaningfulness-and-teleology as of both the individual's expectation and the social's expectation such that failure in this respect arises mostly surreptitiously since even the most disingenuous individuation will want the social-construct to function well in order to 'parasitise' it, as a failing social-construct as of 'universal social surreptitious parasitising/co-opting' puts even such individuation in jeopardy. We can appreciate this notion by the fact that even a miscreant will tend to advance, however dubious, a rationale that is meant to be socially functional. Basically, the postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation mindset threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—

preconverging/dementing–apriorising-psychologism arises out of its temporal individuation's surreptitiousness ('lack of constraining social universal-transparency-⟨transparency-of-

totalising-entailing,-as-to-entailing-⟨~~amplituding~~/formative⟩epistemic-totalising–in-relative-ontological-completeness⟩ such that it can induce threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism rule) as of marginal social instigation (consider the targeted nature of the adult psychopath's maturation/indirectness/spatialisation/credulity/craftiness within the scope of social functionality) while socially enabled circularly (due to the underlying prior relative-ontological-incompleteness-of-reference-of-thought as social procrypticism/disjointedness-as-of-reference-of-thought is itself an enabler for psychopathy just as a non-positivistic registry-worldview/dimension social superstition is itself an enabler for its corresponding postlogism for 'imaginary' accusations of sorcery); and so, while socially inducing temporal-dispositions conjugated-postlogisms derived threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism, and so overall, on the flawed mental-reflex that such protraction of threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism is supposedly reference-of-thought–prelogism-as-of-conviction-as-to-profound-supererogation (as to the lack of constraining social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-⟨~~amplituding~~/formative⟩epistemic-totalising–in-relative-ontological-completeness⟩). Such conditions as highlighted above (surreptitiousness, marginality and circularity) are not fulfilled at childhood psychopathy explaining why conjugated-postlogism as a social dynamism of protracted threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism doesn't socially take hold then, as such childhood postlogism perversion-of-reference-of-thought-⟨as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-

supererogation> hasn't superseded the social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩ in further inducing temporal-dispositions derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>. The further implication is that such surreptitiousness, marginality and circularity with regards to a registry-worldview's/dimension's temporal-dispositions are often construed rather as circumventive issues as of temporal extricatory paradigm, and not by ontological-veridicality insight as of structural/paradigmatic ~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity with respect to vices-and-impediments. Thus ensuring ontological-veridical social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩ is structurally/paradigmatically inherently 'advantaged ultimately' by the social-construct functioning. (But then this can rather be achieved in the medium to long term as of a cross-generational transcendence import and hardly so in the short-run, given that in the short-run the issue of the registry-worldview/dimension relative-ontological-incompleteness-of-reference-of-thought is a drawback in this respect. As the framework of generalised social referencing of meaningfulness-and-teleology is a circular-pervasiveness closed-structure as of the habituated predicative-insights for meaningfulness-and-teleology based on the relative-ontological-incompleteness-of-reference-of-thought of the registry-worldview/dimension as prior (despite the relative-ontological-incompleteness-of-reference-of-thought induced distractive-alignment-to-reference-of-thought and override any such sense of relative pure-ontology conflatedness as of prospective relative-ontological-completeness-of-reference-of-thought conflatedness). So the transcendental meaningfulness-and-teleology implied as of projective-insights about the prospective registry-worldview/dimension

predicative-insights of meaningfulness-and-teleology going by its prospective relative-ontological-completeness-of-reference-of-thought doesn't supersede the prior's 'circular-pervasiveness closed-structure of habituated predicative-insights for meaningfulness-and-teleology' in the short run. Chinua Achebe's Things Fall Apart Okonkwo returning from his long banishment construes meaningfulness-and-teleology in terms of the old/prior whereas his Umuofia village which had the same inclination as his as of prior relative-ontological-incompleteness-of-reference-of-thought before he was banished and likewise at the very beginning of the foreigners cultural diffusion inducing a subsequent prospective relative-ontological-completeness-of-reference-of-thought had moved on to the new/prospective meaningfulness-and-teleology which is now antipodal to his, hence his confliction with his circular-pervasiveness ⟨amplituding/formative⟩wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ which is equally a reflection of the confliction the village had had with the same prior circular-pervasiveness ⟨amplituding/formative⟩wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ when the foreign cultural diffusion arrived before superseding it cross-generationally. We can equally construe of the inverse situation as in H.G. Well's The Country of the Blind which also highlights the implications of relative contrast of ontological-completeness-by-incompleteness-of-reference-of-thought with regards to meaningfulness-and-teleology construal where Nunez's 'seeing of the environment' reference-of-thought as of it prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought doesn't make an impression but is actually frowned upon on the habituated 'feeling of the environment' reference-of-thought as of its prior relative-ontological-incompleteness.

This is because the personhood and socialhood formation have been constructed in circular-pervasiveness out of the prior reference-of-thought as 'feeling of the environment' explaining why a registry-worldview is a <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ that hardly entertains its own transcendability/dementability, and why transcendence is rather cross-generational for the requisite personhood and socialhood psychoanalytic-unshackling exercise to be initiated. Consider that the 'existential value references as what is worth living for' for both Okonkwo and 'feeling of the environment' reference-of-thought are temporally construed as definite-and-set as of their given perspectives or apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights in the circularly-pervasive closed-structure of their reference-of-thought' despite their respective inherent prior relative-ontological-incompleteness-of-reference-of-thought without room for countenancing new perspective-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-new-predicative-insights overcoming their circularly-pervasive closed-structure of reference-of-thought, speaking of their distractive-alignment-to-reference-of-thought from an ontological-normalcy/postconvergence epistemic/notional~projective-perspective as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality.   Interestingly, facing their respective conundrum to take a drastic and immediate decision as of their 'existential value references as what is worth living for', and without the prospect for cross-generational adjustment, their decisions are equally dramatic in terms of considering physically doing away with Nunez's notion of 'seeing of the world' reference-of-thought, and Okonkwo's tragic acts upon the foreigners messenger and subsequently upon himself. This

reflects the mental-disposition of all registry-worldviews uninstitutionalised-thresholds, including our own as positivism–procrypticism as of its disjointedness-as-of-reference-of-thought with regards to their 'existential value references as what is worth living for' rather temporally construed as definite-and-set as of distractive-alignment-to-reference-of-thought notwithstanding any notion of relative prospective ontological-completeness-of-reference-of-thought. Furthermore, it should be noted that the relative validity of a prospective <~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving-as-of-instantiative-context—meaningfulness-and-teleology apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights 'is not at all about the demonstrable instantiative logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation validity' but rather such a demonstration is more structurally/paradigmatically, together with all other such demonstrations of the prospective <~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving-as-of-instantiative-context—meaningfulness-and-teleology apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights, 'a contributory invalidation of the prior <~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving-as-of-instantiative-context—meaningfulness-and-teleology apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights in its circular-pervasiveness' at its uninstitutionalised-threshold as of its ontologising-deficiency/relative-ontological-incompleteness-of-reference-of-thought; thus qualified as transcendence/suprastructuration. Just as the exercise of demonstrative convincing on the basis of a scientific principle within a non-positivistic social context 'is not at all about the demonstrable instantiative logical-processing-or-logical-

implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation validity'

We know that having never experienced 'hill-level-height

perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights' (base-institutionalisation–ununiversalisation) the 'sea-level-height perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights' (recurrent-utter-uninstitutionalisation) will hardly countenance operating the perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights of the former as more ontologically profound, given its 'circular-pervasiveness closed-structure of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements for earth landscape aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-measurements' on the basis of its 'sea-level-height perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights'; and this same mental-reflex applies successively to relatively 'lower-

level-heights

perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights' (prior registry-worldviews/dimensions) with respect to relatively 'higher-level-heights

perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights' (prospective registry-worldviews/dimensions). The fundamental difficulty is that 'no given perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights' (registry-worldview/dimension) recognises that there is any above it, and by reflex circularly undertakes predicative-insights from its perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (and it is only the long run cross-generational habituation construed as of ontological-dementation/dialectical-dementation–stranding/attributive-dialectics with the prior ontologically construed as decentered and preconverging-or-dementing–apriorising-psychologism as of distractive-alignment-to-reference-of-thought, with the implication that its logical-dueness doesn't exist just as the logical-dueness of the animist reference-of-thought with their God of plane proposition doesn't ontologically exist.) We can grasp as well that it is the 'space-satellite-level-height perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights' (as deprocrypticism) that ultimately provides the ideal 'ascertaining-perspectives for gauging the overall earth landscape'. Besides, why the explication herein is necessarily implying a prospective reference-of-thought (as the author in here with a supposed deprocrypticism reference-of-thought construal as implying a prospective relative-ontological-completeness-of-reference-of-thought over our positivism–procrypticism), the fact is that any transcendental analysis is caught in two worlds as two different reference-of-

thought in striving to explicate the ontological pre-eminence of the prospective reference-of-thought as of ontological-normalcy/'postconvergence, thus facing the dilemma that by mental-reflex we are not 'habituated' to the notion of our reference-of-thought being construed as 'preconverging-or-dementing–apriorising-psychologism and not thinking', and so whether speaking of being construed within our positivism–procrypticism uninstitutionalisation as preconverging-or-dementing–apriorising-psychologism and not thinking, within non-positivism/medievalism uninstitutionalisation as preconverging-or-dementing–apriorising-psychologism and not thinking, within ununiversalisation uninstitutionalisation as preconverging-or-dementing–apriorising-psychologism and not thinking, and recurrent-utter-uninstitutionalisation uninstitutionalisation as preconverging-or-dementing–apriorising-psychologism and not thinking. We can grasp this by imagining how a non-positivism uninstitutionalised-threshold will react when construed as preconverging-or-dementing–apriorising-psychologism and not thinking with say notions-and-accusations-of-sorcery it considers given as a matter of fact, and imagine of such a reaction with a preconverging-or-dementing–apriorising-psychologism and not thinking representation of ourselves construed from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism or preempting—disjointedness-as-of-reference-of-thought perspective as in disjointedness-as-of-reference-of-thought and rather in distractive-alignment-to-reference-of-thought ! Thus the reality of this analysis in that sense is 'sparing as of our high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising~self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction nature' for the sake of deconstructive-engagement/engaged-destruktion because an analysis construed as of reference-of-thought is all about mental-soundness or unsoundness representation (with no logical engagement

implication) hence rather of a psychoanalytic-unshackling purpose; as a change of reference-of-thought implies a change of perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-of-meaningfulness-and-teleology as a shift of the curve-of-prospective-relative-ontological-completeness-of-reference-of-thought/axiomatic-construct and not a change in logic as a change along the same reference-of-thought/curve-of-prior-relative-ontological-incompleteness-of-reference-of-thought/logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation. In other words, a truly direct deprocrypticism ontological analysis will be a 'mental break-in'/preconverging-or-dementing–apriorising-psychologism of our positivism–procrypticism as we by reflex 'mentally break-in'/dement a non-positivistic reference-of-thought (as we don't engage it on the basis of the non-positivistic reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-

aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology just as a deprocrypticism analysis will not engage us on the basis of our procrypticism/disjointedness-as-of-reference-of-thought reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-

aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology, and so in both cases as of the relative ontologising-deficiency/relative-ontological-incompleteness-of-reference-of-thought of non-positivism and procrypticism/disjointedness-as-of-reference-of-thought). But then wholly carried out in both instances it will be off-putting to both prior reference-of-thought, explaining why a transcendental analysis is a deconstructive-engagement/engaged-destruktion recognising and harnessing the human potential to psychoanalytically-unshackle. This is more than just an abstract conceptualisation but an empirical reality of how cultural diffusion possibility as of 'relative-ontological-

completeness-of-reference-of-thought over prior relative-ontological-incompleteness-of-reference-of-thought' took place historically (and so for instance, as of the relative 'ontological-veridicality tolerance as stretched-truth' allowed to the animist to say 'God of plane' in the view that in due course there will be psychoanalytic-unshackling towards positivistic meaningfulness-and-teleology; considering as well as of registry-worldview level of analysis that such a conceptualisation of 'ontological-veridicality tolerance as stretched-truth' is cross-generationally associated with the meeting of cultures wherein their meeting points often as of cultural and commercial relationships initiate 'acculturating-indigenising-pidginising transitioning settings and their social constructions as of <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising' prior to eventual prospective relative-ontological-completeness-of-reference-of-thought accommodation). Likewise, this 'ontological-veridicality tolerance as stretched-truth' as of a deprocrypticism construal herein may elicit a misconstrual from a positivistic perspective failing to factor in the circular-pervasiveness implied in the notion of positivism–procrypticism uninstitutionalisation as procrypticism/disjointedness-as-of-reference-of-thought reference-of-thought–categorical-imperatives/axioms/registry-teleology failing/not-upholding intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and thus failing to grasp the deprocrypticism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights that construes our positivism–procrypticism as preconverging-or-dementing–apriorising-psychologism/not-thinking and decentered, and wrongfully trying to engage meaningfulness-and-teleology in positivism–procrypticism terms–as-of-axiomatic-construct failing to factor in the circular-pervasiveness of the disjointedness-as-of-reference-of-thought. (More like a non-positivistic mindset/reference-of-thought insisting to contendingly engage a positivistic mindset/reference-of-thought but

failing to grasp the implications as of circular-pervasiveness of being of non-positivistic of reference-of-thought as of its prior relative-ontological-incompleteness-of-reference-of-thought. Such insight point out that the 'mental tools' available to a mental state of recurrent-utter-uninstitutionalisation are not logically-intelligible-but-rather-are-distractively-preconverging-or-dementing–apriorising-psychologism with respect to an implied prospective state of base-institutionalisation, the 'mental tools' available to a mental state of base-institutionalisation–ununiversalisation are not logically-intelligible-but-rather-are-distractively-preconverging-or-dementing–apriorising-psychologism with respect to an implied prospective mental state of universalisation, the 'mental tools' available to a state of universalisation–non-positivism/medievalism are not logically-intelligible-but-rather-are-distractively-preconverging-or-dementing–apriorising-psychologism with respect to an implied prospective mental state of positivism, and prospectively the 'mental tools' available to a state of positivism–procrypticism are not logically-intelligible-but-rather-are-distractively-preconverging-or-dementing–apriorising-psychologism with respect to an implied prospective mental-state of deprocrypticism. Thus unlike is the case with issues of logical-dueness/logical-pertinence as of appropriateness or inappropriateness of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation, issues of perversion-and-derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> rather render such notions as forgiveness/overlooking/resetting nothing more but vague <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag misconstruing based on 'a naïve traditional reflex' that truly has no grander virtuous implications but quite the contrary as actually endemising/enculturating vices-and-impediments as when so-construed as a <~~amplituding~~/formative>wooden-language-(imbued—temporal–mere-

on the impression-driven/good-naturedness/wishfulness basis that human mental capacity is a

In other words, what does it mean in a recurrent-utter-uninstitutionalised mental state to have a positive psychology when its fundamental structural/paradigmatic issue as failing rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism is not factored-in in its virtue-as-ontology construal/conceptualisation? And the same can be asked of us with regards to our positivism–procrypticism disjointedness-as-of-reference-of-thought. In which case such vague approaches will simply imply beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> naïve perpetuation in <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of the fundamental vices-and-impediments with both uninstitutionalised-thresholds, thus explaining the fundamental dilemma of all institutional Establishments in their <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩. Such confusion arises from a misconstruing of what is veridically implied deconstructively/ontological-reconstitutively by ontological-dementation/dialectical-dementation–stranding/attributive-dialectics, which implies that 'any registry-worldview/dimension presence placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology as of its prior relative-ontological-incompleteness-of-reference-of-thought' is 'a preconverging-or-dementing-and-decentered-prior-institutionalisation's-categorical-imperatives/axioms/registry-teleology placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology as unsoundness-or-inauthenticity-of-reference-of-thought' from the 'prospective

registry-worldview/dimension presence placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology as of its prospective relative-ontological-completeness-of-reference-of-thought' as 'a postconverging-or-dialectical-thinking-and-centered-prospective-institutionalisation's-categorical-imperatives/axioms/registry-teleology placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology as soundness-or-authenticity-of-reference-of-thought'. Certainly, we can recognise the veracity/ontological-pertinence of the above articulation with respect to retrospective registry-worldviews/dimensions placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology as of their prior relative-ontological-incompleteness-of-reference-of-thought while our positivism registry-worldview/dimension placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology is always of prospective relative-ontological-completeness-of-reference-of-thought. But when it comes to a prospective assessment wherein we are of prior relative-ontological-incompleteness-of-reference-of-thought as 'a preconverging-or-dementing-and-decentered-prior-institutionalisation's-categorical-imperatives/axioms/registry-teleology positivism–procrypticism placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology as unsoundness-or-inauthenticity-of-reference-of-thought' from the 'prospective presence placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of deprocrypticism as of its prospective relative-ontological-completeness-of-reference-of-thought' as 'a postconverging-or-dialectical-thinking-and-centered-prospective-institutionalisation's-categorical-imperatives/axioms/registry-teleology placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology as soundness-or-authenticity-of-reference-of-thought', we are rather less apt to concur going by our

<amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag reflex such that such notions as forgiveness/overlooking/resetting and notions of positive psychology are rather just a failure to structurally/paradigmatically recognise the implied perversion-and-derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as of our relative-ontological-incompleteness-of-reference-of-thought, and what we are doing then is 're-referencing from the same positivism–procrypticism relative-ontological-incompleteness-of-reference-of-thought' and thus wrongly implying our undementability hence our untranscendability for a structural/paradigmatic reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of cross-generational psychoanalytic-unshackling/memetic-reordering/institutional-recomposure', and paradoxically thus by implication that there is no relative-ontological-incompleteness-of-reference-of-thought, to then wrongly imply such articulations of forgiveness/overlooking/resetting and positive-psychology are of intemporal projection whereas these are actually of conscious or unconscious beyond-the-consciousness-awarenss-teleology temporal/shortness-of-register-of-meaningfulness-and-teleology projection. This insight explains the bizarreness we face from time to time discovering that even institutions we imagine should relatively be spared by scandals as human vices-and-impediments like many public-facing institutions, the media, faith institutions, etc. are now-and-then plague with scandals bound to re-occur because of this misunderstanding of knowledge as virtue-as-ontology/ontology articulated above as of structural/paradigmatic nature of the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construal/conceptualisation, and not naïve at best palliative construals in impression-driven/good-naturedness/wishfulness. A further reason for the difficulty has to do thus with

the fact that each registry-worldview's/dimension's reference-of-thought is inherently a metaphysics-of-presence construed as postconverging-or-dialectical-thinking-and-centered-prospective-institutionalisation's-categorical-imperatives/axioms/registry-teleology soundness-or-authenticity-of-reference-of-thought that is in a circular-evasiveness from more ontologically-veridical metaphysics-of-absence construals/conceptualisations as implied by prospective relative completeness-of-reference-of-thought which rather construes it as a preconverging-or-dementing-and-decentered-prior-institutionalisation's-categorical-imperatives/axioms/registry-teleology unsoundness-or-inauthenticity-of-reference-of-thought. The ontological implication is that beforehand/axiomatically with respect to the cross-engagement of a prior relative-ontological-incompleteness-of-reference-of-thought and a prospective relative-ontological-completeness-of-reference-of-thought, the former is priorly invalidated into a preconverging-or-dementing-and-decentered-prior-institutionalisation's-categorical-imperatives/axioms/registry-teleology unsoundness-or-inauthenticity-of-reference-of-thought by the latter as a postconverging-or-dialectical-thinking-and-centered-prospective-institutionalisation's-categorical-imperatives/axioms/registry-teleology soundness-or-authenticity-of-reference-of-thought, invalidating by implication the logical-dueness/logical-pertinence as of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the former. This we can grasp retrospectively in a cross-engagement with say notions-and-accusations-of-sorcery between our positivism and the non-positivism/medieval registry-worldview/dimension going by our prospective relative-ontological-completeness-of-reference-of-thought with respect to its prior relative-ontological-incompleteness-of-reference-of-thought. But since we have been habituated as of our existential formation within our <~~amplituding~~/formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-

prospective-apriorising-implications>⟩ to be in logical-dueness for logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation by default and thus always contendingly relevant on the basis of sharing a mutual positivism reference-of-thought, we will hardly entertain though a deprocrypticism cross-engagement implied invalidation of our logical-dueness for logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation and thus rendering us contendingly irrelevant on the basis of our prior relative-ontological-incompleteness-of-reference-of-thought construed as disjointedness-as-of-reference-of-thought. But then ironically such a undementability posture could as well be adopted by a non-positivism/medievalism reference-of-thought in its own existential formation that recognises non-positivistic ideas and notions-and-accusations-of-sorcery as relevant and postconverging-or-dialectical-thinking-and-centered-prospective-institutionalisation's-categorical-imperatives/axioms/registry-teleology with its logical-dueness for logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation valid by default. This point out that there is necessarily a central growth element of a structural/paradigmatic reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology for cross-generational psychoanalytic-unshackling/memetic-reordering/institutional-recomposure' allowing for dementability and thus transcendability as enabling human virtue-as-ontology/ontology. Further to the points made this far, talk of such a narrative as of such structural/paradigmatic ~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity of vices-and-impediments of our prior relative-ontological-incompleteness-of-reference-of-thought that does not focus on substantive critiquing/assessment of the arguments made but is rather geared to imply beforehand that such arguments are impropriety, is actually nothing more

than our falsehood as mortals circularly pretending to imply that humankind-in-its-deficit does have a status above its mortal shortfall, and so paradoxically as a flawed and unsubstantiated route to wrongly imply no such argumentation is admissible. This is often a choice deterrent of institutional and eruditical Establishments of presence failing to recognise that more profound human insights arise from Dionysian dispositions and not just a reflex of looking at the presence as forever given as it is. The bluntness of reality/ontology doesn't recognise the mortals that we are and we can't advance our mortal statuses as superseding inherent reality/ontology, but we are rather bound to be much more substantive than that to avoid 'human closure of meaningfulness-and-teleology' which easily arises given our temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising~self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction. The fact is such an articulation is not idle but rather the requisite fervour associated with many an enlightening thought, however qualified as impropriety, as a <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ start arising when we temporally carve away statuses out of the reach of ontological contention making the mortals that we are bigger than intrinsic-reality/ontological-veridicality.) On any such occasion, ontological-veridicality as of deprocrypticism prospective relative-ontological-completeness-of-reference-of-thought is restored by doing away with 'ontological-veridicality tolerance as stretched-truth' and articulating a 'mental break-in'/preconverging-or-dementing–apriorising-psychologism of positivism–procrypticism meaningfulness-and-teleology at its procrypticism uninstitutionalisation as of disjointedness-as-of-reference-of-thought from deprocrypticism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-

incidenting-predicative-insights, just as we'll appreciate that were the animists insistent say on relating to the plane as God of plane to a point implying their potential non-transcendability as of psychoanalytic-unshackling in due course, 'ontological-veridicality tolerance as stretched-truth' is no longer warranted but a direct 'mental break-in'/preconverging-or-dementing–apriorising-psychologism by a demonstration to uphold ontological-veridicality. Such a demonstration might be construed as of a simple paper plane demonstration of ontological-primemovers-totalitative-framework principles or extraordinarily a flight from the flight deck with explanation or more extensively articulating that things work by natural causes and effects with no spirits inside them thus implying that a positivism-centered meaningfulness-and-teleology is more ontologically pertinent. Certainly such a 'mental break-in'/preconverging-or-dementing–apriorising-psychologism demonstration with regards to our procrypticism reference-of-thought as of its disjointedness-as-of-reference-of-thought construed from a deprocrypticism reference-of-thought perspective or apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights will look weird to us going by our circularly pervasive ~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag procrypticism/disjointedness-as-of-reference-of-thought, but it is more of ontological-veridicality/intrinsic-reality even though we are unhabituated to it since it is beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> and not yet by social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩, just as had been the case from the perspective or apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights of all the uninstitutionalised-thresholds reference-of-thought

with respect to the 'mental break-in'/preconverging-or-dementing–apriorising-psychologism of their corresponding prospective institutionalisations reference-of-thought. The bigger point being that by definition a reference-of-thought doesn't fathom the nature and degree of its relative-ontological-incompleteness-of-reference-of-thought as of its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights. (Thus suggesting base-institutionalisation in recurrent-utter-uninstitutionalisation, implying universalisation in base-institutionalisation–ununiversalisation, suggesting positivism in universalisation–non-positivism/medievalism and suggesting deprocrypticism in positivism–procrypticism will be perceived initially as 'bullshit' going by human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor as of our temporal inclination to subjectification/nombrilism/self-referencing. But then human temporal inclination to utter expletives is not intellectual argument but a mark of intellectual ineptness, with the 'ontologically relevant' intellectual issue being about understanding the 'habituation exercise' as of ontological-primemovers-totalitative-framework and percolation-channelling involved in the psychoanalytic-unshackling/memetic-reordering/institutional-recomposure behind the ontological-contiguity—of-the-human-institutionalisation-process as pertinent for deprocrypticism 'without in the very least entertaining' the <~~amplituding~~/formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>) mental-reflex as has been the case across all the institutional-cumulation/institutional-recomposure that has always been a drawback as of temporal extricatory paradigm and parasitising/co-opting inclination subpar to the warranted ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-

apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality perpetually upholding the currency in reflecting the ontological-contiguity—of-the-human-institutionalisation-process across-the-times; as at this point, intellectual commitment overtly meets ontology.) Explained in other terms, implying in a non-positivism social-setup that notions-and-accusations-of-sorcery are inherently vices-and-impediments as of the transcendental prospective positivism prospective relative-ontological-completeness-of-reference-of-thought will-not-be-convincing-on-a-par-with-other-argumentators in that social-setup but rather for such temporal/shortness-of-register-of-meaningfulness-and-teleology purpose requires making a 'temporal palliation argument' of the type oneself or another person is not involved in sorcery or a counterargument that the accuser is the sorcerer, and so on the basis of the prior non-positivism prior relative-ontological-incompleteness-of-reference-of-thought, to-be-more-convincing-on-a-par-with-other-argumentators in that non-positivism social-setup (but then all this will wrongfully validate superstition and thus fail the very point of ontology/aetiologisation/ontological-escalation as an exercise in 'intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating as intemporality-asymmetric-subsumption-of-temporality'/asymmetrisation and not a temporal extrication exercise of 'social-aggregation-enabling as of symmetrisation-of-reference-of-thought, as this is in effect an ontologically-non-veridical-or-flawed <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and/or desymmetrisation for perceived temporal social-stake-contention-or-confliction'). Thus there is a fundamental ontological-veridicality/intrinsic-reality argumentation handicap in the short run for undermining the postlogism-and-conjugated-postlogism as notions-and-accusations-of-sorcery associated with the non-positivism registry-worldview/dimension prior relative-ontological-incompleteness-of-reference-of-thought social referencing of meaningfulness-and-teleology which is

'superstitious' in the very first instance such that any argumentator putting into question superstitiousness like there is nothing like sorcery is 'shooting itself on the foot' in the short run. It is rather the long run cross-generational resolution construed as of ontological-dementation/dialectical-dementation–stranding/attributive-dialectics by superseding the prior non-positivism prior relative-ontological-incompleteness-of-reference-of-thought as of the prospective positivism registry-worldview/dimension prospective relative-ontological-completeness-of-reference-of-thought by 'continuous habituation going by the latter's ontological-primemovers-totalitative-framework in the long run as superseding the prior beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> and initiating the appropriate prospective social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩ that will structurally/paradigmatically harken back to undermine the postlogism-and-conjugated-postlogism grounded on notions-and-accusations-of-sorcery associated with the non-positivism registry-worldview/dimension. That is, it is by turning the non-positivistic mindset/reference-of-thought into a positivistic mindset/reference-of-thought that the possibility of 'ontologically' and 'not palliatively' resolving notions-and-accusations-of-sorcery can arise in the very first instance. Likewise, it is the cross-generational resolution of our positivism–procrypticism prior relative-ontological-incompleteness-of-reference-of-thought as of its circular-pervasiveness in countenancing of procrypticism or disjointedness-as-of-reference-of-thought from apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights of meaningfulness-and-teleology as conceptualising, articulating and preempting such disjointing/disparateness/disentailing meaningfulness-and-teleology of our positivism–procrypticism that is the structural/paradigmatic resolution as of prospective relative-ontological-completeness-of-reference-of-thought that can

structurally/paradigmatically harken back in undermining the circular-pervasiveness in countenancing of 'disjointedness-as-of-reference-of-thought' and the enculturation/endemisation of the manifest postlogism-and-conjugated-postlogism in our positivism–procrypticism as psychopathy and social psychopathy, and so going beyond just a temporal palliative resolution within a positivism–procrypticism circular-pervasiveness closed-structure countenancing 'disjointedness-as-of-reference-of-thought' of meaningfulness-and-teleology, beyond-the-consciousness-awareness-teleology-⟨in-existential-extrication-as-of-existential-unthought⟩, and hence overlooking the structural/paradigmatic ontological vices-and-impediments implications of postlogism-and-conjugated-postlogism including psychopathy and social psychopathy arising given the relative-ontological-incompleteness-of-reference-of-thought of our procrypticism as disjointedness-as-of-reference-of-thought. This explains how and why re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-⟨imbued-postconverging/dialectical-thinking-'projective-insights'/'epistemic-projection-in-conflatedness'-of-notional~deprocrypticism-prospective-sublimation⟩ ideas can supersede conventionalised ideas where the former provide in the big picture the possibility for the social-construct to function better by social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness⟩ at a cross-generational depth of analysis, and equally explains human historical suspicions of new ideas just in case their social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness⟩ turn out to be better and possibly leading to the dismantling of the prior and vested and contingent interests. It should be grasped that the comprehensiveness/dynamic-cumulative-afereffect of a registry-worldview's/dimension's threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—

preconverging/dementing–apriorising-psychologism (as an operant construal) at its uninstitutionalised-threshold is what defines it as uninstitutionalised-threshold which is decentered and preconverging-or-dementing–apriorising-psychologism from the prospective institutionalisation perspective while that of its reference-of-thought–prelogism-as-of-conviction-as-to-profound-supererogation (as an operant construal) of its institutionalisation is what defines it as prior institutionalisation. (As implied by this author the nature of human individuations accounts respectively for human intemporality/longness and human temporality/shortness as the 'more fundamentally ontological-primemovers-totalitative-framework analysable operant agency of the human condition as of human knowledge-and-virtue or vices-and-impediments respectively as such individuations then accrue in varying degrees in individuals as of varying circumstances'; and so-construed respectively as of intemporal individuation conflatedness which enables prospective institutionalisations or temporal individuations distractive-alignment-to-reference-of-thought that induce uninstitutionalised-thresholds at all the institutionalisations uninstitutionalised-threshold.) Such personality development into adult psychopathy at which point social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩ is undermined with its increasing maturation/indirectness/spatialisation/credulity/craftiness and the corresponding conjugated-postlogism leads to contextualised social dynamics of temporal individuations reference-of-thought–looseness-of-tethering–to–prelogism-as-of-conviction-as-to-profound-supererogation that underlies various shades of threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism. As a general rule the reference-of-thought–closeness-of-tethering–to–prelogism-as-of-conviction-as-to-profound-supererogation implies a mental-disposition for intrinsic-attribution of meaningfulness-and-teleology involving an inclination for presuming and implying of meaningfulness-and-teleology as limited/constraint by existential-contextualising-contiguity's-reifying/elucidating-of-

prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context while the reference-of-thought–looseness-of-tethering–to–prelogism-as-of-conviction-as-to-profound-supererogation implies a mental-disposition for extrinsic-attribution of meaningfulness-and-teleology as caricaturing-hollow-staging-and-performance involving an inclination for falsely presuming and implying meaningfulness-and-teleology as vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging out of the limits/constraints of existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context. Further, the individuation-level analysis highlights that it is the reference-of-thought–closeness-of-tethering–to–prelogism-as-of-conviction-as-to-profound-supererogation (reference-of-thought–prelogism-as-of-conviction-as-to-profound-supererogation) and reference-of-thought–looseness-of-tethering–to–prelogism-as-of-conviction-as-to-profound-supererogation (threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism) respectively as of human intemporal and temporal mental-dispositions that establish the ontological-primemovers-totalitative-framework of existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of meaningfulness-and-teleology whether as of 'direct or derived vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging out of existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context' with temporal-dispositions or logical-dueness as of existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-

thought-devolving-as-of-instantiative-context with the intemporal/conviction-as-to-profound-supererogation mental-disposition; so-construed as of their contrastive-synopsising-depths-of-meaningfulness-and-teleology rather for a 'conflation construal/conceptualisation' and not a rather deceptive analytical reflex of 'constitutedness of reference-of-thought construal/conceptualisation'. The fact is by mental-reflex we relate to social meaningfulness-and-teleology by constitutedness as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity which by habit or chance will often turn out to be as of existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as of the institutionalisation ambits of the domain-of-concern precedingly so-established/so-institutionalised by maximalising-recomposuring-for-relative-ontological-completeness, and so with hardly any consequence for our methodological imprecision/inexactitude where the established/institutionalised reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology is not ontologically superseded as at uninstitutionalised-threshold. But that is technically/abstractly speaking inappropriate from an ontological-veridicality perspective requiring unassailability/reliability/dependability at uninstitutionalised-threshold. As explained elsewhere and implied above it is the conceptualising (by maximalising-recomposuring-for-relative-ontological-completeness) of a reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology as of conflation that enables such a certitude at uninstitutionalised-threshold of an epistemic-totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality by its specific institutionalisation. And that reference-of-thought–categorical-

imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of the social at uninstitutionalised-threshold involves a holistic/nested-congruence social construal/conceptualisation that necessarily should factor in the reality of a human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor but we fail to do this due to our <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag metaphysics-of-presence disposition as of institutionalisation and thus wrongly implying intemporal construal as of our secondnatured institutionalisation which while inconsequential within the ambits institutionalisation is not ontologically-veridical at the institutionalisation uninstitutionalised-threshold with the latter rather requiring a temporal-to-intemporal appraisal as of metaphysics-of-absence as its reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology.

The implication is that postlogism/psychopathy and other human temporal phenomena (and so, across all registry-worldviews) which speak of uninstitutionalised-threshold are often wrongfully construed on the basis of intemporal secondnatured institutionalisation human nature whereas the conflatedness requires 'synopsising-depth of a human temporal-to-intemporal nature' and so by conflatedness to establish the uninstitutionalised-threshold reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology rather as of maximalising-recomposuring-for-relative-ontological-completeness (construed as intimately tying down our limited-mentation-capacity by imbricatedness/threadedness/recomposuring to the 'leash' of existential-

reality/ontology/intrinsic-reality/ontological-veridicality) as should be the case at all uninstitutionalised-threshold, and so over the mental-reflex of assuming secondnatured institutionalisation reference-of-thought/axiomatic-construct as elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity (construed as letting our limited-mentation-capacity by unimbricatedness/unthreadedness/unrecomposuring out of the 'leash' of existential-reality/ontology/intrinsic-reality/ontological-veridicality) as the latter is only practically effective when dealing with an already established human registry-worldview's/dimension's institutionalisation/institutionalised-construct but not at uninstitutionalised-threshold which require their own new specific reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology which so established then enables the practical effectiveness of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. Consider the childhood psychopathy 'dereifying act' of spilling water on a chair and accusing another, even at that relatively social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-

<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness⟩ level there is a chance of mistaking as with the visitor sitting on the wet chair and needing an explanation of the whole situation including the child's condition, and such insight gets more and more opaque with the manifestation of adulthood psychopathy. This is an uninstitutionalised-threshold situation which is necessarily beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> and without social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-

<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness⟩ of the visitor. This example is exactly along the lines of the reference-of-thought–categorical-

imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology needed for construing postlogism/psychopathy and conjugated-postlogism as of its social model at uninstitutionalised-threshold, and so by way of maximalising-recomposuring-for-relative-ontological-completeness (the latter is what sets up apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments and is of imbricatedness/threadedness/recomposuring existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context, in contrast to elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity which is what renders-operant/incidenting predicative-insights). It is only then that such an established institutionalisation framework allows for elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity on the basis of the established reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology. Such a conceptualisation/construal is dramatically different from how we ordinarily conceive the construal of social meaningfulness-and-teleology before the institutionalisation of such a specific uninstitutionalised-threshold takes place. (Consider in this respect how the visitor erred in its relation with the childhood psychopathy on the basis of its commonly assumed social elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. At this individuation-level representation of the disambiguation of the transcending and transcended registry-worldviews, the visitor is using the 'apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-

incidenting-predicative-insights' of positivism–procrypticism that do not factor in the possibility of the childhood psychopathy's slantedness as inducing procrypticism or 'disjointedness-as-of-reference-of-thought'-as-misappropriated-meaningfulness-and-teleology going by the visitor's relative-ontological-incompleteness-of-reference-of-thought as of positivism–procrypticism, while the explainer of the situation has factored in deprocrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology to preempt the induced procrypticism or 'disjointedness-as-of-reference-of-thought'-as-misappropriated-meaningfulness-and-teleology from the childhood psychopathy slantedness. At this individuation-level, the fact is that in order to be certain to avoid a similar deception again in its relation with the childhood psychopathy the visitor will now construe of deprocrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology to preempt the slanted inducing of procrypticism or 'disjointedness-as-of-reference-of-thought'-as-misappropriated-meaningfulness-and-teleology and gives up on positivism–procrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology with respect to its relations with the childhood psychopathy. Thus at this individuation-level uninstitutionalised-threshold with respect to the childhood psychopathy, a new deprocrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology has superseded the prior positivism–procrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology, as it is the one to be circularly/recurrently/repetitively/repeatedly be utilised for

operant/incidenting predication as elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. This is equally implied at the registry-worldview/dimension-level by dynamic-cumulative aftereffect, but in this instance factoring in well more than just one incident of childhood psychopathy but rather the dynamic-cumulative-aftereffect implications on the social structure of myriad cases of psychopathy, and as of postlogism/psychopathic personalities development from childhood to adulthood together with the implications of conjugated-postlogism/social-psychopathy not only with regards to conjugated-ignorance as with the visitor but all the temporal-dispositions including ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation as of habits and thinking patterns consequences as of the extended-informality-⟨susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology⟩ by formality dynamics; with the implication of lack of social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩ as the manifestation is beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> at this uninstitutionalised-threshold, together with the inherent human complex of non-transcendability and hence undementability across all the registry-worldviews/dimensions. At this registry-worldview/dimension-level it is obvious that a straightforward articulation going by the incidental situation of such an individuation-level analysis will not be the case, but rather requires focussing on the bigger structural/paradigmatic picture of perversion-and-derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>. However, suggesting at the registry-worldview/dimension-level of analysis the ontological-

veridicality/intrinsic-reality of a new deprocrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology that implies that the registry-worldview/dimension is in circular-pervasiveness of procrypticism or 'disjointedness-as-of-reference-of-thought'-as-misappropriated-meaningfulness-and-teleology will meet with a mental-complex of <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage metaphysics-of-presence and can only arise as of a cross-generational psychoanalytic-unshackling/memetic-reordering/institutional-recomposure. (Such an insight can be further elucidated in a storied-construct/ontologically-valid-narration given the limits of the possibility of explanation as herein about the 'lived social' as of the aforementioned implied deprocrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology construing a storied-construct/ontologically-valid-narration driven by such postlogism/psychopathic associated vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging maturation/indirectness/spatialisation/credulity/craftiness induced narration-construed-as-instantiative-moulting involving childhood psychopathy to adulthood psychopathy development, and corresponding evolving of social relations as of dynamic-cumulative-aftereffect 'disjointedness-as-of-reference-of-thought'-misappropriated-meaningfulness-and-teleology involving compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation as of psychopathic/postlogism–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring-meaningfulness-and-teleology–as–

However, we can still get a sense of such structural/paradigmatic <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity from a retrospective registry-worldview/dimension perspective like postlogism in a non-positivistic social-setup as of our prospective relative-ontological-completeness-of-reference-of-thought perspective but it is more difficult to grasp from a deprocrypticism prospective perspective of analysis where we will rather be unpalatably represented as decentered and preconverging-or-dementing–apriorising-psychologism, given our state of metaphysics-of-presence. Supposed with regards to a case of notions-and-accusations-of-sorcery as highlighted before as of a social-setup whose relative-ontological-incompleteness-of-reference-of-thought is non-positivistic, a positivism minded interlocutor arguing that notions-and-accusations-of-sorcery do not exist upon an accusation of sorcery is literally undermining itself but is seen as ontologically necessary for the cross-generational possibility of prospective transcendence. Supposed however that the interlocutor isn't an isolated individual but a member from a positivistic society bringing about a cultural diffusion in the non-positivistic society such that the latter looks up to the former by its prospective relative-ontological-completeness-of-reference-of-thought as it effectively has greater control on intrinsic-reality/ontological-veridicality reflected by way of say its relative technology, then in this case the non-positivistic social-setup will at least in ad-hoc instances be circumspect in countenancing that notions-and-accusations-of-sorcery do not exist as of <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. This new positivism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-

voiding notions-and-accusations-of-sorcery and superstition generally as of the prior non-positivism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology

will more likely be taken-up-fully/habituated only cross-generationally in the middle run as the mental-reflex will constantly relapse into notions-and-accusations-of-sorcery and superstition of the prior non-positivism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology,

highlighting that a postlogism like psychopathy in our positivism–procrypticism or one associated with notions-and-accusations-of-sorcery in non-positivism social-setup is not truly speaking an isolated phenomenon as construed from an individuation-level of analysis but speaks in the bigger picture of an underlying registry-worldview/dimension registry-worldview/dimension-level relative-ontological-incompleteness-of-reference-of-thought as beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> and 'lack of constraining social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩; such that implying that our prior positivism–procrypticism, as of its reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology,

cannot longer be upheld at such uninstitutionalised-threshold but requiring in lieu a deprocrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology

will be difficult to countenance but for a cross-generational psychoanalytic-unshackling/memetic-reordering/institutional-recomposure since the issue is one of registry-

worldview's/dimension's-uninstitutionalised-threshold–defect-<as-Being-or-ontological-or-existential–defect>. Thus supposed the case of the childhood psychopathy 'dereifying act' of spilling water on a chair arose in say a non-positivistic social-setup, as of its superstitiousness, with its explanation that the reason had to do with its suspicion of sorcery from the brother. While the social-setup entertains superstitious notions however the childhood psychopathy relatively poor maturation/indirectness/spatialisation/credulity/craftiness means that it is more likely to be disbelieved in this instance as well in addition to the household familiarisation with the psychopathic/postlogism condition of the child. Likewise, a visiting stranger in such a non-positivistic social-setup might just as well have a similar reaction as the visitor in a positivism–procyrpticism social-setup by believing and reacting to the childhood psychopathy manifestation as the non-positivism social-setup apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity–in-reification/dereification entertains/is-cognisant-and-integrative-of/is-in-notional-contiguity/epistemic-contiguity-<mentally-aestheticised~postconverging/dialectical-thinking–qualia-schema>-with superstitious claims in its meaningfulness-and-teleology. An explainer to the visiting stranger in the non-positivism social-setup case about the whole situation would have articulated at the individuation-level of analysis a prospective 'logically-due prelogism-as-of-conviction-as-to-profound-supererogation conflatedness as of positivism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology', going by their familiarisation with the childhood psychopathy 'logically-undue postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation denaturing as of non-positivism reference-of-thought–categorical-

imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology'

over the visiting stranger prior superstition believing 'logically-undue conjugated-postlogism/conjugated–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation derived-denaturing as of non-positivism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology',

with both latter logically reference-of-thought construed as of distractive-alignment-to-reference-of-thought or lacking-an-ontologically-veridical-reference-of-thought due to their derived-denaturing which as of dynamic-cumulative-aftereffect/aftereffect at registry-worldview/dimension-level of analysis is the very ontologically-central notion of every registry-worldview/dimension uninstitutionalised-threshold which should thus be always construed as being in distractive-alignment-to-reference-of-thought with respect to its prospective institutionalisation. It is effectively derived-denaturing that induces threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism as of uninstitutionalised-thresholds, as we can appreciate that the childhood psychopathy and the visitor's meaningfulness-and-teleology are in effect ontologically-speaking threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism. But then at the registry-worldview/dimension-level of analysis however, when compared to the simplistic individuation-level postlogism analysis insight, implying ontological-veridicality/ontological-reality on the basis of 'logically-due prelogism-as-of-conviction-as-to-profound-supererogation conflatedness as of positivism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-

aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology'

with respect to the overall non-positivism registry-worldview/dimension as of its dynamic-cumulative-aftereffect/aftereffect with regards to the manifest registry-worldview/dimension-level social construal of superstitions and notions-and-accusations-of-sorcery in general, can only arise from a cross-generational psychoanalytic-unshackling/memetic-reordering/institutional-recomposure, as the non-positivism registry-worldview/dimension in relation to the prospective positivism registry-worldview/dimension is a <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ just as our positivism–procrypticism registry-worldview/dimension in relation to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism registry-worldview/dimension is a <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩, in that as with all registry-worldviews/dimensions both do not contemplate of their transcendability and thus dementability, and keep on relapsing into their respective non-positivism and procrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology in lieu of the respective prospective positivism and deprocrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology as of prospective relative-ontological-completeness-of-reference-of-thought. This is further rendered difficult by a natural human 'emotional involvement' driven social-aggregation-

enabling as of human condition that undermines intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating. This insight equally explains the pertinence of understanding postlogism/psychopathy in general as an epiphenomenon that can provide deeper insight about human nature given its 'lateral-and-transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing disruptive nature on human meaningfulness-and-teleology' and with the structure/paradigm relatively easily perceived at childhood, much like the early modern human biologists relatively simplistic but counterintuitive-as-of-their-epochs understanding of disease provided deeper insight in understanding how the complexity of the human body works. Both individuation-level understanding of postlogism in a non-positivism as of notions-and-accusations-of-sorcery and positivism social-setup as of psychopathy and social psychopathy divulge a bigger reality at the registry-worldview/dimension-level dynamic-cumulative-aftereffect/aftereffect that is hidden by registry-worldview/dimension-level complexity, wherein the childhood postlogism individuation-level construal points out the reality at the registry-worldview/dimension-level of respectively a conventioning non-positivism in lieu of an ontologically-veridical positivism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology and a conventioning positivism–procrypticism as procrypticism in lieu of an ontologically-veridical deprocrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology. That insight then brings up the idea of how does a registry-worldview/dimension-level dynamic-cumulative-aftereffect reflect the more simplistic individuation-level ontological-veridicality at childhood postlogism/psychopathy; which is the more elaborate purpose herein. That is, how distractive-alignment-to-reference-of-thought as undermining conflatedness induces psychological-complexes pointing to, as of dynamic-

cumulative-aftereffect/aftereffect, the registry-worldview/dimension-level ontologising-deficiency/relative-ontological-incompleteness-of-reference-of-thought. Considering again the childhood psychopathy case in a 'dereifying act' of spilling water on a chair, these basic elements can be expounded at the individuation-level of analysis. It should be noted that the visitor 'as of its conjugated-postlogism as conjugated-ignorance' is rather inclined to wrongly imply a 'symmetrisation-of-reference-of-thought but which is in effect an ontologically-non-veridical-or-flawed <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that may induced its inclination for desymmetrisation for its perceived temporal social-stake-contention-or-confliction but for the fact of the relative contextual innocuousness with respect to social-stake-contention-or-confliction when it comes to childhood psychopathy compared to adulthood psychopathy'. The explainer of the situation 'as of its prelogism-as-of-conviction-as-to-profound-supererogation-of-reference-of-thought' is in an 'intemporality-asymmetric-subsumption-of-temporality'/asymmetrisation relative to the visitor and childhood psychopathy with respect to the construal of ontological-veridicality. Hence the explainer of the situation construes the conflatedness as of its asymmetrisation with respect to the visitor whose reference-of-thought ontologising-deficiency/relative-ontological-incompleteness-of-reference-of-thought as not factoring in the childhood psychopathy postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation-of-reference-of-thought which is 'pathologically ontologically-destructuring' implying both the childhood psychopathy and the visitor are rather in a state of unsoundness-or-inauthenticity-of-reference-of-thought and not bad or poor logic such that the notion of logical-dueness doesn't arise in the very first place, as a reference-of-thought/axiomatic-construct is fundamentally construed as of its soundness-or-authenticity-of-reference-of-thought prior to the notion of logical-dueness arising once soundness-or-authenticity-of-reference-of-thought

is established; thus, given the asymmetrisation of the explainer of the situation reference-of-thought/axiomatic-construct as existential/ontological as of existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as contextually-manifest prospective relative-ontological-completeness-of-reference-of-thought in contrast to the visitor's 'supposed reference-of-thought/axiomatic-construct' which is non-existential/non-ontological as not-of-existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as contextually-manifest prior relative-ontological-incompleteness-of-reference-of-thought. It is this fundamental fact that underlies the notion of 'distractiveness or arrogation or usurpation or co-opting' associated with the construal of the meaningfulness-and-teleology of temporal-dispositions perversion-and-derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism in relation to intemporal meaningfulness-and-teleology as ontological; as such symmetrisation and subsequent desymmetrisation will wrongfully lead to the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of the visitor's reference-of-thought so ontologically-destructured by the childhood psychopathy postlogism 'dereifying act' of spilling water on a chair and accusing another, thereby undermining ontological-veridicality where logic-as-of-prelogism-as-of-conviction-as-to-profound-supererogation is wrongly assumed thus supposedly implying logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation is now to be engaged on the basis of the visitor's ontologically-destructured

reference-of-thought/axiomatic-construct rather than implying the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of the explainer of the situation reference-of-thought/axiomatic-construct as soundness-or-authenticity-of-reference-of-thought and the visitors and childhood psychopathy 'reference-of-thought—degraded-devolving-as-of-uninstitutionalised-threshold' unsoundness-or-inauthenticity-of-reference-of-thought. The implication here is that the construal/conceptualisation of ontologically-veridical meaningfulness-and-teleology lies entirely/exclusively/supersedingly on the reference-of-thought/axiomatic-construct/curve-of-prospective-relative-ontological-completeness-of-reference-of-thought of the explainer of the situation while the logical-dueness of the visitor's 'supposed but rather non-existential/non-ontological reference-of-thought/axiomatic-construct/curve-of-prior-relative-ontological-incompleteness-of-reference-of-thought' doesn't even arise in the very first place and fundamentally explains why its meaningfulness-and-teleology is operantly qualified as of 'distractiveness'/distractive-alignment/dismissal-as-being-in-arrogation and so more aptly as distractive-alignment-to-reference-of-thought. Distractiveness as it implies that in such a context, ontological-veridicality is construed exclusively as of intemporal prelogism-as-of-conviction-as-to-profound-supererogation reference-of-thought conflatedness denying any implied symmetrising of meaningfulness-and-teleology from temporal-dispositions in perversion-and-derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as their logical-dueness doesn't arise in the very first place, hence the reason why perversion-and-derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> is construed more than just as of 'destructuring' but more completely and critically to avoid misconstrual rather

as of distractive-alignment-to-reference-of-thought ; to point out that temporal-dispositions perversion-and-derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> haven't got any 'existentially/ontologically-veridical reference-of-thought' given that they are in arrogation/usurpation/co-opting but rather the reality of their perversion-and-derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> is construed operantly as of temporal postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation-and-conjugated-postlogism 'exercise of distracting from' the intemporal prelogism-as-of-conviction-as-to-profound-supererogation reference-of-thought as of conflatedness', and so construed as distractive-alignment-to-reference-of-thought. That is, a 'temporality distracting from intemporality' construct; wherein the 'conflatedness of intemporal prelogism-as-of-conviction-as-to-profound-supererogation projection' is misconstrued in 'denaturing' of psychopathy/postlogism with the consequent alignment to it of conjugated-postlogism as 'derived-denaturing'. In other words, prospective relative-ontological-completeness-of-reference-of-thought is 'precedingly/supersedingly structurally/paradigmatically cogent and comprehensive framework of meaningfulness-and-teleology' such that any arising temporal disruption of meaningfulness-and-teleology 'has nothing to do with constituting meaningfulness-and-teleology as of the temporal disruption prior relative-ontological-incompleteness-of-reference-of-thought', but rather meaningfulness-and-teleology is reconstrued as structuring/paradigming from the very prospective relative-ontological-completeness-of-reference-of-thought itself. Consider the case of the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as perversion-of-reference-of-thought-<as-effectively-apriorising-in-

nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> and temporal alignment in assuming the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as appropriate as derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as of relative-ontological-incompleteness-of-reference-of-thought and intemporal projection of appropriate apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as prospective relative-ontological-completeness-of-reference-of-thought. One cannot depart from both 'the state of the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> or any states of temporal alignment in assuming the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as appropriate as derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>' to construe meaningfulness-and-teleology as of intrinsic-reality/ontological-veridicality structurally/paradigmatically by their relative-ontological-incompleteness-of-reference-of-thought, as all the meaningfulness-and-teleology that can be as of intrinsic-reality/ontological-veridicality wholly lies with the intemporal projection of appropriate apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of its prospective relative-ontological-completeness-of-reference-of-thought. The implication at the registry-worldview level is that base-institutionalisation 'wholly carries all the meaningfulness-and-teleology that can be as of intrinsic-reality/ontological-veridicality' over a state of recurrent-utter-uninstitutionalisation, and likewise for universalisation over base-

institutionalisation–ununiversalisation, positivism over universalisation–non-positivism/medievalism, and in our case futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism over our positivism–procrypticism. The point here is to highlight that 'conflatedness' doesn't imply any symmetrisation of meaningfulness-and-teleology with regards to perversion-and-derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> since the latter is structurally/paradigmatically not logically-due for logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation in the very first place as is erroneously assumed by temporal projection mental-reflex. But rather, it implies an utter structural/paradigmatic reconstrual of meaningfulness-and-teleology as of intrinsic-reality/ontological-veridicality wholly by the intemporal projection of the prospective relative-ontological-completeness-of-reference-of-thought. The psychoanalytic-unshackling/memetic-reordering/institutional-recomposure implications associated with perversion-and-derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> ultimately falls to the grander issue of prior relative-ontological-incompleteness-of-reference-of-thought as fundamentally endemising/enculturating such perversion-and-derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> possibilities; such that an intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm as maximalising-recomposuring-for-relative-ontological-completeness is not one that simply identify a perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> in a social-construct

