

How to get rid of a debt based money system.

Answer: Coupon system. (electronic)

Coupons with an expiry date on them and ``self-destruct`` after the expiry date.

Coupons for basic necessities. Food, housing, transportation, health system.

Greed can be incorporated within that system (better food, housing, car etc.) if humanity requires it.

Personally I think it is best to get rid of greed and have all basics covered for everyone. It would also put far less strain on the person or organization (government, state) that issues them.

Don't forget my coupons for beer.