We can appreciate that the childhood psychopathy 'dereifying act' of spilling water on a chair is a distractiveness-drive with no existentially/ontologically veridical reference-of-thought which when wrongly implied as valid prelogism-as-of-conviction-as-to-profound-supererogation reference-of-thought/axiomatic-construct leads to its reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology wrongly transforming the issue into one of logic-as-of-prelogism-as-of-conviction-as-to-profound-supererogation thus supposedly implying logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation by wrongly enabling logical-dueness to arise instead of an issue of unsoundness-or-

inauthenticity-of-reference-of-thought implying its dismissal as distractive-alignment-to-reference-of-thought ; and this flaw extends into the visitor's conjugated-postlogism as conjugated-ignorance given its relative-ontological-incompleteness-of-reference-of-thought as of positivism–procrypticism disjointedness-as-of-reference-of-thought which is cognisant-and-integrative as of its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity–in-reification/dereification of the childhood psychopathy slantedness, and so as a derived-distractiveness-drive with no existentially/ontologically veridical reference-of-thought which when wrongly implied falsely as ontologically-veridical reference-of-thought/axiomatic-construct also leads to its reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology wrongly transforming the issue into one of logic-as-of-prelogism-as-of-conviction-as-to-profound-supererogation thus supposedly implying logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation by wrongly enabling logical-dueness to arise instead of an issue of derived unsoundness-or-inauthenticity-of-reference-of-thought and thus also implying as well its dismissal as distractive-alignment-to-reference-of-thought. In both wrongful 'apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments for aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology what is produced isn't ontologically-veridical meaningfulness-and-teleology but rather threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism qualified as arrogation or usurpation or co-opting' exactly because of the induced postlogism/psychopathy distractive-alignment-to-reference-of-thought out of existentially/ontologically veridical context; and its social

integration/derivation in conjugation with human temporality/shortness of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation as conjugated-postlogism due to relative-ontological-incompleteness-of-reference-of-thought, and specifically in the case of positivism–procrypticism, due to disjointedness-as-of-reference-of-thought. This equally underlies on the basis of dynamic-cumulative-aftereffect/aftereffect at the individuation-level and registry-worldview/dimension-level of analyses the notion of 'decentering' as of ontological-dementation/dialectical-dementation–stranding/attributive-dialectics, as the idea of value-reference if wrongfully ontologically construed as determined by the '<~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ as respectively non-positivism reference-of-thought' or as procrypticism reference-of-thought', then in effect the phenomena of non-positivism/medievalism postlogism like notions-and-accusations-of-sorcery as well as psychopathic-postlogism-and-its-social-integration as of our procrypticism/disjointedness-as-of-reference-of-thought will respectively be wrongfully construed to be existentially/ontologically veridical. The bigger point being that symmetrisation implying mutual recognition of reference-of-thought can only arise where there is mutual appropriateness-of-reference-of-thought-as-of-conflatedness as existentially/ontologically veridical thus enabling the logical-dueness of both interlocutors to arise as of their soundness-or-authenticity-of-reference-of-thought in the very first place, notwithstanding thereafter the appropriateness or inappropriateness of the logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation exercise which is then an altogether different issue of effective/ineffective logic-as-prelogism-as-of-conviction-as-to-profound-supererogation, and this latter is what

tends to be falsely implied in situations of postlogism/psychopathy and conjugated-postlogism/social-psychopathy, and need to be 'ontologically dismissed offhand' and brought back to the fundamental issue of perversion-and-derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> rather reflected-as-of-soundness-or-authenticity-of-reference-of-thought in determining whether logical-dueness arises in the very first place. Central to such a dynamic-cumulative-aftereffect/aftereffect registry-worldview/dimension-level analysis derived from such an individuation-level insight is the idea that social-functioning-and-accordance—as-of-social-stake-contention-or-confliction is contiguous as of meaningfulness-and-teleology as of the individuation-level and registry-worldview/dimension-level of analysis, notwithstanding it developing complexification as of dynamic-cumulative-after/effect as from the individuation-level to the registry-worldview/dimension-level and thus with a greater opportunity for the simplistic individuation-level childhood postlogism/psychopathy phenomenon relatively resolvable at that individuation-level to fail resolution with the myriad of such cases at the circular-complexification registry-worldview/dimension-level of more surreptitious adulthood pathological postlogism/psychopathy as the maturation/indirectness/spatialisation/credulity/craftiness induces 'lack of constraining social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩ with consequent conjugated-postlogism 'involving beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> dynamics further associated with a generalised social 'lack of constraining social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩ reflected by the given registry-worldview's/dimension's prior relative-ontological-incompleteness-of-reference-of-thought thus reflecting the

As such conflatedness is the underlying drive of a human hermeneutic psychology as of an ontologically-driven developing psyche as 'postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics' construed as of notional~conflatedness/constitutedness-to-conflatedness from constitutedness/recurrent-utter-uninstitutionalisation, first-level–presencing—absolutising-identitive-constitutedness of base-institutionalisation–ununiversalisation, second-level–presencing—absolutising-identitive-constitutedness of universalisation–non-positivism/medievalism, third-level–presencing—absolutising-identitive-constitutedness of positivism–procrypticism, and full-notional~conflatedness/deprocrypticism. We can appreciate that prior relative-ontological-incompleteness-of-reference-of-thought inherently undermines the capacity for transcendentally-enabling-level–of-authenticity/objectification/desubjectification-as-objectification/ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality/antinihilism of a notional <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag agent of limited-mentation-capacity that we are as of our animate-existential-referencing/subjectification, such that our transcendentally-enabling-level–of-authenticity/objectification/desubjectification-as-objectification/ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality/antinihilism enabling our ontology/virtue-construal capacity is more fundamentally a drive for ontological-completeness-of-reference-of-thought driven by conflatedness as articulated

A naïve conceptualisation of ontology/virtue construal ideal by the mere fact of simply being at the backend in reflecting the ontological-contiguity—of-the-human-institutionalisation-process as of our positivism–procrypticism institutionalisation doesn't speak of our firstnature/intemporal projection-of-thought but rather of a secondnatured institutionalisation that induced our prospective relative-ontological-completeness-of-reference-of-thought by the ontological-contiguity—of-the-human-institutionalisation-process that cannot be confused with the idea of construing our present positivism–procrypticism uninstitutionalisation reference-of-thought as the definite ontology/virtue closed-structure, but rather warrants that we take stock of the exceptional ontological-contiguity—of-the-human-institutionalisation-process that has gone before in providing the secondnatured possibilities of our present as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality driven notional~conflatedness/constitutedness-to-conflatedness, and in that respect conjure how we can equally undertake our own part of the human existential tale homework in summoning ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality driven notional~conflatedness/constitutedness-to-conflatedness as an opened-structure for futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism, and not a closed-structure naïve <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag nombrilism as of flawed/perverted reference-of-thought–categorical-imperatives/axioms/registry-teleology at our positivism–procrypticism uninstitutionalisation of procrypticism as disjointedness-as-

This fundamental and protracted epiphenomenal insight as of 'human subpotent-mimetic-echoness-derivation-within-the-full-potency of ontology/intrinsic-reality/of-referential-nature/of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency-prospective-digression-of—~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness more than just as of a virtue conceptualisation is more profoundly/all-embracingly an echoness of the implication of human limited-mentation-capacity for ontological-construal/ontological-conceptualisation, and so with little temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising~self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction and is equally relevant with regards to innocuous knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue as it subsumes virtue-as-inherent-ontology; with dynamic-cumulative-aftereffect/aftereffect implications at the individuation-level and registry-worldview/dimension-level of analysis as of metaphysics-of-absence. In this regard, metaphysics-of-absence as articulated herein by this author is rather about, 'human limited-mentation-capacity construed as of ontological-normalcy/postconvergence metaphysics-of-absence/Doppler-thinking as it disambiguates human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor meaningfulness-and-teleology ~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity', as of historiality/ontological-eventfulness/ontological-aesthetic-tracing. For instance, the immediacy of intrinsic-reality/ontological-veridicality

transcendental enabling in the natural sciences which is implicited in those fields by their 'relatively high results-constraining-effectiveness nature' provides metaphysics-of-absence insights with regards to obviating the high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising~self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction bound to disrupt thought and analysis in the social as of its 'relatively low results-constraining-effectiveness nature'. Along the same argument and with regards to the high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising~self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction inherent in the social, it is important to grasp that such an epiphenomenon/incidental-phenomenon insight as implied herein with postlogism/psychopathy and corresponding human social dynamics implications is rather a social construction supposedly coherent ontological-commitment that goes well beyond any given specific epiphenomenon–(in-the-overall-ecstatic-existence-supervening-conflatedness)/incidental occurring behind the inspired/insight-for-the social construction supposedly coherent ontological-commitment as of aetiologisation/ontological-escalation for universal retrospective to prospective understanding of postlogism/psychopathy and human social dynamics implications. In other words such a social construction supposedly coherent ontological-commitment is inherently the more expansive, universal, decisive, objective and easier basis for critiquing its theorising-conceptualising-operationalising narratives 'in order to assess the veracity/ontological-pertinence of the structural/paradigmatic universal implications arrived-at of the social construction supposedly coherent ontological-commitment as of the possibilities of easily transcendentally-enabling-level–of-authenticity/objectification/desubjectification-as-objectification/ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality/antinihilism myriad retrospective and prospective social

contexts of analysis, and so more critically rather than an obscured/muddled/obfuscated and difficult critiquing grounded on 'assessing the veracity/ontological-pertinence of the structural/paradigmatic universal implications arrived-at of the social construction supposedly coherent ontological-commitment rather on the basis of any such specific epiphenomenon– (in-the-overall-ecstatic-existence-supervening-conflatedness)/incidental occurring as of its relatively poorly objectifiable-as-desubjectifiable/subjectified incidental social context for analysis. Consider similarly that an epiphenomenal/incidental occurrence of an-apple-hitting-Newton-on-the-head-while-he-sat-under-a-tree thus inspiring/providing-insight-for his laws of motion supposedly coherent ontological-commitment for explaining mechanical phenomena. Certainly, the inherently more expansive, universal, decisive, objective and easy basis for critiquing its theorising-conceptualising-operationalising narratives 'in order to assess the veracity/ontological-pertinence of the structural/paradigmatic universal implications arrived-at of his laws of motion supposedly coherent ontological-commitment is the possibilities of easily transcendentally-enabling-level–of-authenticity/objectification/desubjectification-as-objectification/ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality/antinihilism myriad retrospective and prospective mechanical phenomena for analysis, and so more critically rather than an obscured/muddled/obfuscated and difficult critiquing grounded on 'assessing the veracity/ontological-pertinence of the structural/paradigmatic universal implications arrived-at of the laws of motion supposedly coherent ontological-commitment on the basis of the specific epiphenomenal/incidental occurrence of an-apple-hitting-Newton-on-the-head-while-he-sat-under-a-tree as of the latter relatively poorly objectifiable-as-desubjectifiable/subjectified incidental mechanical occurrence for analysis. In both instances, such an apparently naïve intellectual disposition will point to relative intellectual

impertinence at best, and at worst conscious ontological-bad-faith/inauthenticity angling to cynically undermine universal veracity/ontological-pertinence as of the opportunity of implying poorly objectifiable-as-desubjectifiable/subjectified incidental analysis as pre-eminently of universal import. While this logic is immediately obvious with the low temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising~self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction nature of many a natural sciences <~~amplituding~~/formative>epistemic-totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality with their disposition for replication and other experiments and observations analyses as hardly any scientist will go on if it is problematic to objectively ascertain the contextual reality of an-apple-hitting-Newton-on-the-head-while-he-sat-under-a-tree to contend that Newton's laws of motion supposedly coherent ontological-commitment is wrong, such an insight about the supposedly coherent ontological-commitment being wholly construed as of its 'very own veracity/ontological-pertinence as of any of its objectificable contexts' can-and-is often easily flouted and sidetracked with the high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising~self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction that permeates the study of the social as of its blurriness. This equally explains why it is actually better and more critical to construe/conceptualise social knowledge not only on the basis of the inherent veracity/ontological-pertinence of supposedly coherent ontological-commitment as with the natural sciences but equally factoring in the human social condition as of high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising~self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction, and so as of a knowledge-notionalisation exercise. In other words metaphysics-of-absence refers to any such projections, as of human imaginative capacity derived from our

We can further get a sense with respect to the implications of what is meant by reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology, relative to the construal/conceptualisation from the middle of the last century in the biological domain as of its specific uninstitutionalised-threshold then over which the DNA-based genetics reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology was developed which induced an altogether new dramatically different but ontologically-veridical imagery/picture of the nature of biology at that uninstitutionalised-threshold that then became a new specific institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology thereafter amenable to elaboration-as-mere-

extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity such that the prior non DNA-based construal/conceptualisation (as of reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology) with respect to that now DNA-based genetics specific institutionalised <~~amplituding~~/formative>epistemic-totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality of biology cannot longer be upheld, and this is so in the bigger picture as a contributory conflatedness within the same positivism registry-worldview institutionalisation. (In fact, the institutional-cumulation/institutional-recomposure are the conjoined effect of all specific uninstitutionalised-threshold institutionalisation breakthroughs of reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology construed conjointly as of the prospective registry-worldview/dimension institutionalisation.) In this case, however the 'emotional involvement' in conflatedness within the same positivism registry-worldview of appraisal is way low compared to the high 'emotional involvement' in making the same construct as of a contrastive transcending/superseding of a prior registry-worldview/dimension institutionalisation reference-of-thought into an entirely new/prospective registry-worldview/dimension institutionalisation reference-of-thought like between non-positivism and positivism or prospectively between our positivism–procrypticism and deprocrypticism as in this latter instance such a construal/conceptualisation is comprehensively redefining of the human psyche and tend to elicit the highest levels of 'emotional involvement' thus requiring rather a cross-generational adjustment as conflatedness over the prior distractive-alignment-to-reference-of-thought. In conclusion, such a construal/conceptualisation as of deprocrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-

over our positivism–procrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of our 'lived social' uninstitutionalised-threshold with respect to psychopathy and social psychopathy and procrypticism in general is a wholly new dramatically different depth of understanding, and from our present inclination of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity within the positivism institutionalisation framework. Beyond the above constrastive individuation-level and registry-worldview/dimension-level of analysis with respect to the uptake of prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology,

this social reality of varying social reference-of-thought–closeness-of-tethering–to–prelogism-as-of-conviction-as-to-profound-supererogation and reference-of-thought–looseness-of-tethering–to–prelogism-as-of-conviction-as-to-profound-supererogation'

implying increasing reference-of-thought–looseness-of-tethering–to–prelogism-as-of-conviction-as-to-profound-supererogation as of greater temporality/shortness construed as of various shades of threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism speaks in the bigger picture of a social reality across all registry-worldviews/dimensions that tends to 'destructure any registry-worldview/dimension institutionalisation meaningfulness-and-teleology' by an 'ontological degradation effect' having to do with human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, and in so doing

inducing threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism as uninstitutionalised-threshold. In other words, a prospective registry-worldview/dimension institutionalisation meaningfulness-and-teleology in becoming the new reference-of-thought (over the prior registry-worldview's/dimension's reference-of-thought) with its supposedly grander intemporal-preservation-entropy-or-contiguity–or–ontological-preservation reference-of-thought–categorical-imperatives/axioms/registry-teleology as of the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality driving/behind its construal, turns out to be a prospective institutionalisation 'reset framework for human temporal-to-intemporal mental-dispositions' respectively in reference-of-thought–looseness-of-tethering–to–prelogism-as-of-conviction-as-to-profound-supererogation and reference-of-thought–closeness-of-tethering–to–prelogism-as-of-conviction-as-to-profound-supererogation of the new reference-of-thought'; as facing/dealing anew with human temporal-to-intemporal mental-dispositions but this time around doing the same thing as occurred with the prior institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology that was transcended/superseded to deliver the new registry-worldview/dimension, but now on the new registry-worldview's/dimension's institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology (with the difference as of a 'relatively lower sensibility' arising just because of the new registry-worldview/dimension prospective relative-ontological-completeness-of-reference-of-thought limiting/constraining on the possibilities of vices-and-impediments); implying an underlying ontological-contiguity of the reality of human temporal-to-intemporal mental-dispositions across all the registry-worldviews/dimensions. Thus while 'ontologically superseding the prior beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>

and prior 'lack of constraining social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-~~amplituding~~/formative⟩epistemic-totalising–in-relative-ontological-completeness⟩ this does not imply apart from such institutionalisation-as-secondnaturing a change of human temporal-to-intemporal nature, given that this nature will further manifest at the prospective registry-worldview uninstitutionalised-threshold as its beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> and 'lack of constraining social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-~~amplituding~~/formative⟩epistemic-totalising–in-relative-ontological-completeness⟩ inducing anew the new reference-of-thought owns threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism. This social dynamism (dynamic-cumulative-aftereffect) as of the new registry-worldview/dimension uninstitutionalised-threshold can be construed ontologically as arising out of a further temporal/shortness-of-register-of-meaningfulness-and-teleology distortedness of the new ~~amplituding~~/formative⟩epistemic-totalising/circumscribing/delineating reference-of-thought-devolving-as-of-instantiative-context—meaningfulness-and-teleology in the social extended-informality-⟨susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology⟩ ultimately extending to the extended-informality-⟨susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology⟩ spheres of formal constructs distorting formal construal of meaningfulness-and-teleology, and so to a point of equilibrium of the new registry-worldview/dimension between its institutionalised meaningfulness-and-teleology and its uninstitutionalised-threshold's threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism. The operant and technical conceptualisation basis of this phenomenon has to do with the inherent nature

of pure-ontology conflatedness for ontologically-veridical meaningfulness-and-teleology and 'human temporal-to-intemporal condition' of reception/distortion across the successive registry-worldviews/dimensions involving denaturing where there is 'lack of constraining social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩.   The establishment or rather coming into being of a prospective registry-worldview/dimension institutionalisation reference-of-thought can thus be construed as of pure-ontology conflatedness for ontologically-veridical meaningfulness-and-teleology, and so because it is both the mechanical-knowledge as the constraining technical outcome and the non-constraining driving underlying intemporal-disposition ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality, with both constituting the organic-knowledge. This transcendental knowledge construct establishes a dominant social framework of knowledge grounded on its inherent intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating ontological-primemovers-totalitative-framework (as it supersedes the prior beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> meaningfulness-and-teleology and the prior 'lack of constraining social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩), and then imbues the prospective institutionalisation with social validity and social structure of meaningfulness-and-teleology as of deferential-formalisation-transference. This is the social-setup of the prospective institutionalisation reference-of-thought as of pure-ontology conflatedness for prospective relative-ontological-completeness-of-reference-of-thought meaningfulness-and-teleology. But then in due course and at the uninstitutionalised-threshold of this prospective institutionalisation reference-of-thought, its organic-knowledge (as driven

by intemporal-disposition ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) wanes as the reality of human temporal-to-intemporal nature sets in as it is related to at the uninstitutionalised-threshold by the registry-worldview's/dimension's least common denominator as ~~amplituding~~/formative⟩wooden-language-⟨imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology⟩ for social-functioning-and-accordance—as-of-social-stake-contention-or-confliction (in a social dynamics at the given uninstitutionalised-threshold that is a drawback-to/undermines prospective-knowledge-and-institutional deferential-formalisation-transference as of prospective relative-ontological-completeness-of-reference-of-thought intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating ontological-primemovers-totalitative-framework, and is rather oriented to sovereign extrication over knowledge-reification at this uninstitutionalised-threshold as of social-aggregation-enabling), as of its bare constraining mechanical-knowledge since reference-of-thought–categorical-imperatives/axioms/registry-teleology are only 'mechanistically' constraining, lacking the organic-spirit or ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality. Anecdotally, we know as of our uninstitutionalised-threshold that in effect the technical constraints of the law tend to supersede the spirit of the law as it is naïve to think that a 'sense of rightness' is all that matters before the law, and this extends to human meaningful and organisational principles in general. Such that temporal-dispositions fulfilment of such 'mechanistic' effectiveness as mechanical-knowledge 'without the non-constraining and abstract organic mental-disposition as of ontological-faith-notion-or-

ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality of the emanant-kind that-had-driven the reference-of-thought construal in the first place' distort in due course organic meaningfulness-and-teleology, as of temporal mental-dispositions of shortness-of-register-of-meaningfulness-and-teleology. Thus such implied prospective reference-of-thought, social organisations and institutions as organic meaningfulness-and-teleology then tend to develop 'subcultural reorientations' that are 'mildly alien' and 'on-occasional gravely alien' to the (especially in the extended-informalities of the social and institutions) original organic-knowledge conceptualisation as of the implied prospective reference-of-thought social and institutions meaningfulness-and-teleology. Thus for an ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating ontological-primemovers-totalitative-framework construal for the deprocrypticism prospective institutionalisation, it is critical to grasp both the inherent ontological-veracity of the meaningfulness-and-teleology behind the construal of deprocrypticism and the 'reality of a human condition of temporal-dispositions distractive-alignment-to-reference-of-thought, and so as of notional~conflatedness/constitutedness-to-conflatedness as historiality/ontological-eventfulness/ontological-aesthetic-tracing in articulating a ⟨protensive-consciousness referentialism-induced⟩-reference-of-thought—devolving-teleological-structure-of-meaningfulness, that is preemptive of a least-common-denominator-of-social-functioning-and-accordance-effecting to bare mechanical-knowledge as of ~~amplituding~~/formative>wooden-language-⟨imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology⟩ inducing threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism as of uninstitutionalised-threshold. This is achieved by a perpetuating metaphysics-of-absence that

factors in human temporal-to-intemporal-dispositions nature. Insightfully, a storied-construct/ontologically-valid-narration technique apprehending the temporal-to-intemporal-dispositions respective mental-dispositions for reference-of-thought–looseness-of-tethering–to–prelogism-as-of-conviction-as-to-profound-supererogation and reference-of-thought–closeness-of-tethering–to–prelogism-as-of-conviction-as-to-profound-supererogation can be construed, wherein the instigating temporal postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation reference-of-thought–looseness-of-tethering–to–prelogism-as-of-conviction-as-to-profound-supererogation (as postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation temporal threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism) as of the childhood psychopathy (where the reference-of-thought–looseness-of-tethering–to–prelogism-as-of-conviction-as-to-profound-supererogation mental defect is of social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩ socially like in a 'dereifying act' of spilling water on a chair and accusing another, pointing to a mental-shortcut as faulty-mentation-procedure-deception-or-urge in relating to social-stake-contention-or-confliction) and adult psychopath (where the reference-of-thought–looseness-of-tethering–to–prelogism-as-of-conviction-as-to-profound-supererogation mental defect is opaque due to its maturation/indirectness/spatialisation/credulity/craftiness to attain social-functioning-and-accordance—as-of-social-stake-contention-or-confliction) can be elucidated. The underlying process as of temporal postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation or psychopathic reference-of-thought–looseness-of-tethering–to–prelogism-as-of-conviction-as-

to-profound-supererogation mental defect beginning at childhood involves 'its circular non-consequential vague trialing of reference-of-thought–looseness-of-tethering–to–prelogism-as-of-conviction-as-to-profound-supererogation' as of its temporal postlogism threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism with respect to its postlogic-backtracking-<iterative-looping-'set-of-dereifying-hollow-narratives-and-acts'>, in full conscious-awareness-teleology, which when perceived as uncontested by the psychopath (likely to arise where the concerned party lacks insight of its underlying faulty-mentation-procedure-deception and as it seem socially-function) will ultimately lead to its slanting-deception (or deception-of-successively-shifting-or-non-cohering-narratives-and-acts or deception-by-concurrently-false-presupposing/false-presuming/false-premising-of-narratives or deception-by-concurrently-false-assumptive-preconverging-or-dementing-of-narratives) inducing its threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism and its consequent derivation as conjugated-postlogism or social psychopathy threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism. This process is mirrored with the various conjugated-postlogisms conscious or unconscious aligning to the psychopathic/postlogic postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging. Thus effectively such a postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation process is rather very simplistic, and the deception arises actually from the prelogism-as-of-conviction-as-to-profound-supererogation mental-states to be by mental-

reflex in prelogism-as-of-conviction-as-to-profound-supererogation thus inducing wrongful teleological elevation of the postlogism/psychopathic meaningfulness-and-teleology, which wouldn't occur at childhood psychopthy. Finally, as of dynamic-cumulative-aftereffect and across all registry-worldviews/dimensions, the 'distractive-alignment-to-reference-of-thought of any registry-worldview/dimension institutionalisation meaningfulness-and-teleology as of its organic-knowledge' can be construed and analysed across 3 lines; - the initiating temporal postlogism distractive-alignment-to-reference-of-thought of meaningfulness-and-teleology, - the generalised temporal-dispositions to integrate such ontologically-destructured meaningfulness-and-teleology as of the registry-worldview's/dimension's relative-ontological-incompleteness-of-reference-of-thought explaining its beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> and 'lack of constraining social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative>epistemic-totalising–in-relative-ontological-completeness⟩, - and the prospective institutionalisation construing/conceptualising the ontological-veridicality and analysis of such registry-worldview/dimension institutionalisation meaningfulness-and-teleology distractive-alignment-to-reference-of-thought dynamics (as of the previous two) as social ontology/aetiologisation/ontological-escalation, and equally serves as an ideal storied-construct/ontologically-valid-narration of intuitive elucidation framework. The implication of such 'temporal distractive-alignment-to-reference-of-thought of institutionalisation meaningfulness-and-teleology' across all registry-worldviews/dimensions is that meaningfulness-and-teleology as of prospective registry-worldview/dimension institutionalisation involves 'its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights enabling utter psychical-and-institutional conflatedness of meaningfulness-and-teleology exactly by transcending/superseding the

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights behind the prior registry-worldview/dimension uninstitutionalised-threshold'. As critically the naivety of <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ within a same registry-worldview/dimension uninstitutionalised-threshold reference-of-thought is that its defect of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights arising as perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> due to its prior relative-ontological-incompleteness-of-reference-of-thought (as failing rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism in recurrent-utter-uninstitutionalisation or failing universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism in ununiversalisation or failing positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism in non-positivism/medievalism or failing preempting—disjointedness-as-of-reference-of-thought,-as-to-<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness-in-superseding-mere-formulaic-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism in procrypticism, and thus requiring respectively transcending/superseding to base-institutionalisation, universalisation, positivism and deprocrypticism), is that meaningfulness-and-teleology can then still be upheld on the basis of the same uninstitutionalised-threshold/uninstitutionalised apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-

The statements articulated priorly (before the square brackets texts digression) speak of the reality of 'human temporal uninstitutionalised-threshold mental-disposition' even in our own positivism reference-of-thought registry-worldview. It is fair to say the statement made before, "Z … will look down on B, C, D, E and F mental-dispositions perversion-and-derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as allowing for the endemisation/enculturation of the denaturing of additionality and the implications thereof of subsequent denaturing in circularity/recurrence/repetition/repeatability" is circumstantially relevant even in our positivistic registry-worldview wherein 'lack of constraining social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<a̶m̶p̶l̶i̶t̶u̶d̶i̶n̶g̶/formative>epistemic-totalising–in-relative-ontological-completeness⟩ induces a 'human temporal uninstitutionalised-threshold mental-disposition' temporality/shortness or shortness-of-register-of-meaningfulness-and-teleology drive. 'intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality   instigated ontological-contiguity—of-the-human-institutionalisation-process   as   of   difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <s>amplituding</s>/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity', rather than a naïve metaphysics-of-presence mental complex that only serves 'flawed egos' and is of no ontologically-veridical import). The point of this distinction made between the nature of 'human registry-worldview's/dimension's institutionalisation   mental-disposition'   registry-worldview's/dimension's   reference-of-thought and 'human temporal uninstitutionalised-threshold mental-disposition' registry-worldview's/dimension's   reference-of-thought,   as   of   prospective   ontological-normalcy/postconvergence is to put into perspective the idea that the present and as of our present social construction and individuations as being relatively more exceptional than the solipsistic nature of humans in prior epochs is false, with such wrongly implied exception rather being a confusion between 'cumulated institutionalisation' (which we carry by being secondnatured at the backend in reflecting the ontological-contiguity—of-the-human-institutionalisation-process   as   of   human   limited-mentation-capacity-deepening-(<s>amplituding</s>/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ leading to the positivistic registry-worldview/dimension) and that our inherent solipsistic sense of intemporality/longness (which overall is no more greater than that of humans of previous successive registry-worldviews/dimensions); and further that we are just of the same 'human temporal uninstitutionalised-threshold mental-disposition' as all humans past when it comes to making solipsistic choices at uninstitutionalised-threshold, which choices when of intemporality-drive   solipsistic-choices   are   maximalising-recomposuring-for-relative-ontological-

completeness leading to prospective institutionalisations. This notion of human mental-disposition and by extension meaningfulness-and-teleology as comprising, rather as a more complete and grander conceptualisation, a registry-worldview's/dimension's institutionalisation-facet and an uninstitutionalised-threshold-facet, so-construed by metaphysics-of-absence, carries institutionalisation and uninstitutionalised-threshold implications with respect to the determination of ontologically-veridical meaningfulness-and-teleology as of pertinent scientific conceptualisation (scientific approach, methodology and methods) as rather construed most critically by its relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating. Such metaphysics-of-absence considerations are critically relevant in fully appreciating the articulation herein by this author of such notions (that rather speak of uninstitutionalised-threshold implications with respect to 'a social pretence of scientific conceptualising as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating'), like deferential-formalisation-transference, ordered-construct, percolation-channelling and transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing.

Insightfully, it is the case that our present-day positivistic institutionalisation secondnatured scientific practice outcome of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating is grounded on institutionally-determined peerage/collegiality as of positivistic institutionalisation deferential-formalisation-transference, so supposedly recognised within the social collective or 'social framework of intersolipsistic deambulation'. But then we grasp that at the disjuncture of positivistic meaningfulness-and-teleology (as 'moulting' firstnature/intemporal conceptualisation of what developed to become today our scientific practice institutionalisation as of its relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating) from the non-positivism/medievalism registry-worldview/dimension, we can definitely fathom that the enlightenment actors like the

Descartes's, Galileos, Diderots, etc. of those transitioning times would have certainly been circumspect with regards to any such notion of preceding social approval (for their scientific meaningfulness-and-teleology as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating), given the social non-positivism/medievalism uninstitutionalised-threshold non-scientific disposition, as beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>. This points to an altogether different social relation with the notion of scientific practice construed as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating, by such intemporal-solipsism as to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality mental-disposition that conceive of positivistic meaningfulness-and-teleology in the uninstitutionalised-threshold social-setup of non-positivism/medievalism where they were institutionally-outlying. As exemplarily implied with the Encyclopédistes led by Diderot, such construal is grounded on a more basic and potent construct of ontological-primemovers-totalitative-framework and actually reveals in many ways the reality of a natural Foucauldian power relations which it turns out is actually in the medium to long term a social-granting-of-power-exercise with respect to the virtue of true knowledge, as of the social percolation-channelling possibilities enabling promising ideas, however institutionally-outlying or institutionally-central, to take hold in society depending on their relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating as of veracity/ontological-pertinence; without heed given to mere centrality as veracity/ontological-pertinence but decentering if the centrality is not ontologically pertinent, and rather further secondnaturing prospective institutionalisation of scientific practice as of its relative intrinsic-reality/ontological-veridicality transcendence-enabling; very much highlighting the prospective institutionalisation pertinence of such notions articulated by this

author like deferential-formalisation-transference, ordered-construct, percolation-channelling and transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing. In another respect, with regards to scientific meaningfulness-and-teleology and as it informs the social-construct of knowledge and deferential-formalisation-transference (as power relations with respect to knowledge as socially empowering), it is critical to grasp that it is relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating that induces social deference to formal knowledge constructs and other formal constructs, on the basis that that will 'produce the greater human Good', as at the prior as uninstitutionalised-threshold when such domains lacked or were deficient with respect to formal knowledge constructs or other formal constructs like officialdoms, it was rather a question of 'relatively free-for-all opinionatedness and imaginary knowledge constructs' with relatively impulsive and simplistic contending mental-dispositions on the basis of the determining or non-determining need for 'social consensus as of social-aggregation-enabling by human temporal ~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ mental-dispositions and projections' and not necessarily emphasising 'social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating by human intemporal mental-dispositions and projections'; explaining why higher and higher registry-worldviews/dimensions as of their prospective relative-ontological-completeness-of-reference-of-thought increasingly defer domains of meaningfulness-and-teleology more and more to formal constructs while increasingly reducing the sphere of the extended-informality-⟨susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology⟩ as of its free-for-all nature. The bigger point being that even

in our positivism–procrypticism registry-worldview/dimension with relatively strong 'social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating by human intemporal mental-dispositions and projections' in many domains; however, with regards to domains (and so, more than just about broad subject matter areas and broad spheres of other formal constructs including officialdoms, but rather and critically the specifically relatively undeveloped knowledge spheres of such broad subject matters and broad spheres of other formal constructs including officialdoms, and as specific in this instance as with regards to our understanding of psychopathy) that are spurious and blurry, these are often not socially related to in profound knowledge/scientific meaningfulness-and-teleology terms on the basis of 'social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating by human intemporal mental-dispositions and projections' profound treatment, and are rather prone to 'relatively free-for-all opinionatedness and imaginary knowledge constructs' in rather relatively impulsive and simplistic contending mental-dispositions on the basis of the determining or non-determining need for 'social consensus as of social-aggregation-enabling by human temporal <amplituding/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ mental-dispositions and projections' and not necessarily emphasising 'social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating by human intemporal mental-dispositions and projections'. This contrasts with those domains that are more pertinently and decisively intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating which quickly obtain deferential-formalisation-transference (deferential as not opinionating randomly with respect to imagining the legal implications of one another's actions but deferring one's understanding to the formal legal domain, appreciating

in deference scientific principles and not opinionating about what we imagine about the stars but deferring to the astronomer and physicist, appreciating statistics and human geography methods and not imagining how censuses and polls should be done but deferring to the demographer and statistician, etc.; as providing a grander depth of knowledge by deferential-formalisation-transference pointing out that 'human intemporal mental-dispositions and projections' are the basis for 'inventing' human knowledge and corresponding virtue (as of aetiologisation/ontological-escalation), and not 'human temporal <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ mental-dispositions and projections'. Hence the construal of knowledge construct in such domains that are spurious and blurry as with respect to postlogism/psychopathy social implications should as of precedence be about articulating the illuminating insight that ultimately allows for the attainment of their own deferential-formalisation-transference based on 'social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating by human intemporal mental-dispositions and projections', and undermining a social relations with regards to knowledge and virtue that is based on 'social consensus as of social-aggregation-enabling by human temporal <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ mental-dispositions and projections', and so in order to release the inherent virtue imbued in true knowledge. The afore elucidations are mainly to point out that it is naïve to construe the analysis of postlogism phenomenon including psychopathy on the assumption of an overall 'human registry-worldview's/dimension's institutionalisation mental-disposition' of the

social as of the present as metaphysics-of-presence instead of assuming a 'human temporal uninstitutionalised-threshold mental-disposition' of the social by prospective metaphysics-of-absence, since the construal of our postlogism as of psychopathy and social psychopathy is necessarily, from ontological-normalcy/postconvergence epistemic/notional~projective-perspective, reflected from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism registry-worldview's/dimension's reference-of-thought. Insightfully, by metaphysics-of-absence we can appreciate this logic with respect to notions-and-accusations-of-sorcery as intuitively we'll be hard-pressed to recognise that the non-positivism/medievalism social-construct mental-disposition is one of human registry-worldview's/dimension's institutionalisation of an intemporality-drive whereas in fact it is one of human uninstitutionalised-threshold of temporalities-drives such that it is endemised/enculturated in various temporality/shortness shades (ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) as of ontological-normalcy/postconvergence from a prospective positivism registry-worldview's/dimension's reference-of-thought. The same applies with psychopathy in our positivism–procrypticism, as the <~~amplituding~~/formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>) in such a context should not and cannot be the trusted reference of intellectual contemplation as of ontological-normalcy/postconvergence in the elucidation of psychopathy and social psychopathy (just as it is not a trusted reference with regards with priorly established formal knowledge constructs whether subject-matter disciplines or formalising constructs including the law, officialdom, etc.), as it is effectively poorly ontological or non-

ontological in the sense that it tends to be of an extricatory/temporal paradigm and not intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm as when it fails to appreciate the virtuous implications of aetiologisation/ontological-escalation (metaphorically-as-of-a-million-and-one-instances-and-locales) as providing the possibility for prospective institutionalisation as structurally/paradigmatically superseding the positivism–procrypticism registry-worldview/dimension vices-and-impediments! It is thus important to grasp that the notion of virtue as of our temporal-to-intemporal mental-dispositions is more than just about the notion of being at the backend in reflecting the ontological-contiguity—of-the-human-institutionalisation-process of institutional-cumulation/institutional-recomposure, but rather the intemporal mental-disposition (intemporal-disposition) to strive as maximalising-recomposuring-for-relative-ontological-completeness for base-institutionalisation to supersede recurrent-utter-uninstitutionalisation equates that striving for universalisation to supersede base-institutionalisation–ununiversalisation equates that striving for positivism to supersede universalisation–non-positivism/medievalism equates that striving for deprocrypticism to supersede positivism–procrypticism; as the highest human virtue of ontological import. Since the inducing of institutionalisation-as-a-secondnatured-construct across all institutional-cumulation/institutional-recomposure or registry-worldviews/dimensions inevitably implies a dichotomy of reference-of-thought modalities of the same perpetual temporalities-drives and intemporality-drive (given human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor), respectively as 'least-and-derived-temporal-operating-modalities-of-the-reference-of-thought-as-of-incrementalism-in-relative-ontological-incompleteness-inducing-the-uninstitutionalised-threshold' and 'maximal-as-intemporal-operating-modality-of-reference-of-thought-as-of-

maxi. Virtue is essentially about the intemporality-drive as maximalising-recomposuring-for-relative-ontological-completeness for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-deepening-⟨<amplituding̶/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ by a re-equilibrating metaphysics-of-absence/postdication with reference-of-thought–categorical-imperatives/axioms/registry-teleology subservient to that purpose, and not about the temporalities-drives as 'mere adherence as intradimensionally deterministic by form' to reference-of-thought–categorical-imperatives/axioms/registry-teleology as these are failing/not-upholding-<as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-deepening-⟨<amplituding̶/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ by a re-equilibrating metaphysics-of-absence/postdication rather than upholding it, their very raison d'être. Interestingly, supposed by some circumstance an individual of a positivistic insight found themselves in a non-positivistic community, whether base-institutionalisation/animistic or medieval, facing a disease attributed to a negative spirit or so, but the positivistic individual knows it is a case of an infection with the idea that a certain root or leaf in the nearby forest can be used as cure, however, the community rather believe that the forest is an evil forest and this will just make things worse for them overall. Obviously, as of its positivism prospective relative-ontological-completeness-of-reference-of-thought, by 'Intemporal-prioritisation-of-reference-of-thought'–as-conflatedness-or-ontological-reprojecting its mental-disposition will be to unleash its maximalising-recomposuring-for-relative-ontological-completeness intemporality-drive to supersede the non-positivistic reference-of-thought–categorical-

imperatives/axioms/registry-teleology that the evil forest brings bad omen substituting it with the positivistic one that the root or leaf in the forest brings about cure by walking over the supposed 'evil forest', and more than just the circumstantial situation will equally appreciate that positivistic thinking over animistic or medieval thinking will go a long way in improving the community's existence. It is interesting to grasp the difference in the dereifying and reifying construal of existential-contextualising-contiguity here between the non-positivists mindsets and the positivist mindset as of underlying relative-ontological-incompleteness and relative-ontological-completeness reference-of-thought and respectively as of their divergent non-positivists dereification perspective and positivist reification perspective; as seeing the positivist stranger walking into the supposed 'evil forest' will be the confirmation for members of the non-positivist social-setup of its viciousness-or-supernaturalness-or-evil-disposition. It can be noted here that seeing the positivist walking into the evil forest will be branded as proof/evidence by the non-positivists of its viciousness-or-supernaturalness-or-evil-disposition going by their supernatural conception of existential-contextualising-contiguity–in-reification/dereification as of their prior relative-ontological-incompleteness-of-reference-of-thought, contrasted with the positivist naturalist conception of existential-contextualising-contiguity-in-reification as-seeking-a-cure as of its prospective relative-ontological-completeness-of-reference-of-thought; and possibly ensuing into a country of the blind scenario. This insight equally highlights the evasiveness of 'what is meant by proof/evidence' even in our positivism–procrypticism registry-worldview/dimension as of its prior relative-ontological-incompleteness-of-reference-of-thought, as the notion of proof/evidence is more critically tied down to existential-contextualising-contiguity-reification as of singularisation/epistemic-immanence/veridical-epistemic-determinism; just as postmodern-thought notional-contiguity/epistemic-contiguity-<mentally-aestheticised~postconverging/dialectical-thinking–qualia-schema> in decentering the

'modern-take thinking' reveals the underlying bias of the latter meaningfulness-and-teleology as reflected particularly more vividly in gender, race, class, etc. Interestingly, this paradox is very much typical of all transcendental situations and explains the universal 'ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning' contorted gesturing associated with transcendental thresholds. As we can garner in this case that the positivist constrained to existence rather in such a country-of-the-blind scenario cannot simply be deferential to living and Being as of the non-positivist social-setup value reference while very much aware of the structural/paradigmatic virtue implications as of prospective positivism prospective relative-ontological-completeness-of-reference-of-thought, and thus will 'contortively' hold on to the reasoning-through/messianic-reasoning possibility of positivistic value references over non-positivistic value reference, even as the latter is always in <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag; with the implication that such ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen/asceticism as of reasoning-through/messianic-reasoning contortion is rather in transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing of the prior relative-ontological-incompleteness-of-reference-of-thought and the contorted prospective relative-ontological-completeness-of-reference-of-thought from their respective existentialism intelligibility stances. This contortion as of prospective relative-ontological-completeness-of-reference-of-thought projection is what marks 'transcendental acts of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-

as-of-existential-reality parrhesiastic askesis-or-acumen/asceticism as of reasoning-through/messianic-reasoning' whether of philosophical implications as with say Socrates or philo-religious implications as of nonextricatory-existential-preempting-of-existential-unthought. The contortion arises because inherently the state of prior relative-ontological-incompleteness-of-reference-of-thought ever always fails to accompany prospective state of prospective relative-ontological-completeness-of-reference-of-thought but for the induced cross-generational transcendental metaphoricity possibility, and the contortion is more of a token as of the metaphoricity possibility for prospective transcendence and without which token contortion there is 'no existential reference for such transcendence', as a gesturing of metaphoricity that is 'beyond the prior relative-ontological-incompleteness-of-reference-of-thought full meaningfulness-and-teleology implications contemplation'. The contortion implies that there is 'nothing any more important than upholding the metaphoricity possibility for prospective relative-ontological-completeness-of-reference-of-thought'; as transcendental instigation can't be of ordinary inclination at one moment and at another moment of transcendental inclination, as this will only 'teleologically-degrade and devalue' the implied prospective relative-ontological-completeness-of-reference-of-thought transcendence into the ordinariness of prior relative-ontological-incompleteness-of-reference-of-thought thus psychoanalytically/exegetically/symbiologically existentially undercutting the token contortion existential reference for prospective relative-ontological-completeness-of-reference-of-thought transcendence. Thus 'ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning' only evolves into such asceticism as of contortive metaphoricity gesturing for prospective relative-ontological-completeness-of-reference-of-thought as of nonextricatory-existential-preempting-of-existential-unthought; and has historically acted as a sort of internal

cultural diffusion disposition. Such a prospective ontological conception of asceticism rather as of reasoning-through/messianic-reasoning asceticism, different from asceticism as reasoning-from-results/afterthought or institutional asceticism, should basically be understood as of the general notion that all human meaningfulness-and-teleology are naturally 'correlate-aesthetic-constructs as of the various reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation in successive prior relative-ontological-incompleteness-towards-ontological-completenesss-of-deprocrypticism' as of their specific reflection of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human~~amplituding~~/formative>epistemic-totalising~purview-of-construal' (just as implied with the case highlighted herein of the 'ill-health ~~amplituding~~/formative>epistemic-totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality'); and are so derived as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality 'seeding promise of human-subpotency ontological-performance-<including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence-as-of-its-coherence/contiguity' and construed as of ontologically-veridical difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism; with the assertion by this author that there is no accidental human meaningfulness-and-teleology as all prior meaningfulness-and-teleology imply futural deferred traces of their prospectively more ontologically-complete constructs as of grander 'ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning'. It is singularisation/epistemic-immanence/veridical-epistemic-determinism in preempting any such structural/paradigmatic threshold construed as uninstitutionalised-threshold as implied by notional~deprocrypticism that reflects 'ontologically-veridical difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism' as factoring in prior registry-worldviews/dimensions reference-of-thought prior relative-ontological-incompleteness as of the ontologically-flawed threshold of its reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation from the perspective of prospective registry-worldview/dimension reference-of-thought prospective relative-ontological-completeness to construe historiality/ontological-eventfulness/ontological-aesthetic-tracing as of notionally-full existential-contextualising-contiguity knowledge-reification. In other words, existential-contextualising-contiguity as reflecting existence—as-the-absolute-a-priori-of-conceptualisation isn't halted at any given registry-worldview's/dimension's structural/paradigmatic limit/threshold-construed-as-mathesis/motif/thrownness-disposition for ontological conception, but rather reifies as of singularisation/epistemic-immanence/veridical-epistemic-determinism as implied with ontologically-veridical difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism as of notional~deprocrypticism, with such singularisation/epistemic-immanence/veridical-epistemic-determinism reflecting an historiality/ontological-eventfulness/ontological-aesthetic-tracing of all such structural/paradigmatic limits/thresholds-construed-as-mathesis/motif/thrownness-disposition of reference-of-thought ontological conception. In effect, such a trace/ontological-aesthetic-tracing can be construed as a 'creative metaphoricity tracing' of human temporal-to-intemporal ontological-performance-<including-virtue-as-ontology>s of human meaningfulness-and-teleology as of the dynamics of 'human overall Being-personality-growth and the implications for its living-

personality-growth and institutional-personality-growth' implied as of notional~deprocrypticism ontologically-uncompromised—referentialism, as a fundamental hermeneutic psychological science which as of singularisation/epistemic-immanence/veridical-epistemic-determinism articulates-and-rearticulates such tracing/ontological-aesthetic-tracing as of comprehensive/holistic/nested-congruence conflatedness from a most profound existential-contextualising-contiguity knowledge-reification depth of notional~deprocrypticism protracted-consciousness. Such a hermeneutic psychology is necessarily cognisant and departs from a construal of the fundamental instigation of human knowledge and emancipation as of 'ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning', as establishing in the very first place the prospective relative-ontological-completeness reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation for reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, and so prior to assumed meaningfulness-and-teleology aposteriorising/logicising/deriving/intelligising/measuring. Hence such a notion cannot be construed on the basis of ordinarily assumed meaningfulness-and-teleology aposteriorising/logicising/deriving/intelligising/measuring which doesn't put into question its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as it is rather submerged/drowned into it by mental-disposition reflex; but rather as implied as of reasoning-through/messianic-reasoning, such a hermeneutic psychology is more about instigating a parrhesiastic psychoanalytic-unshackling soul-searching acumen. In this regard, it is akin for instance to budding positivism reasoning-through/messianic reasoning implied within a non-positivism/medievalism social-setup, in the sense that that budding positivism

reasoning-through/messianic reasoning then 'is-not reasoning as-of-yet' as reasoning is then as of the non-positivism/medievalism social-setup apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument 'as non-positivism reasoning susceptible to superstition and scholasticism-like pedantry construed as universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism but not yet as of rational-empiricism'; with such budding positivism rather a metaphoricity instigation of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic soul-searching for the psychoanalytic-unshackling of the human subject as of a structural/paradigmatic Lacanian displacement/decentering of the human subject from its prior 'epistemic-totality/reference-of-thought/epistemic-totalising~self-referencing-syncretising/circularity conception of meaningfulness-and-teleology as of non-positivism/medievalism' to a prospective 'epistemic-totality/reference-of-thought/epistemic-totalising~self-referencing-syncretising/circularity conception of meaningfulness-and-teleology as of positivism/rational-empiricism', that is the fundamental structural/paradigmatic seeding-resolution of the 'non-positivism/medievalism human subject superegoic vices-and-impediments'. This has the very same metaphoricity implications in reflecting the ontological-contiguity—of-the-human-institutionalisation-process, as such a hermeneutic psychology supersedes our ordinary meaningfulness-and-teleology aposteriorising/logicising/deriving/intelligising/measuring which doesn't put into question our positivism–procrypticism/disjointedness-as-of-reference-of-thought reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation for reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, but rather as of its reasoning-through/messianic-reasoning is more about instigating prospective ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-

It should be noted that the way the construction of knowledge works at reference-of-thought-level of reasoning-through/messianic-reasoning is utterly counterintuitive to how we perceive prospective elucidation of human knowledge and emancipation going by the given reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation as of reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and-teleology aposteriorising/logicising/deriving/intelligising/measuring. articulation of prospective ontologically-uncompromised—referentialism deprocrypticism reference-of-thought

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and-teleology aposteriorising/logicising/deriving/intelligising/measuring is the route for ontologically-veridical human knowledge transformation and emancipation in futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism is very much alien to our positivism–procrypticism cloistered-consciousness. In both instances the notion of prospective metaphoricity is one that necessarily faces the fact that the human mind is ever always entrapped in an existentially-invested 'epistemic-totality/reference-of-thought/epistemic-totalising~self-referencing-syncretising/circularity conception of meaningfulness-and-teleology' which effective dislodgment/displacement/decentering is as of a cross-generational instigation, but then wouldn't happen just by accident and thus has to be instigated for prospective relative-ontological-completeness! In fact such an insight can be extended across 'intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity' to imply that the state of recurrent-utter-uninstitutionalisation is cognisant of emancipation but doesn't anticipate that emancipation as of prospective relative-ontological-completeness is rather as of base-institutionalisation reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation, and likewise the latter doesn't anticipate the universalisation

reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation, with the latter not anticipating our positivism reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation which itself doesn't anticipate prospective ontologically-uncompromised—referentialism deprocrypticism. The fact is human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor at its uninstitutionalised-thresholds implies that the human psychological reflex as of its limited-mentation-capacity at any such uninstitutionalised-threshold 'is not geared to adhere to abstract ontological-veridicality' as it will operate its state of dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism as if in a fully-attained state of singularisation/epistemic-immanence/veridical-epistemic-determinism, as of the-very-central-implication-of-thrownness, as reflected by the successive prior relative-ontological-incompleteness reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation towards ontologically-uncompromised—referentialism deprocrypticism or preempting—disjointedness-as-of-reference-of-thought; and thus from a strictly ontologically-veridical point-of-view/perspective, and so beyond our enculturated-conception,-normalisation-and-practice-of-psychology and just as various mystical-and-mythical-practices of prior non-positivism registry-worldviews/dimensions were their own sort of enculturated-conception,-normalisation-and-practice-of-psychology as of their own times, the notion of a psychological science as reinforcing/propping-up human psychology in any prior relative-ontological-incompleteness-of-reference-of-thought meaningfulness-and-teleology state is downright ontologically ridiculous and the manifestation of an epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag naivety. We can appreciate that the psychoanalytic-unshackling of all prior registry-worldviews/dimensions reference-of-

thought is rather one that shouldn't wrongly be reinforcing/propping-up the human subject as if a given reference-of-thought in prior relative-ontological-incompleteness as of dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism has its very own complete transformative and emancipative potential as if of fully-attained singularisation/epistemic-immanence/veridical-epistemic-determinism, but an ontologically-veridical psychology rather warrants implying the human subject displacement/decentering as the structural/paradigmatic possibility of the human subject emancipation with regards to the successive prior relative-ontological-incompleteness registry-worldviews/dimensions superegoic vices-and-impediments; wherein postconverging-or-dialectical-thinking–apriorising-psychologism reasoning-from-results/afterthought reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation at its uninstitutionalised-threshold is construed as preconverging-or-dementing–apriorising-psychologism as of prospective postconverging-or-dialectical-thinking–apriorising-psychologism reasoning-through/messianic-reasoning reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation up to the prospective ontologically-uncompromised—referentialism of deprocrypticism. As of its inherent organic knowledge, such a hermeneutic psychology parrhesiastic articulation as herein 'doesn't do gimmicks of communication' as if to imply any favour whatever as of 'emotional or whatever feel-good trading for the appreciation of the possibility for prospective human emancipation', since by its 'presencing—absolutising-identitive-constitutedness consummated/forfeiting posture' it is beyond the idea of convincing for convincing sake as it is simply 'a blunted eliciting of a solipsistic sense of intemporal/longness-of-register-of-meaningfulness-and-teleology projection in any human and no more' with no point going beyond that point as it then becomes as of intellectual-and-moral apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity-

<mentally-aestheticised~preconverging/dementing–qualia-schema>; and so, as its essential meaningfulness-and-teleology is as of a solipsistic transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing reflection of the ontologically 'superior party' that is intrinsic-reality/ontological-veridicality/existence—as-the-absolute-a-priori-of-conceptualisation in its ecstatic singularity, on the same token that a natural scientist is in a transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing reflection of its object of study as of existence as the ontologically 'superior party' without any need to be involved in any bogus exercises that may imply that gravity may not be 9.8 m/s^2 on earth if any given human subject isn't accommodated for in some way somehow however faintly, be it that it may be the case that gravity is not 9.8 m/s^2 but that as well needs to be established as of the ontologically 'superior party' that is existence—as-the-absolute-a-priori-of-conceptualisation as of ontological-primemovers-totalitative-framework. But then the human reality across all registry-worldviews/dimensions, isn't inherently 'of immediate intellectual responsiveness' to the notion of its uninstitutionalised-threshold and the corresponding superseding of this as of prospective institutionalisation; as even the disposition to assume an intellectually enlightening mental-disposition is existentially-invested and not necessarily a given. We can appreciate from our positivistic perspective the 'obvious reality' of the fact that superstitious beliefs are bogus, but then paradoxically from the beginning of times superstitious beliefs had pervaded all the echelons of human societies whether as of true belief or opportunistically, and have only been increasingly undermined with the advent of positivistic reasoning at the beginning of modern times about 500 years ago. This has to do with the 'existentially invested nature as of assumed reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation' of human '<amplituding/formative>epistemic-totalising/circumscribing/delineating meaningfulness-and-teleology'/reference-of-thought-

devolving. Thus any given registry-worldview/dimension is strongly constrained to represent itself as of its 'postconverging-or-dialectical-thinking–apriorising-psychologism' prior institutionalisation as reasoning-from-results/afterthought and very weakly constrained to represent itself as of its preconverging-or-dementing–apriorising-psychologism uninstitutionalised-threshold which it tends to represent as nondescript/ignorable void (actually speaking of akrasiatic-drag-denatured-and-preconverging-or-dementing-narratives), for the possibility of its prospective transcendence-and-sublimity into prospective institutionalisation. This reality is known as human 'dementative constraint' to prospective institutionalisation transcendence-and-sublimity as of the possibility of prospective relative-ontological-completeness-of-reference-of-thought. Human dementative constraint is fundamentally associated with poor universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩ with respect to social-stake-contention-or-confliction at uninstitutionalised-thresholds. This then fails to induce the necessary existential assurance for prospective transcendence-and-sublimity and on that token fails to tip the balance over the 'social obfuscation dynamic effect' of <~~amplituding~~/formative>wooden-language-⟨imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology⟩ as of the prior institutionalisation's reference-of-thought–categorical-imperatives/axioms/registry-teleology that stifle the transcendence-and-sublimity possibility for prospective institutionalisation. Thus as of the more critical insight that prospective relative-ontological-completeness-of-reference-of-thought is actually ontologically transformative as of aetiologisation/ontological-escalation, over mere palliative construals as of the very same prior reference-of-thought in prior relative-ontological-incompleteness, for resolving a given registry-worldview/dimension vices-and-impediments; this notion of

human dementative constraint is critical for the psychoanalytic-unshackling/prospective-grounding insight underlying dynamism with regards to the human mind prospective transcendence-and-sublimity as implied by a 'postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics' that emphasises the 'Lacanian subject' growth as of ontological-dementation/dialectical-dementation–stranding/attributive-dialectics, rather than a second-guessing mented or stigmatic psychology that fails to integrate the decisively ontological transformative implications of human psychology as of underlying relative-ontological-incompleteness and relative-ontological-completeness reference-of-thought <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity,

and thus making the given presence reference-of-thought as our positivism–procrypticism 'all-determinative of what can be construed as psychological emancipation' as of its <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag despite the fact of its prior relative-ontological-incompleteness-of-reference-of-thought to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism prospective relative-ontological-completeness-of-reference-of-thought. The underlying issue here as well as of ontologically-veridical difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism has to do with deficient human capacity for dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming-'notionally-collateralising-protohumanity'-to-'attain-sublimating-humanity',-as-to-existence-potency-prospective-digression-of—

in-epistemic-conflatedness to supersede human temporality/shortness <s>amplituding</s>/formative⟩wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩⟩ in construing meaningfulness-and-teleology beyond the constraint of 'human lifespan of depth-of-thought' to a more profound appreciation of the underlying possibility for human transcendence-and-sublimity as of human intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm. In this regard as of lack of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension is the human temporal inclination to decontortion construed as a disposition to undermine 'intemporal ontological-veracity as of universal existential import' for the sake of 'temporal narrow-and-specific existentially-invested advantage/interest with little concern about emancipatory universal meaningfulness-and-teleology', and so as the very contrary disposition to reasoning-through/messianic-reasoning contortion. Decontortion as of human <s>amplituding</s>/formative⟩epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag incrementalism-in-relative-ontological-incompleteness is rather counter to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality disposition by its deterministic hanging onto prior relative-ontological-incompleteness-of-reference-of-thought reasoning-from-results/afterthought while ignoring/overlooking the ontological-veracity implications of the trace/ontological-aesthetic-tracing of reifying existential-contextualising-contiguity, and thus adopting a dereification posture as enabled by 'lack of constraining social universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<s>amplituding</s>/formative⟩epistemic-totalising–in-relative-

ontological-completeness⟩'. Such a human disposition to decontortion at uninstitutionalised-thresholds arise on the naïve basis that human temporal willing/volition can effectively supersede the ontological integrity/veracity of meaningfulness-and-teleology as it reflects existence's coherence/contiguity as of singularisation/epistemic-immanence/veridical-epistemic-determinism. But then such a decontortioning disposition as can be manifested by a falsely striving to elevate the temporal frame of our 60–100 years of living above the intemporal/ontological frame of intrinsic-reality/ontological-veridicality/existential-reality is rather definitional of our uninstitutionalised-threshold where we are actually preconverging-or-dementing–apriorising-psychologism and prospectively dialectially-primitive, notwithstanding our attendant <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and vague untransvaluated–temporal-intemporality gesturing. The ontological-contiguity—of-the-human-institutionalisation-process can thus be construed as one of increasingly undermining the human subject temporal decontortion disposition not to dispense-with-immediacy-for-relative-ontological-completeness; wherein across the successive institutional-cumulation/institutional-recomposure, decontortion is ontologically-constrained both as of the 'dynamic construal of appropriate-as-intemporal existential phenomenality/phenomenal-manifestation and construal of appropriate-as-intemporal existential human mental-disposition'. The former is ontologically-constrained as of ontological-primemovers-totalitative-framework in undermining the human temporal inclination to phenomenality/phenomenal-manifestation decontortion, while human temporal mental-disposition for decontortion is additionally ontologically-constrained with availability of universal-transparency-⟨transparency-of-totalising-entailing,-as-to-entailing-<~~amplituding~~/formative>epistemic-totalising–in-relative-ontological-completeness⟩. Relatively objectified phenomenality/phenomenal-manifestation as implied in the natural sciences is hardly subjected to decontortion while relatively

subjective phenomenality/phenomenal-manifestation as implied in the social is rather easily subjected to decontortion as of blurriness and emotional-involvement. In another respect the implications of flawed identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism as of dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism also has implications with the ontological-performance-<including-virtue-as-ontology> as of the effective productivity potential of human knowledge construction. In this regard, it is herein contended that the historically recurrent critique of naïve formalisation particularly in many a field of study that uncritically strive to adhere to a 'supposedly pre-given science methodology and epistemology naively construed as of inherent transcendental signifier' such as in the analytic tradition of philosophy, naïve scientific psychology as of facetious methodologies as well as many a natural science domain, that purport to conceptualise complex social meaningfulness-and-teleology in naïve naturalistic methodology terms, all arise because of a flawed predisposition to identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism implied as of dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism that in many ways ignores/overlooks existential-contextualising-contiguity knowledge-reification as of singularisation/epistemic-immanence/veridical-epistemic-determinism; and so, as of their 'formalisation credo as identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism' thus leading to a disposition that considers knowledge as an exercise of mere conceptual patterning inherently validated by formalisations on the basis of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity without the constraint of existential-contextualising-contiguity knowledge-reification as of existence—as-the-absolute-a-priori-of-conceptualisation as its very own transcendental signifier which ultimately manifestly-as-

inherently enables transcendence-and-sublimity as the very essence of knowledge. This has led in many ways to a dissonance between their knowledge productivity implications and existential reality wherein for instance psychological and psychiatric science seems to imply that all along its practice human psychological illnesses have multiplied many times over as of ever transforming and expanding formalisation credo, while the analytical tradition of philosophy by the avowals of its internal critics has been involved in a recurrent second-guessing exercise as of its visceral inclination for 'abstracting reality by formalisation outside of social reality' wrongly mimicking a natural science tradition whose domain-of-study ecstatically allows for such an attitude/mental-disposition/care–and–episteme. Such an approach that atomises/takes-to-pieces analysis 'as supposedly elucidative' tends to be rather abstract as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. Such that beyond its abstracting exercise, as when it returns in striving to supposedly elucidate social and other existential phenomenality, it is lost to it that social and other existential phenomenality is already precedingly/supersedingly as of 'ecstatic holism/nested-congruence', with the consequence that it naively construes of reification as simply projecting 'the supposedly reifying atomising/taking-to-pieces formalisation analysis' on the social and other existential phenomenality. Hence it ends up abstractly pulling-apart the 'ecstatic holism/nested-congruence' of existential phenomenality and thus misrepresenting, denaturing and producing relatively ontologically-flawed meaningfulness-and-teleology. Such articulations tend out to be merely implied decontextualised/abstracted constructs with poor appreciation and construal of their conceptualisations as of underlying relative-ontological-incompleteness/relative-ontological-completeness with respect to temporal-to-intemporal ontological-performance-<including-virtue-as-ontology> which is what enables the reification of existence/intrinsic-reality/ontological-veridicality. In this regard for instance,

the well-articulated Foucauldian discourse of 'speech activity' conceptualisation associated with the notion of parrhesia more critically enables its existential-contextualising-contiguity knowledge-reification with regards to the possibility of human transcendence-and-sublimity as can be projected from an Ancient Greece context right up to our modern and futural context in contrast to say analytic philosophy 'speech act' which by its atomising/taking-to-pieces formalisation orientation is in many ways by its mere denotative/connotative constitutedness nature just an implied existentially decontextualised/abstracted construct as of its poor ontological-as-existential-commitment with respect to 'axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions', in contrast to the reifying conflatedness connotative nature of 'speech activity' discourse as of its contextualising ecstatic-holism/nested-congruence; such that the former assumes rather an identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity posture as of atomising/taking-to-pieces formalisation rather than a difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity posture that is as of ecstatic-holism/nested-congruence as with the latter. Such a conclusion can be extended to other analytic tradition concepts assuming rather an atomising/taking-to-pieces formalisation orientation like the broader notion of language games when rather analysed as of a denotative/connotative constitutedness nature outside existential-contextualising-contiguity whereas in contrast this author construes of the ontologically-veridical reflection of the social purview as better served by the notion of 'ontologically-hegemonising-narrative ontological-performance-<including-virtue-as-ontology>' as of its reifying conflatedness connotative nature reflecting the ontological-veracity/ontological-

performance-<including-virtue-as-ontology> of human-subpotency epistemic/notional~projective-perspective meaningfulness-and-teleology articulated within any given registry-worldview/dimension social-setup going by its supposedly coherent ontological-commitment as so-reflected by its self-assuredness-of-authenticity with respect to its social-stake-contention-or-confliction exposing it to existence-potency-prospective-digression-of—<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness epistemic/notional~projective-perspective of ontological-primemovers-totalitative-framework as of prospective relative-ontological-completeness <amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity', and so-construed as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity; thus further articulating meaningfulness-and-teleology as from prior relative-ontological-incompleteness to prospective relative-ontological-completeness, and so from the epistemic/notional perspective of existence-potency-prospective-digression-of—<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism and this 'ontologically-hegemonising-narrative ontological-performance-<including-virtue-as-ontology>' orientation is theoretically, conceptually and operantly ontologically efficacious inherently by its ecstatic-holism/nested-congruence as it reflects holistically the 'temporal-to-intemporal-dispositions accordioning-<as-of-varying-individuations-contextually-transverse-desublimation/sublimation,-as-to-the-redounding/wavering/waveforming—of-their-referencing-and-their-devolved-referencing-imbued-ontological-performance-<including-virtue-as-ontology>> ontological-performance-<including-virtue-as-ontology>s-including-

This holistic insight is reflected in the Derridean deconstruction orientation with its obvious narratology implications pertinence to literary studies as of its conflatedness with existential-contextualising-contiguity in contrast to such a notion like language games when construed rather in constitutedness. This difference of conceptualising comes down to the atomising/taking-to-pieces flaw reflex of constituting-towards-epistemic-totality implied as of ontologically-flawed identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism as against the ecstatic-holism/nested-congruence disposition for reifying-epistemic-totality-for-completeness implied as of ontologically-veridical difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism; wherein the conflatedness mental-reflex is involved in construing of both the right apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument mindset-as-of-prospective-deprocrypticism-dissemination and thus the knowledge for that right mindset-as-of-prospective-deprocrypticism-dissemination for completeness as of ontologically-uncompromised ontological-normalcy/postconvergence/referentialism/postdication projected conflatedness (as of singularisation/epistemic-immanence/veridical-epistemic-determinism and dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity of 'acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument with regards to human limited-mentation-capacity-deepening-⟨<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ as prospective psychoanalytic-unshackling/memetic-reordering/institutional-recomposure' which speaks of the recurrent edging towards completion of ontological-

This specific deficiency of the analytic tradition as so-reflected in many of its conceptualisations has to do with the very notion of knowledge as being about supposedly coherent ontological-commitment as of 'affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-validating-measuring-<postconverging-or-dialectical-thinking–apriorising-psychologism> of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct', and logic actually being in effect the 'inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions', with the implication that all the knowledge as ontologically-veridical meaningfulness-and-teleology that exists is about existential-contextualising-contiguity knowledge-reification as of ontological-primemovers-totalitative-framework <amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity of supposedly coherent ontological-commitment implied as of 'axiomatic-construct construal of

ecstatic-existence/the-nature-of-the-world/conditions'. In this regard, 'speech activity' discourse speaks of an supposedly coherent ontological-commitment as of 'axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions' as expressed above (with regards to the social contextualisation beyond just speech for the possibility of human transcendence-and-sublimity…) which is then being reified/elucidated for the prospective possibility of human emancipation, with logic being the 'inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions' as of this articulated ontological-as-existential-commitment having to do with such social contextualisation'. Likewise the underlying notion of ontological-performance-<including-virtue-as-ontology> as herein articulated by this author is as difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity as from existence-potency-prospective-digression-of—<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism supposedly coherent ontological-commitment about 'axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions'; articulating knowledge as ontologically-veridical meaningfulness-and-teleology as of the existential-contextualising-contiguity knowledge-reification <amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity of human underlying relative-ontological-incompleteness/relative-ontological-completeness. This underlying notion of ontological-performance-<including-virtue-as-ontology> speaks more fundamentally of aetiologisation/ontological-escalation, as explicitly underlined in all transcendence-and-sublimity elucidating/reifying subject-matters and sciences, unlike approaches that do-not-or-

poorly-appreciate the fact that just as scientific studies are transformative the study of the social rightly articulated beyond-institutional-being-and-craft is just as transformative with regards to prospective human living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, even though it is more subject to higher emotional-involvement as of its displacement/decentering-of-the-human-subject <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity. Whereas the analytic tradition posture as with 'speech act' gives precedence to logical-commitment as reflected in its atomising/taking-to-pieces formalisation approach (implied as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity) geared towards identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism, which by the token of working by atomising/taking-to-pieces formalisation on specific aspects or specific interpretation as of formalisation construct ignores/overlooks 'axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions' as the veridical supposedly coherent ontological-commitment in want of existential-contextualising-contiguity knowledge-reification for knowledge as ontologically-veridical meaningfulness-and-teleology, as can be validated and falsified by ontological-primemovers-totalitative-framework <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity. This fundamental difference of conceptualisation very often underlies the disagreements between the analytic philosophical orientation and other philosophical traditions, in the sense that while the latter might be implicitly implying supposedly coherent ontological-commitment about 'axiomatic-construct construal of

ecstatic-existence/the-nature-of-the-world/conditions' when making its argument, the former will tend to be making a logical-commitment argument as of formalisation construct that ignores/overlooks-and-hence-is-poorly-constrained to the precedence/supersedingness/ascendency of 'axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions' in need of existential-contextualising-contiguity knowledge-reification as of ontological-primemovers-totalitative-framework ~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity, and goes on to naively deploy outside existential-contextualising-contiguity knowledge-reification such logic notions like non-sequitur, fallacies, etc. and/or mere categorising denotative/connotative formalisations in constitutedness as ends in themselves, rather than construing logic as of the 'inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions' of supposedly coherent ontological-commitment for knowledge elucidating/reifying which validation and falsifiability is rather a matter of ontological-primemovers-totalitative-framework ~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity. The fundamental point here is that logic (reflected by the atomising/taking-to-pieces formalisation approach) is instead the 'inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions' as of Being and beings as reflected in first-level ontology and second-level ontologies, and logic cannot derive the superseding/preceding ecstatic existential veridicality of Being and beings which validation and falsifiability is ever always a matter of ontological-primemovers-totalitative-framework ~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity. Being and beings construed-as-of-ontology/apriorising/axiomatising/referencing in the conceptualising of the-very-same-

immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human~~amplituding~~/formative>epistemic-totalising~purview-of-construal' or any ~~amplituding~~/formative>epistemic-totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality or any-issue-in-existence as knowledge, and so as of articulated axiomatic-constructs; is rather reflected either in affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-validating-measuring-<postconverging-or-dialectical-thinking–apriorising-psychologism> when the conceptualising is in prospective relative-ontological-completeness or is reflected in unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitablemeasuringinstrument-invalidating-measuring-<preconverging-or-dementing–apriorising-psychologism> when the conceptualising is in prior relative-ontological-incompleteness, and in both instances as substantiated or unsubstantiated respectively by ontological-primemovers-totalitative-framework in reflection of the ascendency of existence-potency-prospective-digression-of—~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness. For instance, with the affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-validating-measuring-<postconverging-or-dialectical-thinking–apriorising-psychologism> of theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs over classical-mechanics—axiomatic-constructs as unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitablemeasuringinstrument-invalidating-measuring-<preconverging-or-dementing–apriorising-psychologism>. This is also the case as of the affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-validating-measuring-<postconverging-or-dialectical-thinking–apriorising-psychologism> of the 'relative-ontological-completeness-of-reference-of-thought' over 'relative-ontological-

Logic arises as a mental-reflex of the 'inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions' in knowledge construing-as-of-ontology/apriorising/axiomatising/referencing of Being and beings. However, because a reference-of-thought is already an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation as of its underlying affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-validating-measuring-<postconverging-or-dialectical-thinking–apriorising-psychologism>, logic seems to be the only mental exercise involved since the underlying affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-validating-measuring-<postconverging-or-dialectical-thinking–apriorising-psychologism> of the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument is ever so pervasive-and-transparent to contemplation by mental-reflex, such that when the affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-validating-measuring-<postconverging-or-dialectical-thinking–apriorising-psychologism> of covert flawed-as-dementing apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument is implied with

conventioning-referencing ~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, and by that token is geared towards antinihilistic undermining of sophistic/pedantic dispositions as of incrementalism-in-relative-ontological-incompleteness. With the very blurry nature of the social, even with the best of intentions as when continental philosophers try to engage the analytic tradition, the experience has often turned out poorly given the failure to explicitly grasp/appreciate the conflicting implications of their differing knowledge commitments as of supposedly coherent ontological-commitment implied ecstatic-holism/nested-congruence with the former and logical-commitment implied atomising/taking-to-pieces formalisation with the latter; even as going by conceptual-patterning, it can be naively implied that similar conceptual wordings imply similar knowledge commitments and operant articulations. In the same vein, one can say that notions like spacetime, force, atoms, etc. in the physics ~~amplituding~~/formative>epistemic-totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality are inherent supposedly coherent ontological-commitment about 'axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions' that are in need of existential-contextualising-contiguity knowledge-reification as of ontological-primemovers-totalitative-framework ~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity, and logic can only be the 'inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions' as of such supposedly coherent ontological-commitment, and all the physics that is relevant is their further existential-contextualising-contiguity knowledge-reification as physics knowledge as of its ontological-veridical meaningfulness-and-teleology as can be validated and is falsifiable by ontological-primemovers-totalitative-framework ~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-

explicating-ontological-contiguity. Even mathematics it is often underestimated works rather on supposedly coherent ontological-commitment as of 'axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions', as of the existential-contextualising-contiguity knowledge-reification constraining implications of its 'equal sign', speaking of a self-conscious awareness that calculations should reflect-and-be-constrained as per calculations operative validation and falsifiability with regards to 'axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions', and with mathematical logic as of mathematics supposedly coherent ontological-commitment 'concurrent formatting as formalisation' being the 'inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions' towards that purpose. Such reflecting-and-constraining to 'axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions' can difficultly be said with regards to the overall atomising/taking-to-pieces formalisation approach as of its <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag presumption; which strangely enough has been subjected to no less than five major successive internal indictments but still keeps up its operative predilection of atomising/taking-to-pieces, with this author of the opinion that such an in-built institutional grip might be in many ways inducing diversion of intellectual and scholarly resources from a more profound advancement of philosophy for greater human transformation implications. It is important to grasp here that 'axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions' is superseding/preceding as of existence's ecstatic singularity, such that ontology supersedes logic which is rather ontology's 'inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions'. It is rather 'the ecstatic manifestation of existence and then human experience-and-interpretation of that ecstatic manifestation of

existence' that provides the 'apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct' insight about supposedly coherent ontological-commitment articulated as 'axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions' and not mere logic, with logic not able by itself to derive 'axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions' as it is often naively implied but instead reflecting the 'inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions' and as any such implied derivation is rather as of explicited/implicited coherence/contiguity with another/other 'transversally devolving-or-complementary ontological/axiomatic-construct conceptions' as of 'axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions'. Interestingly, such notions like experimentation, testing, trials, case studies, observational studies, interview, data analysis, content analysis, statistics and basically overall research orientations and research methods as of their formal study implications are just focussed-and-contrasted extensions, with regards to the general and normal day to day experience about living itself for the inspired construing of 'the ecstatic manifestation of existence and then human experience-and-interpretation of that ecstatic manifestation of existence' providing insight about supposedly coherent ontological-commitment in producing knowledge as meaningfulness-and-teleology; such that critically, appropriate philosophical phenomenal insight with regards to 'the general and normal day to day experience about living itself' as of observational and articulated ontological-pertinence sufficiency, and as supplemented with the grasp and engagement with other philosophical works, speaks of veridical scientific insight and validity subject to ontological-primemovers-totalitative-framework, and so because such well-inspired experience-and-interpretation from 'general and normal day to day experience about living itself' in the philosophical domain-of-study is generally more

ontologically profound and comprehensive as of conflatedness than any contrasted ad-hoc and focussed domain study, even though such domain studies may be insightfully relevant in specific ways but still as of the more profound background of well-inspired experience-and-interpretation from 'general and normal day to day experience about living itself'. The point here is to highlight that by its very given domain-of-study with respect to overall existence, philosophical knowledge more profoundly makes a holistic conflatedness demand on human living experience for the inspired construing of 'the ecstatic manifestation of existence and then human experience-and-interpretation of that ecstatic manifestation of existence' than other more specific domains-of-study for which ad-hoc and focussed domain study methods are pervasively decisive for ontological pertinence. But then this is more a question of 'expanded onticising construal of existence as of <amplituding/formative>epistemic-totalising~devolved purviews of existence so-construed as subject-matters/domains-of-study'. The ontological-veracity and epistemic-veracity of all such <amplituding/formative>epistemic-totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality are effectively as of the very same underlying congruent philosophical domain-of-study construal of ecstatic manifestation of existence but for their 'onticising specifisms of existence's ecstatic manifestation'; as so-implied as of overall existence metaphoricity/ecstasy reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-<imbued-and-educed–human-subpotency–epistemic-perspective-of-aestheticising-motif-and-apriorising/axiomatising/referencing-conceptualisation> as of supervening-conflatedness. Knowledge as meaningfulness-and-teleology, whether of underlying ontological-construal or ontical-construal, is epistemically validated as of supposedly coherent ontological-commitment as reflected by ontological-primemovers-totalitative-framework. Inherently, because human-subpotency supposedly coherent ontological-commitment is very much intimately linked with the ontological-

performance-<including-virtue-as-ontology> of human   as of prospective relative-ontological-completeness appraisal, it is always ever the case that as of human <~~amplituding~~/formative>epistemic-totalising~thrownness-in-existence the validation of knowledge as meaningfulness-and-teleology as of supposedly coherent ontological-commitment is equally as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<~~amplituding~~/formative>epistemic-totalising~purview-of-construal' or <~~amplituding~~/formative>epistemic-totalising~devolved–purviews-as-domains-of-construal-as-intrinsic-reality-or-ontological-veridicality constructs; which construal is necessarily as of conflatedness with respect to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<~~amplituding~~/formative>epistemic-totalising~purview-of-construal' or <~~amplituding~~/formative>epistemic-totalising~devolved–purviews-as-domains-of-construal-as-intrinsic-reality-or-ontological-veridicality and relative-ontological-completeness   as   of   human   limited-mentation-capacity-deepening-⟨<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩, thus invalidating the epistemic-veracity of constitutedness of knowledge. The implication here is that the epistemic-veracity of knowledge   as   meaningfulness-and-teleology   is   rather   as   of   the '<~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating construal as of existence' with <~~amplituding~~/formative>epistemic-totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality rather 'narrowing-construals of their specifically-implied human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-<imbued-and-educed–human-subpotency–epistemic-perspective-of-aestheticising-motif-and-apriorising/axiomatising/referencing-conceptualisation>, and hence of nested-congruence with existence'. This further points out that the traditional explicited constitutedness conception of the notion of cause-and-effect so-

implied herein as ontological-primemovers-totalitative-framework is actually epistemically-impertinent and flawed; as this traditional conception tends beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> to imply unconnectedness-with/not-in-nested-congruence with the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-

'human~~amplituding~~/formative>epistemic-totalising~purview-of-construal' or ~~amplituding~~/formative>epistemic-totalising~devolved–purviews-as-domains-of-construal-as-intrinsic-reality-or-ontological-veridicality, hence implicitly-or-explicitly liable to elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. This constitutedness nature of the notion of cause-and-effect so-implied veridically as ontological-primemovers-totalitative-framework arises as of the 'basic and mere mimicking and deployment' of supposedly science approaches and methodologies on the naïve assumption that their mere deployment is inherently of epistemic-veracity, such that such deployment when it undermines the 'inherently nested-congruence of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human~~amplituding~~/formative>epistemic-totalising~purview-of-construal' or ~~amplituding~~/formative>epistemic-totalising~devolved–purviews-as-domains-of-construal-as-intrinsic-reality-or-ontological-veridicality' is in effect just elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. Rather any such science approaches and methodologies striving to validate knowledge as meaningfulness-and-teleology by the supposedly coherent ontological-commitment reflected by ontological-primemovers-totalitative-framework as of existence-potency-prospective-digression-of—~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness, is necessarily instigated as from a philosophical depth of

contemplation as of 'coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness'. Insightfully, while in many ways such an elucidation hardly needs to be explicited in many a natural science domain-of-study as of their directly constraining cause-and-effect nature such that such nested-congruence with existence will often tend to arise naturally as of valid/invalid outcome constraining of ontological-primemovers-totalitative-framework as of existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness, this unexplicited implicitness should not be confused with the notion that the natural sciences are essentially reduced to their science approaches and methodologies; as is often and awkwardly naively construed from without in many a social domain-of-study. The fact is notwithstanding the 'onticising specifisms of existence's ecstatic manifestation' of the natural science domains-of-study, these are just as driven by a philosophical depth of contemplation as of 'coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness' as reflected in the often 'unspoken/unelaborated scientific hunches and fine-tuning' which is effectively what drives their deployed science approaches and methodologies for their sought after scientific reifying outcomes; and it is this subsuming/nestedness that keeps such science approaches and methodologies in nested-congruence with existential-contextualising-contiguity as of conflatedness; so-implied as of their supposedly coherent ontological-commitment reflected by ontological-primemovers-totalitative-framework as of existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness. In other words, science approaches and methodologies in reality are simply the extension of philosophical depth of

contemplation when it comes to 'onticising specifisms of existence's ecstatic manifestation' as of the ~~amplituding~~/formative>epistemic-totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality of natural sciences; with the implication that the philosophical depth of contemplation has to be undertaken, notwithstanding the fact that the implicited nature in the natural sciences of their onticising direct sublimating-validation/desublimating-invalidation outcomes as of ontological-primemovers-totalitative-framework will seem to wrongly imply otherwise. Such a philosophical depth of contemplation in nested-congruence as of 'coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness' is very often incomplete, of-divvied-theorisation and/or 'poor coherence of theoricisation with operant approaches and methodologies', when it comes to many a social domain-of-study; as quite often theorisation in many a social domain-of-study strives on disparateness, rather than a tendency to 'ontological-primemovers-totalitative-framework as of existence-potency-prospective-digression-of—~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness enforced' unifying coherence as in many a natural science domains-of-study, with the consequence that studies are often aloof to direct existential-contextualising-contiguity knowledge reifying exercise as of a tendency to technicality as of institutional-being-and-craft imprimatur, 'fallback to unquestioned/dogmatic normativities' and 'habituated dispositions' which priorly enframed subject-matters and institutional-setups structurally/paradigmatically stifle the possibility for conceptualisation as of existence-potency-prospective-digression-of—~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness sublimating-validation/desublimating-invalidation implications, beyond their conventioning-referencing existentialising—enframing. Ultimately the bigger

issue arises as of the poorly-singularised/poorly-immanented nature of many a social domain-of-study unlike the grand singularised/immanented '<~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating foregrounding—entailment-⟨narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting 'immanent-ontological-contiguity'⟩,–as-operative-notional~deprocrypticism' that are actually actively sought in the natural sciences; and this author portends that the suprastructuralism/postmodernism as of deprocrypticism ontology as 'true-ontology—as-of-Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology' holds the promise for such effective grand singularised/immanented social conceptualisation that doesn't dodge/ignore/disregard outstanding questions about the human existential reality including structural/paradigmatic biases arising beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> as of human emotional-involvement and sophistic/pedantic distortion of perception of reality so-implied in our present positivism–procrypticism 'contingent-ontology—as-of-conventioning-referencing' and just as well when 'science-ideology' seem to subvert and undermine science-in-practice. Worst still while in effect the idea of specialisation in many a natural science domain is often the natural progression of a 'comprehensively elucidated/reified foregrounding—entailment-⟨narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting 'immanent-ontological-contiguity'⟩,–as-operative-notional~deprocrypticism of the given natural science domain-of-study' with specialism more of a furtherance of such a foregrounding—entailment-⟨narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting 'immanent-ontological-contiguity'⟩,–as-operative-notional~deprocrypticism scheme in a strong arborescent syncing with the subject-matter general-theoretical-level, in

many such social domain-of-study of disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-'immanent-ontological-contiguity'> (including some science domains as well which naively tend to draw comprehensive social and human implications of their studies) the drawback to such specialisms is often associated with 'major interpretative loopholes at the general-theoretical-level of the subject-matter' with regards to the knowledge-reification implications of supposedly specialisation domains and their studies since such an approach fails to effectively validate its methodological and conclusive implications with respect to the subject-matter general-theoretical-level implied ontology as of the subject-matter specific epistemic-conception phenomenal/manifest~subpotency-<in-transitive-conflatedness–reflexivity,-in-the-full-potency-of-existence> as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-<imbued-and-educed–human-subpotency–epistemic-perspective-of-aestheticising-motif-and-apriorising/axiomatising/referencing-conceptualisation> so-reflected in its philosophical depth of contemplation as of 'coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness'. This weakness is often reflected in naïve use of statistics and methods as well as drawing out conclusions based rather on ordinary average-thinking interpretation as of human-subpotency 'rather than interpretations and conclusions ensuing naturally and arborescently as from existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness knowledge-reification implications derived from the general-theoretical-level of the subject-matter as reflecting ontological-contiguity' whereas this is ever always the case with good practice in the natural sciences and just as well as with an increasingly self-conscious social science as specifically upheld by postmodern-thought. For instance, the internal-coherence/nested-congruence

speaking of the underlying foregrounding—entailment-⟨narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting 'immanent-ontological-contiguity'⟩,–as-operative-notional~deprocrypticism implications articulated herein in reflecting the ontological-contiguity—of-the-human-institutionalisation-process can be garnered by the fact that all the knowledge-reification herein implied arises as of the very same underlying 'objectifying cogent unifying process and gesturing' as of 'the <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity of relative-ontological-incompleteness/relative-ontological-completeness', which is exactly what avails in the good practices of the natural sciences as driven by their 'cogent-unifying-operant-dynamics' whether with regards to say 'objectifying chemical processes articulation', 'objectifying physical principles articulation' or 'objectifying biological processes articulations', contrary to a practice of disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-'immanent-ontological-contiguity'> in many a social domain-of-study wherein supposedly reified knowledge 'hardly has any underlying implied knowledge-reification process/gesturing for its derivation' as 'cogent-unifying-operant-dynamics' such that these turn out to be poorly operant or non-operant with the conceptual-patterning gesturing of mere-referring-confused-with-explicating, mere-mentioning-confused-with-deriving and mere-conceptual-synonymising-confused-for-knowledge-reification, such that the underlying 'cogent-unifying-operant-dynamics' of the supposed knowledge-reification is hardly operantly existent or is operantly non-existent. Bizarrely, the blurriness of the social seem to be misconstrued as implying knowledge-reification in the social should reflect such blurriness-as-of-disparateness rather than the ultimate objectifying foregrounding—entailment-⟨narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting 'immanent-ontological-contiguity'⟩,–as-operative-notional~deprocrypticism, and

so by conjugating 'relative-ontological-completeness ~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity' together with 'subject-matter breadth and depth' to achieve such an overall subject-matter knowledge-reification as of objectifying foregrounding—entailment-⟨narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting 'immanent-ontological-contiguity'⟩,–as-operative-notional~deprocrypticism, in order to elucidate the blurriness. Such that quite often as of institutional practice the notion of foregrounding—entailment-⟨narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting 'immanent-ontological-contiguity'⟩,–as-operative-notional~deprocrypticism is often misconstrued non-aporetically/undilemmatically/unreframed/untransformed as 'merely bringing together disparate conceptualisations for their cross-examination (on the basis of prior reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation)' in a naïve substitution of the idea that foregrounding—entailment-⟨narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting 'immanent-ontological-contiguity'⟩,–as-operative-notional~deprocrypticism truly speaks of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint elicited reframing/transforming/reconstrual underlying 'cogent-unifying-operant-dynamics' that 'runs-through/deflates' implied conceptualisations in elucidating their ontological-veracity by its capacity to 'objectively deflate-all-conceptualisations as of operant ~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity in existential-contextualising-contiguity conflatedness' as herein implied (involving prospective originariness-parrhesia,–as–spontaneity-of-aestheticisation for veridical ontologisation/ontological-veracity/aestheticisation-towards-

ontology), rather than vague contrasting-and-comparison of disparate conceptualisations poorly reflecting underlying existential-contextualising-contiguity conflatedness; and further, such an insight of underlying 'cogent-unifying-operant-dynamics' as herein implied is often misconstrued as being monotonous (whereas such 'supposedly monotonous process/gesturing of knowledge-reification' reflecting inherent domains-of-study as of their given epistemic-conceptions phenomenal/manifest~subpotency-<in-transitive-conflatedness–reflexivity,-in-the-full-potency-of-existence> as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-<imbued-and-educed–human-subpotency–epistemic-perspective-of-aestheticising-motif-and-apriorising/axiomatising/referencing-conceptualisation> takes the form of the process/gesturing of knowledge-reification in say physics with the 'supposed monotony' of differential equations on physical variables, in chemistry with the 'supposed monotony' of valence bonding explaining chemical reactions or in biology with the 'supposed monotony' of gene regulation rather ultimately central to all biological processes), with the false implication of construing that disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-'immanent-ontological-contiguity'> is inherently convenient as of a mental-reflex oriented towards ordinary <a̶m̶p̶l̶i̶t̶u̶d̶i̶n̶g̶/formative>wooden-language-⟨imbued––averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ human-subpotency ways-of-looking-at-things rather than adopting-the-intellectual-hat for reifying the former in a mental-reflex oriented towards existence-potency-prospective-digression-of––<a̶m̶p̶l̶i̶t̶u̶d̶i̶n̶g̶/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness <a̶m̶p̶l̶i̶t̶u̶d̶i̶n̶g̶/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity ways-of-looking-at-things. Critically, lost to many naïve 'science ideologues' preaching about modelling the social

domains-of-study along the natural sciences, is the fact that more than mere adoption-and-mimicking of scientific methods and approaches, the truly pertinent and decisively scientific notion of the natural sciences lies with their 'cogent-unifying-operant-dynamics' from whence statistical, mathematical and other scientific methods become interpretatively intelligible; such that merely adopting-and-mimicking such methods without precedingly construing of the 'cogent-unifying-operant-dynamics' of any such social domain-of-study is 'massively uninsightful/shallow and subject to institutional-being-and-craft sophistic/pedantic misconstrual and manipulation' as it is rather such a 'cogent-unifying-operant-dynamics' as of existential-contextualising-contiguity conflatedness that points to the specific scientific methodology of relevance or irrelevance, given that in certain cases the qualitative nature of things will for instance render statistical and mathematical methods irrelevant. This further explains why Derridean deconstruction and Foucauldian discourse analysis have been found in many social domains-of-study, including domains like medical and healthcare practice for instance, to provide a 'cogent-unifying-operant-dynamics' that 'fully-address-in-depth social issues'; in the sense that Derridean deconstruction narrative or Foucauldian genealogy-knowledge-and-power-discourse narrative address the displacement/decentering-of-the-human-subject in reflecting the need to undermine human destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>—of-ontological-performance-<including-virtue-as-ontology> to further advance its constructive/institutionalising/nascent–sublimating-decisionality nature, thus overcoming underlying logocentrism as of prospective relative-ontological-completenenss transcendental-and-sublimity implications, and thus reflecting the fact that human knowledge is more completely a two-fold process involving building the right mindset-as-of-prospective-relative-ontological-completeness and thereof the knowledge for that given right mindset-as-of-prospective-relative-ontological-completeness as of the

<amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity of existential-contextualising-contiguity conflatedness. It is thus not surprising that naive disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-'immanent-ontological-contiguity'> leads to subject-matters and studies whose supposed knowledge-reification tend to be most heavily dependent on 'peering to a fault' of the contingent-ontology—as-of-conventioning-referencing of institutional-being-and-craft that is poorly constrained to existential-reality, rather than a peering process that is heavily constrained to existential-reality as of underlying supposedly coherent ontological-commitment as validatable and falsifiable by ontological-primemovers-totalitative-framework   as   of   existence-potency-prospective-digression-of—<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness as it is critically the case in the good practices of the natural sciences. The implication here is that the modern positivist 'identitive conception of meaningfulness-and-teleology' as of ontologically-flawed identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism   is basically caught up in its very own enframed <amplituding/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ which as of its presencing—absolutising-identitive-constitutedness is rather 'predisposed to a mental-reflex of construing concepts and conceptualisations in absolute terms of conceptual-patterning by mere referring, mentioning and synonymisation of concepts and conceptualisations as of a presencing—absolutising-identitive-constitutedness inclination in <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag   that   poorly   or   doesn't recognise   the   transforming   nature   of   concepts   and   conceptualisations   as   of

<amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity for prospective meaningfulness-and-teleology as knowledge-reification as associated with the suprastructuralism/postmodernism perspective in relative-ontological-completeness. This contrast with suprastructuralism/postmodernism 'difference conception of meaningfulness-and-teleology' as of ontologically-veridical difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism in its re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-〈imbued-postconverging/dialectical-thinking-'projective-insights'/'epistemic-projection-in-conflatedness'-of-notional~deprocrypticism-prospective-sublimation〉 opened-construct-of-meaningfulness-and-teleology so-implied with respect to 'the transcendental-signifier that is ecstatic-existence', as so-reflected in existential-contextualising-contiguity conflatedness for elucidating, deriving and knowledge-reification of concepts and conceptualisations as of <amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity of relative-ontological-incompleteness/relative-ontological-completeness. This explains why postmodern-thought cannot truly be understood in terms–as-of-axiomatic-construct of naïve identitive positivistic modern thought because the meaningfulness-and-teleology of postmodern-thought only arise rather in the reification process/gesturing involving the displacement/decentering-of-the-human-subject implied as of its <amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity of relative-ontological-incompleteness/relative-

ontological-completeness for elucidating, deriving and knowledge-reification of its concepts and conceptualisations; as naïve identitive positivistic modern thought in its <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag very often and systematically rather construes of such postmodern concepts and conceptualisations substitutively in its predisposition of presencing—absolutising-identitive-constitutedness by its mere referring, mentioning and synonymising of postmodern concepts and conceptualisatioons thus undermining the inherent postmodern-thought implied elucidation, derivation and knowledge-reification of concepts and conceptualisations, and as such identitive positivistic modern thought fundamentally fails to recognise and factor in the aforementioned postmodern-thought knowledge-reification process/gesturing as of <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity of relative-ontological-incompleteness/relative-ontological-completeness. Such a recurrent ontologically-flawed predisposition is tantamount to say construing Newtonian physics in the absolute terms–as-of-axiomatic-construct of its concepts and conceptualisations of say space, time, force, etc. to then project this predisposition by mere referring, mentioning and synonymisation of these Newtonian physics concepts and conceptualisations as if of Einsteinian physics in the hope that this will enable the elucidation, derivation and knowledge-reification of Einsteinian physics, whereas the latter implies an utterly different reification process/gesturing for its specific physics elucidation, derivation and knowledge-reification as of its <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity of relative-ontological-incompleteness/relative-ontological-completeness. It is rather the suprastructuralism/postmodernism reification process/gesturing as of <~~amplituding~~/formative>epistemic-causality-as-to-projective-

totalitative–implications,-for-explicating-ontological-contiguity of relative-ontological-incompleteness/relative-ontological-completeness that supersedingly induces postmodern-thought implied concepts and conceptualisations elucidation, derivation and knowledge-reification, just as the same can be said of Einsteinian physics reification process/gesturing as of ~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity of relative-ontological-incompleteness/relative-ontological-completeness in supersedingly inducing its specific implied concepts and conceptualisations elucidation, derivation and knowledge-reification of say space-time, force, etc. In both instances, when interpreted from the relative-ontological-incompleteness perspective in ontologically-flawed presencing—absolutising-identitive-constitutedness of naïve positivistic modern thought or Newtonian physics respectively, suprastructuralism/postmodern-thought and Einsteinian physics will be 'qualified negatively as relativistic' since the latter do not assume a presencing—absolutising-identitive-constitutedness with concepts like truth, space, time, force, etc. and the latter rather perceive these as ontologically-flawed elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity as from the relative-ontological-completeness perspective which emphasises construing existential-reality as it manifests itself as of existential-contextualising-contiguity in conflatedness; and likewise, the fact that existential-contextualising-contiguity in conflatedness 'epistemically implies human limited-mentation-capacity-deepening-(~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) for construing ontological-veracity', thus 'putting-in-question/deflating by difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism' all presencing—absolutising-identitive-constitutedness traditional conceptions beyond their simplistic

conceptual-patterning to reflect underlying ecstatic-existence, will tend to be construed from the relative-ontological-incompleteness perspective in presencing—absolutising-identitive-constitutedness as nominalistic rather than as of 'foregrounding—entailment-⟨narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting 'immanent-ontological-contiguity'⟩,–as-operative-notional~deprocrypticism acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument' as from the relative-ontological-completeness perspective. In other words, the concepts and conceptualisations of postmodern-thought are meaningless without their relevant and underlying theoretical background framework gesturing, and there is no point in construing them as of simplistic conceptual-patterning by mere referring, mentioning and synonymisation as if these are of positivistic modern thought theoretical background framework gesturing just as the same can be said of striving for the elucidation, derivation and knowledge-reification of Einsteinian physics concepts and conceptualisations as if of Newtonian physics concepts and conceptualisations by mere referring, mentioning and synonymisation as if of the latter. In both cases, the ⟨~~amplituding~~/formative⟩epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity of relative-ontological-incompleteness/relative-ontological-completeness implied displacement/decentering-of-the-human-subject points to different sense-of-conscious-representation-of-meaningfulness-and-teleology between the relative-ontological-incompleteness and relative-ontological-completeness such that the former is rather in pseudo-edginess/pseudo-incisiveness implying the need for its unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitablemeasuringinstrument-invalidating-measuring-⟨preconverging-or-dementing–apriorising-psychologism⟩ and cannot simply be projected as the latter which is what is rather truly and effectively of

A further naivety is the appreciation of postmodern knowledge-reification process/gesturing arises as of a general misunderstanding of what is generally implied with regards to any given knowledge-reification process/gesturing. As indicated before all subject-matters/domains-of-study effectively reflect existence's overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-<imbued-and-educed–human-subpotency–epistemic-perspective-of-aestheticising-motif-and-apriorising/axiomatising/referencing-conceptualisation> as of existential-contextualising-contiguity conflatedness with regards to <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity of relative-ontological-incompleteness/relative-ontological-completeness/relative-ontological-incompleteness, such that for instance even a naïve traditional conception of the physics domain-of-study as of atomising/taking-to-pieces constitutedness is shown to be veridically rather as of existential-contextualising-contiguity conflatedness going by the successive relative-ontological-completeness physics conception of such notions as space, time, etc. in <~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating development of successive theories say Cartesian, Newtonian, Einsteinian, String theory, etc. using the very same notions and derived-notions but with different implications. This <~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating nature of all domains-of-study in existential-contextualising-contiguity conflatedness as of <~~amplituding~~/formative>epistemic-causality-

as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity, speaks of the epistemic-veracity of the fact that 'all knowledge is truly developed as of a hermeneutic circle for relative-ontological-completeness' that involves human limited-mentation-capacity-deepening-⟨~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩. This hermeneutic circle knowledge-reification process/gesturing is furthermore reflected in both human scholarly-and-pedagagic exercise wherein subject-matters/domains-of-study are grasped in successive articulations of deeper and deeper hermeneutic insight as of maximalising-recomposuring-for-relative-ontological-completeness. The implication here is that postmodern knowledge-reification process/gesturing simply integrates this notion in the sense that top-level postmodern scholars articulate their knowledge-reification process/gesturing at its 'appropriate hermeneutic circle level of postmodern knowledge-reification' no different from say top-level physicists and natural scientists articulating their knowledge-reification process/gesturing at their 'appropriate hermeneutic circle level of top-level physics/natural-science knowledge-reification'. In both instances, the knowledge-reification process/gesturing implies that the scholar or student striving to engage at that top-level understanding, needs to grasp the 'preceding formative/pedagogic hermeneutic circle levels of knowledge-reification'. Such a supposed scholar or student cannot depart from ordinary/banal ~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ level of knowledge conception to then claim that the top-level physics/natural-science/postmodern-thought hermeneutic circle of knowledge-reification process/gesturing should be directly and fully graspable to it as of a ~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-

as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ predisposition to incrementalism-in-relative-ontological-incompleteness. The fact is the various pedagogic hermeneutic circle levels of any subject-matter/domain-of-study as of successive maximalising-recomposuring-for-relative-ontological-completeness are meant to transmit a '<~~amplituding~~/formative>epistemic-totalising/comprehensive organic-attitude-to-knowledge which is much more than just its technical knowledge veracity' and that '<~~amplituding~~/formative>epistemic-totalising/comprehensive organic-attitude-to-knowledge' is needed together with the induced technical dispensation of the lower hermeneutic circle of pedagogic knowledge-acquisition to then be able to engage with the higher/top-level scholarly/pedagogic hermeneutic circle of knowledge-reification in its maximalising-recomposuring-for-relative-ontological-completeness. It is important to understand here that the top-level physics/natural-science/postmodern-thought hermeneutic circle of knowledge-reification process/gesturing cannot strive to engage the supposed scholar or student at any such ordinariness/banal <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ level of knowledge conception, and implicited in its knowledge-reification gesturing/process is the notion that the prior/all-the-prior hermeneutic circle level(s) of the subject-matter/domain-of-study need to be grasped beforehand; and this is basically because such a top-level is imbued with fundamental and new knowledge-reification priorities. While in many ways the unblurred/sharply-delineated nature of the natural sciences renders such a 'hermeneutic circle of levels of understanding' more or less very transparent, with regards to the blurriness of the social such a postmodern-thought 'hermeneutic circle of levels of understanding' rather requires increasing familiarisation, habituation and contemplation with regards to such critical texts and analyses (and as is particularly necessary with regards to the 'parrhesiastic

nature of philosophy that is behind the engendering/parrhesiastic-aetheticisation of underlying reference-of-thought reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation and thereof derived domains-of-study reified-knowledge as from the underlying reference-of-thought reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation', and one's intemporal solipsistic level of parrhesiastic contemplation is itself a decisive element for the capacity to appreciate-and-understand philosophical thought more than just an issue of technical acquisition of philosophical knowledge as of mere knowledge mathesis/motif/throwness-disposition). More critically, social and philosophical knowledge are no different from any other type of knowledge subject to ontological-primemovers-totalitative-framework as of inherent existence/ontological implications, as fundamentally requiring contemplative reification arising with human limited-mentation-capacity-deepening-⟨<a̶m̶p̶l̶i̶t̶u̶d̶i̶n̶g̶/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩, with the implication that any philosophical, historial and social conception of knowledge is not an imprimatur totalisingly-disentailing—discretion/whim-of-thought exercise on the basis of 'relic-or-orthodoxy knowledge' induced disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-'immanent-ontological-contiguity'> but rather implying a furtherance of the overall hermeneutic exercise involved in the advancement of all human knowledge as of <a̶m̶p̶l̶i̶t̶u̶d̶i̶n̶g̶/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought, wherein all such knowledge-reification is a hermeneutic circle involving: the analyst's/philosopher's baseline re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-⟨imbued-postconverging/dialectical-thinking-'projective-insights'/'epistemic-projection-in-conflatedness'-of-notional~deprocrypticism-prospective-sublimation⟩ up-to-date knowledge-reification process/gesturing of the specific knowledge

area as of inherent existence/ontological implications whether say with a natural science domain like hereditary as of its given specificity or philosopher's thought as of the general ontological comprehensiveness of philosophical thought; to then credibly analyse the coherence of the given prior contribution on the basis of the analyst's/philosopher's baseline re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-⟨imbued-postconverging/dialectical-thinking-'projective-insights'/'epistemic-projection-in-conflatedness'-of-notional~deprocrypticism-prospective-sublimation⟩ up-to-date knowledge-reification process/gesturing of the specific knowledge area as of inherent existence/ontological implications as to what it brings and reflects about current knowledge-reification; and then the analyst's/philosopher's reflection on the shortfall in the ontological-performance-<including-virtue-as-ontology> of the given prior contribution while reflecting the epochal constraints for such a shortfall going beyond a construal of the given prior contribution as mere 'relic-or-orthodoxy knowledge'; and finally, the analyst's/philosopher's conceptual interpretation as its prospective contribution that is subject to validation and falsifiability as of inherent existence/ontological implications thus amenable to foregrounding—entailment-⟨narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting 'immanent-ontological-contiguity'⟩,–as-operative-notional~deprocrypticism with other so-constructed knowledge-reification, that are well beyond a disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-'immanent-ontological-contiguity'> orientation driven by the cultivation of mere imprimatur totalisingly-disentailing—discretion/whim-of-thought 'relic-or-orthodoxy knowledge' disposition. It is important to appreciate here that a history of postmodern-thought criticism driven by populism, media operations, false intellectual engagement and ontological-bad-faith/inauthenticity, is particularly telling not about postmodern thinkers knowledge-reification epistemic-veracity but rather 'the knowledge-

reification epistemic-veracity of such critics who often pride themselves on not understanding postmodern-thought then by a strange paradox have the knowledge to produce a profound criticism of postmodern-thought which they supposedly do not understand'. Even more critically, the question can be raised whether such critics profoundly appreciate the overall human knowledge-reification process/gesturing as herein articulated, and whether this very fact isn't linked to the knowledge-reification methodological difficulties arising in many social domains-of-study 'assuming a disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-'immanent-ontological-contiguity'> epistemic-disposition that is in many ways poorly constrained to existential-reality' with the result of their relative knowledge-reification passivity with regards to many a social issue 'but for adventures into social commentary divorced from genuine operant knowledge-reification implications'; and in this regards could it be that the true 'unsaid issue with suprastructuralism/postmodern-thought' lies with its parrhesiastic emphasis on the displacement/decentering-of-the-human-subject for the right mindset-as-of-prospective-relative-ontological-completeness and thereof the knowledge for that given right mindset-as-of-prospective-relative-ontological-completeness as of projected existential-contextualising-contiguity in conflatedness, an issue that has always been a difficult knot throughout the ontological-contiguity—of-the-human-institutionalisation-process but which inevitably has to be dealt with for the possibility of prospective human registry-worldview's/dimension's institutionalisation. Such weaknesses manifested by many a postmodern critic fundamentally points to an atomising/taking-to-pieces predisposition that poorly appreciates the <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity involved in knowledge-reification, and is reflected in a lack of parrhesiastic and hermeneutic insight that 'poorly grasp the philosophical analysis implications of the existential background/development of becoming-as-historiality/ontological-eventfulness/ontological-

aesthetic-tracing, as if philosophy only started as of our present positivist era with a naivety that seems to imply that all-that-should-have-been,-that-is-and-that-will-be,-as-of-the-human-potential is as of a modern positivist <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ in its given reference-of-thought reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation with no or poor insight of prior-and-prospective human becoming as of existential-contextualising-contiguity in conflatedness'; and so when it generally comes to analysing philosophical texts requiring a sense of parrhesia and hermeneutic insight. This lack is quite often reflected in such misconstrued analyses of traditional philosophical figures by a failure to understand the overall coherent narrative of such figures as of an atomising/taking-to-pieces predisposition to identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism ending up quite often claiming the incoherence of such figures and/or of their narrative accounts, and so in a 'naïve insight' arising exactly because the possibility for understanding requires the critic's own parrhesiastic insight and then hermeneutic conceptualisation to then develop the capacity to grasp first of all such traditional philosophical figures underlying knowledge-reification process/gesturing and thus be able to understand how such knowledge-reification process/gesturing develops and why, and thus enabling the grasp not only of the accuracy of narrated accounts and notions but equally insight about the nuanced and covertly narrated accounts and notions, and all these while being informed by the immediate and broader underlying social background and implicited social and philosophical stakes of contention-and-confliction. In this regards, more than just the simpleminded analysis of traditional philosophical figures, such parrhesiastic and hermeneutic analytical insight actually converges with the epochal philosophical implications of existential-contextualising-

contiguity in conflatedness and are actually more scientifically profound in that respect than meets the eye as to the fact that such analyses are more than just 'archivistic retrieving' but structurally/paradigmatically conceptualise the extended existential possibilities of falsifiability and validation in determining ontological-veracity as of a critical exercise of ~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought of 'coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness'. In this regards, such hermeneutic and parrhesiastic depth of analysis is more profoundly driven beyond the specific accuracy of narrative accounts about traditional philosophical figures but goes on to analyse the structural/paradigmatic possibilities of overall human social transformation reflected in the narrative accounts of such traditional philosophical figures. For instance, the ontological-veracity of Socratic philosophy is rather more strongly based on the overall social implications and underlying narrative of its novel universalising-idealisation that 'runs-through/is-deflating' by its event instigating traditional philosophical figures and schools, and as pursued by their successors including the stoics, cynics, etc. and as to its induced universalising-idealisation transformative meaningfulness-and-teleology infrastructure impact with respect to societies of the Mediterranean including the Roman empire and subsequent religio-political developments. In another respect, it is often touted from a presencing—absolutising-identitive-constitutedness orientation that Socratic philosophers were institutionally 'anti-democratic', going particularly by the Platonic emphasis on philosopher kings, by the naivety and mere token that the prevailing ancient Athens 'mob-rule democracy' is of the same conceptual-patterning as our modern conception of democracy; but this is rather unnuanced with regards to what was a more pressing question of good governance in Ancient Athens and in the sense that such a 'mob-rule democracy' is not what

prevails today and more critically the fact is the modern democracy model whether of direct or indirect manifestations is rather more critically informed by these criticisms of the Socratic philosophers (and not intellectual inspiration from any such mob-rule instigating sophists) wherein we rather place emphasis on 'informed expertising and expertising-institutions for the comprehensive process of our modern democracy' such that modern day crises of democratic governance with regards to bad governance, institutional crisis, economic crisis or undesirable wars are rather generally construed as arising from 'failure or sophistry of expertise and expertising-institutions' in need of better expertising, and furthermore major political calamities of the 20th century leading to totalitarian governments and their instigation of genocides arose exactly due to misinformed populist democracy. Paradoxically, this insight validates the point advanced herein that human meaningfulness-and-teleology is critically more than just its mechanical-knowledge reproducibility— mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation but rather an organic-knowledge as of ontological-faith-notion-or-ontological-fideism—imbued- underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential- reality dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic- growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit- drivenness–equalisation that then feeds into prospective originariness-parrhesia,–as– spontaneity-of-aestheticisation; emphasising as of any given registry- worldview's/dimension's specific limited-mentation-capacity that knowledge 'more profoundly lies with the knowledge-reification gesturing and organic implications', just as we cannot simplistically interpret the importance of Aristotelian science in terms of its constitutive elements as earth, water, air, fire and aether on a naïve presencing—absolutising- identitive-constitutedness basis from the vantage perspective of our modern positivism (as being at the receiving backend of the institutional-cumulation/institutional-recomposure in

reflecting the ontological-contiguity—of-the-human-institutionalisation-process) but rather the more critical insight lies with its novel and transformative universalising-classificatory knowledge-reification gesturing as opening up the possibility for prospective human reconceptualisation of science providing the backdrop from which modern science took off from the medieval times to the present. Likewise, the transformative nature of budding positivism more than just as garnered from the precised narrative accounts about budding positivist thinkers, lies more profoundly with its meaningfulness-and-teleology infrastructure impact on the developing enlightenment social developments and as this budding positivism metaphoricity epistemic-ricochettingly/transepistemically brought about our positivism/rational-empiricism modern society. The analyses of human becoming so-implied as of parrhesiastic and hermeneutic development is in of itself a pure science that is epistemically-derivable as of 'coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness', and so beyond the specific accuracy of narrative accounts of traditional philosophical figures and besides such parrhesiastic and hermeneutic insight actually informs about the ontological-pertinence of such narrative accounts. In another respect, even with a most natural sense of parrhesia and hermeneutic insight, many a figure predispose to atomising/taking-to-pieces analysis, including founders of this orientation and other of its leading figures, have ultimately come to realise its relative underlying platitude with respect to prospective human transcendence-and-sublimity such that a prevailing notion has developed within as to imply philosophy doesn't necessarily involve a transcendental-and-sublimity promise as of a nombrilistic institutional-being-and-craft predisposition; and as such a merely reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation knowledge culture that 'dodges potential parrhesiastic implications from its very own tentative analyses'

speaks of 'a supposed intellectualism' that does not lead prospective social progress as it becomes a sophistic/pedantic problem for prospective social progress especially so when it originates from the 'mother of all disciplines'. The fact is 'philosophy just as any of its derived domain-of-study is not the ownership of any institutional culture' but rather 'a human abstract-property co-opted institutionally in deferential-formalisation-transference to the extend that that deference fulfils its promise of knowledge-reification for prospective human transcendence-and-sublimity'. In this regards, the transcendental-and-sublimity possibilities of 7.5 billion humans today and human posterity cannot be construed as hanging on such terms of institutional-being-and-craft dispositions prevailing in many a social domain-of-study and even some of the natural sciences as of naïve science-ideology, and so because beyond the temporal human disposition to contemplate of existence as of a-lifespan-of-existence-implications there need to be 'human intemporal contemplation that abstractly lives/exists beyond a-lifespan-of-existence-implications to fetch for prospective possibilities of meaningfulness-and-teleology infrastructure', something which a-lifespan-of-existence-implications projection as of a <~~amplituding~~/formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>) is not structured/paradigmed to do! But then the phenomenological question arising with respect to the fact that many a social domain-of-study 'tend to assume a disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-'immanent-ontological-contiguity'> epistemic-disposition that is in many ways poorly constrained to existential-reality', is how exactly does such lack of 'cogent-unifying-operant-dynamics' affect the realisation of the full knowledge-reification potentiality of domains-of-study as of their supposedly coherent ontological-commitment as reflected by ontological-primemovers-totalitative-framework as of existence-potency? Insightfully, this fundamentally

has to do with the contrastive implications in construing ontological-primemovers-totalitative-framework as of good-practice/epistemic-veracity and bad-practice/epistemic-impertinence for knowledge-reification; wherein objectifying foregrounding—entailment-⟨narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting 'immanent-ontological-contiguity'),–as-operative-notional~deprocrypticism as good-practice/epistemic-veracity of knowledge-reification involves the construal of ontological-primemovers-totalitative-framework as of 'cogent-unifying-operant-dynamics of primemovers' so-construed veridically as 'ontological-primemovers-totalitative-framework as of existential-contextualising-contiguity conflatedness', whereas disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-'immanent-ontological-contiguity'> as bad-practice/epistemic-impertinence of knowledge-reification involves the construal of ontological-primemovers-totalitative-framework as 'disjointing/disparateness/disentailing of primemovers' so-construed wrongly as 'ontological-primemovers-totalitative-framework in constitutedness outside existential-contextualising-contiguity'. Thus 'disjointing/disparateness/disentailing of primemovers as disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-'immanent-ontological-contiguity'>' basically undermines the veridical underlying 'ontological-totalitative-framework as of existential-contextualising-contiguity conflatedness', and thus undermines aetiologisation/ontological-escalation predicative-effectivity–sublimation-⟨as-to-underlying-ontological-commitment⟩.

'disjointing/Disparateness/Disentailing of primemovers as disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-'immanent-ontological-contiguity'>' undermines the inherent 'cogent-unifying-operant-dynamics of primemovers' reflecting existential-contextualising-contiguity conflatedness, such that the supposed exercise of knowledge-reification ends up 'losing the

acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of axiomatic-constructs as reflective of existential-reality'; as of the flawed disjointing/disparateness/disentailing of overall inherent existential-reality acuity/perspicacity/astuteness/edginess/incisiveness, and further reflected variously as temporal over-emphasising and/or underemphasising/ignoring of primemovers reflecting 'ontological-totalitative-framework as of existential-contextualising-contiguity conflatedness', and so due to 'human-subpotency presencing—absolutising-identitive-constitutedness <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as well as lack of prospective intemporal parrhesiastic aestheticisation for prospectively renewed reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation' thus undermining existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity of relative-ontological-incompleteness/relative-ontological-completeness. While in many a natural science 'the high-and-immediate subjection to existential/experimental falsifiability and validation as of <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity of conceptualisations' acts as a strong constraining effect in relatively undermining 'disjointing/disparateness/disentailing of primemovers' and rather encouraging 'cogent-unifying-operant-dynamics of primemovers' reflecting existential-contextualising-contiguity conflatedness, 'the blurriness and remoteness of falsifiability and validation as of <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity of conceptualisations' in many a social

domain-of-study relatively undermines 'good-practice/epistemic-veracity selectiveness towards cogent-unifying-operant-dynamics of primemovers' reflecting existential-contextualising-contiguity conflatedness, as the latter is inclined to an institutional-disposition that construes of the unification of disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-'immanent-ontological-contiguity'> substitutively as merely 'human-subpotency institutional-practice driven unification as of vague contrasting-and-comparison' rather than as of 'existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness driven foregrounding—entailment-⟨narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting 'immanent-ontological-contiguity'⟩,–as-operative-notional~deprocrypticism'. This equally explains this author emphasis that ontological-veridicality cannot be construed as the mutual-agreement as of human-subpotency but rather as of the constraining sublimating-over-desublimating implications of existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness on human-subpotency. Human meaningfulness-and-teleology as of its ontological-performance-<including-virtue-as-ontology> is the outcrop of human-subpotency conscious-able aestheticisation of ecstatic-existence. Human aestheticisation speaks of the extensive manifest outcomes/outfits/shells—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating,-so-reflected-as-institutional-manifestations of human meaningfulness-and-teleology as from: human 'perceptive motif-manifest aestheticisation as of human conscious-able imagery', 'mere-tracial-and-symbolisation-manifest aestheticisation as of human conscious-able works-of-art/artistry', and 'signification-as-of-existential-reality-manifest aestheticisation as of human conscious-able intermediating ascriptivity'. Basically, human meaningfulness-and-

teleology refers to human-subpotency conscious-able aestheticisation of ecstatic-existence as of varying human ontological-performance-<including-virtue-as-ontology> in veridically reflecting existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness.

Underlying the ontological-performance-<including-virtue-as-ontology> of human-subpotency conscious-able aestheticisation of ecstatic-existence is both the human instigative-drivenness construed as originariness-parrhesia,–as–spontaneity-of-aestheticisation and human reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation reflected-together in all human meaningfulness-and-teleology, as-of-their-inversely-varying-emphasis; and more specifically 'as institutive of underlying reference-of-thought', their implied spontaneity and reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation conjointly drive 'human existence historiality/ontological-eventfulness/ontological-aesthetic-tracing creative aestheticisation of meaningfulness-and-teleology'. In this regards, originariness-parrhesia,–as–spontaneity-of-aestheticisation is marked by its greater taxing of human limited-mentation-capacity and specifically so as it 're-stakes/put-back-at-stake the capacity of human ontological-performance-<including-virtue-as-ontology> by its renewing spontaneity-of-aestheticisation' over already set/established prior reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation; and so as 'human corresponding-sublimation-inducing,-profound-and-creative acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation' so-construed as originariness-parrhesia,–as–spontaneity-of-aestheticisation (which is actually constrained to '<~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating existential-contextualising-contiguity foregrounding—

This inversely-varying-emphasis of originariness-parrhesia,–as–spontaneity-of-aestheticisation and reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation, given human limited-mentation-capacity implications, is reflected in all human aetheticisation construals whether as of reflex aetheticisation construct, instant aetheticisation construct, shallow aetheticisation construct, dragged-out aetheticisation construct, profound aetheticisation construct or subsuming aetheticisation construct with respect to sought out ontological-performance-<including-virtue-as-ontology> implications. The inevitability of this relation of originariness-parrhesia,–as–spontaneity-of-aestheticisation and reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation in all human aestheticisation of meaningfulness-and-teleology lies with the fact that, however human limited-mentation-capacity-deepening-⟨<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ implications of more and more profound reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation given acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and-teleology aposteriorising/logicising/deriving/intelligising/measuring, human-subpotency is ever always unduly prospectively-aporetic/prospectively-undecidable/prospectively-dilemmatic/prospectively-indeterminate/prospectively-

deficient/prospectively-limitative/prospectively-constraining in its ontological-performance-<including-virtue-as-ontology> construal of ecstatic-existence to which it only bears an 'as of' semblance (in any of its given presencing) that isn't constraining in anyway on 'the becoming of ecstatic-existence/transcendental-signifier' such that ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications-<as-to-existence-potency-prospective-digression-of—<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness–as-to-the-ontological-normalcy/postconvergence-projective-perspective,-to-which-latter-human-subpotency-projectively-conflates-to-in-order-to-overcome-our-prospective-epistemic-abnormalcy/preconvergence> from such human-subpotency prior reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation ever always warrant prospective originariness-parrhesia,–as–spontaneity-of-aestheticisation and thus the epistemic-ricochetting/transepistemicity prospective implications for renewed reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation; and so, in order to 'prospectively elevate the ontological-performance-<including-virtue-as-ontology> of human aestheticisation of meaningfulness-and-teleology in the construal of existential-reality' while overcoming the stalling in ontological-performance-<including-virtue-as-ontology> underlying the mere complexification of the prior reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation. This inversely-varying-emphasis of originariness-parrhesia,–as–spontaneity-of-aestheticisation and reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation is so-reflected with: prospective reactualising of 'perceptive motif-manifest aestheticisation as of human conscious-able imagery' (as derived from the reconstruing/reconsideration of both mere-tracial-and-symbolisation-manifest aestheticisation and signification-as-of-existential-reality-manifest aestheticisation);

prospective reactualising of 'mere-tracial-and-symbolisation-manifest aestheticisation as of as of human conscious-able works-of-art/artistry', for instance in the dynamic reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation reflected with genres of music as of their originariness-parrhesia,–as– spontaneity-of-aestheticisation setting-up/establishing of drifting/derivating apriorising/axiomatising/referencing—re-originariness/re-origination; and prospective reactualising of 'signification-as-of-existential-reality-manifest aestheticisation as of human conscious-able intermediating ascriptivity', and this is more fundamentally with respect to human underlying supposedly coherent ontological-commitment reflected by ontological-primemovers-totalitative-framework as of existence-potency-prospective-digression-of— <~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,– in-epistemic-conflatedness, and so-construed from a philosophical depth of contemplation as of 'coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness'. The latter ('signification-as-of-existential-reality-manifest aestheticisation as of human conscious-able intermediating ascriptivity') relates for instance to the ontological-contiguity—of-the-human-institutionalisation-process: in the dynamic reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation reflected within the successive registry-worldviews/dimensions reference-of-thought-level 'acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for devolving meaningfulness-and-teleology aposteriorising/logicising/deriving/intelligising/measuring' as both <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩, and as

the originariness-parrhesia,–as–spontaneity-of-aestheticisation enabling the institutional-cumulation/institutional-recomposure to occur reflecting the ontological-contiguity—of-the-human-institutionalisation-process as of prospective intemporal parrhesiastic ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality reasoning-through/messianic-reasoning renewing of reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation for the succession of registry-worldviews/dimensions reference-of-thought. Obviously given human emotional-involvement, such intemporal parrhesiastic instigation of prospective reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation is ascetic as it emphasises that the ontological-performance-<including-virtue-as-ontology> of human meaningfulness-and-teleology as of existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness sublimating-validation/desublimating-invalidation implications is not compromisable, and so over temporal nihilistic dispositions of prior reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation susceptible to compromising ontological-performance-<including-virtue-as-ontology> of human meaningfulness-and-teleology as of human-subpotency <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ and sophistic/pedantic dispositions. Ultimately, human meaningfulness-and-teleology as of 'human-subpotency conscious-able aestheticisation of ecstatic-existence as of existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness is ever always a 'more and more profound enlarging-framework

of reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation' which is patternly developed-and-anchored as from its driven originariness-parrhesia,–as–spontaneity-of-aestheticisation; and so at the thresholds of prior reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation unduly aporetic/undecidable/dilemmatic/indeterminate/deficient/limitative/constraining ontological-performance-<including-virtue-as-ontology> wherein originariness-parrhesia,–as–spontaneity-of-aestheticisation re-stakes/puts-back-at-stake epistemic-ricochettingly/transepistemically the reconstruing of existential-reality despite the taxingness-of-originariness, and so as of a perception of unduly aporetic/undecidable/dilemmatic/indeterminate/deficient/limitative/constraining ontological-performance-<including-virtue-as-ontology> of prior reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation meaningfulness-and-teleology as of existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness sublimating-validation/desublimating-invalidation implications. It is important to grasp that the extensive manifest outcomes/outfits/shells—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating,-so-reflected-as-institutional-manifestations of human meaningfulness-and-teleology aestheticisation (as of human 'perceptive motif-manifest aestheticisation as of human conscious-able imagery', 'mere-tracial-and-symbolisation-manifest aestheticisation as of human conscious-able works-of-art/artistry', and 'signification-as-of-existential-reality-manifest aestheticisation as of human conscious-able intermediating ascriptivity'), is reflective of underlying 'hermeneutic reactualising as <~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought' human aestheticisation process with respect to living-development–as-

to-personality-development meaningfulness-and-teleology, institutional-development–as-to-social-function-development meaningfulness-and-teleology and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology meaningfulness-and-teleology, and so epistemic-ricochettingly/transepistemically as of 'more and more profound enlarging-framework of reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation' with respect to unduly aporetic/undecidable/dilemmatic/indeterminate/deficient/limitative/constraining ontological-performance-<including-virtue-as-ontology> wherein originariness-parrhesia,–as–spontaneity-of-aestheticisation re-stakes/puts-back-at-stake the reconstruing of existential-reality despite the taxingness-of-originariness. This human aestheticisation process involves inversely-varying-emphasis of originariness-parrhesia,–as–spontaneity-of-aestheticisation and reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation (so-construed as of 'high/low parrhesiastic-pressure-of-aestheticisation' with respect to 'existentially developing/becoming-as-of-social-integration-and-evolving relevant meaningfulness-and-teleology'), reflecting the 'more and more profound enlarging-framework of reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation'. For instance with regards to living-development–as-to-personality-development meaningfulness-and-teleology, human aestheticisation is reflected in childhood to adulthood social development wherein a child's development as of its 'existentially developing/becoming-as-of-social-integration-and-evolving relevant meaningfulness-and-teleology' involves initially a more direct focus on instant-sensations-and-carefreeness with the child aspiring for social-integration-and-evolving at successive stages as it grows up with an increasing sense of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension in a 'high parrhesiastic-pressure-of-aestheticisation for

social-integration-and-evolving' as of its 'more and more profound enlarging-framework of reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation' that ultimately involves major stages like language acquisition achievement, schooling achievement, greater social autonomy and responsibility achievement, and developing into an adult with even greater dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension as for instance the notion of pleasure is increasingly substituted with that of work-and-pleasure, etc. It is critical to grasp here that such living-development–as-to-personality-development human aestheticisation of meaningfulness-and-teleology ('high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving' as of a 'more and more profound enlarging-framework of reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation') in existential-contextualising-contiguity conflatedness involving 'hermeneutic reactualising as ~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought' always entails the three human aestheticisation manifest elements: 'perceptive motif-manifest aestheticisation as of human conscious-able imagery', 'mere-tracial-and-symbolisation-manifest aestheticisation as of human conscious-able works-of-art/artistry', and 'signification-as-of-existential-reality-manifest aestheticisation as of human conscious-able intermediating ascriptivity'. This human aestheticisation insight is informing about what exactly is meant by such major stages of human personality development like language acquisition achievement, schooling achievement, greater social autonomy and responsibility achievement, etc. in the sense that the underlying/induced 'high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving' already speaks of the 'hermeneutic reactualising as ~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought' long before a child's language acquisition achievement recognition, schooling achievement

recognition, greater social autonomy and responsibility achievement recognition, etc. More specifically we can thus factor in that language as formally defined, and so specifically as this reflects a particular phonetic/written signification construct, is rather in reality the 'teleological outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation' of a rather 'complex sense of meaningfulness-and-teleology aestheticisation' induced from a 'high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving' driven 'hermeneutic reactualising as <~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought' that starts long before a child's 'recognised' acquisition of any such 'language-as-phonetic/written-signification-construct outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation', as the child already has a 'complex sense of meaningfulness-and-teleology aestheticisation' before its 'recognised' acquisition of 'language-as-phonetic/written-signification-construct outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation', and that acquisition of a specific 'language-as-phonetic/written-signification-construct outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation' in due course (though annunciative) is rather secondary-and-prolongative of the child's evolving underlying human 'complex sense of meaningfulness-and-teleology aestheticisation' as of its 'high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving'. It is this underlying 'complex sense of meaningfulness-and-teleology aestheticisation' that is truly of 'existentially developing/becoming-as-of-social-integration-and-evolving relevant meaningfulness-and-teleology' ontological analysis in existential-contextualising-contiguity conflatedness (and as it may then be reflected in practice with regards to its analysis on the basis of any specific 'language-as-

phonetic/written-signification-construct outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation'); and so, reflecting 'its prior-not-recognised-as-language-acquisition stage', 'its recognised-as-language-acquisition stage' and 'its subsequent-deepening-of-recognised-as-language-acquisition stage and as this extends to specialised language or secondary language developments'. Beyond 'living-development–as-to-personality-development meaningfulness-and-teleology aestheticisation' (as implied above with living-development–as-to-personality-development aestheticisation of underlying becoming 'complex sense of meaningfulness-and-teleology aestheticisation' as of the 'more and more profound enlarging-framework of reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation' of language), with human 'institutional-development–as-to-social-function-development meaningfulness-and-teleology aestheticisation' as of any given conventioned human 'language-as-phonetic/written-signification-construct outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation', such an insight about 'high/low parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving' as to the implications of 'more and more profound enlarging-framework of reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation' is highly informing about 'language-as-phonetic/written-signification-construct outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation' and so highlighting the collective social 'existentially developing/becoming-as-of-social-integration-and-evolving relevant meaningfulness-and-teleology' in reflection of 'institutional-development–as-to-social-function-development meaningfulness-and-teleology aestheticisation' of any given conventioned human 'language-as-phonetic/written-signification-construct outcome/outfit/shell—construed-historically-as-of-the-specifically-

aestheticised-incrusting/plating/coating-as-institutional-manifestation'. It is important thus to grasp that 'language-as-phonetic/written-signification-construct outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation' is rather established institutionally as of the collective social human 'complex sense of meaningfulness-and-teleology aestheticisation' that drives human social institutions, and that while 'language-as-phonetic/written-signification-construct outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation' does reflect this collective social human 'complex sense of meaningfulness-and-teleology aestheticisation' rather as an 'institutional-development–as-to-social-function-development meaningfulness-and-teleology outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation/conflatedness conceptions' in existential-contextualising-contiguity conflatedness, it is ontologically-flawed for 'language-as-phonetic/written-signification-construct outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation' to be construed in constitutedness as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity (even as on occasion such an ontologically-flawed construal in identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism may be incidentally/accidentally/ad-hocly seemingly veridical but ontologically-flawed in principle from the perspective of the precedence over 'language-as-phonetic/written-signification-construct outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation' of the collective social human 'complex sense of meaningfulness-and-teleology aestheticisation' as of the 'more and more profound enlarging-framework of reproducibility—

This is so because 'human ~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity purposefulness-reflexivity for prospective relative-ontological-completeness orientation' supersedes any such human 'institutional-development–as-to-social-function-development meaningfulness-and-teleology outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation/conflatedness conceptions like language', in its existential-contextualising-contiguity conflatedness (even as the latter had been precedently contributive to that purposefulness-reflexivity) such that such a human 'institutional-development–as-to-social-function-development meaningfulness-and-teleology outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation/conflatedness conceptions like language' is more critically a passive ready-at-hand conception that is epistemically/notionally ever always critical only in existential-contextualising-contiguity conflatedness as it is adapted to 'human ~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity purposefulness-reflexivity for prospective relative-ontological-completeness orientation'. This basically explains the constantly developing nature of human 'institutional-development–as-to-social-function-development meaningfulness-and-teleology outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation/conflatedness conceptions like language' which are not truly absolutely of

present-at-hand as to wrongly imply presencing—absolutising-identitive-constitutedness-of-meaningfulness-and-teleology (even as the privileged social conceptualisation of say language is as of 'language as the complete possibilities of language as of an absolute present conception usually of a privileged end-institution purpose'). Insightfully, we can garner that it is 'human ~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity purposefulness-reflexivity for prospective relative-ontological-completeness orientation' implied as of maximalising-recomposuring-for-relative-ontological-completeness that fundamentally renders/makes human institutional-development–as-to-social-function-development meaningfulness-and-teleology outcome/outfit/shell—construed-historially-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation/conflatedness conceptions' to be necessarily as of existential-contextualising-contiguity in conflatedness and not in constitutedness as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. In another respect, 'living-development–as-to-personality-development meaningfulness-and-teleology aestheticisation' is of 'high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving' with regards to human childhood to adulthood personality development as of the forming individual need to assimilate/integrate human progressive cultural cumulation, and this is very much in contrast to 'institutional-development–as-to-social-function-development meaningfulness-and-teleology aestheticisation' that rather cumulatively holds-on-to and complexifies the culturally cumulated outcomes/outfits/shells—construed-historially-as-of-the-specifically-aestheticised-incrusting/plating/coating,-so-reflected-as-institutional-manifestations from historially accrued 'high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving' construed as of human institutional-cumulation such as with regards to any specific

'language-as-phonetic/written-signification-construct outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation'. This will explain why the ontological-contiguity—of-the-human-institutionalisation-process as of 'institutional-development–as-to-social-function-development meaningfulness-and-teleology aestheticisation' is 'highly parrhesiastically economical' as reflected in the overall ontological-contiguity—of-the-human-institutionalisation-process 'more and more profound enlarging-framework of reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation'; wherein only the perception of unduly aporetic/undecidable/dilemmatic/indeterminate/deficient/limitative/constraining ontological-performance-<including-virtue-as-ontology> of prior reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation epistemic-ricochettingly/transepistemically elicits 'high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving'. This is so because given the taxingness-of-originariness any such 'high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving' has to resolve considerably unduly aporetic/undecidable/dilemmatic/indeterminate/deficient/limitative/constraining ontological-performance-<including-virtue-as-ontology> of prior reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation for such 'institutional-development–as-to-social-function-development meaningfulness-and-teleology aestheticisation' underlying 'hermeneutic reactualising as <~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought' to be worth the epistemic-ricochetting/transepistemicity effort, with the preference for any such effort rather directed at the complexification of the prior reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation. This will explain for instance why as of the furtherance

in reflecting the ontological-contiguity—of-the-human-institutionalisation-process, the 'institutional-development–as-to-social-function-development meaningfulness-and-teleology aestheticisation' with regards to language development hasn't warranted any 'high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving' with respect to new language creation but this has rather been directed towards language complexification as of advancing human knowledge and construction-of-the-Self. In the bigger picture, the above human meaningfulness-and-teleology aestheticisation analysis (and as reflected specifically with language acquisition) is reflective of the fact that the specific human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-<imbued-and-educed–human-subpotency–epistemic-perspective-of-aestheticising-motif-and-apriorising/axiomatising/referencing-conceptualisation>, reflected in human underlying supposedly coherent ontological-commitment, is ultimately potentiated/ontologisable as of human 'intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen for originary/as-of-event reasoning-through/messianic-reasoning'. This instigation of human aestheticisation of meaningfulness-and-teleology so-reflected in 'human existence historiality/ontological-eventfulness/ontological-aesthetic-tracing creative aestheticisation of meaningfulness-and-teleology' driven as of originariness-parrhesia,–as–spontaneity-of-aestheticisation in renewing reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation involves an 'overall flux of human meaningfulness-and-teleology of varying temporal-to-intemporal ontological-performance-<including-virtue-as-ontology>s' wherein such a flux construed as human aporetic dissemination is confronted to 'existence-potency-prospective-digression-of—<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness validative/invalidative

It is important here to grasp that despite any human registry-worldview/dimension <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag ontologically-flawed inclination to think otherwise, its given underpinning–suprasocial-construct and its given <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ 'are not the absolute possibility of ontological-performance-<including-virtue-as-ontology>', as of their induced reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation, for the prospective aestheticisation of human intemporal-as-ontological meaningfulness-and-teleology given that such underpinning–suprasocial-construct and <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ are effectively rather secondnatured institutionalisation outcome of reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation. In this

regards, the more profound basis for prospective generation of human intemporal-as-ontological meaningfulness-and-teleology arises as of transepistemic/epistemic-ricochetting originariness-parrhesia,–as–spontaneity-of-aestheticisation that renews reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation as of prospective existence-potency-prospective-digression-of—<s>amplituding</s>/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness sublimating-validation/desublimating-invalidation implications of human limited-mentation-capacity-deepening-⟨<s>amplituding</s>/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩. This underlying insight is reflective of the fact that 'secondnaturedness is no substitute for originariness as of the <s>amplituding</s>/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity of relative-ontological-incompleteness/relative-ontological-completeness', as originariness is ever always about 'intemporal parrhesiastic seeding-promise dimensionality-of-sublimating—<s>amplituding</s>/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation of the registry-worldview/dimension meaningfulness-and-teleology beyond just its mechanical reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation for the possibility of further prospective parrhesiastic instigation as from ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality' in contrast to the essentially mechanical/mere-form of reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation of secondnaturedness. This fundamental originariness and secondnaturedness conundrum in reflecting the ontological-contiguity—of-the-human-institutionalisation-process is reflected by the fact that the human Self is ever

always in disseminative constructiveness/destructuring defining its given registry-worldview/dimension shiftiness-of-the-Self as of 'a subpar existence-potency-prospective-digression-of—<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness/human-subpotency disposition to construe as of full existence-potency-prospective-digression-of—<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness at its uninstitutionalised-threshold' its prior secondnatured reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation; and so in obfuscation and pedantry. The possibility for prospective human transcendence-and-sublimity has ever always been able to arise at such uninstitutionalised-thresholds of registry-worldviews/dimensions not by a 'false pretence' that the ontologically-veridical underlying issue of prospectively-aporetic/prospectively-undecidable/prospectively-dilemmatic/prospectively-indeterminate/prospectively-deficient/prospectively-limitative/prospectively-constraining ontological-performance-<including-virtue-as-ontology> of prior reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation in the construal of ecstatic-existence, is one in want of candid analysis as of the very same prior reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation but rather the ontological-veracity of originariness-parrhesia,–as–spontaneity-of-aestheticisation for prospective/renewed reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation; as perfectly understood by the Socratic philosophers advancing of universalising-idealisation relative to the Ancient sophists non-universalising inclination, budding positivists/rational-empiricists advancing of positivism/rational-empiricism relative to the medieval-scholastics pedantic dogmatism and equally as of our positivism–procrypticism this author construes practices of disparateness-of-conceptualisation-

In other words, the uninstitutionalised-thresholds of all registry-worldviews/dimensions as of their shiftiness-of-the-Self are the aporetic point at which their languages collapse into 'wooden languages' that are from a prospective perspective not profound but mechanical/mere-form reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation thus inherently raising up the underlying ontological-veracity issue of their prospectively-aporetic/prospectively-undecidable/prospectively-dilemmatic/prospectively-indeterminate/prospectively-deficient/prospectively-limitative/prospectively-constraining ontological-performance-<including-virtue-as-ontology> of prior reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation that can only be dealt with as of prospective originariness-parrhesia,–as–spontaneity-of-aestheticisation so-construed as 'intemporal parrhesiastic seeding-promise dimensionality-of-sublimating—~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation of the registry-worldview/dimension meaningfulness-and-teleology beyond just its mechanical reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-

The fact is that the possibility for prospective institutionalisation transcendence-and-sublimity is ever always underdetermined, as between prior reasoning-from-results/afterthought and prospective reasoning-through/messianic-reasoning is the 'aporia of underdetermined madness' that human ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality dimensionality-of-sublimating—~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation renders possible as prospective ontological-veracity is only then epistemic-ricochettingly/transepistemically salvageable as of existence-potency-prospective-digression-of—~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness sublimating-validation/desublimating-invalidation implications as of ontological-primemovers-totalitative-framework. That is, between reasoning–as-reasoning-from-results/afterthought and reasoning–as-reasoning-through/messianic-reasoning is 'aporetic underdetermined madness' that renders a pretence of hanging unto prior reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation more like 'a pretence of already grasping the complete implications of ecstatic-existence while ignoring/not-referencing/registering/decisioning the epistemic-ricochetting/transepistemicity implications of prospective relative-ontological-completeness' and rather speaks in effect of a nihilistic ~~amplituding~~/formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>); and this temporal nihilism at uninstitutionalised-

thresholds has ever always been associated with a corresponding intemporal asceticism for opened-construct-of-meaningfulness-and-teleology (not partaking as of transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing in any such 'wooden language') that is the sine qua non for the habituation of the possibility of prospective transcendence-and-sublimity. Overcoming this 'aporia of underdetermined madness' despite human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, has ever always been the absolutely determinative possibility for the fulfilment of the construction-of-humanity-as-of-its-developing-construction-of-the-Self enabling human transcendence-and-sublimity to arise; as its overcoming has ever always elicited humankind's ability to ascetically go beyond its 'prior comfort zone' to reconstrue its future emancipatory possibilities. In this regard, the idea of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality dimensionality-of-sublimating—<amplituding/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation, however its recurrent re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-⟨imbued-postconverging/dialectical-thinking-'projective-insights'/'epistemic-projection-in-conflatedness'-of-notional~deprocrypticism-prospective-sublimation⟩ intemporal instigation as of originariness-parrhesia,–as–spontaneity-of-aestheticisation in reflecting the ontological-contiguity—of-the-human-institutionalisation-process, speaks to the fact that the sense of prospective base-institutionalisation in prior recurrent-utter-uninstitutionalisation is potentially an actionable possibility as of the latter's 'parrhesiastic structure' construed as 'its-given-developed-level-of-Will/Spirit/Drive in dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as of human self-

But then in reflecting the ontological-contiguity—of-the-human-institutionalisation-process what is easily lost is exactly 'this most vital but brittle ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality dimensionality-of-sublimating—~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation element of meaningfulness-and-teleology instigating the successive transcendences-and-sublimity', as the very renewing of reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation seems to induce a 'deferment of human instinctual responsibility' as to temporally imply 'human ontological-performance-<including-virtue-as-ontology> strategies are valid by their mechanical/mere-form alignment to any such reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation' inducing human naïve untransvaluated–temporal-intemporality as of the shiftiness-of-the-Self of the corresponding registry-worldview/dimension wherein the eliciting of a mutual sense of temporality/shortness within such a framework as of ~~amplituding~~/formative>epistemic-totalising~self-referencing-

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as it reflects upon the preceding registry-worldview/dimension 'notional~procrypticism/notional~disjointedness as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism' in order to construe/assess/supersede by its induced virtue at the prospective constructiveness-of-ontological-performance-<including-virtue-as-ontology> over vices-and-impediments at the destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>—of-ontological-performance-<including-virtue-as-ontology> as of living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. The overall emphasis herein of the conjunction between psychopathic manifestation with the ontological-contiguity—of-the-human-institutionalisation-process arises in the sense that as previously articulated the 'postlogism/psychopathy-as-of-preconverging-or-dementing–apriorising-psychologism destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>—of-ontological-performance-<including-virtue-as-ontology>' manifestation of any given registry-worldview/dimension is just a difference-in-kind/difference-in-aposteriorising-or-logicising on the basis of the same <~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument construed as of the 'underlying apriorising/axiomatising/referencing–psychologism/mental-schema' of the given registry-worldview's/dimension's reference-of-thought-devolving meaningfulness-and-teleology. Thus a registry-worldview's/dimension's 'postlogism/psychopathy-as-of-preconverging-or-dementing–apriorising-psychologism destructuring-threshold-

Hence, 'all the human home that exists' is as of the full implications of the perpetuation in reflecting the ontological-contiguity—of-the-human-institutionalisation-process as it explains what is the human and its becoming beyond any epochally blinded nombrilism. But then while realistically the ontological-contiguity—of-the-human-institutionalisation-process is driven as of human dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation and secondnatured institutionalisation dispositions with respect to the fact that the human <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ disposition of all registry-worldviews/dimensions is very much capable of countenancing however fragile prospective relative-ontological-completeness implications; that is, until when that fragility is exploited by temporal sophistic/pedantic dispositions in wrongly and cynically implying the equivalence of prospective intemporal-projection and prior temporal-projection as to when ancient Sophists elicit the contemplation of Socratic philosophers

intemporal universalising-idealisation narrative in terms of their epochal ⟨amplituding/formative⟩wooden-language-⟨imbued—averaging-of-thought-⟨as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications⟩⟩ non-universalising narrative, as to when medieval-scholasticism fail to engage prospective budding positivism/rational-empiricism meaningfulness-and-teleology and harkening rather to its dogmatism pedantry, and as to when modern day intellectual-muddlement-⟨blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-⟨amplituding/formative⟩epistemic-totalising–in-relative-ontological-completeness⟩ seems to be blinded to the implication of 'prospective event/aporetic thinking implied deprocrypticism or preempting—disjointedness-as-of-reference-of-thought' and take the route of eliciting disparateness-of-conceptualisation-⟨unforegrounding-disentailment,-failing-to-reflect-'immanent-ontological-contiguity'⟩ unconstrained to existential-reality as of ontological-primemovers-totalitative-framework such that even the idea of a human existential narrative tends to be put into question together with a tendency to question the pertinence of historically transformative figures and movements, and so in a 'disparateness-of-conceptualisation-⟨unforegrounding-disentailment,-failing-to-reflect-'immanent-ontological-contiguity'⟩ impotence-inducing exercise' (as to the fact that where there is uncertainty, whether real or unreal, ontological implications cannot then be effectively derived). The manifest reality of human ontologisation/ontological-veracity/aestheticisation-towards-ontology is thus one that is ever sub-ontological-⟨as-to-the-limitation-of-human-subpotency-in-its-reifying-and-empowering-reflexivity-of-the-full-potency-of-existence⟩ as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor. This is reflected inherently in the fact that given

human limited-mentation-capacity, human aestheticisation is ever always reactualising/recomposuring towards a fully ontologising reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation as of acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument; that is, human aestheticisation as from prospective originariness-parrhesia,–as–spontaneity-of-aestheticisation instigation develops by recomposuring as from 'perceptive motif-manifest aestheticisation as of human conscious-able imagery' to 'mere-tracial-and-symbolisation-manifest aestheticisation as of human conscious-able works-of-art/artistry' and then to 'signification-as-of-existential-reality-manifest aestheticisation as of human conscious-able intermediating ascriptivity' with the latter achieving the given registry-worldview/dimension reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation ontologisation/ontological-veracity/aestheticisation-towards-ontology. Basically, human aestheticisation, in reflection of human limited-mentation-capacity and human limited-mentation-capacity-deepening-⟨<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ possibility, ever always involves a 'human disposition in portraying/reflecting/construing existence/ontological-veracity' as of 'presencing—absolutising-identitive-constitutedness finitism of aestheticisation' and as of 'human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint non-presencing-<as-to-perspective-ontological-normalcy/postconvergence>/transcending infinitism of aestheticisation possibilities' which then define together the aestheticisation specificity of the culturally cumulated outcomes/outfits/shells—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating,-so-reflected-as-institutional-manifestations explaining why human

institutional constructs like language, cultural practices, etc. are inherently of their given cultural specificness. In this regards, the social-setup in its furtherance of human aestheticisation towards human ontologising of meaningfulness-and-teleology is ever always drawn between 'presencing—absolutising-identitive-constitutedness finitism of aestheticisation' rather in constitutedness as of its reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation and 'human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint non-presencing-<as-to-perspective-ontological-normalcy/postconvergence>/transcending infinitism of aestheticisation possibilities' rather in conflatedness as of instigative originariness-parrhesia,–as–spontaneity-of-aestheticisation; explaining the structural/paradigmatic nature of human living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as to the respective possibility bound by either a non-transcendental <amplituding/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ and a transcendental opened-construct-of-meaningfulness-and-teleology with regards to reference-of-thought-level acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. This structurally/paradigmatically defined existential framework of knowledge-reification of any given registry-worldview/dimension is known as its 'parrhesiastic structure' and is intimately associated with its given shiftiness-of-the-Self. The 'parrhesiastic structure' speaks of 'a-given-developed-level-of-Will/Spirit/Drive

This is fundamentally what explains why the state of recurrent-utter-uninstitutionalisation cannot all of a sudden start reasoning as of base-institutionalisation, and the latter as of universalisation, the latter as of positivism/rational-empiricism and prospectively the latter as of deprocrypticism. The overall point here is that it is the 'parrhesiastic structure' as of parrhesiastic-aestheticisation   that   'invents/creates'   the   prospective   registry-worldview's/dimension's   reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation, and carries the 'intemporal parrhesiastic seeding-promise dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation of the registry-worldview/dimension meaningfulness-and-teleology beyond just its mechanical reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-

Such an 'absolutising disposition with the registry-worldview/dimension mere-form of reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation' is what underlies disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-'immanent-ontological-

In other words, adherence to prospective knowledge-reification as of human temporality/shortness arises as of the existentially constraining untenability of positive-opportunism induced reproducibility—mathesis/motif/thrownness-disposition,–as–

reproducibility-of-aestheticisation but doesn't necessarily elicits intemporal parrhesiastic seeding-promise dimensionality-of-sublimating—~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation for prospective knowledge-reification as of 'a weak social mental-reflex that any parrhesiastic ~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought of ontological-veracity will put in question prior reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation as can be reflected in normativities, conventions, practices, etc.', and this is what explains the prevalence of disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-'immanent-ontological-contiguity'> at uninstitutionalised-thresholds as 'mere-form of reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation' temporally takes pride-of-place and so unconstrained to prospective existence-potency-prospective-digression-of—~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness sublimating-validation/desublimating-invalidation implications 'as of parrhesiastic ~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought of ontological-veracity' thus providing the framework for ontological-bad-faith/inauthenticity and sophistry hanging on unto secondnatured normativities, conventions, practices, etc. thus rendering prospective transcendence-and-sublimity impotent. Thus 'the possibility for prospective human transcendence-and-sublimity is ever always a renewed parrhesiastic structure' that as of its reasoning-through/messianic-reasoning can overcome such a ~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩, and so counterintuitively to any given registry-worldview/dimension notion/sense of

transcendence-and-sublimity as rather occuring along its already secondnatured established reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation normativities, conventions, practices, etc.; and this very much explains why the successive registry-worldviews/dimensions are successive parrhesiastic instigation of renewed reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation. Further the 'renewed parrhesiastic structure' in undermining prior 'reference-of-thought-level and thus reference-of-thought-devolving-level of disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-'immanent-ontological-contiguity'>' implies 'foregrounding—entailment-⟨narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting 'immanent-ontological-contiguity'⟩,–as-operative-notional~deprocrypticism as of existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness, and not 'unification as of human-subpotency elicited contrasting-and-comparison' as the latter just leads to a complexification of disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-'immanent-ontological-contiguity'> along the very same reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation as of an ontologically-flawed human-subpotency dialogical-equivalence that 'allows the mortals that we are to average our thoughts' rather than existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness imposing ontological-veracity as of prospective ontological-primemovers-totalitative-framework. This explains why the universalising-idealisation of Socratic philosophers, budding positivists thought and herein as well suprastructuralism/postmodern-thought are all characterised in their knowledge-reification not by an articulation along the prior established reproducibility—

mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation but rather prospective existence-potency-prospective-digression-of—⟨~~amplituding~~/formative⟩epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness constraining parrhesiastic aestheticisation of prospective reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation, that in all three cases looks down upon the notion of human-subpotency sophistic/pedantic pretence of foregrounding—entailment-⟨narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting 'immanent-ontological-contiguity'⟩,–as-operative-notional~deprocrypticism that is no more than complexification of disparateness-of-conceptualisation-⟨unforegrounding-disentailment,-failing-to-reflect-'immanent-ontological-contiguity'⟩. In furtherance of this prospective epistemic-ricochetting/transepistemicity indictment, this author laments a covert practice of an intellection that has been critical of postmodern-thought but in latter years 'reformulates the implications of postmodern ideas' as original thought even as such practices supposedly passes their institutional thresholds of admissibility with the caveat

though that much of such thought is poorly operant given its ad-hoc depth of knowledge-reification gesturing/process as of disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-'immanent-ontological-contiguity'> implications, and along the same parrhesiastic prospective epistemic-ricochetting/transepistemicity line this author is very much befuddled of a perverted exercise to undermine the originality of this work supposedly because of the theoretical orientation by a naïve ad-hoc synonymising exercise that this author is very much confident fails as it overlooks the coherence and knowledge-reification gesturing/process articulated herein. Generally, such perversion of thought as it discreetly networks fails society in the long-run when it seems to assume a foreshadowing posture with regards to what can be thought or not thought as of a 'realpolitiking of thought' exercise. Such intellectual shadiness of vague highmindedness is no more different from the gross inanity of ancient sophists or medieval-scholastic pedants, as of naïve shallowminded incrementalism-in-relative-ontological-incompleteness as of a poor sense of intemporality/longness beyond earthly materialism. In another respect this author's re-elaboration of postmodern difference conception, as of ontologically-veridical difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism contends that this effectively captures-and-reflects the evolving reality of existential-contextualising-contiguity knowledge-reification of human meaningfulness-and-teleology, and so over analytic atomising/taking-to-pieces formalisation approach as of identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-

determinism that goes on to analyse as if all the analysis that has ever been is as of presencing—absolutising-identitive-constitutedness while ignoring the ~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity of human underlying relative-ontological-incompleteness/relative-ontological-completeness with respect to temporal-to-intemporal ontological-performance-<including-virtue-as-ontology> as from past to present to future with regards to existential-contextualising-contiguity knowledge-reification. Another criticism is the inclination for such atomising/taking-to-pieces formalisation predisposition to start out with ad-hoc disparate conceptualisations as of identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism that often poorly reflect the 'ecstatic holism/nested-congruence' of existential phenomenality rather than the contrary approach that delves directly in existential-contextualising-contiguity and then reifies-out conceptualisations as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism. The implication here is that quite often when required to explicate social phenomena outside the framework of such abstract atomising/taking-to-pieces formalisation approach, what happens is that responses will often tend not to be as of the direct import of such analytical atomising/taking-to-pieces formalisation frameworks of supposed reification/elucidation, but rather as extra-contemplative articulations and commentaries that in many ways fall back into the very ~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ that is supposed to be reified but now under the imprimatur of authority. This is very much unlike the case with proponents of 'ecstatic holism/nested-congruence' whose social and existential analyses are just a natural reification/elucidation projection as from within the 'ecstatic

holism/nested-congruence' of existential phenomenality framework of their study. Furthermore this contrast equally produces other distractive effects in the sense that when such abstract atomising/taking-to-pieces formalisation analysis is presumed to be more profound as of its poorly nuanced interpretation of existential-contextualising-contiguity in a rather blurry social domain-of-study, then it assumes that issues of mutual misunderstanding are due to poor writing, poor use of language or ambiguous conceptualisations of such 'ecstatic holism/nested-congruence' proponents thought, failing to factor in the existential-contextualising-contiguity dereifying effects of abstract atomising/taking-to-pieces formalisation as decontextualising and pulling-apart the 'ecstatic holism/nested-congruence' of existential phenomenality, wherein the constraining effect of existence/intrinsic-reality/ontological-veridicality as the 'superior party' is ignored/overlooked on the naïve token of working on specific aspects or specific interpretation, and so out of sync with existence/intrinsic-reality/ontological-veridicality. Again, what is loss of critical pertinence here is exactly what is implied by 'meaningfulness-and-teleology/knowledge as of existential-contextualising-contiguity knowledge-reification', as being rather all about elucidating the necessary-existential-states-and-conditions so-construed as 'axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions', and not presuming-and-skirting-around them, before further expanding on the elucidation/reification of their manifestations as validated or can be falsifiable by ontological-primemovers-totalitative-framework; or otherwise this simply leads to a loss of the sense of ontologically-veridical reality. Ultimately, such abstract atomising/taking-to-pieces formalisation tendencies and further as of a frequently gestational knowledge state with respect to the possibility for prospective social transcendence-and-sublimity, induces a penchant for flawed intellectually supplementing rhetorisation rather than reification as well as naïve focussing on disparateness of conceptualisations-and-interpretations as of lack or poor constraining

ontological-primemovers-totalitative-framework disposition rather than an orientation towards the 'transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing or transversal-analysis-towards-validatory-selectivity-for-foregrounding—entailment-⟨narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting 'immanent-ontological-contiguity'⟩,–as-operative-notional~deprocrypticism of conceptualisations-and-interpretations' as constrained to ontological-primemovers-totalitative-framework which is what further reifies the body of knowledge by enabling existence as the transcendental-enabling/sublimating/transcendental-signifier to continually select the trace/ontological-aesthetic-tracing of sound and complementary conceptualisations-and-interpretations out of a genuine ecstatic reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation disseminative insight, with unsound/superseded conceptualisations-and-interpretations being discarded thereafter. Concretely, we can easily appreciate the greater pertinence of a Foucauldian statement of relative truth as of ontologically-veridical difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism, construable rather as a more precise theoretical, conceptual and operant notion of truth by its existential-contextualising-contiguity knowledge-reifying <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation as reflected with 'intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-

explicating-ontological-contiguity' as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology; and so when compared to the atomising/taking-to-pieces formalisation notion of truth-value as of ontologically-flawed identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism. Such a construal of relative truth doesn't imply a lack of commitment in truth, but is utterly the contrary as of 'a much more critical and ontologically decisive commitment to truth and growing truth' as any pertinent critique can garner in Foucault's truth-delogocentering works/research-programme and its extensive interpretational citability in other scholarly works/research-programmes as of its scholarly advancing of the humanities and social sciences; as his works/research-programme quest for truth 'expands the conception of truth beyond our presencing—absolutising-identitive-constitutedness <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag mental-dispositions as if all the world that has ever existed is as of presencing—absolutising-identitive-constitutedness', and displaces/decenters the human subject as of its presencing—absolutising-identitive-constitutedness cloistered-consciousness for a more mature and nuanced conception of truth and the implications of truth; and so, beyond the contemplation of naïve atomising/taking-to-pieces formalisation dereifying rhetorisations that border on <amplituding/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ populist interpretations rather than elevating human ontological construal of the social domain-of-study! It is herein contended that existence—as-the-absolute-a-priori-of-conceptualisation as of its ecstatic singularity actually points to appropriate attitude/mental-disposition/care–and–episteme as of ontologically-veridical difference-conflatedness-as-totalitative-reification-in-

singularisation-as-veridical-epistemic-determinism for existential-contextualising-contiguity knowledge-reification of every domain-of-study; as the fact remains that the domain-of-study of the social world is utterly different as of existential-contextualising-contiguity from the domain-of-study of the natural world, and not to mention that even within the natural world or social world there are equally subject-matters peculiarities that require their own specific approaches to elucidation/reification as of existential-contextualising-contiguity – and this said without undermining the idea of the ecstatic singularity of existence from which all such subject-matter-human-specialisms ecstatically arise as veridically implied by singularisation/epistemic-immanence/veridical-epistemic-determinism speaking of an underlying ecstatic commonness though not common phenomenality. Thus, in all cases the overall implications for the optimum advancement of human knowledge is most critically about constraining knowledge to existential-contextualising-contiguity elucidation/reification rather than just mere formalisation as of conceptual patterning for its own sake. The fact is the natural sciences are already naturally constraint to existential-contextualising-contiguity knowledge-reification by the implicited immediate-constraining ontological-primemovers-totalitative-framework transcendence-and-sublimity whereas the human world is rather blurry in this regard and hence requires the requisite explicited insight about existence as of its ecstatic singularity for its appropriate approach for transcendence-and-sublimity. In many ways such an insight is often implied in the natural sciences as of its relative transparency of cause-and-effect reification of existential-contextualising-contiguity but not by a naïve/mimicked formalisation as of mere conceptual patterning. Consider in this regard the implications of interpreting natural science transcendental-enabling/sublimating knowledge say between Mendelian heredity and DNA genetics or say Descartes Physics and Newton and Leibniz Physics on the basis of naïve formalisation as of conceptual patterning, then in many ways the latter contributors would be poorly appreciated given that the spectacular

transcendence-and-sublimity implications of their studies are massively overlooked by a poor appreciation that knowledge is critically all about formalisation as of conceptual patterning rather than existential-contextualising-contiguity knowledge-reification <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity. Actually, formalisation in the natural sciences and mathematics is the effective 'formatting outcome' of an implicited creative process of existential-contextualising-contiguity knowledge-reification. This process is one of human limited-mentation-capacity-deepening-⟨<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ as of 'repeating/repetition of maximalising-recomposuring-for-relative-ontological-completeness for existential-contextualising-contiguity knowledge-reification, inducing successive differences of ontological-performance-<including-virtue-as-ontology> of meaningfulness-and-teleology as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<~~amplituding~~/formative>epistemic-totalising~purview-of-construal' with increasing prospective relative-ontological-completeness' reflected as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism, and not just a prior formalisation exercise as mere conceptual patterning as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity reflected as of identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism; with 'repeating/repetition of maximalising-recomposuring-for-relative-ontological-completeness for existential-contextualising-contiguity knowledge-reification, inducing successive differences of ontological-performance-<including-virtue-as-ontology> of meaningfulness-and-teleology as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<~~amplituding~~/formative>epistemic-totalising~purview-of-

construal' with increasing prospective relative-ontological-completeness' rather reflected as of ontologically-veridical difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism which implied singularisation/epistemic-immanence/veridical-epistemic-determinism enables transcendence-and-sublimity which is 'concurrently formatted as formalisation'. Thus we know of the recurrent stories of 'mathematics invented by physicists or mathematicians working under the physics existential-contextualising-contiguity guise' as of the insight of their existential-contextualising-contiguity knowledge-reification of the physics domain-of-study, with such mathematics 'very often not well presented but essentially sublime', and thereafter such existential-contextualising-contiguity initially reified mathematics is further reified as of mathematics more generalised-level of existential-contextualising-contiguity insight while 'exquisitely formalised in concurrence'. This reality of 'repeating/repetition of maximalising-recomposuring-for-relative-ontological-completeness for existential-contextualising-contiguity knowledge-reification, inducing successive differences of ontological-performance-<including-virtue-as-ontology> of meaningfulness-and-teleology as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<~~amplituding~~/formative>epistemic-totalising~purview-of-construal' with increasing prospective relative-ontological-completeness' is very much obvious from the accounts of 'successive partial contributions-and-failures' that lead to major breakthroughs in the natural sciences as of the 'very same <~~amplituding~~/formative>epistemic-totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality';

with this ontologically-veridical difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism 'repeating/repetition of maximalising-recomposuring-for-relative-ontological-completeness for existential-contextualising-contiguity knowledge-reification, inducing successive differences of ontological-

performance-<including-virtue-as-ontology> of meaningfulness-and-teleology as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<~~amplituding~~/formative>epistemic-totalising~purview-of-construal' with increasing prospective relative-ontological-completeness' construed as occurring within the very same scientist, across scientists of the same interest-of-study in a generation, and across scientists of the same developing interest-of-study cross-generationally as of the 'very same <~~amplituding~~/formative>epistemic-totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality'. In this regard, we can appreciate that as of their differing ontological-performance-<including-virtue-as-ontology> the threshold where the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs projects its prospective relative-ontological-completeness is considered as postconverging-or-dialectical-thinking–apriorising-psychologism, and striving to operate the classical-mechanics—axiomatic-constructs in its projected prior relative-ontological-incompleteness is effectively preconverging-or-dementing–apriorising-psychologism; even though both address the 'very same physics <~~amplituding~~/formative>epistemic-totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality'. The implications of flawed formalisation credo as of conceptual patterning identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism implied dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism extends, as of its flawed primacy of conceptual patterning on the basis of a conception of knowledge that tends to belittle and trivialise original knowledge contributions geared towards creative existential-contextualising-contiguity knowledge-reification while naively overrating contributions to knowledge of a conceptual patterning orientation, in further blurring the study of the social with mischaracterisations and poor appreciation of transcendence-and-sublimity implications

and ultimately induces self-perpetuating artifices of institutional-being-and-craft that mechanically 'paradoxically then supersede knowledge' as of its very organic authenticity. One recurrent consequence of the formalisation credo that keeps on arising for instance in the analytic tradition of philosophy as of its non-holism or 'poor conflatedness of holism/nested-congruence', is that the underlying conception about growing the body of human knowledge seems to be the 'incrementing of all such conceptual patterning conceptualisations' going by their cross-analysis as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. Basically, the underlying implication of conflatedness, and so over naïve constitutedness, is that all ontologically-veridical conceptualisations can only be veridical by their 'abstract reduction to the holistic/nested-congruence implication of existence—as-the-absolute-a-priori-of-conceptualisation as of its ecstatic singularity', and thus implies the articulation of all such ontologically-veridical conceptualisations as of singularisation/epistemic-immanence/veridical-epistemic-determinism; while avoiding any such conceptualising naivety that may imply 'existence in existence' as this can only lead to flawed conceptualisations, <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and logocentrism as of constitutedness. Critically, no concepts have any veridical meaningfulness-and-teleology but only rather as of their conflatedness with existence, and cannot be construed as 'existing in existence' as implied by constitutedness which just leads to ontologically-flawed dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism implied identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism. We can appreciate that the naïve conceptual patterning of conceptualisations in many a social domain-of-study failing to disambiguate divergent knowledge implications-and-contributions as of existential-contextualising-contiguity

knowledge-reification end up transforming subject-matters into descriptive enunciations of weak existentially explanatory and predicative capacity. The entire project of human meaningfulness-and-teleology is nothing but one of creatively elucidating/reifying existence/existential-possibilities, 'with no out of existence knowledge project', which is merely delusional. Thus, what is critically missing here is the fundamental constraining reality for creative existential-contextualising-contiguity knowledge-reification, and so over the mere possibilities for abstracting conceptualisations. This very much explains why many of those who subscribe to the formalisation credo have a poor existential projection and appreciation for grasping the existential-contextualising-contiguity reifying gestures of postmodern-thought and other critical theories, and end up often haranguing such orientations by striving to constrain them on the basis of vague abstractions as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. This failure in fully appreciating the import of ontologically-veridical difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism 'repeating/repetition of maximalising-recomposuring-for-relative-ontological-completeness for existential-contextualising-contiguity knowledge-reification, inducing successive differences of ontological-performance-<including-virtue-as-ontology> of meaningfulness-and-teleology as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human~~amplituding~~/formative>epistemic-totalising~purview-of-construal' with increasing prospective relative-ontological-completeness' as of implied singularisation/epistemic-immanence/veridical-epistemic-determinism has fundamental ~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity, as transcendence-and-sublimity only arise as of human expansion of its reifying grasp of existential-contextualising-contiguity. Consider in this regard that the repeated maximalising-

recomposuring-for-relative-ontological-completeness articulation by this author on the theme of conceptual patterning here further complements as of further articulated reification of this very theme elsewhere herein, more than just about a mechanical repeating; and this knowledge-reification insight often goes missing with many a subscriber to the formalisation credo, as of reification along the three frames indicated above (as of same scholar interest-of-study, scholars of the same generation interest-of-study and scholars cross-generationally developing interest-of-study). In this regard, the contribution of post-structuralist scholars like Foucault, Derrida, Lyotard, Lacan, Deleuze have now and then been belittled as not original, as of a very much naïve conceptual patterning conception of knowledge; going by their profound association with earlier scholars and more specifically Heidegger and Nietzsche. From a creative existential-contextualising-contiguity knowledge-reification perspective of knowledge construal, this is no less silly as dismissing and belittling as unoriginal the ideas of later physicists since their contributions are just more evolved formalisation as of conceptual patterning of concepts originarily/as-of-event available to earlier contributors to the 'traditional classical mechanics axiomatic-construct' propounded by Newton together with the conceptual patterning influences of Galileo, Descartes, Leibniz, etc. as of the conceptual patterning of such concepts like space, time, force, etc. Such a conclusion certainly reflects a 'massive ontological dearth' in failing to appreciate the creative existential-contextualising-contiguity knowledge-reification <amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity of the latter contributors in both instances. This further speaks of a poor grasp of the human knowledge project as being all about further reifying human grasp of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<amplituding/formative>epistemic-totalising~purview-of-construal', with the intellectual's job to the best of their abilities rather being about orientating its effort for the

best possibility to further this goal whether as of critical altogether new thought development or critical recomposuring of prior thought, or both. More likely than not the headway made by prior scholars means that the good intellectual knows as of the true goal of human knowledge advancement beyond just institutional-being-and-craft that their best effort is rather in further advancing/reifying/elucidating the headway as of 'repeating/repetition of maximalising-recomposuring-for-relative-ontological-completeness for existential-contextualising-contiguity knowledge-reification, inducing successive differences of ontological-performance-<including-virtue-as-ontology> of meaningfulness-and-teleology as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<amplituding/formative>epistemic-totalising~purview-of-construal' with increasing prospective relative-ontological-completeness'. This is especially the case where such headway mirrors 'pure-ontology' articulation, as there is only one ontological as existential reality. This orientation and rearticulating exercise by postmodern-thought speaks rather of an assurance that they are on a solid ontological pathway just as physicists orientation and redevelopment of the ontic lines setup by the early Galileos, Newtons and Leibnizes speaks of an assurance of ontological depth, in both instances as of their existential-contextualising-contiguity knowledge-reification. Ultimately, and it is this author's contention, the various scholarly contributions to postmodern-thought can be understood as rather pointing to the structural/paradigmatic disseminative implications of futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism or preempting—disjointedness-as-of-reference-of-thought ontologically-veridical difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism. We can equally appreciate that much of the disseminative rational-empiricism/positivism implications of the works of such pioneers like Copernicus, Galileo, and specifically Descartes, etc. created 'a

rational-empiricism/positivism disseminative metaphoricity orientation making the human subject thinking as of mathesis universalis conceptualisation central' reflected by Descartes 'I think therefore I am', and as followed and adopted to resolve various human knowledge issues by subsequent thinkers in successive generations as of human ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality reasoning-through/messianic-reasoning wherein in their states of undecidability/aporia 'left it' to existence as of ontological-primemovers-totalitative-framework as the veritable transcendental-signifier/transcendental-enabling/sublimating to 'continually select' rational-empiricism/positivism disseminative orientations for transcendence-and-sublimity, leading to our present refined positivism/rational-empiricism conception! But then because our present 'positivism–procrypticism human subject is rather undecentered' relative to the prospective postmodern—deprocrypticism self-conscious mindset we fail to truly appreciate the structural/paradigmatic disseminative implications of postmodern-thought as of the prospective exercise of 'leaving it' to existence as of ontological-primemovers-totalitative-framework as the veritable transcendental-signifier/transcendental-enabling/sublimating to 'continually select' postmodern—deprocrypticism disseminative orientations for transcendence-and-sublimity, in the same vain that the 'non-positivism/medievalism undecentered human subject' failed to truly appreciate the structural/paradigmatic disseminative implications of prospective positivistm/rational-empiricism thought. On the other hand, recurrent conceptual patterning predispositions and orientations arise because of poor appreciation/reference for judging knowledge often as of poor institutional mechanical conceptualisation of knowledge, wherein the constraining metrics of institutional setups including strangely enough also many such tertiary institutions where poststructuralist thinkers studied-and-taught-as-outlying-intellectuals, 'apparently and falsely surpass

existence—as-the-absolute-a-priori-of-conceptualisation'. Such institutional nombrilistic inclinations operate on the naivety that institutional processes are inherently reifying by their mere infrastructure and deferential-formalisation-transference, and set up enframed constraints that are in many ways self-defeating for the purpose of profound existential-contextualising-contiguity knowledge-reification for transcendence-and-sublimity. But then with regards to the social notwithstanding its high emotional-involvement disruptiveness to knowledge, more profoundly existential-contextualising-contiguity knowledge-reification here implies human displacement/decentering even though our temporal/shortness-of-register-of-meaningfulness-and-teleology dispositions certainly have a hard time assuming the full implications of such prospectively implied transcendental meaningfulness-and-teleology. This further speaks to the fact that human knowledge is much more than distantly/remotely abstracted conceptions of meaningfulness-and-teleology of trite existential-contextualising-contiguity knowledge-reification <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity, as on critical occasions this puts the human subject itself into question; and so, as of 'ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning' even where this edges into contortioning asceticism as of nonextricatory-existential-preempting-of-existential-unthought. Such 'pure-ontology' orientation grounded on creative existential-contextualising-contiguity knowledge-reification is ever always a 'conflatedness holism/nested-congruence' as it aspires to grasping and articulating meaningfulness-and-teleology as portends to the wholeness/nested-congruence of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-

'human<~~amplituding~~/formative>epistemic-totalising~purview-of-construal'; with such

construal in reality rather very much as of singularisation/epistemic-immanence/veridical-epistemic-determinism rather than dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism. It is thus not a surprise that many natural sciences in their 'creative existential-contextualising-contiguity knowledge-reification' develop as and aspire to be whole/congruent in conception, even though their concepts can be misconstrued as rather disparate but in effect are 'operant as of wholeness/nested-congruence'. Likewise, the underlying deprocrypticism-or-preempting—disjointedness-as-of-reference-of-thought conflatedness holism/nested-congruence suprastructuralism conception herein is rather articulated as of singularisation/epistemic-immanence/veridical-epistemic-determinism as of epistemic reflection of the ecstatic singularity of existence—as-the-absolute-a-priori-of-conceptualisation. Unlike the constitutedness rampant with human and social conceptualisations, it is important to grasp that conceptualisations in many a natural science domain tend to be naturally as of conflatedness holism/nested-congruence given their theoretical, conceptual and operant existential contiguity/congruence <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity with 'the ecstatic singularity of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-

'human<~~amplituding~~/formative>epistemic-totalising~purview-of-construal' implied with regards to all such seemingly ad-hoc conceptualisations being contiguously reflected across space and time'. We can consider in this regard the strongly nested-congruence/contiguity of seemingly disparate conceptualisations as force, energy, etc. in physics or hereditary and functional conceptualisations in biology; reflected as of the specifically ecstatically nested-congruence of such conceptualisations with the existential wholeness, and so more than just abstractable conceptualisations out of sync with effective nesting as of the existential wholeness. In other words, the nestedness of the conceptualisations imply that there is a

natural or existential cogency-and-fluidity among the concepts, speaking-of-and-reflecting their wholeness; the implication is not necessarily that all the whole field-of-study must be grasped all at once but rather that this existential cogency-and-fluidity speaking-of-and-reflecting wholeness must insightfully be grasped before articulating existentially/ontologically pertinent conceptualisations that are equally cogent-and-fluid with the wholeness. That underlying dynamic theoretical-conceptual-operant interrelatedness speaking of singularisation/epistemic-immanence/veridical-epistemic-determinism is often very much lacking in many a social domain-of-study which ad-hoc nature of conceptualisations can easily be misconstrued as of the same wholeness/nested-congruence nature with many natural science conceptualisations. This reality of comprehensive depth of knowledge is easily lost to ad-hoc and disparate social conceptualisations that by their constitutedness token tend to give up on the central issue of knowledge as of its wholeness/nested-congruence reflection 'as of creative existential-contextualising-contiguity knowledge-reification' of existence—as-the-absolute-a-priori-of-conceptualisation in its ecstatic singularity. The naivety of implied constitutedness in the social is in the expectation that the unity of disparateness of conceptualisations as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-

'human~~amplituding~~/formative>epistemic-totalising~purview-of-construal' will take care of itself in reflecting the ecstatic singularity of existence without human self-conscious wholeness/nested-congruence conception as of conflatedness in this respect; but then such parsimony loses more than just wholeness/nested-congruence in the sense that sound conceptualisations cannot be done without a sense of wholeness/nested-congruence in the first place, and more precisely as of 'holistic/nested-congruence conflatedness with existence as of its ecstatic singularity'. While in many ways the natural sciences as immediately-and-directly constrained by ontological-primemovers-totalitative-framework are naturally and ad-

hocly structured/paradigmed to implicitly construe wholeness/nested-congruence of conception as of 'holistic/nested-congruence conflatedness with existence as of its ecstatic singularity' with regards to their conceptualisations, this cannot be said of the same of the social as of the need for its self-conscious understanding of wholeness/nested-congruence conception as of 'conflatedness with existence as of its ecstatic singularity' given its inherent blurriness, ~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and emotional-involvement, in order to then achieve parallel level of ontological-primemovers-totalitative-framework knowledge conception as of singularisation/epistemic-immanence/veridical-epistemic-determinism. In effect this ontological difficulty fundamentally has to do with the inherent difficulty of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming-'notionally-collateralising-protohumanity'-to-'attain-sublimating-humanity',-as-to-existence-potency-prospective-digression-of—~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness to supersede human temporality/shortness ~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩) construed as 'dispensing-with-shallow-mathesis/motif/thrownness-disposition'-for-relative-ontological-completeness-by-reification; with human self-consciousness rather prone to its given reference-of-thought reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for its knowledge construal. The insight for singularisation/epistemic-immanence/veridical-

epistemic-determinism being that as of its 'dispensing-with-shallow-mathesis/motif/thrownness-disposition'-for-relative-ontological-completeness-by-reification, as increasing prospective relative-ontological-completeness-of-reference-of-thought towards ontologically-uncompromised—referentialism avails, effectively the construal of the social assumes the requisite reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for wholeness/nested-congruence conceptualisation as of the conflatedness of 'prospective ontological-normalcy/postconvergence ontologically-uncompromised—referentialism deprocrypticism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument', as implied by the suprastructuralism conception herein in fully reflecting the ecstatic singularity of existence—as-the-absolute-a-priori-of-conceptualisation, and so over our present parsimony/disparateness of conceptualisations 'reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation as-of-ontologically-compromised—categorising positivism–procrypticism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument'. Thus we can appreciate here that ultimately singularisation/epistemic-immanence/veridical-epistemic-determinism is not just artificially prompted but is rather the structural/paradigmatic consequence of the prospective relative-ontological-completeness-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme, ultimately as of prospective ontological-normalcy/postconvergence ontologically-uncompromised—referentialism deprocrypticism or preempting—disjointedness-as-of-reference-of-thought. Our mental-disposition is caught up between its capacity to conceptualise as of singularisation/epistemic-immanence/veridical-

epistemic-determinism implied prospective relative-ontological-completeness conflatedness and dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism implied prior relative-ontological-incompleteness constitutedness; and basically intemporal ontological-performance-<including-virtue-as-ontology> arises by drawing out the full ~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity of meaningfulness-and-teleology exclusively as of singularisation/epistemic-immanence/veridical-epistemic-determinism implied conflatedness prospective relative-ontological-completeness as it enables 'ontological-performance-<including-virtue-as-ontology> to be utterly as of predictable structural/paradigmatic internal-necessity/determinism so-construed as immanence-function-conflatedness'. Thus the inherent ecstatic singularity of existence carries intemporal 'immanence-functions-conflatedness ~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity' as of singularisation/epistemic-immanence/veridical-epistemic-determinism conflatedness, while dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism constitutedness arises as of ~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag ontological-construal defect when naively failing to convey the 'immanence-function-conflatedness implication' of overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-<imbued-and-educed–human-subpotency–epistemic-perspective-of-aestheticising-motif-and-apriorising/axiomatising/referencing-conceptualisation>. Thus naturalistic methodologies are only as pertinent as of their explaining of underlying background of the social as of physical and biological reality, but not as substitutive explanations as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-<imbued-and-educed–human-subpotency–epistemic-perspective-of-aestheticising-motif-and-

apriorising/axiomatising/referencing-conceptualisation> of social emanance as this is bound to induce constitutedness. What is misjudged by many naturalistic methodologies with regards to the social is the fact that the very reality as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-<imbued-and-educed–human-subpotency–epistemic-perspective-of-aestheticising-motif-and-apriorising/axiomatising/referencing-conceptualisation> of an outright social emanance as arising from 'intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity' as of 'abstract cumulation of human memorisation and knowledge immanence' is beyond the human neuropsychological background, and as human consciousness as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-<imbued-and-educed–human-subpotency–epistemic-perspective-of-aestheticising-motif-and-apriorising/axiomatising/referencing-conceptualisation> is of an altogether social and socio-psychological immanence; with the implications that a hypothetical instantaneous erasure of all humans memory and knowledge will lead to humankind's retrograding to its most basic animalistic background potential for social emanance as of the earliest of humans, speaking of an altogether substantive cumulated abstract tissue of social emanance as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-<imbued-and-educed–human-subpotency–epistemic-perspective-of-aestheticising-motif-and-apriorising/axiomatising/referencing-conceptualisation> built up by 'intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-

Basically, immanence-function-conflatedness speaks of the counterintuitive mental-reflex for drawing out the full <amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity for 'creative understanding'/insight as of singularisation/epistemic-immanence/veridical-epistemic-determinism, going by existence's ecstatic singularity as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-<imbued-and-educed–human-subpotency–epistemic-perspective-of-aestheticising-motif-and-apriorising/axiomatising/referencing-conceptualisation>. This immanence-function-conflatedness insight is effectively what marks prospective deprocryticism/preempting—disjointedness-as-of-reference-of-thought as of an utterly different protensive self-consciousness from our hesitant and occlusive positivism–procrypticism self-consciousness. Hence existence's ecstatic singularity is very much akin with the Deleuzian plane of immanence construed herein as of existence's ecstatic singularity immanence/internal-necessity <amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity of singularisation/epistemic-immanence/veridical-epistemic-determinism; the ontological implication here being that 'we are as potently transcendental as from our flawed constitutedness' or 'we are as potently immanent as of our virtuous conflatedness'. Immanence-function-conflatedness points out that the mental-reflex for objectifying discursivity between prospective relative-ontological-

completeness and prior relative-ontological-incompleteness is fundamentally flawed as of constitutedness, as all the objectifying discursivity that is ontologically-veridical is as of the conflatedness of prospective relative-ontological-completeness over prior relative-ontological-incompleteness construed as immanence-function-conflatedness. Thus metaphoricity of non-positivism mindset 'supposedly in an objectifying/contending discursivity' with a positivism mindset registers as of positivism immanence-function-conflatedness reflection of the underlying non-positivism mental-disposition with regards to such issues like existential desublimation manifestations of superstitution, spiritualism, etc. This same conception holds with the deprocrypticism immanence-function-conflatedness overriding the meaningfulness-and-teleology of procrypticism/disjointedness-as-of-reference-of-thought mindset 'supposedly in an objectifying/contending discursivity' with the deprocrypticism mindset, as the latter reflects the underlying positivism–procrypticism mental-disposition mindset with regards to existential desublimation manifestations of disjointedness-as-of-reference-of-thought. In both instances, the issue lies in the lack of a common apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and-teleology aposteriorising/logicising/deriving/intelligising/measuring, with immanence-function-conflatedness implying that all the meaningfulness-and-teleology is necessarily as of the prospective relative-ontological-completeness over the prior relative-ontological-incompleteness; respectively as of positivism and deprocrypticism. If by anticipation we do know immanently that a non-positivism mindset is bound to a non-positivistic-as-existentially-superstitious apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of structural/paradigmatic internal-necessity/determinism insight from positivism immanence-function-conflatedness with the obviousness there is no point implying an ontologically-flawed objectifying/contending discursivity in assessing the non-positivism existentially-

superstitious inclination, the same implication will extend to deprocrypticism immanence-function-conflatedness as of structural/paradigmatic internal-necessity/determinism insight with regards to anticipating the disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument mindset of our positivism–procrypticism mental-disposition with no pretence of such a positivism–procrypticism ontologically-flawed objectifying/contending discursivity in assessing the disjointedness-as-of-reference-of-thought inclination. In other words, immanence-function-conflatedness is all about reflecting the straightforwardness of ontological-primemovers-totalitative-framework as of singularisation/epistemic-immanence/veridical-epistemic-determinism in arriving at ontological-veridicality over the human mindset flawed-and-naive predisposition to make of its objectifying/contending discursivity as structurally/paradigmatically deterministic by mere mental-reflex of naively elevating prior relative-ontological-incompleteness meaningfulness-and-teleology as if of prospective relative-ontological-completeness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. Immanence-function-conflatedness equally highlights knowledge as of its essential organic construct implications. As a constitutedness predisposition tends to imagine that knowledge is basically a cumulative exercise to an already soundly structured/paradigmed mindset, but nothing could be farther from the truth as knowledge is really an exercise of re-forming-or-reshaping-as-transforming the structuring/paradigming of the mind. In other words, it is rather vague to 'surreptitiously sneak in supposedly positivism knowledge' into an unquestioned/unchallenged non-positivism mindset, as at best the outcome will be simply a further complexification of the non-positivism mindset apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as with such a reflection as 'God of plane' in a non-positivism animistic social-setup, speaking of non-

positivism complexification and not positivism knowledge acquisition. This is effectively what validates the notion of the 'decentering of the human subject' as central to the very notion of organic knowledge as it enables prospective transcendence-and-sublimity as of prospective relative-ontological-completeness-of-reference-of-thought. Such a 'decentering of the human subject' implies that the false ontological-certitudes of the non-positivism mindset as of its non-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument are necessarily ironically trampled-upon in the discourse of positivism organic knowledge in a non-positivism social-setup. For instance, walking into the evil forest to retrieve a plant cure with induced curing eliciting psychoanalytic-unshackling with respect to the non-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as its superstitious value-reference structure is shown to be inadequate given that it is the violation of that non-positivism value-reference that is what carries the potential for its prospective emancipation into-and-as-of-the-implications-of a prospective positivism mindset. Thus organic knowledge as of its transcendental implications cannot imply that the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of a prior relative-ontological-incompleteness-of-reference-of-thought is an appropriate framework for prospectively implied reference-of-thought knowledge acquisition. Likewise, it is herein contended that similarly a deprocrypticism contortion reifying gesture necessarily questioning our positivism–procrypticism disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for the possibility of psychoanalytic-unshackling implications as of the 'decentering of the human subject' is the necessary organic knowledge for futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism or preempting—

disjointedness-as-of-reference-of-thought transcendence. The implication of organic knowledge conception is that the state of recurrent-utter-uninstitutionalisation by its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument fails the objectifying/contending discursivity as of prospective base-institutionalisation immanence-function-conflatedness, likewise does base-institutionalisation–ununiversalisation fails as of prospective universalisation immanence-function-conflatedness, universalisation–non-positivism/medievialism fails as of prospective positivism immanence-function-conflatedness, and prospectively positivism–procrypticism fails in futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism immanence-function-conflatedness; so-implied as of singularisation/epistemic-immanence/veridical-epistemic-determinism reflection of existence's ecstatic singularity. Hence 'intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism ~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity' implied organic knowledge is ever always as of the structural/paradigmatic internal-necessity/determinism of prospective relative-ontological-completeness-reference-of-thought as of immanence-function-conflatedness, with the pretence of prior relative-ontological-incompleteness-of-reference-of-thought for objectifying/contending discursivity nothing more but flawed ~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag temporal meaningfulness-and-teleology. The study of the social as of immanence-function-conflatedness insight grasp that the

blurriness, <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and remoteness of cause-and-effect invoke a more refined conception of ontological-primemovers-totalitative-framework as reflecting existence/intrinsic-reality/ontological-veridicality. Such a refinement while cognisant of the pertinence of falsifiability and validation is more in line with the Lakatosian research-programme perspective given the complexity of the social just as many a complex domain in the natural sciences in effect assume the research-programme epistemic model; consider that while the natural sciences are generally more amenable to strong immediate cause-and-effect determination, such complex studies like string theory in physics, medical research, etc. send to assume in effect the research-programme epistemic model. The underlying insight here is that many a complex study purview as well as the study of the social given its poorly constraining immediate cause-and-effect determination, renders knowledge validation more of a 'construct of comprehensive-coherence and competitive claim to ontological pertinence as of extensive research-programme implications', but this should however implicitly reflect concurrently the underlying notions of falsifiability-or-deferring-falsifiability and validation-or-deferring-validation. It is herein contended that it is the implicited orientation of many post-structuralists thinking as of the research-programme epistemic model as articulated herein that renders their thought scientifically credible and pertinent as such scholars like Foucault, Derrida, Deleuze, to cite just these few have turn out to be the dominant scholarly-cited authors in the general humanities, and so precisely because of the very thorough existential-contextualising-contiguity knowledge-reification in their scholarly output, and paradoxically so over purported scholarly approaches 'supposedly of a more scientific methodology but when evaluated as of such authorial scholarly comprehensive research-programmes' turn out to be of weaker existential-contextualising-contiguity knowledge-reification. This insight equally informs this author's supplanting–

conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism that it is ultimately as of such comprehensive research-programme epistemic model as articulated herein and its further existential-contextualising-contiguity knowledge-reification, as well as existential-contextualising-contiguity knowledge-reification as of the disposition for advancing the metalevel transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing foregrounding—entailment-(narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting 'immanent-ontological-contiguity'),–as-operative-notional~deprocrypticism of the 'structural/paradigmatic disseminative implications of postmodern and other human sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence' thought, that the ontological-pertinence assumes ontological-primemovers-totalitative-framework unassailability; and so, not for the mere sake of research-programme extensiveness but as of its internal constraining to falsifiability-or-deferred-falsifiability and validation-or-deferred-validation as of existential-contextualising-contiguity knowledge-reification as implied by the articulation of authenticity herein as of reasoning-through/messianic-reasoning attitude/mental-disposition/care–and–episteme 'implicitation of ontological-primemovers-totalitative-framework', on the basis that the very first epistemic frontier for ontological-pertinence lies with the scholarly developed creative insight for existential-contextualising-contiguity knowledge-reification as knowledge. Ultimately, postmodern-thought has been unassailable to vague scepticism and ontological-bad-faith/inauthenticity criticism exactly because of its strong scholarly research-programme existential-contextualising-contiguity knowledge-reification, and thus an immanence-function-conflatedness insight in the study of the social as of its inherent complex nature is certainly justified to adhere to a research-programme epistemic model as herein articulated. In another respect, while intellectualism as

of organic knowledge implications in many ways commands massive social deference and adherence, it is equally important not to naively assume that at uninstitutionalised-thresholds, human existential-investment as of its temporality/shortness cannot be predisposed to anti-intellectualism, as this insight is pertinent in the sense that transcendental knowledge is articulated mostly as of its undermining of human temporal existential-investment. The bigger point here being that the possibility of prospective transcendence lies in upholding-and-defending authentic intellectualism even as of metaphoricity beyond ~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ socially intelligible meaningfulness-and-teleology conceptualisation in ~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. Metaphoricity as such ironises on social intellectual nihilism as it is bent on undermining any temporality/shortness as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality solipsistic intemporality/longness parrhesiastic askance, and as of immanence-function-conflatedness 'highlights and keeps wide-opened the prospect' for prospective authentic intellectualism by undermining its blending with inauthentic untransvaluated–temporal-intemporality manifestations that usurp and undermine human transcendence. Further, while 'human projected conception of knowledge cumulation' seems to be ever always 'perceived absolutely as within an only same institutionalisation reference-of-thought', with their merits at least for expanding human mastery of its environment at their given level as well as their defects as of undermining the possibility for prospective knowledge, for instance as of the animistic social-setup to perceive its animistic knowledge system as absolute, as of the

medieval/non-positivism social-setup to perceive its medieval scholasticism as absolute or as of our positivism–procrypticism social-setup to perceive our positivism–procrypticism humanistic knowledge system as absolute; it is immanence-function-conflatedness by its implied internal-necessity construct that best reflects the reality of human knowledge cumulation by the ontological-contiguity—of-the-human-institutionalisation-process as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology conception, recognising the underlying retrospective and prospective epistemic dynamics behind knowledge as of protracting self-consciousness over the cloistering self-consciousness of falsely absolutising specific registry-worldviews/dimensions reference-of-thought. With such immanence-function-conflatedness insight, the epistemic and methodological pretences as of our humanistic positivism–procrypticism are evaluated on their true merits, and such an evaluation reveals that such epistemic and methodological pretences while 'developed institutional practice' are just that as-more-or-less-mechanically-institutionalised, and that critically from a deeper perspective the reality is that it is the research-programme as articulated above that underlies human knowledge cumulation, and so as of the competitive evaluation of various epistemic and methodological commitments made in immediacy and their ultimate prospective evaluation as of their research-programmes productive outcomes. The research-programme as such can be reconstrued as the reevaluation of any propounded knowledge and epistemic paradigms as of their ultimate existential-contextualising-contiguity knowledge-reification as knowledge; such that the immediacy of contention of appropriateness of epistemic and methodological approaches is less critical, as ultimately all knowledge constructs and their epistemic and methodological commitments face their long term bottomline reevaluation as to their relative existential-contextualising-contiguity knowledge-reification as knowledge construed as their research-programmes. This speaks of

the fact that such a conception of epistemic commitment as of research-programme is effectively one of epistemic singularisation/epistemic-immanence/veridical-epistemic-determinism so-implied as of ontological-normalcy/postconvergence associated with ontologically-uncompromised—referentialism deprocrypticism; and very much overcoming the limiting effect of our present conception of epistemic commitment as rather dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism as of ontologically-compromised—categorising positivism–procrypticism. Thus, if immanence-function-conflatedness reveals that it is the 'projected research-programme of any given knowledge construct as of its prospective relative existential-contextualising-contiguity knowledge-reification' that is its preeminent epistemic and methodological validation, 'pretences of pre-given epistemic predispositions' that do not attend pertinently and similarly to prospective relative existential-contextualising-contiguity knowledge-reification are nothing more but <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag predispositions that pretend to supersede existence—as-the-absolute-a-priori-of-conceptualisation, and institutionalised, such <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag predispositions may actually be structurally/paradigmatically stifling for the possibility of prospective knowledge and transcendence, and more seriously so where the possibility of varied research-programme choices are difficultly entertainable without institutional backing for research needing major funding and/or resources. Finally, the research-programme epistemic model attends to the social as of the reality of human emotional-involvement by its extensiveness. Consider that many a transformative natural science idea have certainly been 'supposedly gross conceptualisations' but with varied social responses as of their given social epoch sensitivities; consider in this regard Copernicus and Galileo heliocentric world argument

eliciting social sensitivities then and equally stark physics ideas at the beginning of the last century with relativity and quantum mechanics hardly eliciting any social sensitivities, rather as of the disarming effect on conventioning simply on the basis of their matter-of-fact cause-and-effect. In many ways the prospect of prospective knowledge very much lies with a shakeup of the social 'sense of presence' and this is not contradictory in the sense that if the present was all that great then its very transcendence wouldn't be occurring, and so existence/intrinsic-reality/ontological-veridicality warrants that transcendence occurs as to conflict with the naïve social 'sense of presence' as absolute, and so because it is all about the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<s>amplituding</s>/formative>epistemic-totalising~purview-of-construal' but with contrastive underlying relative-ontological-incompleteness/relative-ontological-completeness. It is quite absurd to think that the possibility of prospective human transcendence especially, as of our apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, lies wholly within the ambit of our 'sense of presence' agreeableness; as this rather speaks of the framework of our limited certitudes as this limits/stifles the possibility of further profound existential-contextualising-contiguity knowledge-reification for transcendence-and-sublimity. While today that notion of contrariety has in many ways sanked in and been accepted with natural science knowledge especially so as it hardly elicits social emotional-involvement, the fact of the matter is that the possibility of the profound study and emancipation of the social inevitably comes with a contrariety of our social 'sense of presence'. Just as the 'decentering of the subject' was what brought about the positivistic mindset today that allowed for modern day science to develop and just as well modern day social science, it is inevitable that a further development of human knowledge as of its organic knowledge construct warrants a further 'decentering of the human subject' as implied by deprocrypticism or preempting—

disjointedness-as-of-reference-of-thought; and justified by the fact that if previous generations had to undergo their psychoanalytic-unshackling for prospective institutionalisation, we can only ever be pushed into the corner of our intellectual nihilism when we seem to pretend that we are beyond the prospect of our transcendence. Immanence-function-conflatedness analytical implications equally arise as of the 'countervailing transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing relation induced as of ontological-primemovers-totalitative-framework' between 'existence/existential-possibilities as the selecting transcendental-signifier/transcendental-enabling/sublimating' and 'the ever developing human limited-mentation-capacity as of its deepening from relative uninstitutionalised-threshold to relative institutionalisation so-construed as prospective institutionalisation dissemination', as this transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing is exactly what validates epistemic-veracity as of prospective relative-ontological-completeness as relevant for the protracted-consciousness of notional~deprocrypticism. Thus for such a notion of research-programme as articulated herein rather than just implying mere epistemic latitude/anarchy, it speaks instead of the construal/justification of epistemic-veracity as of precedence of prospective relative-ontological-completeness <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity, and so as of the structural/paradigmatic implication of singularisation/epistemic-immanence/veridical-epistemic-determinism over dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism. Thus prospective relative-ontological-completeness is inherently bound with its very own epistemic <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity as of the 'decentering of the human subject' involved in knowledge-reification. This inherently projects a 'practical

picture of human epistemic determination' of 'maximal disseminative human epistemic articulations at relative uninstitutionalised-threshold' and 'minimum select human epistemic articulations at prospective institutionalisations', and so as of existence/existential-possibilities as the transcendental-signifier/transcendental-enabling/sublimating transversally induced ontological-primemovers-totalitative-framework selective epistemic-veracity transcendence-and-sublimity. In this regard and at the general epistemic level of reference-of-thought-devolving, we can appreciate the massively shrunk epistemic-veracity possibilities available for our present positivism credible construal of ontological-veridicality over the epistemic-veracity possibilities previously available for non-positivistic social-setups credible construal of ontological-veridicality as of their full existential cognition of superstition, witchcraft, spiritualism, etc., and their social implications; and this reflects the very fact that 'intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity' is one associated with increasing thinning out of epistemic-veracity as of prospective relative-ontological-completeness <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity induced from ontological-primemovers-totalitative-framework. Central to such epistemic-veracity thinning out is the very essential process behind increasing ontological-contiguity—of-the-human-institutionalisation-process which is deferential-formalisation-transference. Besides deferential-formalisation-transference associated epistemic-veracity relevance for institutional construction and institutional rules of critical importance for human organisation like political and legal institutions, such

deferential-formalisation-transference associated epistemic-veracity has been inherently of strongest relevance in knowledge domains more easily amenable to ontological-primemovers-totalitative-framework and low emotional involvement like the natural sciences but weakly so inherently in many a social domain-of-study not readily amenable to strong ontological-primemovers-totalitative-framework and of high emotional involvement, and as such social domains practically tend to get into amalgamation with the extended-informality as of its deficient ~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ epistemic impertinence. Prospective notional~deprocrypticism necessarily implies a further epistemic-veracity thinning out as of its prospective relative-ontological-completeness-of-reference-of-thought associated ontological-primemovers-totalitative-framework, with the implication that our positivism–procrypticism uninstitutionalised-threshold epistemic-veracity is in many ways construed as of epistemic impertinence at its disjointedness-as-of-reference-of-thought uninstitutionalised-threshold and superseded by futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism disseminative epistemic-veracity and so as the prospective epistemic-veracity thinning out outcome of existence/existential-possibilities as the transcendental-signifier/transcendental-enabling/sublimating determinant selector as of the deprocrypticism or preempting—disjointedness-as-of-reference-of-thought disseminative research-programme coherence and ontological-contiguity. The idea being that the deprocrypticism epistemic-veracity as of such disseminative research-programme coherence and ontological-contiguity equally imply an underlying falsifiability-or-deferred-falsifiability and validation-or-deferred-validation as a constraint to the social domain-of-study meant to render it more thoroughly amenable to

ontological-primemovers-totalitative-framework <s>amplituding</s>/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity capable of reflecting the unassailability of the most transversally profound theorisations and conceptualisations on the basis of their demonstrable operant implications as of existential-contextualising-contiguity knowledge-reification for transcendence-and-sublimity. Such a deprocrypticism epistemic-veracity implication is pertinent because blurriness and un-disambiguation underlies the indecision and relative impertinence in many an instance of social knowledge conception that is not thoroughly subjected to ontological-primemovers-totalitative-framework, such that it is obvious to all that the epistemic-veracity as of existence/existential-possibilities selective function of ontological-primemovers-totalitative-framework as developed in the natural sciences tends to be poorly developed in many a domain-of-study of the social. In this regard, we can appreciate for instance in the physics and other natural sciences <s>amplituding</s>/formative>epistemic-totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, the 'thin epistemic-veracity line' arrived at transversally as of concurrent cause-and-effect determinations that allows for developed singular or near-singular comprehensive explanations of phenomena 'discarding the demonstrably impertinent conceptions', while in contrast with many a domain-of-study in the social, without necessarily implying this as all-encompassing but still critically and substantively so, such a spearheading towards the ontologically decisive is lost/obliterated in an approach driven by theoretical and conceptual mutuality/equilibrium rather than a transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing constraining to the 'superior party' that is existence/existential-possibilities, and thus specifically giving room for many an instance of obvious muddlement as well as ontological-bad-faith/inauthenticity with a corresponding relative passivity to social issues and problems as if institutional-being-and-craft was an end

in itself as structurally/paradigmatically knowledge certifying. Furthermore, while the idea of falsifiability and validation have traditionally been associated with the fundamental research methodologies of experimentation and observation, however the complex nature of social phenomena and even some natural science phenomena has dragged out the epistemic-veracity of the scientific methodology. Such that what increasingly underlies the scientific methodology is more extensive as of the reflection of pertinent phenomenality experimented or stated or demonstrated, by the coherence and implied ontological-contiguity of observations, conceptualisations and predictions, in their conflatedness holism/nested-congruence or how these conflate as of prospective relative-ontological-completeness with existence—as-the-absolute-a-priori-of-conceptualisation. Ultimately, the contrastive epistemic-veracity of theoretical and conceptual articulations rather lies with regards to their existential-contextualising-contiguity knowledge-reification as of their critical operant implications and unmuddled conceptions. Furthermore, the deprocrypticism epistemic-veracity implies a further extension of deferential-formalisation-transference as of less predisposition to extended-informality <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩. With the <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity that the deprocrypticism or preempting—disjointedness-as-of-reference-of-thought extended-informality requires an organic-knowledge type of pedagogy based on eliciting an ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality solipsistic sense-of-things, over the usual mechanical-knowledge type of pedagogy which is rather based on eliciting positive-opportunism sense-of-things. This is critical because the deprocrypticism reference-of-thought warrants a more

originary/as-of-event mental-disposition 'beyond just responsiveness to secondnatured institutionalisation' but equally the capacity to assume the dimensionality-of-sublimating—~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen behind the 'inventing' as of reasoning-through/messianic-reasoning with respect to 'upholding and defending ontological-veridicality beyond constraining-and/or-secondnatured institutionalisation framework' as well as actually perpetuating prospective ontologically-veridical sublimation-as-of-deprocrypticism-immanented-implications, and so as of a fundamental mental-disposition for perpetually preempting—disjointedness-as-of-reference-of-thought. With the foregoing immanence-function-conflatedness insight, of most critical importance and decisiveness as structurally/paradigmatically anchoring futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism meaningfulness-and-teleology is the need for a deprocrypticism reconceptualised conception of the human construction-of-the-Self. In this regard, we can appreciate critically that hitherto and as of a natural human predisposition to ~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, the psychology traditions have tended to ad-hocly construe construction-of-the-Self as of a human-subpotency flawed absolutising epistemic reference, and so over an existence-potency-prospective-digression-of—~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness absolutising epistemic reference, specifically as so-construed from our positivism–procrypticism registry-worldview/dimension flawed absolutising epistemic reference. The fact that

existence/intrinsic-reality/ontological-veridicality precedes human-subpotency thus questions the veracity of the ontological orientation of traditional psychology/psychoanalysis; wherein 'the human psychology of absolutising epistemic reference is wrongly conceived as of ontological-normalcy rather than as of epistemic-abnormalcy/preconvergence' considering the necessarily decontorting human-subpotency psyche on the constraint of our ontologically-compromised reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation as of our <~~amplituding~~/formative>epistemic-totalising~thrownness-in-existence. The implication here is that we cannot have a human-subpotency flawed absolutising epistemic reference that as of human-subpotency can surpass the ontological-veracity of the full-potency of existence/intrinsic-reality/ontological-veridicality as absolutising epistemic reference as of ontological-normalcy/postconvergence, and so given human-subpotency prior relative-ontological-incompleteness implied flawed prospective ontological-performance-<including-virtue-as-ontology>. Such a human-subpotency flawed absolutising epistemic reference for meaningfulness-and-teleology can be construed as of 'human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self/ontological-fracturing/desublimation/gimmickiness complex'; as of 'human-subpotency temporality/shortness flawed absolutising epistemic reference' as it induces flawed ontological-performance-<including-virtue-as-ontology> as by its <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag it 'wrongly seem to advantageously substitute' for the potent as intemporal absolutising epistemic reference ontological-performance-<including-virtue-as-ontology> of existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness/intrinsic-reality/ontological-veridicality. It is this construction-of-the-Self human-subpotency deficiency element construed as 'human akrasia-

of-reference-of-thought as of an ontological-normalcy/postconvergence/referentialism

notional~deprocrypticism perspective of analysis as of singularisation/epistemic-

akrasiatic-drag complex only from the perspective of prospective relative-ontological-

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, whereas the prior relative-ontological-incompleteness-reference-of-thought mental-disposition reflects its uninstitutionalised-threshold as a nondescript/ignorable void (actually speaking of akrasiatic-drag-denatured-and-preconverging-or-dementing-narratives) of notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised~preconverging/dementing–qualia-schema> by 'resetting its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument which is flawed at its uninstitutionalised-threshold' thus taking a flawed posture of identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism of notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised~preconverging/dementing–qualia-schema>. Such akrasia-susceptibility-or-akrasiatic-drag complex '<~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating preconverging/dementing–qualia-schema' is reflected as of the '<~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of the prior relative-ontological-incompleteness-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as mathesis/motif/thrownnessdisposition-at-its-uninstitutionalised-threshold'. Consider the akrasia-susceptibility-or-akrasiatic-drag complex '<~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating preconverging/dementing–qualia-schema' from a prospective positivism/rational-empiricism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in this regards, with respect to 'God of plane' type of expression in an animistic/base-institutionalisation setup wherein their fundamental apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument psychologism

is so ingrained that every meaningfulness from a positivistic social-setup cultural diffusion is inevitably reconstrued/devolved in the animistic/base-institutionalisation apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reference-of-thought psychologism of meaningfulness-and-teleology in <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag with its uninstitutionalised-threshold as a nondescript/ignorable void (actually speaking of akrasiatic-drag-denatured-and-preconverging-or-dementing-narratives) whereas such a representation as a nondescript/ignorable void wouldn't be recognised from the positivism/rational-empiricism perspective as of its prospective relative-ontological-completeness-of-reference-of-thought. Likewise, as of prospective insight, the nondescript/ignorable void (actually speaking of akrasiatic-drag-denatured-and-preconverging-or-dementing-narratives) we imply as of our positivism–procrypticism disjointedness-as-of-reference-of-thought is certainly prospectively contemplatable in futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism reflection of our akrasia-susceptibility-or-akrasiatic-drag complex '<~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating preconverging/dementing–qualia-schema' of positivism–procrypticism disjointedness-as-of-reference-of-thought in '<~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism from the deprocrypticism ontological-contiguity, whereas from our positivism–procrypticism perspective we'll tend to a 'resetting of the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument' of positivism–procrypticism in ontological-disconguity as of identitive-constitutedness-as-epistemic-

totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism. This expansion of the traditional notion of akrasia, as akrasia-susceptibility-or-akrasiatic-drag complex is rather as of the perspective of existence-potency-prospective-digression-of—<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism <amplituding/formative>notional~preempting—disjointedness-as-of-reference-of-thought/notional~deprocrypticism and not as of ontologically-compromised human-subpotency epistemic/notional~projective-perspective; and is articulated more completely to reflect ontological-performance-<including-virtue-as-ontology> as of the the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construal/conceptualisation with respect to prospective relative-ontological-completeness <amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity in accounting for human differences of ontological-performance-<including-virtue-as-ontology>. It is herein contended that such a traditional psychology approach to construction-of-the-Self is constituted as of identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism. Thus the notion of 'human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self/ontological-fracturing/desublimation/gimmickiness complex' refers to the mental dispositional state of structural/paradigmatic rationalised-closedness-of-ontological-performance-<including-virtue-as-ontology>-of-the-self 'as bound to define-and-shape any given registry-worldview's/dimension's specific ontological-performance-<including-virtue-as-ontology>-and-vices-and-impediments'. Rather an ontologically-veridical construction-of-the-Self is necessarily in conflatedness as of the intemporal absolutising epistemic reference of existence-potency-prospective-digression-of—<amplituding/formative>epistemic-

totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness constrainous-implications-over-human-subpotency so-implied as of ontologically-uncompromised ontological-normalcy/postconvergence/referentialism and construed as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism. Such a conflatedness construction-of-the-Self is one that is structurally/paradigmatically enframed in grasping the 'notional dissonance/consonance of human superego and existence-potency-prospective-digression-of—~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness, as it construes of human-subpotency reference-of-thought given level of ontological-veridicality-commitment/aetiolgisation/ontological-escalation/otherliness implications; and so as devolvingly thereof, construction-of-the-Self is the individual autonomous ecstatic/existential referencing/registering/decisioning, contemplating, responding, conceptualising, articulating, effecting and acting-out of its social meaningfulness-and-teleology as of the ~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity of living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. Thus fundamentally the ~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity and orientations underlying construction-of-the-Self as of a deprocrypticism conception is rather transformative, in reflecting its protensive-consciousness insight of varied human constructions-of-the-self as of institutional-cumulation/institutional-recomposure with successive registry-worldviews/dimensions human-subpotency reference-of-thought induced recurrently from the instigative ~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-

explicating-ontological-contiguity of ontological-dementation/dialectical-dementation–stranding/attributive-dialectics. Thus, what critically stands out from traditional psychology as inducing such a novel differentiated and transformative articulation of construction-of-the-Self is the notion of 'human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self/ontological-fracturing/desublimation/gimmickiness complex'. Interestingly, many a traditional take on the notion of akrasia, construed herein as akrasia-susceptibility-or-akrasiatic-drag complex, like the Socratic argument of its non-veridicality strangely enough rather confirms its veridicality, in the sense that such arguments are being made from the perspective of human-subpotency, which is exactly the irrelevant perspective for ontological-veridicality articulation. Consider the idea that a cholera epidemic that was to occur say in 100 B.C. will not stop from occurring because human beings did not know of notions-of-bacteria-as-causing-diseases-and-instead-believed-in-bad-omen-for-not-making-the-right-sacrifices-or-so-so-and-so; as existence/intrinsic-reality/ontological-veridicality will not factor in such a state of 'human-subpotency in its <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag', and adjust to it by stopping such an epidemic. This is exactly why ontologically-veridical meaningfulness-and-teleology implies a displacement/decentering-of-the-human-subject with its emancipation arising as of its submitting to the 'superior party' that is existence/intrinsic-reality/ontological-veridicality as is falsifiable and can be validated by ontological-primemovers-totalitative-framework. Thus intemporal ontological-performance-<including-virtue-as-ontology> ever always warrants human prospective relative-ontological-completeness-of-reference-of-thought for empowering and responsible meaningfulness-and-teleology for transcendence-and-sublimity. Thus akrasia-susceptibility-or-akrasiatic-drag complex further implies that the very state of unwariness with respect to prior relative-ontological-incompleteness as of a nihilistic disposition is structurally/paradigmatically

potently conducive/endemising/enculturating to its vices-and-impediments, and as the very possibility for prospective ontological-performance-<including-virtue-as-ontology> arises as of the intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning as of its 'seeding promise of human-subpotency ontological-performance-<including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence-as-of-its-coherence/contiguity'. Can we wish that we don't have understanding whether directly, or indirectly as of reifying deferential-formalisation-transference, so that we aren't intellectually-and-morally accountable then? How can we reconcile the fact that given human <amplituding/formative>epistemic-totalising~thrownness-in-existence the possibility for prospective human registry-worldview's/dimension's institutionalisation enabling transcendence-and-sublimity could only arise as of prospective reasoning-through/messianic-reasoning that had no prior effective knowledge and virtue reference to go on to prospectively 'invent' reasoning-through/messianic-reasoning knowledge and virtue before the institutionalising of such reasoning-from-results/afterthought emancipatory possibilities, and then contend to make any given reasoning-from-results/afterthought knowledge and virtue limits intellectually and morally deterministic as of a nihilistic <amplituding/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩)? In this regard, the anti-nihilist stance implies that the very first notion of human ontological-performance-<including-virtue-as-ontology> as of human <amplituding/formative>epistemic-totalising~thrownness-in-existence induced anxiety lies in the fact that as of intemporal ontological-faith-notion-or-ontological-fideism—imbued-

underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning, humankind has the relative capacity to build and/or adhere to prospective relative-ontological-completeness possibilities. It is this insight that validates the ontological-veracity of the conception of 'human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self/ontological-fracturing/desublimation/gimmickiness complex', and it is inherently so-validated as of 'intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity' as it cogently-and-fluidly as of ecstatic-holism/nested-congruence ahistorically-and-aculturally reflects-and-accounts-for the transitioning ontological-contiguity—of-the-human-institutionalisation-process development of the human species psyche. This insight equally specifically underlies the psychoanalytic ontological-veracity of 'human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self/ontological-fracturing/desublimation/gimmickiness complex' as it reflects the basic human psychological nature across all ages and times, so appraised as from the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construal/conceptualisation with respect to prospective relative-ontological-completeness-of-reference-of-thought <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity in accounting for human differences of ontological-performance-<including-virtue-as-ontology> across the successive registry-worldviews/dimensions reference-of-thought-level of ontological-performance-

<including-virtue-as-ontology>s as well as the temporal-to-intemporal differences of ontological-performance-<including-virtue-as-ontology>s as of each registry-worldview's/dimension's reference-of-thought-devolving-level, rather than flawed impression-driven/good-naturedness/wishfulness conceptualisation as of inherent identitive essences flawed accounting of human differences. This idea of 'human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self/ontological-fracturing/desublimation/gimmickiness complex' fundamentally harkens back to the notion of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality as of its 'seeding promise of human-subpotency ontological-performance-<including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence-as-of-its-coherence/contiguity'; wherein successive prospective relative-ontological-completeness-of-reference-of-thought generate structural/paradigmatic existential implications as of 'successive specific less-and-less-degenerate human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self/ontological-fracturing/desublimation/gimmickiness complex' with respect to the successive registry-worldviews/dimensions construction-of-the-Self, as of their ontological-performance-<including-virtue-as-ontology>-and-vices-and-impediments.

Basically, construction-of-the-Self is herein construed rather as: 'the self, as of its <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag metaphoricity, as of its evolving-and-devolving constraining reference-of-thought pitting its axiomatic structuring/paradigming apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument correspondingly with existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness/intrinsic-reality/ontological-veridicality, as so-

entertainable/permissible by its given registry-worldview's/dimension's–reference-of-thought-for-social-functioning-and-accordance', in construction-of-the-Self's existential narrative; involving existential reactive temporisation/bouncing-off of construction-of-the-Self elements (- akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self/ontological-fracturing/desublimation/gimmickiness complex, - repression and releasement as subconsciousness, and - anxiety as of reconstitution/reparation involving dreaming/psychical-reshuffling as unconsciousness; as of a psychological analysis of direct mental-processing ontological-performance-<including-virtue-as-ontology> implications with respect to the constructiveness-of-ontological-performance-<including-virtue-as-ontology> of the social epistemic-totality of meaningfulness-and-teleology so-reflected in construction-of-the-Self all along in reflecting the ontological-contiguity—of-the-human-institutionalisation-process). The psychoanalytic pertinence of human akrasia-susceptibility-or-akrasiatic-drag complex, so-implied as 'human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self/ontological-fracturing/desublimation/gimmickiness complex', is hinted at even by traditional psychology but rather indirectly as of its ontologically-flawed perspective as of human-subpotency ~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag when it recognises that we do fall short of intemporal ontological-performance-<including-virtue-as-ontology>, but strangely enough hardly has there been articulated any conception about this obviously fundamental structuring/paradigming ontologically-veridical implication of human-subpotency psyche limitation/compensative complex as from the perspective of existence-potency-prospective-digression-of—~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness/intrinsic-reality/ontological-veridicality which is exactly what is ontologically pertinent, and so out of our presencing—absolutising-identitive-constitutedness ~~amplituding~~/formative>epistemic-totalising~self-referencing-

This reality in reflecting the ontological-contiguity—of-the-human-institutionalisation-process very much explains the statement 'I know that I know nothing' made by Socrates reflecting his conception of anamnesis, as the state of human limited-mentation-capacity implies that it is foolhardy to articulate in presencing—absolutising-identitive-constitutedness

terms meaningfulness-and-teleology as of absolutising reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation but rather 'the anamnesis of meaningfulness-and-teleology reflects prospective originariness-parrhesia,–as–spontaneity-of-aestheticisation as of recurrent transepistemic renewing of reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation' (and so, in reflecting the ontological-contiguity—of-the-human-institutionalisation-process dimensionality-of-sublimating—~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism ~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity). This explains why Socrates construed knowledge as virtue, given that what approaches absolutising capacity in the human is rather the 'sense-of-right-orientation with regards to human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of existentially-becoming-and-developing phronetic/practicality situations as to existence-potency-prospective-digression-of—~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness (with anamnesis so-construed as 'dimensionality-of-sublimating—~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation mental-disposition') and not any presencing—absolutising-identitive-constitutedness as reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation. This in many ways explains many a critic misinterpretation of a rift between Socrates and Plato as of their emphasis on anamnesis and the forms/ideas on the one hand and Aristotle on the other hand as of his phronesis/practicality emphasis (on the basis of the specific universalising-idealisation

phronetic/practicality situations as to its defining existence-potency-prospective-digression-of—<s>amplituding</s>/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness). The fact is that Socrates (and as momentously reflected in his abhorrence of writing as of his focus on the 'very spirit-of-things in his pedagogy' over 'mere reproducing by writing that is not necessarily pedagogically instructive', and thus not contradictory with Plato's writing as of recording-for-posterity) and Plato were more engaged with establishing overall philosophical insight beyond just their universalising-idealisation renewed reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation over non-universalising sophistry (even as their association of anamnesis with mythical recollection was caught up in the universalising-idealisation apriorising/axiomatising/referencing–psychologism but by the practical demonstration is relevant in all registry-worldviews/dimensions as of the example articulated as well herein by this author with regards to a child's solipsistic sense of meaning wherein after grasping the rules of additionality even a deliberately collective social misleading will not derail the child's true sense of meaning) as they factored that any such renewal is being undertaken phronetically/practically with human limited-mentation-capacity that is not of absolutising conceptualisation, speaking prospectively of destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>—of-ontological-performance-<including-virtue-as-ontology>, and thus what is more profoundly critical is knowledge-reification as of the transepistemic implications of human limited-mentation-capacity-deepening-⟨<s>amplituding</s>/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩. Aristotle as successor to their thought effectively had to move on to more fruitfully and complementarily elaborate phronetically/practically the implications of universalising-idealisation meaningfulness-and-teleology infrastructure as of science, practical-virtue, rationality, etc., rather than just

theoretically reiterating his predecessors, and as such phronesis as of reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation is what induces existential-contextualising-contiguity and thus allows prospective dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation insight for further human limited-mentation-capacity-deepening-(<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation〉 (as to 'coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness', so-enabled by underlying supposedly coherent ontological-commitment as of ontological-primemovers-totalitative-framework <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity and not any notion of vague innateness besides the existentially inherent human-subpotency potential) leading to further superseding/transcendence as of prospective reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation. But the fact is there is comprehensive coherence in the philosophical articulations of the three thinkers when construed with this comprehensive philosophical knowledge-reification projection insight. In other words, Socratic anamnesis anticipates the implications of knowledge as virtue in the sense that human knowledge-reification, and so in all domains without exception, is one of a dynamic complementary relationship between dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation and phronesis existential-contextualising-contiguity in order to grasp ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications-<as-to-existence-potency-

In this regards, Socratic philosophy as of its knowledge is virtue contention recognises that the impression-driven/good-naturedness/wishfulness of any given reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation whether as of non-universalising sophistry or even prospective Socratic philosophers universalising-idealisation is not sufficient to 'absolutely capture' ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications-<as-to-existence-potency-prospective-digression-of—~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness–as-to-the-ontological-normalcy/postconvergence-projective-perspective,-to-which-latter-human-subpotency-projectively-conflates-to-in-order-to-overcome-our-prospective-epistemic-abnormalcy/preconvergence>, and that such a possibility lies in perpetual knowledge-reification disposition as of the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework. Thus Socratic philosophy as of its very 'anamnesis core implications' doesn't only supersedes prior non-universalising sophistry with universalising-idealisation but it can equally be said that it anticipates prospective positivism/rational-empiricism phronesis existential-contextualising-contiguity as it reconceptualises science, practical-virtue, rationality, etc. in superseding universalising-idealisation phronesis existential-contextualising-contiguity at the latter's destructuring-threshold-<uninstitutionalised-

This explains why prospective transcendence is actually reflected by the ontological-contiguity—of-the-human-institutionalisation-process as of transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing epistemic-ricochetting/transepistemicity reasoning-through/messianic-reason metaphoricity, and not incisively about dialogical-equivalence level of contemplation induced transcendence

Thus more critically prospective transcendence is induced as of the displacement/decentering-of-the-human-subject in its prior relative-ontological-incompleteness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, and so as of epistemic-ricochetting/transepistemicity reasoning-through/messianic-reason metaphoricity that exploits the supposedly coherent ontological-commitment so-implied as of a social-setup 'self-assuredness-of-authenticity with respect to its social-stake-contention-or-confliction' which opens it up to prospective intemporal-as-ontological metaphoricity. The reality thus is that prospective transcendence from a presencing—absolutising-identitive-constitutedness perspective is not actual meaningfulness-and-teleology but rather such is rather acting as a constrained metaphoricity upon a social-setup supposedly coherent ontological-commitment to which the social-setup cannot overtly turn around and wholly assume a contradictory nihilistic disposition; with metaphoricity rather inducing prospective meaningfulness-and-teleology mostly as of prospective cross-generational reasoning-from-results/afterthought. In this regards as of the possibility of futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism transcendence, this author is of the opinion that any intellectual endeavour must precedingly guarantee that it is truly involved in a transparent ontological reification exercise exclusively as of the full existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-

realisation/re-perception/re-thought,–in-epistemic-conflatedness reflection of its ontological-veracity or ontological-impertinence, and so rather than subject to sophistry, as the latter instance will fundamentally undermine and ridicule the underlying intellectual a priori aspiration for reification. In this regards, and as of extensive contemplation, it is herein contended that in many ways such ontological virginity with regards to intellectual practice today is covertly being undermined at the more fundamental level of social emancipation contemplation, and explains why it has herein been seen as relevant to introduce the notion of ontological-bad-faith/inauthenticity anticipating of such anti-intellectual dispositions. As of a further indictment, this author is sceptical of 'covert cohorting initiatives' that substitute intellectual work for ontological-veracity with 'politicised intellectualism' as to which type of theories can be entertained or not, as if there can be knowledge without knowledge! Such cohorting initiatives pretences like those of many supposedly 'thinking political societies' since the end of the Cold War have rather had catastrophic consequences on the world all round in terms of the price of wars including with regards to the hegemonising policies these covert initiatives were supposed to instigate. Generally, the idea that such entities and initiatives covertly undermining the sovereignty of democracies, serve any given society, nation or human progressive purposes is rather counterproductive, as in fact this actually disrupts the natural course of sensible human answers to problems and issues and because of their parochial vision end up aggravating and escalating them, furthering a social narrative of double standards. The last frontier one can contemplate of with regards to such a proclivity is when it comes to undermining the intellectual sovereignty as of prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. Knowledge cannot and should not be forestalled because of any supposed politico-economic penchant. The idea that liberal society can only be upheld by artificial and anti-intellectual undermining of many a critical theory

including postmodern-thought as of the vital possibility of human social regeneration, is ridiculous and speaks of intellectual lack of self-assuredness; with such institutional grip subterfuges rendering such inclinations just as objectionable as the former ousted communist regimes. Ultimately, it is up to free intellectuals to affirm themselves as to what they think society and human intellectual potential can be, beyond the institutional constraints geared to such naïve conventioning-referencing which seem to imply that as of its anti-knowledge posture it will determine the limits of what can be human knowledge. Human history has systematically shown that despite human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor there is an effective mechanism of human registry-worldview's/dimension's institutionalisation that draws out the best from mankind, and the more critical problem for human emancipation arises as of the contending sophistries that confuse-and-disrupt-as-of-significant-otherness that institutionalisation mechanism in one way or the other, and that's why at all stages of human history, the reasoning-through/messianic-reasoning disposition has more critically focussed rather on calling out the prospective institutionalisation perturbation of such sophistries; especially when these show no qualm in integrating the most ignoramus of ⟨amplituding/formative⟩wooden-language-⟨imbued—averaging-of-thought-⟨as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications⟩⟩ dispositions as of a supposed notion of intellectual advancement. In this regards, this author is very much proud of the theoretical orientation taking herein as of a strictly ontological-veracity inclination as to the reality of the fact that existence-potency-prospective-digression-of—⟨amplituding/formative⟩epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness supersedes human-subpotency, and it is the latter that adjusts to the former. This is exactly

what is reflected by ontological-fracturing, wherein the potential for ontological-normalcy/postconvergence is structurally/paradigmatically fractured-at-given-ontologically-compromised-thresholds in the ~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of the successive given levels in reflecting the ontological-contiguity—of-the-human-institutionalisation-process; from recurrent-utter-uninstitutionalisation ontological-fracturing, base-institutionalisation–ununiversalisation ontological-fracturing, universalisation–non-positivism-medievalism ontological-fracturing, positivism–procrypticism ontological-fracturing towards futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism ontological-normalcy/postconvergence; as of the implications of the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality 'seeding promise of human-subpotency ontological-performance-<including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence-as-of-its-coherence/contiguity' in instigating 'intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism ~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity'. Ontological-fracturing as such is a reflection of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, and points out that the way we tend to conceptualise/construe-of idealisation as reflected in rules, institutional essence, institutional

processes and ideals is ontologically-flawed/wrong as the assumption is one that tends to imply beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> only human intemporal ontological-performance-<including-virtue-as-ontology> by mental-reflex, rather than the reality of human temporal-to-intemporal ontological-performance-<including-virtue-as-ontology>s of any given idealisation; speaking of the reality that any idealisation construed as of rules, institutional essence, institutional processes and ideals is structurally/paradigmatically bound to be ontological-fractured as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor. The implication here is that all projections of idealisation should be anticipatory-and-preemptive of the possibility of their prospective ontological-fracturing, for efficient institutionalisation deferential-formalisation-transference and percolation-channelling, 'in order to be more ontologically pertinent and resilient constructs', as they are otherwise subject to the temporal denaturing of such idealisations with regards to their more profound transcendence-and-sublimity implications. In the same vein, we tend as of habit to construe of the fulfilment of human ideals as of the inherent institution and/or inherent individual identitive dispositions, rather than the fact that it is actually brought about by the structural/paradigmatic relations as of projected principles and essences implied intemporally (in cognisance of human temporal-to-intemporal-individuations-within-the-receptable-of-the-individual); and thus that our capacity to fulfil such principles and essences lies with our grasping-and-nurturing-appropriate-intemporal-individuation projection rather than falling back to identitive individual inherence or institutional inherence. As even where it may seem that any given individual or institutional ontological-performance-<including-virtue-as-ontology> is inherent, the underlying structural/paradigmatic reality is rather guaranteed and accounted for as of the effective

grasping-and-nurturing-appropriate-intemporal-individuation projection for ontological-performance-<including-virtue-as-ontology> in that individual or institution rather than just identitive inherence. In the bigger scheme of things, human registry-worldview's/dimension's institutionalisation outcome as of deferential-formalisation-transference and percolation-channelling doesn't substitute for the <~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought as of the underlying dimensionality-of-sublimating—<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation individuation disposition that of reasoning-through/messianic-reasoning brought about secondnatured institutionalisation. thinkers. Rather as construed herein, relative truth speaks to human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation as of the <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity of prospective relative-ontological-completeness, and so-construed as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism perspective. In other words, it is herein contended that the implied notion of relative truth expressed by postmodern-thought is not a rejection of truth as they are wrongly accused, but that truth deepens relatively with human limited-mentation-capacity-deepening-(<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation); and this notion of relative truth is reflected in their works/research-programmes that undermine our <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism perspective. Further, the implication as well is that the adjudicator/transcendental-enabling/sublimating/transcendental-signifier with regards to truth as it enables transcendence-and-sublimity then is existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness as of its ontological-primemovers-totalitative-framework <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity selecting/skewing for ontological-pertinence within the underlying human metaphoricity scheme of 'intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-

singularisation-as-veridical-epistemic-determinism ~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity', and not just mere human subjectivity. Even though in the short-term/immediacy perspective the specific metaphoricity of say a scientific and liberal worldview narrative as implied with the industrial revolution may actually be in the most part ignored/overlooked in a pre-industrial society from a merely meaningfulness-and-teleology transmission/spreading perspective, the supposedly coherent ontological-commitment so-implied as of a social-setup 'self-assuredness-of-authenticity with respect to its social-stake-contention-or-confliction' exposes it to the metaphoricity of the scientific and liberal worldview narrative; wherein for instance such pre-industrial societies were constrained politically and as of national vision, economically and culturally to the effect of progressing industrialisation as it induced the requisite knowledge, skills, beliefs, lifestyle, organisations, etc. changes undermining systematically prior paradigms of societies. Such an overall prospective institutionalisation metaphoricity constraining is very much unlike what we may naively imagine the prior human meaningfulness-and-teleology to be from an after the fact analysis; since such a process is much more critically more than just 'mere transmission/spreading of scientific and liberal meaningfulness-and-teleology for say a suprasocial or <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ human mindset processing', but critically was an epistemic-ricochetting/transepistemicity process that was in many ways beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> unlike our subsequent reasoning-from-results/afterthought contemplation afterwards 'wrongly implying a metaphoricity as of a self-consciously instigated prior suprasocial or <~~amplituding~~/formative>wooden-language-

⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ comprehensive sense of prospective metaphoricity'. This points to a more comprehensive reality of human epistemic-veracity arising as of our <~~amplituding~~/formative>epistemic-totalising~thrownness-in-existence with regards to the fact that while of immediate epistemic strive for knowledge we are naturally predisposed to immediate validation-and-falsifiability implications as of ontological-primemovers-totalitative-framework, in the long run our sense of epistemic-veracity is rather more aptly refined as of our overall existential knowledge insight as reflected with say the research-programme knowledge implications, and ultimately we come to realise that even then epistemic-veracity is in many ways more profoundly as of a beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> non-presencing-<as-to-perspective-ontological-normalcy/postconvergence> ricochetting that speaks of the structural/paradigmatic reality of a human epistemic-veracity as of prospective relative-ontological-completeness appraisal. The reason for making this point is equally to undermine any overrating of human comprehensive contemplation of any such implied suprasocial or <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ presencing—absolutising-identitive-constitutedness mindset not dispensing-with-immediacy-for-prospective-ontological-completeness/contemplative-distension, and so in order to effectively put in perspective the deficiency of epistemic-veracity so-inherent when it comes to prospective metaphoricity implications of operant prospective intemporal individuation transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing intemporal projection as of ontological-faith-notion-or-

ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality for reasoning-through/messianic-reasoning. We can appreciate as well in the bigger scheme of things the ontological-veridicality of this scepticism with regards to any such suprasocial or <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ epistemic-veracity pretence, as expressed before with respect to Plato's idea universalisation involving the undermining of the suprasocial epistemic-veracity pretence associated with sophistry or Descartes' cogito implications of positivism/rational-empiricism involving the undermining of the suprasocial epistemic-veracity pretence of scholasticism pedantry. Just as we can appreciate that in 'the very same physics <~~amplituding~~/formative>epistemic-totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality' as of prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought, the epistemic-veracity as implied in succession from Corpenicus, Galileo, Descartes, Newton, Leibniz, Faraday, Rutherford, Poincaré, Einstein, Bohr up to our very present 21st century physics is mostly as of ricochetting prospective non-presencing-<as-to-perspective-ontological-normalcy/postconvergence>. In a certain way this is obvious, when we appreciate that having the right epistemic-veracity should provide the direct possibility for constructing its structural/paradigmatic meaningfulness-and-teleology as knowledge, such that the fact that a domain-of-study prospective knowledge possibility is thresholding/has-attained-its-limits somewhere is ever always directly related to the fact that its epistemic-veracity has equally thresholded/attained-its-limits, with the possibility of prospective breakthrough arising as of shifting epistemic-veracity; such that we can appreciate that the history of physics or any domain-of-study can be construed as the history of its developing epistemic-veracity in

succession as ultimately constrained to ontological-primemovers-totalitative-framework validation-and-falsifiability. Naivety will be the pretence of constraining the possibility for transcendence-and-sublimity as of prospective meaningfulness-and-teleology as knowledge on a vague notion of any presencing—absolutising-identitive-constitutedness epistemic-veracity that at the very least doesn't rise to projectively contemplate and appraise of such prospective meaningfulness-and-teleology as knowledge prospectively implicited epistemic-veracity of research-programme and validation-and-falsifiability. Thus metaphoricity as such is a notion that is beyond just simplistic transmission/spreading of prospective meaningfulness-and-teleology as knowledge, even though this can be relevant as of a shared prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and-teleology as say the commonality of such metaphoricity inclined re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-⟨imbued-postconverging/dialectical-thinking-'projective-insights'/'epistemic-projection-in-conflatedness'-of-notional~deprocrypticism-prospective-sublimation⟩ thinkers sharing a common emancipatory metaphoricity mathesis/motif-thrownness-disposition like Socrates, Plato, Aristotle and their schools with their universalisation projection or the Descartes, Galileos, Copernicuses, Newton, etc. with budding positivism/rational-empiricism. But rather beyond such shared prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and-teleology that is instigative, metaphoricity is critically about the prospective ricochetting structuring/paradigming implications for inducing such prospective meaningfulness-and-teleology implications on the fabric of the social as an epistemic-totality framework beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>, as the supposedly coherent ontological-commitment of 'self-assuredness-of-authenticity with respect to its social-stake-contention-or-confliction' of the

social-setup exposes it to such an epistemic-ricochetting/transepistemicity metaphoricity. This is so because in the long run transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing of temporal-to-intemporal–ontological-performance-<including-virtue-as-ontology>s-of-narratives is rather as of ontological-primemovers-totalitative-framework selecting/skewing-towards intemporality/ontological-veracity as of existence-potency-prospective-digression-of—~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism. It is important thus to grasp that a social-setup value construct lies somewhere between the possibility of its conventioning-referencing and its presencing—absolutising-identitive-constitutedness Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, when it comes to assessing the possibility of prospective meaningfulness-and-teleology inducing of metaphoricity. It is not necessarily the case that a society that doesn't or poorly appreciate the implication of science will value as of immediacy prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology like the cultivation of science over its conventioning-referencing as a cultural inclination or metaphysical predisposition or a creed; as we can appreciate the contrasting disposition towards the cultivation of science as in Europe and the Arabic world during the medieval period, or even disparity in ontological progressiveness within the very same societies at various epochs. Thus the assumption that any given society or period is absolutely turned/committed to prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology including our modern period, is a flawed appraisal; as in many ways, beyond our

\<~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag perception, a closer look at institutional functioning easily points out the pre-eminence of spurious institutional-being-and-craft muddlement highlighting an uninstitutionalised-threshold as of the privileging of conventioning-referencing over purely prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, and in many ways this explains at the more socially visible spectrum that is politics, the perceived political impotence today. This insight is critical for appreciating the implication of the conception of futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism metaphoricity in our positivism–procrypticism; as its brings to the self-consciousness the reality that the implication of such a deprocrypticism articulation is bordering on the limits/thresholds of our institutional capacity for prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of a privileging of conventioning-referencing disposition to adopt and assume intellectual nihilism at such an uninstitutionalised-threshold; it is herein contended that the reality is similar to that which scuppered Arabic medieval science or scuppered medieval China progressiveness. The 'intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality reasoning-through/messianic-reasoning instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism \<~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity' warrants such intemporal relaying of prospective Being-development/ontological-framework-

Ultimately, the question can be asked as well of our present positivism–procrypticism wherein its conventioning-referencing procrypticism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument falsely seem to project ontological-pertinence why assuming little or no prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology responsibility in an existential-extrication-as-of-existential-unthought posture; as such conventioning-referencing narratives increasingly protrude into supposedly prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology purviews in usurpation, and so together with generalised intellectual teleological-decadence–as-lacking-in-<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness as of its populism and pecuniary value drive substituting for intellectual reification, and as so increasingly reflected mediatically. This human contrastive mental-disposition to prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-

infrastructure-of-meaningfulness-and-teleology and presencing—absolutising-identitive-constitutedness conventioning-referencing speaks at a more fundamental level of the reality that the human subject is not psychologically necessarily driven by an absolute commitment to prospective ontological-veracity given its registry-worldview/dimension structural 'human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self/ontological-fracturing/desublimation/gimmickiness complex'; and thus that it has an ontological-veracity destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>—of-ontological-performance-<including-virtue-as-ontology>, where beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> it will relate to ontological-veracity as relatively impertinent on critical occasions as of its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, and so-reflected socially as of the uninstitutionalised-threshold. The underlying insight about such ontological-veracity destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>—of-ontological-performance-<including-virtue-as-ontology> is that the state of human-subpotency is one where overall its capacity to reflect existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism is inherently limited such that human meaningfulness-and-teleology construal ever always varies as of 'individual whim/impulsion narratives ontological-performance-<including-virtue-as-ontology>s', '<~~amplituding~~/formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>)

Narratives as such are the very <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag drive for human meaningfulness-and-teleology underlying language development, wherein 'ontologically-hegemonising-narrative ontological-performance-<including-virtue-as-ontology>' as of its dispensing-with-immediacty-for-relative-ontological-completeness profoundness is as of singularisation/epistemic-immanence/veridical-epistemic-determinism and so over the temporal–ontological-performance-<including-virtue-as-ontology>s-of-narratives as of dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism. Unsuspectingly, the reality of projected narratives as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor across the institutional-cumulation/institutional-recomposure is rather regular and stable as of the dynamics of temporal-to-intemporal–ontological-performance-<including-virtue-as-ontology>s-of-narratives, and so as of their respectively poor to profound dispensing-with-

It is equally critical to note that as of the profoundness of their social-stake-contention-or-confliction existential-investment, temporal–ontological-performance-<including-virtue-as-ontology>s-of-narratives will drag out as of preconverging-or-dementing–apriorising-psychologism-'apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised~preconverging/dementing–qualia-schema>' of akrasia-susceptibility-or-akrasiatic-drag complex in obviation of prospective ontological-veracity without the constraining untenability as of ontological-primemovers-totalitative-framework as of existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness of intemporal 'ontologically-hegemonising-narrative ontological-performance-<including-virtue-as-ontology>', going by the fact that the supposedly coherent ontological-commitment so-implied as of a social-setup 'self-assuredness-of-authenticity with respect to its social-stake-contention-or-confliction' opens it up to the prospective intemporal-as-ontological metaphoricity of 'ontologically-hegemonising-narrative ontological-performance-<including-virtue-as-ontology>'. The reality of a regular and stable dynamic of human temporal-to-intemporal–ontological-performance-<including-virtue-as-ontology>s-of-narratives across the institutional-cumulation/institutional-recomposure, critically and naturally makes of anthropology more of a universally and operantly principled construction of human existence reification as of anthropopsychology, beyond more or less a traditional orientation categorising epistemic disposition with regards to human cultural life, the social and practices of specific societies, with respect to the coherence of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor

It is ultimately 'ontologically-hegemonising-narrative ontological-performance-<including-virtue-as-ontology>' that is implicited with respect to the supposedly coherent ontological-commitment so-implied as of a social-setup 'self-assuredness-of-authenticity with respect to its social-stake-contention-or-confliction' opening it up to prospective intemporal-as-ontological metaphoricity, such that sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing in reflecting the ontological-contiguity—of-the-human-institutionalisation-process can effectively be construed as of the dynamism of the 'ontologically-hegemonising-narrative ontological-performance-<including-virtue-as-ontology>', as it supersedes temporal–ontological-

destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>——of-ontological-performance-<including-virtue-as-ontology> of meaningfulness-and-teleology as knowledge; as social-construct settings are fundamentally the background of significant otherness for their inherent generalised purposefulness and their enlivening of the possibility for individual human purposefulness as well, such that beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> the notion of ontological-veracity is not necessarily of absolute pertinence to the individual as of pure-ontology implications of aetiologisation/ontological-escalation where individual possible construal of ontological-veracity is subject to its perception/engagement/endearment of specific and/or underpinning–suprasocial-construct settings significant otherness destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>——of-ontological-performance-<including-virtue-as-ontology> implications of its possible constructive/institutionalising/nascent–sublimating-decisionality construal of ontological-veracity. This destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>——of-ontological-performance-<including-virtue-as-ontology> effect of social-construct settings with regards to individual possible constructive/institutionalising/nascent–sublimating-decisionality construal of ontological-veracity is validated by the idea that even the most assured critique in the ontological-veracity of their ideas when this elicits the uninstitutionalised-threshold cannot just articulate them as if the social-construct is 'purely/absolutely receptive-as-constructive/institutionalising/nascent–sublimating-decisionality to ontological-veracity' but need to implicitly recognise the social-construct predisposition to destructure such meaningfulness-and-teleology as of its conventioning-referencing for social-functioning-and-accordance at its uninstitutionalised-threshold, and so in order by its dispensing-with-

immediacy-for-relative-ontological-completeness/contemplative-distension to strategically articulate such meaningfulness-and-teleology going by the possibility of the social-construct as of its potential constructive/institutionalising/nascent–sublimating-decisionality significant otherness to tolerate it in the immediacy, even as the social-construct is rather predisposed in the immediacy to destructure at this uninstitutionalised-threshold as of its registry-worldview/dimension structural 'human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self/ontological-fracturing/desublimation/gimmickiness complex'. From the foregoing, while the supposedly coherent ontological-commitment so-implied as of a social-setup 'self-assuredness-of-authenticity with respect to its social-stake-contention-or-confliction' opens it up to prospective intemporal-as-ontological metaphoricity, it is rather 'naïve to construe of social-stake-contention-or-confliction in any social-setup as absolutely about ontological-veracity' giving a social-construct predisposition to destructure meaningfulness-and-teleology as of its conventioning-referencing for social-functioning-and-accordance at its uninstitutionalised-threshold; with any such superseding ontological-veracity at the social-setup uninstitutionalised-threshold rather beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>, as base-institutionalisation implied meaningfulness-and-teleology is beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> of recurrent-utter-uninstitutionalisation, that of universalisation is beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> of base-institutionalisation–ununiversalisation, that of positivism is beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> of universalisation–non-positivism/medievalism, and prospectively that of deprocryticism is beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> of positivism–procrypticism; and so because any given registry-worldview/dimension

The ultimate point here being that critically the notion of human transcendence-and-sublimity more often than not occur as 'reasoning-through/messianic-reasoning projection-beyond-the-presencing-human-self-consciousness-as-reinventing-prospective-non-presencing-<as-to-perspective-ontological-normalcy/postconvergence>-human-self-consciousness' rather than as it can wrongly be implied with 'reasoning-from-results/afterthought postures as of presencing—absolutising-identitive-constitutedness self-consciousness mastery and direction' which are rather ontologically-flawed <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. In this regards, ontological-veracity as of a perpetual predisposition for prospective relative-ontological-completeness is ensured by supposedly coherent ontological-commitment to undermine the social-construct

predisposition to destructure meaningfulness-and-teleology as of its conventioning-referencing for social-functioning-and-accordance at its uninstitutionalised-threshold, and enable the construal of prospective ontological-veracity by 'ontologically-hegemonising-narrative ontological-performance-<including-virtue-as-ontology>', as of ontologically-veridical difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism, over 'individual whim/impulsion narratives ontological-performance-<including-virtue-as-ontology>s', '<~~amplituding~~/formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>) narratives ontological-performance-<including-virtue-as-ontology>s' and 'suprasocial narratives ontological-performance-<including-virtue-as-ontology>s' in their various flawed identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism postures. The social epistemic-totality reality of the metaphoricity flux of temporal-to-intemporal–ontological-performance-<including-virtue-as-ontology>s-of-narratives thus implies that in effect a social-setup is a construct of 'temporal-to-intemporal-dispositions accordioning-<as-of-varying-individuations-contextually-transverse-desublimation/sublimation,-as-to-the-redounding/wavering/waveforming—of-their-referencing-and-their-devolved-referencing-imbued-ontological-performance-<including-virtue-as-ontology>> ontological-performance-<including-virtue-as-ontology>s-including-virtue-as-ontology of narratives' as an epistemic-totality of meaningfulness-and-teleology, wherein the most totalisingly-entailing/ontologising/institutionalising of narratives as of 'ontologically-hegemonising-narrative ontological-performance-<including-virtue-as-ontology>' is structurally superseding over more specific and spurious temporal–ontological-performance-<including-virtue-as-ontology>s-of-narratives but with all such temporal-to-intemporal–ontological-

It is this possibility of narratives recombination as of formative and enculturating implications as well as the criss-crossing of formal and informal spheres/settings differing temporal-to-intemporal value-references that renders even totalisingly-entailing/ontologising/institutionalising narratives susceptible to recombination with temporal–ontological-performance-<including-virtue-as-ontology>s-of-narratives, thus leading to their possible ontological denaturing as of uninstitutionalised-threshold implications. Ultimately, it is herein contended that conceptualising ontological-veracity reflecting existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism as this underlies retrospective, present to prospective meaningfulness-and-teleology rather boils down to grasping prospective relative-ontological-completeness <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity as of notional~deprocrypticism. It is important to grasp that since every registry-worldview/dimension social-construct is involved in a constructive (as of its institutionalising disposition) and destructuring (as of its disposition at its uninstitutionalised-threshold) relationship with ontological-veracity, this is exactly what inevitably validates the articulation of ontological-veracity/ontological-veridicality as more completely involving the displacement/decentering-of-the-human-subject priorly as implied with Derridean

deconstruction narrative or Foucauldian genealogy-knowledge-and-power-discourse narrative in reflecting the need to undermine human destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>—of-ontological-performance-<including-virtue-as-ontology> to further advance its constructive/institutionalising/nascent–sublimating-decisionality nature, thus overcoming underlying logocentrism as of prospective relative-ontological-completenenss implications; reflecting the fact that human knowledge is more completely a two-fold process involving building the right mindset-as-of-prospective-relative-ontological-completeness and thus the knowledge for that given right mindset-as-of-prospective-relative-ontological-completeness as of projected conflatedness. This is very much unlike the Ricoeurian narrative theory conception that while of palliative and practical significance is in relative constitutedness since it poorly deals with logocentrism implications as of prior relative-ontological-incompleteness on ontological-veracity; as it construes of 'logocentric habituated social conditions' as inherently ontological or beyond ontological treatment while failing to countenance the 'decentering heavy lifting' involved in undermining ontologically impertinent 'logocentric habituated social conditions' in enabling the ontological-contiguity—of-the-human-institutionalisation-process as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology right up to our present, and as of prospective transformative emancipatory possibilities. In the bigger scheme of things, the social-construct as significant otherness is ever always inherently put into question itself given its constructive/institutionalising/nascent–sublimating-decisionality and destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>—of-ontological-performance-<including-virtue-as-ontology> nature speaking of its reasoning-from-results/afterthought, with regards to its capacity-and-disposition to uphold prospective transcendence-and-sublimity ontological-veracity/ontological-veridicality; as so implied in

the epistemic-ricochetting/transepistemicity unorthodoxy herein expounding futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism, just as with the unorthodoxy of postmodern-thought or generally the unorthodoxy of all prospective transcendence-and-sublimity meaningfulness-and-teleology whether with regards to the Socrates/Plato/Aristotle, Copernicuses, Galileos, Descartes, Newtons, Darwins, Rousseaus, Nietzsches, Einsteins, etc. as reasoning-through/messianic-reasoning. This basic idea of the social-construct as of its constructive/institutionalising/nascent–sublimating-decisionality and destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>—of-ontological-performance-<including-virtue-as-ontology> nature is effectively what underlies in ontologically neutral/objective terms–as-of-axiomatic-construct such displacement/decentering-of-the-human-subject narratives like Derridean deconstruction narrative or Foucauldian genealogy-knowledge-and-power-discourse narrative. However, the capacity to appreciate the ontological neutrality/objectivity of a decentering narrative like deconstruction as being fully more of a purely ontological notion is caught up in our positivism–procrypticism prior relative-ontological-incompleteness human social-stake-contention-or-confliction in disjointedness-as-of-reference-of-thought, and thus deconstruction will tend to be deficiently construed in terms–as-of-axiomatic-construct of the circumstantial social primacy of this temporal framework social-stake-contention-or-confliction over its fuller pure-ontology as of prospective relative-ontological-completeness deprocrypticism; explaining in many ways the difficulty for Derrida to define deconstruction. Again, such a social situation is no more different with say the articulation of budding positivism/rational-empiricism science in say a non-positivism/medievalism social-setup as caught up in the universalisation–non-positivism/medievalism prior relative-ontological-incompleteness temporal framework of social-stake-contention-or-confliction, such that the

more ontologically pure idea we may appreciate today as science is poorly disentangled from that circumstantial social primacy of the non-positivism/medievalism social-stake-contention-or-confliction like the entrenched interests that will rather focus mindsets rather in a nominal adversarial binarity perspective as of defending or attacking the traditional scholasticism pedantic literature over a more pure, nuanced and enlightening ontology contemplation of science as of prospective relative-ontological-completeness positivism, as a result of the failure of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming-'notionally-collateralising-protohumanity'-to-'attain-sublimating-humanity',-as-to-existence-potency-prospective-digression-of—

With respect to deconstruction in this regard, it is herein contended that such a Derridean deconstruction notion like binary opposition effectively speaks of the fact that it is encrusted/caught-up in our positivism–procrypticism prior relative-ontological-incompleteness human social-stake-contention-or-confliction as of its disjointedness-as-of-reference-of-thought but that a more fuller pure-ontology appreciation of the deconstruction notion as of prospective relative-ontological-completeness deprocrypticism rather subsumes all such binary opposition conceptions basically into the binarity of intemporality/longness and temporality/shortness as to human limited-mentation-capacity relative ontological-performance-<including-virtue-as-ontology>.

It is effectively from this fuller pure-ontology perspective of prospective relative-ontological-completeness deprocrypticism that we can appreciate more profoundly the universal ontological epistemic pertinence of decentering narratives like deconstruction, and so pervasively well beyond the stereotypical grand themes of gender, race, postcolonialism, power, etc. but rather just as of an all-pervasive universal ontological profundity for analysing everything as of prospective relative-ontological-completeness deprocrypticism herein construed as human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation; with the implied knowledge emancipation rather construed as of mutual human emancipation beyond just the idea of a decentering narrative being about stronger and weaker but transcending that framework of contemplation in projecting of aetiologisation/ontological-escalation/otherliness as of a converging vision of emancipation as conjoint human emancipation, as the reality of the supposedly unemancipated speaks of the ontological emancipative deficiency of the supposedly emancipated in need of the latter's state very own deconstructing. Such a mutual-emancipation appreciation of deconstruction will appreciate for instance that the civil war ending slavery in the U.S. was both as emancipative to its practitioners as well as to the freed beyond just the overall social adversariality practical implications, just as in decolonising terms it will appreciate that the more matured as mutually-emancipative notion of decolonisation involved both the capacity of colonised territories to attain and choose independence in mutual cooperation and even in other cases with such territories choosing to follow a mutually respectful and healthy relationship with the metropolitan country which in a few cases turn out to be more beneficial to both. In this regards, we can appreciate that the human predisposition not to dispense-with-immediacy-for-relative-ontological-completeness/contemplative-distension as of a nominal adversarial binarity predisposition in many ways renders such an ontologically more profound construct of deconstruction difficult.

In this very contrastive sense with regards to our present prospective relative-ontological-completeness positivism/rational-empiricism, we don't ideally construe of science as of its pure-ontology as discriminatorily selective in its conclusions and we further appreciate that its usefulness is universally emancipatory as of social-stake-contention-or-confliction, and so in both instances with regards to say medicine or civil technology or consumer technology or even scientific and technological nomenclatures; with any such discriminatorily selective predisposition and failure to share its usefulness being an indictment of a lack of the requisite liberalism for perpetuating human scientific progress and basically overall human emancipation. Ultimately, the social-construct as of its constructive/institutionalising/nascent–sublimating-decisionality and destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>—of-ontological-performance-<including-virtue-as-ontology> nature inherently points out why human transcendence-and-sublimity as of intemporal metaphoricity epistemic pertinence doesn't lie with any inherent suprasocial framework or inherent <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ framework. The fact is that the inherent human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor renders such <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ framework or suprasocial framework epistemic pertinence for prospective transcendence-and-sublimity untenable, as susceptible to prospective dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism. epistemic pertinence for prospective human transcendence-and-sublimity is rather structured/paradigmed dynamically as of prospective reasoning-through/messianic-reasoning epistemic-ricochetting/transepistemicity possibility exploiting the supposedly coherent ontological-commitment so-implied as of a social-setup 'self-assuredness-of-authenticity with respect to its social-stake-contention-or-confliction' which opens it up to prospective intemporal-as-ontological metaphoricity. This is the overall notion explaining human akrasia-susceptibility-or-akrasiatic-drag complex, and so as of human limited-mentation-capacity notional implications. Thereafter, understanding of this human 'ontologically-flawed antiakrasiatic disposition' is all about conceptualising the effective operant ontologically-constraining conditions as of human existential-instantiations given our limited-mentation-capacity implied as of temporality/shortness and intemporality/longness implications, and so construed epistemically as ontological-normalcy/postconvergence analysis. Insightfully, we can appreciate that the absolute human ontologically-veridical antiakrasiatic disposition can only be as of existence-potency-prospective-digression-of—<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness as-to-

ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism so-reflected with futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism registry-worldview/dimension, over human-subpotency–as-of-ontologically-compromised-epistemic-abnormalcy/preconvergence so-reflected variously with the preceding successive registry-worldviews/dimensions; wherein notional~deprocrypticism as of existence-potency-prospective-digression-of—<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness will rather speak of prospective 'ontologically-hegemonising-narrative ontological-performance-<including-virtue-as-ontology>' which as of its inherent constructive ontological-performance-<including-virtue-as-ontology> is of a structural/paradigmatic implication that ultimately supersedes the destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>—of-ontological-performance-<including-virtue-as-ontology> notionally underlying human-subpotency. Thus all the problem of human ontologically-flawed antiakrasiatic disposition boils down to construing the underlying human mental-processing disposition, construed as of phenomenal-abstractiveness implications, as from human-subpotency dispositional possibilities of ontological-performance-<including-virtue-as-ontology>s to existence-potency-prospective-digression-of—<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness possibility of ontological-performance-<including-virtue-as-ontology>. In this respect, we can appreciate that the successive registry-worldviews/dimensions reference-of-thought in reflecting the ontological-contiguity—of-the-human-institutionalisation-process are effectively differing structural/paradigmatic antiakrasiatic dispositions-as-of-self-consciousness varying from most ontologically-flawed as of recurrent-utter-uninstitutionalisation to most ontologically-

veridical as futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism. We can further appreciate that all the successive registry-worldviews/dimensions reference-of-thought are marked at their reference-of-thought-devolving-level by temporal-to-intemporal ontological-performance-<including-virtue-as-ontology>s speaking of differing ontological-performance-<including-virtue-as-ontology>s-including-virtue-as-ontology of intemporal and disambiguated temporal ontologically-flawed antiakrasiatic-disposition as of postlogism-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation reflecting <~~amplituding~~/formative>wooden-language-⟨imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology⟩. Further and of much more profound reification implications, is the reality that the social-construct constructive and destructuring nature can be fundamentally accounted for by the fact that human antiakrasiatic disposition aspiration is truly reflected as from the effective implications of the intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-

Destructuring-transitoriness-as-of-deratiocination/deratiocontiguity thus arises as of human limited-mentation-capacity deficient personality adherence, personality formation and personality development as of the social-setting very own registry-worldview/dimension institutionalisation level, with regards to the construal of the social-construct in its constructiveness-of-ontological-performance-<including-virtue-as-ontology> as of 'equivalence/correspondence antiakrasiatic-aspiration ontological-performance-<including-virtue-as-ontology>', with such destructuring deficiency defining its uninstitutionalised-threshold. Destructuring-transitoriness-as-of-deratiocination/deratiocontiguity as it speaks to the reference-of-thought-devolving-level is a most potent social phenomenon in the extended-informality rather than defined-and-constrained formalised social-settings (though it more fundamentally speaks of the uninstitutionalised-threshold implied overall registry-worldview/dimension prospective structural/paradigmatic ontological-performance-<including-virtue-as-ontology> deficiency), as of the dearth of ontologically-hegemonising-narrative as of '<~~amplituding~~/formative>epistemic-totalising~ratio-contiguity/ratiocination-as-referentialism constructiveness disposition in singularisation/epistemic-immanence/veridical-epistemic-determinism' in the extended-informality with the latter variously substituted as of human phenomenal-abstractiveness '<~~amplituding~~/formative>epistemic-totalising~random-as-impulsive destructuring-disposition—flipping/changing/transitioning-induced-notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised~preconverging/dementing–

It is important to grasp here that this destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>—of-ontological-performance-<including-virtue-as-ontology> analysis is notionally/epistemically as of existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness epistemic/notional~projective-perspective of deprocrypticism which is in ontological-normalcy/postconvergence and beyond/superseding the internal positivism–procrypticism disjointedness-as-of-reference-of-thought human-subpotency social-stake-contention-or-confliction perspective wherein the human-subpotency <~~amplituding~~/formative>epistemic-totalising~self-referencing-

syncretising/circularity/interiorising/akrasiatic-drag perspective of analysis as of its prior relative-ontological-incompleteness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument will rather be in a muddling undisambiguated appraisal of its destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>—of-ontological-performance-<including-virtue-as-ontology> in contrast to the epistemic/notional veracity of existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness implication as of deprocrypticism in prospective relative-ontological-completeness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument implications of aetiologisation/ontological-escalation; and this is akin to the existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness projection to prospective positivism insight of aetiologisation/ontological-escalation with regards to say the reflection of destructuring-transitoriness-as-of-deratiocination/deratiocontiguity in the manifestation of notions-and-accusation-of-sorcery in a non-positivism social-setting social-stake-contention-or-confliction, with the construal of such purportedly constructiveness disposition of 'equivalence/correspondence antiakrasiatic-aspiration ontological-performance-<including-virtue-as-ontology>' as of positivism ontologically-hegemonising-narrative not necessarily telling from within the perspective of the non-positivism human-subpotency social-stake-contention-or-confliction narratives, but for the implied prospective metaphoricity as prospective ontologically-hegemonising-narrative of positivism. Insightfully, such an ontological-normalcy/postconvergence destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>—of-ontological-performance-<including-virtue-as-ontology> analysis insight is more like a projective contrast as with the

case of the BODMAS characters deficient apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity operation of Arithmetic construed as of dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism in epistemic-abnormalcy/preconvergence and with regards to our normally conceived apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity for the operation of Arithmetic as of singularisation/epistemic-immanence/veridical-epistemic-determinism in ontological-normalcy. Basically, such an ontological-normalcy/postconvergence destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>—of-ontological-performance-<including-virtue-as-ontology> analysis speaks of the reality of human ontological-dementation/dialectical-dementation–stranding/attributive-dialectics insights; and the appreciation of the latter as to the displacement/decentering-of-the-human-subject in reflecting the ontological-contiguity—of-the-human-institutionalisation-process is a requisite for understanding such an ontological-normalcy/postconvergence destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>—of-ontological-performance-<including-virtue-as-ontology> analysis. The destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>—of-ontological-performance-<including-virtue-as-ontology> analysis is highly abstracted from such an ontological-normalcy/postconvergence epistemic/notional~projective-perspective (so-understood as of ontological-normalcy/postconvergence/Doppler-thinking perspective of analysis). It reflects the abstract development of human-subpotency 'dynamic phenomenal-abstractiveness possibilities in their psychodynamic operant conflatedness with the social

epistemic-totality of meaningfulness-and-teleology'. This psychodynamic operant conflatedness reflects human-subpotency 'constructiveness-of-ontological-performance-<including-virtue-as-ontology>/institutionalisation/nascent–sublimating-decisionality—by—destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>—of-ontological-performance-<including-virtue-as-ontology> metaphorising vacillating-conception of the social epistemic-totality of meaningfulness-and-teleology'; as can veridically be construed from existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness epistemic perspective as of ontological-normalcy/postconvergence with respect to assessing 'equivalence/correspondence antiakrasiatic-aspiration ontological-performance-<including-virtue-as-ontology>'. This destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>—of-ontological-performance-<including-virtue-as-ontology> analysis further highlights the 'transitive nature' of the human psyche across the various registry-worldviews/dimensions uninstitutionalised-thresholds in reflecting the ontological-contiguity—of-the-human-institutionalisation-process with respect to destructuring at all uninstitutionalised-thresholds; as so-implied by ontological-dementation/dialectical-dementation–stranding/attributive-dialectics. The comprehensive social susceptibility to destructuring-transitoriness-as-of-deratiocination/deratiocontiguity as the defining element of the social-construct destructuring is what underlies passive to active social mobbishness phenomena as of human limited-mentation-capacity social dynamic implications of lacking social ontologically-hegemonising-narrative. The failing cogency and individual wariness of the social as of the lack of a comprehensive expectation of 'equivalence/correspondence antiakrasiatic-aspiration ontological-performance-<including-virtue-as-ontology>' arises because of destructuring-transitoriness-as-of-deratiocination/deratiocontiguity as of its

implied destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>—of-ontological-performance-<including-virtue-as-ontology> parasitism <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, as beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> this reflects the individual psyche conception of the social especially as of its extended-informality as not necessarily of high operant 'equivalence/correspondence antiakrasiatic-aspiration ontological-performance-<including-virtue-as-ontology>', and is further reflected in a social dynamics of dual overt and covert implicited interpretations of social phenomenality arising as of beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> cognisance-and-adaptation to the reality of the ontologically compromisable possibility of social meaningfulness-and-teleology. Insightfully, it can be appreciated that the ontological-contiguity—of-the-human-institutionalisation-process is one long process involving the undermining of destructuring-transitoriness-as-of-deratiocination/deratiocontiguity at uninstitutionalised-thresholds with relative 'equivalence/correspondence antiakrasiatic-attainment ontological-performance-<including-virtue-as-ontology>' as of ontologically-hegemonising-narrative implied as of prospective '<~~amplituding~~/formative>epistemic-totalising~ratio-contiguity/ratiocination-as-referentialism constructiveness disposition in singularisation/epistemic-immanence/veridical-epistemic-determinism'. In this regard, we can appreciate anthropologically as of human limited-mentation-capacity-deepening-(<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) implications the destructuring-transitoriness-as-of-deratiocination/deratiocontiguity that upheld superstitious beliefs in non-positivism social constructs but as of positivism/rational-empiricism ontologically-hegemonising-narrative implied with social enlightenment and the sciences rendered many

purviews of existence as of relative 'equivalence/correspondence antiakrasiatic-attainment ontological-performance-<including-virtue-as-ontology>'. We can similarly project of the same with respect to our positivism–procrypticism disjointedness-as-of-reference-of-thought destructuring-transitoriness-as-of-deratiocination/deratiocontiguity at its uninstitutionalised-threshold as to be prospectively superseded by deprocrypticism preempting—disjointedness-as-of-reference-of-thought ontologically-hegemonising-narrative thus rendering human ontological-performance-<including-virtue-as-ontology> correspondence with the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<~~amplituding~~/formative>epistemic-totalising~purview-of-construal' as of prospective relative 'equivalence/correspondence antiakrasiatic-attainment ontological-performance-<including-virtue-as-ontology>'. This destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>—of-ontological-performance-<including-virtue-as-ontology> analysis effectively points to the fact that human akrasia-susceptibility-or-akrasiatic-drag complex is such a decisive and determinant notion with respect to the human psyche as the critically interceding notion with respect to human social construction-of-the-Self and as it remains a transitive and constant notion in reflecting the ontological-contiguity—of-the-human-institutionalisation-process as to the destructuring implications at uninstitutionalised-thresholds implied human-subpotency epistemic/notional~projective-perspective in dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism relative to existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness epistemic/notional~projective-perspective in singularisation/epistemic-immanence/veridical-epistemic-determinism. This overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-<imbued-and-educed–human-subpotency–epistemic-perspective-of-aestheticising-motif-and-

apriorising/axiomatising/referencing-conceptualisation> of the social-construct as from the elucidation/reification as 'destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>—of-ontological-performance-<including-virtue-as-ontology> analysis' is rather notionally/epistemically reflective of the social-construct constructiveness-of-ontological-performance-<including-virtue-as-ontology>, as such an antiakrasiatic analysis of uninstitutionalised-thresholds notionally/epistemically reflects the ontological-contiguity—of-the-human-institutionalisation-process; and so, similarly as the analysis of prospective possibilities of disease and illness is not about being pessimistic about the biology of human beings but is notionally/epistemically reflective of the possibility for the further development and provision of medicine and healthcare, and just as the projective analysis of lack of science and technology capacity is not about being pessimistic about human technical development but is notionally/epistemically reflective of the possibility for the further invention of technologies and scientific discoveries. We can appreciate here that the very same epistemic/notional conceptualisation with respect to the human subject as with natural subject-matters elicits in the former high emotional involvement whereas the latter as of its direct ontological-primemovers-totalitative-framework <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity elicits low emotional-involvement, but for the case where with regards to high and conflicting human social-stake-contention-or-confliction even the natural domain is not immuned from high emotional-involvement as with the climate change issue for instance. The point being made here is that sober analyses of the social as herein articulated tends to elicit naïve criticism that human progress happens anyway, but then such naïve criticism only recounts the fact of human progress while failing to be reifying and is actually dereifying when by its 'implicited passivity implications for prospective human progress' it fails to account for how

human progress occurs in the very first place or even whether there is any underlying process for its occurrence or non-occurrence. Actually, human progress occurs because of effective human constructive disposition to supersede identified-and-defined destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>—of-ontological-performance-<including-virtue-as-ontology> and as reflected at uninstitutionalised-thresholds. As the Copernicuses, Galileos, Darwins, Diderots, etc. of the world with their subsequently metaphorising societies didn't progress on the basis that human progress occurs anyway but because they effectively superseded their identified-and-defined ontological-performance-<including-virtue-as-ontology> destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>—of-ontological-performance-<including-virtue-as-ontology> and uninstitutionalised-threshold, and it is this difficult task of cross-generational mobilisation that enables the prospective constructiveness-of-ontological-performance-<including-virtue-as-ontology> for human living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. The implicited passivity behind such reflections that human progress occurs anyway again highlights why the intemporal mental-dispositions behind the superseding of destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>—of-ontological-performance-<including-virtue-as-ontology> need to be integrated into the very core of such secondnatured formulaic/mechanical-knowledge outcome as part and parcel of knowledge, construed as organic-knowledge. Otherwise, the very vocation behind such organic-knowledge end up being denatured as of deficient apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, and this inevitably actually occurs and reoccurs throughout the ontological-contiguity—of-the-

1709

human-institutionalisation-process; such that prospective social-construct constructiveness-of-ontological-performance-<including-virtue-as-ontology> and institutionalisation is ever always a process of maximalising-recomposuring-for-relative-ontological-completeness to prospectively recapture the acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for prospective organic-knowledge lost in secondnatured institutionalisation with the latter construed in temporality/shortness often bound to induce incrementalism-in-relative-ontological-incompleteness as of poor apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. Inevitably across the various registry-worldviews/dimensions in reflecting the ontological-contiguity—of-the-human-institutionalisation-process, the universally-transparent articulation-and-implications (as herein) of human destructuring as reflected by '<~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating preconverging/dementing–qualia-schema' and constructiveness as reflected by '<~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating postconverging/dialectical-thinking–qualia-schema' inherently elicits from the human-subpotency epistemic/notional~projective-perspective reflected as of the '<~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating preconverging/dementing–qualia-schema' in <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, a sense of temporal social-stake-contention-or-confliction existential-investment ushering in the furthering of temporality/shortness as of untransvaluated–temporal-intemporality inclination and accompanying sophistic/pedantic complexes. But from the intemporal-as-ontological teleologically-elevated projection reflected as from existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-

perception/re-thought,–in-epistemic-conflatedness epistemic/notional~projective-perspective for aetiologisation/ontological-escalation such temporal-dispositions are rather unwarranted and irrelevant since such aetiologisation/ontological-escalation is rather geared towards the prospective relative-ontological-completeness implied social-stake-contention-or-confliction as of human intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm and not the prior relative-ontological-incompleteness social-stake-contention-or-confliction in extricatory/temporal paradigm; and candidly so to the extent that the intemporal-as-ontological dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming-'notionally-collateralising-protohumanity'-to-'attain-sublimating-humanity',-as-to-existence-potency-prospective-digression-of—~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness to supersede human temporality/shortness ~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩) is not interpreted from a temporal existential-extricatory-as-of-existential-unthought perspective as ineptness warranting the furtherance of temporal-dispositions as of untransvaluated–temporal-intemporality inclination and accompanying sophistic/pedantic complexes as well as to the extent of entailing prospective relative-ontological-completeness. We can appreciate in this regards that the intemporal projection as of base-institutionalisation implies an incisive/edgy apriorising-teleological-elevation-in-ontological-contiguity beyond recurrent-utter-uninstitutionalisation social-stake-contention-or-confliction as of its '~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating preconverging/dementing–qualia-schema' in ~~amplituding~~/formative>epistemic-

totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, and likewise with the intemporal projection as of universalisation over base-institutionalisation–ununiversalisation, positivism over universalisation–non-positivism/medievalism and prospectively deprocrypticism over positivism–procrypticism. In this regards, the notion of preconverging-or-dementing–apriorising-psychologism as reflected as of '<amplituding/formative>epistemic-totalising/circumscribing/delineating

preconverging/dementing–qualia-schema' of prior relative-ontological-incompleteness is tied-to and a necessarily associated notion with that of postconverging-or-dialectical-thinking–apriorising-psychologism as reflected as of '<amplituding/formative>epistemic-totalising/circumscribing/delineating postconverging/dialectical-thinking–qualia-schema' with respect to the possibility of a protracted-consciousness conceptualisation in reflecting the ontological-contiguity—of-the-human-institutionalisation-process; and as this explains the successive construction-of-the-Self reflected in the successive registry-worldviews/dimensions. It is the possibility for the human mind to dement as of a '<amplituding/formative>epistemic-totalising/circumscribing/delineating

preconverging/dementing–qualia-schema' by its self-conscious <amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought as of its <amplituding/formative>epistemic-totalising~thrownness-in-existence that structurally/paradigmatically allows for the possibility of prospective institutionalisation involving the displacement/decentering-of-the-human-subject. Unlike our naïve human-subpotency epistemic/notional~projective-perspective inclined to perceive prior registry-worldviews/dimensions in their '<amplituding/formative>epistemic-totalising/circumscribing/delineating preconverging/dementing–qualia-schema' in stigmatising terms–as-of-axiomatic-construct, the ontological-veracity from existence-potency-prospective-digression-of—<amplituding/formative>epistemic-totalising~renewing-

realisation/re-perception/re-thought,–in-epistemic-conflatedness epistemic/notional~projective-perspective is one that rather entails a forward-thinking appreciation that the possibility of all prospective relative-ontological-completeness postconverging-or-dialectical-thinking–apriorising-psychologism reflected as of '<~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating postconverging/dialectical-thinking–qualia-schema' can only arise as of the psychoanalytic-unshackling/memetic-reordering/institutional-recomposure possibility of prior relative-ontological-incompleteness preconverging-or-dementing–apriorising-psychologism reflected as of '<~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating preconverging/dementing–qualia-schema', and so whether from a retrospective, present or prospective perspective; speaking of the 'miracle of the human mind malleable potential as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation', and implying an obligation for any given registry-worldview/dimension to maximalise this human capacity for Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of its growing self-consciousness and self-awareness. In fact, the notion of preconverging-or-dementing–apriorising-psychologism as such speaks of the fact that the entire cross-section of humanity as of recurrent-utter-uninstitutionalisation is of a '<~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating preconverging/dementing–qualia-schema' with respect to prospective base-institutionalisation '<~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating postconverging/dialectical-thinking–qualia-schema', and likewise universalisation with respect to base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism with respect to positivism, and our present positivism–procrypticism with respect to prospective deprocrypticism. The fact is, even the said prospective

transcendence-and-sublimity emancipators across the successive registry-worldviews/dimensions in reflecting the ontological-contiguity—of-the-human-institutionalisation-process are just as equally relatively enmeshed in many ways with their reference-of-thought old psychology '<~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating preconverging/dementing–qualia-schema' like say Newton's involvement with alchemy, and the idea of projecting to a prospective '<~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating postconverging/dialectical-thinking–qualia-schema' speaks of a first level of human uninhibitedness/decomplexification that is exactly what allows for human emancipation. This further shows how our seemingly objectified presencing—absolutising-identitive-constitutedness positivism–procrypticism disposition is all-encompassing as of our <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag when we construe of ourselves as 'postconverging-or-dialectical-thinking–apriorising-psychologism as of in-the-absolute' without projecting that just as prior generations of humans were both postconverging-or-dialectical-thinking–apriorising-psychologism as of their constructiveness-of-ontological-performance-<including-virtue-as-ontology> reflected as of '<~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating postconverging/dialectical-thinking–qualia-schema' at their relative-ontological-completeness and preconverging-or-dementing–apriorising-psychologism as of their destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>—of-ontological-performance-<including-virtue-as-ontology> reflected as of '<~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating preconverging/dementing–qualia-schema' at their relative-ontological-incompleteness, we equally manifest the same and so-perceived from the prospective relative-ontological-

completeness of deprocrypticism or preempting—disjointedness-as-of-reference-of-thought. The critical point here has to do with the fact that beyond the 'contingent-ontologies—as-of-conventioning-referencing' of successive registry-worldviews/dimensions, in their <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ as of their ontologically-flawed identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism, that are enabled by human limited-mentation-capacity-deepening-⟨<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ as herein implied successively as of non-rules—apriorising/axiomatising/referencing–psychologism of recurrent-utter-uninstitutionalisation, rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism of base-institutionalisation, universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism of universalisation, positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism of our positivism and preempting—disjointedness-as-of-reference-of-thought,-as-to-<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness-in-superseding-mere-formulaic-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism of futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism; the ontological-contiguity—of-the-human-institutionalisation-process can thus be qualified as the 'true-ontology—as-of-Being-development/ontological-framework-expansion–as-to-depth-of-

ontologising-development-as-infrastructure-of-meaningfulness-and-teleology' as its opened-construct-of-meaningfulness-and-teleology reflects the comprehensive ontological-veracity of the successive registry-worldviews/dimensions becoming as of ontologically-veridical difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism. This 'true-ontology—as-of-Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology' is ultimately construed as of notional~conflatedness with futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism as notional~deprocrypticism, reflecting the fact that the ontological-contiguity—of-the-human-institutionalisation-process as of successive registry-worldviews/dimensions outcomes can be construed as one of human successive failings to attain deprocrypticism or preempting—disjointedness-as-of-reference-of-thought singularisation/epistemic-immanence/veridical-epistemic-determinism and so up to the prospective human attaining of deprocrypticism or preempting—disjointedness-as-of-reference-of-thought singularisation/epistemic-immanence/veridical-epistemic-determinism. <amplituding/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that our 'positivism–procrypticism contingent-ontology—as-of-conventioning-referencing' as reflected by our positivist science-ideology and humanism ideology seemingly surpasses the very 'true-ontology—as-of-Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology' in reflecting the ontological-contiguity—of-the-human-institutionalisation-process that engendered our positivism/rational-empiricism creating as of epistemic-ricochetting the said science without the science-ideology and the said human emancipation without the humanism ideology. This fundamental disjointedness explains why and how our positivist science-ideology and humanism ideology so-misconstrued beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> rather turns out to be denaturing and undermines prospective Being-development/ontological-framework-development, and explains our inclination to ask the wrong questions given the false sense of certainty arising from this 'positivism–procrypticism contingent-ontology—as-of-conventioning-referencing'. Such questions with regards to how the humanities can be further developed as efficaciously as the natural sciences, how can philosophy be more socially potent, and on the social paradoxes of our suboptimum institutional-development–as-to-social-function-development and living-development–as-to-personality-development, more critically point to the ontological-veracity in reflecting the ontological-contiguity—of-the-human-institutionalisation-process 'true-ontology—as-of-Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology' as of its implied intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning recurrent shot

This displacement/decentering-of-the-human-subject as of psychoanalytic-unshackling/memetic-reordering/institutional-recomposure further points out from the perspective in reflecting the ontological-contiguity—of-the-human-institutionalisation-process 'true-ontology—as-of-Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology' the underlying ontological-veracity of

human ontological-dementation/dialectical-dementation–stranding/attributive-dialectics as it speaks of the human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology as actually of an underlying coupling of postconverging-or-dialectical-thinking–apriorising-psychologism constructiveness-of-ontological-performance-<including-virtue-as-ontology> as reflected by '<~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating postconverging/dialectical-thinking–qualia-schema' and preconverging-or-dementing–apriorising-psychologism destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>—of-ontological-performance-<including-virtue-as-ontology> as reflected by '<~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating preconverging/dementing–qualia-schema'. Ultimately, human ontological-dementation/dialectical-dementation–stranding/attributive-dialectics is the notion underlying human self-consciousness as of construction-of-the-Self all along in reflecting the ontological-contiguity—of-the-human-institutionalisation-process 'true-ontology—as-of-Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology'. It all arises from the 'human capacity for decomplexified/uninhibited preconverging-or-dementing–apriorising-psychologism' in order to then 'prospectively induce originarily/as-of-event prospective postconverging-or-dialectical-thinking–apriorising-psychologism'. In this regards, we can factor in for instance that more critically rather than construing the prospective reification of the humanities and philosophy for instance in terms of breakthroughs along the lines of say exceptional methods or capacity along the lines of our 'positivism–procrypticism contingent-ontology—as-of-conventioning-referencing', the reality of any such transcendence-and-sublimity will rather be 'a more candid face-up with our procrypticism/disjointedness-as-of-reference-of-thought' as herein implied by this author

as of the notion of 'beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> institutional-being-and-craft, muddlement and other intellectual complexes/inhibitions' that structurally/paradigmatically as of a destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>—of-ontological-performance-<including-virtue-as-ontology> cloud/undermine the potential for further intellectual emancipation, and so similar to the breakthrough that brought about budding positivism/rational-empiricism as of say the reasoning-through/messianic-reasoning Galilean gesturing paradigm based on the fact that looking in the telescope we can appreciate how the planets moved around the sun and as this budding positivism/rational-empiricism reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation was relayed by other budding positivists, and so over the destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>—of-ontological-performance-<including-virtue-as-ontology> of traditional medieval no-trouble disposition to perceive and take comfort in traditional scholasticism reasoning-from-results/afterthought pedantry as if critical reification will arise by that pathway. In other words, the possibility of all human prospective transcendence-and-sublimity arises not as we may naively construe vaguely as of exceptional occurrence on the basis of incrementalism-in-relative-ontological-incompleteness disposition but rather more concretely only after human decomplexing/uninhibiting paradigmatic development 'weaning humankind from its traditional complexes/inhibitions reasoning-from-results/afterthought conceptualising flaws' that then brings about the corresponding existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness level for human emancipation as of maximalising-recomposuring-for-relative-ontological-completeness; and this is effectively reflected in all cases of human transcendence-and-sublimity. Whether of low or high emotional-involvement, it is inevitably

the case that the structural/paradigmatic possibility for prospective human transcendence-and-sublimity ever always and has ever always involved or been-grounded-on-prior 'intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality   parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning recurrent shot for completeness as of successive reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation' inducing the displacement/decentering-of-the-human-subject as of psychoanalytic-unshackling/memetic-reordering/institutional-recomposure;   as   we   can appreciate for instance that without the secondnatured institutionalisation arising as from the Galilean gesturing reasoning-through/messianic-reasoning highlighted above, there wouldn't have been the human psychology reflected in the displacement/decentering-of-the-human-subject as of the resultant reasoning-from-results/afterthought later on in the 20th century to

uninstitutionalisation trepidatious-selfconsciousness, base-institutionalisation–ununiversalisation warped-selfconsciousness, universalisation–non-positivism/medievalism preclusive-selfconsciousness, our present positivism–procrypticism occlusive-selfconsciousness and prospective deprocrypticism protensive-selfconsciousness; with this underlying a poor conception of human psychology that poorly and hardly recognises the transepistemic/epistemic-ricochetting veracity of human constructiveness-of-ontological-performance-<including-virtue-as-ontology> and destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>—of-ontological-performance-<including-virtue-as-ontology> as of relevance to prospective meaningfulness-and-teleology/knowledge-reification. This comprehensive elucidation as of existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness and human-subpotency implications of ontological-performance-<including-virtue-as-ontology> articulated above, can more fully be abstracted to reflect the overall 'effecting-phenomenality underlying existence and existential-manifestations'. The implied underlying singularisation/epistemic-immanence/veridical-epistemic-determinism of existence as of existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism notionally/epistemically reflecting the ecstatic singularity of existence speaks of the imbued structural/paradigmatic unity of the reflected existential sublimation manifestations. Such an ecstatic singularity of existence is what renders intelligibility possible as of the 'coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness' (so-enabled by underlying supposedly coherent ontological-

This ecstatic singularity of existence is its primordial ineffability, as beyond any ~~amplituding~~/formative>epistemic-totalising~thrownness-in-existence appraisal but then enabling the meaningfulness-and-teleology validatory possibility of any such state of ~~amplituding~~/formative>epistemic-totalising~thrownness-in-existence by way of ontological-primemovers-totalitative-framework ~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity. The ecstatic singularity of existence is the very shepherding/ushering/heralding possibility for existence's intelligibility. Thus the supervening unity of all existential sublimation manifestations arises as of their notional~conflatedness intelligibility derived from the primordial ineffability of 'coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness' (so-enabled by underlying supposedly coherent ontological-commitment as of ontological-primemovers-totalitative-framework ~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human); and this primordial ineffability is thus the epistemic guidance for the construal of intelligibility in all existential sublimation manifestations. This basically captures the very notions of singularisation/epistemic-immanence/veridical-epistemic-determinism and dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism as can be reflected in explicating 'phenomenal/manifest~subpotencies-<in-transitive-conflatedness–reflexivity,-in-the-full-potency-of-existence>—in—<~~amplituding~~/formative>epistemic-totalising~thrownness-in-existence,-<of-'surrealistic-as-pseudoreal'–epistemic-abnormalcy> ontological-veracity/ontological-performance-<including-virtue-as-ontology>s as of ontological-primemovers-totalitative-framework potential sublimating-over-desublimating implications of existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness, as stood out outstanding/in-waiting/in-abeyance/in-pending. Thus existence's metaphoricity/ecstasy supervening-conflatedness underlying human-subpotency ontological purviews of existence intelligibility as to overall

reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-<imbued-and-educed–human-subpotency–epistemic-perspective-of-aestheticising-motif-and-apriorising/axiomatising/referencing-conceptualisation> is more than just of transepistemic/epistemic-ricochetting veracity in the construal of ontologically-veridical meaningfulness-and-teleology, it equally speaks of a presencing—absolutising-identitive-constitutedness historicity-tracing—presencing-imbued-hyperrealisation/hyperreal-transposition ever always confounded between 'phenomenal/manifest~subpotencies-<in-transitive-conflatedness–reflexivity,-in-the-full-potency-of-existence>—in—<amplituding/formative>epistemic-totalising~thrownness-in-existence,-<of-'surrealistic-as-pseudoreal'–epistemic-abnormalcy> construal in constitutedness as of alienation—as-inauthentic/poorly-objectified/poorly-desubjectified-as-objectified/ontological-bad-faith/nihilistic and 'phenomenal/manifest~subpotencies-<in-transitive-conflatedness–reflexivity,-in-the-full-potency-of-existence>—in—<amplituding/formative>epistemic-totalising~thrownness-in-existence,-<of-'surrealistic-as-pseudoreal'–epistemic-abnormalcy> construal as of conflatedness in authenticity/objectification/desubjectification-as-objectification/ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality/antinihilism; wherein overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-<imbued-and-educed–human-subpotency–epistemic-perspective-of-aestheticising-motif-and-apriorising/axiomatising/referencing-conceptualisation> speaks of ontologically-veridical conflatedness ever always bounded with ontologically-flawed constitutedness, and so beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>. Thus ontologically-veridical conflatedness as constructiveness-of-ontological-performance-<including-virtue-as-ontology> and ontologically-flawed constitutedness as destructuring-threshold-<uninstitutionalised-

This further reflects the notion that with regards to human-subpotency as to human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor what is veridically ever as of absolute certitude is 'prospective intemporal-as-ontologically-veridical/ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic seeding-promise of reasoning-through/messianic-reasoning meaningfulness-and-teleology' and 'temporal/sophistic-as-ontologically-flawed/ontological-bad-faith reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation seeding-misprising of reasoning-from-results/afterthought meaningfulness-and-teleology', construed respectively 'as of equivalence/correspondence antiakrasiatic-aspiration as inducing prospective <~~amplituding~~/formative>epistemic-totalising~ratio-contiguity/ratiocination-as-referentialism as ontologically-veridical constructiveness of meaningfulness-and-teleology' and 'as of covert pretence of equivalence/correspondence antiakrasiatic-aspiration as

Thus what is particular about the deprocrypticism registry-worldview/dimension as preempting—disjointedness-as-of-reference-of-thought is that it is 'beyond just a constraining institutionalisation secondnaturing articulation of a reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation as of reasoning-from-results/afterthought' by which the human mindset can be attached to mechanically as of reasoning-from-results/afterthought while displaying '<~~amplituding~~/formative>wooden-language-⟨imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology⟩ of such reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation', but necessarily implies as of its organic-knowledge implications a secondnaturing ontological-contiguity—of-the-human-institutionalisation-process impliciited convergence of reasoning-through/messianic-reasoning in the elicited deprocrypticism reasoning-from-results/afterthought reflected as of a conception of deprocrypticism that is more than just its reproducibility—mathesis/motif/thrownness-disposition,–as–

In all these instances, the sophists as of its existential-extrication-as-of-existential-unthought with respect to social-stake-contention-or-confliction are ever always inclined to eliciting-of-immediacy-as-of-relative-ontological-incompleteness-dereification for ⟨~~amplituding~~/formative⟩wooden-language-⟨imbued—averaging-of-thought-⟨as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications⟩⟩ disposition, and when the outcome of reasoning-through/messianic-reasoning dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension accrue prospectively the sophists react as if 'human progress occurs anyway' as the idea of a human existential tale perpetuation and its implications is alien to the sophists since all that counts is the immediate now and its

temporal/mortal social-stake-contention-or-confliction interests; and worst still, human limited-mentation-capacity in inducing prospectively relative-ontological-completeness as of the weaknesses associated in all human transcendence-and-sublimity is held by the sophists against any such reasoning-through/messianic-reasoning for transcendence-and-sublimity. Inherently, while the intemporal projection coherence of reasoning-through/messianic-reasoning spans the ontological-contiguity—of-the-human-institutionalisation-process as the 'true-ontology—as-of-Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology', what is peculiar about sophistry is that the whole tale of humanity starts-and-ends by their given registry-worldview/dimension and other registry-worldviews/dimensions are just other ones and have nothing to say about the present one as of an overall human tale, as the threat of rationalising the implications of such a human existential tale perpetuation may jeopardise their present social-stake-contention-or-confliction temporal interests; and this pattern of sophistic/pedantic interpretation is the same at each and every given registry-worldview/dimension as it is obviously not oblivious to the reasoning-through/messianic-reasoning which organic-contemplation spans registry-worldviews/dimensions and identifies the nature of the sophistic/pedantic inclination in each and every one of the registry-worldviews/dimensions. Inevitably thus since the possibility for human ideal as of prospective transcendence-and-sublimity implications necessarily involves a parrhesiastic reifying gesture of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension which is 'never always the easiest of notion' for human <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ disposition, especially as this often always implies the displacement/decentering-of-the-

human-subject, it is inevitably the case that such ideal as of 'intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen' for originary/as-of-event reasoning-through/messianic-reasoning' has to reckon with the temporal social-stake-contention-or-confliction human sophistry eliciting-of-immediacy-as-of-relative-ontological-incompleteness-dereification for <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ disposition meant at stifling the possibility for prospective transcendence-and-sublimity, and so beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>. In all such instances as was realised by universalising-idealisation philosophers Socrates/Plato/Aristotle as well as budding positivists, the notion of dialogical-equivalence and intellectual-and-moral-equivalence is not a given, and as the sophists commit to sophistry the genuine intellectual holds it against the sophists to imply they are effectively of 'apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised~preconverging/dementing–qualia-schema>' rather than 'apriorising-teleological-elevation-in-ontological-contiguity' to avoid wrongly implying dialogical-equivalence, as the latter notion only arises as of mutual apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in relative-ontological-completeness as of the underlying registry-worldview/dimension reference-of-thought <~~amplituding~~/formative>epistemic-totalising~devolved-apriorising-rule; as there can be no genuine contention between a universalising-idealisation mindset and a sophistic/pedantic ad-hoc/makeshift/nonprincipled–syllogising mindset or a positivising/rational-empiricism mindset and medieval pedantic/dogmatic mindset, if just for

the mere sake of preserving and avoiding the denaturing of the universalising-idealisation meaningfulness-and-teleology or positivising/rational-empiricism meaningfulness-and-teleology. This is more critically the case as the fact is the possibility for prospective human emancipation is exactly the most difficult thing for humankind to countenance, and that is exactly why the successive uninstitutionalised-thresholds arise in the first place; and the sophistic/pedantic treachery/muddlement/acting-out of usurping such difficult quest for its temporal social-stake-contention-or-confliction has always been addressed not by a faulty pretence of mutually objectifying intellection between genuine intellectualism and sophistry, which is of flawed epistemic-veracity and thus ontological-veracity, but rather a blunt parrhesiastic disavowal of such sophistic/pedantic treachery/muddlement/acting-out for what it essentially is; as with the universalising-idealisation philosophers not wasting their time in pretence of engaging the sophists—ideal-type-or-individuation of ad-hoc/makeshift/nonprincipled–syllogising mindset or the budding positivists/rational-empiricists dismissing off-hand pedantic scholasticism. The habituated idea of dialogue/dialogical-equivalence arises as of the mental-reflex that ordinarily all meaningfulness-and-teleology as of a given registry-worldview/dimension is grounded on the same apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument notwithstanding the existential-instantiation soundness or unsoundness of its devolving aposteriorising/logicising/deriving/intelligising/measuring. But where in the instance of dissimilar apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, despite our habituation, dialogue/dialogical-equivalence as of 'apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised~preconverging/dementing–qualia-schema>' does not avail as of epistemic-veracity and thus ontological-veracity as of the 'apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity-<mentally-

aestheticised~preconverging/dementing–qualia-schema>' closed ~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag in prior relative-ontological-incompleteness which rather warrants psychoanalytic-unshackling/memetic-reordering/institutional-recomposure for prospective relative-ontological-completeness. This is akin to the mathematician opened to mutual calculating even where one could produce a wrong solution as of aposteriorising/logicising/deriving/intelligising/measuring flawed ontological-performance-<including-virtue-as-ontology> but this only holds with the mathematical apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument spirit for engaging genuinely and naturally in the calculations; where that apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument spirit is lost, fundamentally the notion of mutual calculating is then ontologically and epistemically flawed. Ultimately, the notion of meaningfulness-and-teleology as of ontological-veracity is about the 'reasoning-through transversality-of-affirmative-and-unaffirmative,-disambiguated-apriorising/axiomatising/referencing' of contentions for the determination of existence-potency-prospective-digression-of—~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness as of ontological-primemovers-totalitative-framework ~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity; and it is rather different from a sovereign construct grounded on sovereign choice whether there is ontological-veracity or ontological-impertinence. The human existential tale as 'humanity project' has ever always been one of 'intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen for originary/as-of-event reasoning-through/messianic-reasoning' as implied in the 'seeding promise of human-subpotency

ontological-performance-<including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence-as-of-its-coherence/contiguity'. The secondnatured institutionalisation constructs as of sovereign institutions and establishment frameworks are 'not to be necessarily-and-absolutely considered as knowledge reifying frameworks', as could falsely be implied by cohorting sovereign institutions and establishments surreptitiously usurping the knowledge-reification role and as beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> surreptitiously defining what can be thought or not thought. The fact is such implied underpinning–suprasocial-constructs are mainly secondnatured whether as sovereign representation or establishment constructs, and can easily be caught up in their own <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag in prior relative-ontological-incompleteness with respect to social-stake-contention-or-confliction and are thus not the absolutising framework of human meaningfulness-and-teleology, as the social knowledge-reification role must always be opened to 'intemporal individuation ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen for originary/as-of-event reasoning-through/messianic-reasoning' as of the possibility of its arising in any humans and in whatever specific purviews of existence, as this is what is instigative of 'true-ontology—as-of-Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology'; as it is only by the latter process that the 'suprasocial obsession/myopism as of a given registry-worldview/dimension social-stake-contention-or-confliction' can be superseded, as of reconstruing recurrent-utter-uninstitutionalisation underpinning–suprasocial-construct rather as of base-institutionalisation, base-institutionalisation–

ununiversalisation underpinning–suprasocial-construct rather as of universalisation, universalisation–non-positivism/medievalism underpinning–suprasocial-construct rather as of positivism, and prospectively positivism–procrypticism underpinning–suprasocial-construct rather as of deprocrypticism or preempting—disjointedness-as-of-reference-of-thought. We can appreciate in this regards that the universalising-idealisation philosophers and budding positivists trajectory of contemplation were actually counterintuitive to what their respective underpinning–suprasocial-construct construed as human progress and the possibility for human progress. The naivety of referring to the underpinning–suprasocial-construct conventioning-referencing as of its framework of establishments and sovereign institutions as if this was absolutely substitutive of ontology as of prospective 'true-ontology—as-of-Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology' induced as of 'intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen for originary/as-of-event reasoning-through/messianic-reasoning', is nothing but ~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag which obviously doesn't register/is-unaccounted internally because (but from the existence-potency-prospective-digression-of—~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism deprocrypticism perspective) structurally/paradigmatically 'no registry-worldview/dimension has the eyes to see of its defective ontological-performance-<including-virtue-as-ontology> as it surreptitiously implies that it is absolute beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>'. The fact is, it is this possibility of the

universalising-idealisation philosophers Socrates/Plato/Aristotle and the budding positivists putting into question their conventioning-referencing meaningfulness-and-teleology and value that allows for prospective institutionalisation to arise as of universalising-idealisation and positivism/rational-empiricism respectively. In this regards, it is important to grasp that what is peculiar about the successive registry-worldviews/dimensions is the sense that these as of their immediacy disposition are very much cognisant of the Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology leading to the establishment of their given registry-worldviews/dimensions over which their conventioning-referencing is setup but then tend to fail to construe of their prospective possibility of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology; and in this regards, we can appreciate that the pre-Socratic world very much construed of critical ontological insights that went into their various conventioning-referencing like say the Ancient Egyptians with their conventioning-referencing mobilising ontological insights much more obviously with the building of pyramids, the Persians mobilising their ontological insights in empire building, etc. but unlike these relatively cosmopolitan lands with greater technical and knowledge potential, it was the smaller and rustic Greece and specifically Athens that contemplated of prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology with the emergence of universalising-idealisation over ancient mythologies and cultism, likewise the medieval Europe scholasticism was the height of this universalising-idealisation as of its establishment and religious conventioning-referencing but it took budding positivists to come up with the prospect of renewed Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, and likewise it

is the case that our conventioning-referencing is rather predisposed to construe of our elaborate positivism/rational-empiricism as absolutising and hardly countenancing of its own effort for prospective Being/ontological-framework-expansion. It is herein contended that, as of the implications of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, that in many ways just as the manifestation of postlogism-slantedness associated with notions-and-accusations-of-sorcery as of non-positivism whether as of animistic or medieval social-setups, was difficultly amenable to address as of their given underlying muddlement of social-stake-contention-or-confliction associated fundamentally with their overall <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ and underpinning–suprasocial-construct meaningfulness-and-teleology integration of their given non-positivism and superstition, in many ways the manifestation of psychopathy and social psychopathy in our positivism–procrypticism is equally subject to our <~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ and underpinning–suprasocial-construct underlying disjointedness-as-of-reference-of-thought muddlement of social-stake-contention-or-confliction as of our uninstitutionalised-threshold; and in both instances insightfully point to underlying reference-of-thought relative-ontological-incompleteness at destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>—of-ontological-performance-<including-virtue-as-ontology> which is the grander issue of aetiologisation/ontological-escalation as to the fact that fundamentally prospective positivism registry-

worldview/dimension supersedes-and-deflates the vices-and-impediments of non-positivism as of animism or medievalism and thereof their devolving associated manifestations of non-positivism and specific superstitious nature as well as the idea that prospective deprocrypticism or preempting—disjointedness-as-of-reference-of-thought supersedes-and-deflates the overall vices-and-impediments of our positivism–procrypticism/disjointedness-as-of-reference-of-thought underlying the devolving social manifestation of psychopathy and social psychopathy. Thus the practice of construing absolutely the <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of any given registry-worldview/dimension in relative-ontological-incompleteness like our positivism–procrypticism speaks of a loss of ontology as 'true-ontology—as-of-Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology' to the given registry-worldview/dimension conventioning-referencing. In this regards, we can appreciate that our own projection of prospective deprocrypticism implied Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of its prospective singularisation/epistemic-immanence/veridical-epistemic-determinism will construe of our present positivism–procrypticism conventioning-referencing as dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism to be more than just as of our traditional, cultural and aesthetic idiosyncratic habituations grounded on our positivism–procrypticism underlying reference-of-thought that more or less supresses the possibility of prospective 'true-ontology—as-of-Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology', and equally garner that just as the sophists—ideal-type-or-individuation of

ad-hoc/makeshift/nonprincipled–syllogising mindset and medieval-scholasticism-pedants—ideal-type-or-individuation never factored in that their respective supposedly presencing—absolutising-identitive-constitutedness construal of ontology as sophistic/pedantic ad-hoc/makeshift/nonprincipled–syllogising and medieval scholastic pedantry were to be reconstrued as rather being of contingent-ontology—as-of-conventioning-referencing respectively by Socratic philosophers universalising-idealisation and budding positivists as of their respective prospective parrhesiastic revaluation of ontology as 'true-ontology—as-of-Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology'; likewise, our supposedly positivism–procrypticism presencing—absolutising-identitive-constitutedness construal of ontology as reflected in present subject-matters in many ways will be reconstrued as contingent-ontology—as-of-conventioning-referencing as of deprocrypticism implied prospective parrhesiastic revaluation of ontology as 'true-ontology—as-of-Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology'. As such deprocrypticism ontology as 'true-ontology—as-of-Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology' reflects that: our philosophising should rather be able to conceptualise its epistemic-emanence as a holistic conflatedness reifying of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<~~amplituding~~/formative>epistemic-totalising~purview-of-construal' as of transepistemic/epistemic-ricochetting retrospective-to-prospective implications of relative-ontological-completeness-of-reference-of-thought underlying the ontological-dementation/dialectical-dementation–stranding/attributive-dialectics in reflecting the ontological-contiguity—of-the-human-institutionalisation-process and as such construal of philosophy is rather considered as morphing as of human division of labour into the

disparate subject-matter purviews-of-construal-of-existence reification and so in reflection of existence's supervening-conflatedness, and with all human meaningfulness-and-teleology remaining of philosophical epistemic-veracity relevance as of deprocrypticism or preempting—disjointedness-as-of-reference-of-thought singularisation/epistemic-immanence/veridical-epistemic-determinism as implied as of suprastructuralism/postmodernism rejection of science-ideology for science-in-practice and rejection of humanism ideology for authentic human emancipation as of human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation; psychology fails ontologically when it naively and wrongly construe of our given positivism–procrypticism relative-ontological-incompleteness-of-reference-of-thought apriorising/axiomatising/referencing–psychologism as being of ontological-normalcy to go on to imply a practice of reification of psychological traits is what is emancipatory of the human condition with the implication that any given registry-worldview/dimension in relative-ontological-incompleteness-of-reference-of-thought say animistic or medieval could just as well be considered in ontological-normalcy and that what is emancipatory of the human condition is the reification of psychological traits as of its <~~amplituding~~/formative>epistemic-totalising~thrownness-in-existence <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag meaningfulness-and-teleology despite the supposed deficiency of its given meaningfulness-and-teleology in relative-ontological-incompleteness, thus failing to grasp that the more decisive transformation of the human subject is the displacement/decentering-of-the-human-subject as of construction-of-the-Self in reflecting the ontological-contiguity—of-the-human-institutionalisation-process underlined as of human limited-mentation-capacity-deepening-(<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-

Ultimately, Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology points to the fundamental dialecticism of human meaningfulness-and-teleology; as to the fact that the human is that which is in ~~amplituding~~/formative>epistemic-totalising~thrownness-in-existence as of recurrent-utter-uninstitutionalisation ~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag by its reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument but then is warranted to ontologically-complete itself successively as of base-institutionalisation, universalisation, positivism and prospectively deprocrypticism

The human then is what is warranted to reconstrue Rousseauian perfectibility out of its ~~amplituding~~/formative>epistemic-totalising~thrownness-in-existence flawed constructiveness-of-ontological-performance-<including-virtue-as-ontology> as of its destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>—of-ontological-performance-<including-virtue-as-ontology>, as it can't pretend to avoid this purposefulness as it is, as of its any presencing—absolutising-identitive-constitutedness state, the outcome of such purposefulness as relayed with the ontological-contiguity—of-the-human-institutionalisation-process 'true-ontology—as-of-Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology'. The underlying difficulty of all such psychoanalytic-unshackling/memetic-reordering/institutional-recomposure is all about how can a mindset adjusted as of its <~~amplituding~~/formative>epistemic-totalising~thrownness-in-existence as of its given <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag

This fundamental saddling of the human construction-of-the-Self as of 'a fixed/set framework of existentially-constraining possibility of temporal-to-intemporal ontological-performance-<including-virtue-as-ontology>' can be referred to as the 'shiftiness-of-the-Self', and construed as the beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> that arises as of human lack of 'intemporal antiakrasiatic disposition for dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming-'notionally-collateralising-protohumanity'-to-'attain-sublimating-humanity',-as-to-existence-potency-prospective-digression-of—~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness to supersede human temporality/shortness ~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩) as of human limited-mentation-capacity-deepening-⟨~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ for prospective relative-ontological-completeness'. functioning-and-accordance allows/disregards/unaccounts for human temporal shiftiness as defining its prospective destructuring-threshold-<uninstitutionalised-threshold/presublimating–desublimating-decisionality>—of-ontological-performance-<including-virtue-as-ontology>, and so beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>; and this is exactly what explains the differentiation of registry-worldviews/dimensions as of their relative-ontological-completeness-of-reference-of-thought. The 'shiftiness-of-the-Self' structurally/paradigmatically defines the given 'acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflected as of singularisation-as-of-intemporality/dissingularisation-as-of-temporality of the meaningfulness-and-teleology' of a given registry-worldview/dimension implied as of its 'apriorising-teleological-thresholding–as-teleological-framework/narrative-framework of contextualising/instantiative-devolving-meaningfulness' temporal-to-intemporal ontological-performance-<including-virtue-as-ontology>. Thus the requisite profoundness/depth of prospective human 'social-construction of meaningfulness-and-teleology as of social-stake-contention-or-confliction' as reflected at the prospective superseding/transcending registry-worldview/dimension, as from existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism perspective, can only arise fundamentally as of the prospective construction-of-the-Self renewed secondnatured institutionalisation 'acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflected as of singularisation-as-of-intemporality/dissingularisation-as-of-temporality of the

We can appreciate in this regards that both for the individual and the social, the capacity to 'spontaneously' be able to articulate 'social-construction of meaningfulness-and-teleology as of social-stake-contention-or-confliction' as in the prospective relative-ontological-completeness registry-worldview/dimension is fundamentally hampered by its given registry-worldview's/dimension's–reference-of-thought-for-social-functioning-and-accordance 'specific bottomline–of-mere-mathesis/motif/thrownness-disposition for the constructiveness of meaningfulness-and-teleology as of its specific construction-of-the-Self' due to its corresponding lack of 'intemporal antiakrasiatic disposition for dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension as of human limited-

In this regard, we can more specifically appreciate the central and transformative implications of the Socratic philosophers universalising-idealisation as of the prospective universalisation registry-worldview/dimension 'social-construction of meaningfulness-and-teleology as of social-stake-contention-or-confliction', wherein such prospective 'shiftiness-of-the-Self' as induced by the Socratic philosophers universalising-idealisation construed as universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism inducing the secondnatured institutionalisation of the universalisation registry-worldview's/dimension's–reference-of-thought-for-social-functioning-and-accordance 'specific bottomline–of-mere-mathesis/motif/thrownness-disposition for the constructiveness of meaningfulness-and-teleology as of its specific construction-of-the-Self' brought about the coherently universalising construction of meaningfulness-and-teleology with the associated elevated level of ontological-performance-<including-virtue-as-ontology> as manifested with the Socratic method for universal consistency and coherence, Plato's ideas for universal consistency and coherence and Aristotle's qualifying-categories and universalising-syllogism for universal consistency and coherence; thus superseding/transcending the ad-hoc mysticism, ad-hoc cultism and sophistic/pedantic ad-hoc/makeshift/nonprincipled–syllogising mindset as of base-institutionalisation mere rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism 'shiftiness-of-the-Self'. This is the more

profound explanation for the hegemonising ontological-grip thereafter of the Socratic philosophers defining universalisation meaningfulness-and-teleology thereafter over the antiquity and their defining relevance in the latter meaningfulness-and-teleology of all the medieval societies of the Mediterranean and beyond, and so especially as the increasing population mixing thereafter particularly with the Roman empire naturally required/called-for 'universally coherent, consistent and credible meaningfulness-and-teleology infrastructure as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology' that went well beyond traditional ad-hoc mysticism, ad-hoc cultism and sophistic/pedantic ad-hoc/makeshift/nonprincipled–syllogising mindset; as of the knowledge reifying capacity-and-template for developing and cumulating such universalising-idealisation coherence and consistency across culturally diverse peoples and across space and time. This actually points out why dialogical-inequivalence/intellectual-and-moral-inequivalence as of 'apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised~preconverging/dementing–qualia-schema>' is associated with sophistic/pedantic representations as knowledge as well as temporal manifestations of postlogism-slantedness and conjugated-postlogism manifestations including psychopathy and social-psychopathy as of the positivism–procrypticism registry-worldview. While as of human-subpotency temporal <~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag we may be inclined to construe of the notion of dialogical-equivalence as absolutely requisite, the fact is dialogical-equivalence cannot supersede existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness sublimating-validation/desublimating-invalidation implications where its eliciting is structurally/paradigmatically flawed for the simple reason that knowledge as of implied underlying supposedly coherent ontological-commitment as of ontological-primemovers-totalitative-framework <~~amplituding~~/formative>epistemic-

This is equally reflected in the idea that the acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of meaningfulness-and-teleology is rather as of the implication of relative-ontological-completeness associated with human limited-mentation-capacity-deepening-⟨<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ from the perspective of existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism rather construed as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism, and not identitive-constitutedness-as-epistemic-totality-dereification-in-

The underlying explanation for disparateness here is effectively construed as a question of the implications of 'relative-ontological-incompleteness/relative-ontological-completeness of ontological-performance-<including-virtue-as-ontology>' wherein varying ontologically-flawed superfluous, superstitious, mystical and cultic interpretations of the natural world <amplituding/formative>epistemic-totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality speaks rather of states of relative-ontological-incompleteness and the prospective possibility of ontologically-veridical grander unifying scientific explanation of the natural world <amplituding/formative>epistemic-totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality speaks rather of relative-ontological-completeness. Such <amplituding/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity construal points out that disparateness of meaningfulness-and-teleology as often wrongly projected in many a social domain-of-study is not an inherently sovereign notion as to the fact that construal as of relative-ontological-incompleteness cannot be 'qualified as sovereign and beyond the countenance of its ontological-veracity as from relative-ontological-completeness perspective' given that all human meaningfulness-and-teleology are of supposedly coherent ontological-commitment as so-reflected by its self-assuredness-of-authenticity with respect to its social-stake-contention-

or-confliction'; such that while recognising the human-subpotency epistemic-veracity perspective of say a given social-setup attributing an ailment to say magic, this doesn't override the notion of inherent ontological-veridicality as of existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness epistemic/notional~projective-perspective wherein modern society in relative-ontological-completeness attributes the ailment to say flu. Stated another way, if Einstein's or Bohr's seminal theories were viewed say unfavourably by the physics community of their time as of their sovereign predisposition, that wouldn't annul the ontological-veracity of their theories even if Einstein or Bohr were to acquiesce to that sovereign predisposition over their own theories, for the simple reason that knowledge is constructed as of the absolute dominance of intrinsic-reality as of existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness over the mortals that we as human beings are in order for transcendence-and-sublimity to be possible; and that reality with respect to knowledge doesn't speak of totalitarianism as will often be sophistically usurped when it comes to the blurriness of the social domain-of-study, as the charge of totalitarianism can only apply with respect to sovereign choice. Further a <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity construal equally points out that the-very-same-immanent-

existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<~~amplituding~~/formative>epistemic-totalising~purview-of-construal’ or any <~~amplituding~~/formative>epistemic-totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality does not imply the structural/paradigmatic change of existence-as-of-existential-contextualising-contiguity but rather that change is the outcome of human limited-mentation-capacity-deepening-⟨<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ maximalising-recomposuring-for-relative-ontological-completeness involving ontological-dementation/dialectical-dementation–stranding/attributive-dialectics of prospective postconverging-or-dialectical-thinking–apriorising-psychologism representation and prior preconverging-or-dementing–apriorising-psychologism representation; with the implication here that the issue of knowledge is all about developing human-subpotency towards existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness. The conflatedness of existential-contextualising-contiguity in the natural sciences is often poorly perceived inherently because of their subject-matter/domain-of-study implicited nature of philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’; such that it is often wrongly construed in atomising/taking-to-pieces constitutedness as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity but with little consequence since such an atomising/taking-to-pieces constitutedness is generally an ontologically-flawed afterthought reflection/contemplation whereas operantly beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> scientists generally adopt a

conflatedness of existential-contextualising-contiguity posture. The reality of existential-contextualising-contiguity conflatedness here is validated by the fact that 'abstract scientific notions are not the point-of-departure scientists contemplation' as they are rather 'delved in existential-contextualising-contiguity in ~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity conflatedness to then reflect abstract scientific notions in existential-contextualising-contiguity knowledge-reification or depart from existential-contextualising-contiguity already reified abstract scientific notions to then reflect further abstract scientific notions in existential-contextualising-contiguity knowledge-reification'. For instance, we can appreciate that physics never establish any absolute atomising/taken-into-pieces notion of say atoms, space, time, energy, etc. on which it merely then go on to be constituting meaningfulness-and-teleology/knowledge as physics knowledge-reification. Rather we can better appreciate the occurrence of existential-contextualising-contiguity knowledge-reification as of ~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity construal in the sense that our ordinary thought process itself is as of ~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating existential-contextualising-contiguity construal of notions like space, time, force, etc. with no absolutely given point of atomising/taking-to-pieces constitutedness even when we may harbour such a confusion, and likewise the development of theories say Cartesian, Newtonian, Einsteinian, String theory, etc. are equally ~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating as to the fact that these imply various ways of reconceptualising the notions of space, time, force, etc. as of the precedence of ~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought of existential-contextualising-contiguity of such notions like space, time, force, etc. in ~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-

explicating-ontological-contiguity conflatedness to then articulate their abstract/theoretical notions/conceptualisations of space, time, force, etc.; thus there isn't any absolutely identitive atomising/taking-to-pieces notions of space, time, force, etc. which are 'constituted once-and-for-all to later on build/reify physics knowledge as of progressive constituting' but rather physics knowledge is always epistemic-retotalising/re-holistic of 'the very same physics notions and their derived implications of new notions' as of existential-contextualising-contiguity in conflatedness involving human limited-mentation-capacity-deepening-⟨<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⟩ hermeneutics in avoiding-and-superseding any presencing—absolutising-identitive-constitutedness. We can appreciate that the atomising/taking-to-pieces disposition that is often wrongly sought in other domains-of-study is often ontologically-flawed because it fails to see that 'the more elaborate panintelligibility—effusing–inlining nature of existential-contextualising-contiguity in epistemic-conflatedness in their domains-of-study' implies that their knowledge-reification should increasingly be explicitly holistic/nested-congruence as to the hermeneutics involved in avoiding-and-superseding any presencing—absolutising-identitive-constitutedness, as even the natural sciences are implicitly epistemically holistic by the mere fact of the 'precedence of existential-contextualising-contiguity in <~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity in epistemic-conflatedness to which their abstract notions are aligned' as well as so-implied by their foregrounding—entailment-⟨narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting 'immanent-ontological-contiguity'⟩,–as-operative-notional~deprocrypticism orientations which drives their knowledge-reification gesturing for unification as to ontological-contiguity as not just an idle quest; and this misconstrual is further reflected by the fact that the life sciences (as of their

axiomatic-construct 'apriorising-teleological-thresholding–as-teleological-framework/narrative-framework of contextualising/instantiative-devolving-meaningfulness') have a more inherently elaborate panintelligibility—effusing–inlining nature of existential-contextualising-contiguity supervening-conflatedness thus rendering its methodology more explicitly holistic and teleological even as it is often naively and wrongly construed as 'a relatively weaker natural science' from a naïve epistemic constitutedness perspective. This underlying <~~amplituding~~/formative>epistemic-totalising/circumscribing/delineating existential-contextualising-contiguity insight reflects ecstatic-existence's supervening-conflatedness as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-<imbued-and-educed–human-subpotency–epistemic-perspective-of-aestheticising-motif-and-apriorising/axiomatising/referencing-conceptualisation>; wherein inherently 'more immediate epistemically constrained to ontological-primemovers-totalitative-framework' domains-of-study like physics and the natural sciences generally are of a less elaborate existential-contextualising-contiguity conceptualisation nature in epistemic-conflatedness and can thus be ontologically-falsely be perceived as being of atomising/taking-to-pieces epistemic constitutedness while inherently 'less immediate epistemically constrained to ontological-primemovers-totalitative-framework' domains-of-study like the social domains-of-study are more of an elaborate existential-contextualising-contiguity conceptualisation nature in epistemic-conflatedness that speaks to the need for their appropriate holistic hermeneutic depth of ontological-construal, and in both cases in reflecting the implications of human limited-mentation-capacity-deepening-〈<~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation〉 hermeneutics involved in avoiding-and-superseding any presencing—absolutising-identitive-constitutedness for construing their veridical historiality/ontological-eventfulness/ontological-aesthetic-tracing. In many ways the

natural sciences by the immediate constraining of their ontological-primemovers-totalitative-framework implicitly avoid atomising/taking-to-pieces constitutedness but the misunderstanding that their knowledge-reification gesturing is effectively as of atomising/taking-to-pieces constitutedness in other domains-of-study ends up having naïve and distortive effects on such domains-of-study knowledge-reification and particularly so with regards to the development of their self-conscious philosophical depth of contemplation as of 'coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness'. It is herein contended that this poor self-conscious philosophical depth of contemplation as of 'coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness' is the structurally/paradigmatically defining issue of many of the social domains-of-study today, as in effect many such domains are turned into technicality as of institutional-being-and-craft imprimatur, 'fallback to unquestioned/dogmatic normativities' and 'habituated dispositions' which priorly enframed subject-matters and institutional-setups structurally/paradigmatically stifle the possibility for conceptualisation as of existence-potency-prospective-digression-of—<amplituding/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness sublimating-validation/desublimating-invalidation implications beyond their conventioning-referencing existentialising—enframing, so-implied as of the perspective of notional~deprocrypticism prospective 'true-ontology—as-of-Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology'. Thus existence's overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-<imbued-and-educed–human-subpotency–epistemic-perspective-of-aestheticising-motif-and-

apriorising/axiomatising/referencing-conceptualisation> implies the 'primacy of a ~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity basis for conception due to human ~~amplituding~~/formative>epistemic-totalising~thrownness-in-existence' as 'existence doesn't wait for the human to incrementally have the complete picture' and thus it is 'the human subject who has to aspire maximalisingly to conform-as-of-its-self-consciousness-growth with existence in a ~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity conception', and this further indicts our traditional conception of induction as being epistemically incremental wrongly construed as of incrementalism-in-relative-ontological-incompleteness that underlies dispositions for ~~amplituding~~/formative>epistemic-totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag because of 'failure to draw ~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity as of displacement/decentering-of-the-human-subject and wrongly construing presencing—absolutising-identitive-constitutedness situations as of absolute/absolutising grounding', whereas in reality human ~~amplituding~~/formative>epistemic-totalising~thrownness-in-existence rather points out that the epistemic-veracity of induction is rather as of 'maximalising ~~amplituding~~/formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity' (which is rather as of epistemic-retotalising/re-holistic of meaningfulness-and-teleology as to ~~amplituding~~/formative>epistemic-totalising~renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness with regards to successive inductions) rightly construed as of maximalising-recomposuring-for-relative-ontological-completeness and 'totalitatively involving human limited-mentation-capacity-deepening-(~~amplituding~~/formative>epistemic-totalisingly,-as-to-existence—as-sublimating-

The specific human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-<imbued-and-educed–human-subpotency–epistemic-perspective-of-aestheticising-motif-and-apriorising/axiomatising/referencing-conceptualisation>, reflecting human underlying supposedly coherent ontological-commitment, is ultimately potentiated as of human 'intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen for originary/as-of-event reasoning-through/messianic-reasoning' as of the 'seeding promise of human-subpotency ontological-performance-<including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence-as-of-its-coherence/contiguity', as this drives epistemic-ricochettingly/transepistemically the ontological-contiguity—of-the-human-institutionalisation-process 'true-ontology—as-of-Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology' in developing successive reference-of-thought reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation reflecting human successive self-consciousness/construction-of-the-Self that transcendentally-and-sublimely transform human-reflexivity-in-ecstatic-existence so-construed as of human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation; wherein we can appreciate

that the instigation of universalising-idealisation meaningfulness-and-teleology infrastructure or subsequent positivising/rational-empiricism meaningfulness-and-teleology infrastructure transform human potentiation construed as 'human-subpotency convergence to existence' with regards respectively to the specific base-institutionalisation or rational-empiricism/positivism self-consciousness/construction-of-the-Self implied as of the specific Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. This self-consciousness/construction-of-the-Self notion is what deflates such 'issues implied with regards to human sovereign options/choice or freewill' and 'issues of natural determinism beyond human sovereign options/choice or freewill', as human self-consciousness/construction-of-the-Self as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology implies 'induced human potentiation of sovereign options/choice or freewill that invalidate natural determinism'. In this regards we can appreciate for instance that with the positivism/rational-empiricism modern society's disease theory, parents failing to figure out that a baby is likely to get sick if kept in dirty surroundings due to bacteria and germs as well that high temperature is a sign that the baby needs medical care, such that were it to be established that the baby develops a serious medical condition because of such failure of parental care then the human potentiation of freewill of the parents is engaged with regards to the parents responsibilities as of the self-consciousness/construction-of-the-Self implied as of our positivism/rational-empiricism Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, however, supposed a similar situation arises in a non-positivistic social-setup with the parents acting that way because of say animistic beliefs that are utterly normal in the given animistic social-setup then it is difficultly the case that the human-potentiation of freewill of the parents

is engaged with regards to their responsibilities as of the self-consciousness/construction-of-the-Self implied as of their non-positivism/animistic Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology (as the relative-ontological-incompleteness in the latter case renders it as an 'ought indeterminacy' while the relative-ontological-completeness in the former case renders it as an 'is determinacy'); but then, a general underlying human potentiation of freewill of all humans is engaged passively to the effect that prospective relative-ontological-completeness inducing prospective self-consciousness/construction-of-the-Self reflected as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology in deflating human vices-and-impediments, necessarily warrants all humans to effectively aspire-for/be-receptive-to prospective relative-ontological-completeness. And such a more broad construal of freewill and natural determinism implications can be contemplated as elaborated elsewhere herein with regards to akrasia-susceptibility-or-akrasiatic-drag complex; thus akrasia-susceptibility-or-akrasiatic-drag complex further implies that the very state of unwariness with respect to prior relative-ontological-incompleteness as of a nihilistic disposition is structurally/paradigmatically potently conducive/endemising/enculturating to its vices-and-impediments, and as the very possibility for prospective ontological-performance-<including-virtue-as-ontology> arises as of the intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning as of its 'seeding promise of human-subpotency ontological-performance-<including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence-as-of-its-coherence/contiguity'. Can we wish that we don't have understanding whether directly, or indirectly as of reifying deferential-formalisation-transference, so that we

aren't intellectually-and-morally accountable then? How can we reconcile the fact that given human ~~amplituding~~/formative>epistemic-totalising~thrownness-in-existence the possibility for prospective human registry-worldview's/dimension's institutionalisation enabling transcendence-and-sublimity could only arise as of prospective reasoning-through/messianic-reasoning that had no prior effective knowledge and virtue reference to go on to prospectively 'invent' reasoning-through/messianic-reasoning knowledge and virtue before the institutionalising of such reasoning-from-results/afterthought emancipatory possibilities, and then contend to make any given reasoning-from-results/afterthought knowledge and virtue limits intellectually and morally deterministic as of a nihilistic ~~amplituding~~/formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩? In this regard, the anti-nihilist stance implies that the very first notion of human ontological-performance-<including-virtue-as-ontology> as of human ~~amplituding~~/formative>epistemic-totalising~thrownness-in-existence induced anxiety lies in the fact that as of intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning, humankind has the relative capacity to build and/or adhere to prospective relative-ontological-completeness possibilities. Further, in the specific instances it is important to recognise that natural determinism invalidation of sovereign options/choice or freewill 'applies critically only as of poor self-consciousness/construction-of-the-Self implications arising from the underdevelopment of Being/ontological-framework-expansion or self-consciousness/construction-of-the-Self incapacity as of say insanity', and not necessarily as of lack of new knowledge-construct or technical-development; in the sense that say a

criminal that had gone uncaught before a new technical-development like DNA testing establishes their criminal responsibility as of human potentiation, cannot talk of natural determinism implications as a defence just as covert predispositions associated with vices-and-impediments as of 'self-conscious drive' cannot be qualified to be of natural determinism implications when unmasked. Reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-<imbued-and-educed–human-subpotency–epistemic-perspective-of-aestheticising-motif-and-apriorising/axiomatising/referencing-conceptualisation> 'speaking epistemically with respect to the overall phenomenal/manifest~subpotencies-<in-transitive-conflatedness–reflexivity,-in-the-full-potency-of-existence> including human-subpotency epistemic-perspective', inherently reflects the veridical-epistemic-determinism as of existence-potency-prospective-digression-of—<~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought,–in-epistemic-conflatedness in the construal of any such phenomenal/manifest~subpotency-<in-transitive-conflatedness–reflexivity,-in-the-full-potency-of-existence> 'apriorising-teleological-thresholding–as-teleological-framework/narrative-framework of contextualising/instantiative-devolving-meaningfulness', with human-subpotency 'apriorising-teleological-thresholding–as-teleological-framework/narrative-framework of contextualising/instantiative-devolving-meaningfulness' effectively construable in reflecting the ontological-contiguity—of-the-human-institutionalisation-process 'true-ontology—as-of-Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology'. The overall implied notion of 'intemporality-asymmetric-subsumption-of-temporality' as advanced here is one of supratransversality—apriorising/axiomatising/referencing over subtransversality—apriorising/axiomatising/referencing rather as of intellectual-and-moral-inequivalence/non-correspondence. Such a mental-disposition of substituting old reference-of-thought–

categorical-imperatives/axioms/registry-teleology with new ones of prospective registry-worldview/dimension as implied by ~~amplituding~~/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought as of institutional moulting underlies the concept of 'Intemporal-prioritisation-of-reference-of-thought'–as-conflatedness-or-ontological-reprojecting, in dealing with the fact that by reflex all registry-worldviews/dimensions are structured not to construe of their very own prospective transcendence, and thus relating to their reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation on an incrementalism-in-relative-ontological-incompleteness basis as 'absolute by the mere form' whether failing/not-upholding-<as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity–or–ontological-preservation at the uninstitutionalised-threshold. The non-positivistic animistic or medieval social setup as of its incrementalism-in-relative-ontological-incompleteness disposition coming into grips with the positivistic interlocutor's purpose will probably construe it as most contemptuous by its construal of existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context (whether as of its rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism,-⟨as 'first-level presencing—absolutising-identitive-constitutedness of reference-of-thought' apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument⟩ of base-institutionalisation/animism or as of its universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism,-⟨as 'second-level presencing—absolutising-identitive-constitutedness of reference-of-thought' apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument⟩ of universalisation–non-positivism/medievalism), though we know from an ontological-normalcy/postconvergence epistemic/notional~projective-perspective that the positivistic

Likewise, this ontological-normalcy/postconvergence insight can equally be projected of our 'positivism–procrypticism registry-worldview's/dimension's reference-of-thought' from 'futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism registry-worldview's/dimension's reference-of-thought'; wherein deprocrypticism existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as of its 'deprocrypticism or preempting—disjointedness-as-of-reference-of-thought as of preempting—disjointedness-as-of-reference-of-thought,-as-to-<~~amplituding~~/formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness-in-superseding-mere-formulaic-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism is the virtuous-ontological resolution of the positivism–procrypticism registry-worldview's/dimension's reference-of-thought structural/paradigmatic vices-and-impediments, as it further contendingly implies a prospective decentering and dialectically-dementation reflection/perspectivation of positivism–procrypticism. We can imagine that futural Being-development/ontological-

Such an insight can be appreciated as with the instance in the non-positivistic community where the positivistic mindset/reference-of-thought will most likely not necessarily perceive and construe the 'achievement motives and temporal-stakes in animistic or medieval lives and living' in the non-positivistic social-setup as 'grandest living' but rather the maximalising-recomposuring-for-relative-ontological-completeness 'of positivistic transcendental institutionalisation projection over the animistic or medieval setup as much more of

existential worth' from its vantage ontological-normalcy/postconvergence epistemic/notional~projective-perspective. There is nothing inherently wrong with achievement motives across all registry-worldviews/dimensions conventional constructs as of human finite aspirations whether socially, professionally, family-wise, hedonic, etc. However, with regards to a prior registry-worldview's/dimension's ⟨amplituding/formative⟩wooden-language-⟨imbued—averaging-of-thought-⟨as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications⟩⟩ denaturing of meaningfulness-and-teleology so construed prospectively, whether as of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism or procrypticism, such motives are necessarily superseded-and-overridden or subsumed-as-supplanted or transvaluated in the bigger picture of human eternalising aspiration as of the intemporal/longness-of-register-of-meaningfulness-and-teleology individuation mental-disposition of 'inventing' the successive becoming possibilities in reflecting the ontological-contiguity—of-the-human-institutionalisation-process as inducing successively base-institutionalisation, universalisation, rational-empiricism/positivism and prospectively deprocrypticism; as going by 'contingent ontologising-capacity driven apriorising/axiomatising/referencing–psychologism as of the grander ontological-normalcy/postconvergence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument' across retrospective and by implication prospective registry-worldviews/dimensions. In order words, the most vital human activities has to do, whether as of a consciously aware or unconscious nature, with the 'Intemporal-prioritisation-of-reference-of-thought'–as-conflatedness-or-ontological-reprojecting that enables human memetic-rescheduling (institutional-recomposure/psychoanalytic-unshackling) as from recurrent-utter-uninstitutionalisation to present day positivism–procrypticism and prospectively

deprocrypticism; together with the idea that by the very intemporal essence of that 'inventing' it is inappropriate to construe such institutional-being-and-craft construct as a framework of temporal extricatory paradigm relationship with meaningfulness-and-teleology (undermining the implied reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ontological-normalcy/postconvergence, by adhering by flaw rather to the <~~amplituding~~/formative>wooden-language-⟨imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology⟩ as deterministic thus subknowledging/mimicking the non-veridical hollow/empty form of the meaning of narratives, and strangely enough 'reflecting' the uninstitutionalised-threshold, represented ontologically as decentered and preconverging-or-dementing–apriorising-psychologism), but rather appreciative of the intemporal mental-disposition (as ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality) behind the mental projection associated with and contributing to such institutional-being-and-craft 'inventing'. But then transcendental constructs of meaningfulness going beyond the 'conventioning limits' of a given registry-worldview/dimension by definition are not actually perceived as 'most critical in value' going by 'intradimensional conventions' which define registry-worldviews/dimensions ontological and virtue limits; the effort of a Socrates, Galileo, Diderot, Copernicus as of implying a prospective reference-of-thought of meaningfulness, is an afterthought social recognition by the prospective registry-worldview's/dimension's reference-of-thought institutionalisation, not the social recognition of their own registry-worldview's/dimension's reference-of-thought (as the prior/transcended/superseded), as transcendental meaningfulness-and-teleology involves psychical and institutional

recomposuring of high contrariety implications to human temporality/shortness as putting into question the present as prior/old, but then the vocation of all transcendence as all knowledge is not about being responsive to the mortals that we are (including this author's mortality as anyone's else) as of social-aggregation-enabling but rather responsive to relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating of an intersolipsistic nature. It is equally important to grasp that transcendence is the more profound origination of reference-of-thought that enables knowledge conceptualisations, and that the praxis of knowledge may naively be construed as non-transcendental. So all knowledge is actually transcendental and this is not to be confused with its distance/remoteness as coming from the 'transcendental origination of the reference-of-thought of the knowledge' (whether as base-institutionalisation, universalisation, positivism or prospectively deprocrypticism knowledge), and the idea of neutral/equable knowledge is a 'mental complex of institutional inherence' arising from incrementalism-in-relative-ontological-incompleteness naivety, as if a given institutionalised reference-of-thought for knowledge has always been that way. By its very nature as construed from relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating and not social-aggregation-enabling, transcendence (transcendental knowledge) cannot be construed as a neutral/equable exercise that doesn't involve contrariety, as it implies superseding the prior reference-of-thought–categorical-imperatives/axioms/registry-teleology with the prospective one for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (as psychoanalytic-unshackling/memetic-reordering/institutional-recomposure) maximalising-recomposuring-for-relative-ontological-completeness <s>amplituding</s>/formative>epistemic-totalising~renewing-realisation/re-perception/re-thought, in contrast to a naïve incrementalism-in-relative-ontological-incompleteness mental-reflex. The idea that knowledge-as-virtue will be obtained neutrally and be inserted in the social-construct
